3. *Expiration date.* This regulation expires September 30, 1977, unless sooner revised or superseded. Before the expiration date, this regulation will be codified in the permanent regulations of the General Services Administration (GSA) appearing in Title 41 CFR, Public Contracts and Property Management.

4. *Applicability.* The provisions of this regulation apply to executive agencies as defined in subparagraph 5b.

5. *Background.* a. Title III of the Energy Policy and Conservation Act of 1975, adds Title V, Improving Automotive Efficiency, to the Motor Vehicle Information and Cost Savings Act (Act), (15 U.S.C. 1901 et seq.). It is now mandatory that all passenger automobiles acquired by executive agencies for fiscal year 1977 (October 1, 1976, or thereafter) achieve a fleet average fuel economy of not less than 18 miles per gallon, or the average fuel economy standard applicable under sec. 502(a) of the Act for the model year shown in the following table, whichever is greater:

Fiscal year:	*Miles per gal*
1978	18.0
1979	19.0
1980	20.0
1981–1984	(1)
1985 and thereafter	27.5

[1] To be determined by the Secretary of Transportation.

[2] The requirements of paragraph (d) applied to rate schedules covering "the transmission or sale of firm power for resale to an all-requirements customer, whether filed as an initial rate schedule in accordance with Section 35.12 or whether filed as a change in accordance with Section 35.13 where such change is to an existing rate schedule whose term has expired, or where the term is to be extended * * *." Rate schedules tendered for filing prior to March 1, 1976, were expresaly excluded from the requirements of subsection (d).

[3] Order No. 541–A, Docket No. RM74–15.

[4] Pioneer Power & Light Company, Cross Plains Electric Company, City of Stoughton, City of Columbus, City of Princeton, City of Shullsburg.

V41I198 OCT 12 76 UMI

b. As prescribed in the Act and as used in this regulation:

(1) "Fleet average fuel economy" means the total number of passenger automobiles acquired during a fiscal year by executive agencies (excluding passenger automobiles designed to perform combat related missions for the Armed Forces or designed to be used in law enforcement work or emergency rescue work) divided by a sum of terms, each term of which is a fraction created by dividing the number of passenger automobiles so acquired of a given model type, by the fuel economy of that model type.

(2) "Executive agency" means an executive department, a Government corporation, or an independent establishment.

(3) "Acquired" means purchased or leased for a period of 60 continuous days or more, but does not include passenger automobiles obtained on assignment from the Interagency Motor Pool System.

(4) "Passenger automobiles" means those automobiles (other than automobiles capable of off-highway operation) which the Secretary of Transportation determines by rule are manufactured primarily for use in the transportation of not more than 10 individuals. For purposes of this temporary regulation passenger automobiles shall mean those vehicles within the purview of Federal Specifications KKK–A–811 (Sedans), KKK–A–850 (Station Wagons), and comparable military specifications. Upon determination by the Secretary of Transportation, additional vehicles may be included in this definition.

6. *Policy and procedures.* In compliance with Pub. L. 94–163 and Executive Order 11912, dated April 13, 1976, policy and procedures governing the acquisition of passenger automobiles by executive agencies beginning in fiscal year 1977 are set forth in attachment A. Additionally, requisitions submitted to GSA for new passenger automobiles other than type I standard passenger automobiles shall be in conformance with the requirements of § 101–26.501.

7. *Exemptions.* Requests for exemptions from the provisions of these requirements shall be submitted in writing by the head of the agency to the Administrator of General Services for review and final determination.

8. *Agency comments.* Agency comments with regard to clarification of the policy and procedures in this regulation may be sent to the General Services Administration (FFY), Washington, DC 20406, no later than 60 calendar days after the date of this publication for possible incorporation into the permanent regulation.

9. *Reports.* The report required by this regulation is in conformance with the provisions of FPMR 101–11.11 and has been assigned Interagency Report Control Number 0121–GSA–OT.

Dated: October 1, 1976

JACK ECKERD,
Administrator of General Services.

ATTACHMENT A—ACQUISITION OF FUEL EFFICIENT PASSENGER AUTOMOBILES

1. *Authority.* Executive Order 11912, dated April 13, 1976, designates and empowers the Administrator of General Services to perform without approval, ratification, or other action by the President, the functions vested in the President by section 510 of the Motor Vehicle Information and Cost Savings Act, as amended (89 Stat. 915, 15 U.S.C. 2010).

2. *Implementation.* In compliance with Executive Order 11912, GSA will administer a consolidated Federal fleet plan for passenger automobiles acquired by executive agencies. The plan will be based on forecasts of total passenger automobile acquisition requirements by vehicle type submitted by executive agencies to GSA at the beginning of each fiscal year. This forecast will serve as substantiation that individual agency acquisition plans are in conformance with the Act. GSA will administer the plan by maintaining a master record of the miles per gallon rating for passenger automobiles actually acquired by each agency during the fiscal year. Every 3 months each agency will be furnished a listing of automobiles acquired together with the cumulative vehicle fleet average fuel economy attained. These listings may be used for comparison with the acquisition forecasts and to adjust future vehicle procurements, if necessary, to comply with the Act by the end of the fiscal year. The Federal fleet plan will enable GSA to predict the total fleet average fuel economy to be achieved by all executive agencies prior to the end of the fiscal year and to provide management assistance to agencies, when necessary, to ensure compliance with the Act. Forecasts of planned acquisitions will be forwarded to the General Services Administration (FZ), Washington, DC 20406, in the format illustrated in attachment B. Interagency Report Control Number 0121–GSA–OT has been assigned to this requested forecast. The miles per gallon ratings to be used in the forecast are illustrated in attachment C.

3. *Agency responsibilities.* a. Executive agencies shall furnish GSA a forecast of the total passenger automobile acquisition requirements for the fiscal year based on the latest applicable edition of the Gas Mileage Guide issued jointly by the U.S. Environmental Protection Agency and the Federal Energy Administration. Copies of this guide, as well as a guide for automobiles sold in California, may be obtained by writing the Office of Vehicle and Driver Programs, OTAP, Energy Conservation and Enivronment, Federal Energy Administration, Washington, D.C. 20461, or "Fuel Economy," Pueblo, Colo. 81009. A sample calculation to clarify how the fleet average fuel economy is obtained is illustrated in attachment D.

b. The forecast of the total agency passenger automobile acquisition shall include automobiles to be procured or leased for use in the conterminous United States, Alaska, Hawaii, Guam, Virgin Islands, Puerto Rico, and the Canal Zone. The forecast shall not include passenger automobiles designed to perform combat related missions for the Armed Forces or designed to be used in law enforcement work or emergency rescue work.

c. In order to maintain a master record of all leased passenger automobiles, agencies shall forward to the General Services Administration (FZ), Washington, D.C. 20406, copies of all agreements for the leasing of passenger automobiles for a period of 60 continuous days or more. If the lease agreement does not provide the following information, it shall be submitted as an attachment to the lease.

(1) Year.
(2) Make.
(3) Model.
(4) Transmission type.
(5) Cubic inch displacement.
(6) Fuel system-carburetor (barrels/fuel injection).
(7) If leased in California.

4. *GSA responsibilities.* a. GSA will incorporate into the Federal fleet plan forecasts of passenger automobile acquisition requirements received from executive agencies. GSA assistance may be requested in preparing forecasts prior to submission.

b. Every 3 months, beginning March 1, 1977, GSA will furnish each agency a listing showing the status of passenger automobiles acquired together with the fleet average fuel economy achieved. This information will enable agencies to determine the extent to which it is in conformance with the forecast submitted originally to GSA and make adjustments to the agency acquisition plans, where necessary, to ensure that the miles per gallon rating is achieved for the fiscal year in question.

c. Submission of requisitions for procurement or requests for authority to lease passenger automobiles which, in the opinion of GSA, will result in non-compliance with the fleet average fuel economy by the end of the fiscal year, may result in a directive that the planned acquisition be held in abeyance pending adjustment to the agency acquisition plan.

ATTACHMENT B—SAMPLE AGENCY ACQUISITION FORECAST

General Services Administration (FZM), Washington, D.C. 20406.

The forecast of the total passenger automobiles to be acquired (procured or leased for 60 continuous days or more, but not obtained from the Interagency Motor Pool System) by ---------- during fiscal year (agency)
1977 is as follows:

Sedan, Sub-compact—Standard four or six cylinders, automatic transmission.
350—49 States where the lowest EPA–FEA city/highway fuel economy rating is 21 miles per gallon.
50—California where the lowest EPA–FEA city/highway fuel economy rating is 16 miles per gallon.
Sedan, Compact—Standard six cylinders, automatic transmission.
275—49 States (19 m.p.g.).
25—California (16 m.p.g.).
Sedan, Compact—Standard eight cylinders, automatic transmission.
75—49 States (16 m.p.g.).
25—California (13 m.p.g.).
Station wagon, Intermediate—Standard eight cylinders, automatic transmission.
50—49 States (14 m.p.g.).

Excluding passenger automobiles designed to perform combat related missions for the Armed Forces or designed to be used in law enforcement work or emergency rescue work, the total planned acquisitions of passenger automobiles for fiscal year 1977 are calculated to yield a fleet average fuel economy of 18.5 miles per gallon.

Interagency Report Control Number 0121–GSA–OT is assigned to this forecast.

ATTACHMENT C—MILES PER GALLON RATINGS TO BE USED IN FORECASTING TOTAL FLEET PASSENGER AUTOMOBILE ACQUISITIONS FOR FISCAL YEAR 1977

1. Forecasts of total agency passenger automobile acquisitions for fiscal year 1977 shall be based on the model types of passenger automobiles listed in this attachment. The miles per gallon ratings shown in the listing represent the lowest fuel economy for city/highway driving as illustrated in the 1976 Gas Mileage Guides.

2. Each executive agency submitting a forecast of total agency passenger automobile acquisitions will receive from GSA the EPA–FEA 1977 miles per gallon ratings when this information is made available from the U.S. Environmental Protection Agency (scheduled for late September 1976).

3. When the GSA quarterly listings indicate that the agency fleet average fuel economy is not in conformance with the 18 miles per gallon objective, agencies should revise acquisition plans accordingly. The EPA–FEA 1977 miles per gallon ratings should be used when such revisions are necessary.

Passenger automobile model types and ratings

Passenger automobile model type	City/highway fuel economy miles per gallon	
	49 States	California
Subcompact sedan, such as AMC Gremlin, Chevrolet Vega, and Ford Pinto:		
Standard 4 or 6 cylinders:		
Manual	21	20
Automatic	21	16
Extra power 4 or 6 cylinders:		
Manual	19	18
Automatic	19	16
Compact sedan, such as AMC Hornet, Chevrolet Nova, and Ford Maverick.		
Standard 6 cylinders:		
Manual	20	18
Automatic	19	16
Extra power 6 cylinders:		
Manual	20	18
Automatic	19	16
Standard 8 cylinders:		
Manual	17	14
Automatic	16	13
Intermediate sedan, such as AMC Matador, Chevrolet Chevelle, and Plymouth Fury:		
Standard 6 cylinders:		
Manual	17	17
Automatic	17	17
Standard 8 cylinders: Automatic	14	13
Extra power 8 cylinders: Automatic	14	12
Highest power 8 cylinders: Automatic	12	11
Regular sedan, such as Chevrolet Impala, Ford Torino, and Plymouth Gran Fury.		
Standard 8 cylinders: Automatic	14	13
Extra power 8 cylinders: Automatic	14	12
Highest power 8 cylinders: Automatic	13	11
Subcompact station wagon, such as Chevrolet Vega Kammback and Ford Pinto Wagon:		
Standard 4 cylinders:		
Manual	25	22
Automatic	22	22
Extra power 4 or 6 cylinders:		
Manual	26	22
Automatic	19	13
Compact station wagon, such as AMC Hornet Wagon and Plymouth Volare Wagon:		
Standard 6 cylinders:		
Manual	20	20
Automatic	19	16
Extra power 6 cylinders:		
Automatic	19	15
Standard 8 cylinders:		
Manual	17	
Automatic	15	14

Standard 8 cylinders:		
Automatic	14	13
Extra power 8 cylinders:		
Automatic	14	12
Highest power 8 cylinders:		
Automatic	12	11

ATTACHMENT D—ILLUSTRATION OF SAMPLE CALCULATION

1. The method used to determine the fleet average fuel economy arrived at in attachment B of this temporary regulation is illustrated in Table 1 below.

2. For purposes of this calculation the passenger automobiles listed in Table 2 below have been selected from the current Federal Standard No. 122, Automobiles, Sedans, and Station Wagons.

3. The specific vehicles to be procured or leased are not known in advance, therefore, the lowest fuel economy of any vehicle in the model type is selected for this calculation. These vehicles are designated by an asterisk in Table 2.

TABLE 1

As used in this calculation, "fleet average fuel economy" means the total number of passenger automobiles to be acquired, divided by a sum of terms, each term of which is a fraction created by dividing the number of passenger automobiles of a given model type, by the fuel economy of that model type.

The fleet average fuel economy shown in attachment B has been calculated as follows:

Total number of passenger automobiles (850) divided by:
1. Sub-compacts for use in 49 States (350) divided by 21 m.p.g., plus
2. Sub-compacts for use in California (50) divided by 16 m.p.g., plus
3. Compacts, 6 cyl., for use in 49 States (275) divided by 19 m.p.g., plus
4. Compacts, 6 cyl., for use in California (25) divided by 16 m.p.g., plus
5. Compacts, 8 cyl., for use in 49 States (75) divided by 16 m.p.g., plus
6. Compacts, 8 cyl., for use in California (25) divided by 13 m.p.g., plus
7. Station Wagons, 8 cyl., for use in 49 States (50) divided by 14 m.p.g.

$$= \frac{850}{\frac{350}{21}+\frac{50}{16}+\frac{275}{19}+\frac{25}{16}+\frac{75}{16}+\frac{25}{13}+\frac{50}{14}}$$

$$= \frac{850}{16.67+3.13+14.47+1.56+4.69+1.92+3.57}$$

$$= \frac{850}{46.01} = 18.47 \text{ miles per gallon}$$

= 18.5 miles per gallon (rounded to the nearest 0.1 miles per gallon)

TABLE 2.—*City/highway fuel economy as shown in 1976 Gas Mileage Guide for New Car Buyers*

Manufacturer—Car line	Cylinders	Transmission	Fuel economy	
			49 States	California
Subcompact, standard engine:				
AMC Gremlin	6	A	[1] 21	[1] 16
Chevrolet Monza	4	A	22	22
Chevrolet Vega	4	A	22	22
Ford Mustang II	4	A	26	25
Ford Pinto	4	A	26	25
Mercury Bobcat	4	A	26	25
Pontiac Astre	4	A	22	22
Compact, standard engine:				
AMC Hornet	6	A	[1] 19	[1] 16
Chevrolet Nova	6	A	20	17
Dodge Dart	6	A	21	17
Ford Maverick	6	A	20	18
Mercury Comet	6	A	20	18
Plymouth Valiant	6	A	21	17
Compact, eight cylinder engine:				
AMC Hornet	8	A	[1] 16	15
Chevrolet Nova	8	A	17	14
Dodge Dart	8	A	18	[1] 13
Ford Maverick	8	A	[1] 16	16
Mercury Comet	8	A	[1] 16	16

PRIVACY ACT OF 1974

Corrections to Systems of Records

On August 24, 1976, there was published in the FEDERAL REGISTER (41 FR 35767 through 35769) a notice to clarify the routine uses of the systems of records identified as GSA/ADTS 4, Emergency Notification Files; and GSA/ADTS 8, Key Personnel and Essential Residence Telephone Directory.

The public was given the opportunity to submit, not later than September 23, 1976, written comments concerning the additional routine uses. No comments were received and the proposed additional routine uses are hereby adopted.

Dated at Washington, D.C. on September 30, 1976.

G. C. GARDNER,
Director of Administration.

[FR Doc.76-29882 Filed 10-8-76;8:45 am]

INTERNATIONAL TRADE COMMISSION

[TA-201-18]

FOOTWEAR

Investigation and Hearing

Investigation instituted. Following receipt on September 28, 1976, of a resolution of the Committee on Finance of the Senate for a new investigation pursuant to section 201(b)(1) of the Trade Act of 1974 (Trade Act), the United States International Trade Commission on October 5, 1976, having determined good cause to exist for a reinvestigation within 1 year pursuant to section 201(e) of the Trade Act, instituted such an investigation to determine whether footwear, provided for in items 700.05 through 700.85, inclusive (except items 700.51, 700.52, 700.53, and 700.60), of the Tariff Schedules of the United States, is being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industry producing an article like or directly competitive with the imported article.

Investigation to be expedited. It is the intention of the Commission to expedite its investigation in this matter and to submit its report to the President as soon as possible.

Public hearing ordered. A public hearing in connection with this investigation will be held in Washington, D.C., at 10 a.m., e.s.t., on Tuesday, December 7, 1976, in the Hearing Room, United States International Trade Commission Building, 701 E Street NW. Requests for appearances at the hearing should be received in writing by the Secretary of the Commission at his office in Washington, D.C., not later than noon, Thursday, December 2, 1976.

By order of the Commission.

Issued: October 5, 1976.

KENNETH R. MASON,
Secretary.

[FR Doc.76-29733 Filed 10-8-76;8:45 am]

MUSHROOMS

Investigation and Hearing

Investigation instituted. Following receipt on September 20, 1976, of a request by the Special Representative for Trade Negotiations for a new investigation pursuant to section 201(b)(1) of the Trade Act of 1974 (Trade Act), the United States International Trade Commission on October 5, 1976, having determined good cause to exist for a reinvestigation within 1 year pursuant to section 201(e) of the Trade Act, instituted such an investigation to determine whether mushrooms, prepared or preserved, except fresh or dried, provided for in item 144.20 of the Tariff Schedules of the United States, are being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industry producing an article like or directly competitive with the imported article.

Investigation to be expedited. The Special Representative also requested that the Commission issue its report in connection with this investigation on a highly expedited basis. The Commission will expedite its investigation and issue its report as soon as possible.

Public hearing ordered. A public hearing in connection with this investigation will be held in Washington, D.C., at 10 a.m., e.s.t., on Thursday, November 11, 1976, in the Hearing Room, United States International Trade Commission Building, 701 E Street NW. Requests for appearances at the hearing should be received in writing by the Secretary of the Commission at his office in Washington, D.C., not later than noon, Friday, November 5, 1976.

Issued: October 5, 1976.

By order of the Commission.

KENNETH R. MASON,
Secretary.

[FR Doc.76-29734 Filed 10-8-76;8:45 am]

[322-80]

PROBABLE ECONOMIC EFFECT OF THE PROVISIONS OF H.R. 14600 AND THE NEED TO PROTECT A DOMESTIC INDUSTRY

Investigation and Public Hearing

In response to a request dated September 14, 1976, by the Committee on Ways and Means of the House of Representatives, the United States International Trade Commission instituted an investigation on October 1, 1976 under section 332(g) of the Tariff Act of 1930, as amended (19 U.S.C. 1332(g)), to determine the probable economic effect of the provisions of H.R. 14600 (a bill to amend the Tariff Schedules of the United States (19 U.S.C. 1202) with respect to the tariff treatment accorded to technologically advanced, high-precision watches and watch movements) and the need to protect a domestic industry, as more fully set forth in the following resolution of the Committee:

Resolved, That the United States International Trade Commission shall make an investigation, pursuant to section 332(g) of the Tariff Act of 1930, to determine the probable economic effect of the provisions of H.R. 14600 and the need to protect a domestic industry. In conducting such an investigation, the Commission should report upon—

(1) The extent to which U.S. consumption of watch movements not having a balance wheel and hairspring (so-called nonconventional watches) or parts, components, assemblies or subassemblies thereof, is being supplied by domestic production and by imports (including the extent to which parts or components originating in the United States are being incorporated in imports);

(2) The effects, if any, on U.S. international trade of an increase in U.S. duties on nonconventional watches and components;

(3) The effects on U.S. employment (in companies making both conventional and nonconventional watches and components and parts thereof) of current and anticipated levels of importation of nonconventional watches, and

(4) The effects, if any, on competition and market shares in the United States of an increase in nonconventional watch duties, and the effects of such an increase on consumer prices.

In conducting this investigation, the Commission shall solicit and consider the views of interested parties and, if appropriate, hold public hearings.

The Commission shall submit a written report on this investigation to the Committee on Ways and Means at the earliest possible date, but not later than March 31, 1977.

A public hearing in connection with the investigation will be held in the Commission's Hearing Room, United States International Trade Commission Building, 701 E Street, NW., Washington, D.C., beginning at 10 a.m., e.s.t., on January 4, 1977. All interested parties will be given an opportunity to be present, to produce evidence, and to be heard at such hearing. Requests to appear at the public hearing should be received by the Secretary of the Commission at his office in Washington, D.C., not later than noon, Thursday, December 30, 1976.

Issued: October 5, 1976.

By order of the Commission.

KENNETH R. MASON,
Secretary.

[FR Doc.76-29735 Filed 10-8-76;8:45 am]

JOINT BOARD FOR THE ENROLLMENT OF ACTUARIES

ADVISORY COMMITTEE ON JOINT BOARD ACTUARIAL EXAMINATIONS

Establishment

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463) and Office of Management and Budget (OMB) Circular No. A-63, Revised, it is hereby determined that the establishment of the Advisory Committee on Joint Board Actuarial Examinations is in the public interest in connection with the performance of duties imposed on the Joint Board by the Employee Retirement Income Security Act of 1974 (Pub. L. 93-406) (ERISA). This determination follows consultation with the Office of Management and Budget pursuant to section 9(a)(2) of the Federal Advisory Committee Act and OMB Circular No. A-63, Revised.

1. *Name of Group.* Advisory Committee on Joint Board Actuarial Examinations (the Advisory Committee).

2. *Purpose.* The purpose of the Advisory Committee is to assist the Joint Board in fulfilling a responsibility with which it is charged by ERISA. That responsibility is to establish standards and qualifications for individuals performing actuarial services with respect to plans to which ERISA applies and enroll individuals found to satisfy such standards and qualifications. One of such standards and qualifications is education and training in actuarial mathematics and methodology.

One method of satisfying the aforesaid requirement is successful completion of an examination to be given by the Joint Board. The Advisory Committee will discuss the philosophy of and topics appropriately covered by such examinations, and will submit to the Joint Board proposed examination questions. The Joint Board will take all such discussion and all questions so submitted under advisement and will then select both the topics to be covered and specific questions to appear on each examination administered.

An additional method of satisfying the aforesaid requirement is successful completion of other actuarial examinations deemed by the Joint Board to be adequate for this purpose. The Advisory Committee will review such other examinations and submit to the Joint Board its recommendation regarding their adequacy. The Joint Board will make the final decision on adequacy.

3. *Effective date of establishment and duration.* The establishment of the Advisory Committee is effective upon filing of its charter with the Chairman, Joint Board for the Enrollment of Actuaries, and with the standing committees of Congress having legislative jurisdiction of the Joint Board. The Advisory Committee will continue in existence for two years from its effective date, subject to renewal for additional periods of time.

4. *Membership.* The Joint Board will take steps to insure maximum practicable representation on the Advisory Committee of points of view regarding the Joint Board's actuarial examinations extant in the community of actuaries experienced in writing examinations. However, membership will be limited to actuaries previously enrolled by the Joint Board so that individuals who may take the Joint Board's actuarial examinations in the future will not be prematurely exposed to questions which may appear on such examinations. The Advisory Committee will be comprised of no more than eight members. Enrolled actuaries interested in serving on the Advisory Committee should express their interest and state their qualifications in a letter addressed to:

Joint Board for the Enrollment of Actuaries,
c/o U.S. Department of the Treasury,
Washington, D.C. 20220.

The deadline for accepting applications will be on or before November 11, 1976.

ROWLAND E. CROSS,
Chairman, Joint Board for the Enrollment of Actuaries.

OCTOBER 6, 1976.

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR ANTHROPOLOGY

Meeting

In accordance with the Federal Advisory Committee Act, P.L. 92-463, the National Science Foundation announces the following meeting:

Name: Advisory Panel for Anthropology.
Date and time: October 28, 29, 30, 1976, 9 a.m. each day.
Place: Rm 628, National Science Foundation, 1800 G St. NW, Washington, D.C.
Type of meeting: Part open—Open 1:30-5:00 p.m.—Oct. 29; Closed—Balance of the meeting.
Contact person: Dr. Nancie L. Gonzalez, Program Director for Anthropology, Rm 320, National Science Foundation, Washington, D.C. 20550, telephone 202-632-4208.
Summary minutes: (Open Portion) May be obtained from the Committee Management Coordination Staff, Division of Personnel and Management, Rm. 214, National Science Foundation, Washington, D.C. 20550.
Purpose of panel: To provide advice and recommendations concerning support for research in Anthropology.
Agenda: October 28, 9 a.m.-5 p.m.; October 29, 9 a.m.-12 noon; Closed—October 30, 9 a.m.-5 p.m. The panel will be reviewing and evaluating research proposals and projects as part of the selection process for awards.

OCTOBER 29, 1976, 1:30-5:00 P.M.

Open

(1) Conference on Radiocarbon Dating Archeology
(2) Preservation of Ethnographic and Archeological Museum Collections
(3) Archeological Data Banks
(4) Natural History Approaches versus Experimental Approaches in Science: (a) Social Anthropology, (b) Archeology; (c) Physical Anthropology.
(5) Practical and Ethical Implications of Political Limitations on Research Abroad

Reason for closing: The proposals and projects being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals and projects. These matters are within exemptions (4) and (6) of 5 U.S.C. 552 (b), Freedom of Information Act. The rendering of advice by the panel is considered to be part of the Foundation's deliberative process and is thus subject to exemption (5) of the Act.
Authority to close meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10 (d) of P.L. 92-463. The Committee Management Officer was delegated the authority to make determinations by the Director, NSF, on February 11, 1976.

M. REBECCA WINKLER,
Acting Committee Management Officer.

OCTOBER 6, 1976.

[FR Doc.76-29878 Filed 10-8-76;8:45 am]

ADVISORY PANEL FOR SYSTEMATIC BIOLOGY

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Advisory Panel for Systematic Biology.
Date and time: October 28 and 29, 1976—8:30 a.m. to 5:00 p.m. each day.
Place: Room 338, National Science Foundation, 1800 G Street, NW., Washington, D.C.
Type of meeting: Closed.
Contact person: Dr. John W. Wright, Program Director, Systematic Biology Program, Rm. 336, National Science Foundation, Washington, D.C. 20550, telephone (202) 632-5846.
Purpose of panel: To provide advice and recommendations concerning support for research in systematic biology.
Agenda: To review and evaluate research proposals and projects as part of the selection process for awards.
Reason for closing: The proposals and projects being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals and projects. These matters are within exemptions (4) and (6) of 5 U.S.C. 552(b), Freedom of Information Act. The rendering of advice by the panel is considered to be a part of the Foundation's deliberative process and is thus subject to exemption (5) of the Act.
Authority to close meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of P.L. 92-463. The Committee Management Officer was delegated the authority to make determinations by the Director, NSF, on February 11, 1976.

M. REBECCA WINKLER,
Acting Committee Management Officer.

OCTOBER 6, 1976.

RESEARCH APPLIED TO NATIONAL NEEDS PROGRAM (RANN)

Symposium

The Research Applied to National Needs Program (RANN) of the National Science Foundation is sponsoring a symposium to be held at the Washington Hilton Hotel, Washington, D.C. no November 8 and 9, 1976.

The Symposium is to provide information and discussion on results of RANN-supported research for users in industry and Federal, state and local governments, and researchers, and to describe emerging emphases in the RANN pro-

V41 I198 OCT 12 76 UMI

gram. Presentations will be designed for a general audience.

Though this symposium is not considered to be a meeting of an "advisory committee" as that term is defined in Sec. 3 of the Federal Advisory Committee Act (Pub. L. 92–463), the symposium is believed to be of sufficient importance and interest to the general public to be announced in the FEDERAL REGISTER as a meeting open for public attendance and observation. Topics to be discussed include:

Food Production and Delivery: Interactions with Energy and the Environment.
Increasing Crop Productivity: Applications of Photosynthetic Conversion.
Nonconventional Sources of Protein.
Impact of Government Regulation on Food.
The Private Sector: Problem Solution Through Industry-University Cooperative Research.
Private Sector Productivity Improvement.
Regulation of Financial Institutions.
The Public Sector: Problem Identification and Solution at the Local Level.
Priority Problems of State and Local Government.
Municipal Waste as a Resource.
Local Government Service Delivery.
Increasing Productivity Through Telecommunications.
Reducing Damage from Earthquakes.
Societal Responses to Natural Hazards.
Environmental Design.
Society and Its Interactions with Technology.
Inflation and Public Policy.
International Resources Interdependence.

All sessions will be open to the public. For further information, please contact John B. Talmadge, Director for Communication Program, Division of Intergovernmental Science and Public Technology, Rm. 1108, Research Applications Directorate, National Science Foundation, Washington, D.C. 20550, telephone (202) 634–4333.

M. REBECCA WINKLER,
Acting Committee Management Officer.

OCTOBER 6, 1976.

[FR Doc.76–29879 Filed 10–8–76;8:45 am]

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS, SUBCOMMITTEE ON THE FLOATING NUCLEAR PLANT

Meeting

In accordance with the purposes of Sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the ACRS Subcommittee on the Floating Nuclear Plant will meet on October 27 and 28, 1976 at the Quality Inn, 3249 W. Century Boulevard, Los Angeles, CA. The purpose of this meeting is to review the liquid pathway study, the Emergency Core Cooling System Analysis, and the probability analysis for shipping accidents as part of the review for a manufacturing license.

The agenda for subject meeting shall be as follows:

WEDNESDAY, OCTOBER 27, 1976

8:30 a.m.

The Subcommittee will meet in closed Executive Session, with any of its consultants who may be present, to exchange opinions and discuss preliminary views and recommendations relating to the above review.

10:30 a.m. until conclusion of business on October 27 and 8:30 a.m. until the conclusion of business on October 28, 1976

The Subcommittee will meet in open session to hear presentations by representatives of the NRC Staff, the Offshore Power Systems, and their consultants, and will hold discussions with these groups pertinent to the Floating Nuclear Plant.

At the conclusion of the open session, the Subcommittee may caucus in a brief, closed session to determine whether the matters identified in the initial closed session have been adequately covered and whether the project is ready for further review by the full Committee. During the session Subcommittee members and consultants will discuss their final opinions and recommendations on these matters. Upon conclusion of this caucus, the Subcommittee may meet again in brief open session to announce its determination.

In addition to these closed deliberative sessions, it may be necessary for the Subcommittee to hold one or more closed sessions for the purpose of exploring with the NRC Staff and Applicant matters involving proprietary information, particularly with regard to specific features of the plant design and plans related to plant security.

I have determined, in accordance with Subsection 10(d) of Public Law 92–463, that it is necessary to conduct the above closed sessions to protect the free interchange of internal views in the final stages of the Subcommittee's deliberative process (5 U.S.C. 552(b)(5) and to protect confidential proprietary or plant security information (5 U.S.C. 552(b)(4)). Separation of factual material from individuals' advice, opinions, and recommendations while closed Executive Sessions are in progress is considered impractical.

Practical considerations may dictate alterations in the agenda or schedule. The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda may do so by providing 15 readily reproducible copies to the Subcommittee at the beginning of the meeting. Comments should be limited to safety related areas within the Committee's purview.

Persons desiring to mail written comments may do so by sending a readily reproducible copy in time for consideration at this meeting. Comments postmarked no later than October 20, 1976 to Mr. G. R. Quittschreiber, ACRS, NRC, Washington, DC will normally be received in time to be considered at this meeting.

Background information concerning items to be considered at this meeting can be found in documents on file and available for public inspection at the NRC Public Document Room, 1717 H St., N.W., Washington, DC 20555, at the Jacksonville Public Library, 122 North Ocean Street, Jacksonville, FL 32204, at the New Orleans Public Library, 219 Loyola Avenue, New Orleans, LA 70140, and at the Stockton State College Library, Pomona, NJ 08240.

(6) Those persons wishing to make an oral statement at the meeting should make a written request to do so, identifying the topics and desired presentation time so that appropriate arrangements can be made. The Committee will receive oral statements on topics relevant to the Committee's purview at an appropriate time chosen by the Chairman of the Subcommittee.

(c) Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call on October 26, 1976, to the Office of the Executive Director of the Committee (telephone 202/634–1374, Attn: Mr. G. R. Quittschreiber) between 8:15 a.m. and 5:00 p.m., EDT.

(d) Questions may be propounded only by members of the Subcommittee and its consultants.

(e) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(f) Persons with agreements or orders permitting access to proprietary information may attend portions of ACRS meetings where this material is being discussed upon confirmation that such agreements are effective and relate to the material being discussed.

The Executive Director of the ACRS should be informed of such an agreement at least three working days prior to the meeting so that the agreement can be confirmed and a determination can be made regarding the applicability of the agreement to the material that will be discussed during the meeting. Minimum

information provided should include information regarding the date of the agreement, the scope of material included in the agreement, the project or projects involved, and the names and titles of the persons signing the agreement. Additional information may be requested to identify the specific agreement involved. A copy of the executed agreement should be provided to Mr. G. R. Quittschreiber of the ACRS Office, prior to the beginning of the meeting.

(g) A copy of the transcript of the open portion of the meeting will be available for inspection on or after November 4, 1976, at the NRC Public Document Room, 1717 H St., N.W., Washington, DC 20555, at the Jacksonville Public Library, 122 North Ocean Street, Jacksonville, FL 32204, at the New Orleans Public Library, 219 Loyola Avenue, New Orleans, LA 70140, and at the Stockton State College Library, Pomona, NJ 08240.

Copies of the minutes of the meeting will be made available for inspection at the NRC Public Document Room, 1717 H St., N.W., Washington, DC 20555 after January 28, 1977. Copies may be obtained upon payment of appropriate charges.

Date: October 4, 1976.

JOHN C. HOYLE,
Advisory Committee, Management Officer.

[Docket No. 50–368]

ARKANSAS POWER AND LIGHT CO. (ARKANSAS NUCLEAR ONE, UNIT NO. 2)

Order Extending Construction Completion Date

Arkansas Power and Light Company is the holder of Construction Permit No. CPPR–89 issued by the Atomic Energy Commission[1] on December 6, 1972 for construction of Arkansas Nuclear One, Unit No. 2 presently under construction at the Company's site in Pope County, Arkansas.

On August 19, 1976 the Company filed a request for an extension of the completion date because construction has been delayed due to (1) Availability of resources for construction activities, (2) Expansion of the project's scope, (3) Design modifications.

This action involves no significant hazards consideration; good cause has been shown for the delay; and the requested extension is for a reasonable period, the basis for which are set forth in a staff evaluation, dated September 28, 1976.

Copies of the above documents and other related material are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20555 and at the Arkansas Polytechnic College, Russellville, Arkansas 72801.

[1] Effective January 20, 1975, the Atomic Energy Commission became the Nuclear Regulatory Commission and Permits in effect on that day were continued under the authority of the Nuclear Regulatory Commission.

It is hereby ordered, That the latest completion date for CPPR–89 is extended from October 1, 1976 to January 1, 1978.

Date of Issuance: September 28, 1976.

For the Nuclear Regulatory Commission.

D. B. VASSALLO,
Assistant Director for Light Water Reactors Division of Project Management.

[FR Doc.76–29574 Filed 10–8–76;8:45 am]

[Docket Nos. 50–237 and 50–249]

COMMONWEALTH EDISON CO.

Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment Nos. 25 and 22 to Facility Operating License Nos. DPR–19 and DPR–25, respectively, issued to the Commonwealth Edison Company (the licensee), which revised Technical Specifications for operation of the Dresden Nuclear Power Station Units 2 and 3 (the facilities), located in Grundy County, Illinois. The amendments are effective as of their date of issuance.

These amendments revised the Technical Specifications to identify safety-related shock suppressors (snubbers) and include requirements regarding operability and surveillance of these snubbers.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since these amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) the applications for the amendments dated December 10, 1974, October 1, 1975, and March 17, 1976, (2) Amendment No. 25 to License No. DPR–19, (3) Amendment No. 22 to License No. DPR–25, and (4) the Commission's concurrently issued related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Morris Public Library, 604 Liberty Street, Morris, Illinois 60451. A single copy of items (2) through (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 29th day of September, 1976.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

[FR Doc.76–29560 Filed 10–8–76;8:45 am]

[Docket Nos. 50–237 and 50–249]

COMMONWEALTH EDISON CO.

Proposed Issuance of Amendments to Facility Operating Licenses

The Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to Facility Operating License Nos. DPR–19 and DPR–25 issued to Commonwealth Edison Company (the licensee) for operation of Unit Nos. 2 and 3 of the Dresden Nuclear Power Station (the facilities), boiling water reactors located in Grundy County, Illinois, and currently authorized to operate at 2527 megawatts (thermal).

In accordance with the licensee's application for a license amendment dated September 2, 1976, the amendments would impose operating limits in the Technical Specifications for single loop operation based upon an evaluation of ECCS performance calculated in accordance with an acceptable evaluation model, modified to apply to single loop conditions, that conforms to the requirements of the Commission's regulations in 10 CFR Section 50.46.

Prior to issuance of the proposed license amendments, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By November 11, 1976 the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendments to the subject facility operating licenses. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washing-

V41 I198 OCT 12 76 UMI

ton, D.C. 20555, and to John W. Rowe, Esquire, Isham, Lincoln and Beale, Counselors at Law, One First National Plaza, Chicago, Illinois 60603, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application for amendments dated September 2, 1976, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Morris Public Library, 604 Liberty Street, Morris, Illinois 60451.

Dated at Bethesda, Maryland, this 29th day of September 1976.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch Number 2, Division of Operating Reactors.

[FR Doc.76-29558 Filed 10-8-76;8:45 am]

[Docket Nos. 50-254 and 50-265]

COMMONWEALTH EDISON CO. AND IOWA-ILLINOIS GAS AND ELECTRIC CO.

Proposed Issuance of Amendments to Facility Operating Licenses

The Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to Facility Operating License Nos. DPR-29 and DPR-30 issued to Commonwealth Edison Company (the licensee) for operation of Unit Nos. 1 and 2 of the Quad Cities Nuclear Power Station (the facilities), boiling water reactors located in Rock Island County, Illinois, and currently authorized to operate at 2511 megawatts thermal).

In accordance with the licensee's application for a license amendment dated September 2, 1976, the amendments would impose operating limits in the Technical Specifications for single loop operation based upon an evaluation of ECCS performance calculated in accordance with an acceptable evaluation model, modified to apply to single loop conditions, that conforms to the requirements of the Commission's regulations in 10 CFR Section 50.46.

Prior to issuance of the proposed license amendments, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By November 11, 1976 the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendments to the subject facility operating licenses. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to John W. Rowe, Esquire, Isham, Lincoln and Beale, Counselors at Law, One First National Plaza, Chicago, Illinois 60603, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application for amendments dated September 2, 1976, which is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Moline Public Library, 504 17th Street, Moline, Ill. 60625.

Dated at Bethesda, Md., this 29th day of September 1976.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

[FR Doc.76-29557 Filed 10-8-76;8:45 am]

INTERNATIONAL ATOMIC ENERGY AGENCY DRAFT SAFETY GUIDE

Availability of Draft for Public Comment

The International Atomic Energy Agency (IAEA) is developing a limited number of internationally acceptable codes of practice and safety guides for nuclear power plants. These codes and guides will be developed in the following five areas: Government Organization, Siting, Design, Operations and Quality Assurance. The purpose of these codes and guides is to provide IAEA guidance to countries beginning nuclear power programs.

The IAEA Codes of Practice and Safety Guides are developed in the following way. The IAEA receives and collates relevant existing information used by member countries. Using this collation as a starting point, an IAEA Working Group of a few experts then develops a preliminary draft. This preliminary draft is reviewed and modified by the IAEA Technical Review Committee to the extent necessary to develop a draft acceptable to them. This draft Code of Practice or Safety Guide is then sent to the IAEA Senior Advisory Group which reviews and modifies the draft as necessary to reach agreement on the draft and then forwards it to the IAEA Secretariat to obtain comments from the member states.

As a part of this program, Safety Guide, SG-QA2, "Quality Assurance Record System," has been developed. The draft of this Safety Guide was approved by the IAEA Technical Review Committee on Quality Assurance which met in July 1976.

As the next step in its development, the draft Safety Guide is scheduled to be reviewed by the IAEA Senior Advisory Group at a meting in Vienna, Austria in February 1977. Comments received by November 30, 1976 will be useful to this review. Single copies of this draft may be obtained by a written request to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

(5 U.S.C. 522(a))

Dated at Rockville, Md., this 29th day of September 1976.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,
Director, Office of Standards Development.

[Docket No. 50-309]

MAINE YANKEE ATOMIC POWER CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 24 to Facility Operating License No. DPR-36, issued to Maine Yankee Atomic Power Company (the licensee), which revised Technical Specifications for operation of the Maine Yankee Atomic Power Station (the facility) located in Lincoln County, Maine. The amendment is effective as of its date of issuance.

This amendment revises the provisions in the Technical Specifications relating to surveillance of larval fishes in Montsweag Bay and Back River in that samples will now be taken once a month during September and twice a month during November of each year. The amendment also makes minor editorial changes.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated August 10, 1976, and (2) Amendment No. 24 to License No. DPR-36. Both of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Wiscasset Public Library Association, High Street, Wiscasset, Maine. A copy of item (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 27th day of September 1976.

For the Nuclear Regulatory Commission.

ROBERT W. REID,
Chief, Operating Reactors Branch No. 4, Division of Operating Reactors.

[Docket No. 50-298]

NEBRASKA PUBLIC POWER DISTRICT

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 28 to Facility Operating License No. DPR-46, issued to Nebraska Public Power District (the licensee), which revised Technical Specifications for operation of the Cooper Nuclear Station (the facility) located in Nemaha County, Nebraska. The amendment is effective as of its date of issuance.

The amendment revised temporary restrictions in the Technical Specifications for the facility to permit, under certain conditions, the machining of alternate flow path holes in irradiated fuel bundle lower tie plates at the Cooper Nuclear Station site by means of electrical-discharge machining.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated August 20, 1976, (2) Amendment No. 28 to License No. DPR-46, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street N.W., Washington, D.C. and at the Auburn Public Library, 118 15th Street, Auburn, Nebraska 68305.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 27th day of September 1976.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

[Doc. Nos. STN 50-568 and STN 50-569]

NEW ENGLAND POWER COMPANY, ET AL.

Hearing on Application for Construction Permits

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), and the regulations in Title 10, Code of Federal Regulations, Part 50, "Licensing of Production and Utilization Facilities," Part 51, "Licensing and Regulatory Policy and Procedures for Environmental Protection," and Part 2, "Rules of Practice," notice is hereby given that a hearing will be held before an Atomic Safety and Licensing Board (Board), to consider the application filed under the Act by the New England Power Company, (the applicants) acting for itself and 30 other utilities, for construction permits for two pressurized nuclear reactors designated as NEP-1 and NEP-2 (the facilities), each of which will be designed for operation at 3411 thermal megawatts with a net electrical output of approximately 1194 megawatts. The proposed facilities are to be located in Washington County, at Charlestown, Rhode Island approximately 8½ miles east of the center of Westerly, Rhode Island. Providence, Rhode Island is approximately 35 miles north of the site.

The hearing, which will be scheduled to begin in the vicinity of the site of the proposed facilities, will be conducted by an Atomic Safety and Licensing Board (Board), which has been designated by the Chairman of the Atomic Safety and Licensing Board Panel. The Board consists of Marshall E. Miller, Esq., Chairman, Dr. Emmeth A. Luebke, member and Dr. Oscar H. Paris, member.

Pursuant to 10 CFR 2.785, an Atomic Safety and Licensing Appeal Board will exercise the authority and the review function which would otherwise be exercised and performed by the Commission. Notice as to the membership of the Appeal Board will be published in the FEDERAL REGISTER at a later date.

Upon completion of the Commission's staff of a favorable safety evaluation of the application and an environmental review, and upon receipt of a report by the Advisory Committee on Reactor Safeguards, the Director of Nuclear Reactor Regulation will consider making affirmative findings on Items 1-3, a negative finding on Item 4, and an affirmative finding on Item 5 specified below as a basis for the issuance of a construction permit to the applicants. In the event that a separate hearing is held with respect to a limited work authorization, Item 6 below describes the matters for consideration.

Issues Pursuant to the Atomic Energy Act of 1954, as Amended—1. Whether in accordance with the provisions of 10 CFR 50.35(a):

(a) The applicants have described the proposed design of the facilities in-

V41N198 OCT 12 76 UMI

cluding, but not limited to, the principal architectural and engineering criteria for the design, and has identified the major features or components incorporated therein for the protection of the health and safety of the public;

(b) Such further technical or design information as may be required to complete the safety analysis and which can reasonably be left for later consideration, will be supplied in the final safety analysis report;

(c) Safety features or components, if any, which require research and development have been described by the applicants and the applicants have identified, and there will be conducted a research and development program reasonably designed to resolve any safety questions associated with such features or components; and

(d) On the basis of the foregoing, there is reasonable assurance that (i) such safety questions will be satisfactorily resolved at or before the latest date stated in the application for completion of construction of the proposed facilities, and (ii) taking into consideration the site criteria contained in 10 CFR Part 100, the proposed facilities can be constructed and operated at the proposed location without undue risk to the health and safety of the public.

2. Whether the New England Power Company is technically qualified to design and construct the proposed facilities;

3. Whether the applicants are financially qualified to design and construct the proposed facilities; and

4. Whether the issuance of permits for construction of the facilites will be inimical to the common defense and security or to the health and safety of the public.

Issue Pursuant to National Environmental Policy Act of 1969 (NEPA)—5. Whether, in accordance with the requirements of 10 CFR Part 51, the construction permits should be issued as proposed.

Issues Pursuant to 10 CFR 2.761a (Limited Work Authorization)—6. Pursuant to 10 CFR 2761a, a separate hearing and partial decision by the Board on issues pursuant to NEPA and general site suitability and certain other possible issues may be held and issued prior to and separate from the hearing and decision on other issues. In the event the Board, after the hearing, makes favorable findings on such issues, the Director of Nuclear Reactor Regulation may, pursuant to 10 CFR 50.10(e) authorize the applicants to conduct certain onsite work entirely at its own risk prior to completion of the remainder of the proceeding.

In the event that this proceeding is not a contested proceeding, as defined by 10 CFR 2.4(n), the Board will determine without conducting a de novo evaluation of the application: (1) whether the application and the record of the proceeding contain sufficient information, the review of the application by the Commission's staff has been adequate to support the proposed findings to be made by the Director of Nuclear Reactor Regulation on Items 1–4 above, and to support, insofar as the Commission's licensing requirements under the Act are concerned, the issuance of the construction permits proposed by the Director of Nuclear Reactor Regulation; and (2) whether the NEPA review conducted by the Commission's staff has been adequate.

In the event that this proceeding becomes a contested proceeding, the Board will consider and initially decide, as issues in this proceeding, Items 1–5 above as a basis for determining whether the construction permits should be issued to the applicants.

With respect to the Commission's responsibilities under NEPA, and regardless of whether the proceeding is contested or uncontested, the Board will, in accordance with § 51.52(c) of 10 CFR Part 51:

(1) determine whether the requirements of section 102(2)(A), (C), and (D) of NEPA and Part 51 have been complied with in this proceeding; (2) independently consider the final balance among conflicting factors contained in the record of the proceeding for the permits with a view to determining the appropriate action to be taken; and (3) determine after weighing the environmental, economic, technical and other benefits against environmental and other costs, and considering available alternatives whether the construction permits should be issued, denied, or appropriately conditioned to protect environmental values.

The Board will convene a special prehearing conference of the parties to the proceeding and persons who have filed petitions for leave to intervene, or their counsel, to be held within sixty (60) days after the notice of hearing is published or at such other time as the Board deems appropriate, for the purpose of dealing with the matters specified in 10 CFR 2.751a.

The Board will convene a prehearing conference of the parties, or their counsel, to be held subsequent any required special prehearing conference, and within sixty (60) days after discovery has been completed or at such other time as the Board may specify, for the purpose of dealing with the matters specified in 10 CFR 2.752.

The Board will set the time and place for any special prehearing conference, prehearing conference and evidentiary hearing, and the respective notices will be published in the FEDERAL REGISTER.

Any person who does not wish, or is not qualified, to become a party to this proceeding may require permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715. A person making a limited appearance may make an oral or written statement on the record. He does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of Items 1–5 above. Limited appearances will be permitted at the time of the hearing at the discretion of the Board, within such limits and on such conditions as may be fixed by the Board. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission by December 13, 1976. The presiding Atomic Safety and Licensing Board may make further provision with respect to limited appearances subsequently during the course of this proceeding.

Any person whose interest may be affected by the proceeding, who wishes to participate as a party in the proceeding must file a written petition under oath or affirmation for leave to intervene in accordance with the provisions of 10 CFR 2.174. A petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors; (1) the nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to each aspect on which he desires to intervene. A petition that sets forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

A petition for leave to intervene must be filed with the Secretary of the Commission and others as specified below by November 11, 1976. A petition for leave to intervene which is not timely will not be entertained absent a determination by the Board that the petitioner, in addition to the matters specified in 10 CFR 2.714(d), has made a substantial showing of good cause for failure to file on time. The reasons for the tardiness in filing a petition for leave to intervene, as well as the factors specified in 10 CFR 2.714(a)(1)–(4) shall be considered in making a determination whether there has been a substantial showing of good cause by the petitioner.

An answer to this notice, pursuant to the provisions of 10 CFR 2.705, must be filed by the applicants by November 1, 1976.

Papers required to be filed in this proceeding shall be filed by mail or telegram addressed to the Secretary of the Commission, United States Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. Pending further order of the Board, parties are required to file, pursuant to the provisions of 10 CFR 2.708, an original and twenty (20) conformed copies of each such paper with the Commission. A copy of any petition for intervention should also be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 and to John A. Ritsher, Esq., Ropes & Gray, 225 Franklin Street, Boston, Massachusetts 02110, attorney for the applicants.

For further details, see the application for a construction permit dated July 30, 1976, including site suitability information, and the applicants' environmental report, dated July 30, 1976, which, along with any amendments or supplements thereto, are or will be available as noted above for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., between the hours of 8:30 a.m. and 5:00 p.m. on weekdays. Copies of those documents will also be available at the Cross Mill Public Library, Old Post Road, Charlestown, Rhode Island 02831 for inspection by members of the public between the hours of 6 to 9 p.m. on Mondays and Thursday, from 9 a.m. to 12:00 noon on Tuesdays and from 1 p.m. to 5 p.m. on Wednesdays, Fridays and Saturdays. As they become available, a copy of the safety evaluation report by the Commission's Office of Nuclear Reactor Regulation, the draft and final environmental statements, the report of the Advisory Committee on Reactor Safeguards (ACRS), the proposed construction permit, the transcripts of the prehearing conferences and of the hearing, and other relevant documents, will also be available at the above locations. Copies of the proposed construction permits and the ACRS report may be obtained, when available, by request to the Director, Division of Reactor Licensing, United States Nuclear Regulatory Commission, Washington, D.C. 20555. Copies of the Office of Nuclear Reactor Regulation's safety evaluation and final environmental statement, when available may be purchased at current rates from the National Technical Information Service, Springfield, Virginia 22161.

Dated at Washington, D.C. this 27th day of September, 1976.

UNITED STATES NUCLEAR REGULATORY COMMISSION,

SAMUEL J. CHILK,
Secretary of the Commission.

[FR Doc.76-29556 Filed 10-8-76;8:45 am]

[Docket Nos. STN 50-568 and STN 50-569]

NEW ENGLAND POWER CO., ET AL.

Receipt of Application for Construction Permits and Operating Licenses and Availability of Applicants' Environmental Report

The New England Power Company acting for itself and for 30 other utilities, pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, filed an application for licenses to construct and operate two pressurized water nuclear reactors. The application consists of general and financial information and a Preliminary Safety Analysis Report accompanied by an Environmental Report. It was docketed on September 9, 1976 and assigned Docket Nos. STN 50-568 and STN 50-569. Notice of Receipt of the Antitrust Application was published in the FEDERAL REGISTER under Docket No. P-533-A on July 7, 1975 (40 FR 28510).

The proposed facilities will be named NEP-1 and NEP-2 and located in Washington County at Charlestown, Rhode Island approximately 8½ miles east of the center of Westerly, Rhode Island. Providence, Rhode Island is approximately 35 miles north of the site. The reactors are designed for an initial output of 3411 megawatts thermal, with an equivalent net electrical output of approximately 1194 megawatts.

A Notice of Hearing is being published separately, setting forth the radiological and environmental issues to be considered during the review. A date for submitting Petitions for Leave to Intervene, with specific contentions, will be set forth in the Notice of Hearing.

This application is available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W. Washington, D.C. 20555, and at the Cross Mill Public Library, Old Post Road, Charlestown, Rhode Island 02831.

Pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR Part 51 the applicants filed an Environmental Report, dated July 30, 1976. The report, which discusses environmental considerations related to the construction and operation of the proposed facility, is being made available at the following clearinghouse: Rhode Island Statewide Planning Program, Department of Administration, Room 201, 265 Melrose Sreet, Providence, Rhode Island 02907 and at the addresses stated above.

After the environmental report has been analyzed by the Nuclear Regulatory Commission's staff, a draft environmental statement will be prepared. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement, with a request for comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and state and local officials will be made available when received. Upon consideration of comments submitted with respect to the draft environmental statement, the staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Dated at Bethesda, Maryland this 23d day of September, 1976.

For the Nuclear Regulatory Commission.

OLAN D. PARR,
Chief, Light Water Reactors, Branch No. 3, Division of Project Management.

[Docket No. 50-336]

NORTHEAST NUCLEAR ENERGY CO. ET AL.

Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 18 to Facility Operating License No. DPR-65 issued to Northeast Nuclear Energy Company, The Connecticut Light and Power Company, The Hartford Electric Light Company, and Western Massachusetts Electric Company, which revised Technical Specifications for operation of the Milistone Power Station, Unit No. 2, located in the Town of Waterford, Connecticut. The amendment is effective as of the date of issuance.

The amendment will change the Technical Specifications in response to the licensees' application dated May 17, 1976 to decrease the reactor coolant low-flow trip set point of the reactor protective system from ≥95% to ≥91.7% and to make the Axial Shape Index operating limits more restrictive. The decrease in the low-flow trip set point will be partially offset by operating within the more restrictive Axial Shape Index. The remander of the decrease will be offset by allowing the DNBR for the loss of flow transient to decrease from a minimum of 1.34 to a minimum of 1.30 and by allowing the percent of the core experiencing a DNBR less than 1.30 for the seized rotor accident to increase from 0.42% to about 0.5%.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated May 17, 1976, (2) Amendment No. 18 to License No. DPR-65, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N. W., Washington, D.C.

V41I198 OCT 12 76 UMI

and at the Waterford Public Library, Rope Ferry Road, Waterford, Connecticut 06385.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 29th day of September 1976.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch No. 3, Division of Operating Reactors.

[Docket No. 50-263]

NORTHERN STATES POWER CO.

Issuance of Amendment to Provisional Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 23 to Provisional Operating License No. DPR-22), issued to the Northern States Power Company (the licensee), which revised Technical Specifications for operation of the Monticello Nuclear Generating Plant (the facility) located in Wright County, Minnesota. The amendment is effective as of its date of issuance.

The amendment incorporated revised operability and testing requirements for the standby gas treatment system.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, negative declaration or environmental appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated April 1, 1975, (2) Amendment No. 23 to License No. DPR-22, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Environmental Conservation Library, Minneapolis Public Library, 300 Nicollet Mall, Minneapolis, Minnesota 55401. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 27th day of September, 1976.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

[Docket No. 50-548]

OMAHA PUBLIC POWER DISTRICT, (FORT CALHOUN STATION, UNIT 2)

Order Convening Prehearing Conference

SEPTEMBER 29, 1976.

Notice is hereby given that pursuant to the "Notice of Hearing on Application for Construction Permit" published by the Nuclear Regulatory Commission in the FEDERAL REGISTER on February 19, 1976 (41 FR 7595), a prehearing conference will be convened in order to determine the progress by the parties toward preparation of their evidence and to designate the dates for evidentiary hearings in this proceeding. Inquiry has been made of the attorneys, in accordance with the Rules of Practice of the Commission, respecting a convenient date for convening a prehearing conference and October 27, 1976, has been agreed as suitable for the Applicants and the Staff of the Nuclear Regulatory Commission.

Members of the public may attend the prehearing conference as well as the evidentiary hearing which will be held at a later time to be fixed by the Board. However, members of the public who may wish to participate in the hearing by way of limited appearances will not be permitted to do so at the prehearing conference. Oral or written statements offered by way of limited appearances will be received by the Board at the time of the aforementioned evidentiary hearing.

Wherefore, *it is ordered*, in accordance with the Atomic Energy Act, as amended, and the Rules of Practice of the Nuclear Regulatory Commission that a prehearing conference in this proceeding shall convene at 10:00 A.M. local time, on Wednesday, October 27, 1976 in Conference Room No. 7403, United States Post Office and Courthouse, 215 North 17th Street, Omaha, Nebraska 68101.

Issued at Bethesda, Maryland, this 29th day of September, 1976.

For the Atomic Safety and Licensing Board.

ROBERT M. LAZO,
Chairman.

[FR Doc.76-29573 Filed 10-8-76;8:45 am]

PERFORMANCE TESTING OF PERSONNEL DOSIMETRY

Public Meeting

Notice is hereby given that the Office of Standards Development of the Nuclear Regulatory Commission (NRC), the Bureau of Radiological Health of the Food and Drug Administration (FDA), and the Energy Research and Development Administration (ERDA) will conduct a public meeting to discuss the performance testing of personnel dosimetry. The NRC staff is currently developing a proposed amendment of 10 CFR Part 20 of NRC regulations to require licensees to use dosimetry whose performance has been tested and found to be reasonably accurate.

The BRH staff is interested in extending the testing program to other users of personnel dosimetry not regulated by the NRC such as industrial, medical, and dental x-ray facilities, accelerators, and persons handling radium or accelerator produced radioisotopes. ERDA is interested in extending the performance testing program to its contractor laboratories.

The meeting is intended (1) to provide an opportunity for the NRC, FDA, and ERDA staffs to explain to interested persons the nature of the performance testing that the staffs consider desirable, and (2) to give interested persons the opportunity to comment on the concept while proposed regulations are still at an early stage of development.

A discussion paper on performance testing of personnel dosimetry is available from the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 or by telephoning (301) 443-6920. This paper will form the basis for discussion at the meeting. It is intended that an informal dialogue between the attendees and the NRC, FDA, and ERDA staffs will develop.

Interested persons are invited to attend the public meeting and to present a statement or ask questions. Statements will be limited to no more than fifteen minutes. Any person who intends to make a statement at this meeting should notify the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, by November 19, 1976. Transcripts of the proceedings of the meeting will be available for public inspection at the Commission's Public Document Room 1717 H Street NW., Washington, D.C., several weeks after the meeting. Written comments received by January 3, 1977 will also be considered in developing the proposed regulation.

The meeting will be held on November 30 and December 1, 1976, 9:00 a.m. to 5:00 p.m., in the auditorium of the General Services Administration Building, 18th and F Streets NW., Washington, D.C. Persons desiring additional information regarding the meeting should contact either Stephen A. McGuire, Office of Standards Development, Nuclear Regulatory Commission, Washington, D.C. 20555, telephone (301) 443-6920; Caleb Kincaid, Bureau of Radiological Health (HFX-320), 5600 Fishers Lane, Rockville, Md. 20852, telephone (301) 443-1365; or Edward Vallario, Energy Research and Development Administration, Washington, D.C. 20545, telephone (301) 353-5640.

Dated at Rockville, Maryland this 20th day of September 1976.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,
Director, Office of Standards Development.

[FR Doc.76-29567 Filed 10-8-76;8:45 am]

[Docket No. 50-216]

POLYTECHNIC INSTITUTE OF NEW YORK

Order Authorizing Dismantling of Facility

By application dated December 23, 1975, the Polytechnic Institute of New York (the licensee) requested authorization to dismantle the AGN 201M Reactor (the facility), located in University Heights, Bronx, New York, in accordance with their dismantling plan. Operation of the facility has been discontinued. Notice of intent to issue an order authorizing dismantling of the facility was published in the FEDERAL REGISTER on February 12, 1976 (41 FR 6340). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

The Nuclear Regulatory Commission (the Commission) has reviewed the application in accordance with the provisions of the Commission's rules and regulations and has found that the dismantling and disposal of component parts in accordance with the licensee's dismantling plan will be accomplished in accordance with the regulations in 10 CFR Chapter I, and will not be inimical to the common defense and security or to the health and safety of the public. The basis for the findings is set forth in the concurrently issued Safety Evaluation by the Office of Nuclear Reactor Regulation.

The Commission has determined that the issuance of this Order will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental statement, negative declaration or environmental impact appraisal need not be prepared.

Accordingly, it is hereby ordered that Polytechnic Institute of New York may dismantle the AGN 201M Reactor covered by Facility Operating License No. R-107, as amended, in accordance with their dismantling plan and the Commission's rules and regulations.

After completion of the dismantling and decontamination, the submission of a report on the radiation survey to confirm that radiation levels in the facility area meet the values defined in the dismantling plan and inspection by representatives of the Commission, consideration will be given to whether a further order should be issued terminating Facility License No. R-107.

Dated at Bethesda, Maryland, this 29th day of September 1976.

For the Nuclear Regulatory Commission.

KARL R. GOLLER,
Assistant Director for Operating Reactors, Division of Operating Reactors.

[Docket No. 50-537]

PROJECT MANAGEMENT CORP., TENNESSEE VALLEY AUTHORITY (CLINCH RIVER BREEDER REACTOR PLANT)

Order Regarding Petition for Leave to Intervene; Hearing

OCTOBER 4, 1976.

Oral argument on the appeal taken by Lenoir City et al from the Licensing Board's August 26, 1976 order denying their untimely petition for leave to intervene will be heard at 9:30 a.m. on Tuesday, October 19, 1976 in the NRC Public Hearing Room, 5th floor, East-West Towers, 4350 East West Highway, Bethesda, Maryland.

The appellant municipalities and counties will be heard first and are allotted one hour for the presentation of their argument, part of which time may be reserved for rebuttal. The applicants and the NRC staff will be then heard in that order; each of those two parties is allotted forty-five minutes for argument.

Counsel should assume that the Board will be fully familiar with the pertinent pleadings filed below, the Licensing Board's order, and the appellate positions of the respective parties as set forth in their briefs. Accordingly, there will be no necessity for counsel to engage in detailed background recitations; instead they should proceed immediately to the heart of the issues presented by the appeal.

The Secretary to this Board should be notified, by letter mailed no later than October 12, 1976, of the name of the counsel who will present argument on behalf of each party to the appeal.

It is so ordered.

For the Atomic Safety and Licensing Appeal Board.

MARGARET E. DU FLO,
Secretary to the Appeal Board.

[FR Doc.76-29575 Filed 10-8-76;8:45 am]

[Docket No. 50-272]

PUBLIC SERVICE ELECTRIC AND GAS COMPANY, ET AL.

Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 2 to Facility Operating License No. DPR-70, issued to Public Service Electric and Gas Company, Philadelphia Electric Company, Delmarva Power and Light Company, and Atlantic City Electric Company which revised the Technical Specifications to Facility Operating License No. DPR-70 for Salem Nuclear Generating Station, Unit No. 1, located in Salem County, New Jersey. The amendment is effective as of its date of issuance.

The amendment changes certain Technical Specifications (Appendix A to License No. DPR-70) by correcting typographical errors and including inadvertent omissions to resolve conflicting operating requirements.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental statement, negative declaration or environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated September 20, 1976, and (2) Amendment No. 2 to License No. DPR-70. Both of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Salem Free Public Library, 112 West Broadway, Salem, New Jersey.

A copy of item (2) may be obtained upon on request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Project Management.

Dated at Bethesda, Maryland, this 29th day of September 1976.

For the Nuclear Regulatory Commission.

KARL KNIEL,
Chief, Light Water Reactors Branch No. 2, Division of Project Management.

REGULATORY GUIDE

Issuance and Availability

The Nuclear Regulatory Commission has issued a new guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 10.5, "Guide for the Preparation of Applications for Type A Licenses of Broad Scope for Byproduct Material," describes the type and extent of information needed by the NRC staff to evaluate an application for a Type A specific license of broad scope for byproduct material (reactor-produced radionuclides).

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2)

V41N198 OCT 12 76 UMI

improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 10.5 will, however, be particularly useful in evaluating the need for an early revision if received by December 3, 1976.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a))

Dated at Rockville, Maryland, this 29th day of September 1976.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,
Director, Office of Standards Development.

[FR Doc.76-29566 Filed 10-8-76;8:45 am]

REGULATORY GUIDE
Issuance and Availability

The Nuclear Regulatory Commission has issued a guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 1.102, Revision 1, "Flood Protection for Nuclear Power Plants," describes types of flood protection acceptable to the NRC staff for safety-related structures, systems, and components of light-water-cooled nuclear power plants that should be designed to withstand the effects of the Safe Shutdown Earthquake and remain functional. The guide also describes acceptable methods of protecting nuclear power plants from effects of Probable Maximum Precipitation falling directly on the site.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed (listed below) or (2) improvements in all published guides are encouraged at any time. Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission. Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted and Commission approval is not required to reproduce them.

Other Division 1 regulatory guides currently being developed include the following:

Containment Isolation Provisions
Interim Guide on Tornado Missiles
Nuclear Safety-Related Concrete Structures
Quality Assurance Requirements for Control of Procurement of Equipment, Materials, and Services for Nuclear Power Plants
Maintenance and Testing of Batteries
Qualification Test of Class 1E Cables, Connections, and Field Splices for Nuclear Power Plants
Initial Startup Testing Program for Facility Shutdown from Outside the Control Room
Periodic Testing of Diesel Generators
Design, Testing, and Maintenance for Exhaust Filtration and Adsorption Units
Installation Design and Installation of Large Lead Batteries for Nuclear Power Plants
Fuel Oil Systems for Standby Diesel Generators
Requirements for Auditing Quality Assurance Programs for Nuclear Power Plants
Qualification of Inspection, Examination, and Testing Personnel for Nuclear Facilities

[DOCKET NO. 50-94]

ROCKWELL INTERNATIONAL CORP.
Order Authorizing Dismantling of Facility and Disposition of Component Parts

By application sworn to January 28, 1976, Rockwell International Corporation (the licensee) requested authorization to dismantle the L-77 Reactor (the facility), a research reactor, located in Canoga Park, California, and to dispose of the component parts, in accordance with the plan submitted as part of the application. A "Notice of Proposed Issuance of Orders Authorizing Dismantling of Facility, Disposition of Component Parts, and Termination of Facility License" was published in the FEDERAL REGISTER on April 8, 1976 (41 FR 14955). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

The Nuclear Regulatory Commission (the Commission) has reviewed the application in accordance with the provisions of the Commission's rules and regulations and has found that the dismantling and disposal of component parts in accordance with the licensee's dismantling plan will be in accordance with the regulations in 10 CFR Chapter I, and will not be inimical to the common defense and security or to the health and safety of the public. The basis for the findings is set forth in the concurrently issued Safety Evaluation by the Office of Nuclear Reactor Regulation.

The Commission has determined that this action will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental statement, negative declaration or environmental impact appraisal need not be prepared.

Accordingly, it is hereby ordered that Rockwell International Corporation may dismantle the L-77 Reactor covered by Facility License No. R-40, as amended, and dispose of the component parts in accordance with their dismantling plan and the Commission's rules and regulations.

After completion of the dismantling and decontamination, the submission of a report on the radiation survey to confirm that radiation levels in the facility area meet the values defined in the dismantling plan and inspection by representatives of the Commission, consideration will be given to whether a further order should be issued terminating Facility License No. R-40.

Dated at Bethesda, Maryland, this 29th day of September 1976.

For the Nuclear Regulatory Commission.

KARL R. GOLLER,
Assistant Director for Operating Reactors, Division of Operating Reactors.

SECURITIES AND EXCHANGE COMMISSION
ADVISORY COMMITTEE ON CORPORATE DISCLOSURE
Meeting

This is to give notice pursuant to section 10(a) of the Federal Advisory Committee Act, 5 U.S.C. App. I 10(a), that the Advisory Committee on Corporate Disclosure will conduct an open meeting on October 21 and 22 at the Dirksen Senate Office Building, First Street and Constitution Avenue, N.E., Washington, D.C., in Room 5302 at 10:00 a.m.

The summarized agenda for the meeting is as follows:

1. Roundtable Discussion of the Question of Whether the SEC's Segment Reporting Requirements Should Be Revised.
2. Discussion and Committee Action on Segment Reporting.
3. Discussion and Action with Respect to—
(A) The Necessity for a Mandatory Disclosure System.
(B) Identification of Appropriate Authority for Administering This System.
4. Status Report on the Committee's Questionnaire-Interview Survey.
5. Adoption of Tentative Goals of the Advisory Committee's Work.
6. Discussion of Such Other Matters as May Properly Be Brought Before the Committee.

Further information may be obtained by writing Mary E. T. Beach, Staff Director, Advisory Committee on Corporate Disclosure, Securities and Exchange Commission, Washington, D.C. 20549.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 34-12837; File No. SR-BSE-76-3]

BOSTON STOCK EXCHANGE
Proposed New Chapter of Rules

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on September 20, 1976, the above mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule and constitutional change, amended from the original filing designated SR-BSE-76-3 to read as follows:

Statement of the Terms of Substance of the Proposed New Chapter XXX

(a) The following are the procedures to be followed in connection with the disciplining of members and persons associated with members, the denial of membership to any person seeking membership in the Exchange, the barring of any person from becoming associated with a member of the Exchange, and the prohibition or limitation by the Exchange of any person with respect to access to services offered by the Exchange or a member thereof.

1. *Notification.* The notices required by § 6(d) of the Securities Exchange Act of 1934 as amended (the "1934" Act) and paragraph 9 hereof shall be given by certified or registered mail, return receipt requested, addressed to the member or person to receive such notice at such member's or person's address as appearing on the records of the Exchange. Such notice under said section 6(d) shall (a) contain the specific charges against, or specific grounds for denial, bar, prohibition or limitation ("denial") of, such member or person, (b) in case of disciplinary charges, set forth the date, time and place at which the member may be heard with respect to such charges, (c) set forth the board, committee or individual ("Panel") before which the member may be heard with respect to such charge or denial, and (d) advise such member or person of his right to file an answer pursuant to paragraph 2 of this rule or request a hearing regarding any such denial.

2. *Answer or request for hearing.* A member or person against whom charges have been made or who has been the subject of a denial shall have twenty-five (25) days from the date of receipt of the notice referred to in paragraph 1 hereof to file an answer to said charge or request a hearing concerning such denial with the Secretary of the Exchange. Any such answer or request shall be in writing, signed by or on behalf of the member or other person involved, shall admit or deny the specific allegations set forth in any charge, and contain, in reasonable detail, any affirmative defense or explanatory material which said member or person wishes to set forth. Any allegation in charges not specifically denied shall, for all purposes, be deemed admitted.

3. *Forwarding of charges, etc.* The Secretary of the Exchange shall forward copies of the charges and any answer received in the case of disciplinary proceedings and the specific grounds in the case of any other proceedings, to the member or members of the Panel which is to hear the matter.

4. *Hearings.* Hearings shall be conducted in accordance with the following procedures:

(a) *Time and place for hearings.* No hearing shall be held on any matter prior to five (5) days following (a) the last date upon which an answer may be filed in case of disciplinary matters or (b) the date upon which a person requests a hearing in other matters. The time and place for any such hearing shall be set by the President of the Exchange except in cases of hearings before the Board of Governors, in which case the time and place shall be set by the Chairman of the Board.

(b) *Panels.* The panel before which any matter shall be heard shall be determined according to the Constitution and Rules of the Exchange.

(c) *Presiding officer.* The presiding officer at any hearing shall be chosen by the Panel before whom the hearing is held. The presiding officer shall determine on the record for such hearing all questions of the admission or exclusion of evidence or other procedural matters including the regulation or restriction of testimony and questioning in the interest of good order and a just and efficient production of testimony.

(d) *Presentation of testimony.* In any proceeding in which the Exchange has presented charges against a member or person, the Exchange shall, unless such charges are not denied, present its evidence to support such charges. In cases where a hearing is conducted at the request of any person, that person shall present such evidence as such person may have to show why such denial should not be imposed. In both cases, the other party shall have the opportunity to present rebuttal evidence and, after all evidence has been heard, the presiding officer may, in such officer's discretion, allow

V41N198 OCT 12 76 UMI

the presentation of oral arguments and written briefs concerning the matter. Each party shall be permitted to cross-examine the witnesses of the other.

(e) *Transcripts.* A verbatim transcript shall be kept of all hearings held pursuant hereto and, in case of disciplinary proceedings, the cost thereof in whole or in part may be assessed to the member or person charged as part of the decision of the panel.

(f) *Counsel.* The Exchange and any member or person shall be entitled to be represented by counsel at any hearing held hereunder.

5. *Decision.* After hearing held pursuant to Par. 4 hereof, the panel shall, by majority vote, or by such other vote as may be specified for any action in these Rules or in the Constitution, determine (a) in the case of disciplinary matters, whether or not to impose a disciplinary sanction and if so the sanction to be imposed or, in cases where the panel recommends a sanction which it is not empowered to impose, the panel shall refer the charges, answer, transcript and any other documents pertaining to the matter to such panel as is empowered to impose the recommended sanction for hearing pursuant to these rules and (b), in the case of any denial, whether or not such denial shall be upheld or modified. In both cases, the Panel shall accompany such determination with the appropriate statement required pursuant to Section 6(d) (1) or (2) of the 1934 Act. All such determinations and statements, together with the transcript of the hearing shall be filed with the Secretary of the Exchange and a copy sent by the Secretary to the member or person affected.

6. *Request for review.* Except for decisions made by the Board of Governors, which shall become final when made, any determination made pursuant to Par. 5 shall become final within twenty (20) days after its filing with the Secretary of the Exchange unless a request for review thereof by the Board of Governors is filed with the Secretary prior to the end of such period. Such requests may be filed either by or on behalf of the Board or committee originally bringing any disciplinary charges or making the decision of denial or the member or person the subject of such charge or denial. Upon such request the Secretary shall make the record of the proceedings available to the Board of Governors.

7. *Review.* Upon review the Board of Governors may, by majority vote, sustain any such determination including any sanction imposed or reverse, modify, limit or increase such determination or return the matter to the Panel for further findings. The decision of the Board shall be final and conclusive.

8. *Summary proceedings.* Summary action to be taken by the Exchange under section 6(d)(3) of the 1934 Act may be administered by the Executive Committee of the Board of Governors.

9. *Notices of decisions.* The Secretary of the Exchange shall file notice of any final decision hereunder or under paragraph 6 hereof with the Securities and Exchange Commission.

Statement of the Terms of Substance of Proposed Amendment to Article XVI of the Constitution

Sections 9 and 10—Repeal Present Section 11 renumbered Section 9.

Exchange's statement of basis and purposes. Purpose of the proposed new rule. The purpose of the proposed Rule is to establish procedures for disciplining members, denial of membership or services and appeals therefrom and to eliminate conflicting provisions currently found in the constitution.

Basis of the proposed new rule—
(i) Not applicable.
(ii) Not applicable.
(iii) Not applicable.
(iv) Not applicable.
(v) Not applicable.
(vi) Not applicable.
(vii) Not applicable.

Comments received from members, participants or others on proposed rule change. No comments were solicited or received concerning Chapter XXX. The proposed amendment to the Constitution was submitted to a vote of the membership and no comments or objections were received.

Burden on competition. No burden on competition is perceived by adoption of the proposed constitutional and rule changes. Indeed, the subject matter of the submission is mandated by the 1975 Amendments to the Securities Exchange Act of 1934.

On or before November 16, 1976, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) by order approve such proposed constitutional and rule changes, or

(B) institute proceedings to determine whether the proposed constitutional and rule changes should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Washington, DC 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before October 27, 1976.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

SEPTEMBER 28, 1976.

[Release No. 34-12833; File No. SR-PSD-76-4]

PACIFIC SECURITIES DEPOSITORY TRUST CO.

Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on September 20, 1976, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The proposed amendment to section 11.1 of Article XI of the By-Laws of Pacific Securities Depository Trust Company (PSD) dealing with the Participants Fund effectively establishes that contributions to the Participants Fund will be calculated based on the participant's aggregate holdings with PSD, replacing the requirement that each account maintained by the participant be treated, in effect, as a separate participant.

STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

The proposed amendment to the By-Laws will remove the implicit inequitable treatment, with respect to Participants Fund contributions, of participants maintaining multiple accounts with PSD. In doing so, the proposed amendment will remove impediments to the establishment of a Participants Fund and, as such, will contribute to perfect the mechanism of a national system for the prompt and accurate clearance and settlement of securities transactions.

Comments on the proposed amendment have not been solicited, and none have been received.

The proposed amendment would not impose any burden on competition.

On or before November 16, 1976, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above mentioned self-regulatory organization consents, the Commission will:

(A) by order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection in the Public Reference Room, 1100 L Street, NW., Washington, D.C. Copies of such filing will also be available for inspection at the principal office of the above mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before November 2, 1976.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

SEPTEMBER 27, 1976.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.76-29789 Filed 10-8-76;8:45 am]

[Release No. 34-12835; File No. SR-PSD-76-5]

PACIFIC SECURITIES DEPOSITORY TRUST CO.

Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on September 20, 1976, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The proposed rule change of the Pacific Securities Depository Trust Company (PSD) proposes to replace the existing Certificate As To Citizenship with an updated version.

STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

The purpose of the proposed rule change is to enable corporate radio station licensees whose capital stock is eligible for deposit with PSD to comply with section 310 of Title 47 of the United States Code which restricts alien ownership of such capital stock.

The proposed rule change relates to PSD's carrying out the purposes of Section 17A of the Securities Exchange Act of 1934, as amended, by increasing PSD's capacity to facilitate the prompt and accurate clearance and settlement of securities transactions in that the proposed rule change allows PSD to make issues eligible for deposit which, due to governmental restrictions on citizenship of stockholders, might otherwise have to be excluded from eligibility.

Comments on the proposed amendment have not been solicited and none have been received.

The proposed amendment would not impose any burden on competition.

The foregoing rule change has become effective pursuant to section 19(b)(3) of the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection at the principal office of the above mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before November 1, 1976.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Release No. 34-12853; File No. SR-PHLX 76-16]

PHILADELPHIA STOCK EXCHANGE, INC.

Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s (b)(1), as amended by Pub. L. No. 94-29,16 (June 4, 1975), notice is hereby given that on September 27, 1976, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

EXCHANGE'S STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

Rule. 05 Whenever there is declared a stock dividend, stock distribution, stock split or reverse split in respect of any underlying security of a class of options dealt in on the Exchange, and as a result option contracts of the same class are traded covering different numbers of underlying shares, then the limits imposed under clauses (2) and (4) of Rule 1000 shall not be applicable either (i) to covered short options positions or (ii) to short options positions to the extent long options positions for the same number of underlying shares are maintained in the same account where the exercise prices of the options contracts in such long positions are equal to or less than the exercise prices of the options contracts in such short positions.

EXCHANGE'S STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

The purpose of the proposed rule change is to provide members and public customers with the same exemption to (2) and (4) of Rule 1000 presently found in the Pilot Program for Trading Options ("Plan"), in those instances where, due to a stock split, stock dividend, stock distribution or reverse split, the number of underlying shares contained in the contract unit of the outstanding options series dealt in on the Exchange are adjusted upward or downward to reflect the revision in the number of outstanding shares of the subject underlying security.

The Exchange, in order to promote just and equitable principles of trade and to protect investors and the public interest, proposes that the protection afforded by the provisions of Rule 1000 and the Plan extend, as they were intended, to circumstances where the same class of options contracts do not have an equal number of shares underlying every contract.

Comments were not solicited nor were comments received.

The Exchange does not believe that the proposed interpretation will impose any burden on competition.

The foregoing rule change has become effective, pursuant to section 19(b)(3) of the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before November 11, 1976.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

NATIONAL MARKET ADVISORY BOARD

Meeting

This is to give notice pursuant to section 10(a) of the Federal Advisory Committee Act, 5 U.S.C. App. I 10(a), that the National Market Advisory Board will conduct open meetings on October 18 and 19, 1976 in the Kennedy Conference Room, 19th floor, One Bankers Trust Plaza, 130 Liberty Street, New York, New York, beginning at 9:30 a.m. on October 18 and at 8:30 a.m. on October 19. Initial notice of the meeting was published in the FEDERAL REGISTER on August 26, 1976.

The summarized agenda for the meeting on October 18 and 19 is as follows:

1. Discussion of the Board's report to the Securities and Exchange Commission regarding the establishment of a consolidated limit order book;
2. Discussion of the Board's report to the Congress pursuant to section 11A(d)(3)(B) of the Securities Exchange Act of 1934; and
3. Discussion of such other matters as may properly be brought before the Board.

Further information may be obtained by writing Martin L. Budd, Executive Director, National Market Advisory Board Staff, Securities and Exchange Commission, Washington, D.C. 20549.

ADVISORY COMMITTEE ON REPLACEMENT COST IMPLEMENTATION

Meeting

This is to give public notice, pursuant to section 10(a) of the Federal Advisory Committee Act, 5 U.S.C. App. I, 10(a), that the Securities and Exchange Commission Advisory Committee on Replacement Cost Implementation will conduct a meeting on October 28, 1976 at the Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. beginning at 9:30 a.m. This meeting will be open to the public.

This will be the fifth meeting of the Advisory Committee. The purpose of the meeting is to (1) discuss the Chief Accountant's recommended solutions to questions put before the Advisory Committee at its previous meeting (September 17, 1976), (2) discuss various aspects of the Commission's replacement cost regulation and (3) discuss implementation questions having come to the attention of the Chief Accountant of the Securities and Exchange Commission since the date of the previous meetings.

Further information on this matter may be obtained by writing:

Mr. George A. Fitzsimmons, Secretary, Securities and Exchange Commission, United States Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549.

[Release No. IC-9470; File No. 4-186]

BEARING OF DISTRIBUTION EXPENSES BY MUTUAL FUNDS

Announcement of Hearings

The Securities and Exchange Commission today announced that it will hold public hearings concerning the appropriateness of arrangements whereby mutual funds would, directly or indirectly, bear expenses related to the distribution of their shares, such as the costs of advertising and providing compensation for dealers. The hearings, which will commence on November 17, 1976, are designed to give the Commission the benefit of the views of interested members of the public with respect to this matter, in order to assist the Commission in its current consideration of the legal and policy implications of such arrangements and its re-examination of past positions with respect to this matter.

The Commission will then be in a better position to formulate guidance for the mutual fund industry with respect to the propriety of using fund assets to finance advertising, dealer compensation, and other distribution expenses. Such guidance could be provided by means of a rule-making proceeding or the publication of guidelines, or by some other means.

BACKGROUND

In the past, the Commission and its staff generally have questioned the propriety of arrangements under which open-end investment companies would bear the costs of distribution [1] although, in certain unusual circumstances, the Commission or its staff has not objected to such arrangements.[2]

Recently, the staff took a qualified no-action position under the Investment Company Act of 1940 [15 U.S.C. 80a-1 et seq.] with respect to a proposed arrangement whereby 50% of the management fee paid by a newly-organized "money market" mutual fund would be reallocated by the manager-distributor to dealers who sold shares of the fund (letter to counsel for Mutual Liquid Assets, Inc., June 15, 1976, from the Division of Investment Management). In that letter, the staff alluded to the uncertain legal status of such arrangements and stated that it was in the process of analyzing a number of issues related to the distribution of investment company shares, including the question of whether any portion of the assets of an open-end fund properly may be used, directly or indirectly, to pay distribution expenses. Subsequently, however, the Commission instructed the staff not to grant any request for acceleration of that fund's registration statement, and, in view of the hearings announced today, the Commission has instructed the staff to withdraw the no-action letter.[3]

PROCEDURES

Persons wishing to appear at the hearings should submit written requests to Anne P. Jones, Director, Division of Investment Management, Securities and Exchange Commission, Washington, D.C., 20549, not later than November 2, 1976. Persons appearing at the hearings may address the issues described below or other relevant issues, and should be prepared to respond to inquiries from the Commission and its staff.

In addition, interested persons are invited to submit written statements setting forth views and information with respect to the issues enumerated below, or other relevant issues. All such submissions will be made available for public inspection. Such written statements should be submitted in triplicate to Anne P. Jones, Director, Division of Investment Management, Securities and Exchange Commission, Washington, D.C., 20549, not later than December 2, 1976. All such material should be designated "Hearings on Mutual Fund Distribution Expenses," File No. 4-186.

ISSUES TO BE CONSIDERED

It appears that the issues relating to this matter fall into two broad categories. First, there are issues relating to the legal question of whether it is legal

[1] See, e.g., letter to counsel for the Axe-Houghton Funds, November 15, 1973, from the Division of Investment Management Regulation. It might be noted also that, in its Statement on the Future Structure of the Securities Markets, the Commission stated:

"[T]he cost of selling and purchasing mutual fund shares should be borne by the investors who purchase them and thus presumably receive the benefits of the investment, and not, even in part, by the existing shareholders of the fund who often derive little or no benefit from the sale of new shares. To impose a portion of the selling cost upon the existing shareholders of the fund may violate principles of fairness which are at least implicit in the Investment Company Act." SEC, Statement on the Future Structure of the Securities Markets (Feb. 1972) in BNA Sec. Reg. & L. Rep. No. 137, pt. II, at 7.

[2] See, e.g., In the Matter of Broad Street Investing Corporation, et al., Investment Company Act Release No. 7114 (April 4, 1972); letter to counsel for Pegasus Fund, Inc., et al., May 21, 1975, from the Division of Investment Management Regulation.

[3] It would raise serious questions under the anti-fraud provisions of the securities laws for a broker-dealer to recommend a change of a customer's investment from one fund to another merely because such a change would result in compensation for the broker-dealer.

under any circumstances for a mutual fund to bear distribution expenses, directly or indirectly, and whether, and to what extent, the Commission presently has authority to permit, prohibit, or limit the use of mutual fund assets to finance various costs of distribution. Second, there are issues relating to the policy question of whether such use of fund assets would be in the public interest, assuming this is, or could be made, legal.

A. POLICY ISSUES

1. Can it be demonstrated that additional sales of shares benefit the shareholders of a mutual fund under some or all circumstances? What is the nature and extent of any such benefit? Would the benefit depend upon the size of the fund?

2. Does the present method of financing mutual fund distribution through sales loads paid at the time of purchase, coupled with the maximum level of such sales loads, put distributors of mutual fund shares at an unfair disadvantage vis a vis distributors of other investment products?

3. Would it be more desirable for investors to pay for selling services by means of periodic charges against assets of the fund after they invest, rather than by means of a sales load paid at the time of purchase? Would the institution of such charges against assets be inequitable with respect to existing shareholders who have already paid an initial sales load? If so, how could such inequity be alleviated?

4. Would the use of the assets of existing mutual funds to finance distribution expenses have significant effects upon competition within the mutual fund industry? If so, what would be the nature of these effects?

5. Where a portion of the management fee paid by a mutual fund is used to help pay expenses associated with the sale of shares, is this the practical equivalent of the fund bearing selling expenses? If so, should such a use of the management fee be permitted? Under what circumstances? As a practical matter, is such a use of the management fee distinguishable from a situation where a fund underwriter is affiliated with the adviser, and consistently operates at a loss? Should the fund's board of directors consider how the management fee is being used in determining the proper amount of the fee? Should the reasonableness of the management fee be determined without regard to any co s borne by the adviser relating to advertising, continuing payments to dealers, or other distribution expenses?

6. If it be concluded that the use of mutual fund assets to finance distribution would result in certain benefits to new or existing shareholders, under what circumstances should such use of assets be permitted? Should such use be confined to funds which are newly organized? Should it be permitted only as a substitute for a sales load paid at the time of purchase, or should it also be permitted in addition to an initial sales load?

B. LEGAL ISSUES

1. What, if any, provisions of law prohibit or limit the use of fund assets to pay distribution expenses in the absence of any relevant rules?

2. What, if any, authority does the Commission have to adopt rules which would permit, prohibit, or limit the use of fund assets to pay distribution expenses?

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

AETNA VARIABLE ANNUITY LIFE INS. CO.

Application Pursuant to Section 6(c) of the Act for an Order Granting Exemption From Rule 22c-1 and Pursuant to Section 11 of the Act for Approval of an Offer of Exchange

OCTOBER 1, 1976.

In the Matter of VARIABLE ANNUITY ACCOUNT E OF AETNA VARIABLE ANNUITY LIFE INSURANCE CO., and AETNA VARIABLE ANNUITY LIFE INSURANCE CO., 151 Farmington Avenue, Hartford, Conn. 06156.

Notice is Hereby Given that Variable Annuity Account E of AEtna Variable Annuity Life Insurance Company ("Account E"), registered under the Investment Company Act of 1940 ("Act") as a unit investment trust, and AEtna Variable Annuity Life Insurance Company ("AEtna Variable" or the "Company"), an Arkansas stock life insurance company and the principal underwriter for Account E, (sometimes hereinafter referred to as "Applicants") filed an application on July 14, 1976 and amendments thereto on September 22, 1976 and September 30, 1976 pursuant to Section 6(c) of the Act for an order of the Commission granting exemption from Rule 22c-1 under the Act and pursuant to Section 11 of the Act for approval of an offer of exchange. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

AEtna Variable is a wholly-owned subsidiary of AEtna Life and Casualty Company, a Connecticut corporation. Account E is a separate account of AEtna Variable established in 1975 pursuant to the insurance laws of Arkansas for the purpose of holding reserves attributable to certain variable annuity contracts. All amounts allocated to Account E will be invested in shares of either AEtna Variable Fund, Inc. ("Fund") or AEtna Variable Encore Fund, Inc. ("Encore Fund"), open-end management investment companies registered under the Act, or both, at the option of the contract owner. AEtna Variable is registered as an investment adviser under the Investment Advisers Act of 1940 and, as such, acts as investment adviser to both the Fund and Encore Fund. Applicants anticipate that Account E will be taxed as a separate entity for federal income tax purposes and will qualify as a regulated investment company under the provisions of Subchapter M of the Internal Revenue Code of 1954, as amended ("Code").

Applicants have filed a registration statement under the Securities Act of 1933 for certain group variable annuity contracts designated "Group Variable Fund Retirement Contracts" (hereinafter "Contracts"). Such Contracts are designed for use with certain deferred compensation plans not eligible for the tax preferred treatment of Subchapter D, Part 1, of the Code, and are available only to governmental and certain other tax-exempt organizations. The Contracts are of two types—installment purchase payment contracts ("Installment Payment Contracts") and Contracts issued for stipulated amounts of $5,000 or more consisting of all or part of the assets held by the contract owner pursuant to a previously established plan.

Installment Payment Contracts provide for (1) a deduction of 1% from each installment purchase payment made on behalf of a participant as the premium for an insurance rider where, at the option of the contract owner, a preretirement minimum death benefit guarantee has been purchased with respect to an individual account, (2) a deduction for any applicable premium taxes where such taxes are assessed at the time the purchase payment is made, and (3) a deduction of 6% of the balance of such payment for sales and administrative expenses. Applicants presently anticipate that premium taxes will be deducted from individual accounts at the time annuity payments commence. However, the Company reserves the right to make a deduction from purchase payments should such taxes be assessed by the applicable jurisdiction at the time purchase payments are made.

A daily deduction equivalent to 1.25% on an annual basis will be made from the value of the variable portion of each Contract for mortality and expense risks. The Contracts permit the contract owner to terminate the Contract at any time and to receive the accumulated value of the Contract. Termination of an Installment Payment Contract will be subject to a termination fee of 2% where the contract owner elects to terminate the Contract before five years' purchase payments have been made and to a termination fee of 2% thereafter. However, a participant's individual account may be separately terminated in whole or in part by the contract owner without charge at any time prior to the commencement of annuity payments.

The owner of a Contract may select whether purchase payments accumulated prior to retirement will be allocated to the Fund or Encore Fund or to the Company's general account for accumulation on a fixed basis, and subject to certain restrictions may also elect to have the

V41N198 OCT 12 76 UM

assets invested in Fund shares or Encore Fund shares transferred to the other fund or transferred to the general account without charge. Upon a participant's retirement, the contract owner may elect to have the accumulated value of his individual account, regardless of how accumulated, applied to provide a variable annuity, a fixed annuity or a combination of both. Only Fund shares can be used as an investment medium for variable payments during the annuity payment period.

The Company issues certain other contracts in connection with plans for which the Contracts are designed, which contracts participate in the Company's Separate Account B. Such contracts are designated Group Unit Purchase Variable Annuity Contracts (hereinafter "GUP Contracts"). Account B is a registered unit investment trust, the assets of which are invested in either Fund shares or Encore Fund shares. Unlike Account E, the operations of Account B are taxed as part of the Company's operations in accordance with the provisions of Subchapter L of the Code. The GUP Contracts participating in Account B are of two types, those available prior to January 1, 1976 (and in certain states subsequent thereto) ("old GUP Contracts") and those available on or after that date ("new GUP Contracts"), the date of availability varying from state to state. GUP Contract provisions relating to the accumulation of purchase payments prior to retirement, including provisions for transfers between investment media, are comparable to those of the Contracts; however, the provisions relating to the method of computing variable annuity payments differ from those provided for in the Contracts.

Old GUP Contracts provide for the following deductions from each purchase payment made on behalf of a participant: (1) a deduction for any applicable premium taxes, (2) a deduction of 1% of the total payment for a mandatory preretirement minimum death benefit guarantee, and (3) a deduction of 7% of the total payment for sales and administrative expenses. Premium taxes are deducted from purchase payments rather than from individual accounts at the time annuity payments commence. In addition, a daily deduction is made from the value of the variable portion of each contract equivalent to 1.55% on an annual basis, 1.19% for mortality and expense risks and .36% for any income taxes payable by the Company attributable to the contracts. Termination of an old GUP Contract prior to five years' purchase payments having been made may result in a deduction from the value of the contract of 5% in the first year for which payments have been made, such deduction decreasing thereafter by 1% each contract year for which payments have been made to 1% in the fifth year.

The provisions of new GUP Contracts are identical to those of old GUP Contracts, except that (1) the charges have been modified to conform to the charges under the Installment Payments Contracts and (2) the minimum death benefit guarantee is no longer mandatory but can be elected as an optional benefit for individual participants. Thus, deductions from purchase payments under a new GUP Contract are a percentage charge for applicable premium taxes, 1% for the optional minimum death benefit guarantee, and 6% of the balance for sales and administrative expenses, and the daily deduction from the value of the variable portion of the contract is equivalent to 1.25% on an annual basis. However, unlike Installment Payment Contracts, premium taxes are deducted from purchase payments, not at retirement. In the event a new GUP Contract is terminated prior to five years' purchase payments having been made, the termination charge is 2% of the value of the contract. Although new GUP Contracts, unlike old GUP Contracts, made no direct charge for income taxes payable by the Company attributable to the contracts, new GUP Contracts are subject to a reserve maintained in Account B for potential federal income taxes payable with respect to the Account's net realized capital gains. Currently, such reserve is equal to 30% of net realized and unrealized capital gains. The Company is in the process of modifying old GUP Contracts to make the provisions of the new GUP Contracts applicable to new participants under old GUP Contracts; such modification will not affect the termination charge under old GUP Contracts, which will continue to be applicable with respect to all participants.

Applicants propose to permit an owner of a GUP Contract to exchange his contract for a Contract and to have values accumulated under his GUP Contract transferred to the Contract without any charge in connection therewith. Only Installment Payment Contracts will be issued in exchange for GUP Contracts. A GUP Contract owner electing to exchange will be deemed to have purchased the Installment Payment Contract at the time he acquired his GUP Contract for purposes of determining the termination charge to which he will be subject in the event of termination of his Installment Payment Contract. An exchange will have no effect on participants under GUP Contracts who are receiving annuity payments. The right to exchange will be extended until April 29, 1977 or until such later date as may be established by the Company.

SECTION 11

Section 11(a) of the Act makes it unlawful for any registered open-end company or principal underwriter therefor to make an offer to the holder of a security of such company or of any other open-end investment company to exchange his security for a security in the same or another such company on any basis other than the relative net asset values of the respective securities to be exchanged, unless the terms of the offer have first been submitted to and approved by the Commission. Section 11(c) provides that, irrespective of the basis of exchange, the provisions of subsection (a) shall be applicable to any type of offer of exchange of the securities of registered unit investment trusts for the securities of any other investment company.

Applicants request an order pursuant to Section 11 to permit the proposed offer to exchange a Contract for an outstanding GUP Contract. Applicants state that since no charge will be assessed in connection with the proposed exchange the principal abuse at which Section 11 (a) is directed will not be present. Applicants further state that since the proposed offer of exchange is fair, it should be approved by the Commission.

According to Applicants, a comparison of the provisions of the GUP Contracts with the provisions of an Installment Payment Contract shows that in most instances an exchange of a GUP Contract for an Installment Payment Contract will be advantageous. As to old GUP Contracts, Applicants state that (a) the deductions from purchase payments under Installment Payment Contracts are lower than those under old GUP Contracts, (b) premium taxes under Installment Payment Contracts, where permissible, will not be deducted until retirement, whereas under GUP Contracts they are deducted from purchase payments, and (c) the total daily deduction from the value of the variable portion of Installment Payment Contracts is lower than the comparable charge under old GUP Contracts by .30% on an annual basis (1.25% v. 1.55%). Applicants state further that the termination charge is lower under Installment Payment Contracts than under old GUP Contracts if termination occurs prior to three years' purchase payments having been made but is higher (by 1% in year five and .2% thereafter) if termination occurs after four years' purchase payments have been made. In addition, Applicants state that although Installment Payment Contracts require higher minimum purchase payments both under the contract (first year only) and on behalf of each participant than is required under old GUP Contracts, the lower minimum payment provisions applicable to participants under old GUP Contracts will continue to apply to such participants where as a result of an exchange they become participants under Installment Payment Contracts, and the first year minimum for total payments under an Installment Payment Contract will not be imposed.

As to new GUP Contracts, Applicants state that owners of new GUP Contracts will not obtain lower charges as a result of an exchange, but that the exchange may have an effect on the manner of assessing premium taxes and will make a termination charge of .2% applicable to a termination after five years' purchase payments have been made. However, in Applicants' opinion significant advantages from the standpoint of taxes should result from the exchange in that an owner will avoid the effect of the 30% tax reserve maintained in Account B with respect to capital gains.

Applicants state that an exchange will not result in any GUP Contract participant who becomes a participant under an Account E Contract as a result of an exchange being subject to annuity purchase rates less favorable than the rates to which he would have been entitled under a GUP Contract. Applicants represent that if the annuity purchase rates of the GUP Contracts would be more favorable to such a participant the Company will utilize such rates in effecting an annuity for him.

RULE 22C–1

Rule 22c–1, promulgated pursuant to section 22(c) of the Act, provides, in pertinent part, that no registered investment company issuing any redeemable security and no principal underwriter of any such security shall sell, redeem, or repurchase any such security except at a price based on the current net asset value thereof which is next computed after receipt of a tender of such security for redemption or of an order to purchase or sell such security. In processing the exchange of Contracts for GUP Contracts, Applicants propose to determine the value of accumulation units under outstanding GUP Contracts and of accumulation units to be credited under the Contracts as of the effective date of the exchange, which date shall be not more than three business days after the Company's receipt of a properly completed exchange agreement at its Executive Office. Applicants state that since an exchange agreement could be viewed for purposes of Rule 22c–1 as comprising a tender of a GUP Contract for redemption and an order to purchase a Contract, the Rule could be construed to require the valuation of accumulation units under both contracts as of the date of the Company's receipt of the exchange agreement at its Executive Office. Accordingly, Applicants request an exemption from the provisions of Rule 22c–1 until April 29, 1977 to permit the valuation of accumulation units in connection with the exchange as of the effective date thereof which date shall be not more than three business days after the Company's receipt of a properly completed exchange agreement at its Executive Office.

Applicants state that the Company anticipates it would have no difficulty under normal circumstances in completing the necessary steps to effect an exchange on the date of receipt of an exchange agreement if such agreement were the only one received by the Company on that date, but that if a large number of exchange agreements involving hundreds of participants were received within a period of several days, the Company, given its present administrative capabilities, might not be able to complete an exchange in less than three business days.

Applicants state that if an exchange is effected one to three business days following recipt of an exchange agreement, a considerable administrative burden could result if the Company were required to "back price" the individual account valuations to the date of its receipt of the exchange agreement. According to Applicants, back pricing the exchange valuations to the date of receipt of the exchange agreement would require reversing transactions recorded with respect to any intervening purchase payments in order that such payments could be credited under the Contract issued in connection with the exchange instead of the GUP Contract tendered for exchange, and extensive processing could be required in connection therewith since an intervening payment might be made on behalf of hundreds of participants.

Applicants state that owners and participants under contracts involved in an exchange will not be materially prejudiced if the values used in connection with the exchange are determined as much as three business days after the Company's receipt of the exchange agreement, particularly because the underlying funding media for each contract involved in the exchange are identical. Applicants represent that apart from the higher deductions which would be made if there were any intervening purchase payments under old GUP Contracts, the only effect of delaying the exchange valuation for up to three business days following receipt of an exchange agreement would be (a) in the case of an old GUP Contract, the continued assessment during such period of a daily deduction from the variable portion of that contract which is .000822% (.30% on an annual basis) higher than that under a Contract and (b) in the case of a new GUP Contract or new participants under an old GUP Contract, the effect of any adjustments made during such period to the tax reserve maintained in Account B with respect to capital gains. According to Applicants, neither effect would appear to be significant.

Finally, Applicants state that since the proposed method for valuing accumulation units in connection with an exchange will have no effect on the value of other contracts participating in Accounts B or E, and will have no other result which is unfair to the owners of such contracts, no purpose for which Rule 22c–1 was intended will be contravened by grant of the requested relief.

Section 6(c) of the Act provides, in part, that the Commission may, upon application, conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions from any provisions of the Act or of any rule or regulation under the Act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than October 26, 1976, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the address stated above. Proof of service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. Ae provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commisison thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponement thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 19701; 70–5908]

OHIO POWER CO.

Proposed Issuance and Sale of First Mortgage Bonds at Competitive Bidding

OCTOBER 1, 1976.

Notice is hereby given that Ohio Power Company ("Ohio"), 301 Cleveland Avenue, SW., Canton, Ohio 44702, an electric utility subsidiary company of American Electric Power Company, Inc. ("AEP"), a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transaction.

Ohio proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, up to $80,000,000 aggregate principal amount of its First Mortgage Bonds (the "new bonds"), __% Series due 2006. The interest rate (which will be a multiple of ⅛ of 1%) and the price (which shall not be less than 100%, unless Ohio shall authorize a lower percentage not less than 99%, and shall not exceed 102.75%) will be determined by competitive bidding. The new bonds will be issued under a Mortgage and Deed of Trust dated as of October 1, 1938, between Ohio and Manufacturers Hanover Trust Company, Trustee, as heretofore supplemented and amended and as to be further supplemented and amended by a Supplemental Indenture to be dated as of November 1, 1976, and which includes, with certain exceptions, a prohibition until November 1, 1981, against refunding the issue

V41N198 OCT 12 76 UM

with proceeds of funds borrowed at a lower effective interest cost.

The proceeds (excluding premium and accrued interest) from the sale of the new bonds will be applied to the retirement at maturity First Mortgage Bonds, 7¼% Series, due December 1, 1976, in the principal amount of $40,000,000, and to the payment of unsecured short-term indebtedness of Ohio. As of September 14, 1976, there was $27,847,000 aggregate amount of notes payable to banks outstanding and $41,825,000 principal amount of commercial paper outstanding. At the time of the issuance and sale of the new bonds, there will be short-term debt outstanding estimated not to exceed $65,000,000.

The fees and expenses to be incurred by Ohio in connection with the issue and sale of the new bonds and the fees and expenses of counsel for the underwriters, to be paid by the successful bidders, will be supplied by amendment. It is stated that the Public Utilities Commission of Ohio has jurisdiction over the issue and sale of the new bonds and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice Is Further given that any interested person may, not later than October 27, 1976, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[19702, 70-5905]

OHIO POWER CO. AND AMERICAN ELECTRIC POWER CO., INC.

Proposals of Holding Company To Enter Into Indemnity Agreement With Surety Company for Certain Subsidiaries and Second-Tier Subsidiaries and To Enter Into Contracts of Guaranty With State Industrial Commission

OCTOBER 1, 1976.

In the Matter of OHIO POWER CO., 301 Cleveland Avenue, SW., Canton, Ohio 44701. AMERICAN ELECTRIC POWER CO., INC., 2 Broadway, New York, N.Y. 10004.

Notice Is Hereby Given that American Electric Power Company, Inc. ("AEP"), a registered holding company, and Ohio Power Company ("Ohio"), its electric utility subsidiary company, have filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 12(b) and 12(f) of the Act as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

AEP proposes to enter into an indemnity agreement with Seaboard Surety Company, New York, New York ("Seaboard") on behalf of the following AEP subsidiaries and second-tier subsidiaries operating in West Virginia and Ohio, respectively: West Virginia-Ohio, Appalachian Power Company, Cedar Coal Company, Central Appalachian Coal Company, Central Operating Company, Southern Appalaehian Coal Company, Southern Ohio Coal Company ("Southern Ohio"), Wheeling Electric Company, and Windsor Power House Coal Company; Ohio-Ohio, Cardinal Operating Company ("Cardinal"), Central Ohio Coal Company, Ohio Electric Company ("Ohio Electric"), and Southern Ohio. The indemnity agreement concerns liabilities incurred by Seaboard in connection with the issuance, since April 1, 1976, of surface mining reclamation surety bonds ("reclamation bonds"), self-insurance workmen's compensation surety bonds ("workmen's compensation bonds"), and self-insurance pneumoconiosis (black lung) disability bonds ("disability bonds").

It is stated that certain of the above second-tier subsidiary companies ("coal mining companies") engage in coal mining operations in West Virginia and Ohio, as part of the AEP System's program for fuel procurement. Under West Virginia law, a prerequisite to the issuance of a surface mining permit is the posting with the State Department of Natural Resources of a reclamation bond in the amount of $1,000 per acre to be mined to assure that mining operations will be conducted in accordance with the permit issued and that all reclamation will be completed after mining has been terminated. It is further stated that the reclamation bonds must be posted by a corporate surety that is independent of the mining operator. Similarly, the Ohio Department of Natural Resources requires a reclamation bond, in an amount equal to the cost of reclamation. It is stated that the coal mining companies have experienced difficulties in obtaining reclamation bonds, with surety companies either refusing to issue such bonds or issuing bonds only upon indemnification by AEP. It is further stated that Seaboard has issued the reclamation bonds without requiring present indemnification from AEP, but subject to AEP's filing of the instant declaration seeking Commission approval for AEP to indemnify Seaboard. The maximum amount of indemnity at any one time outstanding with respect to the reclamation bonds will not exceed $30,000,000.

It is stated that the above AEP subsidiaries and second-tier subsidiaries are self-insured as to workmen's compensation liability, with such self-insurance resulting in savings over the cost of purchased workmen's compensation insurance. In West Virginia, the Commissioner of the Workmen's Compensation Fund had required that, effective July 1, 1976, all self-insured employers must post $1,000,000 bonds. Similarly, the state of Ohio's Industrial Commission has currently required self-insuring employers to post bonds of not less than $100,000 nor more than $1,000,000 each. It is further stated that surety companies were unwilling to issue the workmen's compensation bonds without indemnification by AEP; but that Seaboard has issued the bonds without present indemnification, subject to AEP's filing of the instant declaration seeking Commission approval to indemnify Seaboard. The maximum amount of indemnity at any one time outstanding with respect to the workmen's compensation bonds will not exceed $15,000,000.

It is stated that the above coal mining companies are presently self-insured as to black lung disability benefits provided to miners by the Federal Coal Mine Health and Safety Act of 1969. The United States Department of Labor has required, as a condition to such self-insurance, that disability bonds be provided to the Federal Government, insuring payment of black lung disability claims. It is further stated that the coal mining companies have found it difficult to renew such disability bonds, and that Seaboard has agreed to provide the required bonds, subject to AEP's seeking Commission approval to indemnify Seaboard. The maximum amount of indemnity at any one time outstanding with respect to the disability bonds will not exceed $2,000,000.

It is further proposed that AEP, on behalf of Ohio, and Ohio, on behalf of its subsidiaries, Ohio Electric and Cardinal, enter into contracts of guaranty with the Ohio Industrial Commission. Said commission has required these contracts in order to assure the payment of workmen's compensation claims by the respective parent of each subsidiary company, should the subsidiary fail to make such payments. Such contracts of guaranty are required on or before November 1, 1976.

The fees and expenses to be paid, including legal fees, are estimated as not to exceed $2,500. It is stated that AEP will not make any charge to any System company with respect to either indemnification under the bonds or the contracts of guaranty. It is further stated that no state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice Is Further Given that any interested person may, not later than October 28, 1976, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed, or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

MIDDLE SOUTH UTILITIES, INC. AND MIDDLE SOUTH ENERGY, INC.

Second Post-Effective Amendment Regarding Proposed Issuance and Sale of Common Stock by Subsidiary Company to Holding Company

OCTOBER 1, 1976.

Notice Is Hereby Given that Middle South Utilities, Inc. ("Middle South"), a registered holding company, and Middle South Energy, Inc. ("MSEI"), a subsidiary company of Middle South, have filed with this Commission a second post-effective amendment to the application-declaration in this proceeding pursuant to Sections 6(a), 7, 9(a), and 10 of the Public Utility Holding Company Act of 1935 ("Act") regarding the following proposed transactions. All interested persons are referred to the amended application-declaration, which is summarized below, for a complete statement of the proposed transactions.

By orders in this proceeding dated January 20, 1976, and September 30, 1976 (HCAR Nos. 19354 and 19699), MSEI was authorized to issue and sell to Middle South (holder of all of MSEI's common stock no par value per share), and Middle South was authorized to acquire, 68,000 additional shares of MSEI's common stock, for an aggregate purchase price of $68,000,000 in cash. Middle South and MSEI stated that it was preferable for the additional common stock to be sold at times coinciding with MSEI's cash needs, which are primarily determined by the nature and pace of the construction work on its Grand Gulf Nuclear Electric Station near Vicksburg, Mississippi. Accordingly, the applicants-declarants were granted authority to consummate the proposed transactions at various times through December 31, 1976.

In the second post-effective amendment, it is stated that sales of the additional common stock aggregating 53,000 shares have occurred, leaving 15,000 remaining shares of common stock authorized to be sold through and including December 31, 1976. To enable MSEI to continue construction of the Grand Gulf Nuclear Electric Station project and for other cash needs, authorization is now requested for the company to issue and sell, and for Middle South to acquire, in addition to the 15,000 remaining shares of common stock authorized to be sold through and including December 31, 1976, an additional 5,000 shares of its presently authorized but unissued common stock, no par value, to be sold as necessary during the same period at a price of $1,000 per share for an aggregate cash purchase price of $5,000,000.

It is further stated that to the extent funds are required from external sources to acquire additional shares of MSEI common stock, Middle South will obtain such funds through the issuance and sale of its unsecured short-term promissory notes issued under a revolving credit agreement dated as of June 1, 1976, with a group of banks headed by Manufacturers Hanover Trust Company of New York, as authorized by the Commission's order dated June 14, 1976 (HCAR No. 19570).

No State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice Is Further Given that any interested person may, not later than October 26, 1976, request in writing that a hearing be held on such matter stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as now amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 19695, 37-59]

SOUTHERN COMPANY SERVICES, INC.

Post-Effective Amendment Regarding Issue and Sale of Long-Term Notes to Holding Company by Subsidiary Service Company

SEPTEMBER 27, 1976.

In the matter of Southern Company Services, Inc., Perimeter Center East, Atlanta, Georgia 30346.

Notice Is Hereby Given that Southern Company Services, Inc. ("Services"), a wholly-owned subsidiary service company of The Southern Company ("Southern"), a registered holding company, has filed with this Commission a post-effective amendment to the application-declaration in this proceeding pursuant to Sections 6(a), 7, and 13 of the Public Utility Holding Company Act of 1935 ("Act") regarding the following proposed transactions. All interested persons are referred to the application-declaration, as amended by the post-effective amendment, which is summarized below, for a complete statement of the proposed transaction.

By order dated July 23, 1963 (HCAR No. 14913), the Commission authorized Services to issue and sell to Southern for cash, and Southern to acquire, during a five year period commencing July 23, 1963, up to $500,000 aggregate principal amount to be outstanding at any one time of long-term unsecured notes of

V41 I198 OCT 12 76 UM

Services to bear interest at a rate equal to the average effective interest cost of Southern's outstanding obligations for borrowed money on the date of issue. By orders dated September 10, 1971, May 15, 1973, and June 26, 1975 (HCAR Nos. 17261, 17961, and 19063), the Commission authorized increases in the aggregate principal amount of such notes to be issued and sold by Services to Southern to the present limit of $18,275,000 and also extended the authorization with respect to the issue and sale of notes to June 30, 1978.

Services presently has an aggregate capital stock equity of $725,000 and the principal amount of its long-term debt in the form of unsecured notes is $17,500,000. The entire amount of Services' equity and debt is owned by Southern.

Services performs professional and technical services at cost for associate companies in the Southern holding-company system. Expansion of said services in recent years has resulted in a substantial increase in the amount of necessary working capital.

In the current filing, Services states that due to the increase in its working capital requirements the balance of the current amount of notes authorized by the Commission to be issued will be issued during October. It is estimated that by December 31, 1976, such note requirements will increase to $19,000,000. Services estimates that by December 31, 1979, it will require working capital of approximately $30,000,000. Underlying these working capital estimates is Services expectation that by the end of 1979 its personnel is expected to increase over the total for December 31, 1975 as follows: general services, from 274 to 360; engineering, from 1,066 to 1,419; power pool, from 108 to 174; and data processing, from 400 to 612. In addition, Services estimates additional expenditures for computer and telecommunications equipment and leasehold improvements through 1979 of $25,228,000.

The unsecured notes to be issued to Southern will mature December 31, 1999, and will be prepayable at any time without premium. Southern will acquire said notes at the principal amount thereof. The notes are to bear interest at a rate equal to the average effective interest cost of Southern's outstanding obligations for borrowed money on the date of issue, or, to the extent that the aggregate principal amount of Services' outstanding notes to Southern exceed the aggregate principal amount of Southern's outstanding obligations for borrowed money, such excess principal amount of notes shall bear interest at a rate equal to the weighted average rate of return on common equity most recently allowed the four operating subsidiaries by their respective public service commissions which have retail rate jurisdiction, but in any event at a rate not less than 125 percent of the prime rate in effect on the date of issue thereof at such bank in Atlanta, Georgia, as shall have been designated by Services for that purpose.

The aggregate capital of Services, including its outstanding notes and capital stock, will be maintained at all times at an amount equivalent approximately to the sum of two months' operating expenses and the depreciated cost of Services' fixed assets including prepayments and petty cash working funds, less any unpaid indebtedness for funds borrowed from non-Southern system sources for the acquisition of such fixed assets.

It is stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction. Fees and expenses to be incurred in connection with the proposal are estimated at $5,000, including legal fees of $2,500.

Notice Is Further Given that any interested person may, not later than October 21, 1976, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant-declarant at the above stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as now amended or as it may be further amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

MIDWEST STOCK EXCHANGE, INC.

Self-Regulatory Organizations; Proposed Rule Change

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on September 3, 1976, the above mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

Statement of the Terms of Substance of the Proposed Rule Change Brackets indicate deletion; italics indicate additions.

ARTICLE I, RULE 1

Membership

Qualifications

Rule 1. An applicant for membership shall meet, and a member shall continue to meet, the following basic requirements: Citizenship, Age and Form of Organization:

(a) If an individual, an applicant or member shall be [at least 21 years old and a citizen of the United States, Canada, or such other country as the Board of Governors or Executive Committee, by an affirmative vote equivalent to that required to amend these Rules, shall approve.] *of an age so as to be responsible for his or her contracts under the laws of the State or Country in which he or she engages in the securities business.* If a partner, an applicant or member shall have at least two general partners. If a corporation, an applicant or member shall be organized under the laws of one of the states of the United States, under the Canada Corporations Act or the incorporation statute of a Canadian province, or under a comparable statute of such other country [as the Board of Governors or Executive Committee, by an affirmative vote equivalent to that required to amend these Rules, shall approve.] *in which the corporation is domiciled.*

* * * Interpretations and Policies:

[.01 Add approved Countries.—]

[United Kingdom, Switzerland, West Germany, Belgium, France.] [The Netherlands, Italy and Japan.]

.02 becomes .01

.03 becomes .02

ARTICLE XV, RULE 7

Rule 7(a) A member corporation shall not be a subsidiary of a parent firm except in accordance with paragraph (1) *or* (2) [or (3)] of this rule.

(1) A member corporation may be a subsidiary of a parent firm [organized and doing business in the United States or Canada] if all requirements of the following paragraphs (i) through (iii) are met in addition to other applicable rules in Articles I and XV:

(i) Each parent firm shall agree to file with the Exchange annual financial statements of itself and its other subsidiaries.

(ii) Each parent firm shall agree to file with the Exchange and keep current (A) a list and descriptive identification of its directors, principal officers and principal stockholders (if a corporation) or its principal partners (if a partnership) and (B) an identification of the types of businesses conducted by itself and its other subsidiaries. [The directors, principal officers and principal stockholders or the principal partners of the parent firm and the types of businesses conducted by it and its other subsidiaries shall be subject to approval by the Exchange, and in the event of disapproval shall, subject to review of such disapproval in accordance with Rule 10 of Article XVI, be separated or discontinued within a reasonable time.] The principal officers or principal partners of the parent firm shall be bound by the Constitution and Rules of the Exchange.

(iii) Each parent firm shall agree to furnish to the Exchange such information regarding security transaction and related activities of itself and its other subsidiaries as may be required by the Exchange to insure compliance with its Rules.

[(2) A member corporation may be a subsidiary of a parent firm not organized and doing business in the United States or Canada if the requirements of the following subparagraphs (i) and (ii) are met in addition to other applicable rules:]

[(i) The parent firm shall be engaged in business as a broker/dealer in a country (other than the United States or Canada) approved by the Board of Governors or Executive Committee by an affirmative vote equivalent to that required to amend these Rules.]

[(ii) The parent firm shall agree to comply with such requirements as may be imposed by the Exchange for protection of investors, Exchange members, and the Exchange.]

(3) Will become (2) and will read as follows: (wording remains as is).

(2) A member corporation may be a subsidiary of a parent firm in such other circumstances and subject to such other limitations or conditions as the Board of Governors or Executive Committee may find appropriate.

[(b) No creditor or customer of a parent firm or of any of its subsidiaries except public securities customers of the member corporation shall have any claim, right or interest in the Midwest Stock Exchange Special Trust Fund.]

On or before November 16, 1976, or within such longer period (i) As the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(a) By order approve such proposed rule change, or

(b) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted by November 2, 1976.

For the Commission by the Division of of Market Regulation, pursuant to delegated authority.

Dated: September 14, 1976.

GEORGE A. FITZSIMMONS,
Secretary.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

NATIONAL ADVISORY COMMITTEE ON OCCUPATIONAL SAFETY AND HEALTH

Meeting

Notice is hereby given that the Subgroup on Compliance of the National Advisory Committee on Occupational Safety and Health (NACOSH) will meet on October 28, 1976 in Room S-4215, Department of Labor Building, 3rd Street and Constitution Avenue NW., Washington, D.C. 20210.

The National Advisory Committee was established under section 7(a) of the Occupational Safety and Health Act of 1970 to advise the Secretary of Labor and the Secretary of Health, Education, and Welfare on matters relating to the administration of the Act.

The meeting will begin at 9 a.m. The public is invited to attend. The Subgroup will continue its discussion of multi-employer worksite citation guidelines and make plans for future meetings.

For additional information contact:

J. Goodell, Chief, Committee Management Office, National Advisory Committee on Occupational Safety and Health, Department of Labor-OSHA, Room N-3635, Third Street and Constitution Avenue NW., Washington, D.C. 20210, Phone: (202) 523-8024.

Any written data or views concerning these agenda items or suggestions for future agenda items which are received by the Committee Management Office before the meeting, preferably with 20 copies, will be presented to the Subgroup and included in the official record of the meeting.

Anyone wishing to make an oral presentation should notify the Committee Management Office before the meeting. The request should state the amount of time desired, the capacity in which the person will appear, and a brief outline of the content of the presentation. Oral presentations will be scheduled at the discretion of the Subgroup Chairman, depending on the extent to which time permits.

Official records of the meeting will be available for public inspection at the above address.

Signed at Washington, D.C. this 8th day of October 1976.

J. GOODELL,
Executive Secretary.

MISSISSIPPI VALLEY MOTOR FREIGHT BUREAU

Agreement

SEPTEMBER 30, 1976.

The Commission is in receipt of an application in the above-entitled proceeding for approval of amendments to the agreement therein approved.

Filed September 23, 1976 by:

Gregory M. Rebman, 314 N. Broadway, St. Louis, MO 63102 (Attorney for Applicants).

The amendments involve: Changes to comply with Ex Parte No. 297, 349 I.C.C. 811 and 351 I.C.C. 437.

The complete application may be inspected at the Office of the Commission, in Washington, D.C.

Any interested person desiring to protest and participate in this proceeding shall notify the Commission in writing within 30 days from the date of publication of this notice in the Federal Register. As provided by the General Rules of Practice of the Commission, persons other than applicants should fully disclose their interest, and the position they intend to take with respect to the application. Otherwise, the Commission, in its discretion, may proceed to investigate and determine the matters involved without further or formal hearing.

[Notice No. 133]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

OCTOBER 5, 1976.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 730 (Sub-No. 393TA), filed September 28, 1976. Applicant: PACIFIC INTERMOUNTAIN EXPRESS COMPANY, 1417 Clay St., P.O. Box 958, Oakland, Calif. 94612. Applicant's representative: R. N. Cooledge (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Crude fish oil*, in bulk, in tank vehicles, from Terminal Island, Calif., to Colorado Springs, Colo., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Harbor Trading Company, 555 W. 9th St., San Pedro, Calif. 90731. Send protests to: A. J. Rodriguez, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 211 Main St., Suite 500, San Francisco, Calif. 94105.

No. MC 103051 (Sub-No. 378TA), filed September 28, 1976. Applicant: FLEET TRANSPORT COMPANY, INC., 934 44th Avenue, North, P.O. Box 90408, Nashville, Tenn. 37209. Applicant's representative: Russel E. Stone (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ground nonmetallic minerals*, in bulk, and in bags, from Campobella, S.C., to points and places in Georgia, North Carolina, Tennessee, Virginia and West Virginia, for 180 days. Supporting shipper(s) A. B. Wood Chemical Company, Inc., P.O. Box 428, Campobello, S.C. 29322. Send protests to: Joe J. Tate, District Supervisor, Bureau of Operations-ICC, Suite A-422, U.S. Court House, 801 Broadway, Nashville, Tenn. 37203.

No. MC 108835 (Sub-No. 36TA), filed September 24, 1976. Applicant: HYMAN FREIGHTWAYS INC., 1745 University Ave., P.O. Box 3393, St. Paul, Minn. 55165. Applicant's representative: Rodney L. Trocks, 2690 N. Prior Ave., Roseville, Minn. 55113. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), (a) serving the plantsite of Ka-Winn Corporation, located at or near Winnebago, Minn., as an off-route point in connection with applicant's authorized regular route operations, between Beresford, S. Dak., and St. Paul, Minn., and (b) serving the plantsite of Ka-Winn Corporation, located at or near Winnebago, Minn., as an intermediate point in connection with applicant's regular route operations, between Mankato, Minn., and Oskaloosa, Iowa. Applicant intends to tack its existing authority with MC 108835 and related subs. Applicant also intends to interline at Aberdeen, S. Dak.: Burlington, Iowa; Davenport, Iowa, Des Moines, Iowa, Kansas City, Mo.; Minneapolis-St. Paul, Minn.; Omaha, Nebr.; Rock Island, Ill.; Sioux City, Iowa; Sioux Falls, S. Dak.; and Watertown, S. Dak., for 180 days. Supporting shipper: La-Winn Corporation, 600 S. Ave., East, Winnebago, Minn. 56098. Send protests to: Marion L. Cheney, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, 414 Federal Bldg., and U.S. Courthouse, 110 S. 4th St., Minneapolis, Minn. 55401.

No. MC 113398 (Sub-No. 13TA), filed September 27, 1976. Applicant: CINEMA SERVICES, INC., P.O. Box 4, Ft. Collins, Colo. 80521. Applicant's representative: Charles J. Kimball, 350 Capitol Life Center, 1600 Sherman St., Denver, Colo. 80203. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: (1) *Motion picture films, processed and unprocessed film, photographs, materials and supplies* used in connection therewith and advertising materials and supplies; (A) between Denver, Colo., and Gillette, Wyo., serving all intermediate points and the off-route points of Glen Rock, Douglas, Laramie and Torrington, Wyo.; from Denver, Colo., over U.S. Highways 87 and Interstate Highway 25 to the junction with U.S. Interstate Highway 90, thence over U.S. Highway 90 to Gillette, and return over the same route; (B) between Denver, Colo., and Gillette, Wyo.; from Denver, Colo., over U.S. Highway 6 to its junction with U.S. Highway 138, thence over U.S. Highway 138 to its junction with Colorado Highwy 113, thence over Colorado Highway 113 to the Colorado-Nebraska state line, thence over Nebraska Highway 19 to its junction with U.S. Highway 30, thence over U.S. Highway 30 to Sidney, Nebr., thence back on U.S. Highway 30 to its junction with U.S. Highway 385, thence over U.S. Highway 385 to its junction with U.S. Highway 14, thence over U.S. Highway 14 to its junction with U.S. Interstate Highway 90, thence over U.S. Interstate Highway 90 to its junction with U.S. Highway 14, thence over U.S. Highway 14 to Gillette, and return over the same route; (2) *Processed and unprocessed film, photographs, and materials and supplies* used in connection therewith; (A) between Denver, Colo., and North Platte, Nebr., serving the intermediate point of McCook, Nebr.; from Denver, Colo., over U.S. Highway 6 to its junction with U.S. Highway 34, thence over U.S. Highway 34 to its junction with U.S. Highway 83, thence over U.S. Highway 83 to North Platte, and return over the same route; (b) between Denver, Colo., and North Platte, Nebr., serving the off-route points of Ogalalla and Sindey, Nebr.,; from Denver, Colo., over U.S. Highway 6 to its junction with U.S. Highway 138, thence over U.S. Highway 138 to its junction with U.S. Highway 30, thence over U.S. Highway 30 to North Platte, and return over the same route.

Between Denver, Colo., and Scottsbluff, Nebr., serving the Intermediate points of Cheyenne, and Torrington, Wyo.; from Denver, Colo., over U.S. Highway 87 to Cheyenne, Wyo., thence over U.S. Highway 85 to Torrington, Wyo., and thence over U.S. Highway 26 to Scottsbluff, and return over the same route; (D) between Denver, Colo., and Scottsbluff, Nebr., serving the intermediate points of Cheyenne, Wyo., and Kimball, Nebr., and the off-route point of Sidney, Nebr.; from Denver over U.S. Highway 87 to Cheyenne, thence over U.S. Highway 30 to Kimball, thence over U.S. Nebraska Highway 71 to Scottsbluff, and return over the same route; and (E) between Denver, Colo., and Sidney, Nebr., serving no intermediate points; from Denver over U.S. Highway 6 to Sterling, Colo., thence over U.S. Highway 138 to its junction with Colorado Highway 113, thence over Colorado Highway 113 to the Colorado-Nebraska state line, thence over Nebraska Highway 19 to its junction with U.S. Highway 30, thence over U.S. Highway 30 to Sidney, and return over the same route, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shippers: are approximately 8 statements of support attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. [Notice No. 45]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with the Commission on or before November 11, 1976. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopses form, but are deemed sufficient to place interested persons on notice of the proposed transfer.

No. MC–FC–76537, filed September 23, 1976. Transferee: DONALD J. WILLIAMSON AND MYRL B. WILLIAMSON, a partnership, doing business as WILLIAMSON BROTHERS TRUCKING, Box 238, Whitewood, S. Dak. 57793. Transferor: RALPH C. ISLAND, doing business as ISLAND FREIGHT, P.O. Box 404, Deadwood, S. Dak. 57732. Applicant's representative: Donald J. Williamson, Box 238, Whitewood, S. Dak. 57798. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in permits Nos. MC 113025, MC 113025 (Sub-No. 2), MC 113025 (Sub-No. 5), MC 113025 (Sub-No. 7), issued April 15, 1963, July 24, 1964, July 2, 1973, and November 19, 1974, respectively, as follows: Such merchandise as is dealt in by wholesale food business houses, from Deadwood, S. Dak, to Broadus, Boyes, Hammond, Biddle, Ranch Creek, Ridge, Alzada, Albion, Capitol, Mill Iron, Bell Tower, Chalk Buttes, and Ekalaka, Mont., and Rocky Point, New Haven, Oshoto, Colony, Hulett, Alva, and Aladdin, Wyo.; seeds, flour, and animal feeds, from Rapid City, S. Dak., to points in Fallon, Custer, Carter, Powder River, Rosebud, Treasure, Yellowstone, and Big Horn Counties, Mont., and those points in Wyoming located east of the western boundaries of Sheridan, Johnson, Natrona, and Carson Counties, limited to a transportation service to be performed under a contract with Tri State Milling Company, Rapid City, S. Dak.; flour and animal feeds, from the plantsite of Hubbard Milling Co., at Rapid City, S. Dak., to points in Adams, Billings, Bowman, Golden Valley, Grant, Hettinger, Morton, Sioux, Slope, and Stark Counties, N. Dak., and points in that part of Nebraska west of U.S. Highway 281; and feed, and feed ingredients dry, from the plantsite of Hubbard Milling Company, at or near Mankato, Minn., to the facility of Hubbard Milling Company, at Rapid City, S. Dak. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC–FC–76685, filed July 29, 1976. Transferee: HARBOR TRUCK LINES, INC., 225 Baronne Street, New Orleans, La. 70112. Transferor: JEFFERSON TRUCK LINE, INC., 2600 Peters Road, Harvey, La. 70058. Applicants' representative: Harold R. Ainsworth, Attorney at Law, 2307 American Bank Building, New Orleans, La. 70130. Authority sought for purchase by transferee of Certificate of Registration No. MC 99746 (Sub-No. 1), issued November 5, 1963, to transferor evidencing a right to engage in transportation in interstate commerce as described in Certificate No. 5176–A dated September 12, 1958, issued by the Louisiana Public Service Commission. Transferee presently holds no authority from this Commission. Application has been filed for temporary authority under Section 210a(b).

No. MC–FC–76696, filed August 8, 1976. Transferee: LEROY DENEAU, P.O. Box 242, Oregon, Ill. 61061. Transferor: DONALD H. ASCHENBRENNER, P.O. R.R. No. 3, Dixon, Ill. 61021. Applicants' representative: Donald S. Mullins, 4704 W. Irving Park Road, Chicago, Ill. 60641. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC 135216 (Sub-No. 1), issued by the Commission June 19, 1975, as follows: General commodities, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Oregon, Ill., on the one hand, and on the other, O'Hare International Airport, Midway Airport, and Meigs Field, at or near Chicago, Ill. Restriction: The operations authorized herein are restricted to the transportation of traffic having a prior or subsequent movement by air. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC–FC–76712, filed September 17, 1976. Transferee: ALLIED AIR FREIGHT CORPORATION, Griswold Industrial Park, Williston, Vt. 05495. Transferor: VERMONT COMMERCIAL WAREHOUSING, INC., P.O. Box 604, 11 Maple St., Essex Junction, Vt. 05452. Applicants' representative: Henry U. Snavely, Attorney-at-Law, 410 Pine St., Vienna, Va. 22180. Authority sought for purchase by transferee of the operating rights of transferor as set forth in Permit No. MC 124686 (Sub-No. 1), issued January 21, 1974, as follows: Such commodities as are dealt in by wholesale hardware stores, from Burlington, Vt., to points in Clinton, Essex, Franklin, and St. Lawrence Counties, N.Y., and Grafton and Sullivan Counties, N.H. Transferee is presently authorized to operate as a common carrier under Certificate No. MC 133259 and subs thereafter. Dual operation involved. Application has not been filed for temporary authority under Section 210a(b).

No. MC–FC–76713, filed September 30, 1976. Transferee: POTTER/B & C TRANSFER, a corporation, 8146 Byron Road, Whittier, Calif. 90607. Transferor: FRED V. MURPHY, doing business as RED BALL TRANSFER & STORAGE CO., 4716 Vineland Ave., North Hollywood, Calif. 63080. Applicants' representative: Stephen C. Saunders, 8146 Byron Road, Whittier, Calif. 90607. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC 63080, issued February 24, 1961, as follows: Household goods as defined by the Commission, between points in Los Angeles, Calif.; and between Los Angeles, Calif., and Los Angeles Harbor, Calif. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC–FC–76737, filed September 7, 1976. Transferee: TERRY D. JORGENSEN, Route 1, Ida Grove, Iowa 51445. Transferor: MAU TRUCKING, INC., 403 West 2nd St., Early, Iowa 50535. Applicants' representative: Stewart A. Huff, 314 Security Bank Bldg., Sioux City, Iowa 51101. Authority sought for purchase by transferee of the operating rights of transferor as set forth in Permits No. MC 119211 and MC 119211 Sub-No. 6, issued August 10, 1976, and June 10, 1966, respectively as follows: MC 119211—Animal and poultry feeds, and ingredients and materials used in the manufacture thereof, in bulk and in bags, for the account of Farmland Industries (restricted against the transportation of liquid commodities, or any named commodity, in bulk, in tank vehicles), between Eagle Grove and Ida Grove, Iowa, on the one hand, and, on the other, points in that part of Nebraska on and East of U.S. Highway 281; Animal and poultry feeds, ingredients, and materials, in bags and in bulk (except liquid commodities, in bulk, in tank vehicles), between Ida Grove, Iowa, on the one hand, and, on the other, points in that part of South Dakota bounded by a line beginning at the South Dakota-Nebraska State line and extending North on and along U.S. Highway 83 to junction of U.S. Highways 16 and 83, thence East on and along combined U.S. Highways 16 and 83 to junction U.S. Highway 83 immediately West of Vivian, S. Dak., thence North on and along U.S. Highway 83 to the South Dakota-North Dakota State line, thence East along the South Dakota-North Dakota State line to the junction of the South Dakota-North Dakota-Minnesota State lines, thence South along the Dakota-Minnesota-Iowa State lines and continuing South along the South Dakota-Iowa-Nebraska State lines, thence West along the South Dakota-Nebraska State line to the point of beginning.

Restriction: The operations authorized are limited to a transportation service to be performed, under a continuing contract, or contracts, with Farmland Industries, of Ida Grove, Iowa. No. MC 119211 (Sub-No. 6)—Animal and poultry feed and feed ingredients (except liquid commodities in bulk, in tank vehicles), Between Ida Grove, Iowa, on the one hand, and, on the other, points in that part of Minnesota bounded by a line beginning at the junction of the South Dakota-Minnesota-Iowa State lines and extending North along the South Dakota-Minnesota State Line to U.S. Highway 12 near Ortonville, Minn., thence East along U.S. Highway 12 to Benson, Minn., thence Southeasterly along U.S. Highway 12 to junction Minnesota Highway 15 near Dassel, Minn., thence North along Minnesota Highway 15 to Junction U.S. Highways 10 and 52 at St. Cloud, Minn., thence Southeasterly along U.S. Highway 10 to junction Minnesota Highways 96 and 100 near New Brighton, Minn., thence along Minnesota Highway 96 to White Bear Lake, Minn., thence South along Minnesota Highway 100 to junction U.S. Highway 12 near St. Paul, Minn., thence East along U.S. Highway 12 to the Minnesota-Wisconsin State line, thence South along the Minnesota-Wisconsin State line to junction Minnesota-Wisconsin-Iowa State lines, and thence West along the Minnesota-Iowa State line to point of beginning, including points on the indicated portions of the highways specified. Restriction: The service authorized is restricted against the transportation of traffic from points in the Minneapolis-St. Paul Commercial Zone, as defined by the Commission. The operations authorized are limited to a transportation service to be performed, under a continuing contract, or contracts with Farmland Industries, of Ida Grove, Iowa. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC–FC–76740, filed September 14, 1976. Transferee: FRANCIS E. REAVER, R.D. No. 2, Taneytown, Md. 21787. Transferor: FRANCIS E. REAVER, George W. Reaver & Franklin R. Reaver, a partnership, doing business as CHARLES B. REAVER & SONS, R.D. 2, Harney Road, Taneytown, Md. 21787. Applicants' representative: Charles E. Creager, 1329 Pennsylvania Avenue, Hagerstown, Md. 21740. Authority sought for purchase by transferee of the operating rights of transferor as set forth in Permits No. MC 124555 and MC 124555 (Sub-No. 2), issued May 20, 1969, and October 15, 1969, respectively, as follows: MC 124555—Lumber, between Flintstone Md., and Moorefield W. Va.; from Flintstone Md., and Moorefield W. Va., to Winchester Va., and points in Connecticut, Delaware, Massachusetts, New Jersey, New York, and Pennsylvania; From Moorefield, W. Va., to points in Maryland. Restriction: The operations authorized are limited to a transportation service to be performed, under a continuing contract, or contracts, with F. R. Vigbypno, M. A. Barlly, and G. Van Hessen, a partnership, doing business as Van Hessen Company of Baltimore, Md. MC 124555 (Sub-No. 2)—Lumber, from West Providence Township (Bedford County), Pa., to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Virginia, West Virginia, and the District of Columbia. Restriction: The operations authorized are limited to a transportation service to be performed, under a continuing contract, or contracts, with Van Hessen & Company of Baltimore, Md. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC–FC–76748, filed September 20, 1976. Transferee: CALDWELL TRUCKING, INC., Holdman Route, Pendleton, Oreg. 97801. Transferor: STEVE CALDWELL, P.O. Box 36, Route 1, Adams, Oreg. 97810. Applicants' representative: Lawrence V. Smart, Jr., Attorney-at-Law, 419 N.W. 23rd Ave., Portland, Oreg. 97210. Authority sought for purchase by transferee of the operating rights of transferor as set forth in Permits Nos. MC 135884 (Sub-No. 1), MC 135884 (Sub-No. 3), MC 135884 (Sub-No. 5), and MC 135884 (Sub-No. 8), issued by the Commission June 28, 1972, May 18, 1973, September 2, 1975, and March 2, 1976, respectively, as follows: Furniture, furniture parts, furniture hardware, and furniture samples, from, to, or between points in Oregon, Washington, California, Minnesota, Colorado, Texas, Illinois, Pennsylvania, Georgia, Massachusetts, Nebraska, Wisconsin, New Jersey, Indiana; and milk replacer, whey, and whey-fat mixes (except in bulk), from Dundee and Pittsfield, Ill., and Bascobel, Wis., to points in Arizona, California, Colorado, Idaho, Montana, Oregon, Utah, and Washington, under continuing contract or contracts with specified shippers. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC–FC–76749, filed September 22, 1976. Transferee: ELDRIDGE TRUCK LINE, INC., N. Hwy. 27, P.O. Box 659, Somerset, Ky. 42501. Transferor: BARNETT ELDRIDGE (Wayne R. Eldridge, Executor), doing business as ELDRIDGE TRUCK LINE, N. Hwy. 27, P.O. Box 659, Somerset, Ky. 42501. Applicants' representative: Robert M. Pearce, Attorney-at-Law, P.O. Box 1111, Bowling Green, Ky. 42101. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificates Nos. MC 98776 (Sub-No. 1) and MC 98776 (Sub-No. 2), and Certificate of Registration No. MC 98776 (Sub-No. 4), issued September 28, 1964, March 26, 1957, and December 20, 1965, as follows: General commodities, with the usual exceptions, meats, meat products, and meat by-products, and dairy products, as described in Sections A and B of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, between points and places in Kentucky. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

[AB 12 (Sub-No. 29)]

SOUTHERN PACIFIC TRANSPORTATION CO.

Abandonment of Its Napoleonville Branch Between Supreme and Glenwood in Assumption Parish, Louisiana

SEPTEMBER 30, 1976.

The Interstate Commerce Commission hereby gives notice that its Environmental Affairs Staff has concluded that the proposed abandonment by the Southern Pacific Transportation Company of its line of railroad between Supreme and Glenwood, a distance of 7.86 miles, all in Assumption Parish, La., if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et

V41198 OCT 12 76 UM

seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that approval of the proposed abandonment would not adversely affect the potential for rural or community development due to the existence of both highways and alternate rail service in the affected corridor. Since most of the rail traffic will probably move over the parallel Texas and Pacific rail line, there will be negligible changes in ambient environmental conditions. Also there are no historic sites or threatened or endangered species affected by this action. Interest has been expressed for continued public use of the right-of-way.

This conclusion is contained in a staff-prepared environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423, telephone 202–275–7011.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before November 11, 1976.

It should be emphasized that the environmental threshold assessment survey represents an evaluation of the environmental issues in the proceeding and does not purport to resolve the issue of whether the present or future public convenience and necessity permit discontinuance of the line proposed for abandonment. Consequently, comments on the environmental study should be limited to discussion of the presence or absence of environmental impacts and reasonable alternatives.

ROBERT L. OSWALD,
Secretary.

TRANSPORTATION OF "WASTE" PRODUCTS FOR REUSE OR RECYCLING

Special Certificate Letter Notice(s)

The following letter notices request participation in a Special Certificate of Public Convenience and Necessity for the transportation of "waste" products for reuse or recycling in furtherance of a recognized pollution control program under the Commission's regulations (49 CFR 1062) promulgated in "Waste" Products, Ex Parte No. MC–85, 124 MCC 583 (1976).

An original and one copy of protests against applicant's participation may be filed with the Interstate Commerce Commission on or before November 1, 1976. A copy must also be served upon applicant or its representative. Protests against the applicant's participation will not operate to stay commencement of the proposed operation.

If the applicant is not otherwise informed by the Commission, operations may commence on or before November 11, 1976, subject to its tariff publication effective date.

P–27–76 (Special Certificate—Waste Products), filed September 16, 1976. Applicant: SOUTHWEST TRAILS, a Corporation, 223 Erie Street, Pomona, Calif. 91766. Applicant's representative: Milton W. Flack, 4311 Wilshire Blvd., Suite 300, Los Angeles, Calif. 90010. Authority sought to operate pursuant to a certificate of public convenience and necessity authorizing operations in interstate or foreign commerce, as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of *scrap paper, paper products, rugs, synthetic fibres*, suitable for reuse or recycling into paper products, between points in California, Arizona, Nevada New Mexico, and Texas, in furtherance of a recognized pollution control program sponsored by Garden State Paper Company, Inc. of Pomona, Calif., for the purpose of manufacturing newsprint from scrap paper.

NOTE.—Applicant holds Waste Products Certificate No. P–25–72 originally issued to Motor Cargo, Inc.

P–28–76 (Special Certificate—Waste Products), filed September 20, 1976. Applicant: TAJON, INC., R.D. 5, Mercer, Pa. 16137. Applicant's representative: Brian L. Troiano, 700 World Center Building, 918 Sixteenth St., NW., Washington, D.C. 20006. Authority sought to operate pursuant to a certificate of public convenience and necessity authorizing operations in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes in the transportation of *glass cullet*, between points in the United States (except Alaska and Hawaii), in furtherance of recognized pollution control programs sponsored by: (1) Brockway Glass Company, Inc. of Brockway, Pa.; (2) Glass Containers Corporation of Fullerton, Calif.; and (3) C & C Cullet Company of Marietta, Pa.; for the purpose of recycling glass cullet.

NOTE.—Applicant holds Waste Products Certificate No. P–32–73 authorizing a more limited scope of operation than that requested above.

By the Commission.

ROBERT L. OSWALD,
Secretary.

federal register

TUESDAY, OCTOBER 12, 1976

PART II:

DEPARTMENT OF THE TREASURY

Comptroller of the Currency

SECURITIES EXCHANGE ACT DISCLOSURE RULES

V41 1 1976 OCT 12 76 UMI

Title 12—Banks and Banking

CHAPTER I—COMPTROLLER OF THE CURRENCY, DEPARTMENT OF THE TREASURY

PART 11—SECURITIES EXCHANGE ACT DISCLOSURE RULES

Amendment of Regulations

On July 20, 1976, a document was published for comment in the FEDERAL REGISTER (41 FR 29849) proposing to amend Part 11 of Title 12 of the Code of Federal Regulations. The amendments were proposed in order to make the financial reporting requirements of 12 CFR Part 11 more consistent with the recently revised Report of Condition and Report of Income filed by all national banks, and to make Part 11 substantially similar to comparable regulations of the Securities and Exchange Commission ("SEC"), as required by Section 12(i) of the Securities Exchange Act of 1934 [15 U.S.C. § 78*l*(i)], hereafter referred to as the "1934 Act".

As a supplemental notice of proposed rulemaking, that document revised and superseded an earlier proposal published in the FEDERAL REGISTER on March 8, 1976, (41 FR 9884). Comments received in response to both proposals have been fully considered and are briefly discussed below.

I. PUBLIC COMMENT ON, AND CHANGES TO, THE PROPOSAL OF JULY 20, 1976

A. Several changes to the proposed amendments have been made in response to the comments received:

1. *General.* (a) Section 11.2(gg) containing the definition of "associated company" has been clarified.

(b) Section 11.7(c)(8)(i) concerning rental expense has been clarified.

(c) Section 11.7(c)(10)(vii) concerning the disclosure of selected quarterly financial data has been corrected and clarified.

2. *Section 11.44, Form F–4.* (a) Captions have been added to Part A of Form F–4, several other captions have been reworded, and some have been renumbered.

(b) The footnote to Part A has been expanded.

(c) Part B has been changed by the addition of new captions and the rewording and renumbering of several others.

(d) Form F–4 as proposed did not contain any analysis of the capital accounts, although the Form F–4 presently in use does contain such information. To correct this oversight, a tabular presentation of changes in the reporting bank's undivided profits account has been included as new "Part C" of the Form F–4, and Part C as proposed has been redesignated as "Part D." This change merely restates an existing regulation.

(e) Footnote 2 has been added to Part D specifying that certain items in the statement of changes in financial position may be prepared on the basis of average balances.

(f) The filing schedule for the Form F–4 has been changed from 30 days to 45 days after the end of the reported quarter.

(g) Instruction (e) to Form F–4 has been substantially reworded to clarify the manner of reporting acquisitions and dispositions of significant portions of a business.

(h) Instruction (j) of the Form F–4 has been clarified.

3. *Section 11.71, Forms F–9A, B, C, D and E.* (a) Form F–9A, Balance Sheet:

(i) Caption 25 has been reworded, captions 18 and 19 have been reversed, and the Instructions thereto have been amended, as appropriate, to reflect such changes;

(ii) Instructions 3(b)(2), 6(b) [Note 1(a)], 8(a), 10(a), 14(a) and 20 have been reworded for clarification;

(iii) Note 2 to Instruction 9(c) has been deleted.

(b) Form F–9B, Statement of Income:

(i) Captions 1(d)(4), (1)(f) and 2(c) have been reworded, new captions 1(d)(5) and 2(c) have been added and captions 2(c) through 2(k) have been renumbered;

(ii) Instructions 1(b), 1(d)(1), 1(d)(2), 1(f), 1(i)(2)(i), and 1(i)(4) have been reworded and/or clarified to conform to the foregoing caption changes;

(iii) Instructions 2(a)(3) through 2(a)(7) have been renumbered;

(iv) Instruction 2(c) has been redesignated as 2(d), and Instructions 2(d) through 2(k) have been renumbered. A new Instruction 2(c) has been added;

(v) Instructions 2(g)(1), 2(g)(2), 2(h), 2(i)(1), 4, 6, and 10 have been reworded and clarified.

(c) Form F–9D, Schedules:

(i) Footnotes 1 and 5 to Schedule I and Footnote 2 to Schedule II have been expanded for clarification;

(ii) The column headings in Schedule V have been expanded and clarified, and a new Footnote 3 has been added;

(iii) Some terminology in Schedule VII has been corrected;

(iv) The title of Schedule VIII has been changed to refer only to domestic offices of reporting banks.

(d) Form F–9E, Statement of Changes in Financial Position:

(i) A Footnote 2 has been added specifying that certain items in the form may be prepared on the basis of average balances.

B. Several comments on the proposals have not been followed:

1. Three commentators suggested elimination of the proposed quarterly statement of changes in financial position, Part C of Form F–4. Another commentator recommended elimination of the narrative analysis of the quarterly results of operations, and another recommended the elimination of type and maturity groupings of securities by book value in Schedule I of 12 CFR 11.71, Form F–9D. The Comptroller of the Currency has not followed these suggestions, as the contents of Form F–4 and of § 11.71, as adopted, are substantially similar to comparable reporting requirements of the SEC, as required by section 12(i) of the 1934 Act.

2. It was suggested that "debentures" should not be listed as a single category in the Balance Sheet, but should be broken down to distinguish between true debt and debt in the nature of capital funds where payment of interest and principal are dependent on earnings and capital adequacy. These latter instruments were used by banks during the 1930's and were purchased by the Reconstruction Finance Corporation in states where bank stock carried double liability.

The Comptroller of the Currency is of the opinion that any form of subordinated debt should be designated as such for presentation in financial statements and should not be included in the "stockholder's equity" section of the balance sheet. Accordingly, this suggestion has not been followed.

3. Inasmuch as Instruction 5 to Form F–9A requires that unearned income on loans be deducted from loans, one commentator asked if there will be a converse provision allowing banks to include in the loan category the accrued interest receivable on loans. The comment was based on Revenue Ruling 75–140 (1975—16 IRB) of the Internal Revenue Service.

In bank accounting, accrued interest receivable is included in a separate category on the Balance Sheet. The information required for income tax return purposes is not necessarily the same as that which might be shown for financial reporting purposes, and the Comptroller of the Currency accordingly finds it proper to retain the treatment of accrued interest receivable as a segment of "Other Assets."

4. A suggestion was made that disclosure of service charge income, as required in the Statement of Income, be eliminated. Another comment proposed that the disclosure in a footnote to the Balance Sheet of the amount of undivided profits available for the payment of dividends be eliminated. The Comptroller of the Currency finds that both types of information are essential to a proper evaluation of a bank's operations, financial position, and management, and declines to follow these comments.

5. Many of the commentators express varying degrees of objection to the expanded financial reporting requirements contained in the proposals. It was suggested that the Comptroller of the Currency avoid duplicating the reporting requirements of the Reports of Condition and Reports of Income (hereafter "Call Reports").

The Comptroller of the Currency has been considering the possibility of combining some of the 1934 Act financial reporting requirements with the Call Report requirements. To this end, many of the changes made herein provide consistency between these requirements. The Call Reports are primarily statistical compilations used by the Comptroller of the Currency in supervising national banks. They relate to banking policies, rather than to SEC-type disclosure objectives. Although they are now similar to certain financial reports required under the 1934 Act, the Call Reports do not contain the additional narrative information about a bank's condition, operations, management and similar factors required by the 1934 Act and 12 CFR Part 11. Congress has provided for the availability of such information to the investing public in order to facilitate informed investment decisions.

C. In addition to the changes discussed above which were made in response to comments received, numerous technical corrections to, and minor language clarifications of, the proposal of July 20, 1976, have been incorporated in the text of the amendments, as adopted.

II. SUMMARY OF AMENDMENTS AS ADOPTED

The following is an outline of the amendments, as adopted, to 12 CFR Part 11:

A. Section 11.2(gg) has been added defining the term "associated company."

B. Section 11.3 has been expanded in title, paragraph (b) has been corrected, and paragraph (d) has been added to set forth the notice procedure to be followed in cases of informal adjudications (as defined in Title 5, United States Code, Section 551) by the Comptroller of the Currency of certain issues arising under the 1934 Act. Paragraph (d) has been added in response to section 23(c) of the 1934 Act, as added by the Securities Acts Amendments of 1975.

C. Section 11.4(a)(2) has been expanded by adding a phrase at the end thereof to clarify the filing deadline for registration statements.

D. Section 11.4(h) has been amended by changing the filing deadline for Form F–4 from 30 to 45 days after the end of each quarterly reporting period.

E. Section 11.4(y) has been added relating to the deregistration of registered securities.

F. Sections 11.5(*l*)(3)(iv) and (*l*)(4) have been expanded to require that certain information about criminal convictions contained in a Form F–11 also be disclosed in the tender offer materials to which the Form F–11 relates.

G. Section 11.7(b)(3)(i)(B) has been reworded to conform more closely to SEC Rule 2–01(b) of Regulation S–X relating to independence of accountants.

H. Section 11.7(b)(3)(iii)(C) has been added to conform to SEC Rule 2–02(c) of Regulation S–X relating to the treatment of material differences between accounting principles reflected in the financial statements and those reflected in the books of a reporting bank.

I. Section 11.7(b)(3)(iv) has been added to conform to SEC Rule 2–02(d) of Regulation S–X relating to exceptions in accountants' opinions. Former § 11.7(b)(3)(iv) has been renumbered as "(vi)".

J. Section 11.7(b)(3)(v) has been added to conform to SEC Rule 2–02(e) of Regulation S–X relating to an accountant's association with an unaudited note covering interim financial data.

K. Section 11.7(c)(8)(i) has been expanded to conform more closely to SEC Rule 3–16(q)(1) of Regulation S–X relating to commitments.

L. Section 11.7(c)(9)(ix) has been added to conform to SEC Rule 3–16(e) of Regulation S–X relating to defaults on debt.

M. Section 11.7(c)(9)(x) has been added to conform to SEC Rule 3–16(e) of Regulations S–X relating to changes in indebtedness subsequent to the filing of a balance sheet.

N. Section 11.7(c)(10)(v) has been been added to conform to SEC Rule 3–16(t) of Regulation S–X relating to capitalization of interest.

O. Section 11.7(c)(10)(vi) has been added to conform to SEC Rule 3–16(s) of Regulation S–X relating to disclosure about disagreements with, and changes of, accountants.

P. Section 11.7(c)(10)(vii) has been added to provide for disclosure of selected quarterly financial data in notes to annual financial statements by those national banks subject to Part 11 whose securities are listed on a national securities exchange or are quoted on the National Association of Securities Dealers' automated quotation system (NASDAQ), and which meet certain tests of asset size and/or income. These changes have been made in response to a recent SEC amendment to Rule 3–16(t) of its financial Regulation S–X (40 FR 46111, October 6, 1975).

Q. Sections 11.7(d)(5) and (d)(6) have been revised, and paragraphs (d)(7) and (d)(8) have been added, all to conform to SEC Rules 4–03, 4–04(a) and 4–04(b) of Regulation S–X relating to the filing of consolidated or combined financial statements of subsidiaries, disclosure of the principles followed in consolidation, and disclosure of any changes in consolidation.

R. Form F–4 Quarterly Report, 12 CFR 11.44, has an expanded format which includes, among other things, comparative balance sheets, summarized statements of changes in financial position, and a narrative analysis of the results of operations. These changes respond to recent SEC amendments to its Form 10–Q (40 FR 46111, October 6, 1975) and to make the format as consistent as possible with that of the Call Reports.

S. Section 11.51, Form F–5, Item 14(b), has been amended to require 5-year historical and pro-forma earnings summaries instead of the present 3-year summaries in proxy statements filed in connection with a merger, consolidation, or other corporate reorganization of a national bank subject to Part 11.

T. Section 11.71 has a new format, with instructions, for financial reporting. The changes in existing § 11.71 have been made in response to numerous SEC changes in Article 9 of its financial reporting Regulation S–X, in order to make the financial reporting of national banks subject to 12 CFR Part 11 conform more closely to generally accepted accounting principles, and to make § 11.71 as consistent as possible with the various Call Report requirements of the Office of the Comptroller of the Currency.

The following changes in § 11.71, as well as several other minor corrections and changes in terminology which are not enumerated, will not affect the Comptroller of the Currency's methods of assessing the capital adequacy of national banks. The major changes to § 11.71 include the following:

1. Form F–9E (Statement of Changes in Financial Position) has been added.

2. In the Balance Sheet, (a) the reserve for loan losses is divided into the valuation, contingency, and deferred tax portions, and each component is to be reported in accordance with new instructions thereto; (b) subordinated debentures are to be reported in a separate caption between liabilities and capital; (c) direct lease financing is to be reported as a separate item rather than be included in "Other assets"; the reporting of minority interest in consolidated subsidiaries has been included in "Other liabilities"; and instructions regarding the reporting of equity in loss or income from subsidiaries and associated companies not consolidated have been clarified.

3. A caption "Interest bearing balances with banks" has been added to the Balance Sheet and a related income account has been added to the Statement of Income.

4. The accretion of discount on securities purchased is now required and will affect both the Statement of Income and the Balance Sheet.

5. Interest expense on certificates of deposit of $100,000 or more is required to be shown separately in the Statement of Income.

6. An Instruction to the Statement of Income has been added requiring the inclusion of foreign income taxes as part of income tax expense.

7. An instruction has been added at the end of the Statement of Changes in Capital accounts which sets forth the policy of the Comptroller of the Currency regarding the accounting treatment for "goodwill" resulting from certain business combinations.

8. The analysis of loans in Schedule III has been conformed to that of the Call Reports.

9. The analysis of deposits in Schedule VIII has been conformed to that of the Call Reports.

U. Finally, several other corrections and clarifications, all of a minor nature, have been made to existing 12 CFR Part 11 in §§ 11.4(g)(1), 11.5(c) (Notes 1 and 3), 11.5(c)(6), 11.5(e)(4), 11.5(l)(4)(iv), 11.6(e)(3)(i), 11.6(p)(1)(ii), 11.7(g)(1), 11.41 (Item 4), 11.42 (Item 4), 11.45 (General Instruction A), 11.51 [Items 9(f), 14(a), 14(b), 15(a), and 15(b)], 11.61, 11.62 and 11.102.

III. AUTHORITY, ISSUANCE OF AMENDMENTS, AND TEXT OF AMENDMENTS

The Comptroller of the Currency finds that the changes made to the proposal of July 20, 1976, respond to public comments and consist of corrections and clarifications which do not impose additional burdens on affected persons, and accordingly finds that further public participation in this rulemaking process in conformity with the relevant provisions of 5 U.S.C. § 553 requiring notice and opportunity for public comment is not necessary.

V41I198 OCT 12 76 UMI

The Comptroller of the Currency, under the authority and pursuant to the requirements of sections 12(i) and 23 of the Securities Exchange Act of 1934, hereby amends 12 CFR Part 11, as set forth below.

Effective date: The effective date of these amendments is November 1, 1976.

ROBERT BLOOM,
Acting Comptroller of the Currency.

OCTOBER 5, 1976.

1. In the contents to Part 11 which precedes the regulations, the caption "11.3 Inspection and publication of information filed under the Act" is changed to read as follows:

Sec.
11.3 Inspection and publication of information filed under the Act; Notice of informal adjudications.

2. In the contents to Part 11 which precedes the regulations, the caption "11.71 Forms for financial statements (Forms F-9A, B, C, and D)" is changed to read as follows:

Sec.
11.71 Forms for financial statements (Forms F-9A, B, C, D and E).

3. Following the contents to Part 11 and immediately preceding the Regulations, the citation of authority is changed to read as follows:

AUTHORITY: 15 U.S.C. 78*l*, 78m, 78p, 78w.

§ 11.2 [Amended]

4. Section 11.2 is amended by adding a new paragraph (gg) as follows:

"(gg) The term "associated company" means a company in which the bank either directly or indirectly owns 20 to 50 percent of the outstanding voting stock, unless the bank can refute the presumption of exercising significant influence. An investment of less than 20 percent of the voting stock may be carried on the equity method if the ability to exercise significant influence over the company can be demonstrated.

5. Section 11.3 is amended by changing the title of that section, by correcting the second sentence of paragraph (b), and by adding a new paragraph (d), as follows:

§ 11.3 Inspection and publication of information filed under the Act; Notice of informal adjudications.

* * * * *

(b) * * * In addition, copies of the registration statement and reports required by § 11.4 (exclusive of exhibits), the statements required by § 11.5(a), and the annual reports to security holders required by § 11.5(c) will be available for inspection at the Office of the Regional Administrator of National Banks in the national banking region in which the bank filing the statements or reports is located. * * *

* * * * *

(d) In every case of adjudication (as defined in section 551 of Title 5, United States Code) pursuant to the Act which is not required by the Act to be determined on the record after notice and opportunity for hearing, the Comptroller of the Currency shall (1) give prompt notice of any adverse action or final disposition to any person who has requested the Comptroller of the Currency to make or not to make any such adjudication, and (2) furnish any such person a statement of the written reasons for such action or disposition.

§ 11.4 [Amended]

6. Section 11.4(a)(2) is amended by adding at the end of paragraph (a)(2) the phrase "within the period of time specified in the Act."

7. Section 11.4(g)(1) is corrected by deleting from the beginning of paragraph (g)(1) the phrase "Following the filing of a Form F-1 registration statement pursuant to section 11.4(a)" and capitalizing the word "every".

8. Section 11.4(h) is amended by substituting in the second sentence thereof the number "45" for the number "30" each time it appears.

9. Section 11.4 is further amended by adding a new paragraph (y), as follows:

"(y) *Deregistration.* (1) Any class of security of a registrant bank which is registered on a national securities exchange pursuant to section 12(b) of the Act may be withdrawn or stricken from listing and registration on such exchange in accordance with the provisions of section 12(d) of the Act and the rules of such exchange.

(2) The registration of any class of security of a registrant bank which is registered pursuant to section 12(g) of the Act shall be terminated in accordance with the provisions of section 12(g)(4) of the Act, upon certification by the bank to the Comptroller of the Currency that the number of record holders of such class of security has fallen below 300. If the bank has merged into or consolidated with another bank or banks, such certification shall be filed by the successor bank.

(3) The registration of any class of security referred to in this paragraph, and the rights and obligations incident to such registration, shall remain in effect until such registration is terminated as provided in this paragraph."

§ 11.5 [Amended]

10. Section 11.5(c) Note 1(d) is amended by adding at the end of Note 1(d) the phrase "similar in form to Form F-9E."

11. Section 11.5(c) Note 3 is amended by deleting the present Note 3 and substituting the following:

3. If financial statements are accompanied by a report of an independent accountant in either the annual report to shareholders or in the annual report (Form F-2) which is filed (or proposed to be filed) with the Comptroller of the Currency, the other annual report shall also contain such accountants' report.

12. Section 11.5(c)(6) is amended by correcting the word "boldfaced" in the first sentence of paragraph (c)(6) to read "boldface".

13. Section 11.5(e)(4) is amended by correcting the word "thereo" in the first sentence of paragraph (e)(4) to read "thereto".

14. Section 11.5(l)(4)(iv) is amended by correcting the word "writen" in clause (iv) to read "written".

15. Section 11.5(l)(3)(iv) is amended by deleting the phrase "Items 2(a) and (c)" from clause (iv) and by substituting the phrase "Items 2 (a), (c), and (e)".

16. Section 11.5(l)(4) is amended by deleting the phrase "Items 2(a) and (c)" from the first sentence of paragraph (l)(4) and substituting the phrase "Items 2 (a), (c), and (e).

§ 11.6 [Amended]

17. Section 11.6(e)(3)(i) is amended by correcting the citation to "§ 11.6(b)" in paragraph (e)(3)(i) to read "§ 11.6 (l)".

18. Section 11.6(p)(1)(ii) is corrected by deleting the present clause (ii) and substituting the following:

(ii) a sale of any equity security of the class convertible and any purchase of any equity security issuable upon conversion (otherwise than in a transaction involved in such conversion or in a transaction exempted by any paragraph under section 16(b) of the Act) within a period of less than six months which includes the date of conversion.

§ 11.7 [Amended]

19. Section 11.7(b)(3)(i)(B), is amended by deleting the present paragraph (b)(3)(i)(B) and by substituting the following:

(B) The Comptroller of the Currency will not recognize any certified public accountant or public accountant as independent who is not in fact independent. For example, an accountant will be considered not independent with respect to any person or any of its parents, its subsidiaries, or other affiliates (*1*) in which, during the period of his professional engagement to examine the financial statements being reported on or at the date of his report, he or his firm or a member thereof had, or was committed to acquire, any direct financial interest or any material indirect financial interest, or (2) with which, during the period of his professional engagement to examine the financial statements being reported on, at the date of his report or during the period covered by the financial statements, he or his firm or a member thereof was connected as a promoter, underwriter, voting trustee, director, officer, or employee, except that a firm will not be deemed not independent in regard to a particular person if a former officer or employee of such person is employed by the firm and such individual has completely disassociated himself from the person and its affiliates and does not participate in auditing financial statements of the person or its affiliates covering any period of his employment by the person. For the purposes of § 11.7 the term "member" means all partners in the firm and all professional employees participating in the audit or located in an office of the firm participating in a significant portion of the audit.

20. Section 11.7(b)(3)(iii) is amended by inserting a new paragraph (b)(3)(iii)(C) which reads as follows:

(C) The nature of, and the opinion of the accountant as to, any material differences between the accounting principles and practices reflected in the financial statements and those reflected in the accounts after the entry of adjustments for the period under review.

21. Section 11.7(b)(3)(iv) is amended by redesignating clause (iv) as "(vi)" and by adding two new paragraphs (iv) and (v) as follows:

"(iv) *Exceptions.* If the accountant making the report considers that he must take exceptions or express qualifications with respect thereto, each such exception or qualification shall be stated specifically and clearly and, to the extent practicable, shall indicate the effect of the matter on the financial statements to which it relates.

(v) *Association with unaudited note covering interim financial data.* If the financial statements covered by the accountant's report designate as "unaudited" the note required by § 11.7(c)(10)(vii), it shall be presumed that appropriate professional standards and procedures with respect to the data in the note have been followed by the independent accountant who is associated with the unaudited footnote by virtue of reporting on the financial statements in which it is included.

22. Section 11.7(c)(8)(i) is amended by deleting the present paragraph (c)(8)(i) and substituting the following:

(i) Total rental expense (reduced by rentals from both leases and subleases received by the bank or by its bank premises subsidiary consolidated, with disclosure of such amounts) entering into the determination of results of operations for each period for which an income statement is presented shall be disclosed. Rental payments under short-term leases for a month or less which are not expected to be renewed need not be included. Contingent rentals, such as those based upon usage or sales, shall be reported separately from the basic or minimum rentals. Rentals on non-capitalized financing leases shall be shown separately for both categories of rentals reported.

23. Section 11.7(c)(9) is amended by adding at the end thereof two new clauses (ix) and (x), as follows:

(ix) *Defaults.* The facts and amounts concerning any default in principal, interest, sinking fund, or redemption provisions with respect to any issue of securities or credit agreements, or any breach of covenant of a related indenture or agreement, which default or breach existed at the date of the most recent balance sheet being filed and which has not been subsequently cured, shall be stated. Notation of such default or breach of covenant shall be made in the financial statements and the entire amount of obligations to which the default or breach relates shall be identified and included within "Other liabilities" if said default or breach accelerates the maturity of the obligations and makes it current under the terms of the related indenture or agreement. Classification with "Other liabilities" is not required if the lender has waived the accelerated due date or otherwise agreed to a due date more than one year from the balance sheet date. If a default or breach exists, but acceleration of the obligation has been waived for a stated period of time beyond the date of the most recent balance sheet being filed, state the amount of the obligation and the period of the waiver.

(x) *Significant changes in bonds, mortgages, and similar debt.* Any significant changes in the authorized or issued amounts of bonds, mortgages, and similar debt since the date of the latest balance sheet being filed for a particular person or group shall be stated.

24. Section 11.7(c)(10) is amended by adding at the end of paragraph (c)(10)(iv) new paragraphs (c)(10)(v), (c)(10)(vi), and (c)(10)(vii), as follows:

(v) *Interest expense capitalized.* The amount of interest expense capitalized in each period for which an income statement is presented shall be shown within the income statement. Banks which follow a policy on capitalizing interest expense shall make the following additional disclosures: (A) The reason for the policy of interest capitalization and the way in which the amount to be capitalized is determined, and (B) The effect on net income for each period for which an income statement is presented of following a policy of capitalizing interest as compared to a policy of charging interest to expense as incurred.

(NOTE.—National banks should not continue to capitalize interest costs on new assets acquired after December 31, 1975)

(vi) *Disagreements on accounting and financial disclosure matters.* If, within the twenty-four-month period prior to the date of the most recent financial statements, a Form F-3 has been filed reporting a change of accountants, and if included in such filing there is a reported disagreement on any matter of accounting principles or practices or financial statement disclosure, and if during the fiscal year in which the change in accountants took place or during the subsequent fiscal year there have been any transactions or events similar to those which involved the reported disagreement, and if such transactions or events were material and were accounted for or disclosed in a manner different from that which the former accountants apparently concluded was required, state the existence and the nature of the disagreement and also state the effect on the financial statements if the method which the former accountants apparently would have concluded was required had been followed. These disclosures need not be made if the method asserted by the former accountants ceases to be generally accepted because of authoritative standards or interpretations subsequently issued.

(vii) *Disclosure of selected quarterly financial data in notes to financial statements.*

(A) *Exemption.* This paragraph (c)(10)(vii) shall not apply unless the bank meets the following conditions:

(*1*) (*i*) The bank's securities registered under Section 12(g) of the Securities Exchange Act of 1934 are (*A*) quoted on the National Association of Securities Dealers Automated Quotation System and (*B*) meet the requirements for continued inclusion on the list of OTC margin stocks set forth in § 220.8(i) of Regulation T of the Board of Governors of the Federal Reserve System; or (*ii*) the bank has securities registered pursuant to Section 12(b) of the Securities Exchange Act of 1934; and

(2) The bank and its consolidated subsidiaries (*i*) have had a net income after taxes but before extraordinary items and the cumulative effect of a change in accounting, of at least $250,000 for each of the last three fiscal years; or (*ii*) had total assets of at least $200,000,000 as of the last fiscal year end.

(B) *Explanation.* (*1*) Disclosure shall be made in a note to financial statements of total operating income, income before securities gains (losses), income before extraordinary items and cumulative effect of a change in accounting, net income, and per share data based upon such income and net income for each full quarter within the two most recent fiscal years and any subsequent interim period for which income statements are presented.

(2) When the data supplied in paragraph (c)(10)(vii)(B)(*1*) of this section vary from the amounts previously reported on the Form F-4 filed for any quarter, such as would be the case when a pooling of interests occurs or when an error is corrected, reconcile the amounts given with those previously reported describing the reason for the difference.

(3) Describe the effect of any disposals of segments of a business, and extraordinary, unusual or infrequently occurring items recognized in each full quarter within the two most recent fiscal years and any subsequent interim period for which income statements are presented, as well as the aggregate effect and the nature of year-end or other adjustments which are material to the results of that quarter.

(*4*) Where this note is part of financial statements which are presented as audited, it may be designated "unaudited".

25. Section 11.7(d) is amended by deleting present subparagraphs (5) and (6) and by substituting new subparagraphs (5), (6), (7) and (8), as follows:

(5) There may be filed financial statements in which majority-owned subsidiaries not consolidated with the parent are consolidated or combined in one or more groups, and 50-percent-or-less-owned persons, the investments in which are accounted for by the equity method, are consolidated or combined in one or more groups pursuant to principles of inclusion or exclusion which will clearly exhibit the financial position and results of operations of the group or groups.

V 41 N 198 OCT 12 76 UM

(6) A brief description of the principles followed in consolidating or combining the separate financial statements, including the principles followed in determining the inclusion or exclusion of (i) subsidiaries in consolidated or combined financial statements and (ii) companies in consolidated or combined financial statements, shall be stated in the notes to the respective financial statements.

(7) As to each consolidated financial statement and as to each combined financial statement, if there has been a change in the persons included or excluded in the corresponding statement for the preceding fiscal period filed with the Comptroller of the Currency, which has a material effect on the financial statements, the persons included and the persons excluded shall be disclosed.

(8) Any change in the fiscal year of any consolidated person, which was made during the reported periods and which had a material effect on the consolidated financial statements, should be clearly indicated.

26. Section 11.7(g)(1) is amended by deleting the phrase "and Schedule VI—Other Liabilities for Borrowed Money." from the end of subparagraph (1) and substituting the phrase "Schedule VI—Other Liabilities for Borrowed Money; and Schedule VIII—Deposits."

§ 11.41 [Amended]

27. Section 11.41, Form F–1, Item 4, Instruction 1, is amended by deleting the present Instruction 1 and substituting the following:

Instructions. 1. At a minimum, Items 1(j), 2(j), 2(*l*) [excluding 2(j)], 3, 4, 5, 6, 7, and 10 of Form F–9B, and dividends per share, shall be shown.

§ 11.42 [Amended]

28. Section 11.42, Form F–2, Item 4, Instruction 1, is amended by deleting the present Instruction 1 and substituting the following:

Instructions. 1. At a minimum, Items 1(j), 2(j), 2(*l*) [excluding 2(j)], 3, 4, 5, 6, 7, and 10 of Form F–9B, and dividends per share, shall be shown.

29. Section 11.44, Form F–4, is deleted in its entirety, including the instructions thereto, and a new § 11.44 is substituted as follows:

§ 11.44 Form for quarterly report of bank (Form F–4).

COMPTROLLER OF THE CURRENCY—FORM F–4, QUARTERLY REPORT

(Name of bank)

(City and State)

PART A—*Summarized financial information*

Item	3 mos ending ----		Fiscal year to date (---- months ending ----)	
	19---- (current year)	19---- (prior year)	19---- (current year)	19---- (prior year)
1 Operation income:				
(a) Interest and fees on loans				
(b) Interest on balances with banks				
(c) Income on Federal funds sold and securities purchased under agreements to resell				
(d) Interest and dividends on investments:				
(1) U S Treasury securities				
(2) Obligations of other U S Government agencies and corporations				
(3) Obligations of States and political subdivisions				
(4) Interest on other bonds, notes and debentures				
(5) Dividends on stock				
(e) Income from direct lease financing				
(f) Income from fiduciary activities				
(g) Service charges on deposit accounts				
(h) Other service charges, collection and exchange charges, commissions and fees				
(i) Other operating income				
(j) Total operating income				
2 Operating expenses:				
(a) Salaries, wages, and other employee benefits				
(b) Interest on time certificates of deposit of $100,000 or more				
(c) Interest on deposits in foreign offices				
(d) Interest on other deposits				
(e) Expense of Federal funds purchased and securities sold under agreements to repurchase				
(f) Interest on borrowed money				
(g) Interest on subordinated notes and debentures				
(h) Occupancy expense of bank premises, net				
Gross occupancy				
Less: Rental income				
(i) Furniture and equipment expense (including depreciation of $---)				
(j) Provision for possible loan losses				
(k) Other expenses				
(l) Total operating expenses				
3. Income (loss) before income taxes and securities gains (losses)				
4. Applicable income taxes				
5. Income (loss) before securities gains (losses)				
6. Net securities gains (losses), less related tax effect ($---)				
7. Net income (loss)				
OR				
7. Income (loss) before extraordinary items				
8. Extraordinary items, less related income tax effect ($---)				
9. Net income (less)				
10. Earnings (loss) per common share: [1]				
Income before securities gains (looses)				
Net income (loss)				

[1] The per share amount of securities gains (losses may be stated separately). If extraordinary items are reported, the per share amount of income before extraordinary items and the per share amount of extraordinary items shall be stated separately. When the reporting bank is a wholly-owned subsidiary (except for directors' qualifying shares) of a bank holding company, per share data shall be deleted.

PART B.—*Balance sheet*

Furnish, insofar as practicable in the manner presented below, data as at the end of the latest fiscal quarter and for the ending of the corresponding quarter for the preceding fiscal year.

	As of ---- 19---- (current year)	As of ---- 19---- (prior year)
ASSETS		
1. Cash and due from banks		
2. Interest bearing balances with banks		
3. Investment securities:		
(a) U S. Treasury securities		
(b) Obligations of other U.S. Government agencies and corporations		
(c) Obligations of States and political subdivisions		
(d) Othes bonds, notes and debentures		
(e) Federal Reserve and corporate stock		
4. Trading account securities		
5. Federal funds sold and securities purchased under agreements to resell		
6. Loans:		
Less:		
(a) Unearned income on loans		
(b) Reserve for possible loan losses		
7. Direct lease financing		
8. Bank premises, equipment, furniture and fixtures		
9. Real estate owned other than bank premises		
10. Investment in unconsolidated subsidiaries and associated companies		
11. Customers, liability on acceptances outstanding		
12. Other assets		
13. Total assets		
LIABILITIES AND CAPITAL		
14. Deposits in domestic offices:		
(a) Demand		
(b) Savings		
(c) Time		
15. Deposits in foreign offices		
16. Federal funds purchased and securities sold under agreements to repurchase		
17. Liabilities for borrowed money		
18. Mortgages payable		
19. Bank's acceptances outstanding		
20. Other liabilities		
21. Total liabilities excluding subordinated notes and debentures		
22. Subordinated notes and debentures		
23. Equity capital:		
(a) Capital stock:		
Preferred stock (Shares outstanding ----; Par value $---)		
Common stock:		
Common stock:		
(a) Shares authorized ----		
(b) Shares outstanding ----; Par value $----		
(b) Surplus		
(c) Undivided profits		
(d) Reserve for contingencies and other capital reserves		
24. Total equity capital		
25. Total liabilities, subordinated notes and debentures, and equity capital		

PART C.—*Changes in the undivided profits account*

Furnish, insofar as practicable in the manner presented below, data as of the end of the latest fiscal quarter. State the date of the latest fiscal quarter ----

Undivided profits:	
(a) Balance at beginning of current fiscal year	
(b) Net income to date	
(c) Dividends declared	
Common stock:	
Cash	
Stock (percent)	
Preferred stock:	
Cash ($---- per share)	
(d) Prior period adjustments [List and describe all credits and (charges) separately]	
(e) Other credits and (charges) [List and describe all these items separately]	
(f) Balance at end of interim period	

PART D.—*Changes in financial position* [2]

	Fiscal year to date (---- months ending ----)	
	19---- (current year)	19---- (prior year)
Sources of funds:		
Operations:		
Net income		
Charges to income not affecting funds		
Total funds provided by operations		
Equity funds, sale proceeds		
Subordinated notes and debentures, sale proceeds		
Increase in liabilities [1]		
Decrease in operating assets [1]		
Total		
Applications of funds:		
Payment of dividends		
Purchase of property and equipment		
Decrease in liabilities [1]		
Increase in operating assets [1]		
Total		

[1] Sources and applications of funds shal be shown separately by amounts when they exceed 5 pct of the average of total funds provided during the reported periods.

Pursuant to the requirements of the Securities Exchange Act of 1934, the bank has duly caused this quarterly report to be signed on its behalf by the undersigned, thereunto duly authorized.

[2] Historically, this statement has been prepared primarily from a comparison of period-end balances. The bank may, at its option, prepare this statement using average daily balances for changes in asset and liability accounts. If the use of the average daily balance method results in the presentation of data which materially differ from those which would have been shown if the period-end method had been used, such differences shall be disclosed in a note to the financial statements.

Date ----

---- (Name of bank)

By ----

(Name and title of signing officer)

V41 I198 OCT 12 76 UMI

(a) *Use of Form F–4.* (1) Form F–4 is a guide for use in preparation of quarterly reports to be filed with the Comptroller of the Currency. (2) The report shall be filed not later than 45 days after the end of each of the first three fiscal quarters of each fiscal year. No report need be filed for the fourth quarter of any fiscal year.

(b) *Persons for whom the information is to be given.* The required information is to be given as to the registrant bank or, if the bank files consolidated financial statements with the annual reports filed with the Comptroller of the Currency, it shall cover the bank and its consolidated subsidiaries. If the information is given as to the bank and its consolidated subsidiaries, it need not be given separately for the bank.

(c) *Presentation of information.* The form calls only for the items of information specified. Reclassifications to make the information comparative should be made. The information is not required to be audited (see § 11.7(b) of this Part). The report may carry a notation to that effect and any other qualifications considered necessary or appropriate. Amounts may be stated in thousands of dollars if a notation to that effect is made.

(d) *Management's opinion.* The information furnished shall reflect all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the interim periods. A statement to that effect shall be included. Furnish any material information necessary to make the information called for not misleading, such as a statement that the results for interim periods are not necessarily indicative of results to be expected for the year.

(e) *Incorporation by reference to published statements.*

If the bank makes available to its stockholders or otherwise publishes, within the period prescribed for filing the report, a financial statement containing the information required by this form, such information may be incorporated by reference to such published statement if copies thereof are filed as an exhibit to this report.

(f) *Extraordinary items.* If present with respect to any interim period reported herein, extraordinary items less applicable income tax effect shall be appropriately segregated and included in the determination of net income. (See Form F–9B, Statement of Income.)

(g) *Acquisitions and dispositions.* (1) If the bank, or any of its subsidiaries or associated companies, has entered into a business combination with another entity treated for accounting purposes as a pooling of interests, the results of operations reported in this report—for both the current year and the preceding year—should reflect the combined results of the pooled entities. Disclosure of the separate results of the combined entities for periods prior to the combination should be given in a footnote with appropriate explanations if material to the consolidated operations. (2) If the bank, or any of its subsidiaries or associated companies, has disposed of any significant portion of its business during any of the periods covered by the report, the effect thereof on revenues and net income (total and per share) for all periods presented shall be disclosed, if material to the consolidated operations. (3) If the bank, or any of its subsidiaries or associated companies, has acquired a significant business in a transaction treated for accounting purposes as a purchase during any of the periods covered by the report, pro-forma disclosure shall be made, in a footnote, of the results of operations for the current year up to the date of the end of the most recent fiscal quarter (and for the comparable period in the preceding year) as though the entities had combined at the beginning of the period being reported, if material to the consolidated operations. This pro-forma information should show at a minimum (i) total operating income, (ii) income before securities gains or (losses), extraordinary items, and the cumulative effect of accounting changes, and (iii) net income. The per share amounts should be shown for (ii) and (iii) above.

(h) *Management's analysis of quarterly income statements.*

The bank shall provide a narrative analysis of the results of operations explaining the reasons for material changes in the amount of revenue and expense items between the most recent quarter and the quarter immediately preceding it, between the most recent quarter and the same calendar quarter in the preceding year, and, if applicable, between the current year to date and the same calendar period in the preceding year. Explanations of material changes should include, but not be limited to, changes in the various elements which determine revenue and expense levels. In addition, the analysis should include an explanation of the effect of any changes in accounting principles and practices or in the method of their application that have a material effect on net income as reported.

(i) *Other financial information.* The bank may furnish any additional information related to the periods being reported on which, in the opinion of management, is of significance to investors, such as the seasonality of the bank's business, major uncertainties currently facing the bank, debt guarantees of affiliated or associated companies, significant accounting changes under consideration and the dollar amount of standby letters of credit. In addition, the bank shall indicate whether any Form F–3 was required to be filed reporting any material unusual charges or credits to income during the most recently completed fiscal quarter or whether any Form F–3 was required to be filed during that period reporting a change in independent accountants.

(j) The financial information to be included in this report should be prepared in conformity with the accounting principles and practices reflected in the financial statements included in the annual report filed with the Comptroller of the Currency for the preceding fiscal year, except for any subsequent regulatory revisions and for changes required to be reported by § 11.7(c)(5) of this part. The footnote disclosures and schedules required by 12 CFR §§ 11.7 and 11.71 are not required. However, disclosure must be adequate to make the report not misleading.

§ 11.45 [Amended]

30. Section 11.45, Form F–20, General Instructions is amended by correcting General Instruction A. to read as follows:

A. The form set forth hereinafter is not to be used as a blank form to be filled in but is intended solely as a guide in the preparation of an amendment to a previously filed registration statement or report. Attention should be given to the general requirements governing amendments, which are prescribed in § 11.4(u).

§ 11.51 [Amended]

31. Section 11.51, Form F–5, Item 9(f), the Instruction to paragraph (f) of Item 9 is corrected by deleting the word "Comptroller" and by substituting the title "Comptroller of the Currency".

32. Section 11.51, Form F–5, Item 14 (a), paragraph (a) of Item 14 is corrected by deleting the word "Comptroller" and by substituting the title "Comptroller of the Currency".

33. Section 11.51, Form F–5, Item 14 (b) (5) and (6), in the first sentence of both paragraphs (b) (5) and (b) (6), the phrase "last 3 fiscal years" is deleted and in each case the phrase "last 5 fiscal years" is substituted therefor.

34. Section 11.51, Form F–5, Item 14 (b)(7), paragraph (7)(1) is corrected to read "(i)"; paragraphs (7)(1)(i), (ii) and (iii) is corrected to read "(A)", "(B)" and "(C)", respectively; and paragraph (7)(2) is corrected to read "(ii)".

35. Section 11.51, Form F–5, Item 14 (b)(8), Instruction 1, is amended by changing the word "reflect" in the last sentence of Instruction 1 to read "indicate".

36. Section 11.51, Form F–5, Item 15 (a), is amended by deleting the last sentence of paragraph (a) and substituting the following last sentence:

All schedules except Schedules III, VII, and VIII (Loans; Allowance for Possible Loan Losses; Deposits) may be omitted.

37. Section 11.51, Form F–5, Item 15 (b)(1), is amended by deleting paragraph (b)(1) and by substituting the following:

(1) All schedules, except Schedules III, VII and VIII (Loans; Allowance for Possible Loan Losses; Deposits);

38. Section 11.61, Form F–7, Line (1) is corrected by deleting the phrase "Name of bank:" from Line (1) and substituting the phrase "Name and address of bank:"

§ 11.62 [Amended]

39. Section 11.62, Form F–8, Line (1), is corrected by deleting the phrase "Name of bank:" from Line (1) and substituting the phrase "Name and address of bank:"

40. Section 11.62, Form F–8, Instruction 11, is amended by adding the following sentence at the beginning of Instruction 11:

State whether the transaction was an acquisition or a disposition. • • •

41. Section 11.62, Form F–8, Instruction 12(b), is amended by deleting the present paragraph (b) of Instruction 12 and substituting the following:

(b) When two or more securities are purchased or sold as a unit (see Instruction 6(a) above), the purchase or sale price of the unit shall be stated next to one of the listed securities and cross-referenced to the other security or securities. Any appropriate details may be given in the "Remarks" space following Table II.

42. Section 11.62, Form F–8, Instruction 13, is corrected by changing the word "accounts" in the middle of the first sentence of Instruction 13 to read "amounts" and by deleting the phrase "or accounts" at the end of that sentence.

43. Section 11.71, Forms for Financial Statements (Forms F–9 A, B, C and D) is deleted in its entirety and the following revised § 11.71 is substituted therefor;

§ 11.71 Forms for financial statements (Forms F–9 A, B, C, D and E).

FORM F–9: FINANCIAL STATEMENTS

A. Balance Sheet (Form F–9A).
B. Statement of Income (Form F–9B).
C. Statement of Changes in Capital Accounts (Form F–9C).
D. Schedules (Form F–9D).
E. Statement of Changes in Financial Position (Form F–9E).

GENERAL INSTRUCTIONS

1. *Preparation of forms.* The forms for financial statements are not to be used as blank forms to be filled in, but only as guides in the preparation of financial statements. The requirements with respect to the filing of balance sheets and statements of income are contained in the instructions as to certain other forms required by this part. Particular attention should be given to the general requirements as to financial statements in § 11.7 of this part, including paragraphs (e), (f) and (g) thereof which prescribe when statements of changes in capital accounts, statements of changes in financial position, and schedules will be filed. Although inapplicable items specified in the forms for financial statements should be omitted, the detailed instructions that relate to applicable items shall be followed.

2. *Accrual accounting.* Financial statements shall generally be prepared on the basis of accrual accounting whereby all revenues and all expenses shall be recognized during the period earned or incurred regardless of the time received or paid, with certain exceptions: (a) Where the results would be only insignificantly different on a cash basis, or (b) Where accrual is not feasible. Statements with respect to the first fiscal year that a bank reports on the accrual basis shall indicate clearly, by footnote or otherwise, the beginning-of-year adjustments that were necessary and their effect on prior financial statements filed under this part.

A. BALANCE SHEET

ASSETS

1. Cash and due from banks.
2. Interest bearing balances with banks.
3. Investment securities:
   (a) U.S. Treasury securities.
   (b) Obligations of other U.S. Government agencies and corporations.
   (c) Obligations of States and political subdivisions.
   (d) Other bonds, notes and debentures.
   (e) Federal Reserve and Corporate stock.
4. Trading account securities.
5. Federal funds sold and securities purchased under agreements to resell.
6. Loans.
   Less: Reserve for possible loan losses.
   Loans, net.
7. Direct lease financing.
8. Bank premises, equipment, furniture and fixtures.
9. Real estate owned other than bank premises.
10. Investment in unconsolidated subsidiaries and associated companies.
11. Customers' liability on acceptances outstanding.
12. Other assets.
13. Total assets.

LIABILITIES

14. Deposits in domestic offices:
   (a) Demand.
   (b) Savings.
   (c) Time.
15. Deposits in foreign offices.
16. Federal funds purchased and securities sold under agreements to repurchase.
17. Liabilities for borrowed money.
18. Mortgages payable.
19. Bank's acceptance outstanding.
20. Other liabilities.
21. Total liabilities (excluding subordinated notes and debentures).
22. Subordinated notes and debentures.

CAPITAL ACCOUNTS

23. Equity capital:
   (a) Capital stock:
      Preferred stock.
      Common stock.
   (b) Surplus.
   (c) Undivided profits.
   (d) Reserve for contingencies and other capital reserves.
24. Total equity capital.
25. Total liabilities, subordinated notes and debentures, equity capital.

1. *Cash and due from banks.* (a) State the total of, (1) currency and coin, (i) owned and held in the bank's vaults, and (ii) in transit to or from a Federal Reserve Bank; (2) the bank's total reserve balance with the Federal Reserve Bank as shown by the bank's books; (3) non-interest bearing demand and non-interest bearing time deposit balances with other banks; and (4) cash items in process of collection.

(b) Reciprocal demand balances with banks in the United States, except those of private banks and American branches of foreign banks, shall be reported net.

(c) Do not include unavailable balances with closed or liquidating banks. Such balances should be reported in "other assets."

(d) Cash items in process of collection include:

(1) Checks in process of collection drawn on another bank, private bank, or any other banking institution that are payable immediately upon presentation (including checks with a Federal Reserve Bank in process of collection and checks on hand that will be presented for payment or forwarded for collection on the following business day);

(2) Government checks and warrants drawn on the Treasurer of the United States that are in process of collection; and

(3) Such other items in process of collection, including redeemed U.S. savings bonds, payable immediately upon presentation in the United States, as are customarily cleared or collected by banks as cash items.

(e) Checks drawn on a bank other than the reporting bank that have been deposited in the reporting bank (or offices or branches of such bank) and have been forwarded for collection to other offices or branches of the reporting bank are cash items in the process of collection.

(f) Do not include commodity or bill-of-lading drafts payable upon arrival of goods against which drawn, whether or not deposit credit therefor has been given to a customer. If deposit credit has been given, such drafts should be reported as "loans"; but if the drafts were received by the reporting bank on a collection basis they should not be included in the reporting bank's statement until such time as the funds have been actually collected.

(g) Unposted debits should preferably be deducted from the appropriate deposit liability caption. If such items are included hereunder, the amount shall be stated parenthetically.

2. *Interest bearing balances with banks.* Include interest bearing balances with banks in the United States and with other banks.

3. *Investment securities.*

(a) State separately book value of:

(1) U.S. Treasury securities;

(2) Securities of other U.S. Government agencies and corporations;

(3) Obligations of States and political subdivisions;

(4) Other bonds, notes and debentures; and

(5) Federal Reserve and corporate stock. Include securities pledged, loaned or sold under repurchase agreements and similar arrangements.

(b) Book value with respect to investment quality securities reported in paragraph (a) shall be cost adjusted for amortization of premium and for accretion of discount. There shall be set forth in a note to financial statements:

(1) The basis of accounting for book value;

(2) If bond discount amounts to 5 percent or more of interest and dividends on investments, the total of accretion income; and (3) The fair market value for each class of investment securities.

(c) Include in category (3) of paragraph (a) obligations, including warrants and tax anticipation notes, of the States of the United States and their political subdivisions, agencies and instrumentalities; also obligations of territorial and insular possessions of the United States. Do not include obligations of foreign States.

(d) Do not include borrowed securities or securities purchased under resale agreements or similar arrangements.

4. *Trading account securities.* State the aggregate value at the balance sheet date of securities of all types carried by the bank in a dealer trading account (or accounts) that are held principally for resale to customers. Indicate parenthetically, or otherwise in a note to financial statements, whether the inventory is valued at (a) cost, (b) lower of cost or market, or (c) market. If cost basis of valuation is used, furnish aggregate market value of the trading account inventory at the current fiscal year balance sheet date.

5. *Federal funds sold and securities purchased under agreements to resell.*

(a) State the aggregate value of Federal funds sold and securities purchased under resale agreement or similar arrangements. All securities purchased under transactions of this type should be included regardless of:

(1) Whether they are called simultaneous purchases and sales, buy-backs, turnarounds, overnight transactions, delayed deliveries, etc., and

(2) Whether the transactions are with the same or different institutions if the purpose of the transactions is to resell identical or similar securities.

(b) Federal funds sold and purchases of securities under resale agreements should be reported gross and not netted against purchases of Federal funds and sales of securities under repurchase agreements.

6. *Loans.* (a)(1) State the aggregate gross value of all loans including:

(i) Acceptances of other banks and commercial paper purchased in the open market;

(ii) Acceptances executed by or for the account of the reporting bank and subsequently acquired by it through purchase or discount;

(iii) Customers' liability to the reporting bank on drafts paid under letters of credit for which the bank has not been reimbursed;

(iv) "Cotton overdrafts" or "advances," and commodity or bill-of-lading drafts payable upon arrival of goods against which drawn, for which the reporting bank has given deposit credit to customers; and

(v) Overdrafts in demand deposit acounts of other banks, both domestic and foreign.

(2) Include:

(i) Paper rediscounted with the Federal Reserve or other banks; and

(ii) Paper pledged as collateral to secure bills payable, as marginal collateral to secure bills rediscounted, or for any other purpose.

V41I198 OCT 12 76 UM

(3) Do not include contracts of sale or other loans indirectly representing bank premises or other real estate; these should be included in "bank premises" or "real estate owned other than bank premises."

(4) Do not deduct bona fide deposits accumulated by borrowers for the payment of loans.

(5) Deduct unearned income on loans.

(b) *Less: Reserve for Possible Loan Losses.* State the balance of the reserve for possible loan losses at the end of the fiscal year. Include in this reserve only the valuation portion that has been established through charges against income.

(NOTES.—1. For banks using the reserve method of accounting for loan losses, the reserve for possible loan losses allowable under IRS regulations is made up of three parts: (a) Valuation portion, (b) Contingency portion, and (c) Deferred tax portion:

(a) *Valuation portion.* If prior to January 1, 1969, a bank did not distinguish the different parts of the reserve for loan losses, the total balance in the reserve for loan losses on December 31, 1968, may be considered to have been a valuation reserve. Such balance is increased by the amount of provision for possible loan losses charged to income in each period since December 31, 1968, and the amount of loan recoveries in each period since December 31, 1968, and reduced by the loan losses charged to the reserve for possible loan losses in each period since December 31, 1968. The resulting balance is the valuation portion of the reserve which is required to be deducted from total loans in the balance sheet. Only the valuation portion of the reserve for loan losses is available for absorbing loan losses.

(b) *Contingency portion.* This represents the cumulative amount of transfers from undivided profits to IRS Reserve for Bad Debts. This amount, net of applicable income tax reduction benefit, should be allocated to Equity Capital and shown in the Balance Sheet as Item 23(d) "Reserve for contingencies and other capital reserves."

(c) *Deferred tax portion.* This represents the tax effect on the difference between the deduction for loan losses claimed for income tax purposes pursuant to IRS rulings and the "Provision for possible loan losses" claimed for financial reporting purposes. The "deferred tax portion" should be reported in "Other liabilities".

2. In the rare circumstances where the cumulative provisions for loan losses charged against income have exceeded cumulative transfers to the bad debt reserve account calculated pursuant to IRS regulations in the period since December 31, 1968, the entire balance of the reserve for loan losses is considered a valuation reserve.)

7. *Direct lease financing.* Include the outstanding balance of all types of leases, e.g. financing, leverage, etc., on property acquired for the purpose of lease financing.

8. *Bank premises and equipment, furniture and fixtures.*

(a) State the aggregate cost of: (1) Bank premises owned;

(2) Lease-hold improvements; and

(3) Equipment. The foregoing should be shown net of any accumulated depreciation or amortization.

(b) All fixed assets acquired subsequent to June 30, 1967, shall be stated at cost less accumulated depreciation or amortization.

(c) All fixed assets acquired prior to July 1, 1967, that are not presently accounted for by the bank on the basis of cost less accumulated depreciation or amortization, may be stated at book value. Any such assets that are still in use and would not have been fully depreciated on an acceptable method of accounting for depreciation if the bank had recorded depreciation on such basis shall be described briefly in a footnote, together with an explanation of the accounting that was used with respect to such assets.

(d) The term "lease-hold improvements" comprehends two types of situations:

(1) Where the bank erects a building on leased property;

(2) Where a bank occupies leased quarters or uses leased parking lots and appropriately capitalizes disbursements for vaults, fixed machinery and equipment directly related to such leased quarters, or resurfacing or other improvements directly related to such parking lots that will become an integral part of the property and will revert to the lessor on expiration of the lease.

(e) Bank premises includes vaults, fixed machinery and equipment, parking lots owned adjoining or not adjoining the bank premises that are used by customers or employees, and potential building sites.

(f) Equipment includes all movable furniture and fixtures of the bank.

9. *Real estate owned other than bank premises.*[1]

(a) This item should include all amounts representing investments, loans, and other assets based on properties which, disregarding the manner of holding or form of conveyance, properly should be considered to represent real estate owned other than bank premises.

(b) Include assets representing property sold or transferred, directly or indirectly, where the terms of the transaction or other conditions do not afford reasonable assurance that the properties will not be taken over by the bank, regardless of whether or not a deed has been delivered. This item should also include a sale or transfer where someone other than the bank takes title for the convenience of the bank.

(c) Mortgage or liens on other real estate owned for which the bank is liable should be reported in item 18.

(NOTE.—With respect to real estate acquired through default of a loan, state in a footnote the unpaid balance on the defaulted loan immediately prior to the time of foreclosure plus the bank's out-of-pocket costs in acquiring clear title to the property.)

10. *Investment in unconsolidated subsidiaries and associated companies.*

(a) State the aggregate investment, including advances, in subsidiaries and associated companies not consolidated.

(b) The equity method of accounting should be used.

11. *Customers' liability on acceptances outstanding.*

(a) State the liability to the reporting bank of its customers on drafts and bills of exchange that have been accepted by the reporting bank or by other banks for its account and that are outstanding—that is, not held by the bank—on the reporting date. (If held by the reporting bank, they should be reported as "loans.")

(b) In case a customer anticipates his liability to the bank on outstanding acceptances by paying the bank either the full amount of his liability or any part thereof in advance of the actual maturity of the acceptance, the bank should decrease the amount of the customer's liability on outstanding acceptances. If such funds are not received for immediate application to the reduction of the indebtedness to the bank or the receipt thereof does not immediately reduce or extinguish the indebtedness, then such funds held to meet acceptances must be reported in "demand deposits."

[1] Refer to Interpretive Ruling 7.3025.

(c) Do not include customers' liability on unused commercial and travelers' letters of credit issued under guaranty or against the deposit of security—that is, not issued for money or its equivalent.

12. *Other assets.* State separately, if material: (a) Income earned but not collected; (b) Prepaid expenses; and (c) Any other asset not included in the preceding items.

13. *Total assets.* State the sum of all asset items.

LIABILITIES

14. *Deposits in domestic offices.* (a) State separately (1) Demand deposits, (2) Savings deposits, and (3) Time deposits. State in a footnote the aggregate amount of time certificates of deposit of $100,000 or more. Related unposted debits, if any, should preferably be deducted from deposits.

(b) The term "unposted debit" means a cash item in the bank's possession drawn on itself that has been paid or credited and is chargeable against, but has not been charged against, deposit liabilities at the close of the reporting period. This term does not include items that have been reflected in deposit accounts on the general ledger, although they have not been debited to individual deposit accounts.

(c) Reciprocal demand deposit balances with banks in the United States, except those of private banks and American branches of foreign banks, shall be reported net.

(d) Include outstanding drafts (including advices or authorizations to charge the bank's balance in another bank) drawn in the regular course of business by the reporting bank on other banks pursuant to customer order.

(e) Do not include trust funds held in the bank's own trust department that the bank keeps segregated and apart from its general assets and does not use in the conduct of its business.

15. *Deposits in foreign offices.* In reporting deposits in foreign offices, short and long term liabilities carried on the books of foreign offices should be classified as borrowings rather than deposits in foreign offices if they are of the type subject to the limitations of 12 USC 82. Borrowings also include assets rediscounted with central banks, participations sold in loans and securities (in certain circumstances), government fundings of loans, borrowings from the Export-Import Bank, and rediscounted trade acceptances. Deposits in foreign offices consist of such other short and long term liabilities issued or undertaken as a means of obtaining funds to be used in the banking business and especially include those liabilities generally characterized as "replacements and redeposits," "call money", and "deposit substitutes".

16. *Federal funds purchased and securities sold under agreements to repurchase.*

(a) State the aggregate value of Federal funds purchased and securities sold under repurchase or similar arrangements. All securities sold under transactions of this type should be included regardless of:

(1) Whether they are called simultaneous purchases and sales, buy-backs, turnarounds, overnight transactions, delayed deliveries, etc., and

(2) Whether the transactions are with the same or different institutions if the purpose of the transactions is to repurchase identical or similar securities.

(b) Federal funds purchased and sales of securities under repurchase agreements should be reported gross and not netted against sales of Federal funds and purchases of securities under resale agreements.

17. *Liabilities for borrowed money.* State the aggregate amount borrowed by the reporting bank on its own promissory notes, on notes and bills rediscounted (including commodity drafts rediscounted), or on any other instruments given for the purpose of borrowing money.

18. *Mortgages payable.*

(a) State separately here, or in a note referred to herein, such information as will indicate:

(1) The general character of the debt including the rate of interest;

(2) The date of maturity;

(3) If the payment of principal or interest is contingent, an appropriate indication of such contingency; and

(4) A brief indication of priority.

(b) If there are any liens on bank premises or other real estate owned by the bank or its consolidated subsidiaries which have not been assumed by the bank or its consolidated subsidiaries, report in a footnote the amount thereof together with an appropriate explanation.

19. *Bank's acceptances outstanding.*

(a) State the aggregate of unmatured drafts and bills of exchange accepted by the reporting bank, or by some other bank as agent for the reporting bank (other than those reported in "demand deposits"), less the amount of such acceptances acquired by the reporting bank through discount or purchase and held on the reporting date.

(b) Include bills of exchange accepted by the reporting bank that were drawn by banks or bankers in foreign countries, or in dependencies or insular possessions of the United States, for the purpose of creating dollar exchange so required by usage of trade in the respective countries, dependencies, or insular possessions.

20. *Other liabilities.* State separately, if material:

(a) Accrued payrolls;

(b) Accrued income tax liability (Federal and State combined);

(c) Accrued interest;

(d) Cash dividends declared but not paid;

(e) Income collected but not earned;

(f) The aggregate amount of minority stockholders' interests in capital stock, surplus and undivided profits of consolidated subsidiaries;

(g) The aggregate amount of deferred taxes; and

(h) Any other liability not included in Items 14 through 19.

21. *Total liabilities.* State the sum of Items 14 through 20.

22. *Subordinated notes and debentures.* State separately here, or on a note referred to herein, each issue or type of obligation and such information as will indicate:

(a) The general character of each type of debt including the rate of interest;

(b) The date of maturity (or dates if maturing serially) and call provisions;

(c) The aggregate amount of maturities and sinking fund requirements, each year for the 5 years following the date of the balance sheet;

(d) If the payment of principal or interest is contingent, an appropriate indication of the nature of the contingency;

(e) A brief indication of priority; and

(f) If convertible, the basis.

CAPITAL ACCOUNTS[2]

23. *Equity capital.* (a) Capital stock. State for each class of shares the title of the issue, the number of shares authorized, the number of shares outstanding and the capital share liability thereof, and if convertible, the basis of conversion. Show also the dollar amount, if any, of capital shares subscribed but unissued, and subscriptions receivable thereon.

(b) Surplus. State the net amount formally transferred to the surplus account on or before the reporting date.

(c) Undivided profits.

(1) State the amount of undivided profits shown by the bank's books; and

(2) The amount of undivided profits available for the payment of dividends should be disclosed in a footnote.

(d) Reserve for contingencies and other capital reserves.

(1) State separately each such reserves and its purpose.

(2) These reserves constitute amounts set aside for possible decrease in the book value of assets, or for other unforeseen or indeterminable liabilities not otherwise reflected on the bank's books and not covered by insurance.

(3) As these reserves represent a segregation of undivided profits, do not include any element of known losses, or losses the amount of which can be estimated with reasonable accuracy.

(4) Reserves for security losses, the contingency portion of the reserve for loan losses, and other contingency reserves that are established as precautionary measures only shall be included in these reserves, as they represent segregations of "undivided profits."

24. *Total equity capital.* State the total of the segments included within Item 23.

25. *Total Liabilities, subordinated debentures and equity capital.* State the total of Items 21, 22 and 24.

B. STATEMENT OF INCOME

1. Operating income:

(a) Interest and fees on loans.

(b) Interest on balances with banks.

(c) Income on Federal funds sold and securities purchased under agreements to resell.

(d) Interest and dividends on investments:

(1) U.S. Treasury securities.

(2) Obligations of other U.S. Government agencies and corporations.

(3) Obligation of States and political subdivisions.

(4) Interest on other bonds, notes and debentures.

(5) Dividends on stock.

(e) Income from direct lease financing.

(f) Income from fiduciary activities.

(g) Service charges on deposit accounts.

(h) Other service charges, collection and exchange charges, commissions and fees.

(i) Other operating income.

(j) Total operating income.

2. Operating expenses:

(a) Salaries, wages and other employees benefits.

(b) Interest on time certificates of deposit of $100,000 or more.

(c) Interest on deposits in foreign offices.

(d) Interest on other deposits.

(e) Expense of Federal funds purchased and securities sold under agreements to repurchase.

(f) Interest on borrowed money.

(g) Interest on subordinated notes and debentures.

(h) Occupancy expense of bank premises, net Gross occupancy expense.

Less: Rental income.

(i) Furniture and equipment expense (including depreciation of $----).

(j) Provision for possible loan losses.

(k) Other expenses.

(l) Total operating expenses.

3. Income (loss) before income taxes and securities gains (losses).

4. Applicable income taxes.

5. Income (loss) before securities gains (losses).

6. Net securities gains (losses), less related tax effect, $----.

7. Net income (loss).

OR

7. Income (loss) before extraordinary items.

8. Extraordinary items, less related income tax effect, $----.

9. Net income (loss).

10. Earnings (loss) per common share.[3]

Income before securities gains (losses).

Net income (loss).

1. *Operating income.* State separately:

(a) *Interest and fees on loans.*

(1) Include interest, fees and other charges on all assets that are reported on the balance sheet as loans.

(2) Include interest on acceptances, commercial paper purchased in the open market, drafts for which the bank has given deposit credit to customers, etc. Also include interest on loan paper that has been rediscounted with Federal Reserve or other banks or pledged as collateral to secure bills payable or for any other purpose.

(3) Include service charges and other fees on loans.

(4) Include profits (or losses) resulting from the sale of acceptances and commercial paper at discount rates other than those at which such paper was purchased.

(5) Current amortization of premiums on mortgages or other loans shall be deducted from interest on loans and current accumulation of discount on such items shall be added to interest on loans.

(b) *Interest on balances with banks.* Include the amount of interest income earned on balances carried with other banks. Also include any realized gains or losses on the disposition of negotiable time certificates of deposit.

(c) *Income on Federal funds sold and securities purchased under agreements to resell.* Include the total gross revenue from Federal funds sold and securities purchased under agreements to resell.

(d) *Interest and dividends on investments.*

(1) State separately interest and dividends from:

(i) U.S. Treasury securities,

(ii) Securities of other U.S. Government agencies and corporations,

(iii) Obligations of States and political subdivisions,

(iv) Other securities owned by the bank, including securities pledged, loaned or sold under repurchase agreements and similar arrangements, and (v) stock dividends.

(2) Include accretion of discount on securities, if any; deduct amortization of premiums on securities. If bond discount amounts to 5 percent or more of the total of interest and dividends on investments, state in a note to financial statements the amount of accretion income.

(3) When securities are purchased, any payment for accrued interest shall not be charged to expenses, nor when collected be credited to earnings. Such interest shall be charged to a separate account that will be

[2] Federal law (12 U.S.C. 51c) expressly provides that the term "capital" as used in provisions of law relating to the capital of national banks, shall mean "the amount of unimpaired common stock plus the amount of preferred stock outstanding and unimpaired." However, capital notes and debentures are considered by the Comptroller of the Currency in his determination as to the capital adequacy of national banks and in various other determinations expressed in the national banking laws as percentages of "capital and surplus" or "capital stock and surplus."

[3] The per share amount of securities gains (losses) may be stated separately. If extraordinary items are reported, the per share amount of income before extraordinary items and the per share amount of extraordinary items shall be stated separately.

V 41 1976 OCT 12 76 UM

credited upon collection of the next interest payment. The balance in the account shall be shown as "Other assets" in the balance sheet.

(e) *Income from direct lease financing.* Include net income earned from the leasing of personal property acquired by the bank.

(f) *Income from fiduciary activities.*

(1) Include income from commissions and fees for services performed by the bank in any authorized fiduciary capacity.

(2) This item may be reported on the cash basis in those instances where the effect on the financial statements would not be materialy different from the accrual basis.

(g) *Service charges on deposit accounts.* Include amounts charged depositors who fail to maintain specified minimum deposit balances; charges based on the number of checks drawn on and deposits made in deposit accounts; charges for account maintenance and for checks drawn on "no minimum balance" deposit accounts; return check charges, etc.

(h) *Other service charges, collection and exchange charges, commissions, and fees.* State the aggregate of other service charges, collection and exchange charges, commissions, and fees. Exclude charges on loans and deposits and those related to the Trust Department. Do not include reimbursements for out-of-pocket expenditures made by the bank for the account of customers. If expense accounts were charged with the amount of such expenditures, the reimbursements should be credited to the same expense accounts.

(i) *Other operating income.*

(1) Include all operating income not reported in Items 1(a) through 1(h).

(2) Include:

(i) Net trading account income consisting of profits and losses related to securities carried in a dealer trading account or accounts that are held principally for resale to customers, but exclude salaries, commissions and other indirect expenses;

(ii) Gross rentals from real estate owned other than bank premises and safe deposit boxes;

(iii) Equity in loss or net remittable income from subsidiaries and associated companies not consolidated; and

(iv) All other recurring credits and immaterial nonrecurring credit items.

(3) Do not include rentals from bank premises. Such rental income shall be reported in the inset to Item 2(h).

(4) State separately, if material:

(i) Net trading account income.

(ii) Equity in loss or net remittable income from subsidiaries and associated companies not consolidated; and

(iii) All other amounts that represent 25 percent or more of the total of this subitem, unless "other operating income" is less than 5 percent of "total operating income."

(j) *Total operating income.* State the sum of Items 1(a) through 1(i).

2. *Operating expenses.* State separately.

(a) *Salaries, wages and other employee benefits.*

(1) Include compensation for personal services of all officers and employees, including dining room and cafeteria employees but not building department employees. Do not include compensation of officers and employees who spent the major portion of their working time on bank building and related functions. Such compensation shall be included in Item 2(h).

(2) Include bonus and profit sharing paid directly or through a trustee. Also include compensation that is deferred and not distributed to employees.

(3) Do not include amounts paid to legal, management and investment counsel for professional services if such counsel are not salaried officers or employees of the bank. Such amounts shall be included in Item 2(k).

(4) Include all supplementary benefits accrued during the report period on behalf of all officers and employees except building department personnel [see Item 2(h)].

(5) Include the bank's own contribution to its pension fund; unemployment and Social Security taxes for the bank's own account; life insurance premiums (net of dividends received) and hospitalization insurance payable by the bank; and other employee benefits.

(6) Do not include expenses related to testing, training or education of officers and employees; the cost of bank newspapers and magazines; premiums on insurance policies where the bank is beneficiary; and athletic activities where the principal purpose is for publicity or public relations and employee benefits are only incidental. Such amounts shall be included in Item 2(k).

(b) *Interest on time certificates of deposit of $100,000 or more.* Include the interest expense of time certificates of deposit issued in denominations of $100,000 or more.

(c) *Interest on deposits in foreign offices.* Include interest on all deposits in foreign offices.

(d) *Interest on other deposits.* Include include interest on all other deposits.

(e) *Expense of Federal funds purchased and securities sold under agreements to repurchase.*

(1) Include the total gross expense of Federal funds purchased and securities sold under agreements to repurchase.

(2) Include expenses of such transactions undertaken by consolidated Edge Act and Agreement corporations.

(f) *Interest on borrowed money.*

(1) Include all interest on bills payable, rediscounts, unsecured notes payable, and other instruments issued for the purpose of borrowing money other than Federal funds purchased and securities sold under agreements to repurchase.

(2) Do not include interest on mortgages on bank premises. Such interest shall be included in Item 2(h).

(g) *Interest on subordinated notes and debentures.*

(1) Include all interest on subordinated notes and debentures.

(2) Amortization of premium or discount shall be deducted from or included in the amount reported.

(3) Do not include premium or discount paid or realized on retirement of such securities. Such amounts shall be reported in Item 1(i) or 2(k).

(h) *Occupancy expense of bank premises, net.*

(1) Include in "gross occupancy expense" the aggregate amount of:

(i) Salaries, wages, and other employee benefits of bank personnel [as detailed in Items 2(a)(1) to 2(a)(6)] who devote the major portion of their time to the operation of bank premises or its consolidated premises subsidiaries;

(ii) Depreciation of bank premises and amortization of lease-hold improvements;

(iii) Rent expense of bank premises;

(iv) Real estate taxes;

(v) Interest on mortgages on bank premises owned; and

(vi) Other bank premises operating and maintenance expenses.

(2) Include in "rental income" the aggregate amount of rentals from bank premises leased or sub-leased by the bank or its consolidated premise subsidiaries.

(3) Report the net occupancy expense (or net income) of bank premises. If net income is reported, the amount shall be shown in parentheses.

(i) *Furniture and equipment expense.*

(1) Include normal and recurring depreciation charges; rental costs of office machines and tabulating and data processing equipment; and ordinary repairs to furniture and office machines, including servicing costs. The amount applicable to depreciation charges shall be shown either in parentheses or in a footnote.

(2) Include taxes on furniture and equipment.

(j) *Provision for possible loan losses.*

(1) Banks shall include a provision for potential losses in the current loan portfolio based on bank management's evaluation of the loan portfolio in light of all relevant factors.

(2) Furnish in a note to financial statements an explanation of the basis for determining the loan loss provision.

(3) Banks which do not provide for loan losses on a reserve basis shall include the amount of actual net chargeoffs (losses less recoveries) for the current year.

(4) Banks with total assets exceeding $25 million as of the end of the latest fiscal year must be on the accrual basis for loan loss reserves.

(k) *Other expenses.*

(1) Include all operating expenses not reported in Items 2(a) through 2(j).

(2) Include advertising, business promotion, contributions, cost of examinations by supervisory authorities, deposit insurance assessment, fees paid to directors and members of committees, memberships, net cash shortages or overages, operating expenses (except salaries) of "Real estate owned other than bank premises," postage, premium on fidelity insurance, publicity, retainer fees, stationery and office supplies, subscriptions, taxes not reported against other items, telegrams and cables, telephone, temporary agency help, travel, unreimbursed losses on counterfeits, forgeries, payments over stops, and other recurring expenses and immaterial nonrecurring charges.

(3) Deposit insurance assessment expense shall be reported as a net figure—that is, all assessment credits during the period shall be applied against the assessment expense.

(4) Include minority interest in consolidated subsidiaries.

(5) Itemize all amounts that represent 25 percent or more of this item.

(*l*) *Total operating expenses.* State the sum of Items 2(a) through 2(k).

3. *Income (loss) before income taxes and securities gains (losses).* State the difference of Item 1(j) minus Item 2(*l*).

4. *Applicable income taxes.*[4]

(a) State the aggregate of Federal, State and foreign income taxes applicable to the amount reported in Item 3.

(b) Do not include income taxes applicable to net securities gains (losses) and extraordinary items. Such taxes (or tax reductions) shall be reported in Items 6 and 8.

5. *Income (loss) before securities gains (losses).* State the difference of Item 3 minus Item 4.

6. *Net securities gains (losses).* State the net result after income taxes of securities gains and losses realized. Related income taxes (or tax reductions) shall be shown parenthetically.

7. *Net income (loss).* State the sum or difference of Items 5 and 6.

NOTE.—If extraordinary items are reported (see Item 8) the caption to this Item shall read, "Income (loss) before extraordinary items."

8. *Extraordinary items.* State the results of material nonrecurring tranaactions that have occurred during the reporting period. Only the results of major events outside of the ordinary operating activity of the bank are to be reported herein. Such events would include, but not be limited to, material gain or loss from sale of bank premises and expropriation of properties. Related income taxes (or tax reductions) shall be shown parenthetically. (Less than material results of nonrecurring transactions are to be included in Items 1(i) or 2(k) as appropriate.)

9. *Net income (loss).* State the sum or difference of Items 7 and 8.

10. *Earnings per common share.* State the per share amounts applicable to common stock (including common stock equivalents) and per share amounts on a fully diluted basis, if applicable. The basis of computation, including the number of shares used, shall be furnished in a note to financial statements. When the reporting bank is a wholly-owned subsidiary (except for directors' qualifying shares) of a bank holding company, per share data shall be deleted.

[4] Refer to 12 CFR 11.7(c)(10)(iv).

C. *STATEMENT OF CHANGES IN CAPITAL ACCOUNTS*

	Preferred stock $.... par	Common stock $.... par	Surplus	Undivided profits	Reserve for contingencies and other capital reserves
1. Balance at beginning of year [1]					
2. Net income transferred to undivided profits					
3. Preferred stock and common stock sold (par or face value)					
4. Stock issued incident to mergers or acquisitions					
5. Premium on capital stock sold					
6. Additions to (or reductions in) surplus, undivided profits and reserves incident to mergers					
7. Cash dividends declared on preferred stock					
8. Cash dividends declared on common stock					
9. Stock issued in payment of stock dividend ..... shares at par value					
10. All other increases (decreases) for the period [2]					
11. Net increase (decrease) for the period					
12. Balance at the end of period					

[1] If the statement is filed as part of an annual or other report, and the balances at the beginning of the period differ from closing balances reported in previously issued reports, state separately the adjustments to these balances.

[2] State separately each item indicating clearly the nature of the transaction out of which the item arose. Adjustments such as: (a) prior period taxes; (b) prior period depreciation taken; (c) bad checks; (d) cash over/short should be charged or credited to the income statement for the current period.

[3] The difference between the purchase price and the fair value of the net assets acquired in business combinations treated as a purchase for accounting purposes should be charged to undivided profits.

D. *SCHEDULES*

SCHEDULE 1.—*U.S. Treasury securities; obligations of other U.S. Government agencies or corporations; obligations of State and political subdivisions; and other bonds, notes, and debentures*

Type and maturity grouping [1]	Book value [2]	Market value [3]
U.S. Treasury securities		
Within 1 yr.		
After 1 but within 5 yr.		
After 5 but within 10 yr.		
After 10 yr.		
Total U.S. Treasury securities		
Obligations of other U.S. Government agencies or corporations		
Within 1 yr.		
After 1 but within 5 yr.		
After 5 but within 10 yr.		
After 10 yr.		
Total of other U.S. Government agencies or corporations		
Obligations of States and political subdivisions [4]		
Within 1 yr.		
After 1 but within 5 yr.		
After 5 but within 10 yr.		
After 10 yr.		
Total obligations of States and political subdivisions		
Other bonds, notes, and debentures [5]		
Within 1 yr.		
After 1 but within 5 yr.		
After 5 but within 10 yr.		
After 10 yr.		
Total other bonds, notes, and debentures		

[1] Excludes securities sold short, securities borrowed, securities purchased but not yet delivered, and trading account securities.

[2] State briefly in a footnote the basis for determining the amounts in this column. Totals should agree with the related balance sheet amounts.

[3] If market value is determined on any basis other than market quotations at balance sheet date, explain.

[4] Include obligations of the States of the United States and their political subdivisions, agencies, and instrumentalities; also obligations of territoria and insular possessions of the United States. Do not include obligations of foreign states.

[5] State in a footnote the aggregate amount and book value of foreign securities included.

V41 I198 OCT 12 76 UMI

SCHEDULE II.—*Corporate stock*

Type	Book value [1]	Market value [2]
Stock of the Federal Reserve bank		
Other stocks		
Total		

[1] State briefly in a footnote the basis for determining the amounts shown in this column.
[2] If market value is determined on any basis other than market quotation at balance sheet date, explain. Stock of the Federal Reserve Bank should be valued for purposes of this Schedule.

SCHEDULE III.—*Loans* [1]

1. Real estate loans (include only loans secured primarily by real estate):
   a. Construction and land development.
   b. Secured by farmland (including farm residential and other improvements).
   c. Secured by 1-4 family residential properties:
      (1) Insured by FHA or guaranteed by VA.
      (2) Conventional.
   d. Secured by multi-family (5 or more) residential properties:
      (1) Insured by FHA.
      (2) Conventional.
   e. Secured by nonfarm nonresidential properties.
2. Loans to financial institutions:
   a. To real estate investment trusts and mortgage companies.
   b. To domestic commercial banks.
   c. To banks in foreign countries.
   d. To other depository institutions (Mutual Savings Banks, Savings and Loan Associations, Credit Unions).
   e. To other financial institutions.
3. Loans for purchasing or carrying securities (secured or unsecured):
   a. To brokers and dealers in securities.
   b. Other loans for purchasing or carrying securities.
4. Loans to farmers (except loans secured primarily by real estate; include loans for households and personal expenditures).
5. Commercial and industrial loans (except those secured primarily by real estate).
6. Loans to individuals for household, family, and other personal expenditures (include purchased paper):
   a. To purchase private passenger automobiles on installment basis.
   b. Credit cards and related plans:
      (1) Retail (charge account) credit card plans.
      (2) Check credit and revolving credit plans.
   c. To purchase other retail consumer goods on installment basis:
      (1) Mobile homes (exclude travel trailers).
      (2) Other retail consumer goods (exclude credit cards and related plans).
   d. Installment loans to repair and modernize residential property.
   e. Other installment loans for household, family, and other personal expenditures.
   f. Single-payment loans for household, family, and other personal expenditures.
7. All other loans.
8. Total loans, Gross (sum of Items 1 through 7).
9. Less: Unearned income on loans.
10. Total loans.

[1] Detailed instructions for the preparation of this schedule are contained within the Instructions for Preparat of Consolidated Reports of Condition and Reports of Income by National Banking Associations, revised March 197

SCHEDULE IV.—*Bank premises, equipment, furniture, and fixtures*

Classification [1]	Gross book value [2]	Accumulated depreciation and amortization [2] [4]	Amount at which carried on balance sheet
Bank premises (including land $_____)			
Equipment, furniture, and fixtures			
Leasehold improvements			
Totals [5]			

[1] If impractical to consolidate foreign branch and foreign subsidiary bank premises and equipment in accordance with the breakdown required by this schedule, a separate caption stating the total amount of all such property may be inserted. Such action should be explained in a footnote.
[2] State briefly in a footnote the basis of determining the amounts in this column if different than historical cost.
[3] If provision for depreciation and amortization is credited in the books directly to the asset accounts, the amount for the last fiscal year shall be stated in an explanatory footnote.
[4] The nature and amount of significant additions (other than provisions for depreciation and amortization) and deductions shall be stated in an explanatory footnote.
[5] Show in a footnote totals (corresponding to the 1st 2 columns) representing amounts reported for Federal income tax purposes.

SCHEDULE V.—*Investments in, dividend income from, and share in earnings or losses of unconsolidated subsidiaries and associated companies*

Name of subsidiary or associated company	Percent of voting stock owned directly or indirectly	Total investment, including advances, at balance sheet date	Equity in underlying net assets at balance sheet date [1]	Amount of dividends received during the period [2]	Proportionate part of earnings or (loss) for the period
Totals					

[1] Equity shall include advances reported in preceding column to the extent recoverable.
[2] In a footnote state as to any dividends other than cash, the basis on which they have been reported as income. Also, if any such dividend received has been credited to income in an amount differing from that charged to surplus and/or undivided profits by the disbursing subsidiary, state the amount of such difference and explain.
[3] Those foreign investments, the enumeration of which would be detrimental to the bank, may be grouped.

SCHEDULE VI.—*Liabilities for borrowed money*

Item	Amount
Borrowings from Federal Reserve bank	
Unsecured notes payable within 1 yr.	
Unsecured notes payable after 1 yr.	
Other obligations	
Total	

SCHEDULE VII.—*Reserve for possible loan losses* [1]

Item	Amount
Balance at beginning of period	
Recoveries credited to reserve	
Changes incident to mergers and absorptions [2]	
Provisions for possible loan losses charged to income	
Total	
Losses charged to allowance	
Balance at the end of period [3] [4]	

[1] Do not include any entries pertaining to reserve accounts established by segregation of the bank's undivided profits account.
[2] Describe briefly in a footnote any such additions.
[3] Describe briefly in a footnote the basis used in determining the amount accumulated in the reserve at the end material difference between the reserve for possible loan losses reported herein and the reserve for bad debts com-
[4] Indicate in a footnote whether the bank's reserve for bad debts computed for Federal income tax return purposes is at the maximum allowable pursuant to Treasury tax formula. In addition, set forth a summary reconciliation of any material difference between the reserve for possible loan losses reported herein and the reserve for bad debts computed for Federal income tax purposes.

SCHEDULE VIII.—*Deposits in domestic offices* [1]

Deposits	Demand	Savings	Time
1. Deposits of individuals, partnerships, corporations:			
a. Individuals and nonprofit organizations			
b. Corporations and other profit organizations			
c. Total, (sum of 1a and 1b)			
d. Mutual savings banks			
e. Deposits accumulated for payment of personal loans			
f. Total			
2. Deposits of U.S. Government			
3. Deposits of States and political subdivisions			
4. Deposits of foreign governments and official institutions, central banks, and international institutions			
5. Deposits of commercial banks in the United States			
6. Deposits of banks in foreign countries, including balances of foreign branches of other American banks			
7. Certified and officers' checks, travelers' checks, letters of credit			
8. Total deposits			

[1] Detailed instructions for the preparation of this schedule are contained within the "Instructions for Preparation of Consolidated Reports of Condition and Reports of Income by National Banking Associations," revised March 1976.

E. CHANGES IN FINANCIAL POSITION[1]

Sources of funds	
Operations:	
Net income	
Charge to income not affecting funds	
Total funds provided by operations	
Equity funds, sale proceeds	
Subordinated notes and debentures, sale proceeds	
Increase in liabilities [2]	
Decrease in operating assets [2]	
Total	
Applications of funds	
Payment of dividends	
Purchase of property and equipment	
Decrease in liabilities [2]	
Increase in operating assets [2]	
Total	

[1] Sources and applications of funds shall be shown separately by amounts when they exceed 5 pct of the average of total funds provided during the reported periods.
[2] Historically, this statement has been prepared primarily from a comparison of period-end balances. The bank may, at its option, prepare this statement using average daily balances for changes in asset and liability accounts. If the use of the average daily balance method results in the presentation of data which materially differ from those which would have been shown if the period-end method had been used, such differences shall be disclosed in a note to the financial statements.

§ 11.102 [Amended]

44. Section 11.102(d)(1) is corrected by deleting the word "greater" in paragraph (d)(1) and substituting the word "lesser".

PART III:

ENVIRONMENTAL PROTECTION AGENCY

Emission Monitoring Requirements

■

RECEIPT OF APPLICATION AND APPROVAL OF ALTERNATIVE MONITORING REQUIREMENTS

V41 I198 OCT 12 76
UM

ENVIRONMENTAL PROTECTION AGENCY

[FRL 628-3]

EMISSION MONITORING REQUIREMENTS

Receipt of Application and Approval of Alternative Monitoring Requirements

On October 6, 1975 (40 FR 46247 and 46256), and on August 20, 1976 (41 FR 35185) the Environmental Protection Agency (EPA) promulgated regulations under 40 CFR Parts 51 and 60 which require continuous emission monitoring of sulfur dioxide and oxides of nitrogen at new and certain existing fossil fuel-fired steam generators. The regulations require that the emission rate be computed using an equation which requires the measurement of the pollutant concentration and percent oxygen in the stack gas on a dry basis only. However, paragraph 3.9.1 of Appendix P to 40 CFR Part 51 and § 60.13(i)(3) of 40 CFR Part 60 provide for application for approval of "alternative monitoring requirements to accommodate continuous monitoring systems that require additional measurements to correct for stack moisture conditions."

EPA has received two written applications for approval of alternative monitoring requirements; one was received from Lear Siegler, Incorporated, Englewood, Colorado, on January 9, 1976, and one from E. I. duPont de Nemours and Company, Wilmington, Delaware, on January 23, 1976. Specifically, the applicants requested approval of alternative emission data reduction procedures to be used with wet-basis stack gas pollutant and oxygen monitoring data from fossil fuel-fired steam generators. EPA has completed a technical review of the applications and approves the following alternative data reduction procedures using wet-basis pollutant and oxygen data for new stationary sources regulated by 40 CFR Part 60. State control agencies may include these data reduction techniques in their Implementation Plans.

a. The following equation may be used for the determination of sulfur dioxide and oxides of nitrogen emissions from fossil fuel-fired steam generators when the pollutant and oxygen concentrations are measured on a wet basis except where wet scrubbers are employed, or where moisure is otherwise added to the stack gases:

$$E = C_{ws} F_w \left(\frac{20.9}{20.9\ (1 - B_{ws}) - \%\, O_{2ws}} \right)$$

where:

1. E=pollutant emission, g/million cal (lb/million Btu).

2. C_{ws}=pollutant concentration at stack conditions, g/wscm (grams/wet standard cubic meter) (lb/wscf (pounds/wet standard cubic foot)), determined by multiplying the average concentration (ppm) for each one-hour period by 4.15×10^{-5} M g/wscm per ppm (2.59×10^{-9} M lb/wscf per ppm) where M-pollutant molecular weight, g/g-mole (lb/lb-mole). M=64.07 for sulfur dioxide and 46.01 for nitrogen oxides.

3. $\%O_{2ws}$=oxygen volume (expressed as percent—wet-basis determined with equipment specified under paragraph (d) of section 60.45.

4. F_w=a factor representing a ratio of the volume of wet flue gases generated to the calorific value of the fuel combusted. Values of F_w are given as follows:

(i) For anthracite coal as classified according to A.S.T.M. D388-66, F_w=1.188 wscm/million cal (10580 wscf/million Btu).

(ii) For sub-bituminous and bituminous coal as classified according to A.S.T.M. D388-66, F_w=1.200 wscm/million cal (10680 wscf/million Btu).

(iii) For liquid fossil fuels including crude, residual, and distillate oils, F_w=1.164 wscm/million cal (10360 wscf/million Btu).

(iv) For gaseous fossil fuels: For natural gas, F_w=1.196 wscm/million cal (10650 wscf/million Btu). For propane, F_w=1.150 wscm/million cal (10240 wscf/million Btu). For butane, F_w=1.172 wscm/million cal (10430 wscf/million Btu).

Values of F_w may be determined from a fuel analysis as follows:

$$F_w = \frac{347.4\ \%H + 95.7\ \%C + 35.4\ \%S + 8.6\ \%N - 28.5\ \%O + 13.4\ \%H_2O^1}{GCV_w} \quad \text{(Metric)}$$

$$F_w = \frac{10^6\ [5.56\ \%H + 1.53\ \%C + 0.57\ \%S + 0.14\ \%N - 0.46\ \%O + 0.21\ \%H_2O^1]}{GCV_w} \quad \text{(English)}$$

[1] This term may be omitted if %H+%O includes the unavailable hydrogen and oxygen in the form of H_2O.

where:

H, C, S, N, and O are content by weight of hydrogen, carbon, sulfur, nitrogen, and oxygen (expressed as percent), respectively, as determined on the same basis as GCV_w by ultimate analysis of the fuel fired, using A.S.T.M. method D3178-74 or D3176 (solid fuels), or computed from results using A.S.T.M. methods D1137-53(70), D1945-64 (73), or D1946-67(72) (gaseous fuels) as applicable.

GCV_w is the gross calorific value (cal/g, Btu/lb) of the fuel combusted on an "as received" or "as fired" basis (i.e., the analysis should include the free moisture), determined by the A.S.T.M. test methods D2015-66(72) for solid fuels and D 1826-64(70) for gaseous fuels as applicable.

5. B_{ws}= proportion by volume of water vapor in the ambient air. Approval may be given for determination of B_{ws} by on-site instrumental measurement provided that the absolute accuracy of the measurement technique can be demonstrated to be within ±0.7 percent water vapor. In lieu of actual measurement, B_{ws} may be estimated as follows:

NOTE.—That the following estimating factors are selected to assure that any negative error introduced in the term

$$\left(\frac{20.9}{20.9\ (1 - B_{ws}) - \%\, O_{2ws}} \right)$$

will not be larger than −1.5 percent. However, positive errors, or over-estimation of emissions, of as much as 5 percent may be introduced depending upon the geographic location of the facility and the associated range of ambient moisture.)

(i) B_{ws}=0.027. This factor may be used as a constant value at any location.

(ii) B_{ws}=highest monthly average of B_{ws} which occurred within a calendar year at the nearest Weather Bureau station.

(iii) B_{ws}=highest daily average of B_{ws} which occurred within a calendar month at the nearest Weather Bureau station, calculated from data for the past three years. This factor shall be calculated for each month and may be used as an estimating factor for the respective calendar month.

b. The following equation may be used for the determination of sulfur dioxide and oxides of nitrogen pollutant emissions from fossil fuel-fired steam generators where the pollutant and oxygen concentrations are measured on a wet basis and the water vapor content of the stack gas is determined at least once every fifteen minutes. When wet scrubbers are employed prior to where the stack gas is sampled or if liquid water droplets or mist is otherwise present in the stack gas, use of a heated extractive monitoring system may collect and vaporize condensed liquid. As a result, the vapor content of the stack gas may be significantly different from the vapor content where the pollutant and oxygen concentrations are measured. Therefore, in all applications of the following equation, the water vapor content must be measured in the monitoring system or stack such that the measured vapor content is the same as the vapor content existing at the point where the pollutant and oxygen measurements are made.

$$E = C_{ws} F \left(\frac{20.9}{20.9(1 - B_{ws}) - \%\, O_{2ws}} \right)$$

where:

1. E=pollutant emission, g/million cal (lb/million Btu).

2. C_{ws}=pollutant concentration at stack conditions, g/wscm (lb/wscf), determined by multiplying the average concentration (ppm) for each one-hour period by 4.15×10^{-5} M g/wscm per ppm (2.59×10^{-9} M lb/wscf per ppm) where M=pollutant molecular weight, g/g-mole (lb/lb-mole). M=64.07 for sulfur dioxide and 46.01 for nitrogen oxides.

3. $\%_{ws}$=oxygen volume (expressed as percent—wet-basis) determine with equipment specified under paragraph (d) of section 60.45.

4. F=a factor representing a ratio of the volume of dry flue gases generated, to the calorific value of the fuel combusted as specified in section 60.45.

5. B_{ws}=proportion by volume of water vapor in the stack gas.

This equation is approved in principle. Approval for actual practice is contingent upon demonstrating the ability to accurately determine B_{ws}, such that any absolute error in B_{ws} will not cause an error of more than ±1.5 percent in the term

$$\left(\frac{20.9}{20.9(1 - B_{ws}) - \%\, O_{2ws}} \right).$$

Impact of Action on State Implementation Plans

In accordance with regulations promulgated by the Agency on October 6, 1975, States are required to submit regulations that provide for continuous emission monitoring of certain existing sources. Such State regulations shall be submitted to EPA for approval and shall be considered a revision to the approved State Implementation Plan. According to the EPA requirements, States shall set forth performance specifications for monitoring instruments and require that data derived from such monitoring be summarized and made available. Minimum performance standards and other procedures are set forth in 40 CFR Part 51, Appendix P. These requirements allow States to consider alternate procedures when such procedures are determined to be as accurate as those contained within Appendix P.

States are advised that as a result of this notice, EPA now approves the use of two alternate data reduction procedures not currently contained within Appendix P. It should be noted that this action does not mandate acceptance or use of these alternate procedures by any State. This action does, however, signify the Agency's intent to approve State plans employing these data reduction procedures where States determine that such procedures are amendable to their control programs.

Dated: September 30, 1976.

ROGER STRELOW,
Assistant Administrator for Air and Waste Management.

DEPARTMENT OF THE TREASURY

Office of Revenue Sahring

■

ANTIRECESSION FISCAL ASSISTANCE TO STATE AND LOCAL GOVERNMENTS

Interim Regulations

V41 198 OCT 12 76 UMI

Title 31—Money and Finance: Treasury

CHAPTER I—MONETARY OFFICES, DEPARTMENT OF THE TREASURY

PART 52—ANTIRECESSION FISCAL ASSISTANCE TO STATE AND LOCAL GOVERNMENTS

Pursuant to the authority vested in the Secretary of the Treasury by the Public Works Employment Act of 1976 (Title II, Pub. L. 94–369) enacted July 22, 1976, the Department of the Treasury hereby adopts the following interim regulations in order to disbuse payments to eligible States and local governments for the calendar quarter beginning July 1, 1976. A new part 52 is hereby established undre Chapter I of Subtitle B in Title 31 of the Code of Federal Regulations.

Because the purpose of these regulations is to provide immediate guidance to the States and local governments in order that the requirements of the Act be complied with, it is hereby found impractical to issue such regulations with the notice and public procedure thereon under 5 U.S.C. 553(b) or subject to the effective date limitation of 5 U.S.C. 553 (d).

These regulations shall become effective when filed with the Office of the Federal Register. It is expected that permanent regulations will be issued in the near future and for this reason, written comments are solicited for consideration by the Department. Public comments may be submitted on or before November 11, 1976 to the following address: Director, Office of Revenue Sharing (symbols CC) 2401 E Street, NW., Washington, D.C. 20226.

Comments submitted in response to this solicitation are available to the public upon written request pursuant to the Freedom of Information Act and the regulations promulgated thereunder by the Department, 31 CFR 1.1 et seq.

Dated: October 7, 1976.

JEANNA D. TULLY,
Director,
Office of Revenue Sharing.

AUTHORITY: Public Works Employment Act of 1976, Pub. L. 94–369, Title II.

Subpart A—General Information

§ 52.0 Scope and application of regulations.

The rules and regulations of this part are prescribed for carrying into effect Title II of the Public Works Employment Act of 1976, enacted July 22, 1976, and are applicable as of the calendar quarter beginning July 1, 1976.

§ 52.1 Delegation of authority.

By delegation order of the Secretary of the Treasury the Director of the Office of Revenue Sharing shall perform the functions, exercise the powers and carry out the duties vested in the Secretary by the Public Works Employment Act of 1976, Title II, Pub. L. 94–369. A reference to the Director in the masculine gender shall not be construed to exclude the feminine gender.

§ 52.2 Definitions.

As used in this part (except where the context clearly indicates otherwise, or where the terms are defined elsewhere in this part) the following definitions shall apply:

(a) "Act" means Title II of the Public Works Employment Act of 1976, Pub. L. 94–369.

(b) "Chief executive officer" of a unit of local government means the elected official, or the legally designated official who has the primary responsibility for the conduct of that unit's governmental affairs, and is the chief executive officer for purposes of the State and Local Fiscal Assistance Act of 1972, 31 U.S.C. 1221 et seq. and 31 CFR 51.2(b). Examples of the "chief executive officer" of a unit of local government may be: The elected mayor of a municipality, the elected county executive of a county, the chairman of a county commission or board in a county that has no elected county executive, the township supervisor, trustee, first selectman, chairman, city manager, or such other official as may be designated pursuant to law by the duly elected governing body of the unit of local government; or the chairman, governor, chief or president (as the case may be) of an Indian tribe or Alaskan native village.

(c) "Department" means the Department of the Treasury.

(d) "Director" means the Director of the Office of Revenue Sharing.

(e) "Effective date of the Act" means July 22, 1976.

(f) "Governor" means the Governor of any of the 50 states.

(g) "Identifiable local government" means a unit of general local government for which the Secretary of Labor has made a determination concerning the rate of unemployment for purposes of Title II or Title VI of the Comprehensive Employment and Training Act of 1973 (Pub. L. 93–203) during fiscal years 1975 or 1976.

(h) "Independent public accountant" means independent certified public accountant or independent public accountant licensed by a regulatory authority of a State or other political subdivision of the United States.

(i) "Indian tribe and Alaskan native village" means the recognized governing body of an Indian tribe or Alaskan native village which perform substantial governmental functions. Certification to the Director by the Secretary of the Interior (or Governor of a State in the case of State affiliated tribes) of the recognized governing body of an Indian tribe or an Alaskan native village performing substantial governmental functions for purposes of the State and Local Fiscal Assistance Act of 1972 (Pub. L. 92–512) shall constitute prima facie evidence of compliance with such criteria.

(j) "Local government" means the government of a county, municipality, township or other unit of government within the State which—

(1) is a unit of general government (determined on the basis of the same principles as are used by the Bureau of the Census for general statistical purposes and reported to the Secretary), and

(2) performs substantial governmental functions. The term local government includes the District of Columbia and the recognized governing body of an Indian tribe or Alaskan native village which performs substantial governmental functions.

(k) "Payment" means funds paid to a State government or a local government pursuant to the Act.

(l) "Quarterly allocation" means the amount of funds allocated to a State government or local government as determined by the Director pursuant to an allocation formula contained in the Act or authorized by regulation under this part.

(m) "Recipient government" means a State government or local government as defined in this section which receives payment under the Act.

(n) "Secretary" means the Secretary of the U.S. Department of the Treasury.

(o) "State government" means the government of any of the 50 states.

(p) "Substantial governmental function" means, with respect to township governments, that such governments have expended revenues within the last two fiscal years (current and preceding fiscal years) and have the present authority to expend revenues within two or more of the following governmental expenditure categories: Education, Highways, Public Welfare, Health and Hospitals, Police and Corrections, Fire Protection, Sewerage and Sanitation, Natural Resources, Housing and Urban Renewal, Transportation, Libraries, Financial Administration, General Administration, General Public Buildings, Interest on General Debt, and Parks and Recreation.

§ 52.3 Procedure for effecting compliance.

(a) *In general.* Whenever the Director, after affording reasonable notice and an opportunity for a hearing to any State or local government pursuant to subpart H of this part, finds there has been a failure to comply substantially with this part, the Director shall notify that State or local government that further payments will not be made until he is satisfied there is no longer a failure to comply. Until he is so satisfied, no further payments will be made under the Act to such State or local government. Notwithstanding the above, payments may be temporarily suspended pursuant to subpart F of this part.

(b) *Determination to delay payment.* Whenever the Director determines that a recipient government has failed to comply with the reporting requirements of this part, he may delay a payment to such government. A determination to delay a payment shall not be subject to the procedure set forth in paragraph (a) of this section and shall be in effect for such time as is necessary to effect compliance.

§ 52.4 Extension of time.

When, by these regulations (other than those specified in subpart H of this part) an act is required within a specified time, the Director may grant a request for an extension of time if in his judgment it is necessary, appropriate and in accordance with the Act. Requests for extensions of time shall be in writing and shall set forth the facts and circumstances supporting the need for more time and the amount of additional time requested.

§ 52.5 Transfer of payments to secondary recipients.

Those prohibitions and restrictions set forth in subparts E, F and G of this part which are applicable to a recipient government's payments continue to be applicable to such funds if they are transferred to another governmental unit or a private organization. A violation of subparts E, F and G of this part by a secondary recipient shall constitute a violation by the recipient government and the applicable penalty for failure to comply shall be imposed on the recipient government.

Subpart B—Reports and Written Communications

§ 52.10 Assurances; Reports to the Director.

(a) *Requisite assurances for receipt of payments.* Each State or local government will receive payments only upon the filing of a statement of assurances by the chief executive officer with the Director. The statement of assurances provides that a recipient government will comply with certain specific requirements of the Act and this part with respect to the use of payments. In addition, township governments must assure the Director that they perform substantial governmental functions, as defined in § 52.2(p) of this part.

(b) *Filing time for statement of assurances.* The statement of assurances form must be received by the Director on or before November 12, 1976, in order for a government to timely receive the payments authorized for the calendar quarters beginning July 1, and October 1, 1976. Governments otherwise eligible which have not filed a statement of assurances form with the Director by November 12, 1976, must file such form by December 13, 1976 in order to receive payments for the calendar quarters beginning July 1, October 1, 1976 and January 1, 1977 at the time payments are made for the quarter beginning January 1, 1977. With respect to calendar quarters beginning after January 1, 1977, a government which had not previously filed a statement of assurances form must file such assurances with the Director at least 21 days prior to the beginning of a subsequent calendar quarter in order to qualify for payments under the Act. The Director shall not require a recipient government to submit more than one statement of assurances form each Federal fiscal year. The Director will make reasonable efforts to provide a statement of assurances form to potential recipient governments. It is the ultimate responsibility of the State and local governments to obtain a statement of assurances form. Nothing in this section shall preclude the Director from requiring recipient governments to submit such other assurances as are deemed appropriate to enforce compliance with the Act and the provisions of this part.

(c) *State and local government economization assurance.* The chief executive officer of each State or local government which receives payments under the Act shall provide an assurance on the statement of assurances form required in paragraph (a) of this section, that reasonable efforts have been made to achieve substantial economies in its operations and that payments are necessary to maintain essential services without weakening Federal Government efforts to stimulate the economy through reductions in the Federal tax obligations.

(d) *Reports.* Recipient governments are required to submit reports containing the data requested by the Director to carry out the purposes of this part, such as the uses of payments and their fiscal impact. The reports shall be made within the time limits and in the form and manner specified by the Director.

§ 52.11 Publication and publicity of reports; public inspection.

(a) *In General.* Each recipient government which has received payments shall publish each report filed with the Director pursuant to § 52.10(d) of this part in a newspaper of general circulation within the jurisdiction of such government.

(b) *Permissible newspapers.* A newspaper is appropriate for purposes of paragraph (a) of this section if it conforms with the newspaper publication requirements for general revenue sharing reports pursuant to the State and Local Fiscal Assistance Act of 1972, Pub. L. 92–512.

(c) *Legal notice rules are inapplicable.* The publication requirement in paragraph (a) of this section does not require the publication of reports as a legal notice. A recipient government may publish reports without regard to State or local statutory requirements for the publication of legal notices.

(d) *Exception to the publication requirement.* The newspaper publication requirement in paragraph (a) of this section shall not apply whenever the cost of publishing a report exceeds 10 percent of the total amount of payments received by such government during the period covered by such report. Also, the Director may waive the publication requirement upon the receipt of a notorized written assurance, signed by the chief executive officer of the recipient government, which states that an alternative means of publicizing the report is more appropriate to inform residents of the affected community of the contents of the reports. The assurance must be accompanied by a statement of the alternative means which will be used to publicize the report.

§ 52.12 Special reports.

(a) *In general.* Each State and local government which receives a payment shall report to the Director, in accordance with paragraph (b) of this section, any increase or decrease in any tax rate which it imposes and any substantial (five percent or more on an annualized basis) reduction in the number of in-

V41 1976 OCT 12 76 UM

dividuals it employs (excluding part-time, seasonal and elected officials) or in services (five percent or more on an annualized basis of the total operating budget allocated to providing services) which such State or local government provides during each calendar quarter in which a payment is received. Each State which receives a payment shall report to the Director any decrease in the amount of intergovernmental transfers it provides to the local governments within its boundaries as compared to the amount of intergovernmental transfers provided during the twelve-month period which ended June 30, 1976, together with an explanation of the reasons for such decrease.

(b) *Time limitation; form.* The reports required in paragraph (a) of this section shall be made as soon as it is practical and, in any case, not more than six months after the date on which the decision to impose such tax rate increase or decrease, such reduction in employment or services, or such decrease in intergovernmental transfers is made public. The reports shall be made on a form provided, and in a manner to be prescribed by the Director.

Subpart C—Computation and Allocation Adjustments

§ 52.20 Reservation of payments and adjustments.

(a) *Reservation of funds.* In order to make subsequent adjustments to a payment which may be authorized the Director will establish an Antirecession Fiscal Assistance Adjustment Reserve Fund. The Director will set aside a percentage of the funds appropriated for the purpose of making such payments as in his judgment is necessary to insure that there will be sufficient funds available to make all appropriate adjustments. Any payments waived shall also be set aside into the Adjustment Reserve Fund. The funds reserved in this manner will accumulate until the Director orders distribution of those funds to recipient governments in accordance with the Act.

(b) *Adjustment to future payments.* Adjustment to payments may be effected through adjustment to subsequent payments unless this means of adjustment is deemed impractical or impossible by the Director. In those cases, the Director may demand repayment by the recipient government of the amount determined to be in excess. Such excess payments shall be promptly repaid on demand in the manner specified by the Director.

(c) *Minimum adjustment.* No adjustment of any kind of less than $100 per quarter shall be made if in the judgment of the Director such adjustment will be burdensome, costly or impractical.

§ 52.21 Unemployment rate data.

(a) *State and identifiable local government unemployment rate.* The unemployment rate used to determine quarterly allocations for State and identifiable local governments, and adjustments thereto payable under this part, will be the unemployment rate as determined by the Secretary of Labor and reported to the Director for the appropriate calendar quarter.

(b) *Other than identifiable local government unemployment rate data.* The unemployment rate used to determine quarterly allocations for other than identifiable local governments shall be the unemployment rate of the State adjusted by excluding consideration of unemployment and of the labor force within identifiable local governments, other than county governments, within the jurisdiction of that State, as such data is determined by the Secretary of Labor and reported to the Director. For purposes of intra-State allocations only, the use of other data, including county or balance-of-county data, is authorized in any calendar quarter for which the Secretary of Labor certifies a better unemployment rate to the Director for one (or more) other than identifiable government in a State. The use of other data may also be authorized for purposes of intra-State allocations pursuant to an optional State allocation plan submitted under subpart D of this part.

§ 52.22 Revenue sharing amount.

(a) *State revenue sharing amount.* The State revenue sharing amount is the amount of each State's final allocation of revenue sharing funds as determined by the Director for the one year period beginning on July 1, 1975 (Entitlement Period Six) pursuant to section 107 of the State and Local Fiscal Assistance Act of 1972 (Title I, Pub. L. 92–512).

(b) *Identifiable local government revenue sharing amount.* The local revenue sharing amount for identifiable local governments is the amount of such local governments' final allocation of revenue sharing funds as determined by the Director for the one year period beginning on July 1, 1975 (Entitlement Period Six), pursuant to section 108 of the State and Local Fiscal Assistance Act of 1972 (Title I, Pub. L. 92–512).

(c) *Other than identifiable local government revenue sharing amount.* The local revenue sharing amount for other than identifiable local governments for purposes of the national allocation each calendar quarter to such local governments is the sum of the final allocation of revenue sharing funds for all local governments in a State for the one year period beginning on July 1, 1975, (Entitlement Period Six) as determined by the Director, pursuant to section 108 of the State and Local Fiscal Assistance Act of 1972, (Title I, Pub. L. 92–512), adjusted by excluding an amount equal to the sum of the local revenue sharing amounts of identifiable local governments within the jurisdiction of that State. The local revenue sharing amount for individual other than identifiable local governments for purposes of intra-State allocations is the amount of each such government's final allocation of revenue sharing funds as determined by the Director for the one year period beginning on July 1, 1975 (Entitlement Period Six) pursuant to section 108 of the State and Local Fiscal Assistance Act of 1972 (Title I, Pub. L. 92–512).

§ 52.23 Finalizing Data; Verification of Data.

(a) *Closing unemployment rate data.* Except as provided in paragraphs (c) and (d) of this section, the unemployment rate data reported by the Secretary of Labor to the Director will be closed and final as of the date payments are made to recipient governments each calendar quarter.

(b) *Closing revenue sharing amount data.* Except as provided in paragraphs (c) and (d) of this section, the Director's determination of a recipient government's revenue sharing amount will be closed and final as of the date payments are made each calendar quarter.

(c) *Time limitation for data verification.* A government may file a request for data verification with the Office of Revenue Sharing on the grounds that a processing error (such as a typographical or computer programming mistake) was made in the unemployment rate data or the revenue sharing amount data used for its quarterly allocation, provided such data verification request is received by the Director within 21 days from the date a payment is made to the recipient government for such calendar quarter. Nothing in this section shall effect the entitlement of governments under the State and Local Fiscal Assistance Act of 1972 (Title I, Pub. L. 92–512).

(d) *Adjustments due to governmental reorganizations, etc.* Adjustments to payments due to governmental reorganizations, annexations, boundary alterations, etc., may be made for the calendar quarter during the calendar quarter in which the revenue sharing amount, as defined in § 52.22 of this part, is changed by the Director to reflect such governmental reorganizations, etc. Such adjustment to payments may be made only upon the Director's determination that it is practicable and exceeds $100 in a calendar quarter.

§ 52.24 Termination of eligibility.

(a) *National termination of payments.* Notwithstanding the existence of higher State or local rates of unemployment, or the existence of State or Local excess unemployment percentages, payments will not be made in any calendar quarter if—

(1) the average rate of national unemployment during the most recent calendar quarter which ended three months before the beginning of such calendar quarter did not exceed six percent, or

(2) the rate of national unemployment for the last month of the most recent calendar quarter which ended three months before the beginning of such calendar quarter did not exceed six percent.

(b) *State and local government termination of payments.* Notwithstanding the existence of a rate of national unemployment in excess of six percent no amount will be paid to any State or local government under the Act or this part for any calendar quarter if—

(1) the average rate of unemployment assigned to a State or local government in accordance with the Act during the most recent calendar quarter which ended three months before the beginning of such calendar quarter was less than 4.5 percent, or

(2) the rate of unemployment assigned to a State or local government in accordance with the Act for the last month of the most recent calendar quarter which ended three months before the beginning of such calendar quarter did not exceed 4.5 percent.

§ 52.25 Minimum payment.

If the amount of a quarterly allocation to any local government under the Act is less than $100 in any calendar quarter, then no amount shall be allocated for such local government for that period and such funds will be reallocated to recipient governments within that quarter pursuant to the Act.

§ 52.26 Waiver of payments; nondelivery of checks.

(a) *Waiver.* Any recipient government may waive a payment provided the chief executive officer notifies the Director in writing of its intention to waive and returns the payment to the Director. The waiver shall be accomapnied by a resolution requesting the waiver by the governing body of such government. A waiver of payments shall be effective until revoked by the recipient government and another statement of assurances is filed with the Director pursuant to § 52.10 of this part.

(b) *Nondelivery.* Payments which are returned by the U.S. Postal Service to the Office of Revenue Sharing as being nondeliverable because of incorrect address information or which are unclaimed for any reason, shall be retained by the Director until he determines the payments should be paid to recipient governments in accordance with the Act.

(c) *New units of local government.* A unit of local government which came into existence during a calendar quarter in which payments are made shall first be eligible for a payment in the next succeeding calendar quarter, provided such local government files a statement of assurances, in accordance with § 52.10 of this part, and otherwise qualified for payments. If such unit of local government is a successor government, it shall be eligible to receive the payment of the local governments to which it succeeded in accordance with the conditions of the succession. The Director may determine a revenue sharing amount for such government based on the data available for Entitlement Period Six, July 1, 1975 through June 30, 1976.

(d) *Dissolution of units of local government.* A unit of local government which dissolved, was absorbed or ceased to exist during a calendar quarter in which a payment is received may expend such payments to maintain basic services, provided, (1) the recipient government is in the process of winding up its governmental affairs and (2) continues to provide basic services during this winding up period. When these two conditions are not met by a recipient government, these payments must be transferred to the successor local government with capacity to accept and use such payments. If the recipient does not know the identity of such successor government, the payments must be turned to the Director.

Subpart D—Optional Allocation Plan

§ 52.30 Purpose.

Each State may file an optional allocation plan with the Director to determine the amount to be allocated to other than identifiable local governments within the jurisdiction of such State. The purpose of the plan is to permit States to determine the allocation of payments among local governments other than identifiable local governments in the State. A local government may receive payments under a State plan only if the plan is approved by the Director.

§ 52.31 Time for submitting plan; prerequisites.

(a) *Due date.* A State may submit an optional allocation plan at any time within 30 days of the date these interim regulations are published in the FEDERAL REGISTER. Plans will not be accepted for review by the Director later than 30 days after such date.

(b) *State approval.* The Governor of each State may submit a plan to the Director without the approval of the State legislature only if that State legislature is not scheduled to meet in regular session within three months after the effective date of the Act. Such plan must be in writing and bear the signature of the Governor.

§ 52.32 Requirements for plans.

(a) *Consultation with local officials.* A State plan must be developed in consultation with the chief elected official or the chief executive officer of those local governments receiving payments under the State plan which, in the Governor's reasonable discretion, are representative of such local governments. However, the approval of local government officials is not required in order for a plan to be submitted to the Director. The plan must contain a certification by the Governor of compliance with this consultation requirement.

(b) *Allocation formula criteria.* A State plan must set forth an allocation formula to be used by the Director to allocate payments among the other than identifiable governments within a State utilizing criteria consistent with the following formula: The allocation for an other than identifiable local government shall be the local excess unemployment percentage of the government multiplied by the revenue sharing amount of the government. This product must be divided by the sum of such products for all other than identifiable local governments in the State. This result is multiplied by the total amount set aside for payments to all other than identifiable governments in the State. The local excess unemployment rate percentage is equal to the difference resulting from the subtraction of 4.5 percentage points from the unemployment rate assigned to each local government in the State plan, but shall not be less than zero. The allocation formula criteria must be specified in a State's plan to a level of detail sufficient to enable the Director to determine whether such criteria is in compliance with this part.

(c) *Unemployment rates.* A State plan must utilize the best available local government unemployment rate data, developed in a manner consistent with the methodology used by the United States Department of Labor, Bureau of Labor Statistics, to determine local government unemployment rates under § 203(c) of the Act. If no consistent unemployment rate data is available, the plan may assign to a local government the unemployment rate of the smallest unit of government in which such government is located for which an unemployment rate is available, developed in a manner consistent with Bureau of Labor Statistics methodology. Except as provided in this paragraph, a State plan must utilize the unemployment rate data certified by the Secretary of Labor and reported to the Director. A State plan may use a different unemployment rate for a local government that is located in a county for which the Secretary of Labor has certified and reported to the Director a county or balance-of-county rate if such rate is the best available calculated in a manner consistent with the Bureau of Labor Statistics methodology by the State Employment Security Agency. The State Employment Security Agency shall be responsible for determining which rates have been certified by the Secretary of Labor and reported to the Director. All unemployment rate data used in a State plan other than data certified by the Secretary of Labor must be certified by the State Employment Security Agency to be in accordance with Bureau of Labor Statistics methodology. The data certified by the State Employment Security Agency will be accepted by the Director, unless a processing error is discovered prior to a payment. Further, such State plan shall specify for those individual units of governments for which a specific rate is assigned, and for the balance of the local governments in the State (if applicable), the average rate of unemployment during the most recent calendar quarter which ended three months before the beginning of such calendar quarter, and the rate of unemployment for the last month of the most recent calendar quarter which ended three months before the beginning of such calendar quarter.

(d) *Eligibility.* An optional State allocation plan shall not alter definitions or eligibility of a unit of local government to receive payments under the Act and this part.

§ 52.33 Approval by the Director.

The Director shall make an initial determination whether an allocation plan meets the requirements of the Act and this part within 30 days after he receives an allocation plan containing all information necessary to evaluate such plan. A plan may not be finally disapproved by the Director, in whole or

V41I198 OCT 12 76 UM

in part, without first affording the State or local governments for which a specific unemployment rate is assigned in a plan, reasonable notice and an opportunity for a hearing in accordance with subpart H of this part. There shall be not more than one administrative hearing for each State plan. An initial determination by the Director shall be considered final if an administrative hearing is not requested by a State or a local government with standing within 30 days of receipt of notice of such initial determination.

§ 52.34 Allocations deferred pending plan approval.

No quarterly allocations will be made to any other than identifiable governments in a State which has submitted a plan pending either approval of such plan by the Director or, if the plan is initially disapproved, the outcome of the administrative hearing to determine whether such plan complies with the Act and this part. Payments during the pendency of this administrative process would be impracticable and unreasonable since adjustments to the payments of all or most other than identifiable governments in the State would likely be necessary if a plan is subsequently approved.

§ 52.35 Updating unemployment rates.

The governor of each State submitting an optional State allocation plan that is approved by the Director must submit updated unemployment rates developed in accordance with § 52.32(c) of this subpart, certified by the State Employment Security Agency, for each unit of local government receiving payments under the State plan. These certified updated unemployment rates must be submitted to the Director at least 21 days prior to the beginning of each calendar quarter in which payments are made, in such form and manner as the Director may prescribe. The State Employment Security Agency certification shall certify that the data is developed in accordance with the Bureau of Labor Statistics methodology. The effectiveness of a plan will be suspended for any calendar quarter in which updated unemployment data is not received in accordance with this section. For a quarter in which a plan is suspended, the unemployment rate for other than identifiable governments in the State shall be determined pursuant to § 52.21(b) of this part.

Subpart E—Expenditure Prohibitions and Restrictions

§ 52.40 Permissible expenditures.

(a) *In General.* Each State or unit of local government must use its payments to maintain basic services which have been customarily provided to persons in that State or in the area under the jurisdiction of that local government, as the case may be. Payments should be used for the maintenance of levels of public employment and of basic services within the following governmental expenditure categories: Education, Highways, Public Welfare, Health and Hospitals, Police and Corrections, Fire Protection, Sewerage and Sanitation, Natural Resources, Housing and Urban Renewal, Transportation, Libraries, Financial Administration, General Administration, General Public Buildings, Interest on General Debt, and Parks and Recreation. Payments may not be used to initiate basic services not provided during its last two fiscal years (current and preceding fiscal years).

(b) *Acquisition of supplies, materials, and construction.* State and local governments may use payments for the acquisition of supplies and materials only to the extent that such expenditures are incidental and necessary to the continued provision of a basic service. For example, the purchase of supplies and uniforms may be incidental to the employment of police officers. The expenditure of payments for construction shall be limited to structural repairs or renovations and is permissible only when necessary for the maintenance of a basic service.

§ 52.41 Wage rates and labor standards.

(a) *Construction laborers and mechanics.* All laborers and mechanics employed by contractors on all construction, alteration and repair projects including painting and decorating costing in excess of $2000 and funded in whole or in part with payments under the Act shall be paid wages at rates not less than those prevailing on projects of a character similar to the contract work in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act (40 U.S.C. 276a, 276a–5) and are covered by labor standards specified by the Secretary of Labor pursuant to 29 CFR Parts 1, 3, 5, and 7. The Secretary of Labor shall have, with respect to such labor standards, the authority and functions set forth in Reorganization Plan No. 14 of 1950 (15 FR 3176) and section 2 of the Act of June 13, 1934, as amended (40 U.S.C. 276c).

(b) *Requests for wage determinations.* In situations where the Davis-Bacon Act standards are applicable in accordance with paragraph (a) of this section, the recipient government must ascertain the U.S. Department of Labor wage rate determination for each intended construction project and insure that the wage rates and the contract clauses required by 29 CFR 5.5 and 49 CFR 5a.3 are incorporated in the contract specifications. The recipient government must also satisfy itself that the bidder is aware of his labor standard responsibilities under the Davis-Bacon Act. Wage rate determinations may be obtained by filing a standard Form 308 with the Employment Standards Administration of the applicable regional office of the United States Department of Labor at least 30 days before the invitation for bids, or in the case of construction projects covered by general wage rate determinations, the appropriate wage rate may be obtained from the FEDERAL REGISTER.

(c) *Access to sources of information.* Each recipient government shall permit access by authorized representatives of the Director, the Secretary of Labor, the Comptroller General, and Department of Justice during normal business hours to its facilities, books, records, accounts, personnel, and other sources of information as may be relevant to a determination of whether the recipient government is complying with this section. Where any information required of a recipient government is in the exclusive possession of any other agency, institution, or person, and such agency, institution, or person, fails or refuses to furnish such information, the recipient government shall so certify in its report and shall set forth what efforts it has made to obtain the information.

(d) *Compliance reports.* Each recipient government shall keep such records and submit on request of the Director timely, complete and accurate compliance reports at such times, in such form, and containing such information, as the Director may determine to be necessary or useful to ascertain whether the recipient government has complied or is complying with this section.

§ 52.42 Applicability of State and local law.

Each State or unit of local government must spend payments received under the Act in accordance with the State and local laws and procedures applicable to the expenditure of its own revenues.

§ 52.43 Expenditure time limitation.

Each State or unit of local government must appropriate or obligate payments received under the Act before the end of the six-month period which begins the day following receipt of a payment.

§ 52.44 Applicability of other Federal laws.

Except as otherwise provided in the Act or this part, payments under the Act are not subject to Federal civil laws applicable only to Federally assisted programs or to Federal grants, loans or contracts. The Criminal Code of the United States (title 18, U.S. Code) shall be applicable to all criminal offenses relating to the expenditure, accounting or reporting of payments by a recipient government receiving such payments under the Act or this part.

§ 52.45 Interest bearing accounts.

Recipient governments may deposit their payments in interest bearing accounts. Where payments are held in an interest bearing account, the interest earned on those funds is subject to the expenditure restrictions and prohibitions of the Act and this part.

Subpart F—Nondiscrimination in Funded Programs

§ 52.60 Purpose.

The purpose of this subpart is to implement section 207 of the Act which provides that no person in the United States shall on the ground of race, religion, color, national origin or sex be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity funded in whole or in part with payments made available under the Act.

§ 52.61 Definitions.

Unless the context requires otherwise, as used in this subpart, the term:

(a) "Facility" includes all or any part of structures, equipment, or other real or personal property or interests therein.

(b) "Funded" means that payments have been made available for expenditure in a designated program or activity through action of the appropriate governing body.

(c) "Program or activity" means any function conducted by an identifiable administrative unit of the recipient government, or by any other unit of government or private contractor receiving payments from the recipient government.

§ 52.62 Discrimination prohibited.

(a) *In General.* No person in the United States shall on the ground of race, religion, color, national origin, or sex be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity funded in whole or in part with payments made available pursuant to the Act.

(b) *Specific discriminatory actions prohibited.* (1) A recipient government shall not, under any program or activity to which the regulations of this subpart apply, directly or through contractual or other arrangements on the grounds of race, religion, color, national origin, or sex:

(i) Deny any service or other benefit provided.

(ii) Provide any service or other benefit which is different, or is provided in a different form from that provided to others.

(iii) Subject any person to segregated or separate treatment in any facility or in any matter or process related to receipt of any service or benefit.

(iv) Restrict in any way the enjoyment of any advantage or privilege enjoyed by others receiving any service or benefit.

(v) Treat an individual differently from others in determining whether the individual satisfies any admission, enrollment, eligibility, membership, or other requirement or condition which individuals must meet in order to be provided any service or other benefit.

(vi) Deny any person an opportunity to participate in a program or activity as an employee.

(vii) Deny any person an equal opportunity to participate as appointed members of planning or advisory bodies in connection with the disposition of entitlement funds.

(2) A recipient government may not utilize criteria or methods of administration which have the effect of:

(i) Subjecting individuals to discrimination on the basis of race, religion, color, national origin, or sex.

(ii) Perpetuating the results of past discriminatory practices.

(iii) Defeating or substantially impairing accomplishment of the objectives of the program or activity with respect to individuals of a particular race, religion, color, national origin, or sex.

(3) A recipient government may not, with respect to any program or activity to which this subpart applies, make selections of site or location of facilities which have the effect of excluding individuals from such facilities, denying individuals the benefits of such facilities, or subjecting individuals using the facilities to discrimination on the grounds of race, religion, color, national origin or sex.

(4) Recipient governments are encouraged to take voluntary affirmative action in employment, services and facilities in order to overcome the effects of prior adverse disparate treatment of persons on the basis of race, color, sex, or national origin.

(5) The enumeration of specific forms of prohibited discrimination in this paragraph does not limit the generality of the prohibition in paragraph (a) of this section.

§ 52.63 Employment.

(a) *Employment practices.* In any program or activity funded in whole or in part with payments a recipient government may not (directly or indirectly through contractual or other arrangements) subject any individual to discrimination on the grounds of race, religion, color, national origin, or sex in its employment practices. These practices include recruitment, advertising hiring, layoff, termination, upgrading promotion, demotion, transfer, rates of pay or other forms of compensation, use of facilities and other terms and conditions of employment. The provisions of this subpart shall be interpreted in accordance with the prohibitions, exceptions and court decisions interpreting title VII of the Civil Rights Act of 1964, as amended.

(b) *Employee selection procedures.* The Equal Employment Opportunity Commission, in carrying out its responsibilities in ensuring compliance with title VII of the Civil Rights Act of 1964, as amended, has published Guidelines on Employee Selection Procedures (29 CFR 1607) to assist in establishing and maintaining equal employment opportunities. Among other things, these Guidelines forbid the use of employee selection practices, procedures, and devices (such as tests, minimum educational levels, and the like) which disqualify a disproportionate number of minority persons or women for employment which are not related to job performance. Recipient governments using selection procedures which are not in conformity with the EEOC Guidelines shall, upon request of the Director, set forth the reasons for any such nonconformity and, if necessary, the actions the recipient government is taking or will take to assure that its selection procedures are job related.

(c) *Self-evaluation.* Recipient governments are expected to conduct a continuing program of self-evaluation to ascertain whether any of their recruitment, employee selection, or promotional policies (or lack thereof) directly or indirectly have the effect of denying equal employment opportunities to minority individuals or women.

(d) *Employment compliance reviews.* Compliance reviews of recipient governments will be scheduled by the Director, giving priority to any recipient government program funded with payments which show a significant disparity between the percentage of minority persons or women in the relevant labor pool and the percentage of minority or women employees in the applicable programs.

§ 52.64 Sex discrimination.

(a) *General.* No person shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination in recruitment, hiring, or employment, whether full-time or part-time, under any program or activiy funded in whole or in part with payments under the Act.

(b) *Recruitment and advertisement.*

(1) Recipient governments engaged in recruiting activity must recruit employees of both sexes for all jobs.

(2) Advertisement in newspapers and other media for employment must not express a sex preference: the placement of an advertisement in columns headed "Male" or "Female" will be considered to be discriminatory.

(3) A recipient government shall not recruit primarily or exclusively from sources which furnish as applicants only or predominantly members of one sex if such recruitment has the effect of discriminating on the basis of sex.

(c) *Job policies and practices.*

(1) Employees of both sexes shall have an equal opportunity to any available job that they are qualified to perform.

(2) Recipient governments must not make any distinction based upon sex in employment opportunities, wages, hours or other conditions of employment. It shall be an unlawful employment practice for an employer to have a pension or retirement plan which establishes different optional or compulsory retirement ages based on sex. It shall be a violation of this part for an employer to provide for both unequal benefits and unequal contributions in the areas of insurance, pension or retirement plans, welfare or other fringe benefit programs. Further it shall be a violation of this part for an employer to provide for either unequal benefits or unequal contributions in such areas unless such unequal benefits or unequal contributions are directly related to actuarial differences. Proof of such actuarial differences shall be provided by the recipient government upon the request of the Director. In the areas of insurance, pensions, welfare programs and other fringe benefits, it shall be an unlawful employment practice for a recipient government to make available benefits for the wives and families of male employees where the same benefits are not made available for the husbands and families of female employees; or to make available benefits for the wives of male employees which are not made available for female employees; or to make available benefits to the husbands of female

V41I198 OCT 12 76 UMI

employees, which are not made available for male employees.

(3) Any distinction between married males and married females and any distinction between unmarried males and unmarried females will be considered to be a distinction made on the basis of sex. Similarly, a recipient government must not deny employment to women with young children unless it has the same exclusionary policies for men; or terminate an employee of one sex in a particular job classification upon reaching a certain age unless the same rule is applicable to persons of the opposite sex.

(4) A recipient government may not refuse to hire men or women, or deny men or women a particular job because there are no separate restrooms or other separate facilities. The recipient government's policies and practices must assure that appropriate facilities are available for use by each of the sexes.

(5) Recipient governments may not deny any employee the right to any job, which the employee is qualified to perform, in reliance upon a State "protective" law that does not apply equally to both sexes.

(6) A recipient government shall not:

(i) Classify a job as being for males or for females.

(ii) Maintain or establish separate lines of progression, seniority lists, career ladders, tenure systems, position descriptions or job requirements which are based on sex or which classify persons on the basis of sex.

(d) *Marital or parental status.* In any program or activity funded in whole or in part with payments:

(1) *Family status.* A recipient government shall not treat an employee or applicant for employment differently on the basis of sex in any employment action or policy because of the employee's or applicant's marital status or status as a parent. Such action may also not be taken with respect to pregnancy unless the recipient government can demonstrate that the pregnancy of the individual concerned prevents adequate job performance by that individual. In no event may a recipient government with respect to job policies and practices; have a policy or take an action which benefits a person because of his or her status as head of a household or the principal family wage earner.

(2) *Pregnancy as a temporary disability.* A recipient government shall treat any temporary disability arising from pregnancy, childbirth, false pregnancy, termination of pregnancy, and recovery therefrom in the same manner as it treats any other temporary disability for all job related purposes. The term "job related purposes" includes commencement, duration and extensions of leave, payment of disability income, reinstatement or termination of employment, reinstatement pay rate and position, fringe benefits, accrual of seniority or other benefit of service, and promotion.

(e) *Sex as a bona fide occupational qualification.* Nothing in these regulations shall prohibit the hiring of employees of one sex if sex is a bona fide occupational qualification. A bona fide qualification is only allowed where there is a reasonable factual basis to believe that all, or substantially all, of one sex are unable to perform the job in question. Further, the burden of demonstrating that sex is a bona fide occupational qualification for a given job rests on the recipient government.

§ 52.65 Compliance information and reports.

(a) *Access to sources of information.* Each recipient government shall permit access by authorized representatives of the Director and the Department of Justice during normal business hours to such of its facilities, books, records, accounts, personnel, and other sources of information as may be relevant to a determination of whether the recipient government is complying with this subpart. Where any information required of a recipient government is in the exclusive possession of any other agency, institution, or person, and such agency, institution, or person fails or refuses to furnish this information, the recipient government shall so specify in its report and shall set forth what efforts it has made to obtain the information.

(b) *Compliance reports.* Upon request of the Director, each recipient government shall keep such records and submit to the Director timely, complete and accurate compliance reports at such times, in such form, and containing such information as the Director may determine to be necessary or useful to ascertain whether the recipient government has complied or is complying with this subpart. Recipient governments shall compile and make available on request racial, ethnic, male/female, and national origin data showing the extent to which such persons are or will be beneficiaries of funded programs or activities. When a primary recipient government extends or will extend payments under the Act to any other secondary recipient, such secondary recipient shall submit such compliance reports to the primary recipient as may be necessary or useful to enable the primary recipient to carry out its obligations as a recipient government under this subpart. Each recipient government shall identify, on request, any State or local agency which has been legally authorized to monitor its civil rights compliance activities.

§ 52.66 Complaints and investigations.

(a) *Complaints.* Any person who believes anyone has been subjected to discrimination prohibited by this subpart, may personally, or by a representative, file with the Director a written statement setting forth the nature of the discrimination alleged and the facts upon which the allegation is based. No representative of a recipient government nor any of its agencies shall intimidate, threaten, coerce, or discriminate against any person or class of persons because of testimony, assistance, or participation in an investigation, proceeding or hearing under this subpart.

(b) *Investigations.* The director shall advise the chief executive officer of the recipient government of any complaint received pursuant to paragraph (a) of this section. If the Director has reason to believe that the complaint shows that a recipient government has failed to comply with the provisions of this subpart, he will cause a prompt investigation to be made of the program or activity concerned. Such investigation may be made, if necessary, with the assistance of the complainants, the recipient government, or other Federal or State agencies.

§ 52.67 Compliance reviews and affirmative action.

(a) *Compliance reviews.* The Director shall monitor and determine compliance of recipient governments with the requirements of this subpart and of the Act. Compliance reviews will be undertaken from time to time, as appropriate, at the discretion of the Director.

(b) *Affirmative Action.* Any recipient government which has been determined by the Director to be in violation of this subpart must take reasonable steps to remove or overcome the consequences of such discrimination. The Director will, upon a finding of noncompliance, determine the steps necessary to remedy the noncompliance and will determine a timetable for implementing those steps.

§ 52.68 Procedure for effecting compliance with the nondiscrimination requirement.

(a) *General.* Whenever the Director determines that a recipient government has failed to comply with this subpart he shall, within 10 days, notify the chief elected official of the recipient government of the noncompliance and shall request the official to secure compliance. If within 30 days compliance is not achieved, the Director shall, within 10 days thereafter:

(1) Refer the matter to the Attorney General of the United States with a recommendation that an appropriate civil action be instituted;

(2) Initiate an administrative hearing pursuant to the powers and functions provided by title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d); or

(3) Take such other action as may be provided by law.

(b) *Temporary suspension of payments.* The Director may suspend temporarily any payment to a recipient government 30 days after such government is determined by the Director to be in noncompliance with § 52.62(a) of this subpart. Within this 30 day period a State government or local government may request an expedited preliminary hearing by an administrative law judge in order to determine whether it is likely to prevail on the merits on the issue of alleged noncompliance with § 52.62(a) at the full hearing under paragraph (a)(2) of this section. Payments may not be suspended pending the outcome of the expedited preliminary hearing. A finding under this paragraph by the administrative law judge in favor of the State government or local government shall prevent the suspension of funds pending a ruling on the allegations of noncompliance at the full hearing on the merits. Procedural regulations for the expedited hearing will be published prior to the exercise of this authority by the Director.

(c) *Administrative hearing.* An order of an administrative law judge to withhold, to repay, or to forfeit payments will not become effective until:

(1) There has been an express finding on the record, after notice and opportunity for hearing of a failure to comply with a requirement of this subpart.

(2) At least 10 days have elapsed from the date of the order of the administrative law judge. During this period additional efforts will be made to assist the recipient government to comply with this subpart and to take appropriate corrective action.

(3) Thirty days have elapsed after the Director has filed with the Committee on Government Operations of the House of Representatives and the Committee on Finance of the Senate a full written report of the circumstances and the grounds for such action. The time limitation of subparagraphs (2) and (3) can run concurrently.

(4) The Director has notified the recipient government that, in addition to whatever sanctions have been imposed by the administrative law judge the Director shall withwhold all payments until such time as the recipient government complies with the order of the administrative law judge. Further, the amount of the forfeiture or repayment, if any, will be limited to the program or activity in which the noncompliance has been found. Such funds may be collected by a downward adjustment to future payments, if practical, and will be deposited in the general fund of the Treasury. If the Director determines that adjustment to future payments is not practical he may refer the matter to the Attorney General for appropriate civil action to require payment of such amount to the United States.

(d) *Withholding pursuant to court action.* The Director may immediately withhold a payment to a recipient government pending the entry of an affirmative action order by a Federal court if:

(1) A violation of the nondiscrimination provision of this subpart or the Act (§ 207) was alleged in the complaint before the court;

(2) The court finds that the recipient government has violated the nondiscrimination provision of this subpart or the Act; and

(3) The court has not ruled on the question of withholding.

(e) *Action by Attorney General.* Nothing in these regulations is intended to preclude the United States, in a civil action initiated by the Attorney General of the United States pursuant to section 207 of the Act, from seeking, or a court from granting, an order to require the repayment of payments previously paid under the Act, or an order that further payments be terminated or withheld. In addition, the Director may initiate the procedure provided for in paragraph (a)(2) of this section against a recipient government which has been named as a defendant in such civil action if it is the Director's judgment, after consultation with the Department of Justice, that an administrative withholding of payments is an appropriate measure to ensure compliance with this subpart.

(f) *Applicability of certain civil rights acts:*

(1) Any person who is injured or deprived within the meaning of § 1979 of the Revised Statutes (42 U.S.C. 1983) or of section 1980 of the Revised Statutes (42 U.S.C. 1985) by any person, or two or more persons in the case of such § 1980, in connection with the administration of a payment under the Act may bring a civil action under § 1979 or § 1980, as applicable, subject to the terms and conditions of those sections.

(2) Any person who is aggrieved by an unlawful employment practice within the meaning of title VII of the Civil Rights Act of 1964 (42 U.S.C. 2000e *et seq.*) by any employer in connection with the administration of a payment under the Act may bring a civil action under section 706(F)(1) of such Act (42 U.S.C. 2000e–5(F)(1)) subject to the terms and conditions of such title.

§ 52.69 Hearing procedures.

Whenever a procedure which requires notice and opportunity for a hearing is invoked by the Director to effect compliance under this subpart, the procedural regulations in subpart H of this part shall govern.

§ 52.70 Jurisdiction over property.

The Office of Revenue Sharing shall have jurisdiction over any program or activity for purposes of this subpart for as long as a recipient government retains ownership or possession of any real or personal property or any interest therein, which was purchased in whole or in part with payments for the applicable program or activity. Further, if such property is transferred to another party, the Office of Revenue Sharing will retain jurisdiction over the recipient government for purposes of this subpart for as long as the property is used to provide benefits similar to those which were provided by the property before the transfer.

§ 52.71 Delegation.

The Secretary may assign to officials of the Department, officials of other departments or agencies of the Federal government, or officials of State agencies, responsibilities and authority to effectuate the purposes of this section including the achievement of effective coordination within the executive branch in the implementation of title VI and title VII of the Civil Rights Act of 1964 (42 U.S.C. 2000d; 2000e). Such delegation shall be made only with the consent of the affected departments and agencies, and in no event will the Secretary delegate authority to review the initial decision of an administrative law judge to officials outside the Department.

Subpart G—Fiscal Procedure and Auditing

§ 52.80 Procedures applicable to the use of payments.

A recipient government which receives payments under the Act shall:

(a) Maintain its fiscal accounts in a manner sufficient to—

(1) Permit the reports required by the Director to be prepared therefrom; and

(2) Permit the tracing of payments under the Act to a level of expenditure adequate to establish that such funds have not been used in violation of the restrictions and prohibitions of this part. Such tracing requires that vouchers in support of expenditures funded by the Act must be identified. Such identification can be made in any one of three ways as follows: (i) Maintain a separate set of fund accounts; (ii) Maintain a separate bank account; or (iii) Keep a memorandum record of the voucher numbers and amounts for the expenditures funded by the Act.

The accounting for payments received under the Act shall at a minimum employ the same fiscal accounting and internal audit procedures as are used with respect to expenditures from revenues derived from the recipient government's own sources.

(b) Provide to the Director and to the Comptroller General of the United States, on reasonable notice, access to and the right to examine such books, documents, papers or records as the Director may reasonably require for the purpose of reviewing compliance with the Act and the regulations of this part or, in the case of the Comptroller General, as the Comptroller General may reasonably require for the purpose of reviewing compliance and operations under the Act.

§ 52.81 Auditing and evaluation; scope of audits.

(a) *In general.* The Director shall provide for such auditing and evaluation as may be necessary to insure that recipient governments comply with the requirements of the Act and regulations of this part. Audits, reviews and evaluations may be made on a sample basis through inspection of records, and of reports required under this part, and through on-site examinations, to determine whether the recipient governments have properly discharged their financial responsibilities and to evaluate compliance with the Act and the regulations of this part.

(b) *Scope of audits.* The scope of such audits may include a review of all transactions, accounts and reports which involve payments received under the Act. In addition, the scope of such audits may include an examination of the following areas:

(1) Compliance with assurances made under this part;

(2) Compliance with the reporting requirements and accuracy of the reports submitted to the Director as set forth in this part.

(3) Accuracy of the public records required under this part.

V41 1998 OCT 12 76 UM

(4) Accuracy of the special reports.

(c) *Reliance on State auditors and independent public accountants.* It is the intention of the Director to utilize audits of recipient governments by State auditors and independent public accountants. The Director may adopt the findings of such audits when consistent with the objectives of the Act and regulations of this part, and provided:

(1) Audits are performed in accordance with generally accepted auditing standards. Recipient governments are encouraged to have such audits performed, to the extent they consider practicable, in accordance with standards for the Audit of Governmental Organizations, Programs, Activities and Functions issued by the Comptroller General in June 1972.

(2) Audits include coverage as set forth in paragraph (b) of this section.

(3) Audit workpapers and related audit reports are retained for three years after the issuance of the audit report, and are available upon request to the Secretary and the Comptroller General or to their representatives; and

(4) Audit reports shall contain a clear statement of the auditor's findings as to compliance or noncompliance with the requirements of the Act and the regulations of this part. In the event that an auditor is unable to review compliance with all of the provisions of paragraph (b) of this section, the audit report shall specifically indicate those areas in which a compliance review was not performed. Audit reports which disclose or otherwise indicate a possible failure to comply substantially with any requirements of the Act or the regulations of this part will be submitted to the Director by the Governor or chief executive officer of a local government, or the State auditor which performed the audit.

Subpart H—Proceedings for Reduction in Payments, Withholding, or Repayment

§ 52.90 Incorporation of hearing procedures.

The regulations appearing in §§ 51.80–51.105 of this title (31 CFR Part 51) governing the procedure and practice requirements involving adjudications where reasonable notice and opportunity for hearing are required, are hereby incorporated by reference into this subpart to the extent they are consistent with the Act.

USDA announces new systems of records 44991

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR
	HEW/FDA			HEW/FDA

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

federal register
Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

PROCLAMATION 4467

National Volunteer Firemen Week

By the President of the United States of America

A Proclamation

Throughout America, especially in small towns, communities, and in rural areas, approximately one million volunteer firefighters outnumber fulltime paid firefighters by about four to one.

From the beginning of our Nation's history, they have risked, and often sacrificed, their lives fighting fires in their communities with no expectation of financial reward. This unselfish concern for life and property is a manifestation of the best in the American character.

In recognition of the enormous contributions made by these volunteers, the House (September 21, 1976) and the Senate (October 1, 1976) have requested that the President proclaim the week of October 3, 1976, as National Volunteer Firemen Week (H.J. Res. 1008).

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, do hereby designate the week beginning October 3, 1976, and ending October 9, 1976, as National Volunteer Firemen Week.

As requested by the Congress, I call upon the people of the United States to observe that week with appropriate ceremonies and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this seventh day of October, in the year of our Lord nineteen hundred seventy-six, and of the Independence of the United States of America the two hundred and first.

Gerald R. Ford

V 41 1 1976 OCT 13 76 UMI

PROCLAMATION 4468

Native American Awareness Week, 1976

By the President of the United States of America

A Proclamation

It is especially appropriate during our Bicentennial Year to recall the impressive role played in our society by American Indians, Eskimos, and Aleuts. Native Americans have made notable contributions in education, law, medicine, sports, art, the military, science and literature.

The culture and heritage of our native Americans are unique. In renewing the spirit and determined dedication of the past 200 years we should also join with our native Americans in rebuilding an awareness, understanding and appreciation for their historical role and future participation in our diverse American society. We should do so with the same spirit and dedication which, fostered with reliance on Divine Providence and with firm belief in individual liberty, kindled and made a reality of the hopes for a new life for all who inhabited this land.

In recognition of the importance of the contributions made to our many-cultured society by native Americans, the Senate (September 30, 1976) and the House of Representatives (October 1, 1976) have requested that the President proclaim the week of October 10, 1976, as Native American Awareness Week (S.J. Res. 209).

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, do hereby designate the week beginning October 10, 1976, and ending October 16, 1976, as Native American Awareness Week.

I call upon all the people of the United States to join in observing this week with appropriate ceremonies and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this eighth day of October, in the year of our Lord nineteen hundred seventy-six, and of the Independence of the United States of America the two hundred and first.

Gerald R. Ford

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. Z]

PART 226—TRUTH IN LENDING

Official Staff Interpretations

In accordance with 12 CFR 226.1(d), the Board is publishing the following official staff interpretation of Regulation Z, issued by a duly authorized official of the Office of Saver and Consumer Affairs.

Identifying details have been deleted to the extent required to prevent a clearly unwarranted invasion of personal privacy. The Board maintains and makes available for public inspection and copying a current index providing identifying information for the public subject to certain limitations stated in 12 CFR 261.6.

Official staff interpretations may be reconsidered by the Board upon request of interested parties and in accordance with 12 CFR 226.1(d)(2). Every request for reconsideration should clearly identify the number of the official staff interpretation in question, and should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

These interpretations shall be effective as of October 12, 1976.

Sec. 226.8(b)(3)---	Creditor imposing mortgage guarantee insurance premiums which are computed on declining principal balance and included in periodic payments may utilize Interpretation § 226.806 to disclose repayment schedule.
Sec. 226.806-------	Do.

SEPTEMBER 20, 1976.

This is in response to your letter • • •, regarding Public Information Letter 1021, dated March 26, 1976. In Letter 1021, staff indicated that the amounts of payments disclosed in a realty transaction under § 226.8(b)(3) must reflect the amount of any mortgage guarantee insurance premiums included in the periodic payments. You asked that staff reconsider this position.

Letter 1021 concerns a transaction in which the lender requires mortgage guarantee insurance, the premiums for which constitute a finance charge under § 226.4(a)(7). Because the annual premiums are based on the declining principal balance of the loan and paid along with the periodic payments of principal and interest, there are yearly variations in the amount of payments scheduled, reflecting the annual decrease in the premium due. Staff indicated that the creditor in this case must disclose a single dollar amount reflecting the principal, interest, and mortgage insurance premium and that the proposed disclosure of the amount of principal and interest only, together with a statement of the method of computing the mortgage premium, would not be in compliance with § 226.8(b)(3). However, staff suggested that an alternative disclosure method, similar to that presently permitted by Interpretation § 226.806, might be considered.

In your letter, you questioned staff's interpretation of the requirements of § 226.8(b)(3), which calls for the "amount • • • of payments schedule to repay the indebtedness." You contend that the word "indebtedness" may be read to mean only principal and interest and that the periodic payment disclosure need not reflect other types of periodically imposed finance charges, such as the mortgage guarantee insurance premiums. You also point out the practical problems involved in including all of the periodic payments on the disclosure statement. For example, on a thirty-year mortgage involving the variable mortgage guarantee insurance, a creditor could be required to show thirty different amounts in disclosing the repayment schedule under § 226.8(b)(3).

Staff does not agree that this section may be read as calling for disclosure of only the principal and interest payments. While the Regulation does not define "indebtedness," staff believes that the regulatory context in which that word is used, as well as the purposes of the Truth in Lending Act as a whole, clearly indicates that the repayment schedule should reflect all components of the finance charge, not merely that portion attributable to interest. Thus, staff continues to believe that its prior interpretation of the requirements of § 226.8(b)(3), as stated in Public Information Letter 1021, is correct.

With regard to staff's previous statement that Interpretation § 226.806 would not be available in this situation, however, staff believes upon reconsideration that this interpretation would in fact apply. That interpretation was addressed to the same type of problem as is raised here and would provide the same benefits to consumers and creditors as were originally contemplated in the interpretation. In both cases, a portion of each periodic payment consists of an equal level amount, together with a finance charge computed by application of a percentage rate to the declining balance, producing a series of unequal payments. The interpretation provides that the creditor need not list the respective dollar amount of each payment in order to comply with § 226.8(b)(3), but may, at its option, make the alternative disclosures outlined by that interpretation. It is staff's opinion that this interpretation may be utilized in the situation addressed in Public Information Letter 1021. Of course, if the lender chooses to make use of this option, the exemptions provided in §§ 226.8(b)(3), (c)(8), and (d)(3), regarding disclosure of the total of payments and the finance charge in realty transactions, would not be available.

This is an official staff interpretation of Regulation Z. We trust that it will be of assistance to you.

Sincerely,

JERAULD C. KLUCKMAN,
Assistant Director.

Sec. 226.7(k)-----	Use of debiting date as transaction date for mail order transactions on open end accounts is permissible.

SEPTEMBER 22, 1976.

This is in reply to your letter • • •, raising a question under § 226.7(k)(2)(i) of the Board's recently adopted amendments to Regulation Z regarding identification of transactions on open end credit accounts. You state that your client is considering the sale of consumer products by mail using credit card accounts which will be subject to this provision of Regulation Z. Because you believe that there is no single date readily identifiable as the date on which the transaction takes place, you ask what the date of the transaction for purposes of this section is for mail order transactions. You suggest that the most appropriate date to disclose would be the date on which the amount is debited to the customer's account.

In the normal situation where a customer makes a purchase by use of a credit card, it is staff's view that the date of the transaction for purposes of § 226.7(k) can be readily identified as the date on which the customer presents the card, it is honored, and the sale is completed. However, staff understands that the situation is somewhat different with regard to mail order sales where there is a time lag between the date the customer places the order by mail and the date of delivery by the creditor. There are any number of dates which arguably may be of some relevance to the transaction which takes place. In staff's view, the date the amount is debited to the account is a reasonable date to disclose for purposes of identifying transactions in mail order situations. Therefore, in staff's view, its use would be in compliance with § 226.7(k) of Regulation Z.

I trust this is responsive to your inquiry. This is an official staff interpretation of Regulation Z issued in accordance with § 226.1(d)(3) of the Regulation.

Sincerely,

JERAULD C. KLUCKMAN,
Assistant Director.

Sec. 226.2(x)------	Credit card plan in which customer has privilege of paying in instalments only for individual purchases over $40 satisfies requirement that customer has the privilege of paying balance in full or in instalments.

SEPTEMBER 23, 1976.

This is in response to your letter • • •, in which you requested an official staff interpretation as to whether the Exxon Credit Sale and Revolving Charge Account falls within the § 226.2(x) definition of "open end credit" so that your company, if credit is granted pursuant to such an account in lieu of payment in cash at an established discount not to exceed 5 per cent, may avail itself of and receive the protection afforded

V 41 N 199 OCT 13 76 UMI

by § 226.4(1) of Regulation Z. You have advised us that "the privilege of paying the balance in full or in instalments," one of the conditions contained in the aforesaid definition, is available to all Exxon Credit Sale and Revolving Charge Account credit card holders but that this privilege exists only as to individual purchases of $40 or more. Specifically, you have asked whether this limitation on the privilege to pay in instalments would prevent the plan from being characterized as "open end credit."

Regulation Z defines "open end credit" as "consumer credit extended on an account pursuant to a plan under which (1) the creditor may permit the customer to make purchases or obtain loans, from time to time, directly from the creditor or indirectly by use of a credit card, check, or other device, as the plan may provide; (2) the customer has the privilege of paying the balance in full or in instalments; and (3) a finance charge may be computed by the creditor from time to time on an outstanding unpaid balance." Certain exceptions, not applicable here, follow the above definition.

Staff is in agreement with your opinion that the Exxon Credit Sale and Revolving Charge Account clearly fulfills conditions (1) and (3) as set forth in the above definition. As to whether the plan meets the requirement that the customer have "the privilege of paying the balance in full or in instalments," staff is of the opinion that the plan as you have outlined it also satisfies this condition. Although individual purchases under $40 must be paid in full upon billing, other open end plans specify minimum amounts or balances for which payment is due in full upon billing and for which the customer, therefore, does not have the privilege of paying in instalments. Staff feels that the $40 individual purchase limitation of your plan is similar to the minimum balance limitations in other open end credit plans, the difference being a matter of degree. Therefore, staff feels that the Exxon Credit Sale and Revolving Charge Account can be considered "open end credit" for purposes of the Truth in Lending Act.

This is an official staff interpretation issued in accordance with § 226.1(d) of Regulation Z. I trust that it is responsive to your inquiry.

Sincerely,

JERAULD C. KLUCKMAN,
Assistant Director.

Sec. 226.7(j)------ Card sent to retailer's open end credit cardholders which activates a Christmas deferred billing program is not an "other similar credit device requiring § 226.7(j) disclosures."

SEPTEMBER 24, 1976.

This is in response to your letter * * *, in which you inquire whether a card sent by your retailer client to customers which, when used, activates a Christmas deferred billing program is an "other similar credit device" requiring disclosures under § 226.7(j) of Regulation Z.

You described the program's operation in the following manner: Open end credit cardholders are sent a card which can be used to defer billing on purchases made during November and December. When the card is presented with the customer's credit card during this period, billing for that purchase will be deferred until the customer's February periodic statement, and no finance charges will be assessed on those purchases made under the plan until the March periodic statement.

It is staff's opinion that the card which activates the Christmas deferred billing program which you have described is not a supplemental credit device under § 226.7(j), and disclosures under that section would be unnecessary. Section 226.7(j) is designed to cover, as stated in Public Information Letter 1052 (a copy of which is enclosed), credit devices which, when used, normally activate cash advances to a customer's account. The deferred billing card which you describe is obviously not "a blank check, payee designated check, blank draft or order"; nor is it "similar credit device" under § 226.7(j), as it does not activate a credit plan similar to a cash advance plan normally activated by the preceding designations.

I trust this is responsive to your inquiry. This is an official interpretation of Regulation Z issued in accordance § 226.1(d)(3) and relates solely to the questions presented.

Sincerely,

JERAULD C. KLUCKMAN,
Assistant Director.

Board of Governors of the Federal Reserve System, October 5, 1976.

THEODORE E. ALLISON,
Secretary of the Board.

Title 13—Business Credit and Assistance

CHAPTER I—SMALL BUSINESS ADMINISTRATION

[Rev. 6, Amdt. 10]

PART 120—BUSINESS LOAN POLICY

Loans to Agricultural Enterprises

Pursuant to authority cited below, § 120.2(c) of Part 120 of Chapter I, Title 13 of the Code of Federal Regulations is amended as hereinafter set forth.

Information and effective date. Pub. L. 94-305, approved on June 4, 1976, 90 Stat. 663, et seq., amended various provisions of the Small Business Act and authorized SBA to assist small businesses engaged in farming and related activities under existing programs. In September 1976, a Memorandum of Understanding was entered into between SBA and the United States Department of Agriculture, Farmers Home Administration (FmHA) which set forth the guidelines under which these agencies will operate. This amendment will incorporate the Memorandum of Understanding as part of SBA's rules and regulations.

Since this regulatory amendment will implement the statutory amendment and will publish the Memorandum of Understanding between SBA and FmHA which is not subject to public comment, it is not necessary or appropriate to delay its effective application by soliciting public comment. Interested persons, however, are invited to send comments, in triplicate, to the Associate Administrator for Finance and Investment, Small Business Administration, 1441 "L" Street, NW., Washington, D.C. 20416.

The amendments to § 120.2(c) of Part 120 are herewith adopted as follows:

(1) Revising the caption and adding a new subparagraph (4) to read as follows:

§ 120.2 Business loans and guarantees.

* * * * *

(c) Assurance of repayment, change of ownership, recreational and amusement enterprises, and agricultural enterprises.

* * * * *

(4) *Loans to agricultural enterprises.* Loans to small businesses engaged in farming and related businesses will be made by SBA in accordance with the Memorandum of Understanding entered into between SBA and the United States Department of Agriculture, Farmers Home Administration (FmHA) which is incorporated herein as Appendix "A" to Part 120.

* * * * *

(3) Adding Appendix "A" to Part 120 as follows:

APPENDIX A—MEMORANDUM OF UNDERSTANDING BETWEEN THE SMALL BUSINESS ADMINISTRATION AND THE UNITED STATES DEPARTMENT OF AGRICULTURE, FARMERS HOME ADMINISTRATION

PREAMBLE

Pub. L. 94-305, which amended the Small Business Act, authorized the Small Business Administration (SBA) to assist small businesses engaged in farming and related activities under its existing programs. This legislation did not create any new SBA loan programs but merely included the agricultural industries among the industries eligible for SBA assistance. Neither did the legislation diminish, in any way, the responsibility of the Farmers Home Administration (FmHA) to meet the financial and other needs of farmers.

This joint memorandum reaffirms the mutual desire of SBA and FmHA to cooperate in the use of their respective loan making authorities to complement the activities of each other and, to the extent possible, to improve and expand the delivery of financial assistance to the agricultural production segment of the country; all with the least possible degree of overlapping, confusing or duplicating activities.

GENERAL GUIDELINES

1. The FmHA administers its financial assistance programs through its State, District and County offices.

The SBA administers its financial assistance programs through its Regional, District and Branch offices.

FmHA State Directors and SBA District Directors will exchange addresses of their offices and identify the geographical areas served by each. This information will be available in all field offices of both agencies so applicants can be referred to the appropriate offices. These same officials will make arrangements to inform the personnel within their jurisdictions of the other agency's current loan making and servicing policy so the referral advice given to potential applicants will be as accurate as possible.

2. FmHA and SBA will establish a liaison at both the State Director/District Director level and the National level and periodically coordinate their activities to: (a) Exchange detailed information concerning loan programs, (b) define areas of cooperation between the two agencies, (c) assure that their programs are servicing the intended recipients, (d) establish new methods to serve the public more expeditiously, and (e) achieve maximum utilization of their respective resources.

The SBA and the FmHA agree that the interests of agricultural industries will be best served and that each agency will achieve better utilization of available resources through the following operating guidelines:

3. Potential applicants may contact either agency for an interview but may file an application with only one agency at a time. However, SBA will encourage those potential applicants that have been or are borrowing through the FmHA to continue their relationship with that agency.

4. Potential applicants meeting FmHA eligibility requirements will, at the time of initial interview, be advised by SBA to contact the appropriate FmHA County Office for assistance.

FmHA personnel will, at the time of initial interview, refer potential applicants who are not eligible for FmHA assistance, (such as corporations, partnerships or aliens, applying for certain loans) to SBA if they appear to be eligible for SBA assistance.

5. Potential applicants are not to be referred back and forth between FmHA and SBA. Representatives of each agency must be reasonably certain that the applicant and proposed use of proceeds may be eligible for assistance from the other agency before a referral is made.

6. Neither agency will refuse a loan request from an applicant who prefers to file with that agency.

7. Agricultural applicants filing for financial assistance from either agency will give written permission for FmHA and SBA to exchange whatever prior or current loan application and loan experience information, including appraisals, either may have in its files.

8. Applicants who are denied FmHA assistance for any reason, including lack of FmHA funding, may contact SBA for assistance.

9. Applicants filing for financial assistance from either agency must use the forms and procedures of the agency being requested to provide the assistance. An applicant who is denied assistance by either agency must use a new application to file with the other in accordance with that agency's forms and procedures.

10. Applicants should not have to apply to two Federal agencies to borrow funds for a single purpose. Therefore, if either FmHA or SBA can make the entire loan, the applicant should not be referred to the other agency for part of the funds needed. If either FmHA or SBA cannot make the entire loan, the applicant should be referred to the other agency. Joint funding with shared collateral between the agencies is not encouraged and should be used only as a last resort.

DESCRIPTION OF LENDING POLICIES

11. The FmHA makes guaranteed loans and insured loans. Guaranteed loans are loans where the lending institution advances the entire funds from its account and the FmHA guarantees repayment of a certain percentage of principal and interest. Insured loans are those made from one of FmHA's insurance funds.

The SBA makes guaranteed, immediate participation and direct loans. The guaranteed loans are those where the lending institution advances the entire loan and the SBA agrees to purchase a percentage of the outstanding balance at time of default. Immediate participation loans are those where SBA disburses a percentage of the loan and the lender disburses the remainder from its account. Direct loans are made with SBA funds alone.

FMHA LOAN PROGRAMS FOR FARMERS

12. Operating Loans.

a. *Eligibility.* Be a citizen of the United States.

Be unable to obtain credit elsewhere (exclusive of SBA).

Be the operator of a family farm.

NOTE.—A "family farm" is defined as "one that will produce agricultural commodities for sale in sufficient quantities so that it is recognized as a farm rather than a rural residence; one that will provide substantial income by itself and which together with any other dependable income will enable the family to pay necessary family and other operating expenses, including maintenance of essential chattel and real property and pay debts; and one for which the operator and his immediate family provide the management and are actively engaged in the operation by providing a major amount of the farm and any nonfarm enterprise labor. A reasonable amount of hired labor may be used during seasonal peakload periods."

b. *Loan purposes.* Finance livestock, machinery and operating expenses.

Refinance debts.

Finance non-farm enterprises.

c. *Terms.* Up to seven years with five-year renewal.

Interest rate based on the cost of Treasury borrowings.

d. *Loan limit—$50,000.*

13. Farm Ownership Loans.

a. *Eligibility.* Be a citizen of the United States.

Be unable to obtain the credit from other sources (exclusive of SBA).

Be the owner-operator of a family farm after loan is closed.

b. *Loan purpose.* Buy land.

Construct and repair farm buildings.

Develop land and pollution control measures.

Develop farm irrigation facilities and domestic water supply.

Refinance Debt.

Finance non-farm enterprises.

c. *Terms.* Up to 40 years.

Five (5) percent interest rate.

d. *Loan limits.* $100,000.

Maximum debt on security with other credit is $225,000.

14. Soil and Water Loans.

a. *Eligibility.* Be unable to obtain the credit elsewhere (exclusive of SBA).

Be a farm tenant, owner, partnership or corporation engaged in farming.

b. *Loan purposes.* Develop land and pollution control practices.

Water Development.

Purposes related to soil and water conservation.

c. *Terms.* Up to 40 years.

Five (5) percent interest.

d. *Loan limits.* $100,000.

Maximum debt on security with other credit is $225,000.

15. Recreation Loans.

a. *Eligibility.* Be a citizen of the United States.

Be unable to obtain the credit elsewhere (exclusive of SBA).

Be an individual engaged in farming when the loan is applied for.

b. *Loan purposes.* Convert all or part of the farm to outdoor recreation enterprises.

Acquire land and easements for recreational uses.

Refinance debts.

c. *Terms.* Up to 40 years.

Five (5) percent interest rate.

b. *Loan limits.* $100,000.

Maximum debt on security with other credit is $225,000.

16. Rural Housing.

a. *Eligibility.* Be a U.S. citizen or permanent resident.

Be unable to obtain credit elsewhere (exclusive of SBA).

Be a farmowner without decent, safe and sanitary housing for his own use or the use of tenants, sharecroppers, farm laborers or farm manager.

b. *Loan purpose.* Buy, build or repair dwellings of modest size, design and cost.

c. *Terms.* Up to 33 years.

Interest rate established periodically based on housing money market rate.

d. *Loan limit.* The cost of providing modest, decent, safe and sanitary housing.

17. Business and Industry Loans.

a. *Eligibility.* If an individual, a U.S. Citizen.

A cooperative, corporation, partnership, trust, Indian tribe, or other legal entity.

b. *Loan purpose.* Pollution control measures.

c. *Terms.* Up to 30 years.

Interest rate is negotiated between lender and applicant.

d. *Loan limits.* No statutory dollar limit; determined by cost of project and credit factors.

18. Grazing Association Loans.

a. *Eligibility.* Be a nonprofit association.

Be unable to obtain credit elsewhere (exclusive of SBA).

Provide seasonal grazing for association members.

b. *Loan purposes.* Acquire land for grazing.

Develop land for grazing.

Pollution control measures incidental to other authorized purposes.

c. *Terms.* Up to 40 years.

Five (5) percent interest rate.

d. *Loan limits.* No statutory or regulatory dollar limit—determined by value of security.

19. Irrigation, drainage and soil and water association loans.

a. *Eligibility.* Be an association composed primarily of farmers and other rural residents.

Be unable to obtain credit elsewhere (exclusive of SBA).

Provide a facility to serve farmers and other rural residents within the service area.

b. *Loan purpose.* Install or improve drainage facilities.

Install, repair or enlarge irrigation facilities.

Install or improve soil conservation and water control facilities including pollution abatement.

Special-purpose machinery and equipment.

c. *Terms.* Up to 40 years.

Five (5) percent interest rate.

d. *Loan limit.* No statutory or regulatory dollar limit—determined by value of security.

NOTE.—In addition to the eligibility requirements for specific programs listed above, the following eligibility requirements must be met by all FmHA borrowers:

Have the experience to carry out the proposed operation to be financed.

Have the ambition to carry out the proposed operations.

Have the management ability to carry out the obligations required in connection with the loan.

SBA LOAN PROGRAMS FOR AGRICULTURAL ENTERPRISES

In addition to the specific eligibility factors listed under the following SBA programs, a borrower must be of good character, be an eligible small business under SBA rules and regulations (13 CFR Parts 121 and 122), be organized for profit, and be able to evidence reasonable assurance of ability to repay the loan from the profits of the business. Can be proprietorship, partnership or corporate business organization, and need not be a citizen of the U.S.A.

20. Regular Business Loans—7(a).

a. *Eligibility.* Be eligible under SBA rules and regulations (13 CFR Part 120).

Be unable to obtain the credit from non-Federal sources through utilization of personal resources or otherwise.

V 41 1999 OCT 13 76 UMI

b. *Loan purpose.* Purchase of land and buildings and land improvements (fencing, irrigation systems, etc.) including pollution control facilities essential to the small business.

Construction, renovation or improvement (including water systems) of (i) farm building other than residential buildings or (ii) residential buildings essential to the business if not available from other Federal sources.

Purchase of farm machinery and equipment (appliances and other household contents used for residential purposes are not eligible).

Operating expenses directly related to the farming operation excluding personal or family living expenses.

Refinancing of debt directly related to the farming operation, but excluding personal or family debt.

c. *Terms.* The interest rate on direct and SBA share of immediate participation loans is based on a legislative formula.

The lender's interest rate on immediate participation and guaranty participation loans is established by the lending institution, within SBA policy, but cannot exceed SBA's maximum which is periodically published in the FEDERAL REGISTER.

Maturity of the loans will generally not exceed one year for annual seed, feed, fertilizer and other annual needs, 7 years for that portion of the loan used for working capital, 10 years for that portion of the loan used for livestock and/or farm machinery and equipment, and 20 years for that portion of the loan used for acquisition or construction of real estate. However, all borrowers are expected to repay the loan as soon as possible and these maximum maturities are not automatically available in every case.

SBA loans are generally repaid in even monthly payments of principal and interest. However, quarterly, semiannual, annual or seasonal payments can be arranged when necessary.

d. *Loan limits.* Direct loans have an administrative limit of $150,000.

Immediate participation loans have an administrative limit of $150,000, SBA share. (Both the direct and immediate participation administrative limits can be waved in exceptional situations by SBA's Regional Directors.)

Guaranty participation loans have a limit of $350,000, SBA share, except that in exceptional situations the SBA share can be increased to $500,000.

The limits on a borrower's total indebtedness to SBA on all outstanding loans is (i) the aggregate of direct and the SBA share of immediate participation loans cannot exceed $350,000 and (ii) the aggregate of immediate participation and guaranty participation loans cannot exceed $500,000 at any one time.

21. Economic Opportunity Loans.

a. *Eligibility.* Must be economically or socially disadvantaged.

Meet the eligibility requirements set forth in SBA rules and regulations (13 CFR Parts 119 and 120).

b. *Loan purposes.* Can be used for the same purposes as Regular Business Loans.

c. *Terms.* Interest on direct and SBA share of immediate participation loans is subject to a legislative formula, and is subject to change quarterly.

The lender's interest on immediate and guaranty participation is the same as for regular business loans.

Maturities of these loans are generally restricted to 10 years for working capital other than annual operating expenses and farm machinery and equipment and to the legislative limit of 15 years for real estate purposes. However, no borrower will receive a longer maturity than is necessary for the loan to be repaid from the business income.

d. *Loan limits.* These loans cannot exceed $100,000 SBA share, whether direct, immediate participation or guaranty.

22. Water Pollution Control Loans.

a. *Eligibility.* Meet eligibility requirements set forth in SBA rules and regulations (13 CFR Parts 120 and 123).

Must have a statement from EPA of the necessity and adequacy.

Must show evidence of substantial economic injury.

b. *Loan purposes.* Only to make modifications and changes necessary to meet the Federal standards established under the Federal Water Pollution Control Act or State standards established in compliance with the Federal Water Pollution Control Act.

c. *Terms.* Interest rate same as for Regular Business Loans.

Maturity not to exceed 30 years.

d. *Loan limits.* No dollar limit.

23. Other Substantial Economic Injury Programs.

The SBA has loan authority to aid small businesses that suffer substantial economic injury as a result of a Federal action or Federally directed action, such as Occupational Health and Safety regulations, Air Pollution Control regulations or being displaced by a Federally financed construction project. These programs are more completely described in 13 CFR Part 123.

ADMINISTRATIVE GUIDELINES

24. The services of FmHA and SBA to lenders and applicants are, by mutual agreement, those that each agency would provide any eligible applicant in the normal course of business and there will be no reimbursement by either agency to the other for such services.

25. The National Office of FmHA and the Central Office of SBA will cooperate with each other in counseling their field offices and in resolving problems in specific cases.

26. This Memorandum of Understanding in no way alters or supersedes the existing Memorandums between the two agencies covering their disaster (emergency) loan authority and FmHA's Business and Industrial Loan Program.

27. This Agreement may be amended at any time by written agreement of both parties.

28. This agreement shall take effect upon the date of execution thereof.

Dated: September 2, 1976.

MITCHELL P. KOBELINSKI,
Administrator, SBA.

Dated: September 20, 1976.

FRANK B. ELLIOTT,
Administrator, FmHA.

In view of the fact that this amendment carries out the statutory mandate of Pub. L. 94-305, and pursuant to the authority granted by section 5(b)(6) of the Small Business Act, 15 U.S.C. 634, the amendment set forth above is effective June 4, 1976.

(Catalog of Federal Domestic Assistance Programs No. 59, 012, Small Business Loans.)

Dated: October 4, 1976.

MITCHELL P. KOBELINSKI,
Administrator.

[FR Doc.76-29957 Filed 10-12-76;8:45 am]

Title 38—Pensions, Bonuses and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 36—LOAN GUARANTY

Liberalization of Loan Eligibility Increase of Direct Loan Maximum

The Veterans Administration is amending the appropriate sections of part 36, Title 38 of the Code of Federal Regulations to implement those sections of the Veterans Housing Amendments Act of 1976 (Pub. L. 94-324; 90 Stat. 720), which make substantive changes in the Veterans Administration loan guaranty program effective October 1, 1976.

Section 2(a) of Pub. L. 94-324 declares that veterans whose only active duty service occurred after July 25, 1947, and prior to June 27, 1950 are now eligible for Veterans Administration loan guaranty benefits. The amendments to §§ 36.4301 (gg) and 36.4501(o) of this title will implement the statutory revisions.

The Administrator is now authorized to make direct loans at the maximum amount of $33,000. The amendments to §§ 36.4502, 36.4503(a), 36.4509(b) and 36.4511(a) of this title will implement the statutory revision by increasing the direct loan maximum to $33,000.

Pub. L. 93-383 (88 Stat. 728), entitled the Housing and Community Development Act of 1974, prohibits discrimination based upon sex in various housing transactions including those related to federally related mortgage loans. A federally related mortgage loan is defined to include loans secured by one to four family residential real property and which are made, insured, guaranteed or assisted by any federal agency. Since the definition applies to VA direct loans, § 36.4510(d) is appropriately amended.

In addition minor editorial changes have been made in §§ 36.4509(a) and 36.4510(b)(3) to reflect agency policy of using precise terms to denote gender.

Compliance with the provisions of § 1.12 of this chapter is waived in this instance. The substantive changes implement statutory mandates. Those changes not required by statute are editorial rather than substantive. Compliance with § 1.12 would serve little purpose and would not be in the public interest.

The economic and inflationary impacts have been evaluated in accordance with OMB Circular A-107.

1. In § 36.4301, paragraph (gg) is revised to read as follows:

§ 36.4301 Definitions.

Wherever used in 38 U.S.C. ch. 37 or §§ 36.4300 to 36.4375, inclusive, and § 36.4390 through 36.4393, unless the context otherwise requires, the terms defined in this section shall have the meaning herein stated, namely:

• • • • • •

(gg) *A period of more than 180 days.* For the purposes of sections 1807 and 1818 of title 38, United States Code, the term "a period of more than 180 days" shall mean 181 or more calendar days of continuous active duty.

• • • • • •

2. In § 36.4501, paragraph (o) is revised to read as follows:

§ 36.4501 Definitions.

Wherever used in 38 U.S.C. 1811 or the regulations concerning direct loans to veterans, unless the context otherwise requires, the terms defined in this section shall have the meaning herein stated, namely:

• • • • • •

(o) *A period of more than 180 days.* For the purposes of sections 1807 and 1818 of title 38, United States Code, the term "a period of more than 180 days" shall mean 181 or more calendar days of continuous active duty.

3. Section 36.4502 is revised to read as follows:

§ 36.4502 Use of guaranty entitlement.

The guaranty entitlement of the veteran obtaining a direct loan which is closed on or after October 1, 1976, shall be charged with an amount which bears the same ratio to $17,500 as the amount of the loan bears to $33,000. The charge against the entitlement of a veteran who obtained a direct loan which was closed prior to the aforesaid date shall be the amount which would have been charged had the loan been closed subsequent to such date.

4. In § 36.4503, paragraph (a) is revised to read as follows:

§ 36.4503 Amount and amortization.

(a) The original principal amount of any loan made on or after October 1, 1976, shall not exceed an amount which bears the same ratio to $33,000 as the amount of the guaranty to which the veteran is entitled under 38 U.S.C. 1810 at the time the loan is made bears to $17,500. This limitation shall not preclude the making of advances, otherwise proper, subsequent to the making of the loan pursuant to the provisions of § 36.4511. Loans made by the Veterans Administration shall bear interest at the rate of 8½ percent per annum.

• • • • • •

5. Section 36.4509 is revised to read as follows:

§ 36.4509 Joint loans.

(a) No loan will be made unless an eligible veteran is the sole principal obligor, or such veteran and spouse are the principal obligors thereon, nor unless such veteran alone, or together with a spouse, acquire the entire fee simple or other permissible estate in the realty for the acquisition of which the loan was obtained. Nothing in this section shall preclude other parties from becoming liable as comaker, endorser, guarantor, or surety.

(b) Notwithstanding that an applicant and spouse are both eligible veterans and will be jointly and severally liable as borrowers, the original principal amount of the loan may not exceed the maximum permissible under § 36.4503(a). In any event the loan may not exceed $33,000.

6. In § 36.4510, paragraphs (b)(3) and (d) are revised to read as follows:

§ 36.4510 Prepayment, acceleration, and liquidation.

• • • • • •

(b) The Veterans Administration shall include in the instruments evidencing or securing the indebtedness provisions relating to the following:

• • • • • •

(3) The right of the Veterans Administration to foreclose or otherwise proceed to liquidate or acquire property which is the security for the loan in the event of the borrower's delinquency in the repayment of the obligation or in the event of default in any other provisions of the loan contract.

• • • • • •

(d) If, subsequent to the closing of the loan, title to the property which is security for such loan is restricted against sale or occupancy on the ground of race, color, religion, sex or national origin, by restrictions created and filed of record by the borrower, such action, at the election of the Veterans Administration, shall constitute an event of default entitling the Veterans Administration to declare the unpaid balance of the loan immediately due and payable.

7. In § 36.4511, paragraph (a) is revised to read as follows:

§ 36.4511 Advances after loan closing.

(a) The Veterans Administration may at any time advance any sum or sums as are reasonably necessary and proper for the maintenance, repair, alteration, or improvement of the security for a loan or for the payment of taxes, assessments, ground or water rights, or casualty insurance thereon: *Provided*, That no advance shall be made for alterations or improvements which are not necessary for the maintenance or repair of the security if such advance will increase the indebtedness to an amount in excess of $33,000.

• • • • • •

Effective date: Sections 36.4301(gg), 36.4501(o), 36.4502, 36.4503(a), 36.4509 (b) and 36.4511(a) are effective October 1, 1976. Section 36.4510(d) is effective October 6, 1976.

Approved: October 6, 1976.

By direction of the Administrator.

ODELL W. VAUGHN,
Deputy Administrator.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

[FRL 629-8]

PART 60—STANDARDS OF PERFORMANCE FOR STATIONARY SOURCES

PART 61—NATIONAL EMISSION STANDARDS FOR HAZARDOUS AIR POLLUTANTS

Delegation of Authority to State of North Dakota

Pursuant to the delegation of authority for the standards of performance for new sources (NSPS) and national emission standards for hazardous air pollutants (NESHAPS) to the State of North Dakota on August 30, 1976, EPA is today amending respectively 40 CFR 60.4 and 61.04 Address, to reflect this delegation. A notice announcing this delegation is published today in the notices section. The amended §§ 60.4 and 61.04 which add the address of the North Dakota State Department of Health to which all reports, requests, applications, submittals, and communications to the Administrator pursuant to these parts must also be addressed, are set forth below.

The Administrator finds good cause for foregoing prior public notice and for making this rulemaking effective immediately in that it is an administrative change and not one of substantive content. No additional substantive burdens are imposed on the parties affected. The delegation which is reflected by this administrative amendment was effective on August 30, 1976, and it serves no purpose to delay the technical change of this addition to the State address to the Code of Federal Regulations.

This rulemaking is effective immediately, and is issued under the authority of sections 111 and 112 of the Clean Air Act, as amended, (42 U.S.C. 1857c-6 and -7).

Dated: October 1, 1976.

JOHN A. GREEN,
Regional Administrator.

Parts 60 and 61 of Chapter I, Title 40 of the Code of Federal Regulations are respectively amended as follows:

1. In § 60.4, paragraph (b) is amended by revising subparagraph (JJ) to read as follows:

§ 60.4 Address.

• • • • • •

(b) • • •

(A)-(Z) • • •

Title 45—Public Welfare

CHAPTER I—OFFICE OF EDUCATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 196—DOMESTIC MINING AND MINERAL FUEL CONSERVATION FELLOWSHIPS

Miscellaneous Corrections

In the FEDERAL REGISTER, Volume 41, No. 137, 41 FR 29123, in the issue of Thursday, July 15, 1976, references to certain sections within the regulation were incorrect. Sections 196.3, 196.5, 196.12, and 196.13 of that document are corrected to read as follows:

On page 29123, § 196.3 *Award procedures.* In the 8th line, the reference to "§ 196.12" is changed to "§ 196.11."

On page 29124, § 196.5 *Eligibility for fellowships.* In the fourth line of paragraph (b), the reference to section "§ 196.15" is changed to "§ 196.14."

On page 29124, § 196.12 *Reaward of vacated fellowships.* In the 8th line, the reference to "§ 196.6" is changed to "§ 196.5."

On page 29124, § 196.13 *Payment procedures.* In the fifth and sixth lines of paragraph (a), the references to "§§ 196.8, 196.9, 196.10, and 196.11" are changed to "§§ 196.7, 196.8, 196.9, and 196.10."

Dated: October 1, 1976.

(Catalog of Federal Domestic Assistance No. 13.567, Mining and Mineral Fuel Conversation Fellowship Program.)

CHAPTER X—COMMUNITY SERVICES ADMINISTRATION

PARTS 1005 THROUGH 1078

Revision of Part Titles

In order to facilitate the use of the FEDERAL REGISTER and the Code of Federal Regulations by the public in determining the rules, regulations, and guidelines published by the Community Services Administration (CSA), the Agency is revising the titles of eleven of the seventeen Parts in Chapter X. The title revisions do not affect the content of any current or future regulations. The revisions are meant to accomplish the following: (1) they reflect CSA as the successor authority to the Office of Economic Opportunity; (2) the term "Grantee" replaces "Community Action Program" in Parts 1060, 1061, 1067, 1068, and 1069 thus enabling the Agency to publish regulations in each of these subject areas which affect all CSA-funded grantees regardless of funding authority and not only Community Action Agencies; (3) Part 1070 is renamed to accurately reflect the subjects of the regulations currently published under this Part; and Parts 1075 and 1078 are retitled to delete two subject areas—research and pilot programs and policy. (Special Parts for these categories are not required as the existing Parts having been retitled now will accommodate regulations relating to these areas.) In addition the one regulation currently published under Part 1010 will become Subpart A and titled Nondiscrimination in Federally-assisted programs of the Office of Economic Opportunity—effectuation of Title VI of the Civil Rights Act of 1964.

(Sec. 602, 78 Stat. 530; 42 U.S.C. 2942.)

Effective date: October 13, 1976.

HAZEL ROLLINS,
General Counsel.

45 CFR Chapter X is amended by revising the index of Parts to read as follows:

Part
1005 Freedom of Information Act regulations.
1006 Privacy Act regulations.
1010 Civil Rights regulations.
1012 General administration and management committees.
1015 Standards of conduct for employees.
1026 Contracts and Administration.
1060 General characteristics of CSA-funded programs.
1061 Character and scope of specific programs.
1062 Establishments and eligibility of Community Action Programs.
1067 Funding of CSA grantees.
1068 Grantee financial management.
1069 Grantee personnel management.
1070 Grantee public affairs.
1071 Grantee property administration.
1075 State Economic Opportunity Offices.
1076 Economic Development Programs.
1078 Evaluation.

[FR Doc.76–30086 Filed 10–12–76;8:45 am]

PART 1042—ASSIGNMENT, PLACEMENT, TRANSFER, AND SUPERVISION OF VISTA VOLUNTEERS

PART 1050—VISTA PROGRAMS AND PROJECT MANAGEMENT

Deletion of Parts

EDITORIAL NOTE: The Office of the Federal Register has received a letter from the Office of Operations of the Community Services Administration, in which it is stated that the regulations presently codified as Parts 1042 and 1050 are legally void. The letter requests the deletion of the regulations from the CFR chapter administered by the Community Services Administration.

The basis for the Community Services Administraton request is the National Volunteer Antipoverty Programs Act of 1973 (Pub. L. 93–113). The Act entrusts the administration of these regulations to the Director of ACTION. Acting under the authority (Secs. 104(b), 402(14), 415(d), 419, and 420 of Pub. L. 93–113, 87 Stat. 398, 407, 412, 413, and 414) the Director of ACTION has promulgated regulations as 45 CFR Part 1217 (40 FR 44203, Dec. 23, 1974), Part 1218 (40 FR 43725, Dec. 18, 1974), Part 1219 (40 FR 42915, Dec. 9, 1974) and Part 1220 (40 FR 28880, July 9, 1975). The effect of these publications is to make obsolete the regulations in 45 CFR Parts 1042 and 1050.

Therefore, pursuant to 1 CFR 8.2, Parts 1042 and 1050 of Chapter X of Title 45, Code of Federal Regulations are deleted.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Reg. 547, Amdt. 1]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation increases the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period October 1–7, 1976. The quantity that may be shipped is increased due to improved market conditions for California-Arizona Valencia oranges. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674) and upon the basis of the recommendation and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of oranges available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Valencia Orange Regulation 547 (41 FR 43154). The marketing picture now indicates that there is a greater demand for Valencia oranges than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of Valencia oranges to fill the current demand thereby making a greater quantity of Valencia oranges available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication

thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restrictions on the handling of Valencia oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b)(1) (i) and (iii) of § 908.847 (Valencia Orange Regulation 547 (41 FR 43154)) are hereby amended to read as follows:

§ 908.847 Valencia Orange Regulation 547.

• • • • • •

(b) • • •
(1) • • •
(i) District 1: 427,000 cartons;
(ii) District 2: 523,000 cartons.

• • • • • •

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674).)

Dated: October 6, 1976.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76–29939 Filed 10–12–76;8:45 am]

[Avocado Reg. 18, Amdt. 3]

PART 915—AVOCADOS GROWN IN SOUTH FLORIDA

Maturity Requirements

This amendment revises the maturity requirements for the Lula variety of avocados. Lula avocados can be shipped one week earlier on October 11 at a lower minimum weight or smaller diameter. Currently, Lula avocados cannot be shipped prior to October 18 at specified minimum weights or diameters. Recently completed maturity studies on this variety indicate it will be mature at the hereinafter specified dates, minimum weights, or diameters. Weight or diameter and picking dates, are indices used at harvest to assure that avocados are mature and will ripen satisfactorily after picking.

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 915, as amended (7 CFR Part 915), regulating the handling of avocados grown in South Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation of the Avocado Administrative Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the maturity requirements for the handling of avocados, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for the amendment stems from the current avocado crop maturity situation. Maturity studies on the specified variety completed recently indicate that avocados of such variety will be mature at the hereinafter specified dates, minimum weights, or diameters.

(3) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restrictions on the handling of the specified variety of avocados.

Order. (1) The provisions of paragraph (a)(2) of § 915.318 (Avocado Regulation 18; 41 F.R. 21336; 34973; 43154) are amended by revising in Table I the dates, minimum weights or diameters applicable to the Lula variety so after such revision the portion of Table I relating to Lula avocados reads as follows:

§ 915.318 Avocado Regulation 18.

(a)(1) • • •

Variety	Date	Minimum weight or diameter	Date	Minimum weight or diameter	Date	Minimum weight or diameter	Date
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
Lula	Oct. 11, 1976	16 oz., 3⅝ in.	Nov. 1, 1976	14 oz., 3⅝ in.	Nov. 15, 1976		

• • • • • •

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674).)

Dated, October 7, 1976, to become effective October 11, 1976.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76–30013 Filed 10–12–76;8:45 am]

Title 15—Commerce and Foreign Trade

CHAPTER III—DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION, DEPARTMENT OF COMMERCE

SUBCHAPTER B—EXPORT ADMINISTRATION REGULATIONS

PART 369—RESTRICTIVE TRADE PRACTICES OR BOYCOTTS

Boycott Related Reports, Availability

Pursuant to a Presidential Directive dated October 7, 1976, a copy of which is appended hereto, the Department of Commerce will commence public disclosure of reports regarding boycott-related requests received by American companies on or after October 7, 1976.

Only business proprietary information regarding the quantity, value, commodity and the identity of the consignee, the release of which could place reporting firms at a competitive disadvantage, will not be made publicly available, when confidential treatment is requested by the reporting firm, pursuant to applicable provisions of the Freedom of Information Act, as amended (5 U.S.C. 552).

Boycott request reporting forms DIB–630P (Rev. 2–76) and DIB–621P (Rev. 2–76) and § 369.4 of the Export Administration Regulations are presently under review and will be revised in the near future other than changes made or announced herein. In the interim, reporting firms requesting confidential treatment for proprietary information must submit duplicate report forms DIB–630P (Rev. 2–76) or DIB–621P (Rev. 2–76) as appropriate. One report form must contain all the information required on the form except information on the quantity, value, commodity and the identity of the consignee for which confidential treatment is requested. The second boycott report form covering the same boycott-related request should contain the name of the reporting firm and the information excluded from the first form.

FORMS AMENDED:

That part of section "C" of forms DIB–630P (Rev. 2–76) and DIB–621P (Rev. 2–76) which reads, "CONFIDENTIAL Information furnished herewith is deemed confidential and will not be published or disclosed except as specified in Section 7(c) of the Export Administration Act of 1969 as amended (50 U.S.C. App. 2406(c))" is deleted.

Section 369.4 of the Export Administration Regulations (15 CFR 369.4) is amended as follows:

1. The fourth sentence which reads "The information contained in these reports is subject to the provisions of Section 7(c) of the Export Administration Act of 1969 regarding confidentiality" is deleted.

2. A new § 369.4(c) is added as follows:

§ 369.4 Reporting requirements.

• • • • • •

(c) *Disclosure of Information.* Forms DIB–630P (Rev. 2–76) and DIB–621P (Rev. 2–76) reporting the receipt of a restrictive trade practice request which was received by the reporting firm on or after October 7, 1976, shall be made available to the public for inspection and copying, except that information relating to quantity, value, commodity and the identity of the consignee, will be withheld pursuant to applicable provisions of the Freedom of Information Act, as amended (5 U.S.C. § 552), if the reporting firm so requests on the basis that disclosure of this information could place reporting firms at a competitive disadvantage. Reporting firms requesting confidential treatment for proprietary information must submit report forms DIB–630P

V41 I199 OCT 13 76 UMI

(Rev. 2–76) or DIB–621P (Rev. 2–76) as appropriate. One report form must contain all the information required on the form except information on the quantity, value, commodity and the identity of the consignee for which confidential treatment is requested. The second boycott report form covering the same boycott-related request should contain the name of the reporting firm and the information excluded from the first form. The boycott report form which excludes information for which confidential treatment is requested will be available for public inspection and copying in the DIBA Freedom of Information Record Inspection Facility, Room 3100, Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

Notice and public procedure in the formulation of this regulation are impracticable, unnecessary, and contrary to the public interest. In order to make the information available to the public at the earliest possible date, this regulation is effective October 7, 1976.

Since reporting firms have 15 days after receipt of a boycott-related request to file a single transaction report with the Department of Commerce, boycott reports are not expected to be available for inspection before October 25.

(Sec. 2, E.O. 11940, September 30, 1976, 41 FR 43707.)

Effective date of action: October 7, 1976.

RAUER H. MEYER,
Director, Office of Export Administration.

THE WHITE HOUSE,
Washington,
October 7, 1976.

MEMORANDUM FOR THE SECRETARY OF COMMERCE

Would you please assure that the Department of Commerce takes steps to permit the public inspection and copying of boycott-related reports to be filed in the future with the Department of Commerce. Only business proprietary information regarding such things as quantity and type of goods exported, the release of which could place reporting firms at a competitive disadvantage, should not be made available to the public.

During the past year, there has been a growing interest in and awareness of the impact of the Arab Boycott on American business. Disclosure of boycott-related reports will enable the American public to assess for itself the nature and impact of the Arab Boycott and to monitor the conduct of American companies.

I have concluded that this public disclosure will strengthen existing policy against the Arab Boycott of Israel without jeopardizing our vital interests in the Middle East. The action I am directing today should serve as a reaffirmation of our national policy of opposition to boycott actions against nations friendly to us.

GERALD R. FORD

[FR Doc.76–30174 Filed 10–8–76;5:29 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 259]

[Release No. 35–19705; File No. S7–656]

ANNUAL REPORTS FOR PUBLIC UTILITY HOLDING COMPANIES

Proposed Amendments to Form

The Commission today invited public comments on proposed amendments to annual report Form U5S (17 CFR 259.5s) filed under the Public Utility Holding Company Act of 1935 ("1935 Act") pursuant to Rule 1(c) (17 CFR 250.1(c)) of the rules and regulations under the 1935 Act. If adopted, registered holding companies and their subsidiaries will be required to file annual reports in conformity with Form 10–K (17 CFR 249.310) under the Securities Exchange Act of 1934 ("1934 Act"), in addition to a modified Form U5S required for regulatory purposes under the 1935 Act.

BACKGROUND

STATUTORY AND OTHER PROVISIONS FOR SUBSTITUTE REPORTS

Section 14 of the 1935 Act authorizes the Commission to prescribe the form in which information required pursuant to the continuous disclosure provisions of that Act shall be set forth. The Commission promulgated Rule 1(c), which requires every holding company registered under section 5 of the 1935 Act of file an annual report on Form U5S on behalf of itself and its subsidiaries. The annual report is intended to supplement and keep current information contained in each holding company's registration statement filed on Form U5B (17 CFR 259.5b). Form U5S is primarily designed to meet the regulatory requirements of the 1935 Act. It requires a substantial volume of detailed information about subsidiaries, regardless of size, and data relating to the particular requirements of the 1935 Act. Fourteen holding companies, with consolidated assets at December 31, 1975, of $37.9 billion, currently file Form U5S.

On September 3, 1976 (Release No. 34–12769) (41 FR 39048), the Commission invited public comments on a proposal to rescind the annual report Form 12–K and to amend and revoke provisions of Rules 13, 14 and 15 (17 CFR 240.13, 17 CFR 240.14, 17 CFR 240.15) under the 1934 Act. That proposal, if adopted, will no longer permit issuers registered under section 12 of the 1934 Act to file copies of annual and other periodic reports submitted to other federal regulatory commissions as exhibits to Form 12–K and in lieu of the information specified in quarterly report Form 10–Q (17 CFR 249.308a). Instead, such issuers will be required to file annual reports on Form 10–K and quarterly reports on Form 10–Q.

Holding companies registered under the 1935 Act and their subsidiaries are similarly now excused from filing the separate annual report on Form 10–K, although they are subject to the quarterly reporting requirements of Form 10–Q. Form U5S is directed primarily to the regulatory purposes of the 1935 Act and, like the annual reports filed with other federal regulatory agencies, is not an adequate substitute for the report, on Form 10–K, which is directed to meet investors' needs under the 1934 Act. The reasons discussed at length in our proposal to rescind Form 12–K apply also to those public utility companies that file regulatory reports with this Commission under the 1935 Act.

The amendments to Form U5S proposed herein will be effected by deleting references to sections 13 and 15(d) of the 1934 Act and by making other necessary modifications. In addition, certain items of disclosure now required by Form U5S, which would repeat information reported in Form 10–K, will be eliminated. Appropriate changes will be made in the numbering of Form U5S to reflect the deletions.

OPERATION OF PROPOSAL

Registered holding companies and their subsidiaries now reporting on Form U5S in lieu of filing Form 10–K may continue to do so pending the adoption of the amendments proposed herein and in the Commission's release of September 3, 1976, which proposes the rescission of Form 12–K. The proposal herein is limited to modifications of Form U5S; no amendment to Rule 1(c) or any other Commission rule or regulation is necessary. No other reporting requirement generally applicable to registered holding companies and their subsidiaries, other than the annual reporting requirements of Form 10–K, will be affected by the proposed amendments to Form U5S.

The Commission hereby proposes for comment proposed amendments to Form U5S pursuant to sections 5(c) and 20(a) of the 1935 Act.

All interested persons are invited to submit their written views and comments on the foregoing proposals, in triplicate, to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Washington, D.C. 20549, on or before November 1, 1976. Such communications should refer to File S7–656 and will be available for public inspection. The text of the proposed amendments is set forth below.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

OCTOBER 5, 1976.

TEXT OF PROPOSED AMENDMENTS TO FORM U5S

Section 259.5s Form U5S, for annual reports filed under Section 5(c) of the Act, is proposed to be amended in the following manner.

1. The portion of the facing sheet referring to a filing pursuant to sections 13 or 15(d) of the Securities Exchange Act of 1934 shall be deleted.

2. General instructions 1(b) and 2(b) and the last sentence of instruction 2(c) shall be deleted. Instruction 1(a) shall be renumbered as instruction 1 and instructions 2(c) to 2(f) inclusive shall be renumbered as instructions 2(b) to 2(e).

3. Item 2, "Securities Registered on Exchanges," shall be deleted. The other items will not be renumbered at this time.

4. Item 8(b), "Holders of Capital Stock," shall be deleted and Item 8(a) renumbered as Item 8.

5. The clause "and under the Securities Exchange Act of 1934" shall be deleted from the instruction to Item 13.

6. The second sentence of instruction 1(b), of the Instructions as to Financial Statements, which now reads:

The individual corporate and consolidated statements included in the consolidating statements, of the top registered holding company and of each other system company filing this report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 shall be audited in accordance with Regulation S–X.

will be amended to read:

The individual corporate and consolidated statements included in the consolidating statements with respect to those members of the system that file annual reports on Form 10–K shall correspond to the financial statements so filed on Form 10–K.

7. The clause "except in the case of a system company filing this report pursuant to section 13 or 15(d) of the Securities Exchange Act of 1934" shall be deleted from the fourth sentence of said instruction 1(b).

8. Instruction 1(c) of the Instructions as to Financial Statements shall be amended to read:

(c) There shall be included with the financial statements for each member company the schedules specified in Rule 5–04 of Regulation S–X, to the extent required by that regulation, except Schedules II,

V41 I199 OCT 13 76 UMI

III, IV, X, XVII, XVIII and XIX provided that any schedule of a subsidiary company may be omitted if the information required is included and separately identified in the consolidated schedules of its parent, or elsewhere in the financial statements or in the answers to any of the items of the Form.

Any required schedule may be incorporated by reference to any prior filing under any act administered by the Commission, to the extent permitted by Rule 24 (17 CFR 201.24) of the Commission's rules of practice. If the information required in any schedule of any system company is contained in any schedule or schedules of such company's report to the Federal Power Commission, duplicates of such schedules with appropriate references may be used to satisfy the requirements of this form.

9. Instruction 2 of the Instructions as to Exhibits shall be deleted.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Secretary

[30 CFR Part 11]

RESPIRATORY PROTECTIVE DEVICES

Proposed Amendments

CROSS REFERENCE: For a document dealing with this subject matter, see FR Doc. 76-29845, published under the Department of the Interior/Mining Enforcement and Safety Administration, in the proposed rule section of this issue.

DEPARTMENT OF THE INTERIOR

Mining Enforcement and Safety Administration

[30 CFR Part 11].

RESPIRATORY PROTECTIVE DEVICES

Proposed Amendments

The Secretary of the Interior, through the Mining Enforcement and Safety Administration (MESA), and the Secretary of Health, Education, and Welfare, through the National Institute for Occupational Safety and Health (NIOSH), Center for Disease Control, conduct a testing and approval program for respirators used in occupationally hazardous atmospheres pursuant to regulations contained in 30 CFR Part 11 issued jointly by the Secretaries (37 FR 6244). Respirators approved under Part 11 are required to be used where necessary in workplaces in accordance with applicable MESA and Occupational Safety and Health Administration (OSHA) standards and regulations.

Notice is hereby given that the Secretaries propose new amendments to Part 11 as set forth below. Specifically, these amendments would (1) clarify the use of gas masks and chemical-cartridge respirators against gases and vapors with poor warning properties, (2) permit the use of Type A supplied-air respirators only in atmospheres not immediately dangerous to life or health, (3) provide new performance requirements for the approval of single-use gas and vapor chemical-cartridge respirators that are equivalent to the present performance requirements for chemical-cartridge respirators, (4) revise performance requirements for vinyl chloride chemical-cartridge respirators by reducing minimum service life from 2 hours to 90 minutes, and (5) provide for approval of single-use vinyl chloride respirators with performance requirements equivalent to the present performance requirements for vinyl chloride chemical-cartridge respirators. For the purposes of this amendment, a single-use gas and vapor chemical-cartridge respirator is one that is entirely discarded after excessive resistance or exhaustion.

Written comments concerning the proposed regulations are invited from interested persons. Inquiries may be addressed and data, views, and arguments relating to the proposed regulations may be submitted in writing, in triplicate, to the Regulations Officer, National Institute for Occupational Safety and Health, 5600 Fishers Lane (Park Bldg. 3-32), Rockville, MD 20852. All material received on or before November 12, 1976 will be considered before further action is taken on the proposal. All comments received in response to the proposal will be available for public inspection during normal business hours at the foregoing address.

It is proposed to make the amendments effective on the date of their republication in the FEDERAL REGISTER.

Dated: October 4, 1976.

THOMAS S. KLEPPE,
Secretary of the Interior.

Dated: September 2, 1976.

DAVID MATHEWS,
Secretary of Health, Education, and Welfare.

Part 11, Subchapter B, Chapter I, Title 30, Code of Federal Regulations is amended as follows:

1. Section 11.3 is amended by adding a new paragraph (kk) which reads:

§ 11.3 Definitions.

• • • • • •

(kk) "Single-use Respirator" means a respirator that is entirely discarded after excessive resistance or exhaustion.

§ 11.90 [Amended]

2. In § 11.90, paragraph (b) is amended by revising footnote 4 to read as follows:

[4] Not for use against gases or vapors with poor warning properties (except where MESA or Occupational Safety and Health Administration standards permit such use for escape only from a specific gas or vapor) or those which generate high heats of reaction with sorbent material in the canister.

§ 11.110 [Amended]

3. Section 11.110, paragraphs (a) and (a)(1) are amended by deleting the words "hazardous atmospheres" and substituting "atmospheres not immediately dangerous to life or health" therefor.

4. Section 11.150 is amended by designating the introductory text appearing there as paragraph (a), revising the table and footnote 7, and adding a new paragraph (b). The revised and added provisions read as follows:

§ 11.150 Chemical cartridge respirators; description.

(a) • • •

Type of chemical cartridge respirator: [7]	*Maximum use concentration, parts per million*
Ammonia	300
Chlorine	10
Hydrogen chloride	50
Methyl amine	100
Organic vapor	[8] 1,000
Sulfur dioxide	50

[7] Not for use against gases or vapors with poor warning properties (except where MESA or Occupational Safety and Health Administration standards may permit such use for escape only from a specific gas or vapor) or those which generate high heats of reaction with sorbent material in the cartridge.

• • • • • •

(b) Respirators described in paragraph (a) of this section may be of the replaceable cartridge type where only the cartridge(s) is replaced after excessive resistance or exhaustion, or of the single-use type where the entire respirator is discarded and replaced after excessive resistance or exhaustion.

5. Section 11.160 is amended by inserting the phrase "for replaceable cartridge respirators" between the words "Facepieces" and "shall" in paragraph (a) and adding a new paragraph (a–1) which reads:

§ 11.160 Head harnesses; minimum requirements.

• • • • • •

(a–1) Facepieces for single-use chemical-cartridge respirators shall be equipped with adjustable head harnesses designed and constructed to provide adequate tension during use and an even distribution of pressure over the entire area in contact with the face.

• • • • • •

6. Section 11.162–1 is amended by revising the table in paragraph (b) to read:

§ 11.162–1 Breathing resistance test; minimum requirements.

Maximum resistance

[Millimeter water column height]

Type of chemical-cartridge respirator	Inhalation		Exhalation
	Initial	Final [1]	
Replacement cartridge respirator:			
For gases, vapors, or gases and vapors	40	45	20
For gases, vapors, or gases and vapors, and dusts, fumes, and mists	50	70	20
For gases, vapors, or gases and vapors, and mists of paints, lacquers, and enamels	50	70	20
Single-use respirator with valves:			
For gases, vapors, or gases and vapors	20	25	20
For gases, vapors, or gases and vapors, and pneumoconiosis and fibrosis producing dusts	30	45	20
Single-use respirator without valves:			
For gases, vapors, or gases and vapors	15	20	[2]
For gases, vapors, or gases and vapors, and pneumoconiosis and fibrosis producing dusts	25	40	[2]

[1] Measured at end of service life specified in tables 11 and 11a.
[2] Same as inhalation.

§ 11.162–8 [Amended]

7. Section 11.162–8 is amended as follows:

a. Insert the phrase "of replaceable-cartridge respirators" between the words "tests" and "will" in the first sentence of paragraph (a).

b. Add a new paragraph (a–1) which reads:

• • • • • •

(a–1) Bench tests of single-use respirators will be conducted on an apparatus with the applicable gas or vapor concentration at 50±5 percent relative humidity and 25±2.5°C cycled through the respirator by a breathing machine at the rate of 24 respirations per minute and a minute volume of 40 liters. Air exhaled through the respirator will be 35±2°C with 94±3 percent relative humidity. Air inhaled through the respirator will be sampled and analyzed for respirator leakage.

• • • • • •

c. Insert the phrase ", or single-use respirators," between the words "cartridges" and "will" in paragraphs (c), (d), (e), (f), and (g).

d. In paragraph (d) change the table heading to read: "Type of cartridge or respirator:".

e. In paragraph (g), change the reference "Table 11" to "Tables 11 and 11a".

f. Revise the heading for Table 11 to read: "Table 11—Cartridge Bench Tests and Requirements for Replaceable-Cartridge Respirators" and change the column heading entitled "Flowrate" to read "Constant flowrate".

g. Insert a new Table 11a as follows:

TABLE 11a.—*Cartridge bench tests and requirements for single-use respirators*

(30 CFR Part II, Subpart L, § 11.162-8)

Cartridge	Test condition	Test atmosphere: Gas or vapor	Test atmosphere: Concentration (parts per million)	Minute volume (liters)	Number of tests	Penetration [1] (part per million)	Minimum life [2] (minutes)
Ammonia	As received	NH_3	1,000	40	3	50	80
Do	Equilibrated	NH_3	1,000	40	4	50	40
Chlorine	As recieved	Cl_2	500	40	3	5	56
Do	Equilibrated	Cl_2	500	40	4	5	28
Hydrogen chloride	As received	HCl	500	40	3	5	80
Do	Equilibrated	HCl	500	40	4	5	40
Methylamine	As received	CH_3NH_2	1,000	40	3	10	40
Do	Equilibrated	CH_3NH_2	1,000	40	4	10	20
Organic vapors	As received	CCl_4	1,000	40	3	5	80
Do	Equilibrated	CCl_4	1,000	40	4	5	40
Sulfur dioxide	As received	SO_2	500	40	3	5	48
Do	Equilibrated	SO_2	500	40	4	5	24

[1] Minimum life will be determined at the indicated penetration.
[2] Where a respirator is designed for respiratory protection against more than 1 type of gas or vapor, as for use in ammonia and in chlorine, the minimum life shall be one-half that shown for each type of gas or vapor. Where a respirator is designed for respiratory protection against more than 1 gas or vapor, as for use in chlorine and sulfur dioxide, the stated minimal life shall apply.

§ 11.203 [Amended]

8. Section 11.203 is amended as follows:

a. Revise paragraph (a) to read:

(a) Except for the tests prescribed in §§ 11.162–4 through 11.162–8, the minimum requirements and performance tests for chemical-cartridge respirators prescribed in Subpart L of this part are applicable to replaceable-cartridge and single-use vinyl chloride chemical-cartridge respirators.

• • • • • •

b. In paragraph (b), insert the words "or single-use chemical-cartridge respirators" between the words "respirators" and "for" therein.

c. In paragraph (b)(2), insert the words "or single-use respirators" between the words "cartridges" and "will" therein.

d. In paragraph (b)(3), insert the words "or respirators" between the words "cartridges" and "will" therein.

e. Revise paragraphs (b)(4) and (b)(5) and add new paragraphs (b)(6) and (b)(7). The revised and added provisions read as follows:

(b) • • •

(4) The cartridges or pairs of cartridges for replaceable-cartridge respirators, equilibrated and stored as described in paragraphs (b)(1), (b)(2), and (b)(3) of this section, will be tested on an apparatus that allows the test atmosphere at 50±5 percent relative humidity and 25±5°C, to enter the cartridges or pairs of cartridges continuously at a concentration of 10 ppm vinyl chloride monomer at a total flowrate of 64 liters per minute.

(5) The maximum allowable penetration after 90 minutes testing of cartridges or pairs of cartridges for replaceable-cartridge respirators, according to paragraph (b)(4) of this section, shall not exceed 1 ppm vinyl chloride.

(6) The single-use respirators, equilibrated and stored as described in paragraphs (b)(2) and (b)(3) of this section, will be tested on an apparatus with 10 ppm chloride at 50±5 percent relative humidity and 25±2.5°C cycled through the respirator by a breathing machine at the rate of 24 respirations per minute at a minute volume of 40 liters. Air exhaled through the respirator will be 35±2°C with 94±3 percent relative humidity.

(7) The maximum allowable penetration after 144 minutes testing of respirators, according to paragraph (b)(6) of this section, shall not exceed 1 ppm vinyl chloride.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 905]

HANDLING OF ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Proposed Grade and Size Requirements

This notice invites written comment relative to a proposal that would continue Orange Regulation 75 (§ 905.564), Grapefruit Regulation 77 (§ 905.565), Tangerine Regulation 48 (§ 905.566), and Tangelo Regulation 48 (§ 905.567) through September 25, 1977. Such regulations were published in the September 27, 1976, issue of the FEDERAL REGISTER (41 F.R. 42177) and will expire on November 15, 1976, unless extended. The regulations specify grade and size requirements applicable to domestic and export shipments of Florida oranges, grapefruit, tangerines, and tangelos as set forth in the following table:

V41I199 OCT 13 76 UMI

TABLE

Variety	Domestic regulations		Export regulations	
	Minimum grade	Minimum diameter in inches (count size in ⅝ bu. carton)	Minimum grade	Minimum diameter in inches (count size in ⅝ bu. carton)
Early-midseason oranges.	U.S. No. 1	2⁹/₁₆ (size 125)	U.S. No. 1	2⁵/₈ (size 163).
Navel oranges	U.S. No. 1 golden	do	U.S. No. 1 golden	Do.
Temple oranges	U.S. No. 1	do	U.S. No. 1	Do.
Murcott honey oranges.	Florida No. 1	2¹³/₁₆ (size 120)	Florida No. 1	2⁹/₁₆ (size 150).
Valencia oranges	U.S. No. 1	2⁹/₁₆ (size 125)	U.S. No. 1	2⁹/₁₆ (size 163).
Seeded grapefruit	do	3¹/₁₆ (size 40)	do	3¹/₁₆ (size 48).
Seedless grapefruit	Improved No. 2	3¹/₁₆ (size 48)	Improved No. 2	3¹/₁₆ (size 64).
Tangerines	U.S. No. 1	2¹/₁₆ (size 210)	U.S. No. 1	2¹/₁₆ (size 240).
Tangelos	do	2⁹/₁₆ (size 125)	do	2⁹/₁₆ (size 163).

The proposed extension of the effective period of such regulations is designed to promote orderly marketing and provide consumers with an ample supply of acceptable quality fruit.

All persons who desire to submit written data, views, or arguments in connection with the proposed action should file the same, in guadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than October 28, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Notice is hereby given that the Department is considering proposed amendments, as hereinafter set forth, pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The amendments were proposed by the Growers Administrative Committee and Shippers Advisory Committee, established under said amended marketing agreement and order.

The proposed amendments reflect the committees' appraisal of the need for regulation of shipments of the specified varieties of oranges, grapefruit, tangerines, and tangelos during the period November 15, 1976, through September 25, 1977, based on the available supply and current and prospective market conditions. The amendments are designed to continue shipment of ample supplies of fruit of the better grades and more desirable sizes in the interest of both growers and consumers. The proposed action is designed to maintain orderly marketing conditions by preventing the adverse effect on the market caused by shipment of lower-quality and smaller-size fruit when more than ample supplies of the more desirable grades and sizes are available to serve consumers' needs. The proposed amendments are consistent with the objective of the act of promoting orderly marketing and protecting the interest of consumers.

The regulatory proposals are as follows:

Order 1. The provisions of § 905.564 (Orange Regulation 75; 41 FR 42177) are amended to read as follows:

§ 905.564 Orange Regulation 75.

(a) During the period November 15, 1976, through September 25, 1977, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(1) Any oranges, except Navel oranges, Temple oranges, Murcott Honey oranges, and Valencia, Lue Gim Gong, and similar late maturing oranges of the Valencia type, grown in the production area, which do not grade at least U.S. No. 1;

(2) Any oranges, except Navel oranges, Temple oranges, Murcott Honey oranges, and Valencia, Lue Gim Gong, and similar late maturing oranges of the Valencia type, grown in the production area, which are of a size smaller than 2⁸/₁₆ inches in diameter, except that a tolerance for such oranges smaller than such minimum diameter shall be permitted as specified in § 51.1152 of the United States Standards for Grades of Florida Oranges and Tangelos: *Provided*, That such tolerance for such oranges shall be based only on those oranges in a lot which are of a size 2¹⁵/₁₆ inches in diameter or smaller;

(3) Any Navel oranges, grown in the production area, which do not grade at least U.S. No. 1 Golden;

(4) Any Navel oranges, grown in the production area, which are of a size smaller than 2⁸/₁₆ inches in diameter, except that a tolerance for Navel oranges smaller than such minimum diameter shall be permitted as specified in § 51.1152 of the United States Standards for Grades of Florida Oranges and Tangelos;

(5) Any Temple oranges, grown in the production area, which do not grade at least U.S. No. 1;

(6) Any Temple oranges, grown in the production area, which are of a size smaller than 2⁸/₁₆ inches in diameter, except that a tolerance for Temple oranges smaller than such minimum diameter shall be permitted as specified in § 51.1152 of the United States Standards for Grades of Florida Oranges and Tangelos;

(7) Any Murcott Honey oranges, grown in the production area, which do not grade at least Florida No. 1 grade for murcotts;

(8) Any Murcott Honey oranges, grown in the production area, which are of a size smaller than 2¹¹/₁₆ inches in diameter, except that a tolerance for Murcott Honey oranges smaller than such minimum diameter shall be permitted as specified in § 51.1818 of the United States Standards for Grades of Florida Tangerines;

(9) Any Valencia, Lue Gim Gong, and similar late maturing oranges of the Valencia type, grown in the production area, which do not grade at least U.S. No. 1; and

(10) Any Valencia, Lue Gim Gong, and similar late maturing oranges of the Valencia type, grown in the production area, which are of a size smaller than 2⁸/₁₆ inches in diameter, except that a tolerance for such oranges smaller than such minimum diameter shall be permitted as specified in § 51.1152 of the United States Standards for Grades of Florida Oranges and Tangelos; *Provided*, That such tolerance for such oranges shall be based only on those oranges in a lot which are 2¹⁵/₁₆ inches in diameter or smaller.

(b) During the period November 15, 1976, through September 25, 1977, no handler shall ship to any destination outside the continental United States other than to Canada or Mexico:

(1) Any oranges, except Naval oranges, Temple oranges, Murcott Honey oranges, and Valencia, Lue Gim Gong and similar late maturing oranges of the Valencia type, grown in the production area, which do not grade at least U.S. No. 1;

(2) Any oranges, except Navel oranges, Temple oranges, Murcott Honey oranges, and Valencia, Lue Gim Gong and similar late maturing oranges of the Valencia type, grown in the production area, which are of a size smaller than 2¹⁵/₁₆ inches in diameter, except that a tolerance for such oranges smaller than such minimum diameter shall be permitted as specified in § 51.1152 of the United States Standards for Grades of Florida Oranges and Tangelos; *Provided*, That such tolerance for such oranges shall be based only on those oranges in a lot which are of a size 2¹⁵/₁₆ inches in diameter or smaller;

(3) Any Navel oranges, grown in the production area, which do not grade at least U.S. No. 1 Golden;

(4) Any Navel oranges, grown in the production area, which are of a size smaller than 2⁸/₁₆ inches in diameter, except that a tolerance for Navel oranges smaller than such minimum diameter shall be permitted as specified in § 51.1152 of the United States Standards for Grades of Florida Oranges and Tangelos;

(5) Any Temple oranges, grown in the production area, which do not grade at least U.S. No. 1;

(6) Any Temple oranges, grown in the production area, which are of a size smaller than 2⁸/₁₆ inches in diameter, except that a tolerance for Temple oranges smaller than such minimum diameter shall be permitted as specified in § 51.1152 of the United States Standards for Grades of Florida Oranges and Tangelos;

(7) Any Murcott Honey oranges, grown in the production area, which do not grade at least Florida No. 1 grade for murcotts;

(8) Any Murcott Honey oranges, grown in the production area, which are of a size smaller than 2⁸/₁₆ inches in diameter, except that a tolerance for Murcott Honey oranges smaller than such minimum diameter shall be permitted as specified in § 51.1818 of the United States of Standards for Grades of Florida Tangerines;

(9) Any Valencia, Lue Gim Gong, and similar late maturing oranges of the Valencia type, grown in the production area, which do not grade at least U.S. No. 1; and

(10) Any Valencia, Lue Gim Gong, and similar late maturing oranges of the Valencia type, grown in the production area, which are of a size smaller than 2⁸/₁₆ inches in diameter, except that a tolerance for such oranges smaller than such minimum diameter shall be permitted as specified in § 51.1152 of the United States Standards for Grades of Florida Oranges and Tangelos.

(c) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; Florida No. 1 grade for murcotts shall have the same meaning as provided in Rule No. 20–35.03 of the Regulations of the Florida Department of Citrus, and all other terms relating to grade and diameter, as used herein, shall have the same meaning as is given to the respective term in the revised United States Standards for Grades of Florida Oranges and Tangelos (7 CFR 51.1140–51.1180) or the revised United States Standards for Florida Tangerines (7 CFR 51.1810–51.1835).

2. The provisions of § 905.565 (Grapefruit Regulation 77; 41 FR 42177) are amended to read as follows:

§ 905.565 Grapefruit Regulation 77.

(a) During the period November 15, 1976, through September 25, 1977, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(1) Any seeded grapefruit, grown in the production area, which do not grade at least U.S. No. 1;

(2) Any seeded grapefruit, grown in the production area, which are of a size smaller than 3¹/₁₆ inches in diameter, except that a tolerance for seeded grapefruit smaller than such minimum diameter shall be permitted as specified in § 51.761 of the United States Standards for Grades of Florida Grapefruit;

(3) Any seedless grapefruit, grown in the production area, which do not grade at least Improved No. 2; or

(4) Any seedless grapefruit, grown in the production area, which are of a size smaller than 3⁹/₁₆ inches in diameter, except that a tolerance for seedless grapefruit smaller than such minimum diameter shall be permitted as specified in § 51.761 of the United States Standards for Grades of Florida Grapefruit.

(c) Terms used in the amended marketing agreement and order, including Improved No. 2 grade, shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, except Improved No. 2 grade, and diameter, as used herein, shall have the same meaning as is given to the respective term in the revised United States Standards for Grades of Florida Grapefruit (7 CFR 51.750–51.784).

3. The provisions of § 905.566 (Tangerine Regulation 48; 41 FR 42177) are amended to read as follows:

§ 905.566 Tangerine Regulation 48.

(a) During the period November 15, 1976, through September 25, 1977, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(1) Any tangerines, grown in the production area, which do not grade at least U.S. No. 1; or

(2) Any tangerines, grown in the production area, which are of a size smaller than 2¹/₁₆ inches in diameter, except that a tolerance for tangerines smaller than such minimum diameter shall be permitted as specified in § 51.1818 of the United States Standards for Grades of Florida Tangerines.

(b) During the period November 15, 1976, through September 25, 1977, no handler shall ship to any destination outside the continental United States other than to Canada or Mexico:

(1) Any tangerines, grown in the production area, which do not grade at least U.S. No. 1; or

(2) Any tangerines, grown in the production area, which are of a size smaller than 2⁹/₁₆ inches in diameter, except that a tolerance for tangerines smaller than such minimum diameter shall be permitted as specified in § 51.1818 of the United States Standards for Grades of Florida Tangerines.

(c) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade and diameter, as used herein, shall have the same meaning as is given to the respective term in the revised United States Standards for Grades of Florida Tangerines (7 CFR 51.1810–51.1835).

4. The provisions of § 905.567 (Tangelo Regulation 48; 41 FR 42177) are amended to read as follows:

§ 905.567 Tangelo Regulation 48.

(a) During the period November 15, 1976, through September 25, 1977, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(1) Any tangelos, grown in the production area, which do not grade at least U.S. No. 1; or

(2) Any tangelos, grown in the production area, which are of a size smaller than 2⁹/₁₆ inches in diameter, except that a tolerance for tangelos smaller than such minimum diameter shall be permitted as specified in § 51.1152 of the United States Standards for Grades of Florida Oranges and Tangelos.

(b) During the period November 15, 1976, through September 25, 1977, no handler shall ship to any destination outside the continental United States other than to Canada or Mexico:

(1) Any tangelos, grown in the production area, which do not grade at least U.S. No. 1; or

(2) Any tangelos, grown in the production area, which are of a size smaller than 2⁹/₁₆ inches in diameter, except that a tolerance for tangelos smaller than such minimum diameter shall be permitted as specified in § 51.1152 of the United States Standards for Grades of Florida Oranges and Tangelos.

(c) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade and diameter, as used herein, shall have the same meaning as is given to the respective term in the revised United States Standards for Grades of Florida Oranges and Tangelos (7 CFR 51.1140–51.1180).

HANDLING OF ORANGES AND GRAPEFRUIT GROWN IN LOWER RIO GRANDE VALLEY IN TEXAS

Proposed Expenses and Fixing of Rate of Assessment for 1976–77 Fiscal Period and Carryover of Unexpended Funds

This notice invites written comment relative to the proposed expenses of $727,000 and rate of assessment of $0.045 per 7/10-bushel carton or equivalent

V 41 I 199 OCT 13 76 UMI

quantity of oranges and grapefruit to support the activities of the Texas Valley Citrus Committee for the 1976–77 fiscal period under Marketing Order No. 906.

Consideration is being given to the following proposals submitted by the Texas Valley Citrus Committee, established pursuant to the marketing agreement, as amended, and Order No. 906, as amended (7 CFR Part 906), regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof.

(1) That expenses that are reasonable and likely to be incurred by the Texas Valley Citrus Committee during the period August 1, 1976, through July 31, 1977, will amount to $727,000.

(2) That there be fixed at $0.045 per 7/10-bushel carton or equivalent quantity of oranges and grapefruit the rate of assessment payable by each handler in accordance with § 906.34 of the aforesaid marketing agreement and order.

(3) That unexpended assessment funds in excess of expenses incurred during the fiscal period ended July 31, 1976, be carried over as a reserve in accordance with § 906.35 of said marketing agreement and order.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals shall file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than October 28, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: October 6, 1976.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[7 CFR Part 906]

ORANGES AND GRAPEFRUIT GROWN IN LOWER RIO GRANDE VALLEY, TEX.

Proposed Minimum Grade and Size Requirements

This notice proposes minimum grade and size requirements for grapefruit grown in the Lower Rio Grande Valley in Texas for the period November 8, 1976, through November 6, 1977. The proposed requirements are designed to promote orderly marketing in the interest of producers and consumers.

The proposal would establish regulations, pursuant to the marketing agreement, as amended, and Order No. 906, as amended (7 CFR Part 906), regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

All persons who desire to submit written data, views, or arguments in connection with the proposal should file the same with the Hearing Clerk, Room 112A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than October 28, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposed grade and size regulation was recommended by the Texas Valley Citrus Committee, and it reflects the committee's appraisal of the need for regulation and of the crop and current and prospective market conditions. Shipment of grapefruit from the production area is now in progress, and such shipments are regulated by grade and size through November 7, 1976, under § 906.357 Grapefruit Regulation 27 (40 F.R. 51178). Fruit in such shipments is required to grade U.S. Fancy, U.S. No. 1, U.S. No. 1 Bright, U.S. No. 1 Bronze, or U.S. No. 2, and be at least 3 5/16 inches in diameter.

The proposed regulation, which would become effective November 8, 1976, is comparable to the one effective during the 1975–76 season. The proposed minimum size requirement of 3 5/16 inches in diameter during the first part of the season is designed to delay harvest of smaller fruit until it reaches full size in late February. Then it is desirable to lower the minimum size requirement to 3 5/16 inches as most of the fruit has reached its full size, as much of the larger sized fruit has been shipped, and as the available supplies of grapefruit have diminished.

The proposed action is necessary to ensure the continued shipment of ample supplies of fruit of the better grades and more desirable sizes in the interest of producers and consumers, and to maintain orderly marketing conditions by preventing the demoralizing effect on the market caused by the shipment of lower quality and smaller sized fruit when more than ample supplies of the more desirable grades and sizes are available to serve consumers' needs. The proposed requirements are consistent with the objectives of the act of promoting orderly marketing and protecting the interest of consumers.

Such proposal reads as follows:

§ 906.359 Grapefruit Regulation 28.

Order. (a) During the period November 8, 1976, through November 6, 1977, no handler shall handle:

(1) Any grapefruit of any variety, grown in the production area, unless such grapefruit grade U.S. Fancy, U.S. No. 1, U.S. No. 1 Bright, U.S. No. 1 Bronze, or U.S. No. 2;

(2) Any grapefruit of any variety, grown in the production area, which are smaller than pack size 96, as such size is specified in § 51.630(c) of the U.S. Standards for Grapefruit (Texas and States other than Florida, California and Arizona), except that the minimum diameter limit for pack size 96 grapefruit in any lot shall be 3 9/16 inches: *Provided*, That during the period February 21, 1977, through November 6, 1977, no handler shall handle any grapefruit of any variety, grown in the production area, which are smaller than pack size 112, as such size is specified in § 51.630 (c) of the aforesaid U.S. Standards for Grapefruit, except that the minimum diameter limit for pack size 112 grapefruit in any lot shall be 3 5/16 inches;

(3) Any grapefruit of any variety, grown as aforesaid, for which inspection is required unless an appropriate inspection certificate has been issued with respect thereto not more than 48 hours prior to the time of shipment; or

(4) Any grapefruit of any variety, grown as aforesaid, unless such grapefruit meet all the applicable container and pack requirements which are in effect pursuant to the aforesaid marketing agreement and order during the period.

(b) Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order; and terms relating to grade and diameter, when used herein, shall have the same meaning as is given to the respective term in the United States Standards for Grapefruit (Texas and States other than Florida, California and Arizona) (7 CFR 51.620–51.653).

Dated: October 7, 1976.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[7 CFR Part 906]

ORANGES AND GRAPEFRUIT GROWN IN LOWER RIO GRANDE VALLEY, TEX.

Proposed Minimum Grade and Size Requirements

This notice proposes minimum grade and size requirements for oranges grown in the Lower Rio Grande Valley in Texas for the period November 8, 1976, through November 6, 1977. The proposed requirements are designed to promote orderly marketing in the interest of producers and consumers.

The proposal would establish regulations, pursuant to the marketing agreement, as amended, and Order No. 906, as amended (7 CFR Part 906), regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

All persons who desire to submit written data, views, or arguments in connection with the proposal should file the same with the Hearing Clerk, Room 112A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than October 28, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposed regulation was recommended by the Texas Valley Citrus Committee, and it reflects the committee's appraisal of the need for regulation and of the crop and current and prospective market conditions. Shipment of oranges from the production area is now in progress, and such shipments are regulated by grade and size through November 7, 1976, under § 906.356 Orange Regulation 27 (40 FR 51177). Fruit in such shipments is required to grade U.S. Fancy, U.S. No. 1, U.S. No. 1 Bright, U.S. No. 1 Bronze, U.S. Combination (with not less than 60 percent, by count, of the oranges in any lot thereof grading at least U.S. No. 1), or U.S. No. 2, and be at least 2 9/16 inches in diameter. The proposed grade and size requirements, which would become effective Novmber 8, 1976, are the same as the requirements currently in effect and are necessary to ensure the continued shipment of ample supplies of fruit of the better grades and more desirable sizes in the interest of both growers and consumers. The action is necessary to maintain orderly marketing conditions by preventing the demoralizing effect on the market caused by the shipment of lower quality and smaller sized fruit when more than ample supplies of the more desirable grades and sizes are available to serve consumers' needs. The proposed requirements are consistent with the objectives of the act of promoting orderly marketing and protecting the interest of consumers.

Such proposal reads as follows:

§ 906.358 Orange Regulation 28.

Order. (a) During the period November 8, 1976, through November 6, 1977, no handler shall handle:

(1) Any oranges of any variety, grown in the production area, unless such oranges grade U.S. Fancy, U.S. No. 1, U.S. No. 1 Bright, U.S. No. 1 Bronze, U.S. Combination (with not less than 60 percent, by count, of the oranges in any lot thereof grading at least U.S. No. 1), or U.S. No. 2;

(2) Any oranges of any variety, grown in the production area, which are smaller than pack size 288, as such size is specified in § 51.691(c) of the U.S. Standards for Oranges (Texas and States other than Florida, California, and Arizona), except that the minimum diameter limit for pack size 288 oranges in any lot shall by 2 9/16 inches;

(3) Any oranges of any variety, grown as aforesaid, for which inspection is required unless an appropriate inspection certificate has been issued with respect thereto not more than 48 hours prior to the time of shipment; or

(4) Any oranges of any variety, grown as aforesaid, unless such oranges meet all the applicable container and pack requirements which are in effect pursuant to the aforesaid marketing agreement and order during the period.

(b) Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order; and terms relating to grade and diameter, when used herein, have the same meaning as is given to the respective term in the United States Standards for Oranges (Texas and States other than Florida, California, and Arizona) (7 CFR 51.680–51.714).

Dated: October 7, 1976.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76-30015 Filed 10-12-76;8:45 am]

[7 CFR Part 944]

IMPORTS OF GRAPEFRUIT

Proposed Minimum Grade and Size Requirements

This notice invites written comment relative to a proposed amendment that would continue Grapefruit Regulation 17 (§ 944.113; 41 FR 42181) through September 25, 1977. Said regulation is currently effective during the period September 27 through November 14, 1976. The regulation prescribes minimum grade and size requirements applicable to imported grapefruit as follows: Imported seeded grapefruit—U.S. No. 1 and 3 17/32 inches in diameter; and imported seedless grapefruit—Improved No. 2 and 3 9/16 inches in diameter. The requirements are the same as those applicable to grapefruit produced in Florida and regulated pursuant to Marketing Order No. 905.

All persons who desire to submit written data, views, or arguments in connection with the proposal should file the same with the Hearing Clerk, Room 112A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than October 28, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Notice is hereby given that the Department is considering a proposal, as hereinafter set forth, which would regulate the importation of any grapefruit into the United States, pursuant to Part 944—Fruits, Import Regulations (7 CFR Part 944).

The proposal is as follows:

Order. The provisions of § 944.113 (grapefruit Regulation 17; 41 FR 42181) are amended to read as follows:

§ 944.113 Grapefruit Regulation 17.

(a) During the period November 15, 1976, through September 25, 1977, the importation into the United States of any grapefruit is prohibited unless such grapefruit is inspected and meets the following requirements:

(1) Seeded grapefruit shall grade at least U.S. No. 1 and be of size not smaller than 3 17/32 inches in diameter, except that a tolerance for seeded grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in § 51.761 of the United States Standards for Florida Grapefruit; and

(2) Seedless grapefruit shall grade at least Improved No. 2 and be of a size not smaller than 3 9/16 inches in diameter, except that a tolerance for seedless grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in § 51.761 of the United Standards for Florida Grapefruit.

("Improved No. 2" shall mean grapefruit grading at least U.S. No. 2 and also meeting the requirements of the U.S. No. 1 grade as to shape (form) and color.)

[7 CFR Part 981]

ALMONDS GROWN IN CALIFORNIA

Proposed Amendment of Various Subparts

Notice is given of proposals to delete § 981.300 Operating reserve in Subpart—Budget of Expenses and Rate of Assessment (7 CFR 981.300; 981.326; 41 FR 37761), and to amend Subpart—Administrative Rules and Regulations (7 CFR 981.441—981.481) by deleting §§ 981.453 and 981.481 and revising §§ 981.450, 981.455, 981.467, 981.472, 981.473 and 981.474. The subparts are operative pursuant to the marketing agreement, as amended, and Order No. 981, as amended (7 CFR Part 981; 41 FR 26852; 27827), hereinafter collectively referred to as the "order," regulating the handling of almonds grown in California. The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The proposals are based on a unanimous recommendation of the Admond Board of California.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals should file the same in quadruplicate with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, to be received not later than October 29, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during official hours of business (7 CFR 1.27(b)).

The recent amendment of the order made several changes which require corresponding conforming changes in those subparts. It is proposed that §§ 981.300 and 981.481, which pertain to an operating reserve and to refund of assessments, be deleted since the amendment of § 981.81 makes these rules unnecessary. Also, § 981.453 would be delet-

V 41 1999 OCT 13 76 UM

ed since the corresponding order provision, § 981.53, has been deleted. Sections 981.450, 981.455, 981.467, 981.472, 981.473 and 981.474 would be revised.

The order now permits the kernelweight of almonds disposed by a handler for crushing into oil, or for poultry or animal feed, to be excluded from his receipts and exempted from reserve obligations and assessments, so long as the handler qualifies as, or delivers such almonds to, the exempt outlets. Prior to the order amendment, such exemption was given only after the end user of the almonds had disposed of them. Therefore, paragraph (c) of § 981.450, which deals with certification by the receiver (user), would be deleted. The remaining provisions in § 981.450 would be combined into one paragraph and revised to allow the exemption for deliveries to dealers in nut wastes, so long as the dealers are acceptable to the Board.

Section 981.455 requires interhandler transfers to be reported to the Board and prescribes the form to be used. Section 981.455 would be revised to reduce the amount of information, and the number of copies of the form, to be submitted.

The section would also be revised to restrict the amount of reserve credit one handler may transfer to another to the deficit of the transferee handler, and to prohibit transfer of reserve credit to satisfy a handler's inedible disposition obligation incurred pursuant to § 981.42 (a).

Section 981.467 would be amended by deleting provisions pertaining to the physical setaside of reserve, and by revising the provisions pertaining to the agency agreement for the disposition of reserve almonds.

Section 981.472 has been rewritten without substantive change to improve understanding of its provisions. Section 981.473 would be revised by deleting obsolete provisions, changing information required of handlers on redetermination reports, and making other changes in in the reporting requirements for greater flexibility.

Section 981.474(a), pertaining to shipments of almonds, would be revised to conform with the order changes with respect to the method of establishing salable and reserve percentages. Section 981.474(b) would be added to require submission by handlers of appropriate reports pertaining to exports. Section 981.474(c) would be added to cover reports of diversion to non-competitive outlets, and to permit the Board to waive the requirement to file a report for diversion of almonds to non-competive outlets which the Board has previously declared eligible for reserve credit.

Finally, "Control" would be deleted wherever it appears in those sections which under the proposal would be revised. The order amendment changed the name of the Board from the "Almond Control Board" to "Almond Board of California."

The proposals follow:

§ 981.300 [Deleted]

1. Delete § 981.300.

2. Revise § 981.450 to read as follows:

§ 981.450 Exempt dispositions.

As provided in § 981.450, any handler disposing of almonds for crushing into oil, or for poultry or animal feed, may have the kernel weight of these almonds excluded from his recipits, and exempt from reserve obligations and assessments, so long as the handler qualified as, or delivers such almonds to a crusher, a feeder, or dealer in nut waste; the crusher, feeder, or dealer are acceptable to the Board; each delivery is made directly to the crusher, feeder or dealer by June 30 of the crop year; and each delivery is certified to the Board by the handler on ABC Form 8.

§ 981.453 [Deleted]

3. Delete § 981.453.

4. Revise § 981.455 to read as follows:

§ 981.455 Interhandler transfers.

(a) *Transfers of almonds.* Interhandler transfers of almonds pursuant to § 981.55 shall be reported to the Board on ABC Form 7. The report shall contain the following information: (1) Date of transfer; (2) the names and plant locations of both the transferring and receiving handlers; (3) the variety of almonds transferred; (4) whether the almonds are shelled or unshelled; and (5) the name of the handler assuming reserve and assessment obligations on the almonds transferred. ABC Form 7 shall be signed by the transferring handler and by the receiving handler if the latter is assuming the obligation(s).

(b) *Transfers of reserve credits.* A handler may transfer reserve credits to another handler, but not in excess of the quantity needed by the receiving handler to cover his reserve obligation. The Board shall complete the transfer upon receipt of an ABC Form 11 executed by both handlers. No transfer of reserve credits shall be made to satisfy a handler's inedible disposition obligation incurred pursuant to § 981.42(a).

5. Revise § 981.467 to read as follows:

§ 981.467 Disposition in reserve outlets by handlers.

(a) *Agents of Board.* Beginning with July 1 of any crop year, a handler may become an agent of the Board pursuant to § 981.67 for the purpose of disposing of reserve almonds of such crop year in the authorized outlets. The agency shall be established upon a handler executing a reserve agreement (ABC Form 12), applicable to export or diversion, or both, containing terms and conditions specified by the Board.

(b) *Reserve credit.* Credit in satisfaction of a reserve obligation shall not exceed the accrued reserve obligation derived by applying the reserve percentage to the quantity of almonds received by a handler for his own account during the crop year. Disposition by an agent of the Board in eligible reserve outlets within a crop year in excess of his reserve obligation shall be held to be a disposition of salable almonds. Whenever such disposition has been inspected and certified, if required, and has complied with the terms, conditions, and documentation applicable to disposition of reserve almonds as determined by the Board, the disposition may be credited against any reserve obligation subsequently incurred by the handler during that crop year, or the credit may be transferred pursuant to § 981.455(b) to apply against the reserve obligation of another handler.

6. Revise § 981.472 to read as follows:

§ 981.472 Report of almonds received.

(a) Each handler shall report to the Board on ABC Form 1 the total pounds of almonds, unshelled and shelled, by varieties, received by him for his own account within any of the hereinafter prescribed reporting periods. • • •

(b) For the reporting periods July 1 through December 31 and January 1 through March 31, each handler shall submit a summary report to the Board, within 30 days after the end of the reporting period, which shall show the quantity of almonds received for the handler's own account by county of production and such varieties as may be requested by the Board.

7. Revise § 981.473 to read as follows:

§ 981.473 Redetermination reports.

Each handler shall furnish for use by the Board in redetermination of the kernel weight of almonds received for his own account and for marketing policy consideration, the information listed and described in this section. Such information shall be reported within the applicable times specified in § 981.73 on forms provided by the Board.

(a) *Handler carryover.* A report of the weight of all almonds, whether un-, shelled or shelled, wherever located, held by the handler for his own account, whether or not sold.

(b) *Reserve.* A report of all reserve almonds, net weight, which have been disposed of in the manner provided in §§ 981.66 and 981.67.

(c) *Delivered sales.* A report of salable almonds sold and delivered, showing the weight, and whether unshelled or shelled, except those disposed of pursuant to the requirements for reserve disposition, or to crushing or feed outlets, or used in almond products.

(d) *Almond products.* A report of all almonds used by the handler in the manufacture of any almond product as defined in § 981.15.

(e) *Transfers.* A report of almonds transferred to another handler showing the weight of each lot transferred and whether unshelled or shelled.

(f) *Undelivered sales.* A report of all almonds sold but not delivered, showing the weight of such almonds and whether they are unshelled or shelled.

8. Revise § 981.474 to read as follows:

Report of shipments.

§ 981.474 Report of shipments.

(a) Each handler shall report all shipments of almonds, unshelled and shelled and by classification, on ABC Form 25. In support of this report, the handler shall file invoices on the shipments, or such other documentation as may be acceptable to the Board. Each such report shall be filed with the Board 5 business days after the close of each month of the crop year.

(b) At the time of each export sale, each handler shall report it to the Board on ABC Form 18 and upon delivery into export shall report this on ABC Form 19. If any export is not made directly by the handler, he shall send the ABC Form 19 to the broker-exporter and request him to make the report to the Board. These forms shall include the number and type of container, net weight, variety and whether unshelled or shelled, time of export and destination. In years of minimum export prices applicable to reserve almonds, ABC Form 19 shall include the grade and size, the inspection certificate number, the price and any terms defining the price.

(c) In any crop year when reserve almonds are diverted to noncompetitive outlets, such handler shall report his intentions to divert on ABC Form 13 and the completion of diversion on ABC Form 14. Upon notice to all handlers the Board may waive the requirements to file ABC Form 13 for diversion of almonds to noncompetitive outlets which the Board has previously declared eligible for reserve credit.

§ 981.481 [Deleted]

9. Delete § 981.481.

Dated: October 7, 1976.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

[49 CFR Part 91]

[OST Docket No. 47; Notice 76-13]

INTERNATIONAL AIR TRANSPORTATION FAIR COMPETITIVE PRACTICES

Determination, Collection and Disbursement

The purpose of this proposed amendment to Title 49 of the Code of Federal Regulations is to establish a new Part 91 setting forth the procedures the Department of Transportation (the Department) will follow in discharging its responsibilities under the International Air Transportation Fair Competitive Practices Act of 1974 (Pub. L. 93-623, 88 Stat. 2103, 49 U.S.C. 1159a and 1159b) (the Act) with respect to discriminatory and unfair competitive practices which may occur in international air transportation.

Under the Act, the Secretary of Transportation (Secretary) is charged with surveying the fees exacted from United States flag air carriers by foreign governments or other foreign entities in order to determine the reasonableness of those charges. Where the Secretary determines that such charges are unreasonably excessive or "otherwise discriminatory," he is to submit a report on the matter to the Secretary of State and the Civil Aeronautics Board. If the Secretary is subsequently informed by the Secretary of State that negotiations with the foreign country concerned have not resulted in the reduction of such charges or the elimination of such discriminations, he must then "determine compensating charges equal to such excessive or discriminatory charges" imposed by the foreign government or entity. Thereupon, under the statutory scheme, the Secretary of the Treasury is to collect the amount of compensatory charge computed by the Secretary as a condition to acceptance of the general declaration at the time aircraft of that foreign nation's air carriers land or takeoff from the United States. The funds thus collected will be held in a special account established by the Secretary of the Treasury and paid out to United States air carriers in such amounts as the Secretary certifies in accordance with these regulations.

In addition to his role in administering the collection and distribution of compensatory funds, the Secretary will, to the extent of his jurisdiction, keep under review all forms of discrimination or unfair competitive practices to which United States air carriers may be subjected in providing foreign air transportation services and will take appropriate actions to eliminate such forms of discrimination or unfair competitive practice found to exist.

In accordance with Section 3 of the Act which directs the Secretary to promulgate appropriate regulations, this proposed Part 91 assigns certain staff responsibilities to the Federal Aviation Administrator, and the Assistant Secretary for Policy Plans and International Affairs and the General Counsel of the Department. This part also sets forth the standards which will be used in determining whether a discrimination or unfair competitive practice within the perview of the Act exists. Finally, it outlines the method of computation and distribution of compensatory charges.

Part 91, as proposed, is designed to provide a flexible set of working guidelines and employs the mechanism of periodic estimates combined with periodic adjustments to minimize the administrative burden on all parties to which the Act applies. And since circumstances can be expected to differ from case to case, it is proposed that the specific format for application for reimbursement and the enumeration of particular items of proof required to accompany such application be left open to case by case determination and publication in the FEDERAL REGISTER.

In view of the possibility that later evidence may show that the total impact of certain practices of a foreign government or entity may not be as great as had been projected or that the compensatory charge levied was the result of a miscalculation, provision has been made for an air carrier of a foreign nation to recover amounts paid in excess of its proper liability under the Act.

One purpose of the proposed regulation is to place those liable to payment of compensatory charges on notice so that they may either gather evidence that the charges to be imposed are not justified under the Act or, to the extent the same time, an effort has been made to alert United States air carriers which may be entitled to reimbursement to the fact that they may be required to produce records showing the extent of excessive charges incurred and paid by them.

Accordingly, interested persons are invited to participate in this rulemaking by submitting written data, views, or comments. Communications should identify the regulatory docket number (see above) and should be submitted in quadruplicate (four copies) to the Docket Clerk, Office of the General Counsel, TCC, Attention: Docket No. 46, Department of Transportation, 400 7th Street, SW. Washington, D.C. 20590. Comments received by the closing date, below, will be given full consideration in formulating the final rule. Comments received after that date will be considered to the extent practicable. All comments received will be available for inspection and copying in the Office of the Assistant General Counsel for Operations and Legal Counsel, Room 10100, Nassif Building, 400 7th Street, SW., Washington, D.C., from 9:00 a.m. to 5:30 p.m. local time, Monday through Friday, except Federal holidays.

In consideration of the foregoing, it is proposed to establish a new Part 91 of Title 49 Code of Federal Regulations, to read as appears below.

Comment closing date: November 12, 1976.

Issued in Washington, D.C., on October 7, 1976.

WILLIAM T. COLEMAN, JR.,
Secretary of Transportation.

PART 91—DISCRIMINATORY OR UNFAIR COMPETITIVE PRACTICES—EFFECTUATION OF THE INTERNATIONAL AIR TRANSPORTATION FAIR COMPETITIVE PRACTICES ACT OF 1974

Sec.
91.1 Purpose.
91.3 Investigations.
91.5 Findings and recommendations.
91.7 Determination of compensatory charges.
91.9 Distribution of compensatory funds.
91.11 Standards.

AUTHORITY: Secs. 2-3, 88 Stat. 2103; 49 U.S.C. 1159a and 1159b unless otherwise noted.

V41N199 OCT 13 76 UMI

§ 91.1 Purpose.

The purpose of this part is to effectuate the provisions of sections 2 and 3 of the International Air Transportation Fair Competitive Practices Act of 1974 to the end that United States flag air carriers (United States air carriers) operating in foreign air transportation are protected from all forms of discrimination or unfair competitive practice, and are compensated for unreasonably excessive or otherwise discriminatory charges levied by foreign governments or other foreign entities for the use of airport airway or property.

§ 91.3 Investigations.

The Assistant Secretary for Policy, Plans and International Affairs (Assistant Secretary) in coordination with the General Counsel and the Federal Aviation Administrator (Administrator) shall, on the complaint of any United States flag carrier or on their own initiative, investigate instances of alleged discrimination or unfair competitive practices to which United States air carriers are subjected by a foreign government or other foreign entity. For the purpose of this part, discrimination or unfair competitive practices consist of excessive charges, operating restrictions or other practices of a foreign government or entity which have an unjustifiably or disproportionally unfavorable impact on United States air carriers.

§ 91.5 Findings and recommendations.

(a) Upon finding that a foreign government or entity discriminates against United States air carriers or causes such carriers to be subjected to unfair competitive practices, the Assistant Secretary in coordination with the General Counsel and the Administrator shall determine the extent of the discrimination or unfair competitive practices.

(b) Where the matter involves discriminatory user charges, the Assistant Secretary shall prepare a report and recommend that the Secretary promptly submit a report of the case to the Secretary of State and the Civil Aeronautics Board in accordance with section 11 of the International Aviation Facilities Act, 49 U.S.C. 1159a.

(c) Where the matter involves discrimination or unfair competitive practices, other than user charges, the Assistant Secretary shall recommend that the Secretary take such other action within the jurisdiction of the Department as is appropriate under the circumstances in accordance with 49 U.S.C. 1159(b).

(d) If the Secretary determines, after review of the report and recommendations made under paragraphs (b) or (c) of this section, that discrimination exists, the Secretary will:

(1) Submit a report on the matter to the Secretary of State and the Chairman of the Civil Aeronautics Board in accordance with 49 U.S.C. 1159a; or

(2) Take all appropriate actions within his jurisdiction in accordance with 49 U.S.C. 1159b.

§ 91.7 Determination of Compensatory Charges.

(a) Upon indication by the Secretary of State that the charges or discriminations have not been reduced or eliminated, the Secretary will direct the Assistant Secretary to compute the appropriate amount of compensatory charges.

(b) Upon approving the amount of compensatory charges computed under paragraph (a) of this section, the Secretary will notify the Secretary of State and the Secretary of the Treasury of his determination.

§ 91.9 Distribution of Compensatory Funds.

(a) On or after January 1 and July 1 of each year, each United State air carrier which has been subjected to discriminatory charges for which compensatory charges have been collected shall, upon compliance with paragraph (c) of this section, be entitled to pro rata reimbursement for discriminatory charges incurred to date, not to exceed the amount of discriminatory charges actually paid by that carrier.

(b) The Secretary will publish in the FEDERAL REGISTER, at least 30 days before U.S. carriers become entitled to reimbursement, a notice setting forth the procedures to be following in making claims for reimbursement. This notice will specify the form in which application shall be made and the specific items of proof, if any, to be submitted.

(c) On or after January 1 and July 1, each U.S. air carrier claiming a right to reimbursement shall apply for such reimbursement in accordance with the FEDERAL REGISTER notice referred to in paragraph (b) of this section.

(d) The Assistant Secretary shall, on the basis of the application and such other data as may be available, compute the amount to which each carrier is entitled.

(e) Upon approving the computation made by the Assistant Secretary, the Secretary will issue such certificate as will entitle each carrier to payment from the account maintained by the Secretary of the Treasury for this purpose.

(f) Foreign air carriers from which compensatory charges have been collected may apply for a refund by following the procedures prescribed in this section for U.S. air carriers in any case where it can be shown that the amount collected from them under this part was based on an error of fact or miscalculation.

§ 91.11 Standards.

(a) To minimize the burden on the United States, United States air carriers and foreign air carriers of implementing this part, estimates and periodic adjustments will be used to determine the amount of discrimination and compensatory charges therefor.

(b) For the purpose of determining the amount of excessive or discriminatory charges imposed upon U.S. carriers by entity,

(1) A service or use of airport or airway property includes, but is not limited to, fueling, food service, ticketing, baggage handling, cleaning or any services necessary and incidental to the conduct of a flight,

(2) A discriminatory or excessive fee includes, but is not limited to, one substantially above the cost of providing a service or any charge for a service that is substantially inferior to that which the U.S. air carrier could have provided for itself by contract or otherwise.

(c) In determining the amount of compensatory charges,

(1) The total amount of excessive or discriminatory charges levied against U.S. air carriers will be estimated, in dollars,

(2) The total volume of operations to the United States by air carriers of the nation concerned will be estimated for the succeeding six-month period,

(3) The total amount of excessive charges in subdivision (1) will be divided by the total volume of operations in subdivision (2), and

(4) The quotient thus computed will constitute the compensatory charge to be collected as a condition to acceptance of the general declaration at the time of landing or takeoff of such air carriers of the nation concerned.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF DEFENSE

Department of the Navy

SECRETARY OF THE NAVY'S ADVISORY COMMITTEE ON NAVAL HISTORY

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. App. I), notice is hereby given that the Secretary of the Navy's Advisory Committee on Naval History will meet on October 28, 1976, at 9:00 a.m., in room 4E442, the Pentagon, Washington, D.C.

The purpose of the meeting is to review the naval historical activities of the past eighteen months and to make comments and recommendations on these activities to the Secretary of the Navy.

Public attendance, depending on available space, may be limited to those persons who have given written notice at least 5 days prior to the meeting of their intention to attend.

Any person desiring information about the Secretary of the Navy's Advisory Committee on Naval History may write to the Director of Naval History, Building 220, Washington Navy Yard, Washington, D.C. 20374.

Dated: October 4, 1976.

JOHN S. JENKINS,
Captain, JAGC, U.S. Navy
Assistant Judge Advocate General (Civil Law).

Office of the Secretary of Defense

DEFENSE ADVISORY COMMITTEE ON WOMEN IN THE SERVICES

Meeting

Pursuant to Pub. L. 92-463 notice is hereby given that the next meeting of the Defense Advisory Committee on Women in the Services (DACOWITS) will be held November 14-18, 1976 in Washington, D.C. at the Hotel Washington, 15th and Pennsylvania Avenue, NW. and at the Pentagon.

Composed of 25 civilian women, DACOWITS meets twice each year to provide the Department of Defense with assistance and advice on matters relating to women in the Armed Forces, to interpret to the public the role of and the need for servicewomen and to encourage the acceptance of military service as a career opportunity.

Sessions will be conducted daily as indicated and will be open to the public. The agenda will include the following meetings and discussions:

NOVEMBER 14—1 P.M.–6 P.M.

HOTEL WASHINGTON

(1) Executive Committee Meeting.
(2) Subcommittee Meeting.

NOVEMBER 15—8:30 A.M.–11:30 A.M.

THE PENTAGON

(1) History of the Women's Military Components.
(2) Results of DACOWITS Accomplishments last 25 years benefitting the women in the Armed Forces.
(3) Future Goal.
(4) Major Address—Future of the Military.

2:45–3:15 P.M.

HOTEL WASHINGTON

(1) National Guard and Reserve Components and Employer Support.
(2) ROTC Program.

NOVEMBER 16—8:30 A.M.–11:45 A.M.

HOTEL WASHINGTON

(1) Manpower Programs.
(2) U.S. Military Academy.
(3) U.S. Air Force Academy.
(4) Subcommittee Meeting.

NOVEMBER 17

FIELD TRIP TO U.S. NAVAL ACADEMY, ANNAPOLIS, MD.

NOVEMBER 18—8 A.M.–12 NOON

HOTEL WASHINGTON

General session

Members of the public will not be permitted to go on the field trip or attend the social functions. The following rules and regulations will govern the participation by members of the public at this meeting:

(1) All business sessions, to include Executive Committee sessions, will be open to the public.

(2) Since the Pentagon is closed to the general public, persons desiring to attend the session on Novembtr 15, 1976 in the Pentagon must notify the DACOWITS Secretariat (202) OXford 5-5153 by October 29, 1976 so that proper escorts to and from the meeting can be arranged.

(3) Interested persons may submit a written statement and/or make an oral presentation for consideration by the Committee during the meeting.

(4) Persons desiring to make an oral presentation or submit a written statement to the Committee must notify Lucille B. Dion, Consultant, DACOWITS Executive Secretary, OASD (Manpower and Reserve Affairs), Room 2C263, The Pentagon, Washington, D.C. 20301 by October 25, 1976.

(5) Length and number of oral presentations to be made will dependent on the number of requests received from the members of the public.

(6) Oral presentations by members of the public will be permitted only from 3:00 p.m. to 4:00 p.m. on November 14, 1976 before the full committee.

(7) Each person desiring to make an oral presentation or submit a written statement must provide the DACOWITS Secretariat with 30 copies of the presentation/statement by November 1, 1976.

(8) Persons submitting a written statement only for inclusion in the minutes of the meeting must submit one (1) copy either before or during the meeting or within five (5) days after the close of the meeting.

(9) Members of the public will not be permitted to enter into the oral discussion conducted by the Committee members at any of the sessions; however, they will be permitted to reply to questions directed to them by members of the Committee.

(10) Members of the public will be permitted to orally question the schedule speakers if time allows after the official participants have asked questions and/or made comments.

(11) Questions from the public will not be accepted during the subcommittee sessions, the executive committee sessions or the final general session on Thursday, November 18, 1976.

Additional information regarding the Committee and/or this meeting may be obtained by contacting Lucille B. Dion, Consultant, DACOWITS Executive Secretary, OASD (M&RA), The Pentagon, Washington, D.C. 20301, telephone (202) OXford 5-5153.

MAURICE W. ROCHE,
Director, Correspondence and Directives OASD (comptroller).

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

Proposed Withdrawal and Reservation of Lands; Correction

OCTOBER 4, 1976.

This is to correct FR Doc. 17780, Vol. 40, No. 132 published July 9, 1975, which contained omissions in the land description.

The Department of the Army has a continuing military requirement for natural resource lands at Fort Wainwright, Alaska and has filed an application, Fairbanks serial number F-020174, for the withdrawal of the lands described below from all forms of appropriation under the public land laws, including the mining and mineral leasing laws.

The applicant desires the land for continued use as an impact range for testing weapons and for field training in an arctic environment.

The greatest part of the area is currently withdrawn by Public Land Order No. 5240 of July 14, 1972, which extended

V41N199 OCT 13 76 UM

the withdrawal made by the act of September 26, 1961, Pub. L. 87–326, 75 Stat. 686, until September 26, 1976, at which time the withdrawal expired. Congressional approval of the new withdrawal is required under the provisions of the act of February 28, 1958, 72 Stat. 27, Pub. L. 85–337.

On or before November 12, 1976 all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 555 Cordova Street, Anchorage, Alaska 99501.

The Department's regulation 43 CFR 2351.4(c) provides that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

FORT WAINWRIGHT MANEUVER AREA

TRACT A

A parcel of land situated approximately 20 miles southeast of Fairbanks, Fourth Judicial District, State of Alaska. Said parcel being all of the following unsurveyed townships and ranges:

T. 1 S., R. 3 E., Fairbanks Meridian,
Sec. 22, E½SE¼;
Secs. 23 and 24, S½;
Secs. 25, 26, 35, and 36, all;
Secs. 27 and 34, E½E½.
Containing 3,600 acres, more or less.

T. 1 S., R. 4 E., Fairbanks Meridian,
Secs. 19, 22, 23, and 24, S½;
Sec. 21, SE¼;
Secs. 25 to 36 inclusive, all.
Containing 9,120 acres, more or less.

T. 1 S., R. 5 E., Fairbanks Meridian,
Secs. 19 to 24 inclusive, S½;
Secs. 25 to 36 inclusive, all.
Containing 9,600 acres, more or less.

T. 1 S., R. 6 E., Fairbanks Meridian,
Secs. 19 to 22 inclusive, S½;
Secs. 27 to 34 inclusive, all.
Containing 6,400 acres, more or less.

T. 2 S., R. 3 E., Fairbanks Meridian,
Secs. 1, 2, 11, 12, and 25, all;
Secs. 3, 10, and 15, E½E½;
Sec. 14, N½, W½SW¼;
Sec. 22, E½NE¼, NE¼SE¼;
Sec. 23, W½NW¼, S½SE¼, NE¼SE¼;
Sec. 24, S½;
Sec. 26, E½, SW¼, S½NW¼, NE¼NW.
Containing 5,320 acres, more or less.

T. 2 S., R. 4 E., Fairbanks Meridian,
Secs. 1 to 16 inclusive, 21 to 30 inclusive, 34 to 36 inclusive, all;
Sec. 17, E½;
Sec. 19, S½;
Sec. 20, E½, SW¼.
Containing 19,680 acres, more or less.

T. 2 S., R. 5 E., Fairbanks Meridian,
Secs. 1 to 36 inclusive, all.
Containing 23,040 acres, more or less.

T. 2 S., R. 6 E., Fairbanks Meridian,
Secs. 1 to 36 inclusive, all.
Containing 23,040 acres, more or less.

T. 2 S., R. 7 E., Fairbanks Meridian,
Secs. 1 to 36 inclusive, all.
Containing 23,040 acres, more or less.

T. 2 S., R. 8 E., Fairbanks Meridian,
Secs. 6, 7, 18, 19, 30, and 31, all;
Secs. 5, 8, 17, 20, 29, and 32, W½, W½E½.
Containing 6,720 acres, more or less.

T. 3 S., R. 4 E., Fairbanks Meridian,
Secs. 1 to 3 inclusive, 10 to 15 inclusive, 22 to 27 inclusive, 34 to 36 inclusive, all.
Containing 11,520 acres, more or less.

T. 3 S., Range 5 E., Fairbanks Meridian,
Secs. 1 to 36 inclusive, all. Excepting therefrom that parcel of land (Fairbanks Serial No. 012866) withdrawn by PLO No. 1345 dated October 16, 1956 as amended by PLO No. 1523 dated October 8, 1957.
Containing 22,078.58 acres, more or less.

T. 3 S., R. 6 E., Fairbanks Meridian,
Secs. 1 to 36 inclusive, all.
Containing 23,040 acres, more or less.

T. 3 S., R. 7 E., Fairbanks Meridian,
Secs. 1 to 36 inclusive, all.
Containing 23,040 acres, more or less.

T. 3 S., R. 8 E., Fairbanks Meridian,
Secs. 6, 7, 18, 19, 30, and 31, all;
Secs. 5, 8, 17, 20, 29, and 32, W½, W½E½.
Containing 6,720 acres, more or less.

T. 4 S., R. 4 E., Fairbanks Meridian,
Sec. 1, all;
Sec. 2, E½, NW¼, N½SW¼;
Sec. 3, NE¼, N½NW¼;
Sec. 12, NE¼, N½NW¼.
Containing 1,680 acres, more or less.

T. 4 S., R. 5 E., Fairbanks Meridian,
Secs. 1 to 6 inclusive, 8 to 15 inclusive, all;
Secs. 7 and 16, N½, SE¼, N½SW¼;
Sec. 17, NE¼, N½NW¼. Excepting therefrom that parcel of land (Fairbanks Serial No. 012867) withdrawn by PLO No. 1345 dated October 16, 1956 as amended by PLO No. 1523 dated October 8, 1957.
Containing 9,393.09 acres, more or less.

T. 4 S., R. 6 E., Fairbanks Meridian,
Secs. 1 to 18 inclusive, all.
Containing 11,520 acres, more or less.

T. 4 S., R. 7 E., Fairbanks Meridian,
Secs. 1 to 11 inclusive, 16 to 18 inclusive, all;
Sec. 12, N½, N½SW¼;
Sec. 14, N½NW¼, SW¼NW¼, NW¼NE¼;
Sec. 15, N½, N½SW¼, SW¼SW¼, NW¼SE¼.
Containing 10,000 acres, more or less.

T. 4 S., R. 8 E., Fairbanks Meridian,
Sec. 5, NW¼, W½NE¼, NW¼SW¼;
Sec. 6, all;
Sec. 7, N½NW¼.
Containing 1,000 acres, more or less.

The above described parcels of land contain 249,551.67 acres, more or less.

CURTIS V. MCVEE,
State Director.

UTAH

Application

Notice is hereby given that pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Mountain Fuel Supply Company has applied for a 3 inch natural gas pipeline right-of-way across the following lands:

SALT LAKE MERIDIAN

UTAH

T. 13 S., R. 21 E.,
Secs. 25, 26, and 27.
T. 13 S., R. 22 E.,
Secs. 30 to 33 inclusive.
T. 14 S., R. 22 E.,
Secs. 3 and 4.

The pipeline will convey gas from Texaco Government "AF" Well No. 1, Uintah County, Utah, which ascends out of Willow Creek Canyon, easterly to Jim's Reservoir Canyon, then heads southeasterly joining Seep Ridge and terminating at the junction of Mesa Pipeline.

The purpose of this notice is to inform the public that the Bureau will be proceeding with the preparation of environmental and other analyses necessary for determining whether the application should be approved, and if so, under what terms and conditions.

Interested persons should express their interest and views to the Vernal District Manager, Bureau of Land Management, P.O. Box F, Vernal, Utah 84078.

PAUL L. HOWARD,
State Director.

Fish and Wildlife Service

GILA TOPMINNOW

Emergency Exemption; Issuance

On September 27, 1976, a letter of exemption was issued to the Regional Director of Region 2, United States Fish and Wildlife Service authorizing certain emergency actions to enhance the survival of a population of Gila topminnow (*Poeciliopsis occidentalis*). The emergency actions necessary would be to remove the population of Gila topminnow from Leslie Creek in the event remaining pools become dry due to severe drought. A copy of the Letter of Exemption is herewith presented.

This emergency exemption is provided in accordance with Pub. L. 94–359 (90 STAT. 911) which provided certain amendments to the Endangered Species Act of 1973.

Dated: October 7, 1976.

C. R. BAVIN,
Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

BUREAU OF SPORT FISHERIES AND WILDLIFE

TO: Regional Director, Region 2
FROM: Chief, Div. of Law Enforcement
SUBJECT: Letter of Exemption Authorizing the Holding of Gila Topminnow (Poeciliopsis occidentalis) at Dexter National Fish Hatchery

This exemption authorizes you to move the population of Gila topminnow from the remaining habitat of Leslie Creek, to the Dexter National Fish Hatchery.

This authority is granted in order to conduct activities designed to save the Leslie Creek population of Gila topminnow from extinction due to the present drought conditions of the area and pending danger of the remaining pools going dry. It is our understanding that the fish will be taken pursuant to the authority of permit No. PRT 6–238–C, issued to the Director, Arizona Game and Fish Department, and that the additional authority is needed by U.S. Fish and Wildlife Service personnel to receive the fish and subsequently hold them at Dexter National Fish Hatchery for scientific research and propagation purposes.

The exemption is given with the condition that a completed permit application be forwarded to the Washington Law Enforcement Permit Office without relay for further processing.

[Docket No. Wash. 75–1]

WALRUS

Change in Alaska State Walrus Regulations

Notice is hereby given of a change in the Alaska State walrus regulations originally approved by the Director, United States Fish and Wildlife Service, on April 5, 1976.

The Alaska Fish and Game Code, 5 AAC 81.100, as approved on April 5, 1976, provided that "walrus may be hunted only with a rifle having a caliber of .264 (6.5mm) or larger (except .30–30 caliber rifles may not be used to take walrus."

The State has proposed to amend the above quoted phrase to read as follows: "walrus may be hunted only with a rifle having a caliber of .264 (6.5mm) or larger with a minimum length of the brass portion of the cartridge case of no less than 2⅛ (2.125) inches or 53.5mm (except that rifles chambered for the .300 Savage, .308 Winchester or a 45/70 may be used)".

After consultation with the Marine Mammal Commission, I have determined that this change is insignificant and does not affect the scope of the waiver of the moratorium on the taking of Pacific walrus. I hereby approve the change, effive on October 13, 1976.

A complete set of the State of Alaska walrus hunting regulations is available for inspection from 8:00 a.m. to 4:00 p.m. at 1612 K Street, N.W., Washington, D.C., suite 1200.

LYNN A. GREENWALT,
Director, U.S. Fish & Wildlife Service.

National Park Service

H. I. FROSETH AND DAN FROSETH

Intention To Negotiate Concession Contract

Pursuant to the provisions of section 5 of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that thirty (30) days after the date of publication of this notice, the Department of the Interior, through the Director of the National Park Service, proposes to negotiate a concession contract with H. I. Froseth and Dan Froseth, partners doing business as Oak Bottom Marina, authorizing them to continue to provide concession facilities and services for the public at Oak Bottom and Brandy Creek Sites, Whiskeytown Lake, Whiskeytown National Recreation Area for a period of five (5) years from January 1, 1976, through December 31, 1980.

An assessment of the environmental impact of this proposed action has been made and it has been determined that it will not significantly affect the quality of the environment, and that it is not a major Federal action having a significant impact on the environment under the National Environmental Policy Act of 1969. The environmental assessment may be reviewed in the Office of the Superintendent, Whiskeytown National Recreation Area, P.O. Box 188, Whiskeytown, California, 96095.

The foregoing concessioners have performed their obligations to the satisfaction of the Secretary under an existing contract which expired by limitation of time on December 31, 1975, and therefore, pursuant to the Act of October 9, 1965, as cited above, is entitled to be given preference in the renewal of the contract and in the negotiation of a new contract. However, the Secretary is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before November 12, 1976.

Interested parties should contact the Assistant Director, Concessions Management, National Park Service, Washington, D.C. 20240, for information as to the requirements of the proposed contract.

Dated: September 28, 1976.

PHILIP O. STEWART,
Acting Associate Director, National Park Service.

SOUTHWEST REGIONAL ADVISORY COMMITTEE

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Southwest Regional Advisory Committee will be held at 8:30 a.m., C.D.T., November 8 and 9, 1976, at the Visitor Center at Chalmette National Historical Park, New Orleans, Louisiana.

The Southwest Regional Advisory Committee was established pursuant to Pub. L. 91–383 to provide for the free exchange of ideas between the National Park Service and the public and to facilitate the solicitation of advice or other counsel from members of the public on programs and problems pertinent to the Southwest Region of the National Park Service.

The members of the Southwest Regional Advisory Committee are:

Mr. Bob Burleson, Temple, Texas.
Dr. Neil Compton, Bentonville, Arkansas.
Mr. Ernie C. Deane, Fayetteville, Arkansas.
Dr. Bertha P. Dutton, Santa Fe, New Mexico.
Mr. Sam R. Powell, Tulsa, Oklahoma (Chairman).
Mr. J. R. Singleton, Austin, Texas.
Mrs. Roulhac Toledano, New Orleans, Louisiana.
Mr. Elo J. Urbanovsky, Lubbock, Texas.

Designated Federal Officer to attend the meeting is Joseph C. Rumberg, Jr., Regional Director, Southwest Region, National Park Service, or his designee.

The matters to be discussed at this meeting include:

1. Chalmette National Historical Park Master Plan.
2. Volunteer-In-Parks Program.
3. The National Park Service in Urban Parks.
4. How to Make the Advisory Committee Work.

The meeting will be open to the public. However, facilities and space for accommodating members of the public are limited, and persons will be accommodated on a first-come, first-served basis. Any member of the public may appear before the Committee or file with the Committee a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting, or who wish to submit written statements, may contact Frank Mentzer, Assistant to the Regional Director, P.O. Box 728, National Park Service, Southwest Regional Office, Santa Fe, New Mexico, 87501, telephone Area Code 505 988–6375. Minutes of the meeting will be available for public inspection four weeks after the meeting at the office of the Southwest Region.

Dated: September 29, 1976.

JOSEPH C. RUMBURG, JR.,
Regional Director, Southwest Region, National Park Service.

National Park Service

DESIGNATION OF OFFICERS OR EMPLOYEES

Delegation of Authority

Notice is hereby given of the designation of certain officers and employees of the National Park Service, Department of the Interior, to exercise the authorities provided by section 10(b) of the Act of October 7, 1976, for the purpose of maintaining law and order and protecting persons and property within areas of the National Park System. Such designation, pursuant to the policies and standards prescribed by the Department of the Interior in Chapter 2 of Part 446 of the Department Manual (Release No. 1706 dated December 20, 1974), is authorized by §10(b) of the Act of October 7, 1976, and is conferred by the Director, National Park Service, pursuant to the authority delegated by Chapter 1 of Part 245 of the Department Manual (Release No. 1667 dated August 16, 1974).

Officers and employees so designated are: (1) all officers of the United States Park Police and (2) all other employees of the National Park Service who possess law enforcement certification as specified by Department of the Interior and National Park Service regulations and guidelines. Each designee is authorized, when acting according to orders, instructions or policy, to exercise the authorities set forth in section 10(b) of the Act.

Immediate designation is required because section 10(a) of the Act repealed, all or in part, those portions of the Act of March 3, 1897 (29 Stat. 621; 16 U.S.C. 415), as supplemented, relating to certain arrest authority relative to national military parks, the Act of March 3, 1905 (33 Stat. 872; 16 U.S.C. 10, 559), as amended, relating to arrest authority relative to laws and regulations applicable to national parks, the Act of March 2, 1933 (47 Stat. 1420; 16 U.S.C. 10a), as amended, relating to certain arrest authority for certain employees of the National Park Service, and the Act of October 8, 1964 (78 Stat. 1041; 16 U.S.C. 460n–5), as amended, relating to arrest authority relative to the Lake Mead National Recreation Area, and substituted in lieu thereof the new authorities provided in section 10(b).

This designation shall take effect immediately.

Dated: October 8, 1976.

GARY EVERHARDT,
Director, National Park Service.

MODOC NATIONAL FOREST GRAZING ADVISORY BOARD

Reports on Closed Meeting, Availability

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. II, 1972) and OMB Circular A–63 of March 27, 1974, the Department of Agriculture's Modoc National Forest Grazing Advisory Board, which held a closed meeting in 1975, has prepared a report on the activities of that meeting. Copies of the report have been filed and are available for public inspection at two locations:

Library of Congress, Microform Reading Room, Room MB–140B, Main Building, 10 First Street, S.E., Washington, D.C.

Department of Agriculture, Office of Management and Finance, Room 115–A, Administration Building, 14th Street and Independence Avenue, S.W., Washington, D.C.

J. PAUL BOLDUC,
Assistant Secretary, for Administration.

DEPARTMENT OF COMMERCE

Economic Development Administration

MIDWEST HANDBAG CO.

Petition for Determination of Eligibility Under Section 251 of the Trade Act of 1974

A petition by Midwest Handbag Company, c/o Mr. Chester S. Laycob, 12364 B Shoreridge Court, Maryland Heights, Missouri 63034, a producer of ladies' handbags in St. Louis, was accepted for filing on October 6, 1976, under section 251 of the Trade Act of 1974. Consequently, the United States Department of Commerce has initiated an investigation to determine whether increased imports into the United States of articles like or directly competitive with those produced by the firm contributed importantly to total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of the petitioning firm.

Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by the Chief, Trade Act Certification Division, Economic Development Administration, U.S. Department of Commerce, Washington, D.C. 20230, no later than the close of business of the tenth calendar day following the publication of this notice.

JACK W. OSBURN, JR.,
Chief, Trade Act Certification Division, Office of Planning and Program Support.

DETERMINATION OF OPERATING-DIFFERENTIAL SUBSIDIES

Proposed Amendments to the Manual of Procedures, Extension of Time

In Doc. 76–28127, appearing in the FEDERAL REGISTER on September 24, 1976, (41 FR 41950) notice was given that the Assistant Secretary of Commerce for Maritime Affairs and the Maritime Subsidy Board are considering minor changes to Parts Three, Four and Five of the Manual of General Procedures for Determining Operating-Differential Subsidy.

The time established for filing written comments on the proposed changes was not later than October 29, 1976.

Upon request of the American Institute of Merchant Shipping, good cause having been shown, the time for submission of written comments is hereby extended to November 12, 1976.

Dated: October 7, 1976.

By order of the Maritime Subsidy Board and the Assistant Secretary of Commerce for Maritime Affairs.

JAMES S. DAWSON, Jr.,
Secretary.

GULF REGIONAL FISHERY MANAGEMENT COUNCIL

Public Meeting

Notice is hereby given of a meeting of the Gulf Regional Fishery Management Council established by section 302 of the Fishery Conservation and Management Act of 1976 (Pub. L. 94–265).

The Gulf Council will have authority, effective March 1, 1977, over fisheries within the fishery conservation zone adjacent to Alabama, West Coast of Florida, Louisiana, Mississippi and Texas. The Council will, among other things, prepare and submit to the Secretary of Commerce fishery management plans with respect to the fisheries within its area of authority; prepare comments on applications for foreign fishing; and conduct public hearings as it deems necessary.

This is the second organizational meeting of the Council. The meeting will be held Wednesday, Thursday, and Friday, November 3, 4 and 5, 1976, in the Pavilion Room of the Jacksonville Hilton, 565 South Main Street, Jacksonville, Florida. The meeting will convene at 9:00 a.m. and adjourn at approximately 5:00 p.m. each day.

Proposed Agenda:

1. Council Organization and Administration Procedures.
2. Technical Procedures Including Fishery Management Plan Development.

This meeting is open to the public and there will be seating for a limited number of public members available on a first come, first served basis. Members of the public having an interest in specific items for discussion are also advised that agenda changes are at times made prior to the meeting. To receive information on changes, if any, made to the agenda, interested members of the public should contact on or about October 27, 1976:

Regional Director, National Marine Fisheries Service, Duval Building, 9450 Gandy Blvd., St. Petersburg, Florida 33702.

At the discretion of the Council, interested members of the public may be permitted to speak at times which will allow the orderly conduct of Council business. Interested members of the public who wish to submit written comments should do so by addressing the Regional Director at the above address. To receive due consideration and facilitate inclusion of these comments in the record of the meeting, typewritten statements should be received within 10 days after the close of the Council meeting.

Dated: October 7, 1976.

JACK W. GEHRINGER,
Deputy Director, National Marine Fisheries Service.

SOUTH ATLANTIC REGIONAL FISHERY MANAGEMENT COUNCIL

Public Meeting

Notice is hereby given of a meeting of the South Atlantic Regional Fishery Management Council established by section 302 of the Fishery Conservation and Management Act of 1976 (Pub. L. 94–265).

The South Atlantic Council will have authority, effective March 1, 1977, over fisheries within the fishery conservation zone adjacent to East Coast of Florida, Georgia, North Carolina and South Carolina. The Council will, among other things, prepare and submit to the Secretary of Commerce fishery management plans with respect to the fisheries within its area of authority; prepare comments on applications for foreign fishing; and conduct public hearings as it deems necessary.

This is the second organizational meeting of the Council. The meeting will be held Wednesday, Thursday, and Friday, November 3, 4 and 5, 1976, in the Duval A–B–C Rooms of the Jacksonville Hilton, 565 South Main Street, Jacksonville, Florida. The meeting will convene at 9:00 a.m. and adjourn at approximately 5:00 p.m. each day.

Proposed Agenda:

1. Council Organization and Administration Procedures.
2. Technical Procedures Including Fishery Management Plan Development.

This meeting is open to the public and there will be seating for a limited number of public members available on a first come, first served basis. Members of the public having an interest in specific items for discussion are also advised that agenda changes are at times made prior to the meeting. To receive information on changes, if any, made to the agenda, interested members of the public should contact on or about October 27, 1976:

Regional Director, National Marine Fisheries Service, Duval Building, 9450 Gandy Blvd., St. Petersburg, Florida 33702.

At the discretion of the Council, interested members of the public may be permitted to speak at times which will allow the orderly conduct of Council business. Interested members of the public who wish to submit written comments should do so by addressing the Regional Director at the above address. To receive due consideration and facilitate inclusion of these comments in the record of the meeting, typewritten statements should be received within 10 days after the close of the Council meeting.

MARINE TURTLE PROGRAM

Meeting

Notice is hereby given of a public meeting to discuss the National Marine Fisheries Service's Marine Turtle Program. The National Marine Fisheries Service is currently investigating the status of the habitat of marine turtles. Studies also are in progress concerning the taking of marine turtles incidental to commercial fishing operations, including the modification of shrimp trawls to reduce or eliminate the incidental catch. During the meeting, these and other related items will be discussed. The meeting will be held on Wednesday, October 27, 1976, in the Birchwood Room of the Holiday Inn, (Tampa Airport), 4500 West Cypress Street, Tampa, Florida.

The meeting will convene at 10:00 a.m. and adjoin at approximately 5:00 p.m..

Proposed Agenda:

1. Review of NMFS' Marine Turtle Program.
2. Future requirements.
3. Priority considerations.

The meeting is open to the public on a first-come, first-serve basis. There will be seating for approximately 50 persons. For further information concerning this meeting, interested members of the public should contact:

Regional Director, National Marine Fisheries Service, Duval Building, 9450 Gandy Boulevard, St. Petersburg, Florida 33702.

Dated: October 8, 1976.

Federal Council on the Aging

SENIOR SERVICES COMMITTEE

Meeting

The Federal Council on the Aging was established by the 1973 amendments to the Older Americans Act of 1965 (Pub. L. 93–29) for the purpose of advising the President, the Secretary of Health, Education, and Welfare, the Commissioner on Aging, and the Congress on matters relating to the special needs of older Americans.

Notice is hereby given pursuant to Pub. L. 92–463 that the Council's Senior Services Committee will meet on October 26–27, 1976, from 9:30 a.m. to 4 p.m. in the Snow Room, Room 5150, HEW North Building, 330 Independence Ave., SW., Washington, D.C. The agenda will consist of: Recommendations for 1977 Council Work Plan; Review of Proposed Legislation and Review of Recommendations for Services to the Frail Elderly.

This meeting will be open for public observation.

Further information on the Council may be obtained from: Cleonice Tavani, Executive Director, Federal Council on the Aging, Washington, D.C. 20201, telephone: (202) 245–0441.

MISSOURI PSRO AREA I

Results of Notification to Physicians Regarding Agreement To Designate Professional Standards Review Organization

On August 16, 1976, the Secretary of Health, Education, and Welfare published in the FEDERAL REGISTER a notice in which he announced his intention to enter into an agreement with the Northwest Missouri PSRO designating it as the Professional Standards Review Organization for PSRO Area I of the State of Missouri, which area is designated a Professional Standards Review Organization Area in 42 CFR 101.29.

Such notice was also published in three consecutive issues of the Kansas City Star & Times, St. Joseph News Press & Gazette, Sedalia Democrat, Marshall Democrat News, Maryville Daily Forum, Nevada Daily Mail, Constitution Tribune, and the Independence Examiner on August 16, 17, and 18, 1976. In addition, copies of the notice were mailed to organizations of practicing doctors of medicine or osteopathy, including the appropriate State and county medical and specialty societies, and hospitals and other health care facilities in the area, with a request that each such society or facility inform those doctors in its membership or on its staff who are engaged in active practice in PSRO Area I of the State of Missouri of the contents of the notice.

The notice requested that any licensed doctor of medicine or osteopathy engaged in active practice in PSRO Area I of the State of Missouri who objects to the Secretary entering into an agreement with the Northwest Missouri PSRO on the grounds that such organization is not representative of doctors in PSRO Area I of the State of Missouri, mail such objection in writing to the Secretary, Department of Health, Education, and Welfare, P.O. Box 1568, FDR Station, New York, New York 10022 on or before September 15, 1976.

V41 1999 OCT 13 76 UM

After reviewing the final tabulation of objections from doctors of medicine or osteopathy in PSRO Area I of the State of Missouri, the Secretary has determined, pursuant to 42 CFR 101.105, that not more than 10 per centum of the doctors engaged in the active practice of medicine or osteopathy in PSRO Area I of the State of Missouri have expressed timely objection to the Secretary entering into an agreement with the Northwest Missouri PSRO. Therefore, the Secretary will proceed to enter into an agreement with the Northwest Missouri PSRO designating it as the Professional Standards Review Organization for PSRO Area I of the State of Missouri.

Dated: October 5, 1976.

JOHN H. KELSO,
Deputy Administrator,
Health Services Administration.

NORTH DAKOTA

Results of Notification to Physicians Regarding Agreement To Designate Professional Standards Review Organization

On August 16, 1976, the Secretary of Health, Education, and Welfare published in the FEDERAL REGISTER a notice in which he announced his intention to enter into an agreement with North Dakota Health Care Review designating it as the Professional Standards Review Organization for the State of North Dakota, which area is designated a Professional Standards Review Organization Area in 42 CFR 101.38.

Such notice was also published in three consecutive issues of the Devil's Lake Journal, Dickinson Press, Bismark Tribune, Jamestown Sun, Minot Daily News, Fargo Forum, Valley City Times Record, Williston Daily Herald, and the Grand Forks Herald on August 16, 17, and 18, 1976. In addition, copies of the notice were mailed to organizations of practicing doctors of medicine or osteopathy, including the appropriate State and county medical and specialty societies, and hospitals and other health care facilities in the area, with a request that each such society or facility inform those doctors in its membership or on its staff who are engaged in active practice in the State of North Dakota of the contents of the notice.

The notice requested that any licensed doctor of medicine or osteopathy engaged in active practice in the State of North Dakota who objects to the Secretary entering into an agreement with North Dakota Health Care Review on the grounds that such organization is not representative of doctors in the State of North Dakota, mail such objection in writing to the Secretary, Department of Health, Education, and Welfare, P.O. Box 1588, FDR Station, New York, New York 10022 on or before September 15, 1976.

After reviewing the final tabulation of objections from doctors of medicine or osteopathy in the State of North Dakota, the Secretary has determined, pursuant to 42 CFR 101.105, that not more than 10 per centum of the doctors engaged in the active practice of medicine or osteopathy in the State of North Dakota have expressed timely objection to the Secretary entering into an agreement with North Dakota Health Care Review. Therefore, the Secretary will proceed to enter into an agreement with North Dakota Health Care Review designating it as the Professional Standards Review Organization for the State of North Dakota.

INTERAGENCY COMMITTEE ON EMERGENCY MEDICAL SERVICES

Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following National Advisory body scheduled to assemble during the month of November 1976:

Name: Interagency Committee on Emergency Medical Services.
Date and time: November 23, 1976, 9:00 a.m.
Place: Conference Rooms G and H, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852.
Open for entire meeting.

Purpose: The Committee evaluates the adequacy and technical soundness of all Federal programs and activities which relate to emergency medical services and provides for the communication and exchange of information necessary to maintain the coordination and effectiveness among such Federal programs and activities and makes recommendations to the Secretary respecting the administration of grants and contracts under Title XII, including the making of regulations for the emergency medical systems program.

Agenda: The agenda will consist of: further discussion of items deferred for action at the last meeting, status of the extension legislation for Pub. L. 93-154 (The EMSS Act of 1973), including burn legislation, reports from the Work Groups of the IACEMS, consideration of a memorandum of understanding between DOT and HEW and emergency medical service projects.

The meeting is open to the public for observation. Anyone wishing to attend, obtain a roster of members, minutes of meeting, or other relevant information should contact John D. Reardon, Room 320, 6525 Belcrest Road, Hyattsville, Maryland 20782, Telephone (301) 436-6284. Public seating is limited to forty (40). Please contact at least 72 hours before the meeting.

Agenda items are subject to change as priorities dictate.

Dated: October 5, 1976.

ARTHUR SCHWARTZ,
Acting Associated
Administrator for Management.

Office of the Secretary

SOCIAL SECURITY CONTRIBUTION AND BENEFIT BASE AND RETIREMENT

Test Exempt Amount for 1977

Pursuant to authority contained in sections 203(f)(8) and 230 of the Social Security Act (42 U.S.C. 403(f)(8) and 430), as amended by section 8(h) and (i) of Pub. L. 94-202, enacted January 2, 1976, I hereby determine and announce that the contribution and benefit base with respect to remuneration paid in, and taxable years beginning in 1977 shall be $16,500 and the monthly exempt amount under the retirement test shall be $250 with respect to taxable years ending in calendar year 1977.

There follows a statement of the actuarial bases employed in arriving at the amounts of $250 and $16,500 for the retirement test monthly exempt amount and the contribution and benefit base, respectively, for the calendar year 1977.

In determining each of the 1977 amounts, the law specifies a formula which automatically produces a mathematical result based upon reported statistics.

Section 203(f)(8) of the Social Security Act provides that the retirement test monthly exempt amount for 1977 shall be equal to the 1976 amount of $230 multiplied by the ratio of (1) the average amount, per employee, of the taxable wages of all employees reported under the program for the first calendar quarter of 1975 to (2) the average amount of such wages reported for the first calendar quarter of 1974. The section further provides that if the amount so determined is not a multiple of $10, it shall be rounded to the nearest multiple of $10.

Similarly, section 230 of the Social Security Act provides that the contribution and benefit base for 1977 shall be equal to the 1976 amount of $15,300 multiplied by the ratio of (1) the average amount, per employee, of the taxable wages of all employees reported under the program for the first calendar quarter of 1975 to (2) the average amount of such wages reported for the first calendar quarter of 1974. The section further provides that if the amount so determined is not a multiple of $300, it shall be rounded to the nearest multiple of $300.

The data used to make the necessary computations of such average taxable wages were derived from reports submitted to the Social Security Administration of taxable wages paid to employees by their employers. Each quarter, taxable wages are posted to the record of earnings of each individual employee for whom wages were reported. These records are referred to hereinafter as Summary Earnings Records. As the wages were posted to the Summary Earnings Records, the data were tabulated on a 100-percent basis to obtain the total amount of reported taxable wages and the total number of employees for whom such wages were reported. The tabulated data on taxable wages reported for the first calendar quarter of each year 1974 and 1975 were limited to those wages that were reported and posted to the Summary Earnings Records by the end of the quarterly updating operations completed in September of the same year.

About 71.1 million employees had taxable wages reported for the first calendar quarter of 1974 that were posted to the Summary Earnings Records by the end of September 1974, and the average amount of their taxable wages was $2,007.69 per employee. The corresponding number of employees and average amount of taxable wages for the first calendar quarter of 1975 were 70.6 million and $2,157.73, respectively. The ratio of average taxable wages reported for the first quarter of 1975 to average taxable wages reported for the first quarter of 1974 is therefore 1.074733.

Multiplying the 1976 retirement test monthly exempt amount of $230 by the ratio of 1.074733 produces the amount of $247.19, which must then be rounded to $250. Accordingly, the retirement test exempt amount for taxable years ending in calendar year 1977 is $250 on a monthly basis, or $3,000 on an annual basis.

Multiplying the 1976 contribution and benefit base of $15,300 by the ratio of 1.074733 produces the amount of $16,443.41, which must then be rounded to $16,500. Accordingly, the contribution and benefit base for remuneration paid in, and taxable years beginning in, calendar year 1977 is $16,500.

The following is an extension of the Table for Determining Primary Insurance Amount and Maximum Family Benefits provided in section 215(a) of the Social Security Act. This extension reflects the new higher average monthly wage and related benefit amounts now possible under the increased contribution and benefit amounts promulgated herein effective January 1977 in accordance with section 215(i) of the Social Security Act.

Table for determining primary insurance amount and maximum family benefits beginning January 1977

STUDENT FINANCIAL ASSISTANCE STUDY GROUP

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of a meeting of the Student Financial Assistance Study Group to be held on Thursday, October 28, 1976 from 2:00 p.m. until 5:00 p.m. and on Friday, October 29, 1976 from 9:00 a.m. until 4:00 p.m. These meetings will be held in the HEW South Portal Building, 200 Independence Avenue, S.W., Washington, D.C. 20201. The meeting room numbers will be posted in the lobby of the South Portal Building on October 28, 1976 and October 29, 1976.

The Student Financial Assistance Study Group was established by the Secretary of Health, Education, and Welfare on August 27, 1976, to advise on ways to implement more effectively and efficiently the Student Financial Assistance Programs administered by the Department.

The agenda items for these meetings include:

Swearing-in Ceremony.
Introductory Comments by Secretary and other officials.
Student Financial Assistance Study Group Charter.
Study Group Objectives.

Members of the public are invited to attend the meetings. Because of limited meeting accommodations, reservations are recommended. Persons wishing to attend should notify the Study Group Staff Director by mail at room 323H, 200 Independence Avenue, S.W., Washington, D.C. 20201 or by telephone at (202) 245-9855.

Persons wishing to present oral or written statements for consideration by the Study Group are encouraged to do so at public hearings which will be held for that purpose. Notice of the date, time, and location of the public hearings will be published in later issues of the FEDERAL REGISTER.

MARY JANE CALAIS,
Staff Director, Student Financial Assistance Study Group.

Social and Rehabilitation Service

STATE ASSISTANCE EXPENDITURES

Promulgation of Federal Percentages and Federal Medical Assistance Percentages

The purpose of this notice is to promulgate Fedcral percentages and Federal medical asisstance percentages to be used in determining Federal financial participation in State assistance expenditures under Titles I, IV-A, X, XIV, XVI (AABD), and XIX of the Social Security Act for each of the 50 States, Puerto Rico, the District of Columbia, the Virgin Islands, and Guam, as specified in the Act, or as determined pursuant thereto on the basis of per capita income data specified therein.

The bases are section 1101(a)(8)(B) of the Act (42 U.S.C. 1301(a)(8)(B)) which provides for the determination and promulgation of Federal percentages and section 1905(b) of the Act (42 U.S.C. 1396(d)(b)) which provides for the determination and promulgation of Federal medical assistance percentages.

Under section 1118 of the Act, States with approved title XIX plans may claim Federal financial participation for ex-

V41 1999 OCT 13 76 UM

penditures under approved State plans under titles I, IV–A, X, XIV or XVI either at the Federal percentage or the Federal medical assistance percentage, as set forth below. Claims at the medical assistance percentage may be made without regard to any maximum on the dollar amounts per recipient which may be counted under paragraphs (1) and (2) of sections 3(a), 403(a), 1003 (a), 1403 (a), and 1603(a).

The percentages promulgated are as follows:

(1) The percentages for the quarter beginning July 1, 1977 and ending September 30, 1977, shall be the same as published in the FEDERAL REGISTER on September 13, 1974, 39 FR 33019, for the period beginning July 1, 1975 and ending June 30, 1977.

(2) The percentages for each of the eight quarters beginning October 1, 1977 and ending September 30, 1979, shall be as listed below.

Federal percentage and Federal medical assistance percentage, effective Oct. 1, 1977–Sept. 30, 1979 (fiscal years 1978 and 1979)

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[Docket No. NFD–366 FDAA–521–DR]

CALIFORNIA

Amendment to Notice of Major Disaster

Pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11795 of July 11, 1974, and delegated to me by the Secretary of the Department of Housing and Urban Development Delegation of Authority, Docket No. D–74–285; and by virtue of the Act of May 22, 1974, entitled "Disaster Relief Act of 1974" (88 Stat. 143); notice is hereby given that on October 1, 1976, the President amended his major disaster declaration of September 21, 1976, as follows:

I hereby amend my September 21, 1976, declaration of a "major disaster" for the State of California to read as follows:

I have determined that the damage in certain areas of the State of California resulting from severe storms and flooding associated with Tropical Storm Kathleen, beginning about September 10, 1976, and from severe storms and flooding beginning about September 23, 1976, is of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 93–288. I therefore declare that such a major disaster exists in the State of California.

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11795, and delegated to me by the Secretary under Department of Housing and Urban Development, Delegation of Authority, Docket No. D–74–285, I hereby appoint Mr. Robert C. Stevens, HUD Region IX, to act as the Federal Coordinating Officer for this declared major disaster.

I do hereby determine the following areas of the State of California to have been adversely affected by this declared major disaster:

The counties of:

Imperial Riverside
San Bernardino

(Catalog of Federal Domestic Assistance No. 14.701, Disaster Assistance.)

Dated: October 1, 1976.

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

SPECIAL BRIDGE REPLACEMENT PROGRAM

Allocation of FY 1977 Funds With Redistribution Adjustments

Purpose. The purpose of this document is to publish an internal Federal Highway Administration Notice stating the allocation of bridge replacement funds.

This material is published as required by the order of the United States District Court for the District of Columbia in "National Wildlife Federation v. Brinegar", Civil Action No. 1269–73 (August 22, 1975).

Issued: September 30, 1976.

J. R. COUPAL, JR.,
Deputy Administrator.

FHWA NOTICE N 4510.53 (SEPT. 8, 1976)

ALLOCATION OF FY 1977 SPECIAL BRIDGE REPLACEMENT FUNDS

1. *Purpose.* To allocate bridge replacement funds authorized for FY 1977 by Section 202(5) of the Highway Safety Act of 1976.

2. *Cancellation.* This Notice cancels FHWA Notice N 4510.35, "Allocation of FY 1976 Special Bridge Replacement Funds with Redistribution Adjustments," dated August 8, 1975.[1] (40 FR 53950)

3. *Background.* This Notice makes allocation of fiscal year 1977 funds and also reflects the restoration of those funds which were redistributed to a few States during the transitional quarter in accordance with the provisions of the Bridge Division Chief's memorandum of May 25, 1976, to all Regional Administrators. The unobligated funds redistributed were from fiscal year 1976 and prior years.

4. *Allocation.* The attached table shows (1) the total allocations of FY 1976 and prior year bridge replacement funds as of the date of this Notice, including the adjustments made for redistribution during the transitional quarter, (2) the FY 1977 funds allocated by this Notice as adjusted to reflect restoration of the prior redistribution, (3) the total allocations including FY 1977 funds, and (4) for information only, the unadjusted allocation of FY 1977 funds.

5. *Availability.*

a. All of the funds shown in column (2) of the attachment will be available for obligation on October 1, 1976.

b. Obligation of the funds is subject to obligation control procedures in force for the fiscal year in which the funds are obligated. Bridge replacement funds allocated to a State that are unobligated at the end of FY 1977 may be withdrawn permanently for redistribution.

c. Project selections for funding under this program shall be in accordance with Volume 6, Engineering and Traffic Operations; Chapter 7, Bridge, Structures and Hydraulics; Section 4, Safety; and Subsection 1, Special Bridge Replacement Program of the Federal-Aid Highway Program Manual dated August 7, 1974.[1]

EAST AFRICAN AIRWAYS CORPORATION FOREIGN PERMIT RENEWAL

Prehearing Conference and Hearing

Notice is hereby given that a prehearing conference in this proceeding is assigned to be held on November 1, 1976, at 9:30 a.m. (local time), in Room 1003, Hearing Room B, Universal North Building, 1875 Connecticut Avenue, N.W., Washington, D.C., before Administrative Law Judge Henry M. Switkay.

Notice is also given that the hearing may be held immediately following conclusion of the prehearing conference unless a person objects or shows reason for postponement on or before October 21, 1976.

Ordinary transcript will be adequate for the proper conduct of this proceeding.

Dated at Washington, D.C., October 6, 1976.

ROBERT L. PARK,
Chief Administrative Law Judge.

HOUSTON/NEW ORLEANS-YUCATAN ROUTE PROCEEDING

Prehearing Conference

Notice is hereby given that a prehearing conference in this proceeding is assigned to be held on November 23, 1976, at 9:30 a.m. (local time), in Room 1003, Hearing Room D, Universal Building North, 1875 Connecticut Avenue, N.W., Washington, D.C., before Administrative Law Judge Henry M. Switkay.

In order to facilitate the conduct of the conference, parties are instructed to submit one copy to each party and six copies to the Judge of (1) proposed statements of issues; (2) proposed stipulations; (3) proposed requests for information and for evidence; (4) statements of positions; and (5) proposed procedural dates. The Bureau of Operating Rights will circulate its material on or before November 5, 1976, and the other parties on or before November 15, 1976. The submissions of the other parties shall be limited to points on which they differ with the Bureau, and shall follow the numbering and lettering used by the Bureau to facilitate cross-referencing.

Dated at Washington, D.C., October 6, 1976.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

PAKISTAN

Announcing an Additional Official Authorized To Issue Visas for Cotton Textile Products Exported to the United States

OCTOBER 7, 1976.

On July 7, 1972, there was published in the FEDERAL REGISTER (37 FR 13365) a letter dated June 28, 1972 from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs, prohibiting entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products produced or manufactured in Pakistan and exported from Pakistan for which the Government of Pakistan had not issued a visa. One of the requirements is that each visa include the signature of an official authorized by the Government of Pakistan to issue visas.

The purpose of this notice is to announce that at the request of the Government of Pakistan the name of Mr. Ejaz Ahmad is being added to the list of officials currently authorized to issue export visas. A complete list of those officials is published as an enclosure to the letter set forth below.

Accordingly, there is published below a letter of October 7, 1976 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs directing that Mr. Ejaz Ahmad also be authorized to issue export visas for cotton textiles and cotton textile products, produced or manufactured in Pakistan and exported to the United States.

Effective date: October 12, 1976.

ROBERT E. SHEPHERD,
Acting Chairman, Committee for the Implementation of Textile Agreements, and Acting Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commrece.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS.

October 7, 1976.

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C.

DEAR MR. COMMISSIONER: This directive further amends, but does not cancel, the directive of June 28, 1972 from the Chairman, Committee for the Implementation of Textile Agreements, that directed you to prohibit entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 1 through 64, produced or manufactured in Pakistan, for which the Government of Pakistan had not issued an export visa. It also amends, but does not cancel, the directive of March 3, 1976 which included the names of Government of Pakistan officials authorized to issue export visas and certifications for exempt textile products.

Under the terms of the Bilateral Cotton Textile Agreement of May 6, 1975, between the Governments of the United States and Pakistan, and in accordance with the provisions of Executive Order 11651 of March 3, 1972, the directives of June 28, 1972 and March 3, 1976 are hereby further amended to add the name of Mr. Ejaz Ahmad to the list of officials authorized to issue export visas for cotton textiles and cotton textile products, produced or manufactured in Pakistan. A complete list of officials currently so authorized is enclosed.

The actions taken with respect to the Government of Pakistan and with respect to imports of cotton textiles and cotton textile products from Pakistan have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foregin affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ROBERT E. SHEPHERD,
Acting Chairman, Committee for the Implementation of Textile Agreements, and Acting Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

CONSUMER PRODUCT SAFETY COMMISSION

[CPSC Docket No. 76-7]

JULIUS BERGER & CO., INC. AND ROBERT BERGER

Prehearing Conference

In the Matter of Julius Berger & Co., Inc., a corporation, and Robert Berger, individually and as an officer of Julius Berger & Co., Inc.

The Commission's Staff, on August 23, 1976, filed a Notice of Enforcement in the above entitled proceeding charging Respondents with having violated certain provisions of the Federal Trade Commission and the Flammable Fabrics Acts and the rules and regulations promulgated thereunder, including the Standard for the Flammability of Children's Sleepwear (FF 3-71) and its implementing regulations (16 CFR 1615) by having manufactured, sold or delivered after sale, or shipped in commerce product, fabric or related material which fails to conform to the standard for the flammability of children's sleepwear size 0-6X.

In particular, Respondents are charged with *inter alia* (1) failing to conduct required prototype tests on seams and trim on polyester acetate robes produced by Respondent, (2) failing to maintain required written specification for construction of garments. These acts are alleged to be unlawful and constitute an unfair method of competition and an unfair and deceptive act or practice in commerce under Section 5 of the Federal Trade Commission Act, enforced by the Consumer Product Safety Commission under Section 30 of the Consumer Product Safety Act.

The Staff has proposed the issuance of an Order directing Respondents, *inter alia* (1) to cease and desist from manufacturing, selling, importing, and transporting any product, fabric or related material which fails to conform to the requirements of the applicable standards issued under the Flammable Fabrics Act; (2) to conform to the provisions of the Flammable Fabrics Act and the regulations and standards thereunder; (3) to recall all garments which fail or did not undergo required testing from distributors, retailers and consumers.

On September 17, 1976, Respondents filed a general denial of the allegations in the Notice of Enforcement. Specifically Respondents assert that:

(1) Robert Berger is not a proper party to the proceeding.

(2) Consumer Product Safety Commission staff has no reason to believe that Respondents have violated the Flammable Fabrics Act.

(3) The Consumer Product Safety Commission has not acted in good faith and has discriminated against Respondents in an unlawful manner.

(4) The standard for children's sleepwear is unconstitutionally vague and application of the standard has been and is unconstitutional.

(5) Garments allegedly produced by Respondents conform with the Flammable Fabrics Act and its regulation.

(6) Respondents and duly authorized agents of the Commission entered into a settlement agreement, on which Respondents have relied, to their detriment. This settlement was repudiated by the Staff.

V41I199 OCT 13 76 UMI

Respondents requested that the settlement agreement be certified to the Commission. This request was denied.

A prehearing conference for the purpose, *inter alia*, of defining the issues to be heard, providing for discovery of evidence and establishing the dates for the service of written testimony and exhibits and the time and place of hearing will be held Friday, October 22, 1976, 2:00 P.M., EST, in the Commission's New York Area Office, 6th Floor, 6 World Trade Center, Vesey Street, New York, New York 10048.

Memoranda addressed to the above items should be served on opposing counsel and this office by the close of business Thursday, October 21, 1976. The docket in this case is available in the Office of the Secretary, Consumer Product Safety Commission, 1111 18th St., N.W., Washington, D.C. 20207. Any person desiring to become a party should contact the undersigned at (202) 634–7171.

Date: October 7, 1976.

SADYE E. DUNN,
Secretary,
Consumer Product Safety Council.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 629–7]

STANDARDS OF PERFORMANCE FOR NEW STATIONARY SOURCES (NSPS) AND NATIONAL EMISSION STANDARDS FOR HAZARDOUS AIR POLLUTANTS (NESHAPS)

Delegation to State of North Dakota

On December 23, 1971 (36 FR 24877), March 8, 1974 (39 FR 9808), August 6, 1974 (39 FR 33152), and September 23, 1975 (40 FR 43850), pursuant to section 111 of the Clean Air Act, as amended, the Administrator promulgated regulations establishing standards of performance for eighteen (18) categories of new stationary sources. Additionally, on April 6, 1973 (38 FR 8820), May 3, 1974 (39 FR 15396), and October 14, 1975 (40 FR 48291), pursuant to section 112 of the Clean Air Act, as amended, the Administrator promulgated national emission standards for three (3) hazardous air pollutants (NESHAPS). Sections 111(c) and 112(d) direct the Administrator to delegate his authority to implement and enforce NSPS and NESHAPS to any State which has submitted adequate procedures. Nevertheless, the Administrator retains concurrent authority to implement and enforce the standards following delegation of authority to the State.

On May 26, 1976, Arthur A. Link, Governor of the State of North Dakota, submitted to the EPA, Region VIII Office a request for delegation of authority. Included in that request were procedures for NSPS and NESHAPS and information on available resources to implement such review. Included in that request were copies of the State of North Dakota regulations which incorporate with certain exceptions the Federal emission standards and testing procedures set forth in 40 CFR Parts 60 and 61. Also included were copies of State statutes which provide the State with the requisite authority to enforce the federally promulgated NSPS and NESHAPS. After a thorough review of that request, the Regional Administrator has determined that for the source categories set forth in paragraphs (A) and (B) of the following official letter to Arthur A. Link, Governor, State of North Dakota, delegation is appropriate subject to the conditions set forth in paragraphs (1) through (12) of that letter.

Hon. ARTHUR A. LINK,
Governor of North Dakota,
State Capitol, Bismarck, N. Dak.

DEAR GOVERNOR LINK: This is in response to your letter of May 26, 1976, requesting delegation of authority for implementation and enforcement of New Source Performance Standards (NSPS) and National Emission Standards for Hazardous Air Pollutants (NESHAPS) for the eighteen NSPS categories and the NESHAPS Emission Standards set forth respectively in R23–25–12 and R23–25–13 of the Air Pollution Control Regulations of the State of North Dakota, to the North Dakota State Department of Health.

We have reviewed the pertinent statutes of the State of North Dakota and the rules and regulations of the North Dakota State Department of Health, and have determined that they provide an adequate and effective procedure for implementation and enforcement of NSPS and NESHAPS by the State of North Dakota. We have also reviewed the resources of the State of North Dakota and the North Dakota Department of Health, and have determined that they are adequate. Therefore, pursuant to sections 111 and 112 of the Clean Air Act, we hereby grant delegation of NSPS and NESHAPS to the State of North Dakota and the North Dakota Department of Health as follows:

A. New Source Performance Standards (NSPS): Authority to implement and enforce Standards of Performance for the following categories of New Stationary Sources located within the State: fossil-fuel-fired steam generators, incinerators, portland cement plants, nitric acid plants, sulfuric acid plants, asphalt concrete plants, petroleum refineries, storage vessels for petroleum liquids, secondary lead smelters, brass and bronze ingot production plants, iron and steel plants, sewage treatment plants, wet process phosphoric acid plants, super-phosphoric acid plants, diammonium phosphate plants, triple-super-phosphate plants, granular triple-super-phosphate plants, and electric arc furnaces.

B. National Emission Standards for Hazardous Air Pollutants (NESHAPS): Authority to implement and enforce Emission Standards for Hazardous Air Pollutants for the following emissions of pollutants within the State: asbestos, beryllium, beryllium rocket motor firing and mercury.

This delegation is based upon the following conditions:

1. Reports normally submitted to the Environmental Protection Agency (EPA) through program plan reporting will be expanded to contain pertinent information relating to the status of sources subject to 40 CFR Parts 60 and 61. As a minimum, the following information should be provided to EPA: the name, address, type and size of each facility subject to the standards, the compliance status of each facility with accompanying explanations of non-compliance where applicable, notice, of enforcement actions brought against facilities subject to 40 CFR Parts 60 and 61, surveillance actions undertaken for each facility, and the results of all reports relating to emissions data.

2. Enforcement of NSPS and NESHAPS in the State of North Dakota will be the primary responsibility of the State Department of Health. If the Department determines that such enforcement is not feasible and so notifies EPA, or where the State acts in a manner inconsistent with the terms of this granted authority, EPA will exercise its concurrent enforcement authority pursuant to section 113 of the Clean Air Act, as amended, with respect to sources within the State of North Dakota subject to NSPS and NESHAPS.

3. Acceptance of this delegation of presently-promulgated NSPS and NESHAPS authority does not commit the State of North Dakota to accept delegation of future standards and requirements. A new request for delegation will be required for any standards not included in the State's request of May 26, 1976.

4. The State may subdelegate its authority to implement and enforce the NSPS and NESHAPS to air pollution control authorities in North Dakota when such authorities have demonstrated that they have equivalent or more stringent programs in force. The State must notify EPA of such redelegation so that the appropriate address changes may be made in the FEDERAL REGISTER.

5. This enforcement authority to the State of North Dakota does not include the authority to implement and enforce NSPS and NESHAPS for sources owned and operated by the United States, which are located in the State. This condition in no way relieves any Federal facility from meeting the requirements of 40 CFR Parts 60 and 61, or any State or local regulation.

6. The State of North Dakota will at no time grant a variance or waiver from compliance with R23–25–12 and R26–25–13 of the Air Pollution Control Regulations of the State of North Dakota. Should the State of North Dakota grant such a waiver, EPA will consider the source receiving relief to be in violation of the applicable Federal regulation and may initiate enforcement action against the source pursuant to section 113 of the Clean Air Act, as amended. The granting of such relief by the State shall also constitute grounds for revocation of delegation by EPA.

7. If at any time there is a conflict between a State and a Federal regulation (40 CFR Parts 60 and 61), the Federal regulation must be applied if it is more stringent than that of the State. If the State does not have authority to enforce the more stringent Federal regulation, this portion of the delegation may be revoked.

8. For NSPS and NESHAPS the State of North Dakota Department of Health will utilize the methods specified in 40 CFR Parts 60 and 61 in performing source tests pursuant to the regulations.

9. If the Regional Administrator of EPA determines that the State procedure for enforcing or implementing the NSPS or NESHAPS is inadequate, or is not being effectively carried out, this delegation may be revoked in whole or part. Any such revocation shall be effective as of the date specified in a Notice of Revocation to the North Dakota State Department of Health.

10. Information shall be made available to the public in accordance with 40 CFR 60.9 and 61.15. Any records, reports or information provided to, or otherwise obtained by, the State in accordance with the provisions of these Sections shall be made available to the designated representative of EPA upon request.

11. The North Dakota State Department of Health and EPA will develop a system of communication sufficient to guarantee that each office is always fully informed and current regarding compliance status of the subject sources and interpretation of the regulations.

12. With respect to the NSPS for portland cement plants (40 CFR 60.60), the North Dakota regulation, R23–25–12.403(1) failed to provide for "finished product storage." Pending the adoption of a state regulation applicable to the subject source, EPA will exercise its concurrent enforcement authority pursuant to section 113 of the Clean Air Act, as amended.

A notice announcing this delegation will be published in the FEDERAL REGISTER in the near future. The Notice will state, among other things, that, effective immediately, all reports required pursuant to the Federal NSPS and NESHAPS by sources located in North Dakota should be submitted to the State of North Dakota, State Department of Health, State Capitol, Bismarck, North Dakota 58501. Any such reports which have been or may be received by EPA, Region VIII, will promptly be transmitted to the North Dakota Department of Health.

Since this delegation is effective upon the date of this letter, there is no requirement that the State notify EPA of its acceptance. Unless EPA receives from the State written notice of objections within ten (10) days of the date of receipt of this letter, the State will be deemed to have accepted all of the terms of the delegation.

Sincerely yours,

JOHN A. GREEN,
Regional Administrator.

Therefore, pursuant to the authority delegated to him by the Administrator, the Regional Administrator notified Arthur A. Link, Governor of North Dakota, on August 30, 1976, that authority to implement and enforce New Source Performance Standards (NSPS) and National Emission Standards for Hazardous Air Pollutants (NESHAPS) was delegated to the State of North Dakota. Copies of the request for delegation of authority are available for public inspection at the Environmental Protection Agency, Region VIII Office, 1860 Lincoln Street, Denver, Colorado 80203.

Effective immediately, all reports required pursuant to the delegated New Source Performance Standards (NSPS), and National Emission Standards for Hazardous Air Pollutants (NESHAPS), should not be submitted to the EPA, Region VIII Office but instead be submitted to the North Dakota State Department of Health at the following address: State of North Dakota, State Department of Health, State Capitol, Bismarck, North Dakota 58501.

Any such reports which have been or may be received by EPA, Region VIII, will be promptly transmitted to the North Dakota State Department of Health.

This notice is issued under authority of sections 111 and 112 of the Clean Air Act, as amended (42 U.S.C. 1857c–6 and 7).

Dated: October 1, 1976.

JOHN A. GREEN,
Regional Administrator.

[FR Doc.76–30021 Filed 10–12–76;8:45 am]

FEDERAL COMMUNICATIONS COMMISSION

COMPUTER COMMUNICATIONS

Planning Conference

OCTOBER 4, 1976.

On November 8 and 9, 1976, the American Federation of Information Processing Societies (AFIPS) will present to the FCC Commissioners and staff a Future Planning Conference on the subject of computer communications technology. AFIPS is a federation of fifteen nonprofit scientific and educational societies composed of over 100,000 professionals in the information processing field.

At this planning conference, five technical experts will deliver papers on technical topics of current interest in the general field of computer communications technology and policy, and will be available to answer questions raised by the Commission and its staff on matters related to the papers. The conference will be open to the public, although participation will be limited to AFIPS and the Commission.

The AFIPS participants and the topics they will address are as follows:

1. A review of current demand for services, current technological capabilities, and regulatory problems associated therewith, presented by Lynn Hopewell, Chairman, IEEE Computer Society-Computer Communications Technical Committee and Senior Member of the Executive Staff, Computer Sciences Corporation.

2. A review of current marketplace needs, pricing trends, and local distribution problems, presented by Alex Curran, Past Chairman of the International Federation for Information Processing (IFIP) Technical Committee on Computer Communications, and President, Bell Northern Research, Inc.

3. A survey of new research in computer communications, particularly those areas of development which may impact regulatory policy, presented by Vinton Cerf, Assistant Professor of Electrical Engineering, Stanford University.

4. A discussion of institutional constraints and other factors which inhibit the growth of new computer communications technologies, presented by Donald Dunn, Professor of Engineering Economics, Stanford University.

5. A discussion of possible future development of computer communications capability in the United States and causal relationships with FCC policies, presented by Keith Uncapher, Director, Information Sciences Institute, University of Southern California.

In order to assure that the rights of all parties to the new Computer Inquiry[1] are fully protected, a transcript of this conference will be entered into the record in Docket No. 20828. It is anticipated that the transcript will be entered into the record on or before the date for filing comments (January 10, 1977), so that parties may address any matters raised by this conference in their reply comments, due February 24, 1977. The Commission will not undertake to serve copies of the transcript on the parties.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

[FR Doc.76–29965 Filed 10–12–76;8:45 am]

[1] In the Matter of Amendment of Section 64.702 of the Commission's Rules and Regulations, Docket No. 20828 (Notice of Inquiry and Proposed Rulemaking issued August 9, 1976, FCC 76–745).

[Docket No. 20918, 20919; File No. 3087–C5–P–72, 4753–C5–P–72]

EASTERN MICROWAVE, INC. AND SCHENECTADY CABLEVISION, INC.

Construction Permits in the Multipoint Distribution Service for a New Station at Albany, New York

Adopted: September 22, 1976.

Released: October 4, 1976.

1. The Commission has before it the above-referenced applications of Eastern Microwave, Incorporated (Eastern), filed on November 19, 1971 and Schenectady Cablevision, Inc. (Cable), filed on January 28, 1972. Both applications proposed Channel 1 operation in the Multipoint Distribution Service (MDS) in the Albany, New York area, and thus are mutually exclusive and require comparative consideration. Both applications have been amended as a result of formal requests of the Commission staff for additional information, and no petitions to deny or other objections to any of the applications have been received.

2. Eastern, a wholly-owned subsidiary of Newhouse Broadcasting Corporation, holds MDS construction permits in nine cities, including Pittsfield, Massachusetts, Binghamton, Burlington, Elmira, Syracuse, Utica and Watertown, New York. In addition Newhouse Broadcasting has interests in broadcasting and cable system in Syracuse, Elmira, and Binghamton, New York. Schenectady has only the above-referenced MDS application on file.

3. Upon review of the captioned applications, we find that both applicants are legally, technically, financially, and otherwise qualified to provide the services which they propose, and that a hearing will be required to determine, on a comparative basis, which of these applications should be granted.

4. *Accordingly, it is hereby ordered,* That pursuant to section 309(e) of the Communications Act of 1934, as amended, and section 0.291 of the Commission's Rules, the above-captioned applications are designated for hearing, in a consolidated proceeding, at the Commission's offices in Washington, D.C., on a date and before an Administrative Law Judge to be specified by later order, to determine, on a comparative basis, which of the above-captioned applications should be granted in order to best serve the public interest, convenience, and necessity. In making such a determina-

V41 1999 OCT 13 76 UM

tion, the following factors shall be considered: [1]

(a) The relative merits of each proposal with respect to service area and efficient frequency use;

(b) The nature of the services and facilities proposed, and whether they will satisfy service requirements known to exist or likely to exist in the Albany, New York area;

(c) The anticipated quality and reliability of the service proposed, including selection of equipment, installation, subscriber security, and maintenance;

(d) The charges, regulations and conditions of the service to be rendered, and their relation to the nature, quality and costs of service; and

(e) The managerial and entrepreneurial qualifications of the applicants.

5. *It is further ordered*, That Eastern Microwave, Incorporated and Schenectady Cablevision, Inc. and the Chief, Common carrier Bureau, are made parties to this proceeding.

6. *It is further ordered*, That parties desiring to participate herein shall file their notices of appearance in accordance with the provisions of section 1.221 of the Commission's Rules.

JOSEPH A. MARINO,
Deputy Chief for Chief,
Common Carrier Bureau.

[FR Doc.76-29966 Filed 10-12-76;8:45 am]

[Docket No. 20933, File Nos. 7267-CM-P-71 and 50048-CM-P-75; Docket No. 20934, File Nos. 69-CM-P-72 and 50084-CM-P-75]

MICHIGAN TELE-COMMUNICATIONS SERVICES, INC. AND MICROBAND CORP. OF AMERICA

Construction Permits in the Multipoint Distribution Service for New Stations at Detroit and Pontiac, Michigan

Adopted: September 24, 1976.

Released: October 6, 1976.

1. The Commission has before it the captioned applications of Michigan Tele-Communications Services, Inc (MTS), filed on June 17, 1971 (File No. 7267-CM-P-71), and Microband Corporation of America (Microband), filed on July 8, 1971 (File No. 69-CM-P-72). Both applications propose Channel 1 operation in the Multipoint Distribution Service (MDS) in the Detroit, Michigan area, and thus are mutually exclusive and require comparative consideration. MTS filed a petition to deny Microband's application on September 24, 1971.[2] Microband filed an opposition on October 7, 1971, and MTS submitted its reply on October 8, 1971. MTS filed a "Further Petition to Deny" on October 15, 1971, to which Microband filed an opposition on October 28, 1971. Microband also filed a petition to deny MTS's application on July 27, 1971. MTS filed an opposition on August 16, 1971, to which Microband replied on August 26, 1971.

2. The Commission also has before it the applications of MTS, filed July 10, 1974, (File No. 50048-CM-P-75) and Microband filed March 26, 1975 (File No. 50084-CM-P-75).[3] Both Applications propose Channel 1 operation in the Pontiac, Michigan area, and are also mutually exclusive and require comparative consideration. No pleadings were filed with respect to the Pontiac applications. All four applications have been amended as a result of informal requests of the Commission staff for additional information.

3. Microband holds MDS licenses in nine cities, including Washington, D.C., Pittsburgh, Pennsylvania, and Milwaukee, Wisconsin, and has been granted construction permits in eleven other cities. MTS has construction permits in Muskegon, Bay City, Jackson, Kalamazoo, and Ann Arbor, Michigan.

4. MTS challenges the availability of Microband's tower site on the Penobscot Building. Microband subsequently submitted a letter dated October 18, 1971, from the Penobscot Building, Inc., which indicates the availability of space in that building for Microband. Recent staff inquiry confirms that space is still available.

5. MTS questions Microband's technical ability to adequately maintain its proposed service with three technicians and urges that the Commission make an inquiry as to what technical personnel will be available at each Microband facility. No substantial showing has been made to support the claim of technical inadequacy on the part of Microband for the proposed stations or at any of its currently licensed stations. Accordingly, we will not further consider MTS's unsupported allegation of technical inadequacy.

6. MTS also challenges Microband's ability to finance its several proposed MDS construction projects. However MTS does not detail the nature of the alleged inadequacy beyond stating that Microband's "financial showing contained in the application is not sufficient to support the enormous venture proposed". As we stated in American Television Relay, Inc., 11 FCC 2d 533, at 556, "• • • it is not necessary to consider all of [the applicant's] pending applications simultaneously to determine its ability to construct and operate any one proposed facility • • •. (A)t the time each proposal or set of applications is acted upon, the Commission will consider the financial resources of [the applicant] with regard to its then-existing obligations for construction and operation of authorized facilities as well as the cost of the new proposal." Microband's current assets (in excess of current liabilities) according to a balance sheet dated December 31, 1975 exceed $418,000, which is more than the estimated aggregate cost of the two proposed stations ($136,400). We find this adequate to show the financial qualification of Microband with respect to the captioned applications.[4]

7. Microband's petition to deny MTS's Detroit application alleges that MTS is not financially qualified, pointing out that Hercules Tube Products, Inc. (Hercules) does not have sufficient funds to meet its commitment to lend MTS $40,000 of the $58,000 necessary for construction. Mr. S. R. Ackers, President of MTS, subsequently disclosed other resources to finance the Detroit MDS station, but Microband challenged these assets, suggesting that his stocks would not be convertible to cash when needed. Ackers thereupon submitted letters of commitment from Bellevue Metal Hose Company and International Metal Hose Company offering to redeem Acker's stock (worth over $115,000) and an offer from Mellink Steel Safe Company to issue Ackers an accrued bonus of $40,000 on request. In light of the submissions, we find MTS financially qualified.

8. As noted above, Microband and MTS have filed these construction permit applications for both Detroit and Pontiac, Michigan, which are less than 30 miles apart. In analyzing potential interference in this service, we presume that a proposed station within 25 miles of another station would create harmful interference but that two stations located 50 miles apart would not. For proposed stations between 25 and 50 miles apart, the burden is on the applicants to show that there will be no harmful interference.[4] Both Microband and MTS have submitted engineering studies that reach contrary conclusions on the potential for harmful interference. Microband expects that ". . . the proposed Pontiac MDS operation will result in excessive co-channel interference levels in a large portion of the Detroit service area." MTS is of the opinion ". . . that no adverse mutual effects will result if (MTS) is granted its request . . ." (for a Pontiac construction permit). In view of these contradictory studies, we believe it appropriate to include an issue on the potential for harmful interference.

9. In view of the foregoing and other information contained in the captioned applications, we find that the applicants are legally, technically, financially and otherwise qualified to provide the services which they propose, and that a hearing will be required to determine which of these applications should be granted.

---

[1] Consideration of these factors shall be made in light of the Commission's discussion in Peabody Telephone Answering Service, et al., 55 F.C.C. 2d 626 (1975).

[2] MTS's petition was filed 31 days after the period for filing petitions to deny expired. Therefore, pursuant to Rule Section 21.27(c), it will be treated as an informal objection.

[3] MTS's application appeared on the January 27, 1975 Public Notice. Microband's application was received on March 26, 1975, within the Rule Section 21.30(b) 60 day cut-off period.

[4] Although Microband has a number of other stations being built under construction permit, the Arthur Lipper Corporation submitted a letter dated October 11, 1972 committing up to $3,000,000 to Microband for construction and operation expenses. This amount clearly exceeds that necessary to complete construction of all current MDS projects.

[4] See Report and Order in Docket No. 19493, 45 F.C.C. 2d 616 (1974), and Rule Section 21.902(c)(1).

10. *Accordingly, it is hereby ordered*, That pursuant to section 309(e) of the Communications Act of 1934, as amended, and section 0.291 of the Commission's Rules, above-captioned applications are designated for hearing, in a consolidated proceeding, at the Commission's offices in Washington, D.C., on a date and before an Administrative Law Judge to be specified by later order, to determine: (a) whether these MDS stations, as proposed or as may be amended or conditioned, can be operated on channel 1 in both Detroit and Pontiac without harmful interference and, if so, which application in each city should be granted in order to best serve the public interest, convenience, and necessity; or (b) if harmful interference would preclude simultaneous operation in both cities, which proposed station in which city best serve the public interest, convenience and necessity. In making such determinations, the following factors shall be considered:

(1) The potential for harmful interference between the proposed stations in Detroit and the proposed stations in Pontiac, Michigan;

(2) The relative merits of each proposal with respect to service area and efficient frequency use;

(3) The quality and reliability of the service proposed, including selection of equipment, site, subscriber security and maintenance;

(4) The charges, regulations and conditions of the service; and

(5) The managerial and entrepreneurial qualifications of the applicants.[5]

11. *It is further ordered*, That Michigan Tele-Communications Services, Inc., Microband Corporation of America, and the Chief, Common Carrier Bureau, are made parties to this proceeding.

12. *It is further ordered*, That parties desiring to participate herein shall file their notices of appearance in accordance with the provisions of § 1.221 of the Commission's Rules.

FEDERAL COMMUNICATIONS COMMISSION.
JOSEPH A. MARINO,
Deputy Chief,
Common Carrier Bureau.

FEDERAL ENERGY ADMINISTRATION

NORTHERN ILLINOIS GAS CO.

Synthetic Natural Gas Feedstocks; Notice of Opportunity To Submit Written Comments and To Participate in Public Hearing on Petition for Assignment of Supplier and Base Period Use

The Federal Energy Administration (FEA) hereby gives notice that written comments will be received and a public hearing will be held regarding the August 1, 1976 petition of Northern Illinois Gas Company (NI-Gas), a synthetic natural gas (SNG) manufacturer, for the assignment of a supplier and base period use of propane, butane, natural gasoline, and naphtha for SNG feedstock use after March 31, 1977, pursuant to 10 CFR 211.29 and Special Rule No. 1 issued thereunder.

The volume of SNG feedstock requested is 16,259,500 barrels of propane, butane, natural gasoline and naphtha per year commencing April 1, 1977.

NI-Gas's Aux Sable SNG facility located near Morris, Illinois, is designed to produce SNG for 335 days of base loading service utilizing 4,064,875 barrels of feedstock per quarter for a total of 16,259,500 barrels of feedstock per year.

The petition requests the assignment of Atlantic Richfield Company as supplier for 1,396,125 barrels of naphtha; San Juan Oil Company as supplier for 1,738,000 barrels of propane, butane and natural gasoline; and UPG, Inc. as supplier for 930,750 barrels of butane and natural gasoline feedstock for each quarterly period corresponding to a base period.

NI-Gas is currently producing SNG from an allocation of propane, butane, natural gasoline and naphtha assigned to NI-Gas by FEA's Decision and Order dated February 5, 1976. The August 1, 1976 petition, if granted, would allow NI-Gas to continue operation of its Aux Sable SNG facility after March 31, 1977, in a manner consistent with the February 5, 1976 Order.

A file containing all information and data filed in conjunction with NI-Gas's petition, other than confidential business information which FEA has determined to be exempt from the disclosure requirements of 5 USC 552, is available for public inspection and copying at the FEA Freedom of Information Office, Room 2107, Federal Building, 12th and Pennsylvania Avenue, NW., Washington, D.C. between the hours of 8:00 a.m. and 4:30 p.m., e.s.t., Monday through Friday, except Federal holidays.

Written comments regarding NI-Gas's petition will be accepted and considered if filed by November 5, 1976. Any person submitting written comments with respect to NI-Gas's petition should comply with the requirements of FEA's procedural regulations set forth at 10 CFR 205.33. Comments should be submitted to the Office of Product Allocations, Specialty Fuels Branch, Federal Energy Administration, Room 6318, 2000 M Street, NW, Washington, D.C. 20461, Attention Mr. Finn Neilsen. Comments should be identified on the outside envelope and on documents submitted to FEA with the designation, "Allocation of Feedstocks for Northern Illinois Gas Company's SNG Plant." Five copies should be submitted to FEA and one copy to Northern Illinois Gas Company, P.O. Box 190, Aurora, Illinois 60507, Attention Mr. George T. Jones.

FEA believes that factual disputes between interested parties respecting this petition are likely and that a public hearing on this petition will materially advance consideration of the issues involved. Therefore, a public hearing on NI-Gas's petition will be held beginning at 9:30 a.m., e.s.t., on November 10, 1976, in the Auditorium, Room 2105, 2000 M Street, NW., Washington, D.C., to receive comments from interested persons.

Any person who has an interest in the petition set forth above or who is a representative of a group or class of persons which has in interest in the petition, may make a written request for an opportunity to make an oral presentation. Such a request should be directed to Executive Communications, FEA, Room 3309, Federal Building, 12th and Pennsylvania Avenue, NW., Washington, D.C. 20461, and must be received before 4:30 p.m., e.s.t., October 27, 1976. Such a request may be hand-delivered to Room 3309, Federal Building, 12th and Pennsylvania Avenue, NW., Washington, D.C., between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday. The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he or she is a proper representative of a group or class of persons which has such an interest; and to give a concise summary of the proposed oral presentation and a phone number where he or she may be reached through October 29, 1976. Each person selected to be heard will be notified by FEA before 4:30 p.m., e.s.t., October 29, 1976, and must submit 50 copies of his or her statement to the Allocation Regulations Development Office, FEA, Room 2214, 2000 M Street, NW., Washington, D.C. 20461, before 4:30 p.m., e.s.t., on November 9, 1976.

The FEA reserves the right to select the persons to be heard at this hearing, to schedule their respective presentations and to establish the procedures governing the conduct of the hearing. Each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearing. This will not be a judicial or evidentiary-type hearing. Questions may be asked only by those conducting the hearing and there will be no cross-examination of persons presenting statements. Any decision made by the FEA with respect to the subject matter of the hearing will be based on all information available to the FEA. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested person may submit questions to be asked of any person making a statement at the hearing to Executive Communications, FEA, Room 3309, Federal Building, 12th and Pennsylvania Avenue, NW., Washington, D.C. 20461, before 4:30 p.m., e.s.t., November 9, 1976. Any person who makes an oral statement and who wishes to ask a question at the hearing may submit the

V41 1199 OCT 13 76 UMI

question in writing to the presiding officer. The FEA, or the presiding officer if the question is submitted at the hearing, will determine whether the question is relevant, and whether time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing in accordance with the procedures stated in 10 CFR 205.9(f). FEA reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

Additional public comment on all written and oral presentations received through November 10, 1976, will be permitted through November 24, 1976. Comments should be submitted to the Office of Product Allocations, Specialty Fuels Branch, Room 6318, 2000 M Street, NW., Washington, D.C. 20461, Attention Mr. Finn Neilsen. Persons submitting comments during this additional period must send five copies to FEA and one copy each to NI-Gas and to all persons who participated in the public hearings or who submitted written comments. A list of such persons will be made available for public viewing on November 11, 1976, at the FEA Freedom of Information Office, Room 2107, Federal Building, 12th and Pennsylvania Avenue, NW., Washington, D.C., between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

The transcript of the public hearing will be available for public review at the FEA's Freedom of Information Office, Room 2107, Federal Building, 12th and Pennsylvania Avenue, NW., Washington, D.C., between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. Any person may purchase a copy of the transcript from the reporter.

Dated: October 7, 1976.

MICHAEL F. BUTLER,
General Counsel.

FEDERAL MARITIME COMMISSION

MOORE-McCORMACK LINES, INC. AND PRUDENTIAL LINES, INC.

Agreement Filed

Notice is hereby given that the following agreement, accompanied by a statement of justification, has been filed with the Commission for approval pursuant to Section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement and the statement of justification at the Washington office of the Federal Maritime Commission, 1100 L Street, NW. Room 10126; or may inspect the agreement and the statement of justification at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before November 2, 1976. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statment should be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

Hubert F. Carr, Vice President, Secretary and General Counsel, Moore-McCormack Lines, Incorporated, 2 Broadway, New York, New York 10004.

Agreement No. 10262, between Moore-McCormack Lines, Incorporated (Mooremac) and Prudential Lines, Inc. (PLI), is an agency agreement whereby PLI appoints Mooremac to act as its general agent in Argentina, Brazil and Uruguay on the terms and conditions and to the extent set forth therein.

By Order of the Federal Maritime Commission.

Dated: October 7, 1976.

FRANCIS C. HURNEY,
Secretary.

STRAITS/NEW YORK CONFERENCE

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., San Juan, Puerto Rico and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before October 26, 1976. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

Elkan Turk, Jr., Esq., Burlingham Underwood & Lord, 25 Broadway New York, New York 10004.

Agreement No. 6010-20, entered into by the member lines of the Straits/New York Conference, modifies the approved basic agreement by adding a new Article 15 thereto providing, essentially, that no party to the agreement shall be represented in Singapore, Port Swettenham and/or Penang by any agent engaged in the solicitation, booking, receipt, and/or documentation of cargoes without requiring such agent to agree not to represent, except as husbanding agent or chartering broker, any common, private or contract carrier in the trade at ports of loading other than carriers who are parties to Agreement No. 6010.

By Order of the Federal Maritime Commission.

Dated: October 7, 1976.

FEDERAL POWER COMMISSION

[Docket No. RP74-61 (PGA76-4)]

ARKANSAS LOUISIANA GAS CO.

Filing of Revised Tariff Sheets

OCTOBER 5, 1976.

Take notice that on September 27, 1976, Arkansas Louisiana Gas Company (ARKLA) tendered for filing Ninth Revised Sheet No. 4 in its Rate Schedule G-2, FPC Gas Tariff, First Revised Volume No. 1. ARKLA states that this tariff sheet is also filed in accordance with the special provisions of Opinion No. 770 in Docket No. RM75-14.

ARKLA states that it has combined the one-time adjustment authorized to be collected from October 27, 1976 in FPC Opinion No. 770 with its regular PGA filing effective on November 1, 1976 and has proposed to cover both filings with a single tariff sheet publication in order to make both adjustments effective on the regular November 1, 1976 tariff change date.

ARKLA states that copies of the revised tariff sheet and supporting data are being mailed to Arkla's jurisdictional customers and other interested parties effected by the tariff change.

Any person desiring to be heard or to protest said filing should file a Petition to Intervene or Protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 15, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a Petition to Intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-29902 Filed 10-12-76;8:45 am]

[Docket No. RP72-122 (PGA 76-6)]

COLORADO INTERSTATE GAS CO.

Proposed Change in Rates

OCTOBER 5, 1976.

Take notice that Colorado Interstate Gas Company (CIG) on September 27, 1976, tendered for filing proposed changes in its FPC Gas Tariff: Second Revised Volume No. 1. The proposed change would increase the commodity rate under each of CIG's jurisdictional rate schedules by 15.35 cents per McF, the Company states.

CIG states that the filing is made pursuant to FPC Opinion No. 770-issued July 27, 1976, in Docket No. RM75-14 (as modified on September 22, 1976), and includes only increased purchased gas costs associated with the Opinion.

CIG respectfully requests that the instant filing be made effective on October 27, 1976.

Copies of the filing have been served upon the Company's jurisdictional customers and other interested persons, including public bodies, states CIG.

Review of the filing indicates that the annual impact upon CIG's cost of service of producer rate increases attributable to Opinion No. 770, exclusive of surcharge, is $39,798,360. The surcharge amount is $10,759,149.

Any persons desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 18, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-29900 Filed 10-12-76;8:45 am]

[Docket No. CP76-536]

COLUMBIA GAS TRANSMISSION CORP. AND NATIONAL FUEL GAS SUPPLY CORP.

Application

OCTOBER 5, 1976.

Take notice that on September 24, 1976, Columbia Gas Transmission Corporation (Columbia Transmission), 1700 MacCorkle Avenue, S.E., Charleston, West Virginia 25314, and National Fuel Gas Supply Corporation (National Supply), 308 Seneca Street, Oil City, Pennsylvania 16301, filed in Docket No. CP76-536 a joint application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of natural gas for a limited term in accordance with the terms of an agreement dated August 9, 1976, all as more fully set forth in the application on file with the Commission and open to public inspection.

It is stated that National Supply made application for a certificate of public convenience and necessity in FPC Docket No. CP76-313, filed March 30, 1976, for authority to store 2,000,000 Mcf of natural gas for UGI Corporation, Gas Utility Division (UGI), which gas UGI has purchased from National Fuel Gas Distribution Corporation (National Distribution). The natural gas so stored was to be delivered to UGI in the period beginning November 1, 1976, and ending April 30, 1977, it is said.

Applicants request permission herein to deliver the natural gas so stored by an exchange of gas whereby National Supply would reduce its receipts from Columbia Transmission at Ellwood City, Beaver County, Pennsylvania, and Columbia Transmission would deliver the same volume to UGI at existing points of delivery from Columbia Transmission to UGI in eastern Pennsylvania. All volumes so exchanged would be billed by Columbia Transmission as if delivered to National Supply at Ellwood City, it is shown, and no charge for transportation would be made by Columbia Transmission.

The application indicates that the exchange outlined above would be a mutually agreeable daily quantity which would not exceed National Supply's daily entitlement from Columbia Transmission at the Ellwood City delivery point, nor would the total daily delivery to UGI exceed its total daily entitlement from Columbia Transmission, and would be on a best efforts basis.

It is stated that Applicants do not propose the construction of any additional facilities to effectuate the exchange of gas for which approval is herein requested.

Upon receipt of the authorization requested herein, Applicants would file the subject letter agreement as a rate schedule in their respective FPC Gas Tariffs, Volume 2, it is said.

Applicants assert that the proposed exchange would partially offset UGI's projected 1976-77 winter curtailment of its Priority 2 customers.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 19, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-29899 Filed 10-12-76;8:45 am]

[Docket Nos. E-8947 and ER76-494]

DELMARVA POWER & LIGHT CO.

Conference

OCTOBER 1, 1976.

Take notice that on Novemer 3, 1976, Staff is convening an informal conference of all interested persons for the

V41N199 OCT 13 76 UMI

purpose of discussing the issues in the above referenced dockets in Room No. 5200 at the offices of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C., at 10:00 a.m.

Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, attendance at the conference will not be deemed to authorize intervention as a party in the proceedings.

All parties will be expected to come fully prepared to discuss the merits of all issues concerning the lawfulness of the proposed rate increase and any procedural matters preparatory to a full evidentiary hearing or to make commitments with respect to such issues and any offers of settlement or stipulations discussed at the conference.

Letters concerning this conference are being mailed to all parties to the proceeding, and all of the jurisdictional customers.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.76-29897 Filed 10-12-76;8:45 am]

[Docket Nos. RP72-155 and RP76-59 (PGA76-5)]

EL PASO NATURAL GAS CO.

Proposed Change In Rate Pursuant to Purchased Gas Cost Adjustments

OCTOBER 4, 1976.

Take notice that El Paso Natural Gas Company ("El Paso") on September 27, 1976, tendered for filing a notice of change in rates for jurisdictional gas service rendered to customers served by its interstate gas system. El Paso states that such service is rendered under rate schedules affected by and subject to El Paso's FPC Gas Tariff, Original Volume No. 1, Third Revised Volume No. 2 and Original Volume No. 2A.

El Paso states that on July 27, 1976, the Commission issued Opinion No. 770 and order at Docket No. RM75-14, prescribing new national rates for gas dedicated to interstate commerce on and after January 1, 1973, and for sales of gas from wells commenced and new dedications made to interstate commerce on and after January 1, 1975. El Paso states that Opinion No. 770, among other matters, permits jurisdictional pipeline companies having an effective Purchased Gas Adjustment Clause to file, on or before September 27, 1976, a one-time special PGAC rate increase, to become effective October 27, 1976, in order to track the increased producer rates prescribed by said Opinion.

El Paso states that the instant proposed notice of change in rates has been determined based upon: (i) Article 19, Purchased Gas Cost Adjustment Provision ("PGAC"), contained in the General Terms and Conditions of El Paso's FPC Gas Tariff, Original Volume No. 1; (ii) the Purchased Gas Cost Adjustment Provision—Clean High Pressure Gas ("PGAC-CHPG"), contained in El Paso's FPC Gas Tariff, Original Volume No. 2A; (iii) the impact of Opinion No. 770 upon purchased gas costs; and (iv) the effect of the PGAC adjustment which was filed on August 23, 1976, and the effectiveness of which was deferred until October 27, 1976.

El Paso states that the proposed special PGAC adjustment aggregates an increase of 11.94¢ per Mcf and is comprised of annualized purchased gas cost increases precipitated by Opinion No. 770 equating to 8.90¢ per Mcf, plus a special surcharge adjustment of 2.59¢ per Mcf, representing an estimate of the unrecovered purchased gas costs to be accrued in Account 191 through October 26, 1976, attributable to Opinion No. 770 and including the 9 percent carrying charge permitted by the Commission's order issued September 23, 1976, at Docket No. RM75-14.[1] El Paso further states that based upon its sales volumes for the twelve (12) months ended June 30, 1976, the adjustment of 8.90¢ per Mcf attributable to annualized purchased gas cost increases will produce additional jurisdictional revenue of $98,395,847 annually and, based upon estimated jurisdictional sales volumes for the proposed recovery period commencing on October 27, 1976, and extending through September 30, 1977,[2] the special surcharge adjustment of 2.59¢ per Mcf will recover an estimated $22,233,706 of the unrecovered purchased gas costs, inclusive of carrying charge, attributable to Opinion No. 770 costs to be incurred by El Paso.

El Paso states that the proposed special PGAC-CHPG adjustment is an increase of 6.4477¢ per Mcf applicable to those special rate schedules contained in El Paso's Original Volume No. 2A tariff subject to the provisions of said PGAC-CHPG. El Paso further states that such adjustment is comprised to the increase in the weighted average purchased cost of clean, high-pressure gas precipitated by Option No. 770 equating to 5.5086¢ per Mcf, and a special surcharge adjustment of 0.9391¢ per Mcf, representing an estimate of the unrecovered purchased gas costs to be accrued in Account 191 through October 26, 1976, and incurred by El Paso up to the proposed effective date of the instant filing. El Paso states that based upon the sales volumes for the twelve months ended June 30, 1976, under the special rate schedules affected by the PGAC-CHPG, such increase of 5.5086¢ per Mcf will produce additional revenues of $57,368, and based upon the estimated gas sales volumes under the special rate schedules subject to the PGAC-CHPG for the proposed recovery period of October 27, 1976, through September 30, 1977, the special surcharge adjustment of 0.9391¢ per Mcf will recover an estimated $10,277 of the unrecovered gas costs, inclusive of carrying charge, attributable to Opinion No. 770 costs to be incurred by El Paso.

El Paso states that, on August 23, 1976, it concurrently filed its regularly scheduled PGAC notice of change[3] and a related motion at Docket No. RP72-155, seeking a one-time deviation from the regularly scheduled PGAC effective date of October 1, 1976, in order that the effectiveness of such PGAC be deferred until October 27, 1976, to coincide with the effective date of the instant filing. Such motion was granted by the Commission on September 23, 1976.[4] El Paso states that the adjustment to El Paso's rates resulting from the August 23, 1976, PGAC filing, was a net decrease in rates of 4.79¢ per Mcf. El Paso states that the instant filing reflects, as a result of Opinion No. 770, a net increase in rates of 11.49¢ per Mcf; however, the net decrease of 4.79¢ per Mcf under the PGAC filing of August 23, 1976, has been netted against the Opinion No. 770 increase of 11.49¢ per Mcf. Consequently, El Paso states that the overall net increase in rates proposed by its tendered tariff sheets, resulting from the two PGAC adjustments, is 6.70¢ per Mcf above El Paso's currently effective rates. El Paso further states that, similarly, the net increase in rates applicable to the PGAC-CHPG proposed by the instant filing, resulting from the two PGAC-CHPG adjustments, is 2.8121¢ per Mcf above the currently effective rates.

El Paso states that copies of the filing and attachments have been served upon all parties of record in Docket Nos. RP72-155 and RP76-59, and, otherwise, upon all affected customers and interested state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 15, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[Docket Nos. CS76-186; No. CP76-117 and No. CP76-120]

JICARILLA APACHE TRIBE ET AL.

Findings and Order Issuing Small Producer Certificate To Cover Sale of Royalty Gas

OCTOBER 4, 1976.

In the matter of findings and order issuing small producer certificate to cover sale of royalty gas taken in kind subject to rate condition and dismissal as premature of pipeline applications for exchange, transportation and delivery of royalty gas for royalty owner's own use.

On October 6, 1975, the Jicarilla Apache Tribe (Tribe) filed in Docket No. CS76-186 for a small producer certificate to cover the sale to El Paso Natural Gas Company (El Paso) and Northwest Pipeline Corporation (Northwest) of royalty gas Tribe has elected to take in kind. No increase in supply or change in the present flow of gas is involved at this time. On October 6, 1975, as supplemented on April 9, 1976, in Docket Nos. CP76-117 and CP76-120, respectively, El Paso and Northwest filed applications for authorization to transport, deliver and exchange natural gas for the purpose of enabling Tribe ultimately to receive for its own use any or all of the royalty gas Tribe has elected to take in kind.

Tribe, as lessor, owns royalty interests (generally either ⅛ or ⅙) in wells located on Tribe's reservation in the San Juan Basin, Rio Arriba County, New Mexico.[1] Tribe's lease agreements contain the provision that Tribe, upon 30-days notice, may elect to take its royalty gas in kind in lieu of cash payment, and by resolution dated August 22, 1975, Tribe has elected to do so.

Tribe's goal is ultimately to use its royalty gas in various industrial and agricultural projects for the economic benefit of its members and the Tribe as a whole. Tribe states that many of its members live in severe poverty with inadequate housing and that with the advent of industrialization and the use of Tribe's royalty gas, some of these conditions can be corrected and the welfare of the Tribe members improved.

Tribe states that the main obstacle that has prevented it from using its royalty gas is that it does not own, nor could it afford, a gathering system to gather the gas from the wells and transport it to a single point on the reservation. Now, Tribe alleges that this obstacle has been surmounted through an arrangement with El Paso and Northwest. By a 20-year term Royalty Gas Gathering and Exchange Agreement dated September 4, 1975, El Paso and Northwest have agreed to transport, deliver and exchange Tribe's royalty gas by means of portions of El Paso's and Northwest's existing gathering systems located mainly on Tribal lands in Rio Arriba County. The Agreement provides for an initial gathering charge to Tribe of 6.61 cents per Mcf at 15.025 psia for volumes delivered to Tribe at a central point for its own use.

Applicants state that initially Tribe does not intend to utilize any royalty gas for its own consumption and the entire volume thereof will be purchased, on a pro rata basis, by El Paso and Northwest until Tribe elects to receive the royalty volumes. At such future time, only the excess royalty gas not delivered to Tribe is to be available for purchase by El Paso and Northwest. Applicants have not indicated specifically when Tribe will be prepared to take volumes for its own use.[2] The initial rate for volumes to be sold by Tribe is represented to be 51.0 cents per Mcf (14.73 psia), adjusted for Btu content and taxes.[3] Tribe's small producer application shows that it had no jurisdictional sales volumes for the preceding calendar year.

Applicants state that total production in 1973 from Tribe's reservation was 43,208,560 Mcf, with a total of 566,780,131 Mcf being produced from 1960 to 1973. Most of the production goes into interstate commerce through production or purchase by El Paso and Northwest. The remainder is sold to Southern Union Gas Company for intrastate distribution. The proposal involves 836 producing wells, 502 of which are connected to the gathering system of El Paso and 334 of which are connected to the gathering system of Northwest. Some of the wells are owned and operated by El Paso, some by Northwest and some by independent producers who sell their production to El Paso or Northwest.[4] Total volumes available to Tribe from the wells in 1974, had it exercised its option, would have been 1,509,198 Mcf attributable to El Paso and 1,980,192 Mcf attributable to Northwest. El Paso and Northwest have forecast that Tribe's interest in production would range, on an average day, from 3,500 Mcf in 1975 to 3,000 Mcf in 1978 for production attached to El Paso's system and from 4,300 Mcf in 1975 to 3,100 Mcf in to 1978 for production attached to Northwest's system.

El Paso proposes to construct and operate tap and measurement facilities at a point downstream of its Lindrith Field Plant in Rio Arriba County, New Mexico, at an estimated cost of $33,615, to be financed from funds on hand. El Paso states that it is requesting authorization for the facilities at this time, but does not intend to commence construction until such time as Tribe advises that it wishes to commence receipt of its royalty gas. Northwest will not require any addition facilities.

Since Tribe is not going to take volumes for its own use at this time, but will sell all royalty volumes to El Paso and Northwest, there will be no reduction in volumes dedicated to interstate commerce. Before Tribe may divert royalty volumes from the interstate market for its own use, Tribe must, of course, file for and receive Commission authorization to abandon service in accordance with Section 7(b) of the Natural Gas Act.[5]

By electing to take royalty gas in kind the Tribe is succeeding to the certificate obligations of the parties which committed the total gas supply (working interest gas and royalty gas) to interstate commerce. Thus Tribe must continue the flow of those committed natural gas volumes into interstate commerce under materially the same terms and conditions as required by the working interest owners' certificates. Moreover, Tribe's proposed sales of royalty gas attributable to working interests held by El Paso, Northwest and large producers cannot be made under a small producer certificate absent waiver of Section 157.40(c) of the Commission's Regulations under the Natural Gas Act.[6] However, the Commission has granted waiver of Section 157.40(c) to allow small producers to sell under their small producer certificates gas from acquired reserves developed by large producers, on the condition that the rates charged do not exceed the applicable ceiling rates for large producer sales. Therefore, waiver of Section 157.40(c) of the Regulations is granted to the extent necessary to permit such coverage, with the condition that Tribe is limited to the same rates which would apply if the gas were sold (or accounted for, with respect to pipeline production) by the respective working interest owners.[7]

El Paso's and Northwest's proposed exchange and transportation arrangement

---

[1] El Paso states that in such order, the Commission modified ordering paragraph (D) of Opinion No. 770 by providing, inter alia, that the special surcharge be designed to recover estimated increased costs attributable to Opinion No. 770 incurred through October 26, 1976, over a twelve (12) month period with a nine percent (9%) carrying charge.

[2] El Paso states that as a matter of administrative convenience to its customers, it has determined the special surcharge rate based upon estimated jurisdictional sales volumes for the period October 27, 1976, through September 30, 1977, rather than the full twelve month recovery period prescribed by the Commission's September 23, 1976, order. In this manner, El Paso proposes to avoid two changes in rates during the month of October, 1977, resulting from the elimination of said special surcharge and a regularly scheduled PGAC adjustment on October 1, 1977. El Paso has requested waiver of the twelve month recovery period prescribed in the notice of change.

[3] Commission notice of El Paso's PGAC notice of rate change and related motion was issued on September 15, 1976, at Docket Nos. RP72-155 and RP76-59 (PGA76-4), according to El Paso.

[4] See Commission letter order issued September 23, 1976, at Docket No. RP72-155 (PGA76-4) according to El Paso.

[1] The reservation covers about 742,000 acres.

[2] In a letter dated January 23, 1976, to El Paso and Northwest, copies of which were included in El Paso's and Northwest's April 9, 1976, supplements, Tribe stated that a feasibility study has been completed for a proposed anhydrous ammonia plant and that such a plant could be brought on stream approximately 18 months after El Paso and Northwest receive authorization to transport and deliver the volumes.

[3] Equal to the national rate for new gas at the time of filing of the application.

[4] El Paso and Northwest submitted computer printouts on April 9, 1976, that list over 45 independent producers (both large and small) selling gas to them.

[5] See Opinion No. 750 issued January 28, 1976 in Phillips Petroleum Company, Docket No. CI76-68.

[6] Section 157.40(c) states, in part: "Rate regulation as prescribed herein shall not apply to any jurisdictional sales made by a small producer where gas reserves relating thereto were acquired by the purchase of developed reserves in place from a large producer."

[7] See "Order Denying Petition For Reconsideration" issued June 1, 1976, in Docket No. CI67-818, Gulf Oil Corporation.

V41N199 OCT 13 76 UMI

would serve the purpose of delivering to Tribe at a central point those volumes of royalty gas Tribe elects to have diverted from interstate commerce for its own use. Since Tribe is apparently not ready to take delivery, and since abandonment authorization is a prerequisite to the implementation of the exchange and transportation arrangement, El Paso's and Northwest's applications are premature and are being dismissed without prejudice to an appropriate submittal at such time as Tribe files to obtain the requisite abandonment authorization.

El Paso has concurrently filed the Royalty Gas Gathering and Exchange Agreement dated September 4, 1975, among El Paso, Northwest and Tribe, as El Paso's Rate Schedule X-36 (Original Sheet Nos. 698 through 743) under its FPC Gas Tariff, Third Revised Volume No. 2. Pursuant to Section 154.51 of the Regulations, El Paso requests waiver of the notice requirement of Section 154.22 to permit the proposed rate schedule to take effect on the date of certificate authorization. Dismissal of El Paso's certificate application and the consequent rejection of the proposed rate schedule as ordered herein make the request for waiver moot.

Due notice of the application in Docket No. CS76-186 was given by publication in the Federal Register on November 10, 1975 (40 FR 52437). Due notice of the applications in Docket Nos. CP76-117 and CP76-120 was given by publication in the FEDERAL REGISTER on November 4, 1975, and appeared in the Federal Register at (40 FR 51231) and (40 FR 51233), respectively. Tribe filed petitions on November 10, 1975, to intervene in support of El Paso's and Northwest's proposals in Docket Nos. CP76-117 and CP76-120, respectively. Southern Union Gas Company filed a petition to intervene on November 10, 1975, in Docket No. CP76-120, not in opposition, but as an interested party. No protests, notices of or petitions to intervene in opposition were filed by the due dates of November 19, 1975 (CS76-186), November 11, 1975 (CP76-120), and November 12, 1975 (CP76-117).

By letters dated February 19 and June 4, 1976, the Commissioner of Indian Affairs, U.S. Department of the Interior, has expressed support of the Tribe in its endeavor and requests acceptance of Tribe's application and issuance of a small producer certificate.

At a hearing held on September 22, 1976, the Commission on its own motion received and made a part of the record in these proceedings all evidence, including the applications and exhibits thereto, submitted in support of the authorizations sought herein, and upon consideration of the record,

The Commission finds: (1) Applicant, the Jicarilla Apache Tribe, will be engaged in the sale for resale of natural gas in interstate commerce subject to the jurisdiction of the Commission and will be, therefore, a "natural-gas company" within the meaning of the Natural Gas Act.

(2) The sale of natural gas hereinbefore described as more fully described in the application in this proceeding, will be made in interstate commerce subject to the jurisdiction of the Commission; and such sale by Tribe, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, is subject to the requirements of subsections (c) and (e) of Section 7 of the Natural Gas Act.

(3) Tribe is able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules, and regulations of the Commission thereunder.

(4) Tribe is not affiliated with a Natural gas pipeline company and Tribe's total jurisdictional sales on a nationwide basis were not in excess of 10,000,000 Mcf at 14.65 psia during the preceding calendar year. Tribe is therefore qualified to obtain a small producer certificate pursuant to Section 157.40 of our Regulations.

(5) The sale of natural gas by Tribe is required by the public convenience and necessity and a certificate therefor should be issued as thereinafter ordered and conditioned.

(6) It is appropriate that § 157.40(c) of the Regulations be waived to the extent necessary to permit the proposed sale by Tribe to be made under its small producer certificate being issued herein, subject to the rate limitations applicable to comparable sales by the related working interest owners.

(7) Participation by Tribe in Docket Nos. CP76-117 and CP76-120 and by Southern Union Gas Company in Docket No. CP76-120 may be in the public interest.

(8) Applicant, El Paso Natural Gas Company, a Delaware corporation having its principal place of business in El Paso, Texas, is a "natural-gas company" within the meaning of the Natural Gas Act, as heretofore found by the Commission in its order of October 29, 1942, in Docket No. G-242 (3 FPC 851).

(9) Applicant, Northwest Pipeline Corporation, a Delaware corporation having its principal place of business in Salt Lake City, Utah, is a "natural-gas company" within the meaning of the Natural Gas Act, as heretofore found by the Commission in its order of September 21, 1973, in Docket No. CP73-331 (50 FPC 825).

The Commission orders: (A) A small producer certificate of public convenience and necessity is issued to Tribe in Docket No. CS76-186, effective October 6, 1975, the date of filing of the application, upon the terms and conditions of this order authorizing the sale for resale and delivery of natural gas in interstate commerce by Tribe, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, all as hereinbefore described and as more fully set forth in the application in this proceeding.

(B) The certificate granted in Ordering Paragraph (A) above is not transferable and shall be effective only so long as Tribe continues the acts or operations hereby authorized in accordance with the provisions of the Natural Gas Act and the applicable rules, regulations and orders of the Commission, and particularly:

(1) The subject certificate shall be applicable only to small producers sales as defined in Section 157.40(a)(3) of the Regulations under the Natural Gas Act; and

(2) Tribe shall file annual statements pursuant to Section 154.104 of the Regulations under the Natural Gas Act.

(C) The certificate granted in Ordering Paragraph (A) above shall remain in effect for small producer sales until the Commission on its own motion or on application terminates said certificate because Tribe no longer qualifies as a small producer or fails to comply with the requirements of the Natural Gas Act, the regulations thereunder, or the terms of the certificate. Upon such termination, Tribe will be required to file separate certificate applications and individual rate schedules for future sales. To the extent compliance with the terms of this order is observed, the small producer certificate will still be effective as to sales already included thereunder.

(D) Section 157.40(c) of the Commission's Regulations is hereby waived to the extent necessary to permit the sale of royalty gas taken in kind, as hereinbefore described, to be made under Tribe's small producer certificate issued herein in Docket No. CS76-186, conditioned to the same rates at which the related working interest volumes could be sold (i.e., the rates for the royalty gas will depend upon whether the owner of each working interest to which the royalty is attributable is a small producer, a large producer or a pipeline producer (El Paso or Northwest)).

(E) Tribe is advised that with respect to any small producer sale made pursuant to the authorization herein, no volumes may be diverted from interstate commerce without Tribe first filing for and obtaining abandonment authorization in accordance with Section 7(b) of the Act and the Commission's Regulations thereunder.

(F) Pursuant to Order No. 539-B, Order Clarifying Prior Orders And Amending Section 157 Of The Commission's Regulations Under The Natural Gas Act, Docket No. RM76-8 (issued July 30, 1976), the Commission's Regulations were amended to include new Section 157.41, which requires the following language be inserted as a condition in all certificates of public convenience and necessity issued on or after July 30, 1976:

All persons making jurisdictional sales pursuant to the authority granted by this certificate are hereby given notice that the contractual obligations between the buyer and the seller are incorporated into the certificate obligations, and that the certificate is further conditioned to require that the seller shall observe the standard of a prudent operator to develop and maintain deliverability from reserves dedicated hereunder.

(G) El Paso's and Northwest's applications filed in Docket Nos. CP76-117 and CP76-120, respectively, are dismissed as premature, and El Paso's related proposed tariff filing is rejected without prejudice to the submittal of appropriate filings at such time as Tribe files an application to abandon service.

(H) Tribe in Docket Nos. CP76-117 and CP76-120 and by Southern Union Gas Company in Docket No. CP76-120 are permitted to intervene in the above-entitled proceeding, subject to the rules and regulations of the Commission; *Provided, however*, That its participation shall be limited to matters affecting asserted rights and interests specifically set forth in Tribe's and Southern Union's petitions for leave to intervene; and *Provided, further*, That the admission of Tribe and Southern Union in the manner provided shall not be construed as recognition by the Commission that Tribe and Southern Union might be aggrieved because of any order or orders entered in this proceeding, and that Tribe and Southern Union agree to accept the record as it now stands.

By the Commission.

LOIS D. CASHELL,
Acting Secretary.

[Docket No. RP73-89 (PGA76-3)]

SEA ROBIN PIPELINE CO.

Filing of Revised Tariff Sheet

OCTOBER 5, 1976.

Take notice that on September 27, 1976, Sea Robin Pipeline Company (Sea Robin) filed with the Federal Power Commission (Commission) Eleventh Revised Sheet No. 4 as a part of its FPC Gas Tariff, Original Volume No. 1, with a proposed effective date of October 27, 1976. According to the Company, the proposed tariff sheet reflects Sea Robin's purchased gas cost permitted under Commission Opinion No. 770.

Copies of the revised tariff sheet and supporting data are being mailed to all of Sea Robin's jurisdictional customers and interested state commission, Sea Robin states.

Review of the filing indicates that the annual impact upon Sea Robin's cost of service of producer rate increases attributable to Opinion No. 770, exclusive of surcharge, is $76,042,234. The surcharge amount is $20,064,146.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 18, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RP76-22 and RP73-49 (PGA76-6a)]

SOUTH GEORGIA NATURAL GAS CO.

Revision to Tariff

OCTOBER 4, 1976.

Take notice that on September 27, 1976, South Georgia Natural Gas Company (South Georgia) tendered for filing as a part of the Stipulation and Agreement filed on September 17, 1976, Third Revised Sheet No. 4 to First Revised Volume No. 1 of its FPC Gas Tariff.

South Georgia states that the above sheet represents a rate change under its PGA Clause and on the basis of the rates reflected in the Stipulation and Agreement filed September 17, 1976, for the purpose of tracking a rate increase filing made by Southern Natural Gas Company on September 27, 1976. South Georgia states that the instant filing will increase South Georgia's jurisdictional rates by $5,084,696. An effective date of October 27, 1976 is proposed.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 15, 1976. Prfotests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. RP72-156 (PGA76-4)]

TEXAS GAS TRANSMISSION CORP.

Special One-Time PGA Filing To Track Gas Cost Increases

OCTOBER 5, 1976.

Take notice that on September 27, 1976, Texas Gas Transmission Corporation (Texas Gas) submitted for filing as part of its FPC Gas Tariff, Third Revised Volume No. 1, Sixteenth Revised Sheet No. 7.

Texas Gas states the purpose of this filing is to make a special one-time purchased gas cost adjustment, as permitted under the Commission's Opinion No. 770 as modified by Order Modifying Opinion No. 770 issued September 22, 1976, in Docket No. RM75-14, to track increases in purchase gas costs attributable to the national rate.

The proposed effective date of the above tariff sheet is October 27, 1976.

Review of the filing indicates that the annual impact upon Texas Gas' cost of service of producer rate increases attributable to Opinion No. 770, exclusive of surcharge, is $70,287,616. The surcharge amount is $18,264,853.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 925 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 18, 1976. Protests will be sonsidered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP76-529]

UNITED GAS PIPE LINE CO.

Application

OCTOBER 4, 1976.

Take notice that on September 20, 1976, United Gas Pipe Line Company (Applicant), P.O. Box 1478, Houston, Texas 77001, filed in Docket No. CP76-529 an application pursuant to Section 7(c) of the Natural Gas Act and Section 2.79 of the Commission's General Policy and Interpretations (18 CFR 2.79) for a certificate of public convenience and necessity authorizing the transportation of natural gas for The New Jersey Zinc Company (Zinc) from a point of receipt on its 30-inch North-South pipeline near mile post 177.5 in Section 9, Township 12 North, Range 2 East, Caldwell Parish, Louisiana, to mutually agreeable, existing points of interconnection where Applicant would redeliver the gas to Transcontinental Gas Pipe Line Corporation (Transco) for the account of Zinc, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant proposes to transport up to 3,500 Mcf of gas per day to be produced from certain leases Zinc has acquired from Trident Oil and Gas Corporation, Bel Oil Corporation, Black Bayou Management Co. Inc., and six individuals. It is indicated that the gas would be produced from certain gas reserves in place, located in Townships 12 and 13, Range 1 East, Winn Parish, Louisiana, from the North Hickory Valley, Southeast Hickory Valley, South Hickory Valley, and Tanyard Creek Fields. It is said that Applicant would transport on an average day

V41 1990 OCT 13 76 UMI

3,000 Mcf and on an annual basis 912,500 Mcf, and would redeliver the gas for the account of Zinc to points of interconnection of Transco and Applicant near Victoria, Victoria County, Texas; near Cameron, Cameron Parish, Louisiana; at Egan Plant in Acadia Parish, Louisiana; near Gueydan, Acadia Parish, Louisiana; at Gibson Plant Nos. 1 and 2 in Terrebonne Parish, Louisiana; near Magnolia and Holmesville, Pike County, Mississippi; near Walthall, Walthall County, Mississippi; and at Harmony Plant, Clarke County, Mississippi.

Applicant proposes to charge a price equal to Applicant's average jurisdictional transmission cost of service in its northern rate zone as such may be determined by Applicant based upon rate filings made from time to time with the FPC less any amount included in such average jurisdictional cost of service which is attributable to gas consumed in the operation of Applicant's pipeline system, the current rate being 16.55 cents per Mcf at 14.73 psia. It is stated that Applicant would retain 1.5 percent of the volumes transported for gas used, lost, and unaccounted.

The application indicates that the gas to be transported under this agreement would be consumed for Priority 2 end use in Zinc's plant located in Palmerton, Pennsylvania. Zinc, a Division of Gulf & Western Industries, Inc., is one of the six primary zinc mining and smelting businesses in the United States and the Palmerton Plant is the second largest such facility in the United States. Applicant asserts that projected curtailment to less than 7,000 Mcf per day would result in curtailed production and physical damage to the plant's vertical retorts and refinery columns.

Applicant further maintains that the subject gas was not secured as part of Applicant's system gas supply because Zinc is unwilling to commit gas from its leases to Applicant for general system use.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 20, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

LOIS D. CASHELL,
Acting Secretary.

[Docket No. RP72-133 (PGA76-4)]

UNITED GAS PIPE LINE CO.

Filing of Revised Tariff Sheet

OCTOBER 5, 1976.

Take notice that on September 27, 1976, United Gas Pipe Line Company (United) filed with the Federal Power Commission (Commission) Thirty-Fourth Revised Sheet No. 4 as a part of its FPC Gas Tariff, First Revised Volume No. 1, with a proposed effective date of October 27, 1976. The proposed tariff sheet reflects United's purchased gas cost permitted under Commission Opinion No. 770, according to the Company.

Copies of the revised tariff sheet and supporting data are being mailed to all of United's jurisdictional customers and interested state commissions, the Company states.

Review of the filing indicates that the annual impact upon United's cost of service of producer rate increases attributable to Opinion No. 770, exclusive of surcharge, is $144,715,712. The surcharge amount is $31,009,940.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 18, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

PETITIONS FOR RULEMAKING

None.

Board of Governors of the Federal Reserve System, October 5, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.76-29954 Filed 10-12-76;8:45 am]

BREN-MAR PROPERTIES, INC.

Order Approving Acquisition of Bank

Bren-Mar Properties, Inc., Columbia, Missouri ("Applicant"), a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to retain [1] an additional 1.5 percent, and to acquire an additional 48.5 percent, of the voting shares of First State Bank, Tishomingo, Oklahoma ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, a one-bank holding company, presently owns 31.6 percent of the shares of Bank.[2] Bank, with total deposits of approximately $10.3 million,[3] controls approximately 0.1 of one percent of the total deposits in commercial banks in Oklahoma and is the only bank in the relevant banking market which is approximated by the boundaries of Johnston County in south-central Oklahoma. Applicant proposes to acquire 485 shares or 48.5 percent of the shares of Bank from the family that controls Applicant and Bank and also requests permission to retain 15 shares of Bank that were acquired without prior approval of the Board. Because the Applicant's proposal involves the acquisition and retention of shares of a bank that it already controls consummation of the proposal would eliminate no existing or potential competition nor would it increase the concentration of banking resources. Thus competitive considerations are consistent with approval of the application.

The financial condition managerial resources and future prospects of Applicant and Bank are regarded as generally satisfactory and consistent with approval of the application. Although there will be no immediate change in the services or facilities of Bank as a result of consummation of the proposal considerations relating to the convenience and needs of the community to be served are consistent with approval of the application. Therefore it is the Board's judgment that the proposal is consistent with the public interest and that the application should be approved.

On the basis of the record the application is approved for the reasons summarized above. The transaction involving the acquisition of additional shares shall not be made (a) before the thirtieth calendar day following the effective date of this order nor (b) later than three months after the effective date of this order unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[4] effective October 5, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.76-29945 Filed 10-12-76;8:45 am]

CENTURY FINANCIAL CORPORATION OF MICHIGAN

Order Approving Acquisition

Century Financial Corporation of Michigan, Saginaw, Michigan, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), to acquire shares of Century Life Insurance Company of Michigan, Phoenix, Arizona ("Company"), a company that will engage *de novo* in the activity of underwriting, as reinsurer, credit life and credit accident and health insurance directly related to extensions of credit by Applicant's lending subsidiaries in the State of Michigan. Such activity has been determined by the Board to be closely related to banking (12 CFR 225.4(a)(10)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (41 FR 31262). The time for filing comments and views has expired, and the Board has considered the application and all comments received in the light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)).

Applicant, the 16th largest banking organization in Michigan, controls two subsidiary banks with aggregate deposits of approximately $264.9 million, representing 0.9 per cent of the total deposits in commercial banks in the State.[1]

Company will engage *de novo* in the activity of underwriting, as reinsurer, credit life and credit accident and health insurance directly related to extensions of credit by Applicant's subsidiary banks. Company will be formed as an Arizona insurance corporation and will be qualified to underwrite insurance directly only in Arizona. Accordingly, the insurance sold by Applicant's subsidiary banks will be directly underwritten by an unaffiliated insurance company qualified to do business in Michigan, and will thereafter be assigned or ceded to Company under a reinsurance agreement. Since this proposal involves a *de novo* acquisition, consummation of the transaction would not have any adverse effects on existing or potential competition in any relevant market.

Credit life and credit accident and health insurance is generally made available by banks and other lenders and is designed to assure repayment of a loan in the event of death or disability of the borrower. In connection with its addition of the underwriting of such insurance to the list of permissible activities for bank holding companies, the Board stated:

> To assure that engaging in the underwriting of credit life and credit accident and health insurance can reasonably be expected to be in the public interest, the Board will only approve applications in which an applicant demonstrates that approval will benefit the consumer or result in other public benefits. Normally, such a showing would be made by a projected reduction in rates or increase in policy benefits due to bank holding company performance of this service. (12 CFR 225.4(a)(10) n. 7)

Applicant has stated that following consummation of the acquisition, Company will offer at reduced premiums the several types of credit insurance policies that it will reinsure. Company will offer credit life insurance at premium rates 3.3 percent below the statutory maximum allowable rates in Michigan. Applicant also proposes that Company will offer credit accident and health insurance at premium rates 5 percent below the maximum allowable rates, and level term single payment life insurance at premium rates 3.3 percent below the maximum allowable rates. The Board is of the view that Applicant's proposed reductions in insurance premiums are procompetitive and in the public interest.

Based upon the foregoing and other considerations reflected in the record, including a commitment by Applicant to maintain on a continuing basis the public benefits which the Board has found to be reasonably expected to result from this proposal and upon which the approval of this proposal is based, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

The transaction shall be made not later than three months after the effective date of this order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Chicago, pursuant to authority hereby delegated.

By order of the Board of Governors,[5] effective October 5, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.76-29946 Filed 10-12-76;8:45 am]

DESERET BANCORP.

Order Approving Formation of Bank Holding Company

Deseret Bancorporation, Pleasant Grove, Utah, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1942(a)(1)) of formation of a bank holding company through acquisition of all of the voting shares (less directors' qualifying shares) of the successors by merger to Bank of Pleasant Grove, Pleasant Grove, Utah; State Bank of Lehi, Lehi, Utah; Mountain View Bank, American Fork, Utah, existing banks; and Geneva State Bank of Orem, Orem, Utah, a proposed new bank. The banks into which the individual banks are to be merged have no significance except as a means to facilitate the acquisition of the voting shares of the banks. Accordingly, the proposed acquisition of shares of the successor organizations is treated herein as the proposed acquisition of the shares of the banks.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired. The Commissioner of Financial Institutions of the State of Utah has indicated that he has no objection to the proposal. The Federal Reserve Bank of San Francisco has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is a recently-organized corporation formed for the purpose of becoming a bank holding company through the acquisition of controlling interests of banks. The proposed transaction involves the transfer of control of the banks from individuals to a corporation owned by the same individuals.

Bank of Pleasant Grove (deposits of $18.2 million), the twentieth largest bank in the State; State Bank of Lehi (deposits of $12.4 million), the twenty-sixth largest; and Mountain View Bank (deposits of $4.7 million), the forty-seventh largest [1], are all unit banks located in the Provo, Utah, banking markets [2]. Geneva State Bank of Orem, Orem, Utah, the proposed new bank, is also located in this banking market. Upon consummation of the transactions, Applicant would control 0.9 per cent of commercial banking deposits in the state.

The financial and managerial resources and future prospects of Appli-

---

See footnote [3] on p. 44895.

[1] On August 20, 1973, applicant acquired 24 shares (2.4 percent) of Bank without prior Board approval. Applicant subsequently sold 10 of these shares on January 30, 1974. Applicant continues to retain the other 14 shares. On February 4, 1976, Applicant again acquired 1 additional share, without prior Board approval, which it also presently retains. In accordance with the Board's position with respect to violations of the Act, the Board has scrutinized the underlying facts surrounding the acquisitions of Bank's shares without prior Board approval. Upon an examination of all the facts of record, including commitments made by Applicant that will guard against violations of section 3 of the Act in the future, the Board does not believe that the circumstances surrounding the violations reflect so adversely on the managerial factors as to constitute grounds for denial of this application.

[2] Applicant, a family-owned company, is a "company covered in 1970," as defined in 2(b) of the Act and engages in the following activities under the exemption in 4(c)(11) of the Act: (a) The rental of a commercial building in Hobbs, New Mexico, currently leased to the U.S. Postal Service, and (b) the rental of a one-unit apartment in New York City. Applicant also owns 20 shares (2 percent) of the Bank of Mountain View, Mountain View, Missouri, located approximately 330 air miles from Bank.

[3] All banking data are as of June 30, 1975.

[4] Voting for this action: Vice Chairman Gardner, and Governors Coldwell, Jackson, Partee, and Lilly. Absent and not voting: Chairman Burns and Governor Wallich.

[1] All banking data are as of December 31, 1975.

[5] Voting for this action: Vice Chairman Gardner and Governors Coldwell, Jackson, Partee and Lilly. Absent and not voting: Chairman Burns and Governor Wallich.

[1] Data as of June 30, 1976.

[2] The Provo RMA approximates Utah County.

V41N199 OCT 13 76 UMI

cant and its proposed banking subsidiaries are regarded as generally satisfactory. In arriving at such conclusion, this Reserve Bank has relied in part on Applicant's commitment to increase the equity capital of Mountain View Bank by $100,000 within twelve months of consummation of the proposed transactions. Consequently, this Reserve Bank regards banking factors as being consistent with approval of the application.

Applicant proposes to add mortgage, trust and financial management services thus providing new and expanded services to the banks' customers. Accordingly, these considerations relating to the convenience and needs of the communities to be served are consistent with approval. It is the Reserve Bank's judgment that consummation of the proposed transactions would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The acquisition shall not be made (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the effective date of the order, and (c) Geneva State Bank of Orem, Orem, Utah, shall be opened for business not later than six months after the effective date of this order. Each of the periods described in (b) and (c) may be extended for good cause by the Board or by the Federal Reserve Bank of San Francisco pursuant to delegated authority.

By order of the Federal Reserve Bank of San Francisco, acting pursuant to delegated authority for the Board of Governors, effective September 29, 1976.

H. B. JAMISON,
Vice President.

[FR Doc.76-29947 Filed 10-12-76;8:45 am]

EXCHANGE BANCORP., INC.

Order Approving Acquisition of Bank

Exchange Bancorporation, Inc., Tampa, Florida, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 80 per cent or more of the voting shares of Security National Bank, Lee County (P.O. Fort Myers), Florida ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the twelfth largest banking organization in Florida, controls thirteen banks with aggregate deposits of $532.5 million, representing 2.1 per cent of the total deposits in commercial banks in the State.[1] Applicant's acquisition of Bank (deposits of $40.1 million) would not significantly increase Applicant's share of total commercial bank deposits in Florida.

Applicant is seeking to make its initial entry into the Lee County banking market (the relevant market) through acquisition of Bank, which is the fifth largest of thirteen banking organizations in the market, holding approximately 6 per cent of total market deposits. The four largest banking organizations in the market control about 77 per cent of the market's total deposits, with the largest controlling 32 per cent. Furthermore, competing in the market are three of Florida's four largest banking organizations. Applicant's closest subsidiary bank is located approximately 130 miles north of Bank in a separate banking market. Thus, it appears that no significant competition exists between Bank and any of Applicant's subsidiary banks. Although Applicant has the financial capability to enter the market de novo, Florida's new branching laws preclude such entry at this time. Moreover, entry into the relevant market by others is not foreclosed as four independent banks will remain as points of entry into the market. It appears that the proposed transaction would have no significant adverse effects on potential competition. Accordingly, based on the above and other facts of record, the Board has determined that competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant, its subsidiary banks, and Bank are generally satisfactory. Therefore, considerations relating to banking factors are consistent with approval of the application. Affiliation with Applicant should enable Bank to expand and improve its existing banking services. Accordingly, the Board regards considerations relating to the convenience and needs of the community to be served as being consistent with approval of the application. It is the Board's judgment that the proposed acquisition is in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

[1] All banking data are as of December 31, 1975, and reflect bank holding company formations and acquisitions approved through September 30, 1976.

By order of the Board of Governors,[2] effective October 4, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.76-29948 Filed 10-12-76;8:45 am]

FIRST HANOVER PARK CORP.

Formation of Bank Holding Company

First Hanover Park Corporation, Chicago, Illinois, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 80.03 per cent of the voting shares of First State Bank & Trust Company of Hanover Park, Hanover Park, Illinois. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than October 28, 1976.

Board of Governors of the Federal Reserve System, October 4, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

FIRST INTERNATIONAL BANCSHARES, INC.

Acquisition of Bank

First International Bancshares, Inc., Dallas, Texas, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent of the voting shares (less directors' qualifying shares) of Alamo Heights National Bank, San Antonio, Texas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than November 9, 1976.

Board of Governors of the Federal Reserve System, October 6, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

FROSTBANK CORP.

Order Approving Lending Activities of Main Plaza Corporation

FrostBank Corporation, San Antonio, Texas, a bank holding company within the meaning of the Bank Holding Company Act ("Act"), has applied for the Board's approval, under section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)) and (§ 225.4(b)(2)) of the Board's Regulation Y (12 CFR 225.4(b)(2)), to retain the lending activities engaged in by its wholly-owned subsidiary, Main Plaza Corporation, San Antonio, Texas ("Company"). Such activities, consisting of making or acquiring for its own account or for the account of others loans or extensions of credit, have been determined by the Board to be closely related to banking (12 CFR 225.4(a)(1)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (41 FR 29040). The time for filing comments and views has expired, and the Board has considered the application and all comments received in the light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)).

Applicant, the tenth largest banking organization in Texas, controls five banks with aggregate deposits of approximately $687 million, representing 0.5 per cent of the total deposits in commercial banks in the State.[1]

In acting on applications submitted pursuant to section 4(c)(8) of the Act, the Board analyzes an application to continue to engage in section 4(c)(8) activities by the same standards that it analyzes an application to acquire a company engaged in such activities. In addition, the Board analyzes the competitive effects of a proposal both at the time of the acquisition and at the time of application for retention. Company was formed on May 1, 1973, concurrently with the reorganization of Applicant's predecessor, Frost Realty Company, San Antonio, Texas ("Frost Realty"),[2] for the purpose of holding certain assets and engaging in certain activities of Frost Realty.[3] Included in the activities transferred to Company were the above-described lending activities. Since that transaction was essentially a reorganization of Applicant's existing nonbank lending activities, it does not appear to have had any significant adverse effects on competition at that time.

At present, Company's lending activities essentially involve making business loans in the San Antonio SMSA.[4] Such lending activities include making loans for interim construction, stock acquisition and short-term capital working needs. Company originated $5.3 million of such loans during 1975 and had $3.7 million of such loans outstanding as of December 31, 1975. Applicant's subsidiary banks also engage in making business loans and hold approximately $200 million of such loans, representing 29.2 percent of the total business loans held by the 45 banking organizations operating in the relevant market. In view of the relatively small size of Company's lending activities and the number of other competitors,[5] it does not appear that the retention of Company's lending activities by Applicant would have any significant adverse effects on existing or potential competition. At the same time, the retention of Company's lending activities by Applicant should provide benefits to the public by assuring customers of a continued and convenient source for such loans. Moreover, there is no evidence in the record indicating that the retention of Company's lending activities would lead to any undue concentration of resources, unfair competition, conflicts of interests, unsound banking practices or other adverse effects on the public interest.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[6] effective October 5, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.76-29951 Filed 10-12-76;8:45 am]

[1] All banking data are as of December 31, 1975.

[2] The reorganization of Frost Realty and formation of Company occurred without prior approval of the Board. However, the Board has examined the facts surrounding these transactions and believes that those facts do not call for denial of the application to retain the lending activities of Company.

[3] At the same time, Frost Realty transferred the assets of Data Processing Center, San Antonio, Texas, to Company. On November 12, 1973, the Board approved the application of Applicant to retain those assets and thereby continue to engage in performing financially-related data processing activities under section 4(c)(8) of the Board's Regulation Y (12 CFR § 225(a)(8)).

[4] The San Antonio SMSA approximates the relevant geographic market for purposes of analyzing the competitive effects of the subject application.

[5] It should be noted that other competitors include commercial finance companies, insurance companies and savings and loan associations located outside as well as inside the market area in addition to the market's banking organizations.

[6] Voting for this action: Vice Chairman Gardner and Governors Coldwell, Jackson, Partee and Lilly. Absent and not voting: Chairman Burns and Governor Wallich.

TEXAS COMMERCE BANCSHARES, INC.

Acquisition of Bank

Texas Commerce Bancshares, Inc., Houston, Texas, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent of the voting shares (less directors' qualifying shares) of Bexar County National Bank of San Antonio, San Antonio, Texas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than November 5, 1976.

GENERAL SERVICES ADMINISTRATION

[Federal Property Management Regs.; Temporary Reg. D-67]

SECRETARY OF THE INTERIOR

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of the Interior to perform all functions in connection with the leasing of 10,500 square feet of space and the land incidental to its use,

V 41 1999 OCT 13 76 UMI

located on tribal land adjacent to the city of Anadarko, Oklahoma, for use by the Bureau of Indian Affairs, Anadarko Agency Office.

2. *Effective date.* This regulation is effective immediately.

3. *Expiration date.* This regulation shall expire 20 years from the effective date of the lease covering the space to be leased, or upon termination of the lease, whichever is earlier.

4. *Background.* This regulation reflects the delegation of authority that was granted to the Secretary of the Interior, by letter of January 28, 1976.

5. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949 (63 Stat. 377), as amended, authority is hereby delegated to the Secretary of the Interior to perform all functions in connection with the leasing of approximately 10,500 square feet of space and land incidental to its use, located on tribal land adjacent to the city of Anadarko, Oklahoma, for use by the Bureau of Indian Affairs.

b. This delegation shall extend to leasing space under authority contained in section 210(h)(1) of the above cited Act (40 U.S.C. 490(h)(1)), for a firm period not to exceed 20 years.

c. The Secretary of the Interior may redelegate this authority to any official or employee of the Department of the Interior.

d. This authority shall be exercised in accordance with the limitations and requirements of the above cited Act, section 322 of the Act of June 30, 1932, (40 U.S.C. 278a), as amended, other applicable statutes and regulations, and the policies, procedures, and controls prescribed by the General Services Administration.

6. *Effect on other issuances.* This temporary regulation cancels the letter dated January 28, 1976, from the Administrator of General Services to the Secretary of the Interior, related to the above delegation.

JACK ECKERD,
Administrator of General Services,

OCTOBER 1, 1976.

[Federal Property Management Reg.; Temporary Reg. G-29]

SECRETARY OF THE TREASURY

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of the Treasury to represent the shipper interests of the civilian agencies of the Federal Government in a motor carrier operating rights proceeding before the Interstate Commerce Commission.

2. *Effective date.* This regulation is effective July 1, 1976.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, as amended, 63 Stat. 377, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of the Treasury to represent the interests of the civilian agencies of the Federal Government before the Interstate Commerce Commission in a proceeding involving an application for operating authority by Purolator Security, Incorporated (Docket No. MC-114896 (Sub. No. 39TA)).

b. The Secretary of the Treasury may redelegate this authority to any officer, official, or employee of the Department of the Treasury.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

T. M. CHAMBERS,
Acting Administrator of General Services.

NATIONAL CREDIT UNION ADMINISTRATION

NATIONAL CREDIT UNION BOARD

Meeting and Agenda

Pursuant to the provisions of the Federal Advisory Committee Act, Pub. L. 92-463, 86 Stat. 770, notice is hereby given that the National Credit Union Board will hold a special meeting on October 26, 1976, and if business of the Board requires, on October 27, 1976. The meeting on October 26 will be held at the National Credit Union Administration Training Center, Fourth Floor, 1111 18th Street, NW., Washington, D.C., commencing at 10:00 a.m. If the meeting is held over, the October 27 session will be held at the offices of the National Credit Union Administration, Room 4210, 2025 M Street, NW., Washington, D.C., commencing at 9:00 a.m.

The agenda for this meeting will consist of an update briefing of Administration activities. An opportunity will be afforded for the trade associations and other representatives to make presentations concerning matters of interest to the credit union movement.

The Board will consider the year-end report, and a discussion of legislative matters will be had.

This meeting of the National Credit Union Board will be open to the public. Members of the public may file written statements with the Board either before or after the meeting. To the extent that time permits, interested persons may be permitted to present oral statements to the Board only on items listed in the aforementioned agenda. Requests to present such oral statements must be approved in advance by the Chairman of the Board. Such requests should be directed to the Chairman, National Credit Union Administration, Washington, D.C. 20456.

LORENA C. MATTHEWS,
Acting Administrator.

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR POLITICAL SCIENCE

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Advisory Panel for Political Science.
Date and time: October 29, 1976—9 a.m. to 5 p.m.
Place: Room 543, National Science Foundation, 1800 G Street, NW., Washington, D.C.
Type of meeting: Closed.
Contact person: Dr. Richard E. Dawson, Program Director, Political Science Program, Room 314, National Science Foundation, Washington, D.C. 20550, telephone (202) 632-4346.
Purpose of panel: To provide advice and recommendations concerning support for research in Political Science.
Agenda: To review and evaluate research proposals and projects as part of the selection process for awards.
Reason for closing: The proposals and projects being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals and projects. These matters are within exemptions (4) and (6) of 5 U.S.C. 522(b), Freedom of Information Act. The rendering of advice by the panel is considered to be a part of the Foundation's deliberative process and is thus subject to exemption (5) of the Act.
Authority to close meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make determinations by the Director, NSF, on February 11, 1976.

Dated: September 7, 1976.

M. REBECCA WINKLER,
Acting Committee Management Officer.

[812-3980]

THE INTEREST INCOME TRUST, FIRST SERIES (AND SUBSEQUENT SERIES) AND PRESCOTT, BALL & TURBEN

Filing of Application for an Order of Exemption From Provisions

Notice is hereby given that The Interest Income Trust, First Series and subsequent Series (the "Fund" or "Funds"), registered under the Investment Company Act of 1940 (the "Act") as a unit investment trust, and its sponsor, Prescott, Ball & Turben (the "Sponsor") (hereinafter the Sponsor and the Funds are sometimes collectively referred to as the "Applicants"), 900 National City Bank Building, Cleveland, Ohio 44114, filed an application on July 2, 1976, and amendments thereto on September 22, 1976, and October 1, 1976, pursuant to section 6(c) of the Act for an order of the Commission exempting the Funds from compliance with the initial net worth requirements of section 14(a) of the Act, exempting the frequency of the capital gains distributions of the Funds from the provisions of Rule 19b-1 under the Act and exempting the secondary market operations of the Sponsor and underwriters of the Funds from the provisions of Rule 22c-1. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Each of the Funds will be governed by a trust agreement (hereinafter called the "Trust Agreement") under which the Sponsor will act as such, State Street Bank and Trust Company will act as Trustee (hereinafter called the "Trustee") and an independent evaluating firm to be designated in the Trust Agreement will act as Evaluator (hereinafter called the "Evaluator"). Subject to compliance with the applicable provisions of the Trust Agreement relating to the Funds, one or more additional investment banking firms may act as Sponsors or underwriters in addition to Prescott, Ball & Turben, the public sale of units of beneficial interests (the "Units") in each of one or more trusts created under each Trust Agreement (the "Trusts") may be effected through the Sponsor as the sole underwriter or through an underwriting account, a different bank may act as Trustee in lieu of State Street Bank and Trust Company and the evaluating firm acting as Evaluator may change. The Trust Agreement for each Fund will contain standard terms and conditions of trust common to all Funds. The Sponsor will deposit into each Trust not less than $3,000,000 principal amount of debt obligations, issued primarily by corporations, preferred stocks of domestic corporations and contracts and funds for the purchase of certain such securities (hereinafter called the "Securities"), which the Sponsor shall have accumulated for such purpose. Simultaneously with such deposit, the Trustee will deliver to the Sponsor registered certificates for Units in the Trusts, which will be allocated among the Trusts in a Fund, if more than one, in proportion to the aggregate principal amount of Securities in each, representing in the aggregate entire ownership of a Fund. These Units are in turn to be offered for sale to the public by the Sponsor and the underwriters pursuant to the Agreement Among Underwriters entered into for each Fund by the Sponsor and the underwriters (the "Underwriting Agreement").

The Sponsor will accumulate Securities for the purpose of deposit in each of the Trusts. In selecting the Securities, the following factors will be of primary importance: (1) A rating of BBB or better by Standard & Poor's Corporation or Fitch Investors Service, Inc. or Baa or better by Moody's Investors Service, Inc.; (2) the yield and price of the Securities relative to other securities of comparable quality and maturity; and (3) diversification of the portfolio, taking into account the availability on the market of issues in various utility, banking, foreign governmental and industrial classifications which meet the quality, rating, yield and price criteria of a Fund. Each Trust will consist of the Securities, such securities as may continue to be held from time to time in exchange or substitution therefore, and accumulated and undistributed income.

Each Unit of a Trust will represent a fractional undivided interest in that Trust at approximately one Unit for each $1,000 principal amount of the Securities deposited. The numerator of the fractional interest represented will be 1; the denominator, the number of Units then in the particuar Trust. Units will be redeemable. In the event that any Units are redeemed, the denominator of the fraction will be reduced and the fractional undivided interest represented by each Unit outstanding will be increased. Units will remain outstanding until redeemed or until the termination of the Trust Agreement with respect to a Trust. A Trust may be terminated in the event that the value of the Securities in a Trust falls below 20 percent of the aggregate principal amount of the Securities initially deposited in such Trust, either upon direction of the Sponsor to the Trustee or by the Trustee without such direction. There will be no provision in the Trust Agreements for the issuance of any Units of any Trust after the initial offering of Units and such activity will not take place (except to the extent that the secondary trading by the Sponsor or the underwriters in the Units is deemed the issuance of Units under the Securities Act of 1933).

Following the deposit of Securities for each Fund by the Sponsor with the Trustee, and following the declaration of effectiveness of the Registration Statement filed under the Securities Act of 1933 for that Fund and clearance by the Blue Sky authorities of the various states, the Sponsor and the underwriters will offer the Units of the Trust or Trusts, as the case may be, to the public at the Public Offering Price set forth in the Prospectus, plus accrued interest.

In connection with portfolio activity and supervision, the Sponsor may direct the Trustee to dispose of Securities upon default in payment of principal or interest, the failure to declare or pay an anticipated dividend, or the occurrence of other market or credit factors which in the opinion of the Sponsor would make the retention of such Securities in a Trust detrimental to the interests of the Unitholders, or if the disposition of such Securities is desirable in order to maintain the qualification of a Fund as a regulated investment company under the Internal Revenue Code. The Sponsor will also be authorized by the Trust Agreement to direct the Trustee to accept or

V41 1999 OCT 13 76 UMI

reject certain plans for the refunding or refinancing of any of the Securities. The Sponsor will further be authorized to instruct the Trustee to reinvest the proceeds of the sale of any of the Securities (to the extent that such proceeds are not required for the purposes of redemption of Units or did not result from Sponsor directed sales of Securities as a result of defaults in the payment of principal or interest, failure to declare or pay dividends or the occurrence of other market or credit factors), as well as moneys held by the Trustee to cover the purchase of Securities pursuant to contracts which have failed in substitute Securities which satisfy certain conditions specified in the Trust Agreement. These conditions are designed, in general, to insure that substitute Securities purchased for a Trust conform to the standards followed by the Sponsor in selecting the Securities initially deposited in a Trust.

Distributions of interest and dividends, capital gains from the proceeds of the maturity or redemption of Securities and amounts not reinvested as described above will be paid out, less applicable expenses, monthly on a pro rata basis to Unitholders.

While not obligated to do so, under the provisions of the Underwriting Agreement the Sponsor and the underwriters presently intend to maintain a market for Units of each Trust following the initial public offering period and continuously to offer to purchase such Units at prices, subject to change at any time, which are based upon the offering side evaluation of the Securities. The Sponsor or any underwriter may discontinue purchases of such Units at priced based on the offering side evaluation of Securities should the supply of such Units exceed demand, or for other business reasons.

While the Applicants anticipate the Units in most cases can be sold in the secondary market for an amount in excess of the redemption price, Units may be submitted to the Trustee for redemption at any time. In such event, the Trustee, if unable to dispose of said Units in the secondary market at a price equal to or in excess of the redemption price, may be required to liquidate certain of the Securities in the Trust. The tendering Unitholder will receive cash from the proceeds of such liquidation. Consistent with Rule 22c–1, the Unitholder would receive cash in an amount per Unit equal to the redemption price as determined as of the evaluation time on the day of receipt of such tender for redemption, or if not a business day, on the next business day following such tender.

SECTION 14(a)

Section 14(a) of the Act requires that a registered investment company, prior to making a public offering of its securities, have a net worth of at least $100,000, have previously made a public offering and at that time have had a net worth of $100,000 or have made arrangements for at least $100,000 to be paid in by 25 or fewer persons before acceptance of public subscriptions.

Applicants seek an exemption from the provisions of Section 14(a) in order that a public offering of Units of the Trusts as described above may be made. In connection with the requested exemption from Section 14(a), the Sponsor agrees (i) to refund or cause to be refunded, on demand and without deduction, all sales charges to purchasers of Units of any Trust from the Sponsor or from any underwriter or dealer participating in the distribution, and liquidate the Securities held in a Trust and distribute the proceeds thereof if, within 90 days from the time that the Registration Statement under the Securities Act of 1933 relating to the Units of such Trust has become effective, the net worth of the Trust shall be reduced to less than $100,000 or if such Trust or Fund shall have been terminated, (ii) to instruct the Trustee to terminate any Trust in the event that redemption by the Sponsor or underwriters of unsold Units results in such Trust having a net worth of less than $3,000,000; and (iii) in the event of termination for the reasons described in (ii) above, to refund or cause to be refunded, on demand and without reduction, all sales charges to purchasers of Units of such Trust from the Sponsor or from any underwriter or dealer participating in the distribution.

Rule 19b–1(a) provides in substance that no registered investment company which is a "regulated investment company" as defined in Section 851 of the Internal Revenue Code shall distribute more than one capital gain dividend in any one taxable year. Paragraph (b) of the Rule contains a similar prohibition for a company not a "regulated investment company" but permits a unit investment trust to distribute capital gain dividends received from a "regulated investment company" within a reasonable time after receipt.

Distributions of principal, including any capital gains, and interest and dividends relating to each Trust will be made to Unitholders monthly. Distributions of principal constituting capital gains to Unitholders, may arise in the following instances: (1) An issuer might call or redeem Securities held in the portfolio; (2) Securities might be disposed of in order to maintain the qualification of a Fund as a regulated investment company under the Internal Revenue Code; and (3) Securities might be liquidated in order to provide the funds necessary to meet redemptions.

In support of the requested exemption, the application states that the dangers against which Rule 19b–1 is intended to guard do not exist in the situation at hand since neither the Funds nor the Sponsor has control over events which might trigger capital gains. In addition, it is alleged that the monthly interest and dividend distribution per Unit will be fairly constant within a specified range and any capital gains distributions will be clearly distinguished from interest and dividend distributions in the accompanying report by the Trustee to Unitholders. In order to comply with the literal requirements of the Rule, each Trust of a Fund would be forced to hold any monies constituting capital gains from the disposition of Securities until the end of its taxable year. The application states that such a practice would clearly be to the detriment of the Unitholders.

Paragraph (b) of Rule 19b–1 provides that a unit investment trust may distribute capital gains dividends received from a regulated investment company within a reasonable time after receipt. Applicants assert that the purpose behind such provision is to avoid forcing a unit investment trust to accumulate distributable amounts received throughout the year and distribute them only at year end and that the operations of the Trusts will be consistent with the intended objectives of such provision.

RULE 22c–1

Rule 22c–1 provides, in pertinent part, that no registered investment company issuing any redeemable security shall sell, redeem, or repurchase any such security except at a price based on the current net asset value of such security which is next computed after receipt of a tender of such security for redemption or of an order to purchase or sell such security.

Applicants seek an order exempting the secondary market operations of the Sponsor and the underwriters from the provisions of Rule 22c–1 under the Act. The application states that the underwriters will be bound by the provisions of the Underwriting Agreement to comply with the undertakings of the Sponsor in connection with secondary marketing operations. It is proposed to value Units of the Trusts, for repurchase and resale by the Sponsor and the underwriters in the secondary market, at prices computed on the last business day of each week, effective for all transactions made during the following week. The evaluation will be done by the Evaluator, who will also provide estimated evaluations on trading days in order to protect Unitholders and investors. In the case of a repurchase, if the Evaluator cannot state that the current bid side evaluation is not higher than or equal to the previous Friday's offering side evaluation, the Sponsor will order a new evaluation. In the case of a resale of Units in the secondary market, if the Evaluator cannot state that the previous Friday's price is no more than one-half point ($5.00 on a unit representing $1,000.00 principal amount of underlying securities) greater than the current offering price, a full evaluation will be ordered.

The application states that there are two purposes of Rule 22c–1: (1) To eliminate or reduce any dilution of the value of outstanding redeemable securities of registered investment companies occurring through the practice of redeeming or repurchasing securities at a price above their net asset value or selling securities at a price based upon a previously established net asset value which

permits a potential investor to take advantage of an upswing in the market by purchasing investment company shares at a net asset value which does not reflect the increase resulting from the market change and (2) to minimize speculative trading practices which so compromise registered investment companies as to be unfair to the holders of their outstanding securities.

Applicants assert that while the purposes for which Rule 22c–1 was adopted would not be served by its application to the Funds, the interests of investors might be significantly impaired by imposing upon them the cost of the determinations of net asset value required by Rule 22c–1.

Section 6(c) of the Act provides, in part, that the Commission may, upon application, conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from any provisions of the Act or of any rule or regulation under the Act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than October 29, 1976, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the address stated above. Proof of such service (by affidavit, or in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[File No. 500–1]

NEOTEC CORP.

Suspension of Trading

OCTOBER 1, 1976.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the securities of Neotec Corporation being traded on a national securities exchange or otherwise is required in the public interest and for the protection of investors;

Therefore, pursuant to section 12(k) of the Securities Exchange Act of 1934, trading in such securities on a national securities exchange or otherwise is suspended, for the period from 10:13 a.m., e.d.t., on October 1, 1976 through October 10, 1976.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.76–29922 Filed 10–12–76;8:45 am]

[File No. SR–OCC–76–7]

OPTIONS CLEARING CORP.

Order Approving Rule Change Submitted To Permit Settlement of Exercised Option Contracts Through a Designated Clearing Corporation

On August 6, 1976, the Options Clearing Corporation ("OCC") 6150 Sears Tower, Chicago, Illinois 60606, submitted, pursuant to Rule 19b–4 under the Securities Exchange Act of 1934 (the "Act"), a proposed rule change to permit each Clearing Member of OCC to effect settlements in respect of exercised option contracts through a clearing corporation designated by the Clearing Member for that purpose. The proposed rule change purports to apply to both call option and put option contracts.

In accordance with Section 19(b) of the Act and Rule 19b–4 thereunder, the proposed rule change was published in the FEDERAL REGISTER (41 FR 35588, August 23, 1976), and the public was invited to submit comments until September 13, 1976. Notice of the filing and an invitation for comments also appeared in Securities Exchange Act Release No. 34–12712, August 17, 1976. No letters of comment were received.

The Commission has reviewed the OCC submission and finds that the agreements, provisions and safeguards established by OCC are adequate for the protection of investors. Since exchange trading in listed put option contracts has not been approved by the Commission, the Commission is not at this time making any determination with respect to the proposed rule change insofar as it relates to put option contracts. Therefore, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to registered clearing agencies insofar as the proposed rule change relates to call option contracts.

It is therefore ordered, Pursuant to section 19(b)(2) of the Act, that the proposed rule change contained in File No. SR–OCC–76–7 be, and hereby is, approved insofar as it relates to call option contracts.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

SMALL BUSINESS ADMINISTRATION

MAXIMUM INTEREST RATES

Notice is given that the Small Business Administration ("SBA") has established the maximum rates of interest that lending institutions participating with SBA may charge on loans aproved by SBA on or after October 6, 1976, under Section 7 of the Small Business Act, as amended, and Section 502 of the Small Business Investment Act, as amended.

Effective October 6, 1976, the maximum rate of interest acceptable to SBA on a guaranteed loan or guaranteed revolving line of credit shall be ten percent (10%) per year, and the maximum rate on an immediate participation loan shall be nine percent (9%) per year. These maximum interest rates are one-half percent lower than those published in the FEDERAL REGISTER on July 1, 1976 (41 F.R. 27143), and shall remain in effect until notification of a change is issued by SBA.

The "SBA Optional Peg Rate" for the quarter-year beginning October 6, 1976, will be seven and three-fourths percent (7¾%) per year. This is an optional "peg" rate for use in connection with fluctuating-interest-rate loans made in participation with SBA.

This Notice is issued under 13 CFR 120.3(b)(2)(iv).

(Catalog of Federal Domestic Assistance Programs: No. 59.012 Small Business Loans; No. 59.013 State and Local Development Company Loans; No. 59.014 Coal Mine Health and Safety Loans; No. 59.017 Meat and Poultry Inspection Loans (Consumer Protection Loans); No. 59.018 Occupational Safety and Health Loans; No. 59.001 Displaced Business Loans; No. 59.003 Economic Opportunity Loans for Small Business).

Dated: October 1, 1976.

V41N199 OCT 13 76 UMI

[Application No. 01/01-5286]

UNITED VENTURE CAPITAL CORP.

Application for License as a Small Business Investment Company

An application for a license to operate as a small business investment company under the provisions of the Small Business Investment Act of 1958, as amended (Act) (15 U.S.C. 661 et seq.) has been filed by United Venture Corporation, Inc., (Applicant) with the Small Business Administration (SBA) pursuant to 13 CFR 107.102 (1976).

The officers and directors are as follows:

Richard E. Robidoux, President and Director, 560 Edgell Rd., Framingham, Massachusetts 01701.

Richard Robidoux II, Vice President and Director, 560 Edgell Rd., Framingham, Massachusetts 01701.

Robert E. MacAnn, Secretary/Treasury/Manager, 13 Birch Hill Road, Worcester, Massachusetts 01606.

Herbert Cohan, Director, 97 Aylesbury Rd., Worcester, Massachusetts 01609.

The Applicant will maintain its principal place of business at 495 Shrewsbury Street, Worcester, Massachusetts 06104. It will begin operations with $500,000 of private capital derived from the sale of 500 shares of common stock to Richard E. Robidoux.

As a small business investment company under section 301(d) of the Act, the Applicant has been organized and chartered solely for the purpose of performing the functions and conducting the activities contemplated under the Small Business Investment Act of 1958, as amended from time to time, and will provide assistance solely to small business concerns which will contribute to a well-balanced national economy by facilitating ownership in such concerns by persons whose participation in the free enterprise system is hampered because of social or economic disadvantages.

Matters involved in SBA's consideration of the Applicant include the general business reputation and character of the proposed owners and management and the probability of successful operation of the Applicant under their management, including adequate profitability and financial soundness, in accordance with the Small Business Investment Act and the SBA rules and regulations.

Notice is hereby given that any person may, not later than October 28, 1976, submit to SBA written comments on the proposed Applicant. Any such communication should be addressed to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in Worcester, Massachusetts.

(Catalog of Federal Domestic Assistance Program No. 59.011 Small Business Investment Companies)

Dated: October 5, 1976.

PETER F. MCNEISH,
Deputy Associate Administrator for Investment.

VETERANS ADMINISTRATION

STATION COMMITTEE ON EDUCATIONAL ALLOWANCES

Meeting

Notice is hereby given pursuant to Section V, Review. Procedure and Hearing Rules, Station Committee on Educational Allowances that on October 29, 1976, at 1:00 p.m., the Portland, Oregon Regional Office Station Committee on Educational Allowances shall at Room 1476, Federal Building, 1220 S.W. 3rd, Portland, Oregon, conduct a hearing to determine whether Veterans Administration benefits to all eligible persons enrolled in Franklin Institute of Sales, Portland, Oregon, should be discontinued, as provided in 38 CFR 21.4134, because a requirement of law is not being met or a provision of the law has been violated. All interested persons shall be permitted to attend, appear before, or file statements with the committee at that time and place.

Dated: October 5, 1976.

DONNA M. ARNDT,
Director, VA Regional Office, 1220 S.W. 3rd, Portland, Oregon 97204.

DEPARTMENT OF LABOR

Office of the Secretary

ADVISORY COMMITTEE ON WOMEN TO THE SECRETARY OF LABOR

Meeting

It is hereby announced that a meeting will be held by the Advisory Committee on Women to the Secretary of Labor, established under Sec. 9(c) of the Federal Advisory Committee Act (Public Law 92-463).

The meeting will convene at 9:00 a.m. on October 27, 1976, in Conference Room N-4437 at the New Department of Labor Building, 200 Constitution Ave., NW., Washington, D.C. It will be reconvened at 9:00 a.m. on October 28, in the same conference room.

The agenda will include presentations and discussions of Department of Labor programs; issues of concern to women workers; review of agenda; statement of purpose; committee priorities; organization and procedures; developing of work program and priorities.

Members of the public are invited to attend the discussions. Any written data or views pertaining to the agenda must be received on or before October 20, 1976 by the Committee's executive secretary. Twenty-five duplicate copies are needed for the members and for inclusion in the minutes of the meeting.

Persons wishing to address the Committee members during the meeting should submit to the executive secretary no later than October 20, 1976, a request to be heard, stating the nature of their intended presentation and the amount of time needed. The chairperson will announce at the beginning of the meeting the extent to which time will permit the granting of such requests.

Communications to the executive secretary should be addressed as follows:

Mercedes H. Flores, Executive Secretary, Advisory Committee on Women to the Secretary of Labor, Department of Labor, Room S-3002, 200 Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 4th day of October 1976.

CARMEN R. MAYMI,
Director, Women's Bureau and Executive Chairperson, Advisory Committee on Women to the Secretary of Labor.

[Notice No. 134]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

OCTOBER 7, 1976.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 8744 (Sub-No. 11TA), filed September 29, 1976. Applicant: CONSOLIDATED MOTOR EXPRESS, INC., 910 Grant St., P.O. Box 1160, Bluefield, W. Va. 24701. Applicant's representative: John M. Friedman, 2930 Putnam Ave., Hurricane, W. Va. 25526. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, between Bluefield, W. Va., on the one hand, and, on the other, points in Boone County, W. Va., and those points in Floyd, Harlan, Letcher, Martin, and Pikes Counties, Ky Applicant intends to tack its existing authority with MC 8744 Sub-No. 8. Applicant also intends to interline at Bluefield, W. Va., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shippers: There are approximately 7 statements of support attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examinted at the field office named below. Send protests to: H. R. White, District Supervisor, Interstate Commerce Commission, 3108 Federal Office Bldg., 500 Quarrier St., Charleston, W. Va. 25301.

No. MC 24784 (Sub-No. 6TA), filed September 22, 1976. Applicant: BARRY, INC., 463 South Water St., Olathe, Kans. 66061. Applicant's representative: Clyde N. Christey, 514 Capitol Federal Bldg., 700 Kansas Ave., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Roofing cement and coatings, caulking and glazing compounds, wood preservatives, and sound deadeners* (except in bulk), from the plantsite and/or storage facilities of Southwest Grease & Oil Co. (Kansas City), Inc., at or near Olathe, Kans., to points in Missouri, for 180 days. Supporting shipper: Southwest Grease & Oil Co. (Kansas City), Inc., 1400 S. Harrison, P.O. Box 1974, Olathe, Kans. 66061. Send protests to: John V. Barry, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 600 Federal Bldg., 911 Walnut St., Kansas City. Mo. 64106.

No. MC 52460 (Sub-No. 178TA), filed September 30, 1976. Applicant: ELLEX TRANSPORTATION, INC., 1420 W. 35th St., Tulsa, Okla., 74107. Applicant's representative: Steve Cipich, P.O. Box 9637, Tulsa, Okla. 74107. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products, gasoline and diesel fuel additives, advertising matter, and such other commodities* as are distributed by marketers of petroleum products (except in bulk), from Port Arthur, Tex., to points in Louisiana on and south of U.S. Highway 190, for 180 days. Supporting shipper: Texaco, Inc., 1111 Rusk, Houston, Tex. 77052. Send protests to: Joe Green, District Supervisor, Room 240, Old Post Office Bldg., 215 Northwest Third St., Oklahoma City. Okla. 73102.

No. MC 61231 (Sub-No. 95TA), filed September 30, 1976. Applicant: ACE LINES, INC., 4143 East 43rd St., Des Moines, Iowa 50317. Applicant's representative: William L. Fairbank, 1980 Financial Center, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pipe, pipe fittings, and couplings, connectors and accessories for pipe* (except iron or steel pipe), from the plantsite of Armco Steel Corporation, at or near Springfield, Ill., to points in Iowa, Kansas, Missouri and Nebraska, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Sup-

V41 1999 OCT 13 76 UMI

porting shipper: Armco Steel Corporation, 7000 Roberts St., Kansas City, Mo. 64125. Send protests to: Herbert W. Allen, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 5k8 Federal Bldg., Des Moines, Iowa 50309.

No. MC 69397 (Sub-No. 23TA), filed September 28, 1976. Applicant: JAMES H. HARTMAN & SON, INC., P.O. Box 85, U.S. Route 13, Pocomoke City, Md. 21851. Applicant's representative: Wilmer B. Jill, 805 McLachlen Bank Bldg., 666 Eleventh St., NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages*, in containers, from Philadelphia, Pa., to points in North Carolina, on and east of U.S. Highway No. 1, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting Shipper: C. Schmidt & Sons, Inc., 127 Edward St., Philadelphia, Pa. 19123. Send protests to: Interstate Commerce Commission, 12th and Constitution Ave., NW., Room 1413, W. C. Hersman, District Supervisor, Washington, D.C. 20423.

No. MC 105375 (Sub-No. 64TA), filed September 22, 1976. Applicant: DAHLEN TRANSPORT OF IOWA, INC., 1680 Fourth Ave., Newport, Minn. 55055. Applicant's representative: Joseph A. Eschenbacher, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia*, in bulk, in tank vehicles, from the storage facilities of N-REN Corporation, located near Dillworth, Minn., to points in North Dakota, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: N-REN Corporation, 256 McCullough St., Cincinnati, Ohio 45226. Send protests to: Marion L. Cheney, Transportation Assistant, Interstate Commerce Comission, Bureau of Operations, 414 Federal Bldg., and U.S. Courthouse 110 S. 4th St., Minneapolis, Minn. 55401.

No. MC 105813 (Sub-No. 215TA), filed September 29, 1976. Applicant: BELFORD TRUCKING CO., INC., P.O. Box 1936, 1759 S.W. 12th St., Ocala, Fla. 32670. Applicant's representative: Arthur J. Sibik, 7000 South Pulaski Road, Chicago, Ill. 60629. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pickles, pickled tomatoes, and sauerkraut*, all requiring movement in refrigerated (not including commodities in bulk, in tank vehicles), from the plantsite of Claussen Pickle Co. (a wholly owned subsidiary of Oscar Mayer & Co., Inc.), at or near Wodstock, Ill., to points in Alabama, Florida, Georgia, North Carolina, South Carolina and Tennessee, restricted to traffic orginating at the above-named origin and destined to the states named, and further restricted against movement of products in bulk, in tank vehicles, for 180 days. Supporting shipper: Oscar Mayer & Co., Inc., 910 Mayer Ave., Madison, Wis. 53704. Send protests to: G. H. Fauss, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Box 35008, 400 West Bay St., Jacksonville, Fla. 32202.

SUBCHAPTER N—EFFLUENT GUIDELINES AND STANDARDS

[FRL 629-2]

PART 435—ONSHORE SEGMENT OF THE OIL AND GAS EXTRACTION POINT SOURCE CATEGORY

Interim Final Rule Making

Notice is hereby given that effluent limitations and guidelines for existing sources to be achieved by the application of best practicable control technology currently available as set forth in interim final form below are promulgated by the Environmental Protection Agency (EPA). The regulation set forth below amends Part 435—oil and gas extraction point source category and will be applicable to existing sources for the onshore subcategory (Subpart C), the coastal subcategory (Subpart D), the beneficial use subcategory (Subpart E) and the stripper subcategory (Subpart F) of the oil and gas extraction point source category pursuant to sections 301, and 304 (b) and (c), 306(b) and 307(c) of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1311 and 1314 (b) and (c), 86 Stat. 816 et seq.; Pub. L. 92–500) (the Act). Simultaneously, the Agency is publishing in proposed form effluent limitations and guidelines for existing sources to be achieved by the application of best available technology economically achievable, standards of performance for new point sources and pretreatment for new sources. Economic analysis indicates unacceptable economic impacts would result from the application of the technologies which have now been evaluated for the stripper subcategory. Moreover, this subcategory constitutes only .1–.3% of the industry based on production and thus pollutant loads are very small in relation to those contributed by the other subcategories in this category. Accordingly, limitations for the stripper subcategory are being reserved pending study of other, less capital-intensive, control technologies. A description and discussion of this legal authority is contained in Appendix A to this preamble.

The oil and gas extraction point source category was first studied to determine whether separate limitations are appropriate for different segments within the category. This analysis included a determination of whether differences in raw material source, product produced, process employed, age, size, waste water constituents and other factors require development of separate limitations for different segments of the point source category. The raw waste characteristics for each such segment were then identified. The control and treatment technologies existing within each segment were identified in terms of the amount of constituents and the chemical, physical, and biological characteristics of pollutants, the effluent level resulting from the application of each of the techologies. This information was then evaluated in order to determine what levels of technology constitute the "best practicable control technology currently available." The data upon which the above analysis was performed included EPA permit applications, EPA sampling and inspections, consultant reports, and industry submissions. A substantial summary of the method of study, the several factors considered in subcategorization and the conclusions reached are set forth as Appendix B to this preamble.

The report entitled "Development Document for Interim Final Effluent Limitations Guidelines and New Source Performance Standards for the Oil and Gas Extraction Point Source Category" details the analysis undertaken in support of the interim final regulation set forth herein and will be available for inspection at the EPA Public Information Reference Unit, Room 2922 (EPA Library), Waterside Mall, 401 M St., S.W., Washington, D.C., at all EPA regional offices, and at State water pollution control offices in the very near future. A notice of its availability will be published in the FEDERAL REGISTER. A supplementary analysis prepared for EPA of the possible economic effects of the regulation will also be available for inspection at these locations. Copies of both of these documents are being sent to persons or institutions affected by the proposed regulation or who have placed themselves on a mailing list for this purpose (see EPA's Advance Notice of Public Review Procedures, 38 FR 21202, August 6, 1973). An additional limited number of copies of both reports are available. Persons wishing to obtain a copy may write the Environmental Protection Agency, Effluent Guidelines Division, Washington, D.C. 20460, Attention: Distribution Officer, WH–552.

When this regulation is promulgated in final rather than interim form, revised copies of the Development Document will be available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Copies of the economic analysis document will be available through the National Technical Information Service, Springfield, VA 22151.

Prior to this publication, many agencies and groups were consulted and given the opportunity to participate in the development of these limitations, guidelines and standards. All participating agencies have been informed of project developments. An initial draft of the Development Document was sent to all participants and comments were solicited on that report. A summary of these comments and the Agency's response and consideration of these is contained in Appendix C to this preamble.

The Agency has made a study of the costs and economic and inflationary impacts of this regulation. It is estimated that the capital cost of complying with the limitations based on the best practicable control technology currently available will be $44.38–$57.78 million, the additional capital cost of complying with regulations based on the best available control technology economically achievable will be $45.38 million. The total annual operating costs for these requirements based on best practicable control technology currently available is estimated to be $8.05–$10.76 million and the additional annual operating costs for the requirements based on best available technology economically achievable is estimated to be $3.7 million. The investment and operating costs for a new source are expected to be similar to the costs for an existing source though investment requirements may be somewhat lower since prior planning would alleviate the costs of acquiring additional space that some existing sources must cope with. These costs and the resultant economic and inflationary impact are briefly discussed in Appendix B to this preamble and are substantially detailed in the economic analysis document. It is hereby certified that the economic and inflationary effects of this proposal have been carefully evaluated in accordance with Executive Order No. 11821.

The Agency is subject to an order of the United States District Court for the District of Columbia entered in *Natural Resources Defense Council* v. *Train et al.* (Cv. No. 1609–73) which requires the promulgation of regulations for this industry category no later than September 1, 1976. This order also requires that such regulations become effective immediately upon publication. In addition, it is necessary to promulgate regulations establishing limitations on the discharge of pollutants from point sources in this category so that the process of issuing permits to individual dischargers under section 402 of the Act is not delayed.

It has not been practicable to develop and publish regulations for this category in proposed form, to provide a 60 day comment period, and to make any necessary revisions in light of the comments received within the time constraints imposed by the court order referred to above. Accordingly, the Agency has determined pursuant to 5 USC § 553(b) that notice and comment on the interim final regulations would be impracticable and contrary to the public interest. Good cause is also found for these regulations to become effective immediately upon publication.

Interested persons are encouraged to submit written comments. Comments should be submitted in triplicate to the Environmental Protection Agency, 401 M St., S.W., Washington, D.C. 20460, Attention: Distribution Officer, WH–552. Comments on all aspects of the regulation are solicited. In the event comments are in the nature of criticisms as to the adequacy of data which are available, or which may be relied upon by the Agency, comments should identify and, if possible, provide any additional data which may be available and should indicate why such data are essential to the amendment or modification of the regulation.

In the event comments address the approach taken by the Agency in establishing an effluent limitation or guideline EPA solicits suggestions as to what alternative approach should be taken and why and how this alternative better satisfies the detailed requirements of sections 301 and 304(b) of the Act.

A copy of all public comments will be available for inspection and copying at the EPA Public Information Reference Unit, Room 2922 (EPA Library), Waterside Mall, 401 M Street, S.W., Washington D.C. A copy of preliminary draft contractor reports, the Development Document and economic study referred to above, and certain supplementary materials supporting the study of the industry concerned will also be maintained at this location for public review and copying. The EPA information regulation, 40 CFR Part 2, provides that a reasonable fee may be charged for copying.

At the date of preparation of this notice the "Development Document" is not yet printed. When it becomes available a notice of its availability will be published in the FEDERAL REGISTER. All comments received within sixty days of publication of that notice of availability or this notice whichever is later will be considered. Steps previously taken by the Environmental Protection Agency to facilitate public response within this time period are outlined in the advance notice concerning public review procedures published on August 6, 1973 (38 FR 21202). In the event that the final regulation differs substantially from the interim final regulation set forth herein the Agency will consider petitions for reconsideration of any permits issued in accordance with this interim final regulation.

In consideration of the foregoing, 40 CFR Part 435 is hereby amended as set forth below.

Dated: September 29, 1976.

RUSSELL E. TRAIN,
Administrator.

Part 435 is amended by adding the following sections:

Subpart C—Onshore Subcategory

Sec.
435.30 Applicability; description of the onshore subcategory.
435.31 Specialized definition.
435.32 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

Subpart D—Coastal Subcategory

435.40 Applicability; description of the coastal subcategory.
435.41 Specialized definition.
435.42 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

Subpart E—Beneficial Use Subcategory

435.50 Applicability; description of the beneficial use subcategory.
435.51 Specialized definition.
435.52 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

Subpart F—Stripper Subcategory

435.60 Applicability; description of the stripper subcategory.
435.61 Specialized definition.
435.62 [Reserved]

AUTHORITY: Secs. 301, 304 (b) and (c), 306 (b) and 307(c), Federal Water Pollution Control Act, As Amended (the Act); 33 U.S.C. 1251, 1311, 1314 (b) and (c), 1316(b) and 1317(c); 86 Stat. 816 et seq.; Pub. L. 92–500.

Subpart C—Onshore Subcategory

§ 435.30 Applicability; description of the onshore subcategory.

The provisions of this subpart are applicable to the onshore facilities engaged in the production, field exploration, drilling, well completion, and well treatment in the oil and gas extraction industry. This subpart is not applicable to those onshore facilities defined in subparts D, E, and F.

§ 435.31 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations, and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

(b) The term "onshore" shall mean all land and water areas landward from the inner boundary of the territorial seas as defined in 40 CFR 125.1(gg)—(including the Great Lakes).

§ 435.32 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of facility, raw materials, production processes, product produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available: there shall be no discharge of waste water pollutants into navigable waters from any source associated with production, field exploration, drilling, well completion, or well treatment (i.e., produced water, drilling muds, drill cuttings, and produced sand).

Subpart D—Coastal Subcategory

§ 435.40 Applicability; description of the coastal subcategory.

The provisions of this subpart are applicable to coastal facilities engaged in the production, field exploration, drilling, well completion, and well treatment in the oil and gas extraction industry.

§ 435.41 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations, and methods of analysis set forth in 40 CFR shall apply to this subpart.

(b) The term "M10" shall mean those coastal facilities continuously manned by ten (10) or more persons.

(c) The term "M9IM" shall mean those coastal facilities continuously manned by nine (9) or less persons or intermittently manned by any number of persons.

(d) The term "coastal" shall mean all land and water areas landward from the inner boundary of the territorial seas as defined in 40 CFR 125.1(gg) and bounded on the inland side by the line defined by the inner boundary of the territorial seas a defined above eastward of the point defined by 89°45' W. Longi-

West, 97°40′	South, 27°45′.
West, 97°46′	South, 27°28′.
West, 97°51′	South, 27°22′.
East, 97°46′	South, 27°14′.
East, 97°30′	South, 26°30′.
East, 97°26′	South, 26°11′.

East to 97°19′ W., Longitude and Southward to the U.S.-Mexican border. Along all boundaries of the territorial seas as defined in 40 CFR 124.1 (gg) except the Gulf of Mexico, the term "coastal" is not defined.

§ 435.42 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of facility, raw materials, production processes, product produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent limitations

[In milligrams per liter]

Pollutant parameter Waste source	Oil and grease: Maximum for any 1 day	Oil and grease: Average of daily values for 30 consecutive days shall not exceed—	Residual chlorine minimum for any 1 day
Produced water		72	48
Deck drainage		72	48
Drilling muds	(1)	(1)	
Drill cuttings	(1)	(1)	
Well treatment	(1)	(1)	
Sanitary-M10			[2]
M9M1			
Domestic[3] produced sand	(1)	(1)	

[1] No discharge of free oil.
[2] Minimum of 1 mg/l and maintained as close to this concentration as possible.
[3] There shall be no floating solids as a result of the discharge of these wastes.

Subpart E—Beneficial Use Subcategory

§ 435.50 Applicability; description of the beneficial use subcategory.

The provisions of this subpart are applicable to the onshore facilities for which the produced water has a beneficial use when discharged to navigable waters. These facilities are engaged in the production, drilling, well completion, and well treatment in the oil and gas extraction industry.

§ 435.51 Specialized definitions.

For the purpose of this subpart: (a) Except as provided below, the general definitions, abbreviations, and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

(b) The term "onshore" shall mean all land and water areas landward from the inner boundary of the territorial seas as defined in 40 CFR 125.1 (gg)—(including the Great Lakes).

(c) The term "beneficial use" shall mean that the produced water is of good enough quality to be used for livestock watering or other agricultural uses and is being put to such use.

§ 435.52 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of facility, raw materials, production processes, product produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) Subject to the provisions of paragraph (b) of this section, the following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

(1) There shall be no discharge of waste water pollutants into navigable waters from any source (other than produced water) associated with production, field exploration, drilling, well completion, or well treatment (i.e., drilling muds, drill cuttings, and produced sands).

(2) Produced water discharges shall not exceed the following limitation:

Effluent characteristic:	*limitation Effluent*
Oil and grease	45 mg/l [1]

[1] Maximum for any 1 day.

(b) The discharger must show beneficial use of the produced water being discharged to qualify for this subpart.

Subpart F—Stripper Subcategory

§ 435.60 Applicability; description of the stripper subcategory.

The provisions of this subpart are applicable to the onshore facilities which produce less than 10 barrels per calendar day of crude oil and are operating at the maximum feasible rate of production and in accord with recognized conservation practices. These facilities are engaged in production and well treatment in the oil and gas extraction industry.

§ 435.61 Specialized definitions.

For the purpose of this subpart: (a) Except as provided below, the general definitions, abbreviations, and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

(b) The term "onshore" shall mean all land and water areas landward from the inner boundary of the territorial seas as defined in 40 CFR 125.1(gg) (including the Great Lakes).

§ 435.62 [Reserved]

Appendix A

Legal Authority

(1) Existing point sources. Section 301(b) of the Act requires the achievement by not later than July 1, 1977, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of the best practicable control technology currently available as defined by the Administrator pursuant to section 304(b) of the Act. Section 301(b) also requires the achievement by not later than July 1, 1983, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of best available technology economically achievable which will result in reasonable further progress toward the national goal of eliminating the discharge of all pollutants, as determined in accordance with regulations issued by the Administrator pursuant to section 304(b) of the Act.

Section 304(b) of the Act requires the Administrator to publish regulations providing guidelines for effluent limitations setting forth the degree of effluent reduction attainable through the application of the best practicable control technology currently available and the degree of effluent reduction attainable through the application of the best control measures and practices achievable including treatment techniques, process and procedural innovations, operating methods and other alternatives. The regulation herein sets forth effluent limitations and guidelines, pursuant to sections 301 and 304(b) of the Act, for the onshore subcategory (Subpart C), the coastal subcategory (Subpart D), the beneficial use subcategory (Subpart E), and the stripper subcategory (Subpart F) of the oil and gas extraction point source category.

Section 304(c) of the Act requires the Administrator to issue to the States and appropriate water pollution control agencies information on the processes, procedures or operating methods which result in the elimination or reduction of the discharge of pollutants to implement standards of performance under section 306 of the Act. The report entitled "Development Document for Interim Final Effluent Limitations Guidelines and New Source Performance Standards for the Oil and Gas Extraction Point Source Category" provides, pursuant to section 304(c) of the Act, information on such processes, procedures or operating methods.

(2) New sources. Section 306 of the Act requires the achievement by new sources of a Federal standard of performance providing for the control of the discharge of pollutants which reflects the greatest degree of effluent reduction which the Administrator determines to be achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants.

Section 306 also requires the Administrator to propose regulations establishing Federal standards of performance for categories of new sources included in a list published pursuant to section 306 of the Act. The regulation proposed herein sets forth the standards of performance applicable to new sources for the onshore subcategory (Subpart C), the coastal subcategory (Subpart D), the beneficial use subcategory (Subpart E) and the stripper subcategory (Subpart F) of the oil and gas extraction point source category.

(3) Pretreatment for existing sources and for new sources.

Section 307(b) of the Act requires the establishment of pretreatment standards for pollutants introduced into publicly owned treatment works and 40 CFR 128 establishes that the Agency will propose specific pretreatment standards at the time effluent limitations are established for point source discharges.

Section 307(c) of the Act requires the Administrator to promulgate pretreatment standards for new sources at the same time that standards of performance for new sources are promulgated pursuant to section 306. In another section of the Federal Register regulations are proposed in fulfillment of these requirements which may not be fulfilled by this interim final regulation.

Appendix B

Technical Summary and Basis for Regulations

This Appendix summarizes the basis of interim final effluent limitations and guidelines for existing sources, proposed effluent limitations and guidelines for existing sources to be achieved by the application of the best available technology economically achievable, proposed standards of performance for new sources, and proposed pretreatment standards for both new and existing sources.

(1) General methodology. The effluent limitations and guidelines set forth herein were developed in the following manner. The point source category was first studied for the purpose of determining whether separate limitations are appropriate for different segments within the category. This analysis included a determination of whether differences in raw material production, product produced, process employed, age, size, waste water constituents and other factors require development of separate limitations for different segments of the point source category. The raw waste characteristics for each such segment were then identified. This included an analysis of the source, flow and volume of water used in the process employed, the sources of waste and waste waters in the operation and the constituents of all waste water. The constituents of the waste waters which should be subject to effluent limitations were identified.

The control and treatment technologies existing within each segment were identified. This included an identification of each distinct control and treatment technology, including both in-process and end-of-process technologies, which is existent or capable of being designed for each segment. It also included an identification of, in terms of the amount of constituents and the chemical, physical, and biological characteristics of pollutants, the effluent level resulting from the application of each of the technologies. The problems, limitations and reliability of each treatment and control technology were also identified. In addition, the nonwater quality environmental impact, such as the effects of the application of such technologies upon other pollution problems, including air, solid waste, noise and radiation were identified. The energy requirements of each control and treatment technology were determined as well as the cost of the application of such technologies.

The information, as outlined above, was then evaluated in order to determine what levels of technology constitute the "best practicable control technology currently available." In identifying such technologies, various factors were considered. These included the total cost of application of technology in relation to the effluent reduction benefits to be achieved from such application, the age of equipment and facilities involved, the process employed, the engineering aspects of the application of various types of control techniques, process changes, nonwater quality environmental impact (including energy requirements) and other factors.

The data upon which the above analysis was performed included EPA permit applications, EPA sampling and inspections, consultant reports, and industry submissions.

(2) Summary of conclusions with respect to the onshore subcategory (Subpart C), the coastal subcategory (Subpart D), the beneficial use subcategory (Subpart E), and the stripper subcategory (Subpart F), of the oil and gas extraction point source category.

(i) Categorization. For the purpose of studying waste treatment and effluent limitations the onshore segment of the oil and gas extraction point source category was divided into four discrete subcategories. These subcategories were primarily based on consideration of (1) geographic location; (2) type of facility; (3) waste water characteristics and treatability; (4) waste water volume; and (5) economic impact and costs. These considerations are outlined in the Development Document for Interim Final Effluent Limitations and Guidelines for the Oil and Gas Extraction Point Source Category. These subcategories are defined as:

(1) Subpart C—Onshore Subcategory. This subcategory includes those onshore facilities engaged in the production, field exploration, drilling, well completion, and well treatment of the oil and gas extraction industry. Excluded from the subpart are those facilities as defined in subparts D, E, and F.

(2) Subpart D—Coastal Subcategory. This subcategory includes those coastal facilities engaged in the production, field exploration,

V41N199 OCT 13 76 UMI

drilling, well completion, and well treatment of the oil and gas extraction industry.

(3) Subpart E—Beneficial Use Subcategory. This subcategory includes those onshore facilities with produced water discharges that have a beneficial use.

(4) Subpart F—Stripper Subcategory. This subcategory includes those onshore facilities which produce less than 10 barrels per calendar day of crude oil.

(ii) Waste characteristics.

The major pollutant parameters in the waste waters resulting from the oil and gas extraction industry are oil and grease, residual chlorine, floating solids, and dissolved solids. The water insoluble hydrocarbons and free floating emulsified oils in the waste water will effect the aquatic flora and fauna by interfering with oxygen transfer, coating bottom fauna and fish spawning grounds, damaging the plumage and coats of water fowl and animals, by adhering to the gills of fish, and by causing taste and toxicity problems. Thus, due to the significant impact of oil and grease upon aquatic systems and existence of technologically and economically viable treatment systems, effluent limitations have been developed to control this pollutant parameter. Residual chlorine concentrations are directly correlatable to fecal coliform bacterial counts in the sanitary wastes generated by coastal facilities. Fecal coliform bacteria concentrations serve as an indication of the pathogenetic potential of water resulting from the disposal of human wastes. Compliance with residual chlorine limitations is readily achieved through the proper control of waste water chlorinators. Floating solids are primarily the result of discharges from domestic and sanitary wastes from manned and intermittently manned coastal facilities. These pollutants may settle to form detrimental deposits or they may continue to float and produce objectionable odors. The technologies and "good-housekeeping" practices necessary to control floating solids are readily available. Dissolved solids effect the palatability of water and may have a laxative effect when ingested. Stresses resulting from salinity shocks, anamalous ion ratio and strange buffer systems leave few organisms capable of adapting to brine dominated systems.

Interim final effluent limitation guidelines achievable through the application of the best practicable control technology currently available are established below to control each of the above pollutants. No limitations have been established for several other existing waste water pollutants because: they occur in insignificant quantities; the technology is not presently available to control the pollutant discharge; the benefit derived from removal of the pollutants does not justify the high treatment costs; or available data indicate they are normally reduced incidentally with the removal or reduction of a limited pollutant parameter.

(iii) Origin of waste water pollutants in the onshore segment of the oil and gas extraction category.

(1) Subpart C—Onshore Subcategory. The waste waters generated in this subcategory are the result of several different sources. These sources are: produced water; drilling muds; drill cuttings; well treatment and produced sands. Produced waters are those waste waters generated when the natural oil-water or gas-water interfaces within the oil-gas bearing formations are disrupted. Drilling muds are those materials used to maintain hydrostatic pressure control in the well, lubricate the drilling bit, remove drill cuttings from the well, or stabilize the walls of the well during drilling or workover. Drill cuttings wastes contain metallic and mineral particles resulting from drilling into subsurface geologic formations. Drill cuttings are brought to the surface of the well with the drilling muds and then separated from the muds. Well treatment wastes result from acidizing and hydraulic fracturing to improve oil recovery. Produced sands wastes consist of the slurried particles used in hydraulic fracturing and of the accumulated formation sands generated during production.

(2) Subpart D—Coastal Subcategory. The waste waters generated in this subcategory are the result of eight separate sources. These sources are: produced water; deck drainage; drilling muds; drill cuttings; well treatment; sanitary; domestic; and produced sands. Produced waters are those waste waters generated when the natural oil-water or gas-water interfaces within the oil-gas bearing formations are disrupted. Deck drainage includes all waste resulting from platform washings, deck washings, and run-off from curbs, gutters, and drains including drip pans and work areas. Drilling muds are those materials used to maintain hydrostatic pressure control in the well, lubricate the drilling bit, remove drill cuttings from the well, or stabilize the walls of the well during drilling or workover. Drill cuttings wastes contain metallic and mineral particles resulting from drilling into subsurface geologic formations. Drill cuttings are brought to the surface of the well with the drilling muds and then separated from the muds. Well treatment wastes result from acidizing and hydraulic fracturing to improve oil recovery. Sanitary wastes include human body wastes discharged from toilets and urinals on board the platforms. Domestic wastes are those wastes discharged from sinks, showers, laundries, and galleys. Produced sands wastes consist of the slurried particles used in hydraulic fracturing and of the accumulated formation sands generated during production.

(3) Subpart E—Beneficial Use Subcategory. The waste water pollutant sources for this subcategory are the same as those outlined for the onshore subcategory.

(4) Subpart F—Stripper Subcategory. The waste water pollutant sources for this subcategory are the same as those outlined for the onshore subcategory.

(iv) Treatment and control technology.

Waste water treatment and control technologies have been studied for each subcategory of the industry to determine what is the best practicable control technology currently available.

The major source of waste waters generated by offshore facilities are produced waters. These produced waters account for 0 to 99 percent of the total volume of fluids produced. This extreme fluctuation of flow volumes of produced waters is dependent on natural phenomena and is not subject to process controls. Consequently, the effluent limitations guidelines for the onshore segment of the oil and gas extraction industry are concentration-based as opposed to a mass per unit production basis.

(1) Treatment in the Onshore Subcategory. For those wastes originating from produced water sources best practicable control technology is no discharge of pollutants. The technology used to achieve this will vary with the type of production and location of the facility. In arid and semi-arid areas evaporation ponds may be best suited. If pressure maintenance in the formation is being carried out by water injection, all or part of the produced water may be used for that purpose. The third alternate will be subsurface disposal, injection to a salt water aquifer. The method of disposal of drilling muds, drill cuttings, well treatment wastes and produced sands is to be land disposal so as not to reach navigable waterways.

(2) Treatment in the Coastal Subcategory. Several technologies have been identified as the best practicable control technology currently available. The determination of which technology is to be applied to meet these interim final limitations is dependent upon the source of the waste water within this subcategory. For those waste waters originating from produced water sources or deck drainage sources, any of the following treatment technologies may be employed to achieve these interim final limitations: gas flotation; parallel plate coalescers; loose or fibrous media filter systems; or gravity separation. The drilling muds and drill cuttings may be discharged if they are water based and their discharge does not result in free oil on the surface waters. Muds and cuttings that are oil based may not be discharged. Well treatment waste waters are typically combined with other waste streams entering the waste water treatment system. This waste may not be discharged without treatment. Sanitary wastes from platforms manned continously by ten or more personel will be required to maintain a residual chlorine concentration as close to 1 mg/l as possible. This is easily achieved by the introduction of either dry or gaseous chlorine in flow dependent amounts. Sanitary wastes from platforms manned by 9 or less persons or from platforms that are intermittently manned must prevent the discharge of floating solids. This may be accomplished by the use of screening devices, shredders or similar devices. Produced sand wastes must be treated by solvent washes or other oil removal processes to prevent the discharge of free oil to surface waters or disposed of onshore.

Oil and gas extraction facilities in this subcategory may have the option of piping their waste waters to onshore treatment facilities. In many cases this method of treating wastes will be preferable to treatment on the facility.

The best available technology economically achievable limitations and the new source performance standards will require no discharge of waste water pollutants to navigable waters for wastes generated by produced waters sources of this subcategory. This will generally require subsurface disposal technologies. In those cases where the produced waters are needed for pressure maintenance the produced waters may be reinjected into the original formation. If the produced waters are either incompatible or are not needed they must be injected into formations other than their place of origin. When deep-well injection is chosen as the method of disposal adequate precautions must be taken to prevent the horizontal or vertical migration of pollutants. Alternative technologies include discharge to lined pits, ponds, or reservoirs for evaporation, and disposal by commercial waste collectors.

(3) Treatment in the Beneficial Use Subcategory. Best practicable control technology, best available technology and new sources performance standards for the disposal of drilling muds, drill cuttings, well treatment wastes, and produced sand for this subcategory is the same as for the onshore subcategory.

Several technologies have been identified as the best practicable control technology currently available: (1) ponds; (2) flotation cells; (3) filters; and (4) combinations of the previous three. Best available technology and new source performance standards are based on the same technology and carry the same limits. Future technological improvements and/or operating experience may require modifications of these limits at a later date.

(4) Treatment in the Stripper Subcategory. The various technologies shown for the above subcategories will all cause severe economic impact for the facilities in this subcategory. This results from the limited future life of these facilities for which to amortize capital costs. Evaluation is continuing into less capital intensive alternates, such as contract hauling.

Solid waste control must be considered. Best practicable control technology as known today, requires disposal of the pollutants removed from waste waters in this industry in the form of solid wastes and liquid concentrates. In most cases these are nonhazardous substances requiring only minimal custodial care. However, some constituents may be hazardous and may require special consideration. In order to insure long-term protection of the environment from these hazardous or harmful constituents, special consideration of disposal sites must be made. All landfill sites where such hazardous wastes are disposed should be selected so as to prevent horizontal and vertical migration of these contaminants to ground or surface waters. In cases where geologic conditions may not reasonably ensure this, adequate legal and mechanical precautions (e.g. impervious liners) should be taken to ensure long term protection to the environment from hazardous materials. Where appropriate, the location of solid hazardous materials disposal sites should be permanently recorded in the appropriate office of legal jurisdiction.

The application of best practicable control technology currently available results in no additional solid waste disposal problems, since current industry practice results in proper disposal of solid wastes.

(v) Cost estimates for control of waste water pollutants.

The costs for providing in-plant controls are largely those associated with capital investment for process and equipment modifications. The capital investment costs for compliance with the 1977 limitations for the subcategories of the oil and gas extraction point source category added by this regulation range from approximately $44.38–$57.78 million. The operating and maintenance costs associated with these capital costs are estimated to vary from $8.05–$10.76 million.

The costs associated with treatment to comply with 1983 limitations will require an estimated $45.38 million of capital investment and an estimated $3.65 million increase in annual operation and maintenance cost.

(vi) Energy requirements and nonwater quality environmental impacts.

Energy requirements for subcategories C, D, E, and F of this industrial category are approximately 52,000 KWH/day. This is approximately equal to 163 barrels of crude oil per day or 0.002% of the total crude oil produced from facilities in these subcategories.

These energy requirements are due primarily to the need for additional power generation equipment in subcategories D (coastal subcategory) and E (beneficial use subcategory). The energy requirements will generally be consumed in the form of diesel fuel.

The application of best practicable control technology will result in a negligible net energy loss. This results from the recovery of approximately 1 barrel of crude oil which would otherwise be discharged for every barrel of diesel oil expended for power generation.

The energy requirements for compliance with best available technology economically achievable are estimated to be approximately 383 barrels of crude oil per day or 118,000 KHW per day.

A minimal impact is expected for solid waste disposal from the facilities in subcategories C, D, E, and F. The collection of oily sand, silt and clays from the addition of desanding units, where appropriate, will generate a possible need for additional land disposal sites. There are no known radioactive substances used in the industry other than as integral components of instruments, such as well-logging instruments. Therefore, no radiation problems are expected. Noise levels will not be increased except in those cases where additional power generating equipment must be added to the facility. The only possible source of air pollution would result from the above mentioned power generation equipment.

(vii) Economic impact analysis.

Economic and Inflationary Impact Analysis

Executive Order 11821 (November 27, 1974) requires that major proposals for legislation and promulgation of regulations and rules by agencies of the Executive Branch be accompanied by a statement certifying that the inflationary impact of the proposal has been evaluated. The Administrator has established criteria for inflationary impact statements and those relevant here require regulatory actions where (1) additional national annualized costs of compliance, including capital charges (interest and depreciation), will total $100 million within any calendar year by the attainment date, if applicable, or within five years of implementation, and (2) total additional cost of production of any major product is more than 5% of the selling price of the product. The criteria regarding cost of production are exceeded because of regulations. Because they are major products, the Agency certifies that the inflationary impact has been considered in formulating these regulations and has prepared an inflationary impact statement contained in the report, "Economic Impact of Interim Final Effluent Guidelines—Onshore Oil and Gas Extraction Industry". Although the inflationary impact has been certified, we estimate that the cost for the coastal segment is actually significantly lower, and further analysis is being conducted.

There are three subparts of the on-shore petroleum and gas extraction point source category covered by these regulations:

(1) On-Shore wells located on land that produce ten or more barrels of oil per day (Onshore)

(2) Platform wells located in coastal waters that fall inside of the Chapman Line (Coastal)

(3) On-Shore wells located on land that use effluent waste water for beneficial use as defined by the individual state laws (Beneficial Use).

Internal costs have been defined as the costs faced by the industry itself in terms of the investment and operating costs of pollution abatement necessary to meet interim final and proposed effluent guidelines. Table I summarizes estimates of these costs. For existing operations, the 1977 standard will require an estimated $44.38–$57.78 million for investment and an estimated $8.05–$10.76 million initial increase in annual operations costs; the 1983 Guidelines are estimated to require an additional $45.38 million of investment and $3.65 million initial increase in annual operating costs.

The annual operating costs per barrel of oil produced are $.08/barrel for beneficial use production and between $.04/barrel and $.07/barrel for on land production. For coastal facilities, the costs average $.03/barrel for BPT and $.06/barrel for BAT.

External costs are assessed in terms of the effect which the increase in internal costs will have on prices, employment, communities, international trade, closures of existing well completions, and production. Prices of oil are regulated, which makes a projection of price increases that might be expected given these increases in investment requirements and operating costs, difficult. Prices for the industry's output are controlled by the U.S. Government.

Tables II and III summarize the estimates of the effect of increased investment requirements and operating costs regarding lost production and abandoned wells. In the states which presently allow discharge only for beneficial use .42% to .71% (90 to 153 wells) of existing well completions could be abandoned. In states with regulations on land wells, it is not expected that any wells will be abandoned but for coastal wells, .06% (84 wells) of existing completions in those states are expected to be abandoned as a result of 1977 guidelines and .85% (300 wells) as a result of 1983 guidelines.

For existing sources in beneficial use states, the loss of potential production is estimated between .38% and .64% (.479 to .814 million barrels per year) for existing sources for onshore platform wells, the potential production loss is .01% for 1977 (.161 million barrels per year) and .16% for 1983 (1.539 million barrels per year). For existing sources of inland wells, there is very little expected loss of potential production, as there are no expected closures.

The following three tables sum up the impact of the interim final regulations. Because of the fact that prices for oil are controlled by the government, the best measure of impact in this case is loss of potential production. This represents a better measure than well closures since many abandoned completions are already near the end of their producing life. No other significant economic effects (i.e., effects on employment, communities, or balance of trade) are anticipated.

TABLE 1.—*Internal costs: Range of likely costs to existing sources assuming producers absorb all costs*

[Millions of 1975 dollars]

	1977		1983	
	Investment	Operating	Investment	Operating
Total	−$44.38 57.78	−$8.066 10.762	$45.38	$3.653
Beneficial use	−12.86 21.86	−2.626 4.464		
Coastal	18.92	1.986	45.38	3.653
Onshore	−17.60 22.00	−2.430 4.312		

NOTE.—Initial increase in before-tax operating costs.

V41 1999 OCT 13 76 UMI

TABLE 2.—*Loss in annual potential production: Range of likely impact on existing sources assuming producers absorb all costs*

	Percent loss in production	Quantity loss of production (millions of barrels)
Beneficial use	0.38–0.65	0.479–0.814
Coastal:		
1977	.01	.161
1983	.16	1.539
Onshore	0	0

NOTE.—Percent loss in production represents loss from total amount being produced in that subcategory.

TABLE 3.—*Completions abandoned: Range of likely impact on existing sources assuming producers absorb all costs*

	Percent abandoned	Number abandoned
Beneficial use	0.42–0.71	90–153
Coastal:		
1977	.06	84
1983	.25	300
Onshore	0	0

NOTE.—Percent abandoned represents abandonment of wells in that specific subcategory.

APPENDIX C

SUMMARY OF PUBLIC PARTICIPATION

Prior to this publication, the agencies and groups listed below were consulted and given an opportunity to participate in the development of effluent limitations, guidelines and standards for the oil and gas extraction category. All participating agencies have been informed of project developments. An initial draft of the Development Document was sent to all participants and comments were solicited on that report. The following are the principal agencies and groups consulted: (1) Effluent Standards and Water Quality Information Advisory Committee (established under section 515 of the Act); (2) all State and U.S. Territory Pollution Control Agencies; (3) Exxon Chemical Corporation; (4) Naico Chemical Company; (5) Phillips Petroleum Company; (6) Oil Operators, Inc.; (7) Sun Oil Company; (8) Petrolite Corporation; (9) Envirotech Corporation; (10) Pollution Control Engineering, Inc.; (11) Marathon Oil Company; (12) Mobil Oil Company; (13) Champlain Petroleum Company; (14) Brown & Root, Inc.; (15) Western Oil & Gas Association; (16) American Society of Mechanical Engineers; (17) The Conservation Foundation; (18) Businessmen for the Public Interest; (19) Environmental Defense Fund, Inc.; (20) Natural Resources Defense Council; (21) American Society for Civil Engineers; (22) Water Pollution Control Federation; (23) National Wildlife Federation; and (24) Kimberly Clark Corporation; (25) Offshore Operators Committee; (26) Exxon Company, U.S.A.; (27) American Petroleum Institute; (28) American Oil Company; (29) Atlantic Richfield Company; (30) Chevron Oil Company; (31) Continental Oil Company; (32) Gulf Oil Company; (33) Noble Drilling Company; (34) Rheem Superior; (35) Shell Oil Company; (36) Texaco, Inc.; (37) United States Filter; (38) Union Filter Company; (39) WEMCO.

The following responded with commenta: Effluent Standards and Water Quality Information Advisory Committee; State of Wyoming; Exxon Chemical Company; North Carolina Department of Natural and Economic Resources State of Wyoming, Game and Fish Dept.; National Wildlife Federation; Commonwealth of Pennsylvania; Colorado Department of Health; Minnesota Pollution Control Agency; Cheyenne High Plains Audubon Society; Powder River Basin Resource Council; State of Wyoming, State Engineers Office; Wyoming Department of Agriculture; Wyoming League of Women Voters; Texas Mid-Continent Oil and Gas Association; American Petroleum Institute; Offshore Operators Committee; Marathon Oil Company; Mid-Continent Oil and Gas Association, Inc. Mississippi—Alabama Division; Atlantic Richfield Company; League of Women Voters, Cheyenne, Wyoming; Getty Oil Company; State of Nevada, Department of Conservation and Natural Resources; Illinois Environmental Protection Agency; Texas Mid-Continent Oil and Gas Association; Wyoming Environmental Institute; State of Michigan, Department of Natural Resources; L.U. Sheep Company; City of Worland, Wyoming; U.S. Dept. of the Interior; U.S. Department of Commerce; and Ohio Oil and Gas Association.

The more significant issues raised in the development of the interim final effluent limitations and guidelines and the treatment of these issues herein are as follows:

(1) Many commenters stated that the no discharge requirement for onshore oil and gas production should not be universal and that discharge of low TDS produced waters when used for cattle watering, irrigation, etc. should be excluded.

The discharge to surface waters of treated produced water is being allowed by this regulation, if it can be shown to the satisfaction of the permit issuing agency that this discharge is put to some beneficial use, such as cattle watering, or irrigation in water short areas.

(2) Several commenters argued that the daily and 30 day average limits of 87 and 57 mg/l of oil and grease were too high. It was suggested that the Wyoming standard of 10 mg/l should be used.

The limitations for discharged produced waters have been changed from the draft report. They are based on actual operating data using the freon-gravimetric analysis. The use of non-standard analytical methods (separation of extracted sulfur from the oil) are being used to achieve the 10 mg/l in Wyoming. Once enough data is collected using an EPA approved standard method for the determination of sulfur in freon extracted material, the regulation will be reexamined and new limits set based on that method.

(3) Some commenters suggested that tidally effected inland coastal waters, marshes, and wetlands should be considered offshore discharges and therefore be allowed to discharge.

The new coastal subcategory now covers the dischargers located in inland coastal waterways. This subcategory covers the areas of existing discharges into tidally effected areas, and these discharges will be allowed to continue. Within the area covered by this subcategory, there will be casea where, because of water quality consideration, no discharge will be allowed. It is important that each discharge in this subcategory be scrutinized carefully for potential environmental impact prior to issuance of the individual permits.

(4) Two commenters assumed that no discharge of pollutants meant the disposal of produced water to the producing horizon only.

Where no discharge of pollutants is required, it means no discharge to surface waters. The means of disposal (i.e. return of the producing horizon, disposal to another horizon, evaporation, etc.) is within the discretion of the individual discharger. Whatever means are chosen, must however meet any other applicable regulations, such as required under the Safe Water Drinking Act.

(5) Several commenters questioned the validity of the costs that EPA prepared to determine the impact of these regulations.

The relatively poor quality of the cost estimates for onshore compliance that appeared in the draft report was recognized by EPA. As a result, the past several months have been spent preparing a totally new set of costs and production profiles. These are now based on actual cost figures and were prepared on a region by region basis.

(6) A commenter stated that the cost of subsurface disposal will cause abandonment of low volume producers.

The cost of this regulation and the potential impact was carefully considered. This consideration was one of the criteria behind the final subcategorization. The limitations for the Stripper Subcategory have been temporarily reserved pending further investigation of alternates to single site disposal, which would result in a large percent of closings. The alternate under consideration is the pooling of wastes from multiple facilities. This might be accomplished through cooperative ventures or contract hauling to central disposal sites. The Agency requests comments and any available information on these alternates.

(7) Some commenters supplied information about the problems of taste and odor caused by produced water discharges, even when these wastes were low in TDS and were considered beneficial use discharges.

In order to qualify for the beneficial use subcategory it will be necessary that the discharge is in fact needed for cattle watering, irrigation, etc. Even if beneficial use can be shown, the discharge is still subject to further regulation resulting from the violation of applicable water quality standards.

(8) One commenter asked that consideration be given to setting limits for additional parameters such as BOD.

In those subcategories where discharge of pollutants will be allowed the only parameter limit on produced water discharges will be oil and grease (freon extractable). One reason for this is that there is no known treatment technology available for removal of parameters such as BOD that are less costly than subsurface disposal. Therefore, if it is necessary to limit other parameters for water quality purposes no discharge of pollutants is the only viable alternate.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 435]

[FRL 629-3]

ONSHORE SEGMENT OF THE OIL AND GAS EXTRACTION POINT SOURCE CATEGORY

Effluent Limitations and Guidelines for Existing Sources and Standards of Performance and Pretreatment Standards for New Sources

Notice is hereby given that effluent limitations and guidelines for existing sources and standards of performance and pretreatment standards for new sources set forth in tentative form below are proposed by the Environmental Protection Agency (EPA). On September 15, 1975, EPA promulgated a regulation adding Part 435 to Chapter 40 of the Code of Federal Regulations (40 FR 42578). That regulation established effluent limitations and guidelines for existing sources and standards of performance and pretreatment standards for new sources for the offshore segment of the oil and gas extraction point source category. The regulation proposed below will amend 40 CFR Part 435 oil and gas extraction point source category by adding thereto the onshore subcategory (Subpart C), the coastal subcategory (Subpart D), the beneficial use subcategory (Subpart E), and the stripper subcategory (Subpart F) pursuant to §§ 301, 304(b) and (c), 306(b) and 307(c) of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1311, 1314(b) and (c), 1316 (b) and 1317(c); 86 Stat. 816 et seq.; Pub. L. 92–500) (the Act). A description and discussion of this legal authority is contained in Appendix A to this preamble.

A substantial summary of the method of study, the several factors considered in subcategorization and the conclusions reached are set forth in the preamble to the interim final regulation amendments for the onshore subcategory (Subpart C), the coastal subcategory (Subpart D), the beneficial use subcategory (Subpart E), and the stripper subcategory (Subpart F) of the oil and gas extraction point source category which are being promulgated simultaneously with publication of this proposed regulation. The information being promulgated simultaneously with this proposed regulation is incorporated herein by reference.

The report entitled "Development Document for Proposed Effluent Limitations Guidelines and New Source Performance Standards for the Oil and Gas Extraction Point Source Category" details the analysis undertaken in support of the regulation being proposed herein and will be available for inspection at the EPA Public Information Reference Unit, Room 2922 (EPA Library), Waterside Mall, 401 M St., SW., Washington, D.C., at all EPA regional offices, and at State water pollution control offices in the very near future. A notice of its availability will be published in the FEDERAL REGISTER. A supplementary analysis prepared for EPA of the possible economic effects of the proposed regulation will also be available for inspection at these locations. Copies of both of these documents are being sent to persons or institutions affected by the proposed regulation or who have placed themselves on a mailing list for this purpose (see EPA's Advance Notice of Public Review Procedures, 38 FR 21202, August 6, 1973). An additional limited number of copies of both reports are available. Persons wishing to obtain a copy may write the Environmental Protection Agency, Effluent Guidelines Division, Washington, D.C. 20460, Attention: Distribution Officer, WH–552.

On June 14, 1973, the Agency published procedures designed to insure that, when certain major standards, regulations, and guidelines are proposed, an explanation of their basis, purpose and environmental effects is made available to the public (38 FR 1-5653). The procedures are applicable to major standards, regulations and guidelines which are proposed on or after December 31, 1973, and which prescribe national standards of environmental quality or require national emission, effluent or performance standards and limitations.

The Agency determined to implement these procedures in order to insure that the public was apprised of the environmental effects of its major standards setting actions and was provided with detailed background information to assist it in commenting on the merits of a proposed action. In brief, the procedures call for the Agency to make public the information available to it delineating the major nonenvironmental factors affecting the decision, and to explain the viable options available to it and the reasons for the option selected.

The procedures contemplate publication of this information in the FEDERAL REGISTER, where this is practicable. They provide, however, that where, because of the length of these materials, such publication is impracticable, the material may be made available in an alternate format.

The report entitled "Development Document for Proposed Effluent Limitations Guidelines and New Source Performance Standards for the Oil and Gas Extraction Industry Point Source Category" contains information available to the Agency concerning the major environmental effects of the regulation proposed below, including:

(1) The pollutants presently discharged into the Nation's waterways by facilities in the oil and gas extraction point source category and the degree of pollution reduction obtainable from implementation of the proposed guidelines and standards (see particularly Sections IV, V, VI, IX, X, and XI);

(2) the anticipated effects of the proposed regulation on other aspects of the environment including air, solid waste disposal and land use, and noise (see particular Section VIII); and

(3) options available to the Agency in developing the proposed regulatory system and the reasons for its selecting the particular levels of effluent reduction which are proposed (see particularly Sections VI, VII, and VIII).

The supplementary report entitled "Economic Analysis of Proposed Effluent Guidelines, OIL AND GAS EXTRACTION INDUSTRY" contains an estimate of the cost of pollution control requirements and an analysis of the possible effects of the proposed regulation on prices, production levels, employment, communities in which onshore plants are located, and international trade. In addition, the Development Document describes, in Section VIII, the cost and energy consumption implications of the proposed regulations.

The two reports described above in the aggrgate exceed 200 pages in length and contain a substantial number of charts, diagrams, and tables. It is clearly impracticable to publish the material contained in these documents in the FEDERAL REGISTER. To the extent possible, significant aspects of the material have been presented in summary form in foregoing portions of this preamble. Additional discussion is contained in the following analysis of the comments received and the Agency's response to them. As has been indicated, both documents are available for inspection at the Agency's Washington, D.C. and regional offices and at State water pollution control agency offices. Copies of each have been distributed to persons and institutions affected by the proposed regulations or who have placed themselves on a mailing list for this purpose. Finally, so long as the supply remains available, additional copies may be obtained from the Agency as described above.

When this regulation is promulgated, revised copies of the Development Document will be available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Copies of the Economic Analysis will be available through the National Technical Information Service, Springfield, Virginia 22151.

A full listing of participants and discussion of comments and responses is included in the interim final regulation amendments for the oil and gas extraction point source category being simultaneously promulgated by EPA and are incorporated herein by reference.

Interested persons may participate in this rulemaking by submitting written comments in triplicate to the Environmental Protection Agency, 401 M St. SW., Washington, D.C. 20460, Attention: Distribution Officer, WH–552. Comments on all aspects of the proposed regulation are solicited. In the event comments are in the nature of criticisms as to the adequacy of data which are available, or which may be relied upon by the Agency, comments should identify and, if possible, provide any additional data which may be available and should indicate why such data are essential to the development of the regulations. In the event comments address the approach taken by the Agency in establishing an

V41I199 OCT 13 76 UMI

effluent limitations guideline or standard of performance, EPA solicits suggestions as to what alternative approach should be taken and why and how this alternative better satisfies the detailed requirements of sections 301, 304(b), 306 and 307 of the Act.

A copy of all public comments will be available for inspection and copying at the EPA Public Information Reference Unit, Room 2922 (EPA Library), Waterside Mall, 401 M Street SW., Washington, D.C. A copy of preliminary draft contractor reports, the Development Document and economic study referred to above, and certain supplementary materials supporting the study of the industry concerned will also be maintained at this location for public review and copying. The EPA information regulation, 40 CFR Part 2, provides that a reasonable fee may be charged for copying.

At the date of preparation of this notice the "Development Document" is not yet printed. When it becomes available a notice of its availability will be published in the FEDERAL REGISTER. All comments received within sixty days of publication of that notice of availability or this notice whichever is later will be considered. Steps previously taken by the Environmental Protection Agency to facilitate public response within this time period are outlined in the advance notice concerning public review procedures published on August 6, 1973 (38 FR 21202).

Dated: September 29, 1976.

RUSSELL E. TRAIN,
Administrator.

Part 435 is amended by adding the following sections:

Sec.

Subpart C—Onshore Subcategory

435.33 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
435.34 [Reserved]
435.35 Standards of performance for new sources.
435.36 Pretreatment standards for new sources.

Subpart D—Coastal Subcategory

435.43 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
435.44 [Reserved]
435.45 Standards of performance for new sources.
435.46 Pretreatment standards for new sources.

Subpart E—Beneficial Use Subcategory

435.53 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
435.54 [Reserved]
435.55 Standards of performance for new sources.
435.56 Pretreatment standards for new sources.

Subpart F—Stripper Subcategory

435.63 [Reserved]
435.64 [Reserved]
435.65 [Reserved]
435.66 Pretreatment standards for new sources.

AUTHORITY: Sections 301, 304 (b) and (c), 306(b) and 307(c), Federal Water Pollution Control Act, As Amended (the Act); 33 U.S.C. 1251, 1311, 1314 (b) and (c), 1316(b) and 1317(c); 86 Stat. 816 et seq., Pub. L. 92-500.

Subpart C—Onshore Subcategory

§ 435.33 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

(1) There shall be no discharge of waste water pollutants into navigable waters from any source associated with production, field exploration, drilling, well completion, or well treatment (i.e., produced water, drilling muds, drill cuttings, and produced sand).

§ 435.34 [Reserved]

§ 435.35 Standards of performance for new sources.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

(1) There shall be no discharge of waste water pollutants into navigable waters from any source associated with production, field exploration, drilling, well completion, or well treatment (i.e., produced water, drilling muds, drill cuttings, and produced sand).

§ 435.36 Pretreatment standards for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the onshore subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, for existing sources, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property	*Pretreatment standard*
BOD5	No limitation.
TSS	Do.
pH	Do.
Oil and grease	100 mg/l.

Subpart D—Coastal Subcategory

§ 435.43 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent limitations

[In milligrams per liter]

Pollutant parameter—waste source	Oil and grease: Maximum for any 1 day	Oil and grease: Average of daily values for 30 consecutive days shall not exceed—	Residual chlorine—minimum for any 1 day
Deck drainage	72	48	
Drilling muds	(1)	(1)	
Drill cuttings	(1)	(1)	
Well treatment	(1)	(1)	
Sanitary-M10			[3]
M91M [2]			
Domestic [2] produced sand	(1)	(1)	
Produced water	No discharge of waste water pollutants to navigable waters.[4]		

[1] No discharge of free oil.
[2] Minimum of 1 mg/l and maintained as close to this concentration as possible.
[3] There shall be no floating solids as a result of the discharge of these wastes.
[4] In the event that a permit under sec. 1421(b)(2) of the Safe Drinking Water Act is refused and there is no other reasonable means of disposal available that would comply with the BATEA standard for State waters, then the BATEA standard for Federal waters shall apply.

§ 435.44 [Reserved]

§ 435.45 Standard of performance for new sources.

(a) The following limitations establish the quantity or quality of pollutants or pollutants properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent limitations

[In milligrams per liter]

Pollutant parameter—waste source	Oil and grease: Maximum for any 1 day	Oil and grease: Average of daily values for 30 consecutive days shall not exceed—	Residual chlorine—minimum for any 1 day
Deck drainage	72	48	
Drilling muds	(1)	(1)	
Drill cuttings	(1)	(1)	
Well treatment	(1)	(1)	
Sanitary-M10			(3)
M91M [2]			
Domestic [2] produced sand	(1)	(1)	
Produced water	No discharge of waste water pollutants to navigable waters.[4]		

[1] No discharge of free oil.
[2] Minimum of 1 mg/l and maintained as close to this concentration as possible.
[3] There shall be no floating solids as a result of the discharge of these wastes.
[4] In the event that a permit under sec. 1421(b)(2) of the Safe Drinking Water Act is refused and there is no other reasonable means of disposal available that would comply with the BATEA standard for State waters, then BATEA standard for Federal waters shall apply.

§ 435.46 Pretreatment standards for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the coastal subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, for existing sources, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source susbject to the provisions of this subpart:

Pollutant or pollutant property	*Pretreatment standard*
BOD5	No limitation.
TSS	Do.
pH	Do.
Oil and grease	100 mg/l.

Subpart E—Beneficial Use Subcategory

§ 435.53 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

(a) Subject to the provisions of paragraph (b) of this section, the following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

(1) There shall be no discharge of waste water pollutants into navigable waters from any source associated with production, field exploration, drilling, well completion, or well treatment (i.e., produced water, drilling muds, drill cuttings, and produced sand).

(2) Produced Water discharges shall not exceed the following limitation:

Effluent characteristic:	*Effluent limitation*
Oil and grease	45 mg/l.[1]

[1] Maximum for any 1 day.

§ 435.54 [Reserved]

§ 435.55 Standards of performance for new sources.

(a) Subject to the provisions of paragraph (b) of this section, the following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

(1) There shall be no discharge of waste water pollutants into navigable waters from any source associated with production, field exploration, drilling, well completion, or well treatment (i.e., produced water, drilling muds, drill cuttings, and produced sand).

(2) Produced water discharges shall not exceed the following limitation:

Effluent characteristic:	*Effluent limitation*
Oil and grease	45 mg/l [1]

[1] Maximum for any 1 day.

(b) The discharger must show beneficial use of the produced water being discharged to qualify for this subpart.

(b) The discharger must show beneficial use of the produced water being discharged to quality for this subpart.

§ 435.56 Pretreatment standards for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the beneficial use subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, for existing sources, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property	*Pretreatment standard*
BOD 5	No limitation.
TSS	Do.
pH	Do.
Oil and grease	100 mg/l.

Subpart F—Stripper Subcategory

§ 435.63 [Reserved]
§ 435.64 [Reserved]
§ 435.65 [Reserved]

§ 435.66 Pretreatment standards for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the stripper subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, for existing sources, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property	*Pretreatment standard*
BOD 5	No limitation.
TSS	Do.
pH	Do.
Oil and grease	100 mg/l.

APPENDIX A

LEGAL AUTHORITY

(1) Existing point sources. Section 301(b) of the Act requires the achievement by not later than July 1, 1977, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of the best practicable control technology currently available as defined by the Administrator pursuant to section 304(b) of the Act. Section 301(b) also requires the achievement by not later than July 1, 1983, of effluent limitations for point sources, other

V 41 N 199 OCT 13 76 UMI

than publicly owned treatment works, which require the application of best available technology economically achievable which will result in reasonably further progress toward the national goal of eliminating the discharge of all pollutants, as determined in accordance with regulations issued by the Administrator pursuant to section 304(b) of the Act.

Section 304(b) of the Act requires the Administrator to publish regulations providing guidelines for effluent limitations setting forth the degree of effluent reduction attainable through the application of the best practicable control technology currently available and the degree of effluent reduction attainable through the application of the best control measures and practices achievable including treatment techniques, process and procedural innovations, operating methods and other alternatives. The regulation herein sets forth effluent limitations and guidelines, pursuant to sections 301 and 304(b) of the Act, for the onshore subcategory (Subpart C), the coastal subcategory (Subpart D), the beneficial use subcategory (Subpart E), and the stripper subcategory (Subpart F) of the oil and gas extraction point source category.

Section 304(c) of the Act requires the Administrator to issue to the States and appropriate water pollution control agencies information on the processes, procedures or operating methods which result in the elimination or reduction of the discharge of pollutants to implement standards of performance under section 306 of the Act. The report entitled "Development Document for Interim Final Effluent Limitations Guidelines and New Source Performance Standards for the Oil and Gas Extraction Point Source Category" provides, pursuant to section 304(c) of the Act, information on such processes, procedures or operating methods.

(2) New sources. Section 306 of the Act requires the achievement by new sources of a Federal standard of performance providing for the control of the discharge of pollutants which reflects the greatest degree of effluent reduction which the Administrator determines to be achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants.

Section 306(b)(1)(B) also requires the Administrator to propose regulations establishing Federal standards of performance for categories of new sources included in a list published pursuant to section 306(b)(1)(B) of the Act. On September 15, 1975 a notice appeared in the FEDERAL REGISTER titled "Addition to the List of Categories of Sources" (40 FR 42596). This notice added the oil and gas extraction point source category to those categories listed in 306(b)(1)(A) of the Act. The regulation proposed herein sets forth the standards of performance applicable to new sources for the onshore Subcategory (Subpart C), the coastal subcategory (Subpart D), the beneficial use subcategory (Subpart E) and the stripper subcategory (Subpart F) of the oil and gas extraction point source category.

(3) Pretreatment for existing sources and for new souces.

Section 307(b) of the Act requires the establishment of pretreatment standards for pollutants introduced into publicly owned treatment works and 40 CFR 128 establishes that the Agency will propose specific pretreatment standards at the time effluent limitations are established for point source discharges. However, due cause is found to set aside for this regulation the applicability of that portion of 40 CFR 128.133 requiring the Agency to propose pretreatment standards concerning the application of effluent limitations to pretreatment at the time such effluent limitations are promulgated. The Agency may establish pretreatment standards for existing sources within the oil and gas extraction point source category at a future date.

Section 307(c) of the Act requires the Administrator to promulgate pretreatment standards for new sources at the same time that standards of performance for new sources are promulgated pursuant to section 306. Sections 435.36, 435.46, 435.56 and 435.66, proposed below, provide pretreatment standards for new sources within the onshore subcategory (Subpart C), the coastal subcategory (Subpart D), the beneficial use subcategory (Subpart E), and the stripper subcategory (Subpart F) of the oil and gas extraction point source category.

PART III:

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

■

COMMON CARRIERS BY RAILROAD

Regulations Governing Proposed Transactions Submitted to Secretary of Transportation

V 41 1 99 OCT 13 76 UMI

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[49 CFR Part 268]

[FRA Economic Doc. 5; Notice 1]

COMMON CARRIERS BY RAILROAD

Regulations Governing Proposed Transactions Submitted to Secretary of Transportation

Section 403 of the Railroad Revitalization and Regulatory Reform Act of 1976, Pub. L. 94–210 ("the RRRRA") added a new paragraph (3) to section 5 of the Interstate Commerce Act, 49 U.S.C. 5 ("the Act"). New sections 5(3)(a) and (f) of the Act authorize common carriers by railroad in the period prior to December 31, 1981, to submit to the Secretary of Transportation ("the Secretary") for his evalutaion, railroad merger and consolidation (hereinafter collectively referred to as "consolidation") proposals. The Secretary has delegated his powers and duties under this section of the RRRRA to the Administrator of the Federal Railroad Administration ("the Administrator").

The Administrator is considering the adoption of regulations governing the procedures to be used by railroads in submitting consolidation proposals to the Administrator under section 5(3)(f) of the Act.

PROVISION OF SECTION 5(3)

Section 5(3)(f) of the Act requires the Administrator, in connection with any consolidation proposal submitted to the FRA under section 5(3), to publish in the FEDERAL REGISTER a notice summarizing the proposed transaction, to conduct an informal public hearing on the proposal and to study the proposal with respect to the following nine factors:

(A) The needs of rail transportation in the geographical area affected;
(B) The effect of such proposed transaction on the retention and promotion of competition in the provision of rail and other transportation services in the geographical area affected;
(C) The environmental impact of such proposed transaction and of alternative choices of action;
(D) The effect of such proposed transaction on employment;
(E) The cost of rehabilitation and modernization of track, equipment, and other facilities, with a comparison of the potential savings or losses from other possible choices of action;
(F) The rationalization of the rail system;
(G) The impact of such proposed transaction on shippers, consumers, and railroad employees;
(H) The effect of such proposed transaction on the communities in the geographical areas affected and on the geographical areas contiguous to such areas; and
(I) Whether such proposed transaction will improve rail service * * *. Section 5(3)(f)(iv).

Six months after submitting a consolidation proposal to the Administrator for evaluation under section 5(3)(f), the railroads may transmit the proposal to the Interstate Commerce Commission ("Commission") for approval (Section 5(3)(b)(ii)). Section 5(3)(b)(i) provides that the Administrator also may, with the consent of the parties to the transaction, propose the transaction to the Commission. Within 10 days after an application is submitted to the Commission pursuant to section 5(3) the Administrator is required to submit a report to the Commission setting forth the results of his study under section 5(3)(f)(iv), and the Commission is directed to give "due weight and consideration" to the report in determining whether the transaction is "in the public interest". Sections 5(3)(f) and (g).

In order for the Administrator to carry out his responsibilities under section 5(3)(f) of the Act within the statutory time frame, it is essential that proposals which are submitted to the Administrator be complete and that they address each of the nine concerns specified in section 5(3)(f)(iv) of the Act. It is for this reason that the Administrator proposes to issue regulations governing the content and format carriers should follow in preparing consolidation proposals to be submitted to the Administrator.

COORDINATING DOT'S SECTION 5(3) REGULATIONS WITH THE INTERSTATE COMMERCE COMMISSION'S PROPOSED CONSOLIDATION REGULATIONS

On May 23, 1976 the Commission instituted, by a Notice of Proposed Rulemaking and Order ("NPRO"), a proceeding to revise its current consolidation regulations to implement sections 402 and 403 of the RRRRA ("Railroad Consolidation Procedures", Ex Parte No. 282 (Sub–No. 1), 41 Fed. Reg. 21481 et seq.).

The Department of Transportation ("DOT") is aware that publication of its own set of regulations under section 5(3) of the Act might impose an additional and possibly unnecessary burden on the rail industry if its regulations differ in material respects from the regulations ultimately adopted by the Commission. Such a burden should and can be avoided if the Commission and DOT work together to develop regulations which are as nearly uniform as possible but which allow each agency to carry out its respective functions. With this in mind, DOT submitted comments in the Ex Parte No. 282 (Sub-No. 1) proceeding to suggest ways in which the Commission's NPRO could be restructured to meet better the needs of both the Commission and DOT. To facilitate further the development of uniform consolidation regulations DOT has, in developing its own regulations, attempted to incorporate the substantive provisions of the Commission's NPRO with the exception of those portions of the NPRO with which we took issue in our written comments.

The Department's comments in Ex Parte No. 282 (Sub-No. 1) expressed certain concerns with the organization of and information requested by the NPRO.

A. CLASSIFICATION, FOR PURPOSES OF DATA FILING REQUIREMENTS, OF RAIL CONSOLIDATION APPLICATIONS

Our first concern with the NPRO was the way in which it divided consolidation transactions into categories of greater or lesser significance for purposes of data filing requirements. The NPRO would require the most significant and "controversial" applications to be accompanied by the fullest presentation of information. We agree with this concept. We disagree, however, with the way in which the Commission would define the most significant proposed transactions. The Commission suggested that the "most significant" category should include (1) all applications filed under section 5(3) of the Act, (2) applications involving at least one class I railroad, and (3) applications involving trackage rights or joint use of rail lines which involve 100 or more miles. Applications involving trackage rights or joint use of facilities are hereinafter collectively referred to as "joint use applications".

DOT, on the other hand, does not assume that all section 5(3) applications will be significant or controversial or that every application involving a class I and a class II railroad will require the submission of all the information needed when two or more class I railroads are involved. With this in mind, DOT believes that the proper categorization of applications, for the purpose of data filing requirements, should be as follows:

(1) Applications involving two of more class I railroads;
(2) Applications involving either one class I and one or more Class II railroads, or two or more class II railroads; and
(3) Applicants involving trackage rights or joint use of rail facilities (regardless of the class of the railroad involved).

Submission of the highest level of detail should be required for a transaction falling into the first category and correspondingly less detail for transactions falling into the second and third categories.

There are several reasons for distinguishing between applications involving only class I railroads and those in which a class II railroad is involved. First, class II railroads, by definition, are small carriers usually serving shippers over a very limited geographical area and dependent on one or several railroads with whom they interchange to complete traffic movements. A consolidation of two class II railroads, or of a class I and class II railroad, could have an effect on competition if such a consolidation resulted in a change in the pattern of traffic interchange. Normally however, because of the localized nature of class II carriers, the information required to evaluate the effect of the proposed transaction on such interchanges need not to be as extensive as in the case of a proposed consolidation of two class I railroads.

Second, a class I railroad is less likely to be financially burdened by assuming the outstanding obligations of a railroad of class II size. Third, consolidation of two class II carriers poses financial questions which are easier to evaluate than those involved in the case of consolidations of larger companies merely because of the simpler corporate structure of such small firms. Less complete financial information would thus in many cases, be adequate to evaluate such proposed consolidations.

Finally, if a simplified consolidation procedure is not developed to handle applications falling within category two, consolidations involving small railroads could be precluded simply because of the large cost of filing the necessary material to support such a proposal. This disincentive could result in deterioration of service which could be avoided if an abbreviated filing procedure were available.

The reason for distinguishing joint use applications from other categories of consolidation applications is that joint use agreements generally result in the maintenance of or increase in competition. Hence there are fewer anticompetitive implications than in other consolidation transactions. Similarly, the financial considerations associated with joint use applications are far simpler than in the case of other consolidations since the only financial questions revolve around who pays how much for the use of the lines or facilities involved.

B. EFFECTS OF INTERMODAL COMPETITION

DOT's second concern with the Commission's NPRO is that it placed too much emphasis on the effects of proposed consolidations on intramodal rail competition and failed to consider sufficiently the effects on intermodal competition. Given the overall decline in the rail share of most transportation markets and the strong competition which railroads face from other modes, the preservation of intramodal rail competition has lost the controlling significance it once had. The extensive present and potential future intermodal competition faced by the railroads was recognized by Congress in enacting the RRRRA.[1]

Given the increasing significance of intermodal competition, DOT believes that applicants should be required to assess, to the best of their ability, the extent of intermodal, as well as intramodal, competition which they face both before and after the proposed consolidation.

C. THE USEFULNESS OF REPORTS PREPARED PURSUANT TO SECTIONS 503, 504 AND 901 OF THE RRRRA

DOT's third major concern with the NPRO was that it failed to require applicants to cross-reference and analyze the reports required and now being prepared in accordance with RRRRA sections 503 (classification and designation of the rail transportation system), 504 (analysis of the rail industry's facilities rehabilitation and improvement needs) and 901 (comprehensive study of the rail system) as such reports relate to the applications under consideration.

Section 101(a) of the RRRRA provides that one of the means by which the revitalization of the rail industry is to be accomplished is through "necessary studies", such as those mandated by sections 503, 504 and 901. This Congressional concern with studies of the rail system also influenced the provisions of Title IV of the RRRRA (dealing with mergers and consolidations). As the Senate Report emphasized, a major deficiency in existing consolidation procedures which the Congress was concerned with remedying was the lack of any overall planning process in connection with the consideration of particular proposals (Senate Report at 17–18).

DOT believes that the reports prepared under sections 503, 504 and 901, together with studies prepared pursuant to sections 401 and 403 of the RRRRA, can and should be used to provide not only DOT, but the Commission as well, with a national railroad transportation policy foundation upon which decisions on particular consolidation proposals can be based. For this reason all applicants shall be required to analyze their proposals in the context of the findings or facts contained in the reports prepared under sections 503, 504, and 901.

D. DIFFERENT STANDARDS FOR REVIEW UNDER SECTIONS 5 (2) AND (3) OF THE ACT

DOT is concerned that the Commission's NPRO failed to develop a public interest standard of review which recognized the differences between proceedings conducted pursuant to sections 5 (2) and (3) of the Act. Section 5(2)(c) of the Act specifies four factors (although the Commission can consider others) which must be considered in determining whether a consolidation proposal is consistent with the public interest. Section 5(3)(f)(iv) lists nine concerns which have a bearing on whether such a proposal is in the public interest. The NPRO placed primary emphasis on the considerations listed in section 5(2)(c) and failed to consider certain of the factors listed in section 5(3)(f)(iv). DOT believes that the public interest test for use in proceedings under both sections 5 (2) and (3) should incorporate the considerations listed in both sections 5(2)(c) and 5(3)(f)(iv). The only difference in the test for sections 5 (2) and (3) proceedings would be the recognition that unlike section 5(2) proceedings, the Commission is to review each application submitted pursuant to section 5(3) on its own merits without concerning itself with inconsistent applications or petitions for inclusion.[2]

E. NEED FOR A NARRATIVE DISCUSSION AND FOR REARRANGEMENT OF THE PROPOSED EXHIBITS

Finally, DOT believes the Commission's NPRO sections dealing with the information request of the applicants should be reorganized. Given the strict statutory time frames for interested persons to submit comments, conflicting applications and petitions for inclusion (in the case of section 5(2) proceedings) as well as for completion of the evidentiary proceedings and rendering of the Commission's decisions, it is important that applications be not only thorough in their presentation of relevant data but that they also be easily understandable. DOT believes that a narrative presentation supplemented by attached exhibits would allow interested parties to comprehend and respond more quickly to proposed consolidation transactions than does the format contained in the NPRO.

PURPOSE OF PROPOSED SECTION 5(3) REGULATIONS

The remainder of this notice contains the procedures which we propose for the submission of consolidation proposals to the Administrator under section 5(3). The procedures address the issues discussed above as well as the format and content of future proposals.

As previously noted, once a consolidation proposal has been evaluated by the Administrator it must be submitted to and approved by the Commission before it can be consummated. Given this, DOT has attempted to pattern the substantive contents of its proposed regulations after the proposed regulations issued by the Commission in Ex Parte No. 282 (Sub-No. 1). Whenever the provisions of DOT's regulations differ in substance from those of the Commission the changes are so indicated and a brief explanation provided. Due to the great similarity between the two sets of proposed regulations, we do not feel that there will be any inflationary impact resulting from DOT's regulations and, therefore, no inflationary impact statement has been prepared. We urge the Commission, in drafting its final consolidation regulations, to evaluate the areas in which the two sets of proposed regulations differ and resolve the conflict wherever possible. DOT, in turn, in developing our final consolidation regulations, will continue to consider the Commission's final regulations.

DOT recognizes that for some applicants and for some consolidation proposals, the proposed regulations may require information or depth of detail that may prove to be impossible to provide or unnecessary. For this reason, provision is made for a waiver or modification of the requirements of the proposed regulations.

We encourage public participation in the development of these regulations. Any interested person or organization may participate by submitting written data, views, or comments to the Office of Chief Counsel, Federal Railroad Administration, 400 Seventh Street, SW., Washington, D.C. 20590. All comments received on or before November 12, 1976, will be considered by the Federal Railroad Administration before taking final action on the proposed regulations. All comments received will be available for examination at any time during regular

V41I199 OCT 13 76 UMI

working hours in Room 5101, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. The proposals contained in this notice may be changed in light of the comments received and in light of the final regulations issued by the Commission in Ex Parte No. 282 (Sub-No. 1).

In consideration of the foregoing, it is proposed to amend Chapter II of Title 49 of the Code of Federal Regulations by adding a new Part 268 as follows:

PART 268—REGULATIONS GOVERNING FORMAT AND CONTENT OF MERGER AND CONSOLIDATION PROPOSALS SUBMITTED TO THE FEDERAL RAILROAD ADMINISTRATOR FOR EVALUATION UNDER SECTION 5(3)(f) OF THE INTERSTATE COMMERCE ACT

Sec.
268.1 Applicability.
268.3 Definitions.
268.5 Eligibility.
268.7 Form and content of application.
268.9 Application procedure.
268.11 Access to information.
268.13 Waivers and modifications.

AUTHORITY: Sec. 5(3), Interstate Commerce Act, 49 U.S.C. 5(3)(f); the Department of Transportation Act, 49 U.S.C. 1651 et seq., Regulations of the Office of the Secretary of Transportation, 49 CFR 1.49(u).

§ 268.1 Applicability.

This part prescribes the guidelines and procedures governing merger and consolidation proposals submitted to the Federal Railroad Administrator for evaluation pursuant to section 5(3)(f) of the Interstate Commerce Act.

§ 268.3 Definitions.

As used in this part:

(a) "Act" means the Interstate Commerce Act, 49 U.S.C. 1 et seq.

(b) "Administrator" means the Federal Railroad Administrator, or the designee of the Administrator.

(c) "Applicant" means any railroad or railroads submitting a merger or consolidation proposal for evaluation pursuant to this part.

(d) "Category 1 applications" means, for purposes of data filing requirements, applications involving two or more class I railroads.

(e) "Category 2 applications" means, for purposes of data filing requirements, applications involving either one class I and one or more class II railroads, or two or more class II railroads.

(f) "Category 3 applications" means, for purposes of data filing requirements, applications involving trackage rights or the use of rail facilities (regardless of the class of railroads involved).

(g) "Commission" means the Interstate Commerce Commission.

(h) "Consolidation" means all transactions subject to section 5 of the Act, including control, merger, leases, acquisitions, coordination projects and trackage rights transactions.

(i) "Control" shall bear the same meaning as the definition of that term in section 1(3)(b) of Part I of the Act.

(j) "Form R–1" and "Form R–2" refer to the Commission's Uniform System of Accounts for class I and class II railroads, respectively, in use as of October 1976. However, the information required in this part requires use of whatever Uniform System of Accounts for Railroads is in effect on the date of filing the application.

(k) "Including" means including but not limited to.

(l) "Railroad" means a common carrier by railroad as defined in section 1(3) of Part I of the Act.

(m) "RRRRA" means the Railroad Revitalization and Regulatory Reform Act of 1976, Pub. L. 94R210.

(n) "Transferee" means any or all of the following persons as the context requires: The acquiring corporation (in a control proceeding), the surviving corporation (in a merger proceeding), the resulting corporation (in a consolidation), the lessee (in a lease), or the purchaser (in an acquisition).

(o) "Transferor" means any or all of the following persons as the context requires: The corporation being acquired (in a control proceeding), the merging corporation (in a merger proceeding), all corporations to be consolidated (in a consolidation), the lessor (in a lease), or the seller (in a purchase).

§ 268.5 Eligibility.

Any railroad may, in the period prior to December 31, 1981, submit to the Administrator a consolidation proposal for evaluation pursuant to this part.

§ 268.7 Form and content of consolidation proposals.

(a) Each application shall contain two volumes: Volume I containing a narrative discussion of the proposed transaction by chapters and volume II containing the supporting exhibits in corresponding chapters.

(b) Each application, unless otherwise indicated, shall include, in the order indicated and identified by applicable volume and chapter number, and by reference to the section number and letters used in this part, the following information:

(1) A front cover to volume I listing—

(i) The full and correct name of the applicant;

(ii) The nature of the transaction (e.g., merger, cotrol, coordination project, trackage rights, etc.); and

(iii) If a consolidation or merger is proposed, the name of the resulting company.

(2) An inside front cover to volume I listing—

(i) The business address of the applicant (street and number, city, county, state and zip code);

(ii) The name, title, business address and telephone number of the officer or offices to whom correspondence with respect to the application should be addressed; and

(iii) The name, business address and phone number of the applicant's attorney.

(3) In Chapter I of Volume I and, if needed, in Volume II, a summary describing the applicant, including the following information:

(i) Identification of applicant, showing—

(A) Whether applicant is an individual, firm, partnership, corporation, company, association, joint stock company, trustee, receiver, assignee, or other personal representative, and trade name or style, if any, under which applicant is doing business;

(B) Whether applicant is a carrier subject to Part I of the Act; and

(C) Whether applicant or any subsidiary is affiliated with a motor or water carrier subject to the Act; also the following information with respect to rail, motor or water operations, where applicable: The date of the certificate, permit, or temporary authority; and the number of the Commission's docket assigned to the application upon which such certificate, permit, or temporary authority was issued or granted; or if application to engage in interstate or foreign commerce has been made but is still pending, the date of the application and the docket number.

(ii) If applicant is a corporation—

(A) Date and place of incorporation and;

(B) Name and business address of all directors;

(C) Name, title and business address of all officers; and

(D) Name and business address of the 10 principal stockholders as of last record date and their respective holdings.

(iii) If applicant is a partnership—

(A) Date and place of partnership formation; and

(B) Name and business address of all present partners, including limited or silent partners and their respective interests.

(iv) If applicant is an association or form of organization other than a corporation—

(A) Date and place of organization;

(B) Full description of the nature and objectives of the organization;

(C) Name, title and business address of officers and directors or trustees;

(D) Name and business address of applicant's 10 principal stockholders or owners.

(v) With respect to paragraph (b)(3)(ii) through (iii) of this section, if applicant is incorporated or organized under the laws of, or authorized to operate in, more than one State, Territory, or Federal District, give all pertinent facts as to such incorporation, organization, or authorization;

(vi) If applicant is a trustee, receiver, assignee, or personal representative of the real party in interest—

(A) The name and address of the court, if any, under the direction of which applicant is acting;

(B) Nature of the proceedings, if any, in which applicant was appointed;

(C) With respect to the real party in interest, the information required under paragraphs (b)(3)(ii), (iii) or (iv) of this section, whichever is applicable.

(vii) If paragraphs (b)(3)(ii), (iii), (iv) and (v) of this section are not applicable, indicate identity, structure, statutory or charter powers;

(viii) If applicant is not a carrier, the type of business in which it is engaged, the length of time so engaged, and particulars of its present activities which are or may be related to transportation subject to the Act;

(ix) Whether applicant is controlled by any other corporation or corporations, and, if so, the name(s) of the controlling corporation(s), the form of control, whether sole or joint, direct or indirect, and its extent;

(x) The measure of control or ownership, if any, now exercised by applicant over any other carrier subject to the Act, or over the properties of such carrier;

(xi) If applicant, or the real party in interest, is part of a system or group of corporations or other persons, the relationship of the applicant, or of the real party in interest, to the members of such system or group, including the form and extent of such relationship, direct or indirect;

(xii) Whether there are any intercorporate relationships, not disclosed in responses to prior instructions, through holding companies, ownership of securities, or otherwise, direct or indirect, between applicant and any carrier or person affiliated with applicant and any carrier or person affiliated with any carrier, at the time of making the application; if so, the nature and extent of such relationship; and, if applicant owns securities of a carrier corporation or corporations subject to the Act, the name of the corporation, a description of securities, the par value of each class of securities held, and the percentage of total ownership;

(xiii) Whether applicant or any of its affiliates has officers or directors in common with any other applicant or its affiliates; and, if so, a reference to the Commission's order or orders, if any, authorizing the holding of such positions in common, with the names of such officers or directors and the position held in each corporation;

(xiv) In Exhibit A, one or more of the following documents as may be appropriate:

(A) One copy each of the charter or articles of incorporation, and the bylaws and amendment thereof, of each applicant, duly certified by the appropriate officer;

(B) A properly authenticated copy of the articles of partnership, if any, of each partnership which is a party to the transaction;

(C) A properly authenticated copy of the articles of association, trust agreement, or other similar document of each association or other form of organization, except a corporation, which is a party to the transaction;

(D) A properly authenticated copy of the order of the court or instrument appointing each trustee, receiver assignee, or personal representative which is a party to the transaction; and

(E) If paragraph (b)(3)(xiv) (A), (B), (C) and (D) of this section are not applicable, submit appropriate organizational or authorizing document or indicate why none is available or necessary.

(xv) In Exhibit B a copy of all resolutions of directors of the applicant authenticated by a proper executive officer authorizing the proposed transaction and, where applicable, the submission of the application to the Administrator for evaluation pursuant to section 5(3) of the Act; and, if the charter or bylaws of the applicant require approval of the stockholders, a copy of the resolution of stockholders authorizing the proposed transaction and application if the resolution has been adopted at the time of filing of the application and, if not, it shall be submitted as soon thereafter as feasible;[2] all such resolutions to be accompanied by sufficient transcripts of the minutes of meetings of the stockholders or directors of the applicant to show the number of shares entitled to vote, the number of shares voted for and against the resolutions, and the number of shares/votes required to adopt the resolutions;

(xvi) In Exhibit C, a copy of all resolutions of stockholders or directors of the applicant, or duly authorized committee thereof, authenticated by a proper executive officer of the applicant, designating by name and for that purpose the executive officer by whom the application is signed and verified; and filed on behalf of the applicant;

(xvii) In Exhibit D, if applicant is an organization other than a corporation, documentary evidence showing authorization and designation of the individual or individuals signing, verifying and filing on behalf of the applicant;

(xviii) In Exhibit E, if a trustee, receiver, assignee, or personal representative of the real party in interest is an applicant, a certified copy of the order, if any, of the court having jurisdiction, authorizing the contemplated action;

(xix) In Exhibit F, opinion of counsel of applicant that the transaction described in the application meets the requirements of the law and these regulations and will be legally authorized and valid if approved by the Commission, with specific reference to any specially pertinent provisions of applicant's charter or articles of incorporation; and

(xx) In Exhibit G, a general or key map indicating clearly, in separate color, or otherwise on a suitable scale not smaller than 20 miles to the inch, the line or lines of each applicant, parts of the line or lines of each applicant in their true relation to each other, short-line connections, other rail lines in the territory and the principal geographic points of the region transversed. There shall also be furnished three copies of the map, unbound, for the use of the Administrator;

[2] The NPRO requires that a copy of the resolution of the stockholders authorizing the proposed transaction and the filing of an application accompany the application. This requirement was not adopted since obtaining of stockholders approval is often delayed to coincide with regular annual meetings of stockholders.

(xxi) The State or States in which any part of the property of the applicant involved is situated.

(4) In Chapter 2 of Volume I and, if needed, Volume II, a summary describing the proposed transaction, the new situation which would result if the transaction is consummated, the environmental impact of the proposed transaction, and the public interest factors involved, including the following information:

(i) The nature of the transaction;

(ii) A brief description of the line (or lines) of railroad involved in the transaction, the principal points of interchange, including city or county and State location, termini and approximate distance in miles;

(iii) A brief geographical description (including as applicable, route descriptions) of (A) operations sought to be performed and (B) other operations presently performed;

(iv) Briefly, the terms and conditions of the contract or agreement pursuant to which the proposed transaction is to be effected, including the manner in which the parties propose to consummate the transaction and the consideration, in money or otherwise, to be paid by the applicant;

(v) Information and data with respect to the environmental impact of the proposed transaction and of alternative choices of action prepared in accordance with the regulations in Part 1108 of this title of the Code of Federal Regulations; and

(vi) Facts and circumstances relied upon to show that the proposed transaction is within the scope of section 5(3) of the Act, will be consistent with the public interest and will otherwise be within the requirements of section 5, particularly:[4]

(A) To explain and support adequately the financial consideration involved in the proposed transaction, including an explanation of economies, if any, to be effected in operations, and increases, if any, in traffic, revenues, earnings available for fixed charges, and net earnings before Federal taxes, expected to result from the consummation of the proposed transaction;

(B) To establish that the increase, if any, of total fixed charges resulting from the proposed transaction would not be excessive in relation to earnings;

(C) To establish that any guaranty or assumption of payment of dividends or fixed charges contemplated in the transaction is not inconsistent with the public interest;

(D) To establish that the transaction will be consistent with the needs of rail transportation in the geographical area affected;

(E) To show the effect of such proposed transaction on the retention and promotion of competition in the provision of rail and other transportation

[4] Requirements (A) through (K) are not contained in the NPRO but are concerns which section 5(3)(f)(iv) of the Act requires be considered by the Administrator in evaluating consolidation proposals.

V41 1999 OCT 13 76 UMI

services in the geographical area affected;

(F) To show the effect of such proposed transaction on employment in the geographical areas affected by the transaction;

(G) To show the cost of rehabilitation and modernization of track, equipment, and other facilities associated with the proposed transaction with a comparison of the potential savings or losses from other possible choices of action;

(H) To show the effect of the proposed transaction on the achievement of a more efficient or adequate rail system;

(I) To show the effect of the proposed transaction on shippers, consumers, and railroad employees;

(J) To show the effect of the proposed transaction on the communities in the geographical areas affected and on the geographical areas contiguous to such areas; and

(K) To show whether the proposed transaction will improve rail services. (In the event full responses to the items listed above are contained elsewhere in the application, the required responses to these items should be brief and an appropriate reference to the portion of the application where the response is fully discussed should be made.)

(5) In Chapter 3 of Volumes I and II, a discussion of the economic background of the applicant's territory [6] and of the economic effects of the proposed transaction including (the provisions of subdivision (i) of this subparagraph are optional in the cases of applications falling in categories 2 and 3) [7] the following information:

(i) A summary (with supporting exhibits in Volume II) of historical economic growth (or stagnation or decline) and the level of economic activity, in the most recent 25 years [7] in the applicant's territory by—

(A) Type of output, such as manufacturing, extractive, agricultural and wholesale and retail trade; and

(B) Levels of employment and earnings.

(ii) A summary analysis (with supporting exhibits in Volume II) of the impact of the proposed consolidation on economic growth (or stagnation or decline) and levels of economic activity in the applicant's territory, including the following information:

(A) The applicant's best estimate (including the basis therefor) of the effect of the transaction on employment (other than railroad employment) in the communities affected by the transaction, including the number of jobs and amounts of wages (including multiplier effects) to be lost;[8]

(B) The applicant's best estimate (including the basis therefor) of the impact of the proposed transaction on shippers and consumers, including a listing of shippers and receivers who would lose service, gain improved service, or have alternative transportation available;[8] and

(C) The applicant's best estimate (including the basis therefor) of any other economic effects of the proposed transaction on the communities in geographical areas contiguous to the affected area.[8]

(iii) An explanation of the methods, procedures and data used in preparing the analyses specified in subdivisions (i) and (ii) of this subparagraph.

(iv) In preparing the analyses specified in subdivisions (i) and (ii) of this subparagraph, the applicant—

(A) May but is not required to present standard economic and demographic historical series on population, employment, income, and other trends reasonably related to section 5(3)(f)(iv) of the Act and projections to present the probable directions of such series both with and without the proposed transaction. (Applicants and others are referred to a publication entitled Statistical Services of the United States Government, put out by the U.S. Office of Management and Budget and which is available from the Superintendent of Documents, Washington, D.C. 20402 (stock number 041-001-00100-0; price $3.40, as of October of 1976).); or

(B) May but is not required to present macroeconomic analyses such as those prepared by the method generally referred to as "input-output analysis", with projections of probable future directions both with and without the proposed transaction; or

(C) May present analyses prepared by any other method developed by applicant, with projections of the probable future directions with and without the proposed transaction.

(v) Submissions which compare the economy and demography of the applicant's territory with the national economy and demography shall take into account the fact that the territorial data are included in the national data and furnish national data adjusted to exclude the territorial data. (This requirement also applies to Chapter 4.)

(6) In Chapter 4 of Volumes I and II, a discussion and analysis of transportation demand and of competition among the various modes including (the provisions subdivisions (i) through (v) of this subparagraph are optional in the case of applications falling in categories 2 and 3) the following information: [9]

(i) An analysis relating the applicant's traffic for the most recent 25 years to output in the affected territory (as presented in Chapter 3) with a view to showing whether the applicant's share of the total output carried has increased, decreased or remained the same;

(ii) An analysis comparing the applicant's share of the output in the territory affected with the railroad industry's share of national output for the most recent 25 years with a view to showing whether the applicant has done better than, the same as or worse than the national railroad industry in obtaining and keeping traffic in the face of competition;

(iii) The applicant's best estimate of growth (or stagnation or decline) of each transportation mode (including private carriage) measured by ton-miles, tonnage and freight revenues, for the United States as a whole and in relation to the applicant's respective territory for the most recent 25 years;

(iv) The applicant's best estimate of its relative percentage of the transportation market in the affected regions during the past 25 years measured by percentage of total ton-miles, tonnage and freight revenues both with respect to total transportation services and to the percentage of transportation services provided by all railroads operating in such regions;

(v) The growth (or stagnation or decline) in revenues tonnage or ton-miles of each of the applicant's ten leading commodities (or a lesser or greater number) amounting to 85 percent of the applicant's total traffic for the most recent 10 years;

(vi) An identification of the railroads competing with the applicant and the applicant's best estimate of tonnage, ton-miles and freight revenues of such carriers;

(vii) The needs of rail transportation in the geographical area affected;

(ix) The effect of the proposed transaction on the retention and promotion of competition in the provision of rail and other transportation services in the geographical area affected, including the applicant's best estimate of the percentage of traffic handled by competitors, if any, which applicants could reasonably expect to attract as a result of the proposed transaction;

(x) An explanation of the methods and procedures used in making estimates and projections; [10]

[6] The NPRO did not require the submission of any evidence pertaining to the past level of economic activity in the applicant's territory. The demand for transportation services in general, and for railroad services in particular, is closely related to the level of economic activity. In order to analyze effectively a particular consolidation proposal it is necessary to understand the economy of the territory on which the applicant operates (i.e. whether it is expanding, contracting or remaining steady).

[7] See the preamble for the discussion of the distinction, for data submission purposes of different categories of application.

[7] If no data is available for the first year in this 25 year period, the applicant shall use the earliest available data-collection year in preparing this summary.

[8] Requirements (A) through (C) are not covered by the NPRO but are areas of concern which must be examined pursuant to section 5(3)(f)(iv).

[9] These information requests are not covered by the NPRO. As noted in the preamble, given the increasing significance of intermodal competition it is essential that applicants be required to assess, to the best of their ability, the extent of intermodal, as well as intramodal, competition which they face both before and after the proposed consolidation.

[10] Submissions which present freight revenue may impute freight revenue to private carriage and the applicant shall furnish an explanation of the method of estimating imputed freight revenue.

(7) In Chapter 5 of Volumes I and II, an analysis of the marketing and traffic aspects of the proposed transaction, including (subdivisions (i), (ii), and (iii) of this subparagraphs are optional in the case of category 3 applications) the following information:

(i) In Exhibit H the following data with respect to the applicant:

(A) Revenue carload and gross-ton miles [11] per year, density charts which shall contain a map showing principal lines (those handling 5,000 or more revenue carloads or 5 percent of total revenue carloads, whichever is smaller, annually) and respective densities, expressed in the annual number of revenue carloads and gross ton-miles per year, in each direction, in segments of such lines between major freight yards and terminals, including major interchange points, using the corporate or political subdivision name of the points shown as well as the railroad station name. The mileage of such segment of line should be shown on the chart. Data shown in the density charts shall be for the latest available three calendar years preceding the filing of the application;

(B) Revenue carload interchange data between applicant and connecting line-haul railroads for the latest three calendar years preceding the filing of the application should be set forth in tables showing: [12]

(1) Area of origin and originating railroad;

(2) Intermediate bridge railroads, if any, traversed enroute to applicant's lines;

(3) Entry point and interchange between the railroads involved in the consolidation;

(4) Interchange points with bridge or terminal railroads; and

(5) Area of final destination and terminating railroad.[12]

(ii) In Exhibit I, the following data:

(A) A table showing the applicant's revenue freight traffic, indicating by year, for the 10-year period preceding filing of the application, the number of local, interline originated, interline terminated, overhead, total carloads, total revenue tons, revenue ton-miles, and total freight revenue;

(B) A table showing commodity group tonnage at the two-digit level of the Standard Transportation Commodity Code (STCC) as a percentage of total tonnage for the 10-year period preceding filing of the application, indicating by year the various commodity groups, the tonnage attributable to each group, and the percentage of that group tonnage as it relates to total tonnage; and

(C) A table showing commodity group revenue (at the two-digit level of the STCC) as a percentage of total revenue, for the 10-year period preceding filing of the application, indicating by year the various commodity groups, the revenues attributable to each group, and the percentage of that group revenue as it related to total revenue.

(iii) In Exhibit J a traffic study detailing estimated gains and losses in traffic and revenues expected to result from the consummation of the proposed transaction. This exhibit is not required in applications involving the acquisition of a line of railroad where the line to be acquired has been authorized by the Commission to be abandoned or the line to be acquired connects with no carrier other than the applicant.[14] The traffic studies shall be prepared in conformity with the following instructions:

(A) The period covered by the traffic studies shall be the latest three calendar years preceding the filing of the application; [15]

(B) The traffic studies shall be based upon all data available to applicant and shall be in the format of the Interline Freight Revenue Settlement Abstract or the revenue waybills. All data for the movements relied upon in the traffic study shall be reproduced together with all other information relied upon in determining the gains or losses in traffic and revenue. The amount of such gains or losses shall be shown for each movement abstract on which a gain or loss has been determined.[16] The initials of the person or persons making the determinations shall be shown on all abstracts. Only two copies of the abstract to the study movement shall be filed with the original application.

(C) A conformed copy of such abstract shall be maintained at applicant's principal place of business and shall be made available, upon direction by the Administrator, to interested parties. Copies of the abstract need not be included as part of the exhibits to the copies of the application furnished to the Administrator;

(D) Standardized geographic railroad accounting code locations (e.g., Freight Station Accounting, Code, Rule 260 Junction Code) as well as data, commodity and quantitative information (e.g., tonnage, revenue, etc.) for each traffic shipment on the applicant must be provided. The information should also be made available on computer medium in the following format: [17]

[11] Since one of the standard units for measuring traffic today is ton-miles applicants should be required to report density in not only revenue carloads but also in gross ton-miles.

[12] The data can be aggregated if aggregation does not obscure the general origin and routing of the traffic. Gateways annually handling 5,000 or more revenue carloads or 5 percent of total revenue carloads, whichever is smaller, should be specifically identified. Where two or more gateways are contiguous or nearly contiguous, they should be totaled (as examples, Dallas-Ft. Worth, Minneapolis-St. Paul, Omaha-Council Bluffs, etc.).

[13] Subsection (B) consolidates interchange data requested in several places in the NPRO.

[14] This exemption is somewhat broader than that provided in the NPRO which limited the exemption to cases involving the acquisition of a line of railroad by a class II railroad from a class I or class II railroad where the line to be acquired has been authorized by the Commission to be abandoned. The broader exemption is provided because we believe that no information is needed with respect to the cases covered.

[15] This differs from the NPRO in that three years of traffic data rather than one year is required to reduce the effect in the data of short-term fluctuations in the economy.

[16] The NPRO requires complete data shown on waybills covering the movement. Since waybills are not always available to intermediate carriers, the language in the NPRO has been discarded in favor of that suggested by the AAR in its comments in the Ex Parte No. 282 (Sub-No. 1) proceedings.

[17] This differs from the NPRO in that complete traffic data on computerized tape is required so that conclusions drawn on consolidation costs and benefits can be analyzed in detail. A standarized format of the data is required so that standard programs can be developed to assure consistent analysis of various consolidation proposals. The 100 percent sample which we are requesting makes totally unnecessary any information on a judgment sample. We have, therefore, not incorporated the provisions of the NPRO relating to traffic studies utilizing probability sampling techniques.

V41N199 OCT 13 76 UM

(1) FIELD NAME	STARTING POSITION	LENGTH	(2) TYPE	DESCRIPTION
Submitting Railroad	1	3	N	Railroad Code (AAR Standard)
Waybill Day (3)	4	2	N	01 - 31
Waybill Month (3)	6	2	N	01 - 12
Waybill Year (3)	8	2	N	Appropriate Year (e.g. 76)
Traffic Class	10	1	A	L=Local; F=Forwarded; R=Received; O=Overhead
Originating Railroad	11	3	N	Railroad Code (AAR Standard)
Originating Station	14	5	N	Freight Station Accounting Code (AAR Standard)
Terminating Railroad	19	3	N	Railroad Code (AAR Standard)
Terminating Station	22	5	N	Freight Station Accounting Code (AAR Standard)
Received From Railroad	27	3	N	Railroad Code (AAR Standard)
Junction On	30	5	A	Abbreviation (AAR Standard Rule 260)
Forwarded To Railroad	35	3	N	Railroad Code (AAR Standard)
Junction Off	38	5	A	Abbreviation (AAR Standard Rule 260)
Commodity	43	7	N	Standard Transportation Commodity Code(AAR Standard)
Number of Carloads	50	5	N	Quantitative in Units
Net Tons	55	6	N	Quantitative in Units
Proportional Revenue	61	6	N	Quantitative in Dollars
Total Freight Revenue	67	6	N	Quantitative in Dollars

Transit Indicator	74	1	N	0=Not Transit; 1=Transit

(1) Insert blank (s)
(2) A = Alphanumeric
B = Numeric
(3) If interline abstracts are used, insert code "99".
(4) If interline abstracts are used, these items refer to settlement dates.

Tape specifications: Standard Label (IBM/360/70-OS) or unlabelled
800 BPI/1600 BPI
EBCDIC or ANC11 coding convention
Record Length=74
Blocksize=7400

(E) The traffic study shall include the written instructions, if any, for determining the amount of gains. All instances where those instructions were not followed but were subordinated to other unwritten instructions shall be clearly shown, together with references in each instance to the appropriate movement set forth in the abstract of movements under section § 268.7(b) (7) (i) (Exhibit J). Applicants shall furnish the unwritten instructions and the reasons for the deviation.

(8) In Chapter 6 of Volumes I and II, an analysis of the operational aspects of the proposed transaction including the following:

(i) In Exhibit K (applicable only to applications in categories 1 and 2) a complete description of the existing operating plan and the proposed plan for operations affected by the transaction. This exhibit shall include projected data based upon completion of the proposed transaction giving existing traffic levels. Specifically, the following aspects of the operating plan should be described:

(A) The existing patterns of service on the properties including principal routes and general categories of traffic and the estimated effect of the projected operating plan as indicated by the proposed principal routes, proposed consolidations of mainline operations, and the anticipated traffic density and traffic mix on all main and secondary lines in the system;

(B) The basic operating and train blocking plan of the system, including the identification of system classification yards, and the anticipated workload of such yards, supported by a proposed blocking plan based on projected origin-destination traffic data and the identification of road crew districts and intradivisional runs; [18]

(C) The location of existing shops and repair facilities, an identification of major installations to be discontinued or added and a description of the system repair function of each remaining facility;

(D) If commuter or other passenger services are operated over the lines of applicant, detail any impact anticipated on such services, including delays which may be occasioned because a line is scheduled to handle increased traffic due to route consolidation;

(E) If application to abandon a line or discontinue a service are contemplated, a full description of such lines or services and the reasons for the contemplated abandonment or discontinuance;

(F) A summary table showing the equipment owned and leased by the applicant indicating by year for the 10-year period preceding filing of the applicant, the amount of rolling stock by type and their aggregate capacity, the amount of locomotives and maintenance-of-way equipment and the total amount of rolling stock, locomotives and maintenance-of-way equipment owned and leased;

(G) The equipment requirements of the proposed system, including locomotives, rolling stock by type, and maintenance-of-way equipment; plans for acquisition and retirement of equipment; and projected improvements in equipment utilization together with an explanation of the operating or route changes that will cause such improvements;

(H) The extent to which deferred maintenance or delayed capital improvements apply to any road or equipment involved and the schedule for eliminating such deferrals. Also, details of system rehabilitation and upgrading plans including proposed yard and terminal modifications, together with an estimate of anticipated service improvements or operating economics associated with such projects; and

(I) The operating costs of the current and proposed plans and a detailed analysis of all changes representing significant operating economics.

(ii) In Exhibit L (applicable only to applications in category 3) data, projected for at least 3 years following the consummation of the proposed transaction, describing the following aspects of the operating plan:

(A) Any significant changes in patterns of service;

(B) Traffic level and density on lines proposed for joint operations;

(C) Impact on the use of yards or shop facilities and any necessary modifications to yards or terminals;

(D) Impact on commuter or other passenger service operated over a line which is to be downgraded or operated on a consolidated basis;

(E) Operating economies; and

(F) Any associated discontinuances or abandonments.

(iii) The estimated cost of rehabilitation and modernization of the track, equipment and other facilities involved in the proposed transaction, with a comparison of the potential savings or losses from other possible choices of action. In addressing this point, applicants should analyze the proposed transaction in the context of the informational findings or facts contained in the reports prepared by the Secretary pursuant to sections 504 and 901 of the RRRRA. If applicant has applied or intends to apply for financial assistance under Title V of the RRRRA, full details should be provided regarding the nature, amount and purpose of such assistance, and the steps which have taken to secure such financial assistance; [19] and

(iv) The rationalization of the rail system resulting from the proposed transaction. In addressing this point applicants should analyze the proposed transaction in light of the line classification and designations made by the Secretary pursuant to section 503 of the RRRRA. [19]

(9) In Chapter 7 of Volumes I and II, a discussion of the financial condition of

[18] The information regarding employees was not asked for in the NPRO but is necessary to assess the labor aspects of the proposed transaction.

[19] The NPRO does not contain any reference to sections 503, 504, 901 or Title V of the RRRRA. The need for the requested material pertaining to the RRRRA is discussed in the preamble.

the applicant and a forecast of the effects on that condition of the proposed transaction, including (this chapter is optional in the case of category 3 applications) the following information:

(i) In Exhibit M a properly authenticated copy of the applicant's annual report, if any, to stockholders or shareholders for each of the five calendar or fiscal years preceding the filing of the application;

(ii) The policy and practice followed by the applicant with respect to reserves for depreciation and similar reserves, including rates by classes of property;

(iii) In Exhibit N balance sheets of the following:

(A) Transferee on a corporate entity basis;

(B) Transferee's parent company on a corporate entity basis;

(C) Transferee and subsidiaries on a consolidated basis;

(D) Transferor on a corporate entity basis;

(E) Transferor's parent on a corporate entity basis; [20]

(F) Transferor and subsidiaries on a consolidated basis; and

(G) Each subsidiary of transferee and of transferor on a corporate entity basis.

All statements requested in (A)–(G) of this subdivision shall show the latest available date, going back no further than six months prior to the filing of the application, and shall be in account form and detailed as required in schedule 200 of the Commission's Annual Report R–1 or R–2, as appropriate.

(H) A spread sheet showing for both the transferor and the transferee comparative balance sheet accounts as of December 31 for each of the five years preceding the year in which the application is filed, in account form and detail as required in schedule 200 of Annual Report R–1 or R–2, as appropriate; [21]

(I) Where the transaction involves a proceeding other than a control a *pro forma* balance sheet statement giving effect to the proposed transaction as of the date of the balance sheets required in (A)–(G) of this subdivision. The pro forma balance sheet statement shall be presented in columnar form showing in the first column the balance of transferee on a corporate entity basis, in the second column a balance sheet of transferor, on a corporate entity basis, in the third column pro forma adjustments and eliminations and in the fourth column, transferee's balance sheet "giving effect" to consummation of the proposed transaction. Each adjustment and elimination shall be properly footnoted and fully explained:

(J) Where the transaction involves a control, a pro forma balance sheet of the acquiring carrier as of the date of the balance sheets required in (A)–(G) of this subdivision; and

(k) *Pro forma* statement of changes in financial position of the transferor and transferee for the first year following the filing of the application, both before and after giving effect to the proposed transaction. All assumptions shall be noted.[22]

(iv) In Exhibit O, income statements, of the following:

(A) Transferee and subsidiaries on a consolidated basis;

(B) Transferee's parent company on a corporate entity basis;

(C) Transferor and subsidiaries on a consolidated basis; and

(D) Transferor's parent company on a corporate entity basis.

All statements requested in (A)–(B) of this subdivision are to be for each of the three calendar years immediately preceding filing of the application. They shall include (1) for the most recent calendar year the months or quarters then available,[23] and (2) for the current year the months for which the figures are available (up to the date of the latest balance sheet), and shall be in account form similar to that required in column (a) of schedule 300 of Annual Report R–1 or R–2, as appropriate.

(E) Where the transaction involves a proceeding other than a control transfer, a *pro forma* income statement showing transferee's estimate of revenues, expenses and net income for the first three years following consummation of the transaction. The *pro forma* data shall be presented in columns, the first column showing transferee's actual income statement on a corporate entity basis for the latest available period extended to a 12 month period, the second column a similar income statement for the transferor, the third column forecasted adjustments to the combined revenues, expenses and net income to reflect increases or decreases anticipated under the unified operation and the fourth column a compilation of the first three columns into a pro forma income statement forecasting operations during the year following consummation. The adjustments are to be supported by a statement explaining the basis used in determining the estimated changes in revenues, expenses and net income appearing in the third column;

(F) Where the transaction involves a control transfer, a *pro forma* income statement showing transferor's and transferee's best estimate (and the basis therefor) of revenues, expenses and net income for the first three years following consummation of the transaction prepared in columnar form prescribed above; and

(G) Transferor's and transferee's statement of changes in financial position for the current year, up to the date of the latest balance sheet, and a forecast of changes in financial position for each carrier (if a merger or consolidation, the surviving or resulting corporation) for the three years following consummation of the proposed transaction, the form and content of these statements to be constructed in accordance with schedule 309, Statement of Changes in Financial Position required in the Annual Report R–1 for Class I Railroads.

(10) In Chapter 8 of Volumes I and II, a discussion of the financial considerations involved in the proposed transaction, including the following information:

(i) The amount of applicant's outstanding capital stock, by classes, the par value or stated value of each share, its voting rights, if any, the total number of stockholders or record, and the voting rights of all security holders;

(ii) The terms and conditions of the contract or agreement pursuant to which the proposed transaction is to be effected, including the manner in which it is proposed to consummate the transaction and the consideration, in money or otherwise, to be paid by applicant;

(iii) Whether there is any financial or other relationship, direct or indirect, at the present time between applicant and other parties and affiliates involved in the proposed transaction; and, if so, a full explanation of such relationship;

(iv) Whether the property involved in the proposed transaction includes all the property of the applicant and, if not, describe what property is not included in the proposed transaction;

(v) Value of each of the properties involved in the proposed transaction as found by the Commission or if such value has not been found by the Commission, as independently appraised for the purposes of the proposed transaction; and, separately, the net cost of additions and betterments made after the date of valuation or appraisals;

(vi) The market value of any securities acquired or proposed to be acquired in the proposed transaction; or, if there is no ascertainable market value, the estimated value, giving the basis of the estimate;

(vii) If any of the property covered by the application is encumbered and applicant has agreed to assume obligation or liability with respect thereto—

(A) A description of the property encumbered; and

(B) Amount of encumbrance and full description thereof, including maturity, interest rate, and other terms and conditions;

(viii) If a consolidation or merger is proposed, the capitalization proposed for the company resulting from the consolidation or merger; and, separately, the amount and character of capital stock and other securities to be issued;

(ix) Facts and circumstances relied upon to show that the guarantee or assumption of payment of dividends or fixed charges, if any, contemplated in

[20] The information contained in (E) is in addition to the information contained in the NPRO. It is needed because in its absence railroad data only might be submitted without explicitly showing material impact of the transaction on the Transferor's parent.

[21] This balance sheet request is not contained in the NPRO. For analytical purposes, the information provided by income statements would be incomplete without balance sheets for comparable years.

[22] This requirement is not found in NPRO but is needed, for comparison purposes and determining the effects of the proposed transaction.

[23] The NPRO requires data for the "immediately preceeding three calendar years" for statements requested in items (A)–(D). This would preclude the filing of applications within the first several months of the year during which data for the preceding year are not available. In order to overcome this problem the additional language in the sentence was added.

V41 I199 OCT 13 76 UMI

the transaction is consistent with the public interest;

(x) Particulars of applicant's long-term debt for each of the past five fiscal years plus a one year forecast in form and detail required in schedules 218 and 219 of Annual Report R–1 or schedules 670, 695, 702, 901 and 902 of Annual Report R–2, as appropriate;[24]

(xi) Particulars as to capital stock for each of the past five fiscal years plus a one year forecast in form and detail as required in schedules 228, 229 and 230 of Annual Report R–1 or schedule 690 in R–2, as appropriate;[25]

(xii) A price to earning ratio of applicant's stock for each of the past five years (high, low, average), or that of the applicant's holding company, where applicable.[26]

(11) In Chapter 9 of Volumes I and II, a discussion of the effect of the proposed transaction on the applicant's employees including the following information:

(i) A copy of any agreement or agreements with employee organizations entered into as a result of the proposed transaction;

(ii) A breakdown of the number of jobs by craft, which under the proposed transaction are to be abolished, transferred or created at each point, and point or points to which jobs will be transferred and the number of such jobs;

(iii) For each of the job changes in subdivision (ii) of this subparagraph the cost or savings to applicant in accomplishing such changes, broken down for each of the three years following consummation of the proposed transaction;

(iv) The approximate date(s) on which each job abolition, transfer, or creation (set forth under subdivision (ii) of this subparagraph above) is to be effectuated, and indicating, where appropriate, any implementing agreement which is necessary before such job changes are to be put into effect;

(v) For all applicant's employees not covered under the Railroad Retirement Act, a list of the pension plans currently in effect, with an indication of whether they are funded or not, the extent of any unfunded liability, and the time required to bring the plans to a fully funded level; [27] and

(vi) An estimate of the total costs of labor protection associated with the proposed transaction.[27]

§ 268.9 Application procedure.

(a) The original application shall bear the date of execution, be signed by or on behalf of the applicant, and shall bear the corporate seal in the case of an applicant which is a corporation. Execution shall be by all partners if a partnership, unless satisfactory evidence is furnished of the authority of a partner to bind the partnership, or if a corporation, an association or other similar form of organization, by its president or other executive officer having knowledge of the matters therein set forth. Persons signing the application on behalf of the applicant shall also sign a certificate in form as follows:

---------- certifies that [he][she] is the ---------- of the ----------, (Name of official) (Title of official) (Name of applicant) authorized on the part of the applicant to sign and file with the Administrator this application; that the consent of all parties whose consent is required, by law or by binding commitment of the applicant, in order to make this application has been given; that [he][she] has carefully examined all of the statements contained in such application relating to the aforesaid ----------; that [he][she] has (Name of applicant) knowledge of the matters set forth therein and that all such statements made and matters set forth therein are true and correct to the best of [his][her] knowledge, information, and belief.

(Name of official)

(Date)

(b) There shall be made a part of the original application the following certificate by the Chief Financial Officer or equivalent officer of the applicant:

---------- certifies that [he][she] is (Name of officer) ---------- of ----------; that (Title of officer) (Name of applicant) [he][she] has supervision over the books of account and other financial records of the applicant and has control over the manner in which they are kept; that such accounts are maintained in good faith in accordance with the effective accounting and other orders of the Interstate Commerce Commission; that [he][she] has examined the financial statements and supporting schedules included in this application and to the best of [his][her] knowledge and belief these statements accurately reflect the accounts as stated in the books of account; and that other than the matters set forth in the exceptions attached to such statements, those financial statements and supporting schedules represent a true and complete statement of the financial position of the applicant and that there are no undisclosed assets, liabilities, commitments to purchase property or securities, other commitments, litigation in the courts, contingent rental agreements, or other contingent transactions which might materially affect the financial position of the applicant.

(Name of official)

(Date)

(c) The original application and supporting papers, including any data deem relevant by the applicant which is not specifically requested by this part, and ten copies thereof for the use of the Administration shall be filed with the Associate Administrator for Policy and Program Development of the Federal Railroad Administration, 400 Seventh Street SW., Washington D.C. 20590. Each copy shall bear the dates and signatures that appear in the original and shall be complete in itself, except to the extent otherwise provided in this part, but the signature on the copies may be stamped or typed.

(d) Applicant should also be prepared to furnish extra copies to the Administrator upon request.

(e) The applicant shall submit such additional information to support its application as the Administrator may request.

(f) The administrator reserves the right to reject those applications which do not conform to the regulations prescribed herein regarding the form, content and documentation. Upon the filing of an application, the Administrator will review the submitted application and determine whether it conforms with all applicable regulations. If the application is incomplete, or otherwise defective, the Administrator may reject said application by written notice to the applicant, specifying the reasons for the rejection, within 30 days from the date of filing of the application. Thereafter a revised application may be submitted, and the Administrator will determine whether the resubmitted application conforms with all prescribed regulations. The resubmission or refiling of an application shall be considered a de novo filing for the purpose of computation of the time period prescribed in section 5(3) of the Act: *Provided*, That such resubmitted application is deemed complete.

§ 268.11 Access to information.[28]

If an applicant wishes any information submitted in an application or supplement thereto not be released by the Administrator upon request from a member of the public, the applicant must so state and must set forth the reasons why such information should not be released, including particulars as to any competitive harm which could result from release of such information. If that information is adequate, the Administrator will keep such information confidential as permitted by law.

§ 268.13 Waiver or modification.

The Administrator, upon good cause shown, may waive or modify any requirement of this part, or make any additional requirements deemed necessary.

Dated: October 7, 1976.

ASAPH H. HALL,
Administrator, Federal Railroad Administration.

[24] This request is not contained in the NPRO. It supplements information contained in the statement of changes in financial position as it shows interest requirements and long-term debt particulars which can be significant in assessing the proposed transaction.

[25] This request is also not contained in the NPRO. It provides information about dividends paid, stock splits, and changes in par of capital stock the absence of which may distort the historical financial record of the participants to the proposed transaction.

[26] This request is not contained in the NPRO. It is important in that it provides evidence of the relative market value of the participants to the proposed transaction.

[27] The information requested in subdivisions (v) and (vi) of this subparagraph was not requested in the NPRO. This information is needed to fully evaluate the costs and savings which will result from the proposed transaction.

[28] This provision is not contained in the NPRO. The provision merely states the criteria which must be established before information can be kept confidential under the Freedom of Information Act.

OFFICE OF MANAGEMENT AND BUDGET

CUMULATIVE REPORT ON RESCISSIONS AND DEFERRALS

October 1976

V 41 1 1976 OCT 13 76 UMI

OFFICE OF MANAGEMENT AND BUDGET

CUMULATIVE REPORT ON RESCISSIONS AND DEFERRALS

October 1976

OCTOBER 7, 1976.

Hon. NELSON A. ROCKEFELLER,
President of the Senate,
Washington, D.C. 20510

DEAR MR. PRESIDENT: In accordance with Executive Order 11845, I am transmitting the cumulative report required by Section 1014(e) of the Congressional Budget and Impoundment Control Act of 1974. In accordance with that Act, the report is also being transmitted to the House and will be published in the FEDERAL REGISTER.

Sincerely yours,

PAUL H. O'NEILL,
Acting Director.

This report is submitted in fulfillment of the requirements of Section 1014(e) of the Impoundment Control Act of 1974 (P.L. 93-344). Section 1014(e) provides for a monthly report listing all current year budget authority with respect to which, as of the first day of the month, a special message has been transmitted to the Congress.

This month's report gives the status as of October 1, 1976, of the 4 rescissions and 33 deferrals contained in the first three special messages transmitted to the Congress for fiscal year 1977. These messages were transmitted to the Congress on July 29, September 22, and October 1, 1976.

RESCISSIONS (TABLE A AND ATTACHMENT A)

Three rescissions totaling $89.1 million in FY 1977 budget authority are presently pending before the Congress. The Department of the Interior and Related Agencies Appropriation Act of 1977 rescinded $132.9 million in unobligated balances of contract authority ($13.9 million for the Bureau of Land Management, Public lands development roads and trails and $119.0 million for the National Park Service, Road construction) and $39.8 million of contract authorization (Forest Service, Forest roads and trails). Table A summarizes the status of rescissions proposed by the President as of October 1, 1976. Attachment A shows the history and status of each rescission proposed for fiscal year 1977.

DEFERRALS (TABLE B AND ATTACHMENT B)

As of October 1, 1976, $634.7 million in 1977 budget authority was being deferred from obligation and another $123.7 million in 1977 obligations was being deferred from expenditure. Table B summarizes the status of deferrals reported by the President. Attachment B shows the history and status of each deferral proposed during fiscal year 1977.

INFORMATION FROM SPECIAL MESSAGES

The special messages containing information on the rescissions covered by the cumulative report are contained in the FEDERAL REGISTERS of:

Tuesday, August 3, 1976 (Vol. 41, No. 150, Part VI).
Thursday, September 23, 1976 (Vol. 41, No. 188, Part III).

PAUL H. O'NEILL,
Acting Director.

TABLE A

STATUS OF 1977 RESCISSION PROPOSALS

	Amount (in millions of dollars)
Rescissions proposed by the President.....	134.1
Accepted by the Congress.....	---
Rejected by the Congress.....	45.0
Pending before the Congress:	
(Special Message #2, transmitted September 22, 1976).....	89.1

* *

TABLE B

STATUS OF 1977 DEFERRALS

	Amount (in millions of dollars)
Deferrals proposed by the President.....	761.7
Routine Executive releases.....	3.2
Overturned by the Congress.....	---
Currently before the Congress.....	758.5 1/

1/ Includes $123.7 million of outlays in two Treasury deferrals -- D77-26 and D77-27.

PRIVACY ACT OF 1974

Systems of Records

Pursuant to 5 U.S.C. 552a(e)(4), the National Credit Union Administration hereby publishes the systems of records as currently maintained by the agency. The systems were originally published at pages 47426 through 47434 of the October 8, 1975, edition of the Federal Register, and were proposed for amendment at pages 30308 through 30317 of the July 22, 1976, issue of the Federal Register.

The July 22, 1976, proposed changes were made for clarification purposes only and were of a nonsubstantive nature. Certain clarifications did involve revisions of routine use language, however, and thus it was thought advisable to provide a public comment period, in accordance with section 3(e)(11) of the Privacy Act. That period expired on August 23, 1976.

The only comments received were from NCUA component offices and were of a nonsubstantive, corrective nature.

Based upon those comments, the July 22, 1976, proposal is revised as follows:

(1) The "Policies and Practices" portion of System NCUA-1 is revised by deleting the words "separate, locked room" and inserting, in lieu thereof, the words "locked file cabinet."

(2) The "Policies and Practices" portion of System NCUA-2 is revised by deleting the words "separate, locked room" and inserting, in lieu thereof, the words "locked safe."

(3) The "System Location" portion of the System NCUA-6 is revised by deleting the addresses for NCUA's Region IV and Region VI Regional Offices and inserting, in lieu thereof, the following addresses:

IV.
NCUA Region IV Regional Office
New Federal Building
234 N. Summit St., Room 704
Toledo, Ohio 43604
Phone: (419) 259-7511

VI.
NCUA Region VI Regional Office
Two Embarcadero Center
Suite 1830
San Francisco, California 94111
Phone: (415) 556-6277

(4) The "System Location" portion of System NCUA-7 is revised by deleting the words "Management and Planning" and inserting, in lieu thereof, the words "Fiscal Affairs."

(5) The "Categories of Individuals" portion of System NCUA-7 is revised by deleting the words "who are members of a minority group."

(6) The "Routine Uses" portion of System NCUA-7 is revised by deleting the word "statistically" and inserting, in lieu thereof, the word "statistical."

(7) The "Policies and Practices" portion of System NCUA-7 is revised by deleting the words "data management division of the Office of Research and Analysis" and inserting, in lieu thereof, the words "Information Systems Division of the Office of Fiscal Affairs."

(8) The "Routine Uses" portion of System NCUA-10 is revised by adding the following language immediately after the first full sentence thereof: "Information is used in selecting designees to fill vacancies in NCUA's professional staff."

(9) The "System Manager" portion of System NCUA-10 is revised by deleting the words "Inspection and Audit" and inserting, in lieu thereof, the words "Management and Planning."

(10) The "System Location" and "System Manager" portions of System NCUA-14 are both revised by deleting the language "Room 103" and inserting, in lieu thereof, the language "Room 704."

(11) The "System Location" and "System Manager" portions of System NCUA-16 are both revised by deleting the numeral "2" immediately preceding the words "Embarcadero Center" and inserting the word "Two" in its place, and by deleting the language "Room 1800" and inserting the language "Suite 1830" in its place.

(12) The "Policies and Practices" and "System Manager" portions of System NCUA-19 are both revised by deleting the words "Data Management" and inserting, in lieu thereof, the words "Information Systems."

(13) The "Record Source Categories" portion of System NCUA-19 is revised by deleting the word "employee" the second time it appears therein and by deleting the comma following said word and by deleting the words "and supervisors" and inserting, in lieu thereof, the words "or Regional Office Manager."

Accordingly, upon consideration of the comments received and with the above changes, the July 22, 1976, proposed revision of the National Credit Union Administration's "Notice of Existence and Character of Systems of Records" is adopted, effective immediately, except for the above stated revisions of "Routine Uses" portions, which will take effect thirty days from this date.

C. Austin Montgomery,
Administrator.

September 30, 1976.

Authority: Sec. 120, 73 Stat. 635 (12 U.S.C. 1766) and Sec. 209, 84 Stat. 1014 (12 U.S.C. 1789).

TABLE OF CONTENTS

List of System Names

(1) Equal Employment Opportunity Grievance and Discrimination Complaint Records, NCUA.
(2) Federal Employee Security Investigations Containing Adverse Information, NCUA. (This system is subject to Subsection (K)(5) to the extent it contains information provided by confidential sources.)
(3) Intergovernmental Personnel Act Records, NCUA.
(4) Investigative Reports Involving Possible Felonies and/or Violations of Federal Credit Union Act. (This system is subjected to a specific exemption pursuant to Subsection 552(K)(2) as it consists of investigatory material compiled for law enforcement purposes.)
(5) Acquired Assets and Share Payouts Records System, NCUA.
(6) Member Account Records of Federally Insured Credit Unions Closed for Involuntary Liquidation, NCUA.
(7) Minority Group Designator System (MGD), NCUA.
(8) New Examiner Training Files, NCUA.
(9) Payroll Records System, NCUA.
(10) Promotion Qualification Ranking List of Career NCUA Examiners, by Pay Grade, NCUA.
(11) Region I Regional Office Staff Development/Correspondence Records, NCUA.
(12) Region II Regional Office Staff Development/Correspondence Records, NCUA.
(13) Region III Regional Office Staff Development/Correspondence Records, NCUA.
(14) Region IV Regional Office Staff Development/Correspondence Records, NCUA.
(15) Region V Regional Office Staff Development/Correspondence Records, NCUA.
(16) Region VI Regional Office Staff Development/Correspondence Records, NCUA.
(17) Security Clearance Records Concerning NCUA Personnel Who Occupy Critical-Sensitive Positions, NCUA. (This system is subject to a specific exemption pursuant to Subsection (K)(5) to the extent it contains information provided by confidential sources.)
(18) Trusteed Account Records System, NCUA.
(19) Verified Employee Mailing List, NCUA.
(20) Travel System, NCUA.

NCUA-1

System name: Equal Employment Opportunity Grievance and Discrimination Complaint Records, NCUA.

System location: National Credit Union Administration
2025 M Street, NW.
Washington, DC 20456

Categories of individuals covered by the system: NCUA personnel who have filed a grievance or formal complaint of discrimination under the Equal Employment Opportunity Act.

Categories of records in the system: Reports made by supervisors, EEO counselors; formal letters advising of receipt of discrimination complaint/grievance; notices of final agency decision; formal requests to and responses from CSC for complaints examiner.

Authority for maintenance of the system: Executive Order N. 11478, Aug. 8, 1969, 34 F.R. 12985.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Formal or informal settlement of discrimination complaints/grievances. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Storage—maintained in the form of paper hard copy. Retrievability—system is indexed by name. Safeguards—records are maintained in locked file cabinet, accessible only to the Security Officer and his designated assistants. Retention and disposal—in accordance with GSA regulations, the complaint file is retained seven years, duplicates or copies are retained one year and background information not needed in the complaint file is disposed of or returned to the originator after three years.

System manager(s) and address: Security Officer
National Credit Union Administration
2025 M Street, NW.
Washington, DC 20456

Notification procedure: Same as above.

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: Individual who has filed grievance/complaint, supervisors of individual, EEO counselors.

NCUA-2

System name: Federal Employee Security Investigations Containing Adverse Information, NCUA.

System location: National Credit Union Administration
2025 M Street, NW.
Room 3202
Washington, DC 20456

Categories of individuals covered by the system: NCUA employees on whom a routine CSC security investigation has been conducted, the results of which contain adverse information.

Categories of records in the system: May consist of police records and/or information on moral character, integrity or loyalty to the United States.

Authority for maintenance of the system: Records maintained pursuant to Civil Service Commission requirements. Separate notice is published due to separate maintenance of these records which has been effected to provide extraordinary safeguards against unwarranted access and disclosures.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Records are reviewed by the NCUA Security Officer, and if determined to be of substantive nature, they are forwarded to the Administrator, NCUA, for whatever action, if any, is deemed necessary. Referral of relevant information in this system may be made, as a routine use, to any appropriate agency or official in the course of an employment or security clearance investigation, or to any appropriate agency, official, court, magistrate, administrative tribunal or opposing party in the course of investigation or prosecution of a violation or alleged or potential violation of any civil or criminal law, rule, regulation or order, or in the course of implementation of the law, rule, regulation or order. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Storage—paper hard copy. Retrievability—system is indexed by name. Safeguards—records maintained in a locked safe accessible only to the Security Officer and his designated assistants. Records are further secured in a locked safe accessible only to the Security Officer and his designated assistants. Retention and disposal—once disposition, if any, has been made, a record is maintained until the individual whom it concerns has left the employ of NCUA, whereupon it is either returned to the originating agency or destroyed.

System manager(s) and address: Security Officer
National Credit Union Administration
2025 M Street, NW.
Washington, DC 20456

Notification procedure: Same as above.

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: Bureau of Personnel Investigations
Civil Service Commission
Federal Bureau of Investigations

Systems exempted from certain provisions of the act: In addition to any exemption to which this system is subjected by Notices published by or regulations promulgated by the Civil Service Commission, the system is subjected to a specific exemption pursuant to 5 U.S.C. 552a(k)(5) to the extent that disclosures would reveal a source who furnished information under an express promise of confidentiality, or, prior to September 27, 1975, under an express or implied promise of confidentiality.

NCUA-3

System name: Intergovernmental Personnel Act Records, NCUA.

System location: Division of Training
National Credit Union Administration
1111 18th Street, NW.
Room 400
Washington, DC 20456

Categories of individuals covered by the system: Participants in Intergovernmental Personnel Act Conferences and Mobility Assignments.

Categories of records in the system: Required Civil Service Commission Report.

Authority for maintenance of the system: 5 U.S.C. 4101, et seq.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To carry out joint Federal-State programs, and make reporting internally and to the Civil Service Commission. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Storage—maintained on paper hard copy. Retrievability—indexed by name. Safeguards—records are stored in file cabinets in secured offices of the Division of Training. Retention and disposal—records are purged annually for those employees no longer participating in the program.

System manager(s) and address: Director, Division of Training
National Credit Union Administration
1111 18th Street, NW.
Room 400
Washington, DC

Notification procedure: Same as above.

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: Individual on whom the record is maintained, supervisors of the individual and Civil Service Commission.

NCUA-4

System name: Investigative Reports Involving Possible Felonies and/or Violations of Federal Credit Union Act.

System location: National Credit Union Administration
2025 M Street, NW.
Washington, DC 20456

Categories of individuals covered by the system: Credit union employees who have misused or are suspected of having misused their trust in the credit union, with subsequent investigation and/or prosecution. Also, records may be maintained concerning credit union members involved or suspected of involvement in felonies or infractions under the Federal Credit Union Act, and records are maintained on robberies, burglaries and other crimes against credit unions. Information in this system only rarely includes names or other identities for suspected perpetrators.

Categories of records in the system: Investigative reports relating to possible felonies and violations of the Federal Credit Union Act (embezzlements, improper allocation of credit union funds, etc.).

Authority for maintenance of the system: 12 U.S.C. 1766, 1789.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To determine disposition to be made, if any, of information contained in investigative reports. Referral of information in this system may be made, as a routine use, to any appropriate agency or official in the course of an employment or security clearance investigation, to any appropriate agency or official in the course of collection of an outstanding claim, to any appropriate agency, official, court, magistrate, or administrative tribunal or opposing party in the course of investigation or prosecution of a violation or alleged or potential

V 41 1999 OCT 13 76 UM

violation of any civil or criminal law or rule, regulation or order, or in the course of implementation of the law, rule, regulation or order. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Storage—records are maintained on paper hard copy. Retrievability—system is indexed by credit union name. Safeguards—records are maintained in a separate locked room accessible only to the Security Officer and his designated assistants. The records are further secured in a locked safe accessible only to the Security Officer and his designated assistants. Retention and disposal—after records have served the operational needs of NCUA and after disposition of the subject matter of the records, they are returned to the originating agency or destroyed.

System manager(s) and address: Security Officer
National Credit Union Administration
2025 M Street, NW.
Room 3202
Washington, DC 20456

Notification procedure: Same as above, subject to exemption discussed below.

Record access procedures: Same as above, subject to exemption discussed below.

Contesting record procedures: Same as above, subject to exemption discussed below.

Record source categories: Federal Bureau of Investigation, investigative branches of the three armed services of the Department of Defense.

Systems exempted from certain provisions of the act: This system is subjected to a specific exemption pursuant to 5 U.S.C. 552a(k)(2), as the system of records is investigatory material compiled for law enforcement purposes.

NCUA-5

System name: Acquired Assets and Share Payouts Records System, NCUA.

System location: Office of Fiscal Affairs
National Credit Union Administration
2025 M Street, NW.
Washington, DC 20456

Categories of individuals covered by the system: Members of liquidating federally-insured credit unions

Categories of records in the system: Share and account balances, personal data regarding income and debts, payment history.

Authority for maintenance of the system: 12 U.S.C. 1787.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Data used for payment of insurance claims to shareholders in liquidating federally-insured credit unions, for use in the collection of outstanding loans, which may include, inter alia, referral of information to the General Accounting Officer or the Department of Justice, and generally for all purposes necessary to wind up the affairs of the closed credit union and carry out all appropriate liquidation related functions of NCUA, including referral of necessary information to facilitate a purchase of its assets by NCUA or sale to a third party, before or after such purchase, referral of noncredit information to outside address locaters, and referral of information to a surety company in pursuit of a fidelity bond claim. Referral of information in this system may also be made, as a routine use, to any appropriate agency, official, court, magistrate, administrative tribunal or opposing party in the course of investigation or prosecution of a violation or alleged or potential violation of any civil or criminal law or rule, regulation or order or in the course of implementation of the law, rule, regulation or order. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Storage—information is initially compiled on data conversion sheets prepared by NCUA examiners acting as on-site liquidators. That data is stored on computer tape, from which loan registers may be prepared and furnished to NCUA regional offices or prospective purchasers of the assets of closed credit unions. In addition to data stored on computer tape, data conversion sheets, loan registers, essential share and loan documents and members' filed claim forms are maintained on paper hard copy. Copies of share and loan documents, incoming payments and loan portfolios may also be maintained on microfilm copy. Retrievability—indexed by name of member and closed insured credit union. Safeguards—records are maintained in secured offices of the National Credit Union Administration's Division of Financial Management. Retention and disposal—information is disposed of after ten years retention.

System manager(s) and address: Assistant Administrator for Fiscal Affairs
National Credit Union Administration
2025 M Street, NW.
Washington, DC 20456

Notification procedure: Same as above. Written inquiries should include name of inquirer, name of closed insured credit union of which inquirer was a member, and share and loan account numbers, if known, in addition to any requirements set by 12 CFR Part 720, Subpart B.

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: Individual on whom the record is maintained, outside address locaters and share and loan account files of the liquidating credit union of which the individual was a member.

NCUA-6

System name: Member Account Records of Federally Insured Credit Unions
Closed for Involuntary Liquidation, NCUA.

System location: Records within this system of records are located at one of the National Credit Union Administration Regional Offices as indicated below for a period of time necessary to answer inquiries of credit union members and transfer share and loan records and information to NCUA's Division of Financial Management, Washington, DC, or an outside purchaser. After such time, the remaining records are transferred for storage to one of twelve General Services Administration records storage centers.

I. NCUA Region I Regional Office State Street South Building, Room 3E 1776 Heritage Drive Boston, Massachusetts 02171 Phone: (617) 223-6807

Records of a federally-insured credit union which has been closed for liquidation, and for which the Administrator, NCUA, serves as liquidating agent, are located at the above address prior to transfer to a GSA storage center, NCUA's Loan Management System, or an outside purchaser, if the main office of such credit union was located within one of the following states or territories: Connecticut, Maine, Massachusetts, New Hampshire, New York, Puerto Rico, Rhode Island, Virgin Islands, Vermont.

II. NCUA Region II Regional Office
Federal Building
228 Walnut St., Box 926
Harrisburg, Pennsylvania 17108
Phone: (717) 782-4595

Records of a liquidating, federally-insured credit union for which the Administrator, NCUA, serves as liquidating agent are located at the above address prior to transfer to a GSA storage center, NCUA's Loan Management System, or an outside purchaser, if the main office of the credit union was located within one of the following states: District of Columbia, Delaware, Maryland, New Jersey, Pennsylvania.

III. NCUA Region III Regional Office
1365 Peachtree Street
Suite 500
Atlanta, Georgia 30309
Phone: (404) 526-3127

Records of a liquidating, federally-insured credit union for which the Administrator, NCUA, serves as a liquidating agent are located at the above address prior to transfer to a GSA storage center, NCUA's Loan Management System, or an outside purchaser, if the main office of the credit union was located within one of the following states or territories: Alabama, Panama Canal Zone, Florida, Georgia, Kentucky, Mississippi, North Carolina, Tennessee, Virginia, South Carolina, West Virginia.

IV. NCUA Region IV Regional Office
New Federal Building
234 N. Summit St., Room 704
Toledo, Ohio 43604
Phone: (419) 259-7511

Records of a liquidating, federally-insured credit union for which the Administratorc NCUA, serves as liquidating agent are located at the above address prior to transfer to a GSA storage center, NCUA's Loan Management System, or an outside purchaser, if the main office of such credit union was located within one of the following states: Illinois, Indiana, Iowa, Michigan, Minnesota, North Dakota, Ohio, South Dakota, Wisconsin.

V. NCUA Region V Regional Office
515 Congress Avenue
Suite 1400
Austin, Texas 78701
Phone: (512) 397-5131

Records of a liquidating, federally-insured credit union for which the Administrator, NCUA, serves as liquidating agent are located at the above address prior to transfer to a GSA storage center, NCUA's Loan Management System, or an outside purchaser, if the main office of the credit union was located in one the following states: Arkansas, Colorado, Kansas, Louisiana, Missouri, Nebraska, New Mexico, Oklahoma, Texas, Utah, Wyoming.

VI. NCUA Region VI Regional Office
Two Embarcadero Center
Suite 1830
San Francisco, California 94111
Phone: (415) 556-6277

Records of a liquidating, federally-insured credit union for which the Administrator, NCUA, serves as liquidating agent are located at the above address prior to transfer to a GSA storage center, NCUA's Loan Management System, or an outside purchaser, if the main office of the credit union was located within one of the following states or territories: Alaska, California, Guam, Hawaii, Idaho, Montana, Nevada, Oregon, Washington, Arizona.

Categories of individuals covered by the system: Records in this system of records are maintained only on those individuals who were members of a federally-insured credit union closed for liquidation and for which the Administrator, NCUA, served as liquidating agent pursuant to 12 U.S.C. 1787. Records in this system are subject to the provisions of the Privacy Act only upon completion of the liquidation of a closed federally-insured credit union and cancellation of the charter thereof. Prior to such time, records of a closed insured credit union which are held by the Administrator, NCUA, only in his capacity as liquidating agent for the closed credit union are not 'agency records' within the meaning of the Privacy Act, and thus the provisions of the Act have no applicability. Prior to charter cancellation, however, records or information may be transmitted from this system into another NCUA system of records, such as NCUA System 5—Acquired Assets and Share Payouts Records System, and in such a case, the records as contained in the second system will be considered agency records to the extent that they are maintained for purpose other than attributable to functions of the liquidating agent (e.g., for share insurance payout purposes, collection of purchased assets, etc.).

Categories of records in the system: Records on individuals within this system of records contain information concerning an individual's membership in and share and loan transactions with the credit union which has been closed for liquidation. Such information is maintained in the following forms: membership card, individual share and loan ledgers, and promissory notes and extension agreements, if any. As further explained above, in the 'Categories of individuals. . .' portion of this descriptive system notice, records of a closed insured credit union are generally subject to the provisions of the Privacy Act only upon completion of the liquidation of the credit union and cancellation of the charter thereof.

Authority for maintenance of the system: Sections 120(b) and 207 of the Federal Credit Union Act (12 U.S.C. 1766(b), 1787).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Information and records in this system of records are used to close out the affairs of liquidating federally-insured credit unions, including (i) referral of information to credit union members, the NCUA Loan Management System, and any purchasers, or prospective purchasers, of the closed credit union's assets, in the interest of payment of insured share accounts and sale of assets of the credit union, or collection on loans purchased by the National Credit Union Share Insurance Fund, (ii) referral of information to the credit union's surety in pursuit of fidelity bond claims, (iii) referral of relevant information to any appropriate agency or official in the course of collection of a claim of the United States, and (iv) referral of relevant information to any appropriate agency, official, court, magistrate, administrative tribunal or opposing party in the course of investigation or prosecution of a violation or alleged or potential violation of any civil or criminal law or rule, regulation or order, or in the course of enforcement of implementation of the law, rule, regulation or order. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual. While it is the Administrator of the National Credit Union Administration's full intent to comply with the spirit of the Privacy Act with regard to records maintained within this described system, it should again be noted, as discussed above in the 'Categories of Individuals' portion of this notice, that the provisions of the Privacy Act of 1974, including a limitation of routine uses to those described herein, do not technically apply to the records until they become 'agency' records, i.e., until such time as they are transferred to another system within NCUA or at such time as they escheat to NCUA upon cancellation of the charter of a closed credit union.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Storage—records on individual credit union members in this system of records are maintained on member account documents as compiled by individual credit unions prior to entering liquidation. These documents may include, but are not necessarily limited to, membership cards, individual share and loan ledgers, notes, security documents and extension agreements. Retrievability—member records are generally ordered or indexed by member name or account number. Safeguards—records within this system of records are maintained under the control of a designated agent for the liquidating agent who makes only such disclosures from the records as are necessary or requisite to enable the Administrator, NCUA, to carry out his responsibilities under the Federal Credit Union Act, 12 U.S.C. 1751, . Retention and disposal—the records are maintained in a National Credit Union Administration Regional Office as indicated under the Location section of this notice, for a period necessary to answer inquiries of credit union members and transfer appropriate share and loan information to the NCUA Loan Management System, Washington, DC. After such time the records are transferred for permanent storage to one of twelve General Services Administration records storage centers.

System manager(s) and address: The system managers for this system of records are the six National Credit Union Administration Regional Directors located at the business addresses set forth in the Location section of this notice.

Notification procedure: An individual may determine whether the records of a closed credit union within this system include records pertaining to him (her) by addressing an inquiry to the appropriate Regional Director at the address set forth in the Location section of this notice, i.e., an individual inquiry should be addressed to the Regional Director whose Regional Office has jurisdiction over federally-insured credit unions operating in the state of location of the main office of the closed credit union which the inquirer was a member of. A jurisdictional breakdown of states is provided in the Location section of this notice. Inquiries should contain the name of the inquirer, the name of the credit union closed for liquidation pursuant to 12 U.S.C. 1787 which the inquirer was a member of, and the credit union account number of the inquirer, if known, in addition to any requirements set by 12 CFR Part 720, Subpart B.

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: The sole sources of the information in this system of records are the member-related files and accounting records of federally-insured credit unions which have been closed for liquidation and for which the Administrator, NCUA, or his designee, serves as liquidating agent.

NCUA-7

System name: Minority Group Designator System (MGD), NCUA.

System location: Office of Fiscal Affairs
National Credit Union Administration
2025 M Street, NW.
Washington, DC 20456

Categories of individuals covered by the system: Employees of NCUA.

Categories of records in the system: Statistical Employment Information on all NCUA employees by race, national origin and gender based on visual identification.

V 41 1999 OCT 13 76 UM

Authority for maintenance of the system: 5 U.S.C. 4101, et seq., 44 U.S.C. 3301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Minority identification is used for composite statistical purposes only. Reports are produced for use of NCUA (Affirmative Action Plan, Internal Evaluations) or Civil Service Commission, Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Storage—records are in the form of computer printouts (Mag tapes). Retrievability—information from computer runs can be obtained in various forms, e.g., in alphabetical order by name, or by employee number or type. Safeguards—data processing facility is located in the Information Systems Division of the Office of Fiscal Affairs. The data for the MGD system is coded, and access to the code is limited to a small number of people: regional office managers, EEO Directors, and the Division of Personnel (one DOP staff member). Retention and disposal—minority identification information is immediately erased from the computer once the individual leaves the employ of NCUA.

System manager(s) and address: Director, Equal Employment Opportunity

National Credit Union Administration
2025 M Street, NW
Washington, DC 20456

Notification procedure: Same as above.

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: Visual identification is made by Division of Personnel official in the central office and by office managers in the regions.

NCUA-8

System name: New Examiner Training Files, NCUA.

System location: National Credit Union Administration
Division of Training
1111 18th Street, NW.
Room 400
Washington, DC 20456

Categories of individuals covered by the system: NCUA examiners—entry level to one year on staff.

Categories of records in the system: Biweekly training reports, training progress reports, on-job trainers' evaluations of classroom training, trainees' evaluations of training program.

Authority for maintenance of the system: 5 U.S.C. 4101, .

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To determine retention or termination after 23 weeks on job. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Storage—maintained on paper hard copy. Retrievability—by employee name. Safeguards—maintained in metal file cabinets in secured offices of Division of Training. Retention and disposal—records are purged annually for those employees no longer participating in the program.

System manager(s) and address: Director, Division of Training
National Credit Union Administration
1111 18th Street, NW.
Room 400
Washington, DC 20456

Notification procedure: Same as above.

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: Individual on whom the record is maintained, on-job trainers, supervisors, Civil Service Commission.

NCUA-9

System name: Payroll Records System, NCUA.

System location: Office of Fiscal Affairs
National Credit Union Administration
2025 M Street, NW.
Washington, DC 20456
General Services Administration
Region VI
Kansas City, Missouri

Categories of individuals covered by the system: Employees of NCUA.

Categories of records in the system: Salary and related payroll data, including time and attendance information.

Authority for maintenance of the system: 5 U.S.C. 301, 44 U.S.C. 3301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To make all necessary and appropriate financial reporting analysis and planning involving disclosures both intraagency and tto the General Services Administration, and generally to insure proper conpensation to all NCUA employees. Also, to document time worked and provide a record of attendance to support payment of salaries, use of annual and sick leave and nonpayed leave. Record of attendance is also maintained for information of superviser in supervising the employee. Users of the time and attendance information include the office's timekeeper, the supervisor, the payroll officer and the GSA Payroll Processing Branch in Kansas City, Missouri. Further, information in this system is used to make reportings to state and local taxing authorities. Finally, disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Storage—computer tape, paper hard copy, microfilm. Retrievability—by name or social security number. Safeguards—maintained in secured offices, access by written authorization only. Retention and disposal—in accordance with GSA policy.

System manager(s) and address: Primary ;

Payroll Officer
National Credit Union Administration
2025 M Street, NW.
Washington, DC 20456
Secondary ;
Timekeepers
National Credit Union Administration
Central Office and
Regional Offices

NCUA-17

System name: Security Clearance of Records Concerning NCUA Personnel

Who Occupy Critical Sensitive Positions.

System location: Office of Management and Planning

National Credit Union Administration
2025 M Street, NW.
Washington, DC 20456

Categories of individuals covered by the system: NCUA personnel who occupy critical sensitive positions in the Agency, including the Security Officer and his designated assistants.

Categories of records in the system: Background investigations on individuals to determine appropriateness for security clearance. Information consists chiefly of records of interviews conducted by Civil Service Commission and Federal Bureau of Investigation officials with parties acquainted with the individual under investigation. Questions are geared to character, integrity and loyalty to the United States.

Authority for maintenance of the system: 5 U.S.C. 301, 44 U.S.C. 3301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To facilitate a determination as to appropriateness for security clearance. Referral of relevant information in this system may be made, as a routine use, to any appropriate agency or official in the course of an employment of security clearance investigation or to any appropriate agency, official, court, magistrate, administrative tribunal or opposing party in the course of investigation or prosecution of a violation or alleged or potential violation of any civil or criminal law or rule, regulation or order, or in the course of implementation of the law, rule, regulation or order. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Storage—records are in the form of paper hard copy. Retrievability—system is indexed by name. Safeguards—records are maintained in a separate, locked room accessible only to the Security Officer and his designated assistants. The records are further secured in a locked safe accessible only to the Security Officer and his designated assistants. Retention and disposal—records are maintained until the individual leaves the employ of NCUA, whereupon they are returned to the originating agency.

System manager(s) and address: Security Officer

National Credit Union Administration
2025 M Street, NW.
Washington, DC 20456

Notification procedure: Same as above.

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: Federal Bureau of Investigation, Bureau of Personnel Investigation (Civil Service Commission), Central Intelligence Agency.

Systems exempted from certain provisions of the act: This system is subjected to a specific exemption pursuant to 5 U.S.C. 552a(k)(5) to the extent that disclosure would reveal a source who furnished information under an express promise of confidentiality, or, prior to September 27, 1975, under an express or implied promise of confidentiality.

NCUA-18

System name: Trusteed Account Records System, NCUA.

System location: Division of Financial Management

Office of Fiscal Affairs
National Credit Union Administration
2025 M Street, NW.
Washington, DC 20456

Categories of individuals covered by the system: Members of liquidating federally-insured credit unions.

V 41 1999 OCT 13 76 UM

Categories of records in the system: Share balances and last known addresses of individuals by whom or on whose behalf insured share account payout claims have been filed.

Authority for maintenance of the system: 12 U.S.C. 1787.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Information is used to ensure proper payment of all trusteed account funds. Signature cards and account records are also maintained on microfiche copy. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Storage—records are maintained on computer printout forms. Information in the system is also stored on computer tape by a private contractor pursuant to an agreement which provides that the information will remain confidential. Retrievability—by individual name, credit union name or a combination thereof. Safeguards—records are sotred in secured offices. Retention and disposal—records are maintained until processing of claims is completed.

System manager(s) and address: Director, Division of Financial Management
National Credit Union Administration
2025 M Street, NW.
Washington, DC 20456

Notification procedure: Same as above.

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: Files of federally-insured credit unions which are closed for liquidation.

NCUA-19

System name: Verified Employee Mailing List, NCUA.

System location: National Credit Union Administration
2025 M Street, NW.
Washington, DC 20456
Contractor's Address:
Mail America
Bumpy Oak Road
Bryan's Road, Maryland

Categories of individuals covered by the system: NCUA Employees.

Categories of records in the system: Name, address, telephone number, birthday, ethnic and sex codes, GS grade, employee type, employee identification number. Contractor is provided a tape containing all employees' names, addresses, employee numbers, regions and GS grades.

Authority for maintenance of the system: 5 U.S.C. 301, 44 U.S.C. 3301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To produce mailing labels and make reportings to the EEO Director and other NCUA employees with an official need for a listing of NCUA employees, such as the ranking panel, Assistant Administrators, etc. Also, to generate an NCUA telephone directory for distribution to all NCUA employees. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Storage—computer disc 3330. Retrievability—by employee identification number. Safeguards—SCL decks available only to three persons in Division of Information Systems, and terminal is maintained in a room which is secured by a padlock after hours. Retention and disposal—information is maintained on active, retired and deceased employees for an indefinite period.

System manager(s) and address: Director, Division of Information Systems
National Credit Union Administration
2025 M Street, NW.
Washington, DC 20456

Notification procedure: Same as above.

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: NCUA form 1042 completed for each new employee by personnel staff or Regional Office Manager. Form 1051 completed by same to report changes.

NCUA-20

System name: Travel System, NCUA.

System location: Division of Financial Management
Office of Fiscal Affairs
National Credit Union Administration
2025 M Street, NW.
Washington, DC 20456

WEDNESDAY, OCTOBER 13, 1976

PART VI:

DEPARTMENT OF AGRICULTURE

Office of the Secretary

PRIVACY ACT OF 1974

Systems of Records

V 41 1 1976 OCT 13 76 UMI

DEPARTMENT OF AGRICULTURE
OFFICE OF THE SECRETARY
PRIVACY ACT OF 1974
Notice of Systems of Records

Notice is hereby given of a new records system maintained by the Marketing Division of the Office of the General Counsel within the Department of Agriculture (USDA), and required to be published in the Federal Register and in annual compilation form pursuant to the provisions of the Privacy Act of 1974 (P.L. 93-579).

Although this Act requires only that the portion of each system which describes the "routine uses" of that system be published for public comment, USDA invites such comment on all portions of each notice. This notice will be adopted as set forth below, without further publication, unless modified by a subsequent notice as a result of comments received from the public.

Interested persons may submit written comments on this proposed notice to: Director, Research and Operations Division, Office of the General Counsel, U.S. Department of Agriculture, Washington, D.C. 20250, on or before the thirtieth day following publication of this notice. All comments submitted will be available for public inspection during regular business hours in Room 2321 of the South Building, USDA, 12th Street and Independence Avenue, SW., Washington, D.C. 20250.

Dated: October 1, 1976.

Earl L. Butz,
Secretary.

USDA/OGC-76

System name: Administrative proceedings brought pursuant to the Beef Research and Information Act and court cases in which the Government is plaintiff and court cases in which the Government is defendant brought pursuant to the Beef Research and Information Act, USDA/OGC.

System location:

Office of the General Counsel
Marketing Division
USDA
Washington, D.C.

Categories of individuals covered by the system: Individuals who are regulated by the subject Act and against whom the Department recommends that an enforcement action be brought by the Government or individuals regulated by the subject Act who file a petition with the Secretary pursuant to the authority of the subject Act or individuals regulated or not regulated by the subject Act who bring suit against the Government or a Governmental official pursuant to, or as a consequence of the Department's administration of, the subject Act.

Categories of records in the system: The system consists of investigatory material which may include intradepartmental recommendations and interdepartmental recommendations pertaining to an alleged violation of the subject Act.

Authority for maintenance of the system: 94 P.L. 294; 7 U.S.C. 2901 et seq.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Referral to the appropriate agency, whether Federal, State, local or foreign charged with the responsibility of investigating or prosecuting a violation of law, or of enforcing or implementing a statute, rule, regulation or order issued pursuant thereto, of any record within this system when information available indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by rule, regulation or order issued pursuant thereto; (2) Presentation or disclosure to a court, magistrate or administrative tribunal, or to opposing counsel in a proceeding before any of the above, of any record within the system as evidence in a proceeding, or which is sought in the course of discovery including disclosure to opposing counsel in the course of settlement negotiations; (3) Presentation, as needed, in the course of presenting evidence, to the appropriate Government officials charged with the responsibility of defending the Government before a court, magistrate or administrative tribunal; (4) Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are maintained in file folders at the applicable address listed above.

Retrievability: Records are indexed by name of the individual.

Safeguards: Records are kept in a locked office or file cabinet.

Retention and disposal: Records are maintained until file is closed or no longer needed or as otherwise provided in agency directives and disposed of or sent to appropriate record centers in accordance with such directives.

System manager(s) and address:

Director
Marketing Division
OGC, USDA
Washington, D.C. 20250.

Notification procedure: Any individual may request information regarding this system of records, or information as to whether the system contains records pertaining to him from the Director, Marketing Division, OGC, USDA, Washington, D.C., telephone 202-447-5935. A request for information pertaining to an individual should contain: Name, address, and particulars involved (i.e., the name of action filed, Act filed under, etc.)

Record access procedures: Any individual may obtain information as to the procedures for gaining access to and contesting a record in the system which pertains to him, by submitting a written request to the appropriate official referred to in the preceding paragraph.

Contesting record procedures: Same as Records Access Procedures.

Record source categories: Information in this system comes primarily from witnesses, agency employees, and investigative personnel.

Systems exempted from certain provisions of the act: The portions of this system which involve records pertaining to administrative proceeding brought by the Department or court cases in which the Government is plaintiff have been exempted pursuant to 5 U.S.C. 552a(k)(2) from the requirements of 5 U.S.C. 552(c)(3), (d), (e)(1), (e)(4)(G), (H) and (I) and (f) because they consist of investigatory material compiled for law enforcement purposes. See 7 CFR 1.123. Individual access to these files could impair investigations and alert subjects of investigations that their activities are being scrutinized, and thus allow them time to take measures to prevent detection of illegal action or escape prosecution. Disclosure of investigative techniques and procedures and the existence and identity of confidential sources of information would hamper law enforcement activity.

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

DOT/CG—Periodic tests and inspection; tailshaft 38771; 9–13–76
FAA—Armstrong Whitworth Argosy Model AW 650 Series 101 airplanes. 43132; 9–30–76
Standard Instrument Approach Procedures; various states.... 37101; 9–2–76

List of Public Laws

NOTE: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR
	HEW/FDA			HEW/FDA

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

federal register
Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

INFORMATION AND ASSISTANCE

presidential documents

Title 3—The President

Proclamation 4469 • October 9, 1976

Quantitative Limitation on the Importation of Certain Meats Into the United States

By the President of the United States of America

A Proclamation

Section 2(a) of the Act of August 22, 1964 (78 Stat. 594, 19 U.S.C. 1202 Note) (hereinafter referred to as the Act), declares that it is the policy of the Congress that the aggregate quantity of the articles specified in item 106.10 (relating to fresh, chilled, or frozen cattle meat) and item 106.20 (relating to fresh, chilled, or frozen meat of goats and sheep (except lambs)) of the tariff schedules of the United States (hereinafter referred to as meat) which may be imported into the United States in any calendar year beginning after December 31, 1964, shall not exceed a quantity to be computed as prescribed in that section (hereinafter referred to as adjusted base quantity).

Section 2(b) of the Act provides that the Secretary of Agriculture for each calendar year after 1964 shall estimate and publish the adjusted base quantity for such calendar year and shall estimate and publish quarterly the aggregate quantity of meat which in the absence of the limitations under the Act would be imported during such calendar year (hereinafter referred to as potential aggregate imports).

The Secretary of Agriculture, pursuant to Section 2(a) and (b) of the Act estimated on December 31, 1975 (41 F.R. 1095) the adjusted base quantity of meat for the calendar year 1976 to be 1,120.9 million pounds and has estimated (in the 1976 fourth quarterly estimate) the potential aggregate imports of meat for 1976 to be 1,250 million pounds.

The potential aggregate imports of meat for the calendar year 1976, as estimated by the Secretary of Agriculture, exceeds 110 percent of the adjusted base quantity of meat for the calendar year 1976 estimated by the Secretary of Agriculture and no limitation under the Act is in effect with respect to the calendar year 1976.

Section 2(c)(1) of the Act requires the President in such circumstances to limit by proclamation the total quantity of meat which may be entered, or withdrawn from warehouse, for consumption, during the calendar year, to the adjusted base quantity estimated for such calendar year by the Secretary of Agriculture pursuant to Section 2(b)(1) of the Act, which is 1,120.9 million pounds.

V41200
OCT 14 76
UMI

Section 2(d) of the Act provides that the President may increase the total quantity proclaimed pursuant to Section 2(c) of the Act if he determines and proclaims that such action is required by overriding economic or national security interests of the United States, giving special weight to the importance to the nation of the economic well-being of the domestic livestock industry.

Section 2(d) of the Act further provides that such increase shall be in such amount as the President determines and proclaims to be necessary to carry out the purposes of Section 2(d).

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, by virtue of the authority vested in me as President and pursuant to Section 2 of the Act, do hereby proclaim as follows:

1. In conformity with and as required by Section 2(c) of the Act, the total quantity of the articles specified in item 106.10 (relating to fresh, chilled, or frozen cattle meat) and item 106.20 (relating to fresh, chilled, or frozen meat of goats and sheep (except lambs) of Part 2B, schedule 1 of the tariff schedules of the United States which may be entered, or withdrawn from warehouse, for consumption during the calendar year 1976 is limited to 1,120.9 million pounds.

2. Pursuant to Section 2(d) of the Act, it is hereby determined that an increase in the quota quantity proclaimed in Paragraph 1. is required by overriding economic interests of the United States, giving special weight to the importance to the nation of the economic well-being of the domestic livestock industry, and that an increase of 112.1 million pounds in such quota quantity is necessary to carry out the purposes of such subsection.

3. Pursuant to Section 2(d) of the Act, the quota quantity proclaimed in Paragraph 1. is increased by 112.1 million pounds and the total quantity of the articles specified in item 106.10 (relating to fresh, chilled, or frozen cattle meat) and item 106.20 (relating to fresh, chilled, or frozen meat of goats and sheep (except lambs) of Part 2B, schedule 1 of the tariff schedules of the United States which may be entered, or withdrawn from warehouse, for consumption during the calendar year 1976 is limited to 1,233 million pounds.

IN WITNESS WHEREOF, I have hereunto set my hand this ninth day of October, in the year of our Lord nineteen hundred seventy-six, and of the Independence of the United States of America the two hundred and first.

Gerald R. Ford

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 10—Energy

CHAPTER I—NUCLEAR REGULATORY COMMISSION

PART 9—PUBLIC RECORDS

Disclosure of Medical Records Under the Control of NRC

The Privacy Act of 1974 states that each agency must:

Establish procedures for the disclosure to an individual upon his request of his record or information pertaining to him, including special procedure, if deemed necessary, for the disclosure to an individual of medical records, including psychological records, pertaining to him; (5 U.S.C. 552a(f)(3)).

Subpart B of the Nuclear Regulatory Commission's regulations 10 CFR Part 9 implements the Privacy Act of 1974 and provides in § 9.62(a) procedures for the disclosure of medical records under the control of NRC.

Section 9.62 provides that requests received by NRC pertaining to medical records under the control of NRC, with the exception of radiation exposure records, will only be made available to a physician of the requesting individual's choosing.

It is the Commission's view that § 9.62 (a) is overly restrictive and should be deleted, thereby permitting disclosure of medical records under the Commission's control directly to the requester. The amendment of § 9.62 set forth below deletes § 9.62(a) and redesignates § 9.62(b) as § 9.62(a).

Because this amendment relates solely to procedural matters good cause exists for omitting notice of proposed rule making and public procedure thereon as unnecessary. Since the amendment relieves from restrictions under regulations currently in effect, it may become effective without the customary 30-day notice.

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and sections 552, 552a and 553 of Title 5 of the United States Code, the following amendment to Title 10, Chapter I, Code of Federal Regulations, Part 9 is published as a document subject to codification.

§ 9.62 [Amended]

Section 9.62 is amended by revoking paragraph (a) and redesignating paragraph (b) as paragraph (a).

Effective date: This amendment becomes effective on October 14, 1976.

(Sec. 161, Pub. L. 83-703, 68 Stat. 948 (42 U.S.C. 2201); Sec. 201, Pub. L. 93-438, 88 Stat. 1242 (42 U.S.C. 5841); 5 U.S.C. 552a).

Dated at Bethesda, Maryland this 14th day of September 1976.

For the Nuclear Regulatory Commission.

LEE V. GOSSICK,
Executive Director for Operations.

[FR Doc.76-29973 Filed 10-13-76;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 16202; Amdt. 39-2748]

PART 39—AIRWORTHINESS DIRECTIVES

Mitsubishi Model MU-2B Airplanes

There have been reports of the baggage in the rear baggage compartment coming in contact with the engine bleed air tubing on certain Mitsubishi Model MU-2B airplanes that resulted in rear baggage compartment fires. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require installation of heatproof insulation between the engine bleed air tubing and the rear baggage compartment on certan Mitsubishi Model MU-2B airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making the amendment effective in less than 30 days.

This amendment is made under the authority of section 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

MITSUBISHI HEAVY INDUSTRIES, LIMITED. Applies to Model MU-2B airplanes with serial numbers 008 and 038, 101 through 119, and 134, certificated in all categories.

Compliance is required as indicated.

To prevent possible fire, due to the baggage of the rear baggage compartment coming into contact with engine bleed air tubing, accomplish the following:

Within the next 50 hours time in service after the effective date of this AD, unless already accomplished, install heatproof insulation between the engine bleed air tubing and the rear baggage compartment in accordance with the "Instructions" section of Mitsubishi Service Bulletin No. 070C dated January 7, 1976 or an equivalent, approved by the Chief, Engineering and Manufacturing District Office, FAA, Pacific-Asia Region, Honolulu, Hawaii.

This amendment becomes effective October 29, 1976.

Issued in Washington, D.C. on October 5, 1976.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[FR Doc.76-29932 Filed 10-13-76;8:45 am]

[Docket No. 73-SO-72; Amdt. 39-2741]

PART 39—AIRWORTHINESS DIRECTIVES

Semco Models 30-AL, TC-4A, and Model T Series Balloons

Amendment 39-1746, 38 FR 31824 and 38 FR 31825, AD 73-24-2 requires the replacement or modification of fuel system coupling assemblies on Semco Model 30-AL, TC-4A and Model T balloons. After issuing Amendment 39-1746, the agency determined that certain Model T serial numbers were omitted from applicability. Therefore, the AD is being amended to include additional Model T serial numbers.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-1746, 38 FR 31824 and 38 FR 31825, AD 73-24-2, is amended by striking out the words "SEM 78 • • • inclusive" in the first paragraph and inserting the words "SEM 28, SEM 60, SEM 61, SEM 62, SEM 64 through SEM 73, SEM 76, SEM 77, and SEM 78 to SEM 118 inclusive" in place thereof.

Amendment 39-1746 became effective November 26, 1973.

This amendment becomes effective October 20, 1976.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in East Point, Georgia, on October 1, 1976.

GEORGE R. LACAILLE,
Deputy Director, Southern Region.

[Docket No. 76-NE-34; Amdt. 39-2743]

PART 39—AIRWORTHINESS DIRECTIVES

Sikorsky S-58 Helicopters Certificated In All Categories

Amendment 191 (25 FR 8026), AD 60-17-3 as amended by Amendment 495 (27 FR 10117), Amendment 747 (29 FR 7668), Amendment 199 (31 FR 3064), Amendment 39-1552 FR 23711), and Amendment 39-2212 (40 FR 22249) removed some S-58 main rotor blades from service and established inspections for others. It also provided for an extension of service life limits for certain rotor blades which had been inspected at the times and in the manner set forth in Sikorsky Service Bulletin No. 58B15-4H. After Amendment 39-2212 was issued, the manufacturer issued revised Service Bulletins, Nos. 58B15-41, J, and K, which incorporated improved maintenance procedures for checking the main rotor blades internal pressure, testing the pressure indicator, and included main rotor blades S1615-20201-11, S1615-20201-15, and S1615-20201-041 in the Service Bulletin Retirement Schedule.

The agency has determined that compliance with these revised procedures is necessary to ensure the effectiveness of the main rotor blade inspection system. AD 60-17-3 is, therefore, being revised to require compliance with the revised procedures in the latest Sikorsky Service Bulletin or later FAA approved revisions.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than thirty (30) days after the date of publication in the FEDERAL REGISTER.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), Section 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 191 (25 FR 8026), AD 60-17-3 as amended by Amendment 495 (27 FR 10117), Amendment 747 (29 FR 7668), Amendment 199 (31 FR 3064), Amendment 39-1552 (37 FR 23711), and Amendment 39-2212 (40 FR 22249) is further amended as follows:

In paragraph (e), delete "No. 58B15-4H" and insert in its place: "No. 58B15-4K, dated July 16, 1976 or later FAA approved revisions".

This amendment becomes effective October 26, 1976.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Burlington, Massachusetts, on October 1, 1976.

QUENTIN S. TAYLOR,
Director, New England Region.

[Airspace Docket No. 76-SO-73]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On August 5, 1976, a Notice of Proposed Rulemaking was published in the FEDERAL REGISTER (41 FR 32578), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Morganton, N.C. transition area.

Interested persons were afforded an opportunity to participate in the rulemaking through the submission of comments. There were no comments received.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., December 30, 1976, as hereinafter set forth.

In § 71.181 (41 FR 440), the Morganton, N.C., transition area is amended as follows:

MORGANTON, NORTH CAROLINA

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Morganton-Lenoir Airport (lat. 35°49'20" N., long. 81°36'50" W.); within 3 miles each side of the 205° bearing from Fiddlers RBN (lat. 35°42'36" N., long. 81°40'17" W.), extending from the 8.5-mile radius area to 8.5 miles southwest of the RBN; excluding the portion that coincides with the Hickory transition area.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c).)

Issued in East Point, Ga., on September 29, 1976.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.76-29961 Filed 10-13-76;8:45 am]

[Airspace Docket No. 76-SO-72]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On August 5, 1976, a notice of proposed rulemaking was published in the FEDERAL REGISTER (41 FR 32759), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Ahoskie, N.C., transition area.

Interested persons were afforded an opportunity to participate in the rulemaking through the submission of comments. There were no comments received.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., December 30, 1976, as hereinafter set forth.

In § 71.181 (41 FR 440), The Ahoskie, N.C., transition area is amended as follows:

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Tri-County Airport (lat. 36°17'56" N., long. 77°10'26" W.); within 3 miles each side of the 171° bearing from the Ahoskie RBN (lat. 36°17'57" N., long. 77°10'33" W.), extending from the 6.5-mile radius area to 8.5 miles south of the RBN.

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348(a)) sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on September 29, 1976.

PHILLIP M. SWATEK,
Director, Southern Region.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-2366]

PART 1914—COMMUNITIES ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

The purpose of this notice is to list those communities wherein the sale of flood insurance is authorized under the National Flood Insurance Program (42 U.S.C. 4001-4128).

Insurance policies can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the state (addresses are published at § 1912.5, 24 CFR Part 1912).

The Flood Disaster Protection Act of 1973 (Pub. L. 93-234) requires the purchase of flood insurance as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified for at least one year by the Secretary of Housing and Urban Development. The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction except as authorized by section 202(b) of the Act, as amended, unless the community has entered the program. Accordingly, for communities listed under this Part no such restriction exists, although insurance, if required, must be purchased.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

Section 1914.6 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community.

The date that appears in the fourth column of the table is provided in order to designate the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. These dates serve notice only for the purposes of granting relief, and not for the application of sanctions, within the meaning of 5 U.S.C. 551. The entry reads as follows:

§ 1914.6 List of eligible communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	Community No.
•	•	•	•	•	•
Georgia	Hall	Oakwood, city of	Oct. 4, 1976, emergency	Apr. 4, 1975	130334

Issued: September 30, 1976.

J. ROBERT HUNTER,
Federal Insurance Administrator.

[FR Doc.76-30000 Filed 10-13-76;8:45 am]

V41200 OCT 14 76 UMI

[Docket No. FI-2364]

PART 1914—COMMUNITIES ELIGIBLE FOR THE SALE OF INSURANCE

Suspension of Community Eligibility

The purpose of this notice is to list communities wherein the sale of flood insurance as authorized under the National Flood Insurance Program (42 U.S.C. 4001–4128) will be suspended because of noncompliance with the program regulations (24 CFR Part 1909 et seq.).

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified by the Secretary of Housing and Urban Development.

The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction in these areas unless the community has entered the program and insurance is purchased. Accordingly, for communities listed under this Part such restriction exists as of the effective date of suspension because insurance, which is required, cannot be purchased.

Section 1315 of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4022) prohibits flood insurance coverage unless an appropriate public body shall have adopted adequate flood plain management measures with effective enforcement measures. The communities suspended in this notice no longer meet that statutory requirements. Accordingly, the communities are suspended on the effective date in the list below:

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

Section 1914.6 of Part 1914 of Subchapter B of chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The date that appears in the fourth column of the table is provided in order to designate the effective date of the authorization of the sale of flood insurance in the area under the energy or the regular flood insurance program. The entry reads as follows:

§ 1914.6 List of eligible communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	Community No.
•	•	•	•	•	•
Vermont	Washington	Middlesex, town of	May 13, 1974, emergency Nov. 15, 1976, suspended.	June 28, 1974	500114

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968); effective Jan. 28, 1969 (33 FR 17804, Nov. 28, 1968), as amended, (42 U.S.C. 4001–4128); and Secretary's delegation of authority to Federal Insurance Administrator (34 FR 2680, Feb. 27, 1969); as amended (39 FR 2787, Jan. 24, 1974.)

Issued: October 1, 1976.

J. ROBERT HUNTER,
Federal Insurance Administrator.

[FR Doc.76-29999 Filed 10-13-76;8:45 am]

[Docket No. FI-2365]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevations

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448), (42 USC 4001–4128), and 24 CFR Part 1917 (§ 1917.10), hereby gives notice of his final determinations of flood hazards for the communities listed below, under § 1917.8 of Title 24 of the Code of Federal Regulations.

Accordingly, the Administrator has determined that no 100-year flood frequency elevation is known to exist in the following communities:

Community	County	State
City of Taylor	Columbia	Arkansas.
Village of McLean	McLean	Illinois.
City of Plano	Kendall	Do.
City of Polo	Ogle	Do.
Village of Sugar Grove	Kane	Do.
Town of Edwardsport	Knox	Indiana.
Town of Hanover	Jefferson	Do.
Town of Lakeville	St. Joseph	Do.
Town of Mortons Gap	Hopkins	Kentucky.
Town of Heath	Franklin	Massachusetts.
City of Winchester	St. Louis	Missouri.
Village of Castorland	Lewis	New York.
Town of Reading	Schuyler	Do.
Borough of Greencastle	Franklin	Pennsylvania.
Town of Andrews	Georgetown.	South Carolina.
Town of Kershaw	Kershaw	Do.
Town of Dyer	Gibson	Tennessee.
Village of Mount Calvary	Fond DuLac.	Wisconsin.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; (42 USC 4001–4128); and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: September 29, 1976.

J. ROBERT HUNTER,
Federal Insurance Administrator.

[FR Doc.76-29998 Filed 10-13-76;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 105—GENERAL SERVICES ADMINISTRATION

PART 105–61—PUBLIC USE OF RECORDS, DONATED HISTORICAL MATERIALS, AND FACILITIES IN THE NATIONAL ARCHIVES AND RECORDS SERVICE

Fees for Reproduction Services; Location of Records and Hours of Use

On September 7, 1976, there was published in the FEDERAL REGISTER (41 FR 37606) a notice of proposed rulemaking with proposed revisions to the schedule of fees for reproduction services. Interested persons were given 30 days in which to submit comments regarding the proposed regulations.

The comments received indicate a desire by members of the public to keep fees for reproductions of archival materials as low as possible. Prior to revising the fee schedule, the National Archives and Records Service (NARS) conducted a detailed study of all of the costs involved in producing reproductions. As a result of this study, all fees were set at the minimum level which would allow NARS to recover increases in the costs of materials, labor, and postage.

Editorial corrections are made as follows:

1. The motion picture prices listed in paragraph (e) of § 105–61.5206 are changed to read as follows:

	35 mm	16 mm	16 mm from 35 mm
Per foot:			
Master positive	0.20	0.17	0.19
Duplicate negative	.26	.20	.22
Projection print	.18	.16	.18
Reversal		.21	.21
Sound track	.18	.16	.18
Composite, add	.02	.02	.04

2. The effective date in § 105–61.5206 is changed to read October 12, 1976.

Accordingly, with these corrections, the proposed revision is adopted as set forth below.

(Sec. 205(c), 63 Stat. 390 (40 U.S.C. 486 (c)); 41 CFR 105–61.000–2.)

Effective date: This regulation is effective on October 12, 1976.

NOTE.—(The General Services Administration has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A–107.)

Dated: October 8, 1976.

JAMES B. RHOADS,
Archivist of the United States.

1. Section 105–61.5201 is amended by revising paragraphs (c) (4), (5), and (6) as follows:

§ 105–61.5201 Applicability.

• • • • • •

(c) • • •

(4) Census schedules (1790–1890). Reproduction of a census entry (i.e., a family unit or household)—$3.

(5) Military service files and pension files more than 75 years old. Reproduction of a military service file (or selected documents from the file if voluminous)—$3.

(6) Passenger lists more than 75 years old—$3.

• • • • • •

2. Section 105–61.5205 is amended by revising paragraphs (b) and (c) as follows:

§ 105–61.5205 Mail orders.

• • • • • •

(b) No additional fee is charged for postage and handling reproductions that are sent to domestic addresses at the lowest rate.

• • • • • •

(e) The following fees for special postal service apply when the service is requested by the customer:

Insured mail	$0.80
Certified mail	.60
Return receipt	.25
Registered mail	2.10

When packages are sent registered mail, both the shipping fee and the special postal service fee are charged since the U.S. Postal Service charges the airmail rate for registered mail.

3. Section 105–61.5206 is revised as follows:

§ 105–61.5206 Fee schedule.

(a) Authentication, $2.00.

(b) Still Photography (minimum order, $3.00).

(1) Copy Negatives (black and white).

4 in by 5 in	$3.10
8 in by 10 in	4.75

(2) Aerial Prints (black and white).

10 in by 10 in or smaller, contact	$3.60
10 in by 10 in enlargement	3.60
14 in by 14 in	4.70
18 in by 18 in	6.65
20 in by 24 in	6.65
27 in by 28 in	13.00
40 in by 41 in	18.50
Photo—indexes (usually 20 in by 24 in)	6.65

(3) Photographic Prints (includes prints from microfilm).

	Black and white	Color
8 in by 10 in or smaller	4.00	10.50
11 in by 14 in	4.50	17.25
16 in by 20 in	8.85	29.50
20 in by 24 in	12.00	43.50
22 in by 28 in	12.00	63.50
24 in by 30 in	16.40	69.50
30 in by 40 in	16.40	81.50
Sepia, add	3.70	-------

(4) Slides and transparencies.

Black and white:	
2 in by 2 in from existing negative	$1.40
Additional fee when negative must be made	2.60
Color:	
2 in by 2 in	1.30
4 in by 5 in	8.25
8 in by 10 in	13.30

(5) Photostat.

Paper (up to 17 in by 23 in)	$2.50
Film:	
8½ in by 12 in	2.30
17 in by 23 in	5.60

(6) Diazo (per foot), $0.80.

(7) Drymounting (per square foot), $1.10.

(8) Red line facsimile (for public laws), $4.60.

(9) 105 mm. Microfilm Prints.

18 in by 24 in paper copy	$1.45

(c) Microfilm.

	16 mm	35 mm
(1) Negative (per frame; minimum order, $10)	0.10	0.10
(2) Positive (per foot; minimum order $6)	.12	.14
(3) Duplicate negative (per foot; minimum order $6)	.14	.16

(d) Electrostatic copying.

(1) Paper to paper (up to 8½ in by 14 in):	
Customer tabs documents for copying	$0.15
NARS identifies documents for copying	.20
(2) Oversized electrostatic copies (per foot)	.75

(3) Microfilm to paper.

From negative (Copyflo, per foot; minimum order, $10.00)	$1.35
From positive (per frame):	
When work is done by customer (up to 8½ in by 14 in per frame)	.15
When work is done by NARS (minimum order)	2.00
Nonconsecutive frames or first of consecutive frame, any size	.75
Consecutive or duplicate frames:	
Up to 8½ in by 14 in	.25
11 in by 17 in	.35
18 in by 24 in	.45

(e) Motion pictures (minimum order $24.00).

	35 mm	16 mm	16 mm from 35 mm
Per foot:			
Master positive	0.20	0.17	0.19
Duplicate negative	.26	.20	.22
Projection print	.18	.16	.18
Reversal		.21	.21
Sound track	.18	.16	.18
Composite, add	.02	.02	.04

(f) Sound recordings.

Reel to reel or casette:	
7½ min	$6.20
15 min	7.25
22½ min	8.30
30 min	9.20
37½ min	10.50
45 min	11.30
52½ min	12.50
60 min	13.20

(g) Machine-readable records.

Tape-to-tape copying (per reel)	$60.00
Tape-to-printout copying (computer processing time per hour; minimum order $25.00)	150.00
Tape-to-printout extract (computer processing time per hour; minimum order $25.00)	150.00
Tape-to-tape extract ($60.00 per reel plus computer processing time. Minimum order $25.00; per hour)	150.00
Card-to-card (per card; minimum order $10.00)	.02

(h) Technical services.

	Regular	Overtime
(1) Projectionist (per hour)	$19.00	$26.00
(2) Photographer or other (per hour)	14.00	18.00
(3) Microfilm preparation	14.00	18.00

V41200 OCT 14 76 UMI

(1) Unlisted processes. Fees for reproduction processes not listed in this § 105-61.5206 are computed upon request.

4. Section 105-61.5207 is revised as follows:

§ 105-61.5207 Payment of fees.

Fees may be paid in cash or by check, or by money order made payable to the National Archives Trust Fund. Remittances from outside the United States must be made by international money order payable in U.S. dollars. Fees must be paid in advance except when the appropriate director approves a request for handling them on an account receivable basis. Accounts more than 90 days overdue are subject to late charges of 12 percent per year. Purchasers with special billing requirements must state them when placing orders and must complete special forms for NARS approval. When special billing forms are not submitted with the order or are completed by NARS, there is an added $5.00 service charge.

5. Section 105-61.5208 is revised as follows:

§ 105-61.5208 Effective date.

The fees in § 105-61.5206 are effective beginning October 12, 1976, and ending on September 30, 1977. Orders received after September 30, 1976, will be subject to the fees in effect at that time.

[FR Doc.76-30024 Filed 10-13-76;8:45 am]

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER G—OCCUPATIONAL SAFETY AND HEALTH RESEARCH AND RELATED ACTIVITIES

PART 85a—OCCUPATIONAL SAFETY AND HEALTH INVESTIGATIONS OF PLACES OF EMPLOYMENT

On June 24, 1975, a notice of proposed rulemaking was published in the FEDERAL REGISTER (40 FR 26530) to add a new Part 85a to Title 42, Code of Federal Regulations. As proposed, the part set forth the manner in which the National Institute for Occupational Safety and Health (NIOSH), Center for Disease Control, will conduct investigations of places of employment pursuant to section 20 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 669).

Interested persons were afforded the opportunity to participate in the rulemaking through the submission of comments. Seventy-eight letters were received from trade associations, state governments, environmental groups, and labor representatives. All comments have been considered and the major comments and principal changes to the proposal are summarized below.

SECTION 85a.2—DEFINITIONS

Definitions for "informed consent" and "legally authorized representative" were added to clarify what protection NIOSH must give to employees prior to the conduct of medical examinations, anthropometric measurements, and standardized and experimental functional tests as stipulated in § 85a.5(d). These definitions are the same as those promulgated by the Department of Health, Education, and Welfare in the regulation on protection of human subjects (45 CFR Part 46).

SECTION 85a.3—AUTHORITY FOR INVESTIGATIONS OF PLACES OF EMPLOYMENT

Twenty-two (22) comments questioned NIOSH's authority to conduct the investigations of places of employment and declared that these investigations duplicate and overlap inspections conducted by the Occupational Safety and Health Administration (OSHA). Twenty-two (22) comments questioned NIOSH's authority to review, duplicate and abstract "employment records, medical records, other records * * *" and a few questioned NIOSH's authority to conduct "medical examinations, anthropometric measurements and standardized and functional tests of employees." By virtue of section 20(b) of the Occupational Safety and Health Act of 1970, the Secretary of Health, Education, and Welfare is authorized to conduct investigations of places of employment and to question employers and employees, as provided in Section 8 of the Act, in order to carry out his section 20 functions and responsibilities. The review, duplication, or abstraction of employment records, as well as medical examinations and tests of consenting employees, are an integral part of the investigative authority and are necessary to carry out Section 20 functions and responsibilities. For those concerned with possible duplication and overlap between NIOSH and OSHA in this area, it is important to note that NIOSH investigations of places of employment are conducted primarily for the purposes of research, as required by section 20 of the Act. The Occupational Safety and Health Administration conducts inspections of places of employment for the purpose of determining employer compliance with occupational safety and health standards established pursuant to Section 6 of the Act and recordkeeping requirements established pursuant to Section 8 of the Act. Every attempt is made by NIOSH to avoid duplication of effort with OSHA that would place additional and undue burdens on employers. To this end, the regulations require the NIOSH authorized representatives to notify the appropriate OSHA Assistant Regional Director of pending NIOSH investigations (§ 85a.4 (a)(3) and (b)).

With respect to the use by NIOSH of employment records, medical records, etc., which was mentioned in several comments, § 85a.3(a) now provides that systems of records in the custody of NIOSH are subject to the requirements of the Privacy Act of 1974 (5 U.S.C. 552a) and the implementing Departmental regulation (45 CFR Part 5b).

SECTION 85a.4—PROCEDURES FOR INITIATING INVESTIGATIONS OF PLACES OF EMPLOYMENT

Twenty-four (24) comments indicated NIOSH should provide advance notice for all site visits and that lack of such notice detracts from the research aspects of the site visits, placing these visits in the realm of an OSHA compliance inspection. NIOSH's position on advance notice is that in nearly all cases advance notice will be given to the place of employment concerning a proposed site visit, and the details concerning the visit, such as time, date, etc., will be agreed upon. However, NIOSH must retain the right to withhold such advance notice from the place of employment in those instances where previously gathered facts indicate the notice would adversely affect the validity and effectiveness of the investigation. Also, NIOSH cannot identify a specific time period for advance notice because of emergency research situations that require immediate action (e.g., the recent episode with health hazards associated with vinyl chloride required a spontaneous research effort and subsequent short advance notice for site visits). For these reasons, § 85a.4(b) was not revised substantively.

Seven (7) comments indicated that NIOSH should not notify unions of investigations of places of employment and that such notification detracts from the research aspects of the investigations and nothing can be gained from such an interaction. NIOSH consistently has maintained that to conduct the research mandated by the Act properly, timely input must be obtained from all parties involved, including labor and industry. To fulfill this responsibility in regard to labor unions (i.e., the responsibility to question employees as provided in section 8 of the Act in order to carry out section 20 functions and responsibilities), it is necessary that (1) the employees be notified through their local union representative(s) concerning pending investigation by NIOSH; (2) such notification be provided to an identified labor spokesman to avoid confusion and rumor; and (3) NIOSH, rather than the employer, provide the notification so that the impartiality of the Federal Government is maintained. For these reasons, a substantive revision was not made to § 85a.4(a)(2).

One (1) comment questioned whether NIOSH would conduct an investigation of a place of employment where there already was an alleged OSHA violation. Under these circumstances, generally NIOSH would not conduct a site visit. If for some reason, such a visit was of prime importance to a research project and no other place of employment would suffice, the details and guidelines for the investigation would be agreed upon between OSHA and NIOSH. Also, in many instances, the area of the place of employment which NIOSH desires to visit may not be the subject of the alleged violation and, therefore, NIOSH could proceed with the investigation after the routine consultation with OSHA.

SECTION 85a.5—CONDUCT OF INVESTIGATIONS OF PLACES OF EMPLOYMENT

Twenty-one (21) comments questioned whether the employer had been given all his legal rights concerning

trade secrets in § 85a.5(b). NIOSH is of the opinion that the approach utilized in § 85a.5(b) for handling trade secret information is reasonable and appropriate as evidenced by the fact that the same provision has been utilized successfully by NIOSH in the health hazard evaluation program (42 CFR 85.7(b)). It is noted that while these regulations authorize the Director, NIOSH, to make final determinations as to whether information is, in fact, a trade secret, trade secret designations generally will not be questioned. The determination to remove a trade secret designation will be made by the Director, NIOSH, only in a clear case. Even in such rare cases, employers would have a reasonable period of time to take whatever action they deemed necessary to protect their interests. Therefore, this paragraph of the regulation has not been revised.

Seventeen (17) comments argued that the use of contractors and consultants as NIOSH authorized representatives could compromise the effectiveness of the investigations and that these contractors could especially be a problem where trade secret information was involved. Consultants are special employees and are held to the same standards of conduct as regular NIOSH employees while performing their official duties. Nevertheless, in those instances where contractors and consultants are used to conduct investigations, NIOSH recognizes the problem an employer might have with revealing trade secret information to these individuals. Therefore, § 85a.5(b) has been revised to provide that employers may, after advising the NIOSH contractor or consultant in writing, withhold information deemed to be a trade secret from such NIOSH authorized representatives or prohibit entry into areas containing trade secrets in the place of employment. In these instances, NIOSH regular employees will then obtain the information or enter the subject area of the place of employment.

Eleven (11) comments indicated § 85a.5(c) was not clear in regard to whether or not a representative of the employer would be allowed to accompany the NIOSH authorized representatives during a site visit. Section 85a.5(c)(3) has been revised to clarify that a representative of the employer will, in all instances, be permitted to accompany the NIOSH authorized representatives during a site visit of a place of employment. Section 85a.5(c) also has further been revised to permit accompaniment by a third party where good cause has been shown that it is reasonably necessary to the conduct of an effective site visit.

SECTION 85a.6—PROVISION OF SUITABLE SPACE FOR EMPLOYEE INTERVIEWS AND EXAMINATIONS

Seven (7) comments indicated that in all instances employers should not be required to provide suitable space for interviews, medical examinations, and other testing. The specific example given was the construction industry where such space would not normally be available. The provision of suitable space for employee medical examinations, interviews, and other testing is required by the regulation only if such space is reasonably available.

Twenty-six (26) comments indicated NIOSH should reimburse employers for lost time during medical examinations and other testing. There is no statutory requirement for NIOSH to pay for loss of work time incurred by employees during the conduct of medical examinations, etc. NIOSH considers such examinations and testing an extension of employee interviews authorized by section 8(a)(2) of the Act, which does not provide for reimbursement of the employer for the time required to interview employees. It should be noted when NIOSH conducts medical examinations and other testing of employees during investigations of places of employment, every attempt is made to conduct such examinations and other testing at times to minimize or avoid any loss of time to the employer and employee. Generally, one or two employees of a given job-type can be rotated off the job for the required testing time without interfering with production or causing lost time. Thus, § 85a.6 has not been revised except for wording clarification.

SECTION 85a.7—IMMINENT DANGERS

Eight (8) comments indicated NIOSH does not have the authority to "declare" an imminent danger and the use of this term in the regulation should be better defined and be more consistent with the Act and the mandates of OSHA. NIOSH does not have the authority to declare an "imminent danger" and there is not such a declaration in § 85a.7. Trained NIOSH representatives do, however, notify OSHA, appropriate state agencies, the employer and employees of the existence of occupational conditions that could be expected to cause death or serious physical harm if not immediately corrected. NIOSH will continue to advise appropriate persons of the existence of such conditions and § 85a.7 remains unchanged. "Imminent danger" is not defined in the regulation and, therefore, as indicated in § 85a.2, the term has the same meaning given it in the Act.

SECTION 85a.8—REPORTING OF RESULTS OF INVESTIGATIONS OF PLACES OF EMPLOYMENT

Thirteen (13) comments indicated employers should be given the results of an individual employee's medical examination and other tests. Section 85a.8(b) provides that NIOSH will release such records only with the written consent of the employee. In the absence of a written consent by the employee, NIOSH is prohibited by the Privacy Act of 1974 (5 U.S.C. 552a) and the implementing Departmental regulation (45 CFR Part 5b) from releasing the results of the employee's medical examination and tests to third parties.

Seven (7) comments questioned the need to make public the names of the places of employment upon which reports are written. Under the provisions of the Freedom of Information Act (5 U.S.C. 552) NIOSH must release to the public the names of places of employment where investigations have been conducted, as well as the specific reports that have been prepared. This release is made only upon request, however, and places of employment are not identified in the findings of a total investigation as stated in § 85a.8(c).

Three (3) comments asserted that NIOSH should not only release to the employer specific final reports but should also release, upon request, the data that went into developing the reports. Section 85a.8(a)(1) has been revised to provide that NIOSH will release to the employer, upon request, the data used to compile the specific reports mentioned in this subparagraph, except that data will not be released in a form that is individually identifiable, i.e., in a manner in which information concerning an employee could be connected with that employee.

It also was urged that employers should have the right to review "specific reports" mentioned in § 85a.8(a)(1) not only for trade secret information but also for inaccuracies. NIOSH agrees and § 85a.8(a)(1) has been revised accordingly.

Section 85a.8 also has been revised to provide:

1. That in certain types of NIOSH site visits, where a specific report is not required or is not useful, a closing conference in lieu of such a report will be held at the place of employment with those individuals participating in the site visit. This closing conference is for the purpose of discussing the findings of the site visit and appropriate recommendations.

2. For further explanation in § 85a.8(b)(1) of the personal rights of an employee concerning records of medical examinations and other tests.

GENERAL

A number of those submitting comments requested that NIOSH hold a public hearing concerning these regulations. There is no legal requirement that NIOSH grant a public hearing. Since two months were provided for the submission of written comments and the comments received have been carefully considered, it has been determined that a hearing on the issues raised would not be in the public interest.

Therefore, a new Part 85a, as set forth below, is added to Title 42, Code of Federal Regulations, effective November 15, 1976.

Dated: April 14, 1976.

THEODORE COOPER,
Assistant Secretary for Health.

Approved: October 7, 1976.

MARJORIE LYNCH,
Acting Secretary.

V41200 OCT 14 76 UMI

Sec.
85a.1 Applicability.
85a.2 Definitions.
85a.3 Authority for investigations of places of employment.
85a.4 Procedures for initiating investigations of places of employment.
85a.5 Conduct of investigations of places of employment.
85a.6 Provision of suitable space for employee interviews and examinations.
85a.7 Imminent dangers.
85a.8 Reporting of results of investigations of places of employment.

AUTHORITY: Sec. 8(g), 84 Stat. 1600; 29 U.S.C. 657(g).

§ 85a.1 Applicability.

(a) Except as otherwise provided in paragraph (b) of this section, the provisions of this part are applicable to investigations of places of employment which are conducted by NIOSH pursuant to sections 20 and 8 of the Occupational Safety and Health Act of 1970.

(b) The provisions of this part do not apply to those activities covered by Part 85 of this chapter.

§ 85a.2 Definitions.

Any term defined in the Occupational Safety and Health Act of 1970 and not defined below shall have the meaning given it in the Act. As used in this part:

(a) "Act" means the Occupational Safety and Health Act of 1970 (29 U.S.C. 651 et seq.).

(b) "Assistant Regional Director" means any one of the ten Occupational Safety and Health Administration Assistant Regional Directors for Occupational Safety and Health.

(c) "Informed consent" means the knowing consent of an individual or his legally authorized representative, so situated as to be able to exercise free power of choice without undue inducement or any element of force, fraud, deceit, duress, or other form of constraint or coercion. The basic elements of information necessary to such consent include:

(1) A fair explanation of the procedures to be followed, and their purposes, including identification of any procedures which are experimental;

(2) A description of any attendant discomforts and risks reasonably to be expected;

(3) A description of any benefits reasonably to be expected;

(4) A disclosure of any appropriate alternative procedures that might be advantageous for the subject;

(5) An offer to answer any inquiries concerning the procedures; and

(6) An instruction that the person is free to withdraw his consent and to discontinue participation in the investigation any time without prejudice to the subject.

(d) "Investigation" means research projects, experiments, demonstrations, studies and similar activities of NIOSH which are conducted pursuant to section 20 of the Act.

(e) "Legally authorized representative" means an individual or judicial or other body authorized under applicable law to consent on behalf of a prospective subject to such subject's participation in the particular activity or procedure.

(f) "NIOSH" means the National Institute for Occupational Safety and Health of the Center for Disease Control, Public Health Service, Department of Health, Education, and Welfare.

(g) "NIOSH authorized representative" means a person authorized by NIOSH to conduct investigations of places of employment, including any person that is fulfilling a contract agreement with NIOSH or is serving as an expert or consultant to NIOSH pursuant to the Act.

(h) "NIOSH Regional Office" means any one of the ten Department of Health, Education, and Welfare Regional Offices, the addresses of which are specified in § 5.31 of Title 45, Code of Federal Regulations.

(i) "Place of employment" means any factory, plant, establishment, construction site, or other area, workplace or environment where work is performed by any employee of an employer.

§ 85a.3 Authority for investigations of places of employment.

(a) NIOSH authorized representatives who have been issued official NIOSH credentials are authorized by the Director, NIOSH, for the purpose of section 20 of the Act and this part and pursuant to section 8 of the Act: To enter without delay any place of employment for the purpose of conducting investigations of all pertinent processes, conditions, structures, machines, apparatus, devices, equipment, and materials within the place of employment; and to conduct medical examinations, anthropometric measurements and functional tests of employees within the place of employment as may be directly related to the specific investigation being conducted. Such investigations will be conducted in a reasonable manner, during regular working hours or at other reasonable times and within reasonable limits. In connection with any investigations, such NIOSH authorized representatives may question privately any employer, owner, operator, agent, or employee from the place of employment; and review, abstract, or duplicate employment records, medical records, records required by the Act and regulations, and other related records. In those instances where systems of records subject to review, abstraction or duplication are of a confidential nature, such as medical records, and are abstracted or duplicated, NIOSH will maintain such systems in accordance with the Privacy Act of 1974 (5 U.S.C. 552a) and the implementing regulation of the Department of Health, Education, and Welfare (45 CFR Part 5b).

(b) Areas under investigation which contain information classified by any agency of the United States Government in the interest of national security will be investigated only by NIOSH authorized representatives who have obtained the appropriate security clearance and authorization.

§ 85a.4 Procedures for initiating investigations of places of employment.

(a) Except as otherwise provided in paragraph (b) of this section, NIOSH authorized representatives will contact an official representative of the place of employment prior to any site visits and will provide the details of why an investigation of the place of employment is being conducted. Prior to the initiation of a site visit of a place of employment, representatives of the following organizations will be advised of the site visit and the reason for its conduct:

(1) The appropriate State agency designated under section 18(b) of the Act, or if the State has been preempted as provided under the Act, the State agency which, in the judgment of NIOSH, would benefit the most from the investigation's findings;

(2) If there is a local union at the place of employment, the local president, business manager or other appropriate individual; and

(3) The appropriate Assistant Regional Director.

(b) Advance notice of site visits will not be given to the place of employment or local union at the place of employment when, in the judgment of the NIOSH authorized representatives, giving such notice would adversely affect the validity and effectiveness of an investigation. Those individuals and organizations specified in § 85a.4(a) (1) and (3) will be notified prior to the initiation of such a site visit. After the site visit has been initiated, and, as soon as possible thereafter, the NIOSH authorized representatives will contact those individuals specified in § 85a.4(a)(2) concerning the nature and details of the site visit.

(c) In those instances where site visits are not necessary to the conduct of an investigation, the NIOSH authorized representatives will contact an official representative of the place of employment either verbally or through a written communication and provide the details of why an investigation of the place of employment is being conducted. If appropriate, the NIOSH authorized representatives will contact those individuals stipulated in paragraphs (a)(1), (a)(2), and (a)(3) of this section about the nature and details of the investigation.

§ 85a.5 Conduct of investigations of places of employment.

(a)(1) Prior to beginning a site visit, NIOSH authorized representatives will present their credentials to the employer, owner, operator or agent in charge at the place of employment, explain the nature, purpose and scope of the investigation and the records specified in § 85a.3 which they wish to review, abstract or duplicate.

(2) In those instances where site visits are not necessary to the conduct of an investigation and the initial contact is made verbally, NIOSH authorized representatives will, at the request of the employer, owner, operator or agent in charge at the place of employment, provide a written explanation of the nature, purpose and scope of the investigation and the records specified in § 85a.3 which they wish to review, abstract or duplicate.

(b)(1) At the commencement of an investigation, the employer, owner, operator or agent in charge at the place of employment shall precisely identify that information which is trade secret and might be seen or obtained by the NIOSH authorized representatives during the investigation. If the NIOSH authorized representatives have no clear reason to question such identification, such information will not be disclosed by NIOSH in accordance with the provisions of section 15 of the Act. Generally, NIOSH will not question trade secret designations; however, if NIOSH at any time does question such identification, not less than 15 days' notice to the employer, owner, operator or agent will be given of the intention to remove the trade secret designation from such information. The employer, owner, operator or agent may within that period submit a request to the Director, NIOSH, to reconsider this intention and may provide additional information in support of the trade secret designation. The Director, NIOSH, will notify the employer, owner, operator or agent in writing of the decision which will become effective no sooner than 15 days after the date of such notice.

(2) In those instances where the NIOSH authorized representative is a person fulfilling a contract agreement with NIOSH or is serving as an expert or consultant to NIOSH pursuant to the Act, the employer, owner, operator or agent in charge at the place of employment may, after advising the NIOSH contractor or consultant in writing, elect to withhold information deemed to be a trade secret from such a NIOSH authorized representative or prohibit entry into the area of the place of employment where such entry will reveal trade secrets. In those instances, where the subject information is needed or access to the area of the place of employment is necessary, in the judgment of NIOSH, to fulfill the goals of the investigation, NIOSH regular employees will then obtain the information or enter the subject area of the place of employment.

(c)(1) NIOSH authorized representatives will be in charge of site visits conducted pursuant to this part.

(2) Where there is a request by the representative of the State agency and/or employees, who were notified pursuant to § 85a.4(a)(1) or § 85a.4(a)(2) to accompany the NIOSH authorized representatives during the site visit of the place of employment, the NIOSH authorized representatives will allow this request if they determine that this will aid the investigation; or where, in the judgment of the NIOSH authorized representatives, good cause has been shown why accompaniment by a third party who is not an employee of the employer is reasonably necessary to the conduct of an effective and thorough site visit, they may permit such third party to accompany them during the site visit: *Provided, however,* That access by such person(s) to areas described in § 85a.5(c)(4) shall be in accordance with the requirements of such provision and access to areas containing trade secrets shall be with the consent of the employer, owner, operator or agent in charge at the place of employment.

(3) NIOSH authorized representatives are authorized to deny the right of accompaniment under this paragraph to any person whose conduct in their judgment interferes with a fair and orderly site visit. In all instances, a representative of the employer shall be permitted to accompany the NIOSH authorized representatives during the site visit of the place of employment.

(4) With regard to information classified by an agency of the United States Government in the interest of national security, only persons authorized to have access to such information may accompany NIOSH authorized representatives in areas containing such information.

(d)(1) NIOSH authorized representatives are authorized: To collect environmental samples and samples of substances; to measure environmental conditions and employee exposures; to take or obtain photographs, motion pictures or video tapes related to the purpose of the investigation; to employ other reasonable investigative techniques, including medical examinations, anthropometric measurements and standardized and experimental functional tests of employees with the informed consent of such employees; to review, abstract and duplicate such personnel records as are pertinent to mortality, morbidity, injury, safety and other similar studies; and to question and interview privately any employer, owner, operator, agent or employee from the place of employment. The employer, owner, operator, or agent shall have the opportunity to review photographs, motion pictures and video tapes taken or obtained for the purpose of identifying those which contain or might reveal a trade secret.

(2) Prior to the conduct of medical examinations, anthropometric measurements or functional tests of any employees, the NIOSH authorized representatives will obtain approval of the procedures to be utilized from the NIOSH Human Subjects Review Board and no employee examination, measurement or test will be undertaken without the informed consent of such employee.

(e) NIOSH authorized representatives will comply with all safety and health rules and practices at the place of employment and all NIOSH and Occupational Safety and Health Administration regulations and policies during a site visit and will provide and use appropriate protective clothing and equipment. In situations requiring specialized or unique types of protective equipment, such equipment shall be furnished by the employer, owner, operator or agent in charge at the place of employment.

(f) The conduct of site visits will be such as to preclude unreasonable disruption of the operations of the place of employment.

§ 85a.6 Provision of suitable space for employee interviews and examinations.

An employer, owner, operator or agent in charge at the place of employment shall, on request of the NIOSH authorized representatives, provide suitable space at the place of employment, if such space is reasonably available, to NIOSH to conduct private interviews with, and medical examinations, anthropometric measurements and functional tests of employees. NIOSH authorized representatives will consult with the employer, owner, operator or agent as to the time and place of the private interviews, medical examination, anthropometric measurements and functional tests and will schedule same so as to avoid undue disruption of work at the place of employment. NIOSH will conduct the medical interviews, measurements, examinations and tests specified under this part at its own expense.

§ 85a.7 Imminent dangers.

Whenever, during the course of, or as a result of, an investigation under this part, the NIOSH authorized representatives believe there is a reasonable basis for an allegation of an imminent danger, NIOSH will immediately advise the employer, owner, operator or agent in charge at the place of employment and those employees who appear to be in immediate danger of such allegation and will inform the appropriate Assistant Regional Director and the appropriate State agency designated under section 18(b) of the Act, or if there is no State agency designated under section 18(b) of the Act, the appropriate State labor or health agency.

§ 85a.8 Reporting of results of investigations of places of employment.

(a)(1) Specific reports of investigations of each place of employment under this part, with identification of the place of employment, will be made available by NIOSH to the employer, owner, operator or agent in charge at the place of employment, with copies to the appropriate officials and Agencies notified pursuant to § 85a.4(a). Prior to release of such reports, a preliminary report will be sent by NIOSH to the employer, owner, operator or agent for review for trade secret information and technical inaccuracies that may inadvertently be presented in the report. If requested in writing, the data used to compile the reports will be made available by NIOSH to the employer, owner, operator or agent in charge at the place of employment, except that data will not be released in a form that is individually identifiable.

(2) All specific reports of investigations of each place of employment under this part will be available to the public from the NIOSH Regional Consultant for Occupational Safety and Health in the appropriate NIOSH Regional Office.

(3) In certain instances, specific reports of investigations of each place of employment will not be prepared. In such instances, a closing conference at

V41200 OCT 14 76 UMI

the place of employment will be conducted by the NIOSH authorized representatives and those individuals participating in the site visit to discuss the findings of the site visit and appropriate recommendations.

(b)(1) Any specific findings of individual employee medical examinations, anthropometric measurements and functional tests will be released by NIOSH authorized representatives to the company physician, private physician, or other person only pursuant to the written authorization of the employee; otherwise, the specific findings and other personal records concerning individuals will be maintained in accordance with 45 CFR Part 5b and section 3 of the Privacy Act of 1974 (5 U.S.C. 552a). Notice of all NIOSH systems of records as defined in 45 CFR 5b.1(n) as a result of the investigations of places of employment pursuant to this part will be published in the FEDERAL REGISTER under Notices of Systems of Records for the Department of Health, Education, and Welfare.

(2) In cases where an employee shows positive significant medical findings, the employee and the physic n(s) designated by the employee under § 85a.8(b)(1) will be immediately notified by NIOSH.

(3) A summary of the findings of the examinations for each employee will be sent by NIOSH to the individual.

(c) The findings of a total investigation generally will be disseminated as part of NIOSH criteria documents, NIOSH technical reports, NIOSH information packets, scientific journals, presentations at technical meetings, or in other similar manners. These findings of a total investigation will be presented in a manner which does not identify any specific place of employment; however, it should be noted that the specific reports of investigations of each place of employment under this part are subject to mandatory disclosure, upon request, under the provisions of the Freedom of Information Act (5 U.S.C. 552).

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5604; UT-6348]

UTAH

Reservoir Site Restoration No. 44; Powersite Restoration No. 661; Revocation of Powersite and Reservoir Site Withdrawals in Whole or in Part

By virtue of the authority vested in the President by section 1 of the Act of June 25, 1910, 43 U.S.C. 141, and section 24 of the Act of June 10, 1920, as amended, 16 U.S.C. 818, and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), and the determination of the Federal Power Commission in DA-187; DA-189-Utah, it is ordered as follows:

1. Departmental Orders of August 18, 1889, and August 22, 1889, and the Executive Order of February 1, 1921, withdrawing Reservoir Sites Nos. 2, 3, and 4, and Reservoir Site Reserve No. 13, are hereby revoked so far as they affect the following described lands:

WASATCH NATIONAL FOREST

SALT LAKE MERIDIAN

Reservoir Site No. 2, Silver Lake

T. 2 S., R. 3 E.,
Sec. 34, E½NE¼, N½NE¼SE¼;
Sec. 35, NW¼NE¼, NW¼, SE¼NW¼SW¼, W½NE¼SW¼.

Reservoir Site No. 3, Twin Lakes

T. 2 S., R. 3 E.,
Sec. 34, E½SW¼, NW¼SE¼, N½NW¼SW¼SE¼, SW¼NW¼SW¼SE¼.

Reservoir Site No. 4, Mary's Lake

T. 3 S., R. 3 E.,
Sec. 2, W½NW¼;
Sec. 3, E½NE¼.

Containing approximately 618 acres in Wasatch County.

Reservoir Site Reserve No. 13

T. 3 N., R. 5 E.,
Sec. 30, SW¼NE¼, SE¼NW¼.

Containing 80 acres in Summit County.

2. The Executive Orders of March 11, 1912, April 16, 1912, June 23, 1913, July 1, 1913, July 26, 1913, October 23, 1914, July 19, 1915, December 20, 1916, February 25, 1919, and April 22, 1919, creating Powersite Reserves Nos. 251, 256, 376, 377, 393, 459, 494, 569, 570, 711, and 685, respectively, are hereby revoked so far as they affect the following described lands:

UINTAH NATIONAL FOREST

SALT LAKE MERIDIAN

Powersite Reserve No. 251

T. 10 S., R. 1 E.,
Sec. 1, lots 3 and 4, S½NW¼, SW¼;
Sec. 12, SE¼SE¼;
Sec. 13, SW¼NE¼, SE¼NW¼, E½SW¼, N½SE¼, SW¼SE¼;
Sec. 24, NW¼NE¼, S½NE¼.
T. 10 S., R. 2 E.,
Sec. 18.

Powersite Reserve No. 256

T. 4 S., R. 2 E.,
Sec. 29, S½SW¼.

Powersite Reserve No. 376

T. 5 S., R. 2 E.,
Sec. 22, SE¼SE¼ (lot 6).

Containing approximately 1,455 acres in Utah County.

CACHE AND WASATCH NATIONAL FOREST

SALT LAKE MERIDIAN

Powersite Reserve No. 377

T. 5 N., R. 1 E.,
Sec. 28, S½NE¼, SE¼NW¼, SW¼SW¼, NE¼SE¼;
Sec. 30, S½NE¼, SE¼NW¼, SE¼SW¼, S½SE¼.

Containing 440 acres in Weber and Morgan Counties.

CACHE NATIONAL FOREST

Powersite Reserve No. 393

T. 10 N., R. 2 E.,
Sec. 1, S½SW¼;
Sec. 3, N½SW¼, S½ SE¼;
Sec. 4, SW¼, N½SE¼;
Sec. 8, N½NE¼;
Sec. 12, NW¼NW¼, NE¼SE¼.
T. 10 N., R. 3 E.,
Sec. 7, lots 1, 2, 3, 8, 11, S½NE¼, SW¼SE¼;
Sec. 8, E½SW¼, W½SE¼, SE¼SE¼;
Sec. 17, N½NE¼, NE¼NW¼.

Containing approximately 1,280 acres in Cache County.

WASATCH NATIONAL FOREST

Powersite Reserve No. 459

T. 1 S., R. 2 E.,
Sec. 28, SW¼SW¼;
Sec. 29, S½SE¼.

Containing 120 acres in Salt Lake County.

CACHE NATIONAL FOREST

Powersite Reserve No. 494

T. 9 N., R. 3 E.,
Sec. 13, N½SW¼.
T. 3 S., R. 6 W.,
Sec. 35, NE¼NE¼.

Powersite Reserve No. 570

T. 3 S., R. 6 W.,
Sec. 27, NE¼SE¼, S½SE¼ (S½SE¼ is public land);
Sec. 33, N½S½;
Sec. 34, NW¼NE¼, NE¼NW¼, SW¼NW¼, NW¼SW¼.

Powersite Reserve No. 569

All portions of the following described lands lying within 50 ft. of the centerline of the transmission line of the Ophir Hill Consolidated Mining Co. as indicated on the map accompanying right-of-way application (Salt Lake City—011423) bearing affidavit of James W. Wade and certificate of E. W. Clark, Manager of the Ophir Hill Consolidated Mining Co., and filed in the Salt Lake City Office of the General Land Office (now Bureau of Land Management) on April 24, 1913:

T. 4 S., R. 5 W.,
Sec. 5, lot 4;
Sec. 6, lots 1 and 2;
Sec. 9, N½NE¼, SE¼NE¼;
Sec. 10, S½NW¼, NE¼SW¼, N½SE¼, SE¼SE¼;
Sec. 14, W½NW¼.

Powersite Reserve No. 711

T. 5 S., R. 4 W.,
Sec. 24, NE¼NE¼;
Sec. 27, NE¼NE¼, S½N½;
Sec. 28, lot 19.

All portions of the following described lands lying within 50 ft. of the right-of-way shown on four sheets of a map, each sheet being designated Sheet No. 2, Sheet No. 3, Sheet No. 4, Sheet No. 5, filed in the United States Land Office (now Bureau of Land Management) at Salt Lake City, Utah, on June 22, 1918, as part of the application (Salt Lake City—023174) of the Ophir Hill Consolidated Mining Company:

PUBLIC LANDS

T. 4 S., R. 4 W.,
Sec. 31, SE¼SW¼.
T. 5 S., R. 4 W.,
Sec. 6, lot 3, SW¼NE¼, SE¼NW¼, W½SE¼, SE¼SE¼;
Sec. 7, E½NE¼;
Sec. 8, lots 7, 8, 14, 15, 17;
Sec. 17, lots 5, 6, 9, SW¼NE¼, SE¼NE¼, W½SE¼;
Sec. 20, lot 3;
Sec. 21, lots 4 and 5, N½SW¼, SE¼SW¼;
Sec. 28, lots 14, 15, 17.
T. 3 S., R. 5 W.,
Sec. 31, SW¼SE¼.

The areas described aggregate approximately 2,384 acres in Tooele County.

Powersite Reserve No. 685

T. 6 N., R. 1 W.,
Sec. 24, NE¼NW¼.
T. 6 N., R. 2 E.,
Sec. 12, lots 1 and 3, E½NW¼, SW¼NW¼, SE¼SW¼, SW¼SE¼.
T. 6 N., R. 3 E.,
Sec. 6, lots 2 and 12.
T. 7 N., R. 3 E.,
Sec. 26, SW¼NE¼, NE¼SW¼, S½SW¼, NW¼SE¼;
Sec. 34, E½NE¼, NW¼NE¼, NE¼SE¼.

Containing approximately 725 acres in Weber County.

T. 10 N., R. 3 E.,
Sec. 14, S½SW¼, SE¼SE¼;
Sec. 15, N½NW¼;
Sec. 23, E½NE¼, NE¼SE¼.
T. 10 N., R. 4 E.,
Sec. 30, lot 3, NE¼SW¼, S½SE¼.

Containing approximately 560 acers in Cache County.

The areas described aggregate approximately 7,662 acres of private, public, and national forest lands. The NE¼NE¼ sec. 35, T. 3 S., R. 6 W., and SW¼SE¼ sec. 31, T. 3 S., R. 5 W., are public lands withdrawn by Public Land Order No. 867 for the Department of the Army.

The State of Utah has waived its right to select any of the lands for highway rights-of-way or material sites as provided by the Federal Power Act of June 10, 1920, 16 U.S.C. 818.

3. Some of the lands listed in paragraphs 1 and 2, have been subject to the general determination of the Federal Power Commission issued April 17, 1922. Some of the lands remain withdrawn subject to existing transmission line permits or approved rights-of-way under the Act of February 15, 1901 (31 Stat. 790; 43 U.S.C. 959), or the Act of March 4, 1911 (36 Stat. 1253; 43 U.S.C. 961); and some have been restored subject to the provisions of section 24 of the Federal Power Act.

4. At 10 a.m. on November 10, 1976, the public lands described in paragraph 2 of this order shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on November 10, 1976, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

5. At 10 a.m. on November 10, 1976, the national forest lands not otherwise withdrawn or appropriated, shall be open to such forms of disposition as may by law be made of national forest lands.

6. The lands described in this order have been and continue to be open to applications and offers under the mineral leasing laws, and to location under the U.S. mining laws subject to the provisions of the Act of August 11, 1955 (69 Stat. 682; 30 U.S.C. 621).

Inquiries concerning the lands should be addressed to the State Director, 136 East South Temple, Bureau of Land Management, Salt Lake City, Utah 84111.

JACK O. HORTON,
Assistant Secretary of the Interior.

OCTOBER 5, 1976.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[FCC 76-462]

PART 5—EXPERIMENTAL RADIO SERVICES (OTHER THAN BROADCAST)

Adoption of FCC Form 442

Order.
Adopted: May 19, 1976.
Released: October 13, 1976.

In the matter of amendment of Part 5, Experimental Radio Service (Other Than Broadcast) and adoption of FCC Form 442.

1. Pursuant to the Commission's policy of reregulation and to simplify its application procedures, Part 5, Experimental Radio Service (Other Than Broadcast) is herewith amended to require the use of FCC Form 442 by applicants applying for new or modified station authorizations in the Experimental Radio Service, and to delete the use of FCC Forms 440 and 441.

2. New FCC Form 442 includes the supplemental statements heretofore required as attachments to the application pursuant to § 5.57. Accordingly, this requirement for supplementary statements is deleted. In lieu thereof a single supplementary statement will be required—generally, a simple narrative statement describing the program of experimentation. See revised § 5.57 appended hereto.

3. The basic intent of the revised rules is to provide simplification and improvement over those now in effect. It is expected that with a new form (FCC Form 442) and the deletion and revision of certain sections of Part 5 that many of the past difficulties which have been experienced by the applicants will be substantially reduced or eliminated and will make for more efficient processing of the application.

4. We conclude that, for the reasons set forth above, adoption of the new Form and amendments will serve the public interest and convenience. Inasmuch as the use of FCC Form 442 and the amendment of Part 5 involve matters of procedure, impose no additional burdens, and raise no issue upon which comments would serve any useful purpose, compliance with the prior notice and effective date provisions of 5 U.S.C. 553 is unnecessary.

5. *Therefore, it is ordered,* That, pursuant to section 4(i) and 303 (g) and (r) of the Communications Act of 1934, as amended, Part 5 of the Commission's rules and regulations is amended as set forth below, effective November 2, 1976.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; (47 U.S.C. 154, 303).)

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

Part 5 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. Section 5.51 is revised to read as follows:

§ 5.51 Station authorization required.

(a) No radio transmitter shall be operated in the Experimental Radio Services except under and in accordance with a proper station authorization granted by the Federal Communications Commission.

(b) Persons desiring to install and operate radio transmitting equipment under this part should first submit an application for a radio station authorization in accordance with § 5.55.

§ 5.52 [Reserved]

2. Section 5.52 is deleted and reserved.

3. Section 5.55 is revised, to read as follows:

§ 5.55 Form to be used.

(a) *Application for combined construction permit and radio station license for land stations and fixed stations.* A separate application shall be submitted on FCC Form 442 for each base station and each fixed station. Whenever the proposed antenna exceeds 6 meters in height above the ground level or more than 6 meters in height above an existing building, the applicant must comply with the requirement of part 17 of this chapter.

(b) *Application for combined construction permit and radio station license for mobile stations.* An application for each mobile station comprising any specified number of mobile units to be operated in the same service and within the same geographical area, including handcarried or pack-carried units, may be combined into one application and shall be submitted on FCC Form 442.

NOTE: An application for mobile units may be combined with an application for a single base station for such mobile units as will operate with that base station only.

(c) *Application for modification of combined construction permit and station license.* An application for modification of station authorization shall be submitted on FCC Form 442. A blanket application for modification of a group of authorizations of the same class where the modifications requested are the same for all stations covered by the application. The individual stations covered by such application shall be clearly identified therein. However, application for modification to change location of a base or fixed station shall be filed as a separate application.

(d) *Application for renewal of station authorization.* (1) Application for re-

V41200 OCT 14 76 UMI

newal of station license shall be submitted on FCC Form 405. A blanket application may be submitted for renewal of a group of station licenses in the same class in those cases where the renewal requested is in exact accordance with the terms of the existing authorizations. The individual stations covered by such applications shall be clearly identified thereon. Unless otherwise directed by the Commission, each application renewal of license shall be filed at least 60 days prior to the expiration date of the license to be renewed.

(2) If the station license sought to be renewed is used for the purpose of fulfilling the requirements of a contract with an agency of the U.S. Government, the application for renewal shall be accompanied by FCC Form 440A in triplicate, Supplemental Information for Applications in the Experimental Radio Service Involving Government Contracts.

(e) *Application for consent to assignment of radio station authorization.* Application on FCC Form 702 shall be submitted when the legal right to construct or to control the use and operation of a station is to be transferred as a result of a voluntary act (contract or other agreement) or an involuntary act (death or legal disability) of the grantee of a station authorization or by involuntary assignment of the physical property constituting the station under a court decree in bankruptcy proceedings, or other court order, or by operation of law in any other manner. Such applications must be accompanied by the FCC Form 442 of which only the certification need be signed by the proposed assignee. No other information is required to be supplied on this form.

(f) *Application for consent to transfer of control of Corporation holding radio station authorization.* Application for consent to transfer of control shall be submitted on FCC Form 703 whenever it is proposed to change the control of a corporation holding a station authorization.

(g) *Informal application.* (1) An application not submitted on a standard form prescribed by the Commission is considered to be an informal application. Each informal application shall be submitted normally in letter form, and with the original signed in accordance with § 5.54. Each application shall be clear and complete within itself as to the facts presented and the action desired.

(2) An informal application for authority to operate transmitting equipment will be accepted only under the conditions set forth in § 5.56.

4. Section 5.57 is revised to read as follows:

§ 5.57 Supplementary statements required.

(a) Each applicant for an authorization in the Experimental Radio Service must enclose with the application a narrative statement describing in detail the program of research and experimentation proposed, the specific objectives sought to be accomplished; and how the program of experimentation has a reasonable promise of contribution to the development, extension, or expansion, or utilization of the radio art, or is along lines not already investigated. An applicant may request non-disclosure of proprietary information submitted under this part. These requests should follow the procedures for submission set forth in Section 0.459 of this chapter.

(b) *Applications involving government contracts.* The requirements of paragraph (a) of this section shall not be applicable to applicants for an authorization in the Experimental Service (Research) to be used for the purpose of fulfilling the requirements of a contract with an agency of the United States Government. In lieu thereof, such applicants shall include as a part of the application, FCC Form 440A in triplicate, Supplemental Information for Applications in the Experimental Radio Service Involving Government Contracts.

(c) *Applications involving development of equipment for export purposes.* Each application for an authorization for the purpose of developing equipment for exportation to be employed by stations under the jurisdiction of a foreign government shall include in addition to the information required by paragraph (a) of this section the following information:

(1) The contract number and the name of the foreign government concerned.

(2) The daily hours of operation and the estimated date of the beginning and end of the specific time period for which the authorization is required.

(d) *Applications involving communications essential to a research project.* The requirements of paragraph (a) of this section shall not be applicable to applications for an authorization in the Experimental Service (Research) to be used for communications essential to a research project. Applicants in this service shall include as part of the application for an authorization the following:

(1) A description of the nature of the research project being conducted.

(2) A showing that communication facilities are necessary for the research project involved.

(3) A showing that existing communication facilities are inadequate.

§ 5.61 [Reserved]

5. Section 5.61 is deleted and reserved.

B-180227(R0376)

FEDERAL COMMUNICATIONS COMMISSION
Washington, D. C. 20554

APPLICATION FOR NEW OR MODIFIED RADIO STATION AUTHORIZATION UNDER PART 5 OF FCC RULES EXPERIMENTAL RADIO SERVICES (OTHER THAN BROADCAST)

These Instructions should be removed from the attached body of the form before the form is submitted to the Commission.

General Information and Instructions.

1. Submit application direct to the Federal Communications Commission, Washington, D.C. 20554.
2. No fee is required with this application.
3. Before this application is prepared applicant should refer to Part 5 of the Rules and Regulations of the Commission, copies of which may be obtained by purchasing Volume II of FCC Rules and Regulations from the Superintendent of Documents, Government Printing Office, Washington, D. C. 20402.
4. If a corporation, state corporate name; If a partnership, state names of all partners and the name under which the partnership does business; if an unincorporated association, state the name of an executive officer, the office held by him, and the name of the association. If this application involves a station that is now authorized, the name herein shown must correspond exactly with that shown on current authorization.
5. Applicants should make every effort to file complete applications. Failure to do so may result in a rejection and return of the application or a delay in the processing of the application.
6. Each document required to be filed as an exhibit should be current as of the date of filing. If reference is made to information already on file with the Commission see Item 7 below.
7. To refer to the material on file it is necessary that the applicant provide sufficient information to locate the previously filed material. If filed with a station application, furnish name of applicant or licensee, call sign, file number and date of filing. In other cases furnish date of filing and describe the matters in connection with which filed.
8. Each document or statement required to be filed as an exhibit should be numbered separately. Exhibit numbers should be shown in the blank space provided for this purpose in the individual items of the application form. Where the space left in the application for narrative answers is insufficient a separate statement, bearing an exhibit number in sequence with other exhibits numbered in the application, should be attached to the application and reference to the statement's exhibit number should be made in the answer space.
9. When the antenna structures proposed to be erected will extend more than 6 meters above the ground or above an existing building, each application shall be accompanied by FCC Form 714 indicating that notification has or has not been submitted to the FAA. Landing area, as defined in Part 17 of the Commission's Rules: "Landing Area" means any locality, either of land or water, including airports and intermediate landing fields, which is used, or approved for use, for the landing and take-off of aircraft, whether or not facilities are provided for the shelter, servicing, or repair of aircraft, or for receiving or discharging passengers or cargo.
10. Applications proposing a developmental program of experimentation related to an established service which involves the assignment of frequencies not included in the rules governing such service or involves the use of allocated frequencies in a manner contrary to the rules governing that service must be accompanied by a petition requesting the amendment of the rules governing the service involved to provide for the proposed operation.
11. Applications proposing to develop a new service for which no frequencies have been allocated and for which rules have not been promulgated must be accompanied by a petition requesting the allocation of frequencies for the proposed service and setting forth the reasons in support of the petition.

6(a). Proposed location of transmitter and transmitting antenna (Check only one box)
☐ FIXED/BASE ☐ MOBILE ☐ BASE & MOBILE

(b) If permanently located at a fixed location, give below

State	County	City or Town

Number and street (or other indication of location)

(c) If mobile, describe the exact area of operation

Geographical coordinates exact to the nearest second

(Geographical coordinates of the approximate center of proposed area of operation (mobile applications))

North Latitude ° ' " West Longitude ° ' "

North Latitude ° ' " West Longitude ° ' "

Place an "X" in the appropriate column.	YES	NO
7. Is a directional antenna (other than rod or loop) used?		
If "YES", give the following information:		
(a) Width of beam in degrees at the half-power points.		
(b) Orientation in horizontal plane.		
(c) Orientation in vertical plane.		
8. Is this authorization to be used for fulfilling the requirements of a government contract with an agency of the United States Government?		
If "Yes", attach FCC Form 440-A, Supplemental Information for Applications in the Experimental Radio Service Involving Government Contracts, in triplicate to this application.		
9. Is this authorization to be used for the exclusive purpose of developing radio equipment for export to be employed by stations under the jurisdiction of a foreign government?		
If "Yes", attach as EXHIBIT No. _____, the following information:		
(a) The contract number and the name of the foreign government concerned.		
(b) The daily hours of operation and the estimated date of the beginning and end of the specific time period for which the authorization is required.		
10. Is this authorization to be used for providing communications essential to a research project. (The radio communications are ancillary to the research project).		
If "Yes", attach as EXHIBIT No. _____, a narrative statement providing the following information:		
(a) A description of the nature of the research project being conducted.		
(b) A showing that the communications facilities requested are necessary for the research project involved.		
(c) A showing that existing communications facilities are inadequate.		

11. If all the answers to items 8, 9, and 10 are "No", attach as EXHIBIT NO. _____, a narrative statement describing in detail the following:
(a) The complete program of research and experimentation proposed including description of equipment and theory of operation.
(b) The specific objectives sought to be accomplished.
(c) How the program of experimentation has a reasonable promise of contribution to the development, extension, expansion, or utilization of the radio art, or is along lines not already investigated.

12. (a) Give an estimate of the length of time that will be required to complete the program of experimentation proposed in this application.
(b) If less than 2 years, give the length of time in months that the authorization requested in this application will be required.

APPLICATION FOR NEW OR MODIFIED RADIO STATION AUTHORIZATION UNDER PART 5 OF FCC RULES EXPERIMENTAL RADIO SERVICES (OTHER THAN BROADCAST)

1. Applicant's Name and Post Office Address (Give street, city, state, and ZIP Code, see Instruction No. 4)

DO NOT WRITE IN THIS BLOCK
File No.

2(a) Class of station applied for

2(b) Nature of Service

3.(a) Application for (check only one box)
☐ New Station ☐ Modification of existing authorization

3.(b) For Modification indicate below
File No. Call Sign

4. Application for modification indicate change in (check all that apply)
☐ Frequency ☐ Emission ☐ Power ☐ Location
☐ Other particulars (describe below or in attached Exhibit No. _____)

5. Particulars of Operation (see instructions below)

Frequency (give number nearest kHz or MHz) (A)	POWER (B)	POWER (C)	POWER (D)	EMISSION (E)	MODULATING SIGNAL (F)	NECESSARY BANDWIDTH (kHz) (G)

(A) List each frequency or frequency band separately. (If more space is required, attach as Exhibit No. _____).
(B) Insert maximum R.F. output power at the transmitter terminals. Specify units.
(C) Insert maximum effective radiated power from the antenna (if pulsed emission specify peak power).
(D) Insert "MEAN" or "PEAK" (See definitions in Part 5).
(E) Insert the type of emission separately for each frequency. (See Section 2.201 FCC Rules.)
Insert the type of emission composed of five characters. The first three symbols designate the type of emission:
for A1, insert maximum audio modulating frequency and maximum speed of keying in bauds
for A2, insert maximum audio modulating frequency and maximum speed of keying in bauds
for A3, insert maximum audio modulating frequency
for F1, insert mark and space frequencies, maximum speed of keying in bauds
for F2, insert maximum audio modulating frequency, frequency deviation of carrier, maximum speed of keying in bauds
for F3, insert maximum audio modulating frequency and frequency deviation of carrier
for P0, insert pulse duration and repetition rate
for other emissions describe in detail in space provided below.
(G) Describe how the necessary bandwidth was determined in space provided below.

	YES	NO
20. Will applicant be owner and operator of station? If "No", explain applicant's relation to station.		
21. Will applicant have absolute control of station, both as to physical operation and service conducted? If "No", explain circumstances and give name of person who will have control of station.		
22. Will the transmitter be operated with licensed operator on duty at a remote control point? If "Yes", the following information must be provided. (If there is to be a licensed operator on duty at the transmitter, data required by this item may be omitted.) (a) Location of remote control point. (If more than one remote control point is involved, attach as EXHIBIT No. _____, a statement giving location of each remote control point, plan of operation, etc.) State _____ County _____ City or Town _____ Street & No. _____		
(b) By what means will the transmitter be rendered inaccessible?		
(c) Can transmitter be placed in an inoperative condition from the remote control point?		
(d) Describe below the equipment to be used to enable the operator at the control point to determine when there is a deviation from the terms of the station license or when operation is not in accordance with the Commission's Rules governing the class of station involved.		
23. Give name, title, and telephone number (include area code) of person who can best handle inquiries pertaining to this application.		
24. List below all exhibits in numerical sequence and the item number of item requiring the exhibit identified. EXHIBITS AND ITEM NO. OF FORM: Exhibit Number / Item No. of Form		

FCC Form 442 Page 3

	YES	NO
13. List below transmitting equipment to be installed (If experimental, so state): MANUFACTURER / TYPE / NO. OF UNITS		
14. Note provisions that will be made for measurement and periodic checking of the station's technical characteristics (power, frequency, bandwidth) to insure compliance with terms of license. Place an "X" in the appropriate column.		
15. Will the antenna extend more than 6 meters above the ground, or if mounted on an existing building will it extend more than 6 meters above the building, or will the proposed antenna be mounted on an existing structure other than a building? If "Yes", give the following (See Instruction 9): (a) Overall height above ground to tip of antenna is _____ meters. (b) Elevation of ground at antenna site above mean sea level is _____ meters. (c) Distance to nearest aircraft landing area is _____ kilometers. (d) List any natural formations or existing man-made structures (hills, trees, water tanks, towers, etc.) which, in the opinion of the applicant, would tend to shield the antenna from aircraft and thereby minimize the aeronautical hazard of the antenna. (e) Submit as EXHIBIT No. _____, a vertical profile sketch of metal structure (including supporting buildings, if any) showing height in meters above ground for all significant features. Clearly indicate existing portion, noting particulars of existing obstruction lighting already available.		
16. Does this application propose a developmental program of experimentation which requires the submission of a petition? (See Instructions 10 and 11) If "Yes", attach the petition as EXHIBIT No. _____.		
17. Applicant is (check only one box) ☐ Individual ☐ Association ☐ Partnership ☐ Corporation ☐ Other (describe below)		
18. Is applicant a foreign government or a representative of a foreign government?		
19. Has applicant or any party to this application had any FCC station license or permit revoked or had any application for permit, license or renewal denied by this Commission? If "Yes", attach as EXHIBIT No. _____, a statement giving call sign of license or permit revoked and other circumstances.		

FCC Form 442 Page 5

25. CERTIFICATION

ATTENTION: Read this certification carefully before signing this application.

THE APPLICANT CERTIFIES THAT:

(a) Copies of the FCC Rules Parts 2 and 5 are on hand; and have been made and

(b) Adequate financial appropriations to carry on the program of experimentation which will be conducted by qualified personnel; and

(c) All operations will be on an experimental basis in accordance with Part 5 and other applicable rules, and will be conducted in such a manner and at such a time as to preclude harmful interference to any authorized station; and

(d) Grant of the authorization requested herein will not be construed as a finding on the part of the Commission

(1) that the frequencies and other technical parameters specified in the authorization are the best suited for the proposed program of experimentation, and

(2) that the applicant will be authorized to operate on any basis other than experimental, and

(3) that the Commission is obligated by the results of the experimental program to make provision in its rules including its table of frequency allocations for applicant's type of operation on a regularly licensed basis.

APPLICANT CERTIFIES FURTHER THAT:

(e) All the statements in the application and attached exhibits are true, complete and correct to the best of the applicant's knowledge; and

(f) The applicant is willing to finance and conduct the experimental program with full knowledge and understanding of the above limitations; and

(g) The applicant waives any claim to the use of any particular frequency or of the ether as against the regulatory power of the USA.

Signed and dated this _____ day of _____, 19___.

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket No. 1, Amdt. 1-122]

PART 1—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES

Delegation of Approval of Payments of $25 or Less

• *Purpose.* The purposes of this amendment are to delegate to all administrators and to the Assistant Secretary for Administration the authority vested in the Secretary by the Comptroller General of the United States (July 14, 1976; B-161457) to review and approve for payment vouchers for $25 or less submitted the authority for payment of which is questioned by disbursing or certifying officer, and to make a minor change to an existing delegation to the Assistant Secretary.•

Since this amendment relates to Departmental policy, procedures, and practices, notice and comment thereon are unnecessary and it may be made effective in fewer than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, Part 1 of Title 49, Code of Federal Regulations, is amended as follows:

1. In § 1.45, a new subparagraph (10) is added at the end of paragraph (a), to read as follows:

§ 1.45 Delegations to all Administrators.

(a) Except as otherwise prescribed by the Secretary of Transportation, each Administrator is authorized to—

• • • • • •

(10) Review and approve for payment any voucher for $25 or less the authority for payment of which is questioned by a certifying or disbursing officer.

2. In § 1.59, paragraph (c) is amended by, in subparagraph (8), deleting the word "Center" and substituting therefor the word "Division", and by adding a new subparagraph (10) at the end thereof, to read as follows:

§ 1.59 Delegations to Assistant Secretary for Administration.

The Assistant Secretary for Administration is delegated authority for the following—

• • • • • •

(c) *Finance.* • • •

(8) • • • Accounting Operations Division.

• • • • • •

(10) Review and approve for payment any voucher for $25 or less the authority for payment of which is questioned by a certifying or disbursing officer.

Effective date: This amendment is effective October 14, 1976.

(Sec. 9(e), Department of Transportation Act (49 U.S.C. 1657(e)).)

Issued in Washington, D.C., on October 7, 1976.

WILLIAM T. COLEMAN, JR.,
Secretary of Transportation.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[No. MC-C-9099]

PART 1047—EXEMPTIONS

Miami and Fort Lauderdale, Fla.—Air Terminal Areas

Order. At a session of the Interstate Commerce Commission, Review Board Number 2, held at its office in Washington, D.C., on the 20th day of September 1976.

It appearing, that by petition filed May 2, 1976, Broward Airfreight Terminal, Inc., and Greater Miami Air Freight, Inc., seek a declaratory order for clarification of the limits of the zone, pursuant to 49 CFR 1047.40(c), surrounding the Miami International Airport, Miami, Fla., and the Fort Lauderdale International Airport, Fort Lauderdale, Fla., within which motor transportation of property is incidental to transportation by air and exempt from the Commission's economic regulation under section 203(b)(7a) of the Interstate Commerce Act;

It further appearing, that pursuant to section 553 of the Administrative Procedure Act, notice of the filing of the petition was published in the Federal Register on June 30, 1976, which notice stated that no oral hearings were contemplated, that persons desiring to participate in the proceedings were invited to file representations; and that initial representations were filed by Broward Airfreight Terminal, Inc., and Greater

V41200 OCT 14 76 UMI

Miami Air Freight, Inc. (jointly) and by Air Cargo, Inc., on behalf of 24 certificated scheduled airlines of the United States;

And it further appearing, that the above-described pleadings have been considered; and that the area described in our findings below defines the geographic territory within which operations may be conducted exempt from the Commission's economic regulation under section 203(b)(7a) and 49 CFR 1047.40 in regard to the exempt zone surrounding the two airports involved herein, within which motor transportation of property is incidental to transportation by air;

Wherefore, and good cause appearing therefor:

We find, that the areas surrounding the Miami International Airport, Miami, Fla., and the Fort Lauderdale International Airport, Fort Lauderdale, Fla., within which the transportation by motor vehicle, in interstate or foreign commerce, of property having a prior or subsequent movement by air, which transportation otherwise meets the requirements of 49 CFR 1047.40(a), is exempt from economic regulation by the Interstate Commerce Commission pursuant to section 203(b)(7a) of the Interstate Commerce Act, includes those points in Florida within 25 miles of each airport specified above or within 25 miles of the respective city limits of the cities specified above, as further detailed below; and that Title 49, Chapter X of the Code of Federal Regulations, requires modification by the addition thereto of § 1047.40 (d)(5) and (d)(6) reflecting this finding, which rule is reasonable and necessary and should be prescribed.

It is ordered, That § 1047.40 of the Code of Federal Regulations be, and it is hereby, amended by the addition thereto of paragraphs (d)(5) and (d)(6) as follows:

* * * * *

§ 1047.40 Motor transportation of property incidental to transportation by aircraft.

* * * * *

(d) *Exempt zones and operations*

(5) *Miami International Airport (Miami, Fla.).* The area surrounding the Miami International Airport at Miami, Fla., within which the transportation by motor vehicle, in interstate or foreign commerce, of property having a prior or subsequent movement by air, which transportation otherwise meets the requirements of § 1047.40(a), is exempt from economic regulation by the Interstate Commerce Commission pursuant to section 203(b)(7a) of the Interstate Commerce Act, includes those points in Florida within 25 miles of either the Miami International Airport or the city limits of Miami, Fla.

(6) *Fort Lauderdale International Airport (Fort Lauderdale, Fla.).* The area surrounding the Fort Lauderdale International Airport at Fort Lauderdale, Fla., within which the transportation by motor vehicle, in interstate or foreign commerce, of property having a prior or subsequent movement by air, which transportation otherwise meets the requirements of section 1047.40(a) of this part, is exempt from economic regulation by the Interstate Commerce Commission pursuant to section 203(b)(7a) of the Interstate Commerce Act, includes those points in Florida within 25 miles of either the Fort Lauderdale International Airport or the city limits of Fort Lauderdale, Fla. (52 Stat. 1029, 49 U.S.C. 303(b)(7a); 52 Stat. 1237, 49 U.S.C. 304(a)(6); 56 Stat. 285, 80 Stat. 383; 49 U.S.C. 1003, 5 U.S.C. 553, 559.)

It is further ordered, That this order shall become effective on January 24, 1977, and shall continue in effect until further order of the Commission.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by filing the attached notice with the Director, Office of the Federal Register.

By the Commission, Review Board Number 2, Members Boyle, Eaton, and Liberman.

ROBERT L. OSWALD,
Secretary.

MIAMI AND FORT LAUDERDALE, FLA.—AIR TERMINAL AREAS

The Interstate Commerce Commission has amended § 1047.40 of the Code of Federal Regulations by the addition of subsections d(5) and d(6), which respectively define the Miami, Fla., and Fort Lauderdale, Fla., air exempt zones. This action stems from a petition filed May 2, 1976, jointly by Broward Airfreight Terminal, Inc., and Greater Miami Air Freight, Inc., requesting the Commission to clarify, pursuant to 49 CFR 1047.40 (c), the zones surrounding the Miami International Airport and the Fort Lauderdale International Airport, within which motor transportation of property is incidental to transportation by air and exempt from the Commission's economic regulation under section 203(b)(7a) of the Interstate Commerce Act.

This rule is issued under authority of 52 Stat. 1029, 49 U.S.C. 303(b)(7a); 52 Stat. 1237, 49 U.S.C. 304(a)(6); 56 Stat. 285, 80 Stat. 383; 49 U.S.C. 1003, 5 U.S.C. 553, 559.

Issued in Washington, D.C., September 20, 1976.

Title 50—Wildlife

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Arrowwood National Wildlife Refuge, North Dakota

The following special regulation is issued and is effective on October 14, 1976.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

NORTH DAKOTA

ARROWWOOD NATIONAL WILDLIFE REFUGE

Public hunting of sharp-tailed grouse on the Arrowwood National Wildlife Refuge, North Dakota, is permitted only on the area designated by signs as open to hunting. This open area, comprising 15,900 acres, is delineated on a map available at the refuge headquarters and from the Regional Director, U.S. Fish and Wildlife Service, 10597 West 6th Avenue, Denver, Colorado 80215. Hunting shall be in accordance with all applicable State regulations covering the hunting of sharp-tailed grouse subject to the following conditions:

(1) Hunting is permitted from sunrise to sunset on November 22, 1976 through December 12, 1976.

(2) All hunters must exhibit their hunting license, game and vehicle contents to Federal and State officers upon request.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 12, 1976.

JAMES W. MATTHEWS,
Refuge Manager, Arrowwood National Wildlife Refuge, Pingree, North Dakota 58476.

SEPTEMBER 29, 1976.

[FR Doc.76-30074 Filed 10-13-76;8:45 am]

PART 32—HUNTING

Arrowwood National Wildlife Refuge, North Dakota

The following special regulations are issued and are effective on October 14, 1976.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

NORTH DAKOTA

ARROWWOOD NATIONAL WILDLIFE REFUGE

Public hunting of red fox on the Arrowwood National Wildlife Refuge, North Dakota, is permitted only on the area designated by signs as open to hunting. This open area, comprising 14,814 acres, is delineated on a map available at the refuge headquarters and from the Regional Director, U.S. Fish and Wildlife Service, 10597 West 6th Avenue, Denver, Colorado 80215. Hunting shall be in accordance with all applicable State regulations covering the hunting of red fox subject to the following conditions.

(1) Hunting is permitted from sunrise to sunset October 9, 1976, through February 28, 1977.

(2) All hunters must exhibit their hunting license, game and vehicle contents to Federal and State Officers upon request.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through February 28, 1977.

JAMES W. MATTHEWS,
Refuge Manager, Arrowwood National Wildlife Refuge, Pingree, North Dakota 58476.

SEPTEMBER 29, 1976.

[FR Doc.76-30072 Filed 10-13-76;8:45 am]

PART 32—HUNTING

Arrowwood National Wildlife Refuge, North Dakota

The following special regulations are issued and are effective on October 14, 1976.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

NORTH DAKOTA

ARROWWOOD NATIONAL WILDLIFE REFUGE

Public hunting of deer on the Arrowwood National Wildlife Refuge, North Dakota, is permitted only on the area designated by signs as open to hunting. This open area, comprising approximately 14,814 acres is delineated on a map available at the refuge headquarters and from the Regional Director, Fish and Wildlife Service, 10597 West 6th Avenue, Denver, Colorado 80215. Hunting shall be in accordance with all applicable State regulations, covering the hunting of deer subject to the following conditions.

(1) Hunting is permitted from 12 Noon to sunset November 12, 1976 and from sunrise to sunset November 13, 1976 through November 21, 1976.

(2) All hunters must exhibit their hunting license, deer tag, game and vehicle contents to Federal and State officers upon request.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 21, 1976.

JAMES W. MATTHEWS,
Refuge Manager, Arrowwood National Wildlife Refuge, Pingree, North Dakota 58476.

SEPTEMBER 29, 1976.

PART 32—HUNTING

Long Lake National Wildlife Refuge, North Dakota

The following special regulations are issued and are effective on October 14, 1976.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

NORTH DAKOTA

LONG LAKE NATIONAL WILDLIFE REFUGE

Public hunting of deer on the Long Lake National Wildlife Refuge, North Dakota, is permitted only on the area designated by signs as open to hunting. This open area, comprising approximately 19,500 acres, is delineated on a map available at the refuge headquarters and from the Regional Director, Fish and Wildlife Service, 10597 West 6th Avenue, Denver, Colorado 80215. Hunting shall be in accordance with all applicable State regulations, covering the hunting of deer subject to the following conditions:

(1) Hunting is permitted from 12 Noon to sunset November 12, 1976 and from sunrise to sunset November 13, 1976 through November 21, 1976.

(2) All hunters must exhibit their hunting license, deer tag, game and vehicle contents to Federal and State officers upon request.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 21, 1976.

JAMES W. MATTHEWS,
Refuge Manager, Arrowwood National Wildlife Refuge, Pingree, North Dakota 58476.

SEPTEMBER 29, 1976.

PART 33—SPORT FISHING

Arrowwood National Wildlife Refuge, North Dakota

The following special regulation is issued and is effective on October 14, 1976.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

NORTH DAKOTA

ARROWWOOD NATIONAL WILDLIFE REFUGE

Sport fishing on the Arrowwood National Wildlife Refuge, North Dakota, is permitted only on the areas designated by signs as open to fishing. These areas comprising 1,550 acres are delineated on maps available at the refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, 10597 West 6th Avenue, Denver, Colorado 80215. Sport Fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) The open season for sport fishing on the refuge shall extend from December 4, 1976 through March 20, 1977.

(2) The use of boats, without motors, is permitted.

The provisions of these special regulations supplement the regulations which govern fishing on Wildlife refuge areas generally which are set forth in Title 50, Part 33, and are effective through March 20, 1977.

JAMES W. MATTHEWS,
Refuge Manager, Arrowwood National Wildlife Refuge, Pingree, North Dakota 58476.

SEPTEMBER 29, 1976.

[FR Doc.76-30077 Filed 10-13-76;8:45 am]

PART 33—SPORT FISHING

Long Lake National Wildlife Refuge, North Dakota

The following special regulation is issued and is effective on October 14, 1976.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

NORTH DAKOTA

LONG LAKE NATIONAL WILDLIFE REFUGE

Sport fishing on the Long Lake National Wildlife Refuge, Moffit, North Dakota is permitted on refuge waters. These open areas, comprising 3,625 acres, are delineated on maps available at refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, 10597 West 6th Avenue, Denver, Colorado 80215. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) The open season for winter sport fishing on the refuge extends from December 18, 1976 to March 26, 1977.

The provisions of this special regulation supplement the regulations which govern fishing on Wildlife refuge areas generally which are set forth in Title 50, Part 33, and are effective through March 26, 1977.

JAMES W. MATTHEWS,
Refuge Manager, Arrowwood National Wildlife Refuge, Pingree, North Dakota 58476.

Title 7—Agriculture

CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTIONS, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—REGULATIONS AND STANDARDS UNDER THE AGRICULTURAL MARKETING ACT OF 1946

PART 53—LIVESTOCK, MEATS, PREPARED MEATS, AND MEAT PRODUCTS (GRADING, CERTIFICATION, AND STANDARDS)

Subpart A—Regulations

FEES FOR GRADING SERVICE

This document updates the regulations under which voluntary meat grading and related services are provided by increasing the hourly fees charged to users of this self-supporting service.

The Agricultural Marketing Act of 1946 provides for the collection of fees approximately equal to the cost of Federal meat grading services rendered under its provisions. Salaries paid to Federal employees have been increased under the provisions of Pub. L. 92–210. Therefore, it has been determined that in order to cover the increased costs of providing Federal meat grading services including salaries paid to Federal employees and other associated costs of providing and administering the program, the hourly fee must be increased as provided herein.

Pursuant to the authority of sections 203 and 205 of the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1622, 1624), the provisions of 7 CFR 53.29 (a) prescribing fees in connection with the performance of Federal meat grading services are hereby amended by changing the phrases "$16.20 per hour," "$19.20 per hour," and "$32.40 per hour" to "$17.00 per hour," "$20.00 per hour," and "$34.00 per hour," respectively.

The need for the increase and the amount thereby are dependent upon facts within the knowledge of the Agricultural Marketing Service. Therefore, under the provisions of 5 U.S.C. 553, it is found that notice and other public procedures with respect to this amendment are impractical and unnecessary and good cause is found to make the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

This amendment shall become effective October 24, 1976, with respect to all Federal meat grading services rendered on and after that date, including service under commitment agreement whether heretofore or hereafter made.

(Sec. 203, 205, 60 Stat. 1087, 1090, (7 U.S.C. 1622, 1624).)

Done at Washington, D.C. this 8th day of October 1976.

DONALD E. WILKINSON,
Administrator,
Agricultural Marketing Service.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Reg. 549]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period October 15–21, 1976. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

§ 908.849 Valencia Orange Regulation 549.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Valencia oranges continues good. Prices f.o.b. for the week ending October 7, were $3.94 per carton on 813 cars as compared with $3.93 per carton on 765 cars during the prior week. Track and rolling supplies at 389 cars were down 74 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on October 12, 1976.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period October 15, 1976, through October 21, 1976, are hereby fixed as follows:

(i) District 1: 315,000 cartons;

(ii) District 2: 385,000 cartons;

(iii) District 3: Unlimited.

(2) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated: October 13, 1976.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76–30362 Filed 10–13–76;11:29 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Customs Service

[19 CFR Part 1]

CUSTOMS FIELD ORGANIZATION

Proposed Change in Customs Region IX

Notice was published in the FEDERAL REGISTER on July 12, 1976 (41 FR 28517), of a proposal to establish a Customs port of entry at Grand Rapids, Michigan, in the Detroit, Michigan, Customs district (Region IX). After consideration of a comment received in response to this proposal, it appears that the proposed geographical limits of the proposed port of entry should be extended. Consequently, it has been determined advisable to reissue the notice of proposed rulemaking to designate Grand Rapids, Michigan, as a Customs port of entry.

Accordingly, the notice published in the FEDERAL REGISTER dated July 12, 1976 (41 FR 28517), is superseded by this notice of proposed rulemaking.

By virture of the authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623, as amended (19 U.S.C. 2), and delegated to the Secretary of the Treasury by Executive Order No. 10289, September 17, 1951 (3 CFR 1949–1953 Comp., Ch. II), and pursuant to authority provided by Treasury Department Order No. 190, Rev. 11 (41 FR 20198), Grand Rapids, Michigan, is hereby proposed as a Customs port of entry in the Detroit, Michigan, Customs district (Region IX).

The geographical limits of the proposed port of entry will include all that area beginning at the northwesternmost corner of the City of Walker, Michigan, and extending in an eastwardly direction along the northern boundaries of the City of Walker, the City of Grand Rapids, Grand Rapids Township, and Ada Township, all in Michigan, to the northeasternmost point of Ada Township, then proceeding in a southerly direction along the eastern boundaries of Ada Township, Cascade Township, and Caledonia Township, Michigan, to 84th Street, then proceeding in a westerly direction along 84th Street to its intersection with the boundary line between Kent County and Ottawa County, Michigan, then proceeding in a northerly direction along the boundary line between Kent County and Ottawa County, Michigan, to the northwesternmost corner of the City of Walker, Michigan.

Prior to the adoption of the foregoing proposal, consideration will be given to any relevant data, views, or arguments which are submitted to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20229, and received not later than November 15, 1976.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.8(b) of the Customs Regulations (19 CFR 103.8 (b)) at the Regulations Division, Headquarters, United States Customs Service, Washington, D.C., during regular business hours.

Dated: October 5, 1976.

JERRY THOMAS,
Under Secretary of the Treasury.

[FR Doc.76–30146 Filed 10–13–76;8:45 am]

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[50 CFR Part 216]

MARINE MAMMALS

Incidental Take in Court of Yellowfin Tuna Purse Seine Fishing Operations; Hearing

On May 11, 1976, the U.S. District Court for the District of Columbia declared the current regulations of the National Marine Fisheries Service authorizing the taking of marine mammals incidental to yellowfin tuna purse seining activities, 50 CFR 216.24, to be voided as contrary to the Marine Mammal Protection Act, 16 U.S.C. 1361, et seq. On August 6, 1976, the U.S. Court of Appeals for the District of Columbia Circuit affirmed the District Court's order, but stayed it until January 1, 1977, because of the disastrous effect its immediate implementation would have on commercial fishermen operating under the general permit authorized by the current regulations.

Notice of intent to propose regulations and hold a public hearing thereon was published at 41 FR 43729, October 4, 1976.

Regulations are hereby proposed to replace those voided by the District Court order, i.e., § 216.24(d)(2), and to amend §§ 216.24(e) and 216.24(f) of Title 50, Chapter II, Part 216, CFR.

Expedited procedural regulations to govern the public hearing and rulemaking proceeding were published at 41 FR 43550, October 1, 1976. The new regulations include a limitation on the number of each stock or species involved in commercial yellowfin tuna purse seine fishing to ensure that the allowed take will not be to the disadvantage of the species or stocks. It is proposed to impose the following limits in 1977:

No take will be allowed of the following stocks or species:

Eastern spinner dolphin.	
Whitebelly spinner dolphin.[1]	
Costa Rican spinner dolphin.	
Coastal spotted dolphin.	
Melon-headed whale.	
Pygmy killer whale.	
Offshore spotted dolphin [1]	21,800
Northern common dolphin	400
Central common dolphin	1,600
Southern common dolphin [2]	5,600
Northern striped dolphin	40
North-equatorial striped dolphin [3]	400
Bottlenosed dolphin	60
Fraser's dolphin	5
Risso's dolphin	5
Rough-toothed dolphin	5
Short-finned pilot whale	5
Total	29,920

[1] Including the tentatively identified Southwestern stock.
[2] Including the tentatively identified Equatorial-Oceanic stock.
[3] Including the tentatively identified South-Equatorial stock.

The maximum number of marine mammals that may be killed by U.S. vessels in the course of commercial yellowfin tuna purse seine fishing operations during 1977 is proposed to be limited as follows:

In addition, the proposed regulations also: (1) Require that applicants for a category 2 permit (yellowfin tuna purse seine) demonstrate that any proposed taking would be consistent with the purposes of the Act; (2) require the installation of a modified porpoise safety panel of 1¼" mesh; (3) amend the requirements for importing tuna and tuna products taken in association with marine mammals; and (4) make technical amendments to gear requirement language.

In addition, it is proposed to place an observer aboard each U.S. tuna purse-seine vessel (400 ton carrying capacity or greater) fishing on porpoise for at least one trip during 1977 contingent upon the availability of necessary manpower and funds.

REQUIRED STATEMENTS

Section 103(d) of the Act requires that the following statements be published in the FEDERAL REGISTER at this time:

(1) *A statement of the estimated existing levels of the species and population stocks of the marine mammal concerned.*

Of the approximately 104 species of marine mammals throughout the world, 17 known species and population stocks and 4 tentatively identified stocks are involved in commercial yellowfin tuna

[1] Including the tentatively identified Southwestern stock.

V41200 OCT 14 76 UMI

purse seining in the eastern tropical Pacific Ocean. The 17 stocks for which population levels have been estimated are as follows:

Species Stock Management Units:	*Estimated Population Level*
1. Spotted dolphin (coastal)	(5)
2. Spotted dolphin (offshore)[3]	3,674,000
3. Spinner dolphin (Costa Rican)	(5)
4. Spinner dolphin (eastern)	1,292,000
5. Spinner dolphin (whitebelly)[1]	549,000
6. Common dolphin (northern)	400,000
7. Common dolphin (central)	230,000
8. Common dolphin (southern)[3]	800,000
9. Striped dolphin (northern)	18,000
10. Striped dolphin (northequatorial)[4]	230,000
11. Bottlenosed dolphin	588,000
12. Rough-toothed dolphin	450
13. Fraser's dolphin	7,800
14. Risso's dolphin	7,500
15. Short-finned pilot whale	60,000
16. Melon-headed whale	(5)
17. Pygmy killer whale	(5)

[1] Including the tentatively identified Southwestern stock.
[2] Including the tentatively identified Southwestern stock.
[3] Including the tentatively identified Equatorial-Oceanic stock.
[4] Including the tentatively identified South-Equatorial stock.
[5] Unknown.

(2) *A statement of the expected impact of the proposed regulations on the optimum sustainable population of each species or population stock.*

Species of porpoises and small whales found in the eastern tropical Pacific Ocean are the species taken incidental to tuna purse seine operations. The most recent estimates by the National Marine Fisheries Service regarding all species and stocks of porpoise killed by U.S. purse seine operations are, 310,000 in 1971, 306,000 in 1972, 175,000 in 1973, 99,000 in 1974 and 134,000 in 1975.

Optimum sustainable population levels have been determined for all but 4 of the 17 species and stocks involved in the fishery. The proposed U.S. take limitations given below have been determined to allow the species and stocks to increase with virtual certainty and to grow toward or remain within or above their optimum sustainable population range:

Species/stock management units	Estimates of OSP	Proposed total allowable take by United States and non-United States	Proposed allowable 1977 take by U.S vessels
1. Spotted dolphin (coastal)	None	0	0
2. Spotted dolphin (offshore)[1]	[2] 0.64	47,960	21,800
3. Spinner dolphin (Costa Rican)	None	0	0
4. Spinner dolphin (eastern)	.54	0	0
5. Spinner dolphin (whitebelly)	.76	3,032	0
6. Common dolphin (northern)	[3] AOA	480	400
7. Common dolphin (central)	AOA	2,000	1,600
8. Common dolphin (southern)[4]	AOA	7,100	5,000
9. Striped dolphin (northern)	AOA	65	40
10. Striped dolphin (north-equatorial)[5]	AOA	653	400
11. Bottlenosed dolphin	AOA	97	60
12. Rough-toothed dolphin	AOA	5	5
13. Fraser's dolphin	AOA	5	5
14. Risso's dolphin	AOA	7	5
15. Short-finned pilot whale	AOA	5	5
16. Melon-headed whale	AOA	0	0
17. Pygmy killer whale	AOA	0	0
Total		61,409	29,920

[1] Including the tentatively identified southwestern stock.
[2] Percentage of initial unexploited stock size.
[3] AOA equals at or above the optimum sustainable population level.
[4] Including the tentatively identified equatorial-oceanic stock.
[5] Including the tentatively identified south-equatorial stock.

NOTE.—Point estimates for management units 2, 4, and 5 are for 1977, and therefore differ from the estimates of the Workshop on Stock Assessment of Porpoises which are estimates for 1976.

(3) *A statement describing the evidence before the Secretary upon which he proposes to base such regulations.*

The National Marine Fisheries Service, in cooperation with other Federal agencies, private organizations, and individuals, has conducted an extensive research program since 1973 regarding the status of and mortality of marine mammals taken incidental to yellowfin tuna purse seine fishing. The purpose of the research has included the determination of the extent of the mortality incidental to purse seine fishing and the identification and implementation of measures to reduce mortality. Pertinent information available to the National Marine Fisheries Service has been published or made available through public hearings as listed in subsection "(4)" following.

(4) *Any studies made by or for the Secretary or any recommendations made by or for the Secretary or the Marine Mammal Commission which relate to the establishment of such regulations.*

Available information upon which proposed regulations were based in 1974 and 1975 was listed in 39 FR 9686, March 31, 1974 and 40 FR 41531, September 8, 1975. Additional material was submitted for the record at public hearings held May 15 and 16, 1974 in Seattle, Washington; December 10 and 11, 1974 in Washington, D.C.; October 9 and 10, 1975 in Washington, D.C.; and October 24 and 25 in San Diego, California.

On December 5, 1975, the Deputy Director published in the FEDERAL REGISTER (40 FR 56899) the recommended regulatory amendments which were effective December 19, 1975. Copies of all public records are available for review in the offices of the National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C. A Draft Supplement to the Final Environmental Impact Statement filed on November 18, 1975, is expected to be issued on or about October 29, 1976, and will be available to the public upon request.

The following reports have since been published and are available for reference:

Report submitted to Congress on the Administration of the Marine Mammal Protection Act of 1972, April 1, 1975 through March 31, 1976. NMFS, June 1976.
Progress of Research on Porpoise Mortality Incidental to Tuna Purse-seine Fishing for Fiscal Year 1976, Southwest Fisheries Center, NMFS, La Jolla, California. September 1976.
Report of the Workshop on Stock Assessment of Porpoise Involved in the Eastern Pacific Yellowfin Tuna Fishery Southwest Fisheries Center, NMFS, La Jolla, California, September 1976.
Incidental Porpoise Mortality by U.S. Purse Seine Vessels, January 1 through April 14, 1976. Southwest Fisheries Center, NMFS, La Jolla, California. May 13, 1976.
Final Environmental Impact Statement, Regulations to Govern the Issuance of Permits to Allow a Take of Marine Mammals in the Course of Normal Commercial Fishing Operations. NMFS, November 18, 1975.
The Concept of Optimum Sustainable Populations, September 1976. Marine Mammal Commission, Washington, D.C.

NOTICE OF HEARING AND ISSUES

A public hearing will he held regarding this proposal in accordance with sections 101 and 103 of the Act. The hearing will involve, but not necessarily be limited to, the following issues of fact. Evidence relevant to other issues may be submitted at the hearing, subject to rulings of the presiding officer on the materiality of such issues.

1. Estimated existing levels of the species and population stocks of the marine mammals involved in purse seining for yellowfin tuna;

2. The expected impact of the proposed regulations on the optimum sustainable populations of the species or population stocks involved;

3. The percentage of the initial unexploited species or population stock size which results in the maximum net productivity of the involved species and population stocks;

4. The economic feasibility of implementing the proposed regulations;

5. The technological feasibility of implementing the proposed regulations;

6. The rate of kill and total kill of the involved marine mammals by foreign countries;

7. The impact of the regulations on importation of yellowfin tuna and yellowfin tuna products;

8. The impact of implementing the proposed regulations on the tuna stocks.

The hearing will be held in the Penthouse, Page Building 1, 2001 Wisconsin Avenue, N.W., Washington, D.C. 20240, beginning at 10:00 a.m., November 15, 1976.

The final date for filing a notice with the Director, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C. 20235, of intent to participate in the hearing, by certified mail, is October 28, 1976. The docket number assigned to the case is MMPAH #2–1976. Judge Frank W. Vanderheyden is scheduled to be assigned as the presiding officer for the proceeding.

Records and documents relative to the proposal will be maintained in the offices of the National Marine Fisheries Service, Page Building 2, Room 426, 3300 Whitehaven Street, N.W., Washington, D.C., and may be reviewed during normal working hours.

Under the provisions of the procedural regulations applicable to this hearing, section 4 of the "Government in the Sunshine Act" (Pub. L. 94–409), dealing with ex-parte communications is incorporated for purposes of this hearing. The following persons are those employees of the agency who may reasonably be expected to be involved in the decisional process of the proceeding, and are, therefore, hereby identified to all interested persons outside the agency in order that the provisions of section 4 can be complied with:

Code	Name	Title
A	Robert M. White	Administrator, NOAA.
EE	William Aron	Director, Office of Ecology and Environmental Conservation, NOAA.
MR	David H. Wallace	Associate Administrator, NOAA.
GC	William C. Brewer, Jr.	General Counsel, NOAA.
GCx2	Herbert L. Blatt	Assistant General Counsel, NOAA.
GCx2	Martin B. Hochman	Staff attorney, NOAA.
F	Robert W. Schoning	Director, NMFS.
F	Jack W. Gehringer	Deputy Director, NMFS.
F	Winfred H. Meibohm	Assistant to the Director, NMFS.
F3	Harvey M. Hutchings	Acting Assistant Director for Fisheries Management, NMFS.
F33	Robert B. Brumsted	Acting Chief, Division of Marine Mammals and Endangered Species, NMFS.
F33	William P. Jensen	Staff Specialist, Division of Marine Mammals and Endangered Species, NMFS.
F1	Robert F. Scott	Acting Assistant Director for Scientific and Technical Services, NMFS.
SWFC	Izadore Barrett	Acting Director, Southwest Fisheries Center, NMFS, La Jolla, Calif.
SWFC	John T. Everett	Leader, Southwest Fisheries Center, tuna/porpoise interaction program, La Jolla, Calif.
SWFC	William W. Fox, Jr.	Chief, Oceanic Resources Division, Southwest Fisheries Center, La Jolla, Calif.
FSW	Gary Smith	Resource Management Administrator, southwest region, NMFS, Terminal Island, Calif.
FSW	Gerald V. Howard	Regional Director, southwest region, NMFS, Terminal Island, Calif.
FSW	Floyd S. Anders, Jr.	Deputy Director, southwest region, NMFS, Terminal Island, Calif.
FSW	Norman Mendez	Marine Resource Management Specialist, NMFS, field office, southwest region, San Diego, Calif.
DOC	Frank W. Vanderheyden	Administrative law judge, Department of Commerce.

Ex parte communications relevant to the merits of the proceeding to or from the above-named persons from or to any interested person outside the Department of Commerce are prohibited from the date of this notice until the date the final regulations resulting from the proceeding are published in the FEDERAL REGISTER. Section 4 provides mechanisms for enforcing this prohibition, including (1) the requirement that an employee making or receiving prohibited communications disclose them and all responses to them on the public record of the proceeding; and (2) authorization of dismissal or other adverse action against the claim of the party to the proceeding who makes or causes prohibited communication. "*Ex parte* communication" means an oral or written communicaiton not on the public record with respect to which reasonable prior notice to all parties is not given, but it shall not include requests of status reports on the matter or proceeding.

The Secretary of Commerce, Elliot L. Richardson, has delegated his authority to perform the functions under the Marine Mammal Protection Act of 1972; accordingly, he will not participate in the decisional process of the proceeding. However, his position is such that discussions of the merits of the proceeding with persons outside the Department of Commerce might have the appearance of communications prohibited by the "Government in the Sunshine Act." Accordingly, *ex parte* communications with the Secretary of Commerce are also prohibited. Disclosure of such prohibited communications to the Secretary of Commerce and all responses to them will be on file and available for public inspection in the office of the Secretary of Commerce.

Dated: October 7, 1976.

JACK W. GEHRINGER,
Deputy Director, National Marine Fisheries Service.

PROPOSED REGULATIONS

Section 216.24 is amended as follows:

1. Paragraph (d)(2) is revised;

2. Certain categories as shown below are deleted from paragraph (e)(2)(i);

3. Paragraph (e)(4) is mended by inserting "or § 216.24(e)(5)" following § 216.24(e)(3);

4. A new subparagraph (5) is added to paragraph (e) and existing subparagraph (5) is renumbered (6) and existing subparagraph (6) is renumbered (7);

5. Paragraph (f) is amended. As amended paragraphs (d)(2), (e)(2)(i), (e)(4), (e)(5) of § 216.24 reads as follows:

§ 216.24 Taking and related acts incidental to commercial fishing operations.

* * * * * *

(d) * * *

(2) *Encircling gear; yellowfin tuna purse seining.* (i)(A) A certificate holder may take marine mammals so long as taking is an incidental occurrence in the course of normal commercial fishing operations, except that a certificate holder shall not encircle (1) mixed or pure schools of coastal spotted dolphin (*Stenella attenuata*) or spinner dolphin (*Stenella longirostris*) of any stock or, (2) pure schools of any species of porpoise except pure schools of offshore spotted dolphin (*Stenella attenuata*) stock and common dolphin (*Delphinus delphis*) stocks. The numbers of marine mammals that may be killed by U.S. vessels in the course of commercial fishing operations will be determined by the Director and limited in the general permit to that number which will allow each species and stocks to increase with virtual certainty and to grow toward or remain within or above their optimum sustainable population range. The mortality of marine mammals included under the general permit for yellowfin tuna purse seining, will be monitored according to methodology published in 41 FR 14401 (April 5, 1976) as modified in 41 FR 43726 (October 4, 1976), and as may be subsequently modified by notice in the FEDERAL REGISTER. The effective date when fishing on a stock or species will be prohibited will be published in the FEDERAL REGISTER not less than 7 days prior to that date. The Director may change the maximum number of marine mammals that may be killed, as specified in the general permit, whenever new information becomes available which results in the re-evaluation of the population or OSP level of any stock or species.

(B) Marine mammals taken incidental to commercial fishing operations shall be immediately returned to the environment where captured without further injury. Each certificate holder shall take every possible step to minimize the incidental mortality and seri-

V41200 OCT 14 76 UMI

ous injury of marine mammals in the course of commercial fishing operations, including refraining from using a sharp or pointed instrument on porpoise and refraining from causing or permitting a purse seine under his control to be set around marine mammals when conditions of wind, sea, visibility, or the number of marine mammals and/or fish concerned would, in his judgment, be likely to prevent the effective use of the backdown and other procedures required herein. Such steps to minimize mortality and serious injury shall include, where appropriate, causing a purse seine already set on marine mammals to be released, and/or opened to facilitate release of marine mammals where such a step will, in his judgment, be effective and conditions prevent the effective use of the procedures required hereunder. The Director may publish findings relating to conditions of wind, sea, visibility or numbers or marine mammals and fish concerned which prevent the effective use of equipment and procedures required hereunder and result in an unacceptably high rate of incidental mortality and serious injury of marine mammals and under which conditions it would not be permissible to cause a set to be made on marine mammals.

(ii) A certificate holder may take such steps as are necessary to protect his catch, gear, or person from depredation, damage, or threat of personal injury.

(iii) All certificate holders shall maintain daily logs, in such form as the Regional Director, Southwest Region, National Marine Fisheries Service may prescribe, of all sets in which marine mamals are taken. Such logs must include the location, time and date of set; weather and water conditions; estimated number and species of marine mammals upon which set was made; estimated number and species of marine mammals caught; method used to remove marine mammals from net; amount and kind of tuna caught; and an actual count of marine mammals killed and seriously injured, if any, on each set. Such logs shall be subject to inspection at the discretion of the Southwest Regional Director, or his designated personnel. In addition, copies of all such logs shall be mailed or delivered to the field office, Southwest Region, National Marine Fisheries Service, 1140 N. Harbor Drive, Room 7, San Diego, California 92101, within forty-eight hours after arrival in port.

(iv) A certificate will be valid only on a vessel equipped with a porpoise safety panel in its purse seine, and which uses other gear and procedures as described herein. Porpoise safety panels and all other gear used in the course of catching and landing yellowfin tuna, and for backdown and other release procedures shall be maintained in a functional and seaworthy condition. The requirements for the porpoise safety panel and other gear are as follows:

(A) The porpoise safety panel shall be installed so as to protect the entire perimeter of the backdown area. It shall begin at the center of the second bow bunchline and must be a minimum of 180 fathoms in length. The porpoise safety panel shall consist of small mesh webbing not to exceed 1¼" stretch mesh, extending from the corkline downward to a minimum depth equivalent to two strips of 100 meshes of 4¼" stretch mesh webbing;

(B) Each end of the porpoise safety panel must be identified with an easily distinguishable marker;

(C) Throughout the length of the corkline in which the porpoise safety panel is located, hand hold openings are to be secured so that the insertion of a 1⅜" diameter cylindrical-shaped object meets resistance;

(D) Throughout the length of the corkline in which the porpoise safety panel is located, corkline hangings shall be inspected by the certificate holder following each trip. Hangings found to have loosened to the extent that a cylindrical object with a 1⅜" diameter will not meet resistance when inserted between the cork and corkline hangings, must be tightened so that a cylindrical object with a 1⅜" diameter cannot be inserted.

(E) Purse seine vessels engaged in fishing operations involving setting on marine mammals shall carry a minimum of two speedboats in operating condition. All speedboats carried aboard purse seine vessels and in operating condition shall be rigged with towing bridles and towlines. Vessels that do not carry at least two speedboats in operating condition and properly rigged may not conduct fishing operations which involve setting on marine mammals.

(F) On every set involving marine mammals, a minimum of two bow bunches shall be pulled. Bunchlines, other than bow bunchlines, shall be arranged around the perimeter of the net with both ends of some bunchlines unattached to permit towing from either end or one bunchline rigged in normal fashion with an adjacent one reversed. The arrangement of bunchlines around the perimeter of the net must allow at least three towing points to be established near one-quarter, one-half and three-quarter net of the backdown area from the bow ortza (end of the net). The ends of all bunchlines which can be utilized as towing points shall be marked so as to be clearly visible to speedboat drivers.

(G) Except as provided herein, on every set involving marine mammals, a minimum of two manned speedboats shall be in the water until backdown commences. Speedboats shall be prepared to hook onto either the corkline or onto bunchline towing points established along the perimeter of the net in order to tow the net to prevent net collapse and a formation of pockets of loose webbing, such as stern bends, which might entrap marine mammals. Other speedboats that are in operating condition shall be prepared for immediate use to tow if needed. Vessels of 400 tons carrying capacity or less which have an observer duly authorized by the Secretary aboard may have a minimum of one manned speedboat in the water from the time the set is commenced until backdown has commenced.

(H) Actual towing on the net shall be performed when, in the opinion of the certificate holder, towing is necessary to prevent net collapse or the formation of pockets of loose webbing. If towing the net has been necessary, the speedboats may unhook their towlines when towing is no longer needed, or their respective bunchlines begin to go up toward the power block or backdown commences.

(I) Backdown shall be performed following a net set where marine mammals are captured in the course of utilizing a purse seine for catching and landing yellowfin tuna. Thereafter, other release procedures shall be continued until all live animals have been released from the net. "Backdown procedure means a series of maneuvers, which take place after the net is tied down following a set and pursing, and which keep the net open to the greatest degree to allow porpoise or other marine mammals to leave the pursed net over the net floats which are submerged as a result of the vessel moving astern. Commencing with backdown and continuing through the sacking up operation, a minimum of two men shall be engaged in hand removal of porpoise from the net. All live porpoise must be removed from the net prior to initiating brailing operations.

(J) Purse seine nets and other gear and equipment utilized to catch and land fish under this section and to conduct backdown and other procedures herein required, shall be maintained in functional and seaworthy condition. Required vessel gear and equipment shall be subject to inspection and examination at least once annually by authorized NMFS personnel at a time and location determined by the Southwest Regional Director. Any vessel found to not be equipped with gear which is in conformity with these regulations and maintained in a functional and seaworthy condition shall be ineligible for use by a certificate holder for commercial fishing operations under this section.

(K) All certificate holders shall maintain proficiency sufficient to perform the procedures required herein. A certificate holder's proficency shall be determined by proof of attendance at, and satisfactory completion of, a formal training session conducted under the auspices of the National Marine Fisheries Service. At the training session, a certificate holder shall be instructed concerning the provisions of the Marine Mammal Protection Act of 1972, the regulations promulgated pursuant to the Act, the requirements of his certificate of inclusion and the appropriate general permit, and the fishing gear and techniques which are required or will contribute to reducing serious injury and mortality of porpoises incidental to purse seining for yellowfin tuna. In addition, for continuation or renewal of a certificate, a certificate holder may be required to attend other formal training sessions when there are substantial changes in the Act, the regulations or the required fishing gear and techniques. The certificate of any certificate holder who is found to lack proficiency in the procedures required herein shall be suspended or revoked.

(L) Applicants for a general permit under the category, in addition to requirements under paragraph (b)(2) of this section, must demonstrate in the application that the requested taking of species or stocks during commercial fishing operations is consistent with the purposes of the Act and the applicable regulations established under section 103 of the Act. Failure to comply with the provisions of this permit or these regulations, including, but not limited to, failure to submit, upon demand, to vessel, gear, or equipment, or proficiency inspection or examination by authorized National Marine Fisheries Service, personnel falsification of logs and reports required hereunder, or failure to satisfy the requirements of any provisions of these regulations will subject certificate holders, vessel masters, or owners to revocation of the certificate and/or right to be included under a general permit and further subject certificate holders, vessel masters, or owners to the penalties provided for under the Act.

110.10–37 Tuna, yellowfin, eviscerated. [Deleted]

* * * * *

(4) [Amended]

(5) (i) All shipments of fish and products listed in paragraph (e)(5)(iii) of this section, from any nation, shall be denied entry into the U.S. unless accompanied by documentation showing:

(A) The country of origin, vessel name and method by which fish were caught, certified crew list, vessel departure and landing dates, port of landing, and

(B) The identity of fish by tariff schedule number. (ii) It shall be illegal to import into the United States any tuna or tuna products in the classifications listed in paragraph (e)(5)(iii) of this section herein from countries of origin whose vessels operate in the yellowfin tuna purse seine fishery in the eastern tropical Pacific Ocean, as determined by the Director, National Marine Fisheries Service, unless the Director makes a finding in consultation with the U.S. Department of State, and publishes such finding in the FEDERAL REGISTER that fishing operations in the country of origin are conducted in conformance with U.S. regulations and standards as stated in paragraph (d)(2) of this section. The Director may make a finding that, although not in conformity with these regulations, such fishing is accomplished in a manner which does not result in an incidental mortality and serious injury in excess of that which results from U.S. fishing operations under these regulations. Upon such a finding imports may be allowed. Country of origin for the purposes of this section (§ 216.24(e)) shall mean the country under whose flag the fish catching vessels are documented and whose fish are a part of any cargo or shipment of fish to be imported into the U.S. regardless of any transhipments.

(iii) The following categories of tuna and tuna products are subject to the importation restrictions of paragraph (e)(5) of this section:

110.10–20 Tuna, yellowfin, whole fish.
110.10–25 Tuna, yellowfin, eviscerated, head on.
110.10–30 Tuna, yellowfin, eviscerated, head off.
110.10–37 Tuna, yellowfin, eviscerated.
e.x. 112.30–40 Tuna, yellowfin, canned.

(iv) Countries of origin desiring to obtain a finding which will allow the importation of products listed in paragraph (e)(5)(iii) of this section must submit, by appropriate government official, to the Director, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Washington, D.C. 20235, the following information:

(A) A statement of the quantity and type (identified by *tariff schedule* numbers listed in paragraph (e)(5)(iii) of this section) of fish or fish products expected to be imported into the U.S. in the calendar year 1977;

(B) A detailed description of the fishing technology and procedures utilized in tuna purse seine fishing to protect marine mammals so that a determination of conformance with 216.24(d)(2) of these regulations can be made, or the effectiveness of any other equivalent technology or procedures be assessed.

(C) A statement of the number of marine mammals killed or seriously injured (by species) taken incidental to the yellowfin tuna purse seine operations on porpoise for the previous year, and the manner in which the information was obtained (logbooks, observers, interviews, or other procedures).

(D) A statement of the number of marine mammals which will be allowed to be killed or seriously injured incidental to yellowfin tuna purse seine operations quirements to limit the level of mortality or serious injury on the existing populations of marine mammals by species.

(E) A statement of the procedures to be required, including quotas and other control, which will meet the U.S. requirements to limit the level of morality and procedures for prohibiting sets on marine mammals after the level of mortality allowed is reached.

(F) Copies of laws and regulations which protect and conserve marine mammals involved in fishing operations.

The Director may require verification of statements made in connection with requests to allow importations. The director will reconsider a finding upon a request from, and the submission of additional information from, the country of origin.

* * * * *

(f)(1) The master of any commercial fishing vessel engaged in fishing operations for which a general permit is required shall, upon proper notification by the Director as described in this section, allow an observer duly authorized by the Secretary to accompany the vessel on any or all regular fishing trips for the purpose of conducting research and observing operations.

(2) Research and observation duties shall be carried out in such a manner as to minimize interference with commercial fishing operations. No owner, master, operator or crew member of such vessel shall impair or in any way interfere with the research or observations being carried out.

(3) The Secretary shall provide for the payment of all reasonable costs directly related to the quartering and maintaining of such observers on board such vessels. The master or managing owner of each vessel which has been notified that they are required to carry an observer, via certified letter from the National Marine Fisheries Service, shall notify the field office, Southwest Region, National Marine Fisheries Service, San Diego, California, telephone (714) 293–6540 at least five days in advance of their fishing voyage to facilitate observer placement. No vessel whose master or managing owner has failed to comply with the provisions of this section may engage in fishing operations for which a general permit is required. Any person violating any of the provisions of this section shall be subject to the penalties provided in the Act.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 37]

[Docket No. 16204; Notice No. 76–19]

AIRBORNE OMEGA RECEIVING EQUIPMENT

Technical Standard

The Federal Aviation Administration is considering amending Part 37 of the Federal Aviation Regulations by adding a new Technical Standard Order for airborne Omega receiving equipment (TSO–C94).

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Comments relating to any significant environmental or economic impact that might result because of the adoption of these proposals may also be submitted. Communications should identify the regulatory docket or notice number and be submitted in duplicate to the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC–24, 800 Independence Avenue, S.W., Washington, D.C., 20591. All communications received on or before November 29, 1976, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Any person may obtain a copy of this notice of proposed rule making (NPRM) by submitting a request to the Federal

V 41 200 OCT 14 76 UM

Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA–430, 800 Independence Avenue, S.W., Washington, D.C. 20591, or by calling (202 426–8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11–2 which describes the application procedure.

The Federal Aviation Regulations do not presently contain specific technical standards for the design and manufacture of airborne Omega receiving equipment. However, several U.S. operators flying international routes have indicated an interest in using airborne Omega receiving equipment as a supplementary navigation aid. Based on this, the FAA considers it appropriate to propose a new Technical Standard Order (TSO) containing minimum standards for airborne Omega receiving equipment.

The Radio Technical Commission for Aeronautics (RTCA) has developed minimum performance standards for airborne Omega receiving equipment that are contained in RTCA Document No. DO–164, titled "Minimum Performance Standards—Airborne Omega Receiving Equipment", dated March 19, 1976. The standards contained in that document, in part, deal with the operation and accessibility of equipment controls and the synchronization, signal tracking, accuracy, and dynamic response characteristics of the equipment. The RTCA standards were developed by a cooperative effort of government and industry organizations. The FAA believes that these standards, with an additional provision relating to equipment fire protection, would provide an acceptable minimum performance stadnard for airborne Omega receiving equipment. Therefore, it is proposed that compliance with the RTCA standard and the fire protection provision be required in order to obtain a TSO authorization for the manufacture of airborne Omega receiving equipment. The proposed TSO also contains necessary environmental, marking, and data requirements and a requirement that all the technical data furnished by the manufacturer to the FAA, except test reports and drawing lists, must be furnished to each user of the equipment.

The rule proposed herein has been reviewed in accordance with Executive Order 11821, titled "Inflation Impact Statements" (39 FR 41501, November 29, 1974) and it has been determined that the preparation of an inflationary impact statement is not necessary.

This amendment is proposed under the authority of sections 313(a) and 601 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a) and 1421) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend Part 37 of the Federal Aviation Regulations by adding a new § 37.205 to read as follows:

§ 37.205 Airborne Omega receiving equipment—TSO–C94.

(a) *Applicability—Minimum performance standards.* This Technical Standard Order prescribes the minimum performance standards that airborne Omego receiving equipment must meet in order to be identified with the applicable TSO marking. Equipment to be so identified must meet the minimum performance standards prescribed in Radio Technical Commission for Aeronautics (RTCA) Document No. DO–164, titled "Minimum Performance Standards-Airborne Omega Receiving Equipment," dated March 19, 1976, and the additional standard specified in paragraph (c) of this section.

(b) *Environmental standards.* RTCA Document No. DO–160 title "Environmental Conditions and Test Procedures for Airborne Electronic/Electrical Equipment and Instruments," dated February 28, 1975, must be used to determine the environmental conditions over which the equipment has been designed to operate.

(c) *Additional standard—Fire protection.* Except for small parts (such as knobs, fasteners, seals, grommets, and small electrical parts) that the Administrator finds would not contribute significantly to the propagation of a fire, all materials used must be self extinguishing when tested in accordance with the requirements of §§ 25.853 and 25.1359 (d), as applicable, and Appendix F to Part 25 of this chapter, effective May 1, 1972, except that the materials may be of a size and be mounted for the test in accordance with paragraph (b) of Appendix F or may be of a size and be mounted as used in the aircraft.

(d) *Markings.* In addition to the markings specified in § 37.7(d), the equipment must be marked as follows:

(1) The environmental categories over which it has been designed to operate as set forth in Appendix A of RTCA Document No. DO–160 must be permanently and legibly marked on the equipment. Where an environmental test procedure is not applicable and the test is not conducted, an "X" must be placed in the space assigned for that category.

(2) Each separate component of equipment (antenna, receiver, controller, etc.) must be permanently and legibly marked with, at least, the name of the manufacturer, the TSO number, and the environmental categories over which it has been tested.

(e) *Data requirements.* In accordance with § 37.5, the manufacturer must furnish to the Chief, Engineering and Manufacturing Branch, Flight Standards Division (or, in the case of the Western Region, the Chief, Aircraft Engineering Division) Federal Aviation Administration, in the region in which the manufacturer is located, one copy of the following technical data, except that additional copies must be furnished upon request:

(1) Manufacturer's operating instructions and equipment limitations.

(2) Installation procedures with applicable schematic drawings, wiring diagrams, and specifications. Any limitations, restrictions, or other conditions pertinent to installation must be included.

(3) List of the components (by part number) that make up the equipment system complying with the standards prescribed in this section.

(4) Equipment data sheets specifying, within the prescribed ranges of environmental conditions, the actual performance of equipment of that type with respect to each performance factor prescribed in the standard.

(5) A drawing list, enumerating all the drawings and processes that are necessary to define the article design.

(6) Manufacturer's test report.

(f) *Data to be furnished with each manufactured unit.* One copy of the data and information specified in paragraphs (e)(1), (e)(2), (e)(3), and (e)(4) of this section must be furnished to each person receiving, for use, one or more articles manufactured under this TSO.

(g) *Availability of referenced documents.* RTCA Document Nos. DO–160, dated February 28, 1975, and DO–164, dated March 19, 1976, are incorporated herein in accordance with 5 U.S.C. 552 (a)(1) and § 37.23, and are available as indicated in § 37.23. Additionally, RTCA Document Nos. DO–160 and DO–164 may be examined at any FAA Regional Office of the Chief, Engineering and Manufacturing Branch (or, in the case of the Western Region, the Chief, Aircraft Engineering Division) and may be obtained from the RTCA Secretariat, Suite 655, 1717 H Street, NW., Washington, D.C. 20006, at a cost of $20.00 per copy for Document No. DO–160, and $16.00 per copy for Document No. DO–164.

Issued in Washington, D.C., on October 6, 1976.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[14 CFR Part 39]

[Docket No. 76-NE-28]

PRATT & WHITNEY AIRCRAFT MODEL JT8D ENGINES

Supplemental Notice of Proposed Rulemaking

In the August 2, 1976, issue of the FEDERAL REGISTER (41 FR 32238), the Federal Aviation Administration published a Notice of Proposed Rulemaking Airworthiness Directive requiring the removal of eighth stage compressor disk, P/N 496908, on Pratt & Whitney Aircraft Model JT8D engines prior to reaching 6000 cycles in service after the effective date of this AD, or by December 31, 1977, whichever comes later.

This supplemental document clarifies the intent of the notice by advising the public that the 6000 cycles in service is the total number of accumulated cycles in service. Accordingly, the wording of the notice is being revised to remove the eighth stage disk prior to reaching 6000 cycles in service since new.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, New England Region, Office of the Regional Counsel, 12 New England Executive Park, Burlington, Massachusetts 01803. All communications received on or before October 26, 1976 will be considered before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Office of the Regional Counsel, for examination by interested persons.

This amendment is proposed under the authority of Sections 313(a), 601, and 603, of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423), and Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend Section 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

PRATT AND WHITNEY AIRCRAFT. Applies to all Pratt & Whitney Aircraft JT8D–1, –1A, –1B, –7, –7A, –7B, –9, –9A, and –11 turbofan engines containing eighth stage compressor disk, P/N 496908.

Compliance required as indicated.

To prevent possible failure, remove from service the eighth stage compressor disk, P/N 496908, prior to reaching 6000 cycles in service since new, or by December 31, 1977, whichever comes later. The established life limit of 11,000 cycles is not to be exceeded.

Issued in Burlington, Massachusetts on September 30, 1976.

QUENTIN S. TAYLOR,
Director, New England Region.

National Highway Traffic Safety Administration

[49 CFR Part 571]

[Docket No. 74–20; Notice 7]

REARVIEW MIRRORS

Petition for Extension of Comment Period

This notice extends until November 10, 1976, the comment closing date for comments to a notice of proposed rulemaking published August 26, 1976 (41 FR 36037). That notice proposed the amendment of Standard No. 111, Rearview Mirrors, to provide for the optional use of plane and convex mirror combinations on certain motor vehicles. The original comment closing date was October 11, 1976.

This extension of time to comment is in response to a petition from the Truck Safety Equipment Institute (TSEI). TSEI requested an extension of 30 days to enable them to conduct necessary testing and analysis of the proposed changes. The Institute stated that it needed additional time to study the subject of maximum and minimum radii of curvature of convex mirrors and to develop its comments concerning feasibility of consumer use and practicability of manufacturing.

The notice of proposed rulemaking specified the minimum 45-day period for public comment in order to allow sufficient time to issue a final rule with an effective date coordinated with the February 26, 1977, effective date of the amendments to Standard No. 111 published August 26, 1976 (41 FR 36023).

The NHTSA has determined that the request by TSEI for an extension of time to comment on the proposed amendment is justified. The petition is granted and the comment closing date is hereby extended until November 10, 1976.

(Secs. 103, 119, Pub. L., 89–563, 80 Stat. 718 (15 U.S.C. 1392, 1407); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8.)

Issued on October 7, 1976.

ROBERT L. CARTER,
Associate Administrator,
Motor Vehicle Programs.

CIVIL AERONAUTICS BOARD

[14 CFR Part 207]

[EDR-307, Docket No. 29898, Dated October 7, 1976]

CHARTER TRIPS AND SPECIAL SERVICES

Off-Route Charter Limitations

Notice is hereby given that the Civil Aeronautics Board has under consideration amendments to Part 207 of its Economic Regulations (14 CFR Part 207) which would modify the off-route charter restrictions by raising the volume restriction, eliminating the frequency and regularity restrictions on interstate and overseas off-route charters, eliminating the regularity restriction and altering the frequency restriction on foreign off-route charters, and eliminating the all-cargo carriers' privilege of operating off-route charters without restriction in certain "areas of operations."

The principal features of the proposed amendments are described in the Explanatory Statement. The amendments are proposed under the authority of sections 204 and 401 of the Federal Aviation Act of 1958, as amended (72 Stat. 743 and 754, 49 U.S.C. 1324 and 1371).

Interested persons may participate in the rulemaking through the submission of twenty (20) copies of written data, views or arguments pertaining thereto, addressed to Docket 29898, Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material received on or before November 29, 1976, will be considered by the Board before taking final action on the proposed rules. Copies of such communications will be available for examination by interested parties in the Docket Section of the Board, Room 711, Universal Building, 1825 Connecticut Avenue, N.W., Washington, D.C., upon receipt thereof.

Individual members of the general public who wish to express their interest as consumers by participating informally in this proceeding may do so through submission of comments in letter form to the Docket Section at the address indicated above, without the necessity of filing additional copies thereof.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

EXPLANATORY STATEMENT

The Board has received seven petitions requesting the amendment of various provisions of Part 207 of the Board's Economic Regulations (14 CFR 207) relating to the "on-route" and "off-route" charter authority of U.S.-scheduled air carriers. Section 207.1 defines "on-route" and off-route" charters, and sets forth restrictions on the frequency, regularity, and volume of off-route charters.[1]

Generally, those restrictions are designed to deter scheduled carriers from engaging in off-route charter activities which are disproportionate to their certificated route activities, and to protect other scheduled carriers and supplemental air carriers from diversion by the off-route charter activities of scheduled carriers.

The frequency and regularity restrictions prohibit a carrier from arranging its off-route charter activities so that the result is a uniform pattern or consistency of operations. The volume restriction limits the volume of off-route charters to 2 percent of a carrier's base revenue plane-miles flown by that carrier during the preceding calendar year.[2] However, there are other provisions modifying the applicability of either or both of these restrictions. Thus the effect of provisos in §§ 207.6 and 207.7a is that an all-cargo carrier may operate cargo charters without regard to either limitation whether such charters are on-route or off-route so long as the cargo charter is within its defined "area of operations." The applicability of the off-route charter restrictions is also modified by the definitions of "transatlantic charter trip," "transpacific charter trip," and "Hawaiian charter trip," making each of those areas a single point for purposes of applying the off-route charter frequency and regularity limitations to flights outside of the particular countries where a carrier has certificated authority.

The rulemaking petitions may be summarized as follows:

1. The petition of the Office of the Consumer Advocate (OCA) filed on August 14, 1975, in Docket 28181 seeks to revoke § 207.7a, which sets forth restrictions limiting the frequency and regularity of off-route charters by certificated carriers.[3] In support of its petition OCA argues that due to the strengthened route systems of the trunks and the local service carriers, there is no more need to protect those carriers through frequency and regularity restrictions. In addition, OCA asserts that the restrictions are complicated, difficult to administer, and uneconomic. Answers filed by Allegheny Airlines, Inc. and Continental Air Lines, Inc. support the petition. Hawaiian Airlines, Inc., Trans World

[1] Passenger charters by all-cargo carriers are generally defined as "off-route," for the purpose of off-route charter restrictions regardless of the geographical route (§ 207.1).

[2] As defined in § 207.1, "base revenue plane miles" means revenue mileage operated by an air carrier in scheduled services, extra sections, and on-route charter trips or special services.

[3] OCA also filed a motion for contemporaneous consideration of Dockets 28058, 28204, and 28181. In view of the action taken herein, that motion is hereby granted.

V41N200 OCT 14 76 UMI

Airlines, Inc. (TWA), and the National Air Carrier Association (NACA) filed answers in opposition.

2. The petition of certain local service carriers,[4] filed on July 9, 1975, in Docket 28058 seeks to increase their allowable off-route charter mileage. Those carriers propose to amend § 207.5 by increasing the allowable off-route charter mileage from two percent of their base revenue plane miles to five percent of the first 50 million miles plus two percent of all base revenue plane miles exceeding 50 million. In support of their petition they allege that the two-percent limitation is unfair in that it gives the most off-route charter mileage to the larger route carriers, and that due to changed circumstances the reasons given by the Board in 1964 for reducing the off-route mileage limitation to two percent are no longer persuasive. Answers supporting this petition were filed by Airlift International, Inc. and certain Las Vegas parties.[5] An answer opposing the petition was filed by NACA.

3. The petition of Pan American World Airways, Inc., filed on October 30, 1975, in Docket 28450 requests that the Board amend §§ 207.5 and 207.7a so as to afford combinations carriers the same broad authority enjoyed by all-cargo carriers under § 207.6 to perform off-route cargo charters without limitation in designated "areas of operations." In the alternative, Pan American's petition suggests that parity of treatment between combination and all-cargo carriers be achieved by eliminating the all-cargo carriers' special privilege to operate limitless off-route cargo charters within their areas of operations. In support of its petition, Pan American argues that the circumstances originally justifying the establishment of areas of operations for all-cargo carriers have changed, and that all-cargo carriers are no longer the exclusive specialists in large-volume freight movements. Therefore, petitioner contends, the preference enjoyed by all-cargo carriers in their off-route charter authority is anachronistic and should be abolished. NACA and Seaboard World Airlines filed answers opposing the petition.

4. The petition of Trans International Airlines, Inc. (TIA), filed on January 7, 1976, in Docket 28729 seeks to amend §§ 207.6 and 207.7a so as to abolish the "area of operations" of The Flying Tiger Line, Inc. (FTL).[6] TIA argues, as does Pan American, that the circumstances previously justifying the adoption of areas of operations for all-cargo carriers no longer exist. The all-cargo carriers, TIA alleges, have now "realized the potential of their lucrative scheduled routes." While FTL has decreased its reliance on cargo charters in the transpacific area, petitioner continues, TIA has increased its cargo capability. Petitioner thus argues that the Board should abolish FTL's area of operations and allow TIA to develop more fully its cargo charter service in the transpacific area. No answers were filed in response to the petition.

5. The petition of Pan American filed on May 16, 1975, in Docket 27855 seeks a redefinition of "off-route" in § 207.1. The definition sought by Pan American would narrow the concept of "off-route" charters, thereby expanding "on-route" authority to include charter service between any two countries named in a carrier's certificate of public convenience and necessity. As justification Pan American asserts that because of its limited domestic route system, the off-route limitations impose greater restrictions on it than on other carriers; that its base revenue plane miles have decreased, rendering the two-percent ceiling even more onerous; and that seat miles would provide a "more meaningful" standard than revenue plane miles. TWA and NACA filed answers opposing the petition. United Air Lines, Inc. filed a consolidated answer in this and related petitions recommending the elimination of both volume and frequency/regularity restrictions.

6. The petition of the National Air Carrier Association (NACA) filed on August 21, 1975, in Docket 28204 seeks to alter the authority of scheduled carriers to operate both on-route and off-route charters. NACA proposes to narrow the definition of "on-route" in § 207.1 to authorize on-route charters only between points between which a certificated carrier actually provides single-plane scheduled service. The petition also proposes to amend §§ 207.5 and 207.7a by adding provisos that would allow off-route charters otherwise precluded by those sections, subject to a right of first refusal in the supplementals. NACA argues that the present definition of "on-route" causes injury to the supplementals and fails to carry out the Board's announced policy goals. An answer opposing the petition was filed by certain local service carriers.[7]

7. The petition of National Airlines, Inc., filed on September 15, 1975, in Docket 28312 seeks, essentially, clarification or modification of the term "on-route," and a declaratory judgment on the question whether the Board may impose restrictions on the on-route charter authority of certificated carriers only after notice and hearing. In support of its petition National asserts that previous Board discussions of the meaning of "on-route" disclose ambiguity as to its scope. Answers opposing this petition were filed by the local service carriers[8] and TWA. Delta filed an answer supporting the petition.

The first four petitions summarized above are addressed to the frequency, regularity, and volume restrictions. Since the adoption of those restrictions, both the supplemental and scheduled carriers have developed to a point where they no longer need the stringent economic protection afforded by the off-route charter restrictions. The supplemental carriers have been growing steadily. In 1967, the supplementals generated only slightly more than one-third of the total passenger charter revenue; by 1974 their share of that revenue had increased to almost one-half.[9] At the same time, the route systems of the trunklines have been strengthened by route awards, deletion of uneconomic routes, and by air carrier mergers. In light of this economic development, the Board is of the opinion that increased charter competition would significantly benefit the traveling public without necessarily causing undue hardship to either the supplemental or the scheduled carriers.

Although the off-route charter restrictions minimize diversion from scheduled service, they also serve to hinder carriers in the development of efficient, competitive charter programs designed to meet the needs of the traveling public. Charter travel is becoming an increasingly important part of the air transportation industry, and the Board finds it desirable to encourage the development of more efficient and economic charter programs. The Board therefore proposes to amend the off-route charter restrictions as set forth below.

VOLUME RESTRICTIONS

The Board is of the opinion that an increase in allowable volume of off-route passenger charters would give the scheduled carriers, especially the local service carriers, a better chance to compete in the expanding charter market. Therefore, the volume restrictions on passenger charters would be increased to 5 percent of the first 50,000,000, plus 2 percent of the remaining, base revenue plane miles (excluding all-cargo flights) flown by a carrier during the preceding calendar year. Volume restrictions on cargo charters performed by combination carriers would be set at 10 percent of the all-cargo base revenue plane-miles flown by a carrier during the preceding calendar year.

The Board is persuaded by the arguments of Pan American and TIA that the circumstances originally justifying the establishment of areas of operations, within which all-cargo carriers may operate off-route charters without limitation, no longer exists. The elimination of the all-cargo carriers' areas of operations, along with the increase in the allowable volume of off-route cargo charters, would help equalize the competitive positions of combination carriers vis-a-vis all-cargo carriers. The all-cargo carriers' areas of operations would be eliminated, but the volume restrictions on off-route charters by all-cargo carriers would be increased to 10 percent of the base revenue plane-miles flown by a carrier during the preceding calendar year.[10]

FREQUENCY AND REGULARITY RESTRICTIONS

The regularity restrictions would be completely eliminated. This would allow the operation of the most efficient and economic type of charter program in which a carrier's charter flights are planned so as to minimize the necessity of costly ferry flights.

The frequency restrictions would be eliminated for domestic and overseas charter operations, but retained for international off-route charters as follows:

1. With respect to foreign countries other than Canada or Mexico, an air carrier could operate[11] off-route charter trips or special services without limitation as to frequency between any point or points in the United States and any point or points in a particular foreign country or countries during any calendar month during which the air carrier provided scheduled service between a point in the United States and a point in each such foreign country.

2. With respect to Canada and Mexico, an air carrier could operate off-route charter trips or special services without limitation as to frequency between any point or points in a particular State or territory of the United States and any point or points in a particular province or territory of Canada, or in a particular state of Mexico (including the Federal District), during any calendar month during which the air carrier provided scheduled service to at least one point in each such State, territory, or province.

3. Except as provided above, the following frequency limitations would apply:

(a) An air carrier could operate not more than two off-route passenger charter trips or special services between a particular point in the United States and a particular point in a foreign country during any calendar month during which another United States certificated air carrier were providing single-plane scheduled passenger service between the points in question. During any calendar month or months during which no other United States certificated air carrier were providing such scheduled passenger service between the points in question, an air carrier could operate not more than two off-route passenger charter trips or special services per calendar week between such points.

(b) An air carrier could operate not more than two off-route cargo charter trips or special services between a particular point in the United States and a particular point in a foreign country during any calendar month during which another United States certificated air carrier were providing single-plane scheduled all-cargo service between the points in question. During any calendar month or months during which no other United States certificated air carrier were providing scheduled all-cargo service between the points in question, an air carrier could operate not more than two off-route cargo charter trips or special services per calendar week between such points.

The above conditions would serve two purposes. First, they would raise the level of international off-route charter authority of the U.S. scheduled carriers to each country they serve to more closely approximate the authority granted to the U.S. supplemental carriers and to the foreign carriers of such countries. Second, they would channel the expanded international charter authority of scheduled carriers not certificated to particular foreign countries into city-pair markets not already developed.

In light of the proposed changes in the frequency and regularity limitations, the definitions of "Hawaiian charter trip," "transatlantic charter trip," and "transpacific charter trip" would no longer be applicable, and would therefore be revoked.

DEFINITIONS OF "ON-ROUTE" AND "OFF-ROUTE"

The Board is of the opinion that it would be unnecessary to propose changes in the basic definitions of "on-route" or "off-route" in order to bring about the desired changes in off-route charter authority, and therefore is not proposing to amend those definitions at this time. National's petition, however, requests clarification of "on-route," and specifically raises the question whether "on-route" charters include charters between any two points in a carrier's certificate of convenience and necessity, and in its exemption authority. Although petitioner asserts that Board statements have been ambiguous on that points, the Board is not persuaded that any clarification is necessary. As National's petition indicates, the Board has already construed the term "on-route" to permit a carrier to operate unrestricted charters between any two points in its certificate of public convenience and necessity or in its exemption authority between which service is authorized. For example, National quotes the following Board statement:

> In this regard it is significant that the adopted restrictions apply only to "off-route" charters and that under Part 207 definitions (see § 207.1) a charter is not off-route if it is between points which a carrier holds authority to operate. There is no requirement that the authority between these points be to provide nonstop service or that the points between which service is authorized be on the same route segment or on the same route. Thus a carrier with domestic and foreign routes between which it can provide scheduled service via a junction point can operate charters between points on these routes free from the restrictions adopted herein. ER-443, 30 FR 11382 (September 8, 1965).

The Board finds that this interpretation of the term "on-route" is sufficiently clear to render unnecessary a clarifying amendment. To the extent that particular questions may arise as to a carrier's "on-route" authority, specific interpretations may be requested.

National also petitioned for a "declaratory judgment" on the question whether the Board may restrict a certificated carrier's on-route charter authority without notice and hearing. The Board considers it more appropriate to address that question with reference to particular circumstances in which such restrictions are being proposed. Since the Board is not proposing any modification of the term "on-route," or any other amendments that would affect any carrier's on-route charter authority, that question is not germane to the proceeding.

In light of the foregoing, the Board hereby grants the following rulemaking petitions, with the modifications discussed above:

1. The petition of the Office of the Consumer Advocate in Docket 28181.
2. The petition of the local service carriers in Docket 28058.
3. The petition of Pan American World Airways, Inc. in Docket 28450.
4. The petition of Trans International Airlines, Inc. in Docket 28729.

Those four proceedings are hereby consolidated into Docket 29898, which has been opened with respect to this proposed rule.

The following rulemaking petitions are hereby denied:

1. The petition of Pan American World Airways, Inc. in Docket 27855.
2. The petition of the National Air Carrier Association in Docket 28204.
3. The petition of National Airlines, Inc. in Docket 28312.

PROPOSED RULE

The Board proposes to amend Part 207 of its Economic Regulations (14 CFR Part 207) as set forth below.

---

[4] Allegheny Airlines, Inc., Hughes Air Corporation d/b/a Hughes Airwest, North Central Airlines, Inc., Ozark Air Lines, Inc., Piedmont Aviation, Inc., Southern Airways, Inc., and Texas International Airlines, Inc.

[5] Clark County, Nevada, the Greater Las Vegas Chamber of Commerce, the City of Las Vegas, the Nevada Resort Association, and the Las Vegas Convention/Visitors Authority.

[6] TIA also filed a Motion to Consolidate that petition with The Flying Tiger Transpacific Renewal Case, Docket 28656. The motion was denied on February 13, 1976 by Order 76-2-48.

[7] Listed at note 3, supra.

[8] Listed at note 3, supra.

[9] Handbook of Airline Statistics, 1973; Air Carrier Traffic Statistics and Air Carrier Financial Statistics, dated December 1974.

[10] By applications filed September 9, 1975, and May 13, 1976, The Flying Tiger Line Inc. (FTL), an all-cargo carrier, requested waivers to permit the operation of planeload cargo charter flights in certain markets not served by scheduled U.S. freighter service without being limited to a percentage of its base revenue plane-miles flown in the previous year. Answers opposing the September 9 application, in whole or in part, were filed by Western Air Lines, Inc. (Western), American Airlines, Inc. (American), Northwest Airlines, Inc (Northwest), Pan American, NACA, Saturn Airways, Inn. (Saturn), TWA, and Airlift International, Inc. (Airlift). Answers opposing the May 13 application, in whole or in part, were filed by American, Pan American, NACA, Saturn, TWA, and Airlift. Seaboard World Airlines, Inc. (SWA) filed answers in support of both of FTL's applications and requested similar waivers. The Board is unable to find that either FTL or SWA has shown special or unsual circumstances warranting the grant of such blanket waivers, and the Board finds that the issues raised in the applications would be more properly addressed in the instant rulemaking proceeding. Therefore, the applications of FTL and SWA for waivers of the off-route charter volume limitations are hereby denied.

[11] For purposes of this restriction, a charter's operation date would be the date of departure of the initial revenue flight leg.

V41200 OCT 14 76 UMI

1. The Table of Contents would be amended to reflect the title change of § 207.7a as follows:

PART 207—CHARTER TRIPS AND SPECIAL SERVICES

Sec.

* * * * *

207.7a Restriction on frequency of off-route charter trips and other special services in foreign air transportation.

* * * * *

§ 207.1 [Amended]

2. Section 207.1, Definitions, would be amended as follows:

a. The definitions of "Hawaiian charter trip," "transatlantic charter trip" and "transpacific charter trip" would be revoked and deleted.

b. The following new definitions would be added in proper alphabetical sequence, to read as follows:

* * * * *

"Cargo charter trip" or "cargo special service" means a charter trip or special service for the transportation of property and authorized cargo attendants only.

* * * * *

"Passenger charter trip" or "passenger special service" means a charter trip or special service for the transportation of persons and their accompanied baggage.

* * * * *

3. Section 207.5 would be revised to read:

§ 207.5 Limitation on amount of charter trips which may be performed by combination carriers.

(a) No combination carrier shall, during any calendar year, perform off-route passenger charter trips which in the aggregate exceed the total of 5 percent of the first 50,000,000, plus 2 percent of the remaining, base revenue plane miles (excluding all-cargo flights) flown by it during the preceding calendar year.

(b) No combination carrier shall, during any calendar year, perform off-route cargo charter trips which in the aggregate exceed 10 percent of the base revenue all-cargo plane miles flown by it during the preceding calendar year.

4. Section 207.6 would be amended by revoking paragraph (c), and by revising paragraph (b) to read as follows:

§ 207.6 All-cargo carriers: Limitation on amount of charter trips which may be performed.

(a) [Reserved]

(b) No all-cargo carrier shall, during any calendar year, perform off-route charter trips which in the aggregate exceed 10 percent of the base revenue plane-miles flown by it during the preceding calendar year.

(c) [Reserved]

5. Section 207.7a, Restriction on frequency and regularity of off-route charter trips and other special services, would be retitled and revised to read:

§ 207.7a Restriction on frequency of off-route charter trips and other special services in foreign air transportation.

An air carrier may perform off-route charter trips or special services in foreign air transportation, between any pair of points, only in accordance with the following limitations. For purposes of this section, a charter is operated on the date of departure of the initial revenue flight leg.

(a) With respect to foreign countries other than Canada or Mexico, an air carrier may operate off-route charter trips or special services without limitation as to frequency between any point or points in the United States and any point or points in a particular foreign country or countries during any calendar month during which the air carrier provides scheduled service between a point in the United States and a point in each such foreign country.

(b) With respect to Canada and Mexico, an air carrier may operate off-route charter trips or special services without limitation as to frequency between any point or points in a particular State or territory of the United States and any point or points in a particular province or territory of Canada, or in a particular state of Mexico (including the Federal District), during any calendar month during which the air carrier provides scheduled service to at least one point in each such State, territory, or province.

(c) Except as provided in paragraphs (a) and (b) of this section, the following frequency limitations shall apply:

(1) An air carrier may operate not more than two off-route passenger charter trips or special services between a particular point in the United States and a particular point in a foreign country during any calendar month during which another United States certificated air carrier is providing single-plane scheduled passenger service between the points in question. During any calendar month or months during which no other United States certificated air carrier is providing such scheduled passenger service between the points in question, an air carrier may operate not more than two off-route passenger charter trips or special services per calendar week between such points.

(2) An air carrier may not operate more than two off-route cargo charter trips or special services between a particular point in the United States and a particular point in a foreign country during any calendar month during which another United States certificated air carrier is providing single-plane scheduled all-cargo service between the points in question. During any calendar month or months during which no other United States certificated air carrier is providing such scheduled all-cargo service between the points in question, an air carrier may operate not more than two off-route cargo charter trips or special services per calendar week between such points.

[SPDR-50, Docket No. 29165, Dated October 7, 1976]

CHARTER OPERATIONS INCLUDING LICENSING OF CHARTER OPERATORS

Advance Notice of Proposed Miscellaneous Provisions

Notice is hereby given that the Civil Aeronautics Board has under consideration rulemaking action with respect to the various suggestions for regulatory action affecting general charter operations, which have been set forth in a petition by the Board's Office of Consumer Advocate (OCA). The petition requests rules which would: (1) Regulate the terms of the contracts between charter operators and members of the public who travel by means of such charters ("participants"); (2) impose a wide range of liabilities on charter operators for various aspects of the charters; and (3) license persons operating or organizing charter flights under the Board's special regulations ("operators").

This advance notice of proposed rulemaking is being issued to invite participation by the industry (including air carriers, foreign air carriers, and travel agents), interested governmental agencies, consumer organizations, and members of the general public, in the Board's efforts to determine whether or not all or any of the rules requested by the petition should be considered for possible adoption by the Board, with or without modification, and in one or more separate proceedings.

The Board's tentative views with respect to the many issues raised by the petition are described in the attached Explanatory Statement. This advance notice is issued under the authority of sections 101, 204, 401, 402, 403, and 416 of the Federal Aviation Act of 1958, 72 Stat. 737, 743, 754, 757, 758, 771, as amended, 49 U.S.C. 1301, 1324, 1371, 1372, 1373, 1386.

Interested persons may participate in the proposed rulemaking through submission of 20 copies of written data, views, or arguments addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All comments received on or before November 29, 1976, and reply comments received on or before December 20, 1976, will be considered by the Board before taking further action. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 711, Universal Building, 1825 Connecticut Avenue, NW., Washington, D.C., upon receipt.

Those persons planning to file comments or responsive comments who wish to be served with such comments filed by others, and are willing to undertake to serve their comments on others, shall file with the Docket Section at the above address by October 26, 1976, a request to be placed on the Service List in Docket 29165. The Service List will be prepared by the Docket Section and sent to the persons named on it. Those persons are to serve each other with comments or responsive comments at the time of filing.

A list of all persons filing comments will be prepared by the Docket Section and sent to the persons named on it. In addition to those on the Service List who filed comments, persons filing responsive comments should also serve any person whose comment is dealt with in their responsive comments.

Individual members of the general public who wish to express their interest as consumers by participating informally in this proceeding may do so through submission of comments in letter form to the Docket Section at the above address, without the necessity of filing additional copies.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,[1]
Secretary.

EXPLANATORY STATEMENT

The petition. The OCA petition stated that the rate of complaints submitted to that office concerning the operation of charters is growing both absolutely and relative to the total number of complaints: 913 complaints, representing 8 percent of the total for calendar year 1975; 240, representing 11 percent of the total for the period January 1 to March 15, 1976. The petition noted the increase in charter flights, particularly since the initiation of One-stop-inclusive Tour Charters (14 CFR Part 378a),[2] and concluded that the volume of complaints could be expected to grow. The main subjects of complaint have been requests for refunds, unsatisfactory land packages, application of regulatory requirements, and charter flight and itinerary changes.

OCA asserted that typical charter contracts contain insufficient protection for participants. The petition suggested regulatory provisions substantially as follows:

(1) Contracts pertaining to charters would be prescribed by regulation, between participants and operators, operators and carriers, and operators, carriers, and depository banks.

(2) The operator-participant contract would describe all the major features of the charter, including names of operators and carriers, dates, itinerary, ground arrangements, and price.

(3) A change in any component part of a tour would require a complete refund unless the participant agreed in writing to the change.

(4) Full refunds would be granted in the event of documented serious illness, accident, or death of a participant or a member of his immediate family.

[1] Minetti and West, members, filed concurrence statement as part of the original document.

[2] Although the petition did not specify those charter rules which should be amended, we read it as a request for revision of all of the Board's "special charter rules," i.e., charters operated by indirect air carriers exercising operating authority conferred under an appropriate Pat of our Special Regulations.

(5) Official notice to each participant by registered mail would be required in the event of cancellation, and the 60-day period for filing refund claims against the surety would not begin to run until such notice was received.

(6) Upon cancellation, the carrier would return any money received to the depository bank, if there were an escrow security arrangement, which would forward it to the participants. Any cancellation penalties payable to the carrier would be paid directly by the operator. Refunds to participants would be due within 7 days of cancellation, with a 10 percent penalty for later payment.

(7) All solicitation material would identify the operator by name, address, and license number.

(8) If the departure or return of the charter flight were delayed for more than 4 hours for domestic flights and 6 hours for international flights, each participant would be reimbursed by the operator at the rate of 25 dollars per additional hour.

(9) Overbooked participants would be entitled to refund of the charter air transportation cost, plus free transportation by scheduled service to the destination cities, paid for by the operator.

(10) Present bonding requirements would be replaced by open-ended surety bonds that assured operator performance with a depository arrangement as an alternative.

(11) The operator would be liable to the participant for "every aspect of the charter trip," including nonperformance of contracted services, and all injuries or property damage arising from the negligence of any person rendering services in connection with the trip. Liability insurance would be provided by the operator for baggage, and for personal injury related or unrelated to air transportation.

The OCA petition also advocated the formal licensing of operators as a prerequisite to their organizing charter flights. The petition argued that this was needed to "insulate" consumers from "persistent violators, those who operate tours substantially different from tours proposed and sold, those involved in anticompetitive agreements, and those that are undercapitalized or in a financially untenable position." OCA cited licensing procedures as a way of facilitating "enforcement against disreputable tour organizers who persistently fail to comply with the regulations." The suggested licensing procedure would require the submission of identifying and financial information. OCA stated that the current enforcement procedures are tediously slow, administratively burdensome, and ineffective, and that licensing would offer a swift sanction and potent deterrent to improper business practices.

The petition also suggested that, with licensing in force, it would not be necessary to review the prospectuses for each charter flight. A summary prospectus would presumably be sufficient to cover a group of charters assembled by the same operator.

Answers to the petition were filed by seven operators and two operator associations, two scheduled and three supplemental air carriers, and the American Society of Travel Agents[3]

Most of the answers questioned the validity of the statistics presented by the OCA petition as justification for the new suggested requirements. They pointed out that the complaint categories used by OCA did not separate charters that involve operators from other types of charters or tours that do not, such as affinity-group charters or tour packages via scheduled air carrier services. Many of the answers argued that charter tours are no more in need of regulation than tours via scheduled services. Almost all of the answers opposed the idea of making the operator liable for mishaps, delays, or nonperformances over which he has no control, on the grounds that it would add unnecessarily to the cost of charter travel, and to some extent eliminate the differences that result in the cost advantage of charter travel over scheduled service.

The Board considers protection of the traveling public's interests to be of paramount importance. To the extent that this can be done by regulations that simply have the effect of prohibiting deceptive or otherwise unprincipled behavior, or of preventing or deterring negligent misconduct, on the part of those offering goods or services to the public, it should be done without hesitation. Unfortunately, however, regulations that fully meet that description are rare; most regulations involve costs. The assessment of those costs is crucially important to a regulatory agency that would act in the consumer's interest, for the reason that the consumer pays substantially all the costs, regardless of where they are initially imposed. The desire of the traveling public for lower-priced air transportation has been very strongly expressed to the Board. It is thus not sufficient to ask whether protection is desirable, or even whether the proposed regulation will succeed in providing it; we must also ask whether, in our judgment, the value of the protection received exceeds its cost to the consumer.

Mandatory contract terms. The OCA petition (item 1) sugested that the Board prescribe the contract between the various parties involved in a charter flight, and that staff review of each contract thereafter would be unnecessary. Several different issues are contained in this aspect of the petition.

1. *Operator-carrier contracts.* The justifications offered in the petition for the suggested rules, viz., the protection of individuals traveling by charter flight,

[3] The commenters, in their respective classifications were: Nationwide Leisure Corporation, American Leadership Study Groups, Vacation Ventures/Carefree Travel, Inc., Charter Travel Corporation, American Institute for Foreign Study, Inc., Pathfinder Corporation, American Automobile Association, Inc., Unitours, Inc., and David Travels, Inc.; Airline Charter Tour Operators Association, and United States Tour Opeators Association, Inc.; American Airlines, and Delta Air Lines; Overseas National Airways, Trans International Airlines, Inc., and World Airways, Inc.

V41200 OCT 14 76 UMI

did not bear directly on the matter of prescribing the contract between the operator and the direct air carrier, and the reason for prescribing such contracts is not obvious. Several answers argued against such a provision, on the grounds that it is not necessary to so restrict competition in this area, and that carriers should be free to compete by offering more liberal charter contract terms to operators. The Board agrees that no sufficient justification has been shown for a prescribed form of charter contract, which would prevent carriers from competing with one another in offering terms to charter operators, and, absent justification, the request should be denied. There was some comment by operators that the present contracts demanded by air carriers are unfair in that the carriers are free to raise their prices regardless of the contracts, and are similarly unfair to the operators in the event of force majeure or labor-dispute cancellations. The Board recognizes that some provisions of the present charter contracts may merit further regulatory attention, with a view to eliminating unfair aspects, and invites comments on specific provisions.

2. *Depository and surety provisions.* In the area of the agreement between the operator, the direct air carrier, and depository bank and the revision of the surety provisions suggested in OCA's item 10, the Board considers that a review of existing rules is called for, and has already initiated staff action to study the matter and make recommendations. The petition on this point has thus been anticipated. There was nothing in the petition, however, and the Board is not aware of additional evidence, to indicate that the situation requires immediate rectification; and we are therefore inclined to believe that we should wait for and consider the staff study before taking rulemaking action.

3. *Operator-participant contracts.* The petition asked that the Board "prescribe" the contract between the operator and the participants. This refers, of course, to the provisions other than the main features of the charter, which change with each tour. The Board tentatively agrees that some of the provisions of these contracts might usefully be standardized; and, indeed, we are currently awaiting various staff proposals for such standardization. The Board has also directed the staff to submit for our consideration some basic, detailed, "form" provisions that will make it possible for the Board to review prospective contracts more effectively. However, adequate justification for mandatory complete standardization of all provisions of operator-participant contracts has not been presented, and the Board is therefore not prepared to commit itself to that course at this time. Some of the specific provisions that OCA argued should be contained in these contracts are discussed below.

Insurance-type provisions. Several of the requirements suggested by OCA take the form of insurance, directly or indirectly. Item 11 would impose on the operator liability without fault for all nonperformance of services contracted for by businesses involved in the tour, and for any damages incurred on the tour. Similarly, item 8 would require payment at a high rate by the operator for flight delays of more than a few hours. Since these involve money payments to the participant as a result of a contingency, they would be paid for by each participant as an increment of the charter price to cover the added operator costs; they are therefore, in essence, a form of insurance that each participant would be required to purchase.

Commercially successful insurance depends on a positive margin between costs (i.e., premiums) and benefits (payouts for the insured loss). Sometimes purchasers are willing to pay more than the benefit may be worth (the prospective payout times the probability of receiving it) in order that they will not have to face the prospect of loss. But where relatively small amounts of money are involved, whose loss would not be catastrophic, regulation-forced insurance unnecessarily limits the consumer's freedom of choice. Not only is he foreclosed from deciding whether the risk is worth insuring against (insofar as the risk is now commercially insurable) but the "premium" he pays as part of the price of his travel is based on the average claims of all travelers, and not on his needs alone. Furthermore, imposing a regulatory liability on the operator leads to the most inefficient kind of insurance, since the operator has little control over the contingencies insured against, and cannot reduce costs by being more careful.

For these reasons, the Board is tentatively of the view that there is substantial doubt as to whether items 8 and 11 of the suggested charter contract would really be in the interest of consumers, since all of them would ultimately bear the costs, regardless of individual preference.

Although passengers on flights undoubtedly find delays to be annoying and inconvenient, no justification has been shown for an insurance-type remedy contemplated by item 8. As pointed out in several carriers' answers to the petition, flight delays are often due to factors such as mechanical difficulties or weather that cannot be prevented, so the behavior-modification effect of the penalties would be minimal. To force participants to pay more for their charter flights so that they may receive penalty payments for delays would partially defeat one of the main aspects of the charter "bargain."

Item 11 is more complex; it includes some types of insurance coverage that may be desirable to consumers. Collecting it all under an umbrella liability of the tour organizer, however, is likely to be inefficient, expensive, and freedom-limiting for the consumer. Such a plan would include large elements of double coverage. For example, many charter participants have insurance coverage for their baggage as part of their continuing personal insurance package. Where they do not have these types of insurance, they can readily purchase one or more such types measured to their own needs, on a short-term basis to cover a trip. It is not entirely clear what types of "nonperformance" by businesses providing services to the charter participants were intended by the petition to be covered, but this type of insurance coverage, obtained nominally by the tour organizer and paid for ultimately by the consumer, would be expensive (as indicated in many of the answers), in light of the wide range of defaults involved.

For these reasons, we are inclined to the view that the proposals constituting item 8 and 11 of the petition's suggested liability rules should not be adopted. However, we specifically invite comments on all questions of operators' liability for nonperformance or misperformance in connection with charter flights and tours.

Cancellation and refund rights because of changes. Item 2 of the petition would require the operator-participant contract to describe all the major features of the charter, including names of operators and carriers, dates, itinerary, ground arrangements, and prices. Item 3 would provide that "a change in any component part of the tour (price, origin, destination, hotel, air carrier, ground arrangements, or itinerary) shall automatically and immediately give rise to a complete refund unless the tour participant agrees in writing to accept such a change." These two items are both elements of the same proposed scheme and are considered together. The problem of changes in the tour plans is a difficult one, and to some extent inherent in the concept of tours, with the requirements for extensive advance arrangements by the operator for many aspects of the "ground package," as well as the uncertainties incident to contracting for plane capacity many months in advance without detailed knowledge as to the number of participants who will finally travel. On the one hand, the traveling public certainly has a right to receive substantially what it contracts for, although a certain amount of latitude may be explicitly provided for in the contract. On the other hand, as pointed out in many of the answers, late changes in tour arrangements are often entirely beyond the control of the operator, and the need for some adjustment in a tour package might be reasonably anticipated. A rule that gave each participant a right to a complete refund for any change in the plans, no matter what its nature, would be unfair, not only to the operator but also to the other participants, and could lead to confusion and argument over whether a change actually took place.

The question is not simply one of holding the operator to high standards of behavior. The charter rules limit (differently in the various charter forms) the rights of the operator to replace participants who cancel, regardless of their refund rights. It may fairly be assumed that in many cases the majority of tour participants are willing to accept changes and go on with their plans.

Participants who cancel, therefore, create a difficult situation: if the entire charter is canceled, many persons' travel plans may be upset, and economic losses to the air carrier as well as the operator may be involved. If the tour goes on, the cost of the empty seats must be absorbed by someone. As discussed earlier, it would be naive to assume that the operators, or any businesses, consistently absorb the cost. Liberal cancellation rights, where the seats cannot be refilled, are an added cost that will ultimately be passed on in higher charter prices.

The conclusion tentatively drawn is that positions at either end of the spectrum would be unwise—either complete cancellation rights in the participant for any change, as suggested by OCA, or complete freedom in the operator to make changes at will. What is clearly needed is a middle position, a set of criteria to distinguish between changes that are major enough to give participants refund rights and those that are not. Insofar as the OCA petition requests rulemaking proceedings to arrive at such criteria, and any related rules that may be found desirable to curb possible operator abuses, those issues should be focused on specifically.

Hardship refunds. OCA suggested a right to withdraw with a complete refund in the event of serious illness or death in the participant's immediate family (item 4). Upon examination this can be seen to be a pure form of forced insurance, whereby each charter participant would be required to pay a hidden premium for the right to cancel on the happening of certain specified events. Several answers suggested that a more sensible course would be to allow participants to make their own economic choices in this area by their option to buy "trip insurance" for such contingencies.

The Board agrees, and we would be inclined to reject this proposal. Given the variety of factors that may induce people to cancel, it seems no useful purpose would be served by a selection process that would produce free cancellation rights for participants who encounter certain circumstances, but not to others. Furthermore, there is probably no way to distinguish, by regulatory language, between circumstances that constitute genuine hardship and those that do not. It is true that various types of catastrophic events give rise to general sympathy, but the fact that in these cases cancellation appears personally appropriate or justified is not a sufficient basis for imposing insurance costs on participants who do not wish to pay for that type of protection. Optional insurance seems far preferable to forced, universal insurance in areas such as this, for reasons already discussed. The Board intends to develop a proposed requirement that tour operators make trip-cancellation insurance available to any participant who wishes it.

Official notice of cancellation. The suggested requirement (item 5) that each participant receive formal notice of a canceled tour, from which time the period for filing refund claims would run, appears reasonable, and should be included among the proposed rules developed in this proceeding. However, as a technical matter, certified mail would appear more appropriate than registered mail for that purpose, as pointed out in the answers.

Refunds for canceled charters. The Board accepts the principle that refunds should be promptly made to participants in the event a charter flight is canceled, and would expect to propose that portion of the petition as a general matter, with some modification, in order to reflect the fact that the nature of the refund should vary according to the circumstances of the cancellation.

The regulations pertaining to charters provide(14 CFR 207.13(b)) that in the case of split charters, the carrier must require payment of the full charter price not later than 30 days prior to the flight. This payment is not refundable in the event of cancellation of a charter by the operator (i.e., not by the carrier), unless another charter is substituted. This provision protects the interests of the participants in the other charters on the same flight, since the carrier is prohibited by statute from accepting less than the full charter price for performing the flight. The chartering operator is, of course, liable for the amount of its charter price, and the question is whether its debt should be to the carrier, or to the persons who would have been participants in the canceled charter and are awaiting the return of their money. The main problem would be a defaulting charterer, although that situation is mitigated by the surety requirements imposed on operators. In light of the facts that consumers' interests are involved on both sides, that considerable uncertainty could be injected into split charter flights if the carrier had to give up its payment in the event of a late cancellation and look to the charterer or its surety for reimbursement before departing, and that cancellations after full payment has been made to the carrier are relatively uncommon, the Board would be inclined to retain the present scheme with respect to cancellations of split charters during the last 30 days before departure, whereby the operator must reimburse participants directly for their payments from its own funds. However, we might further examine this position in light of the staff study on financial security arrangements. In any event, we would expect this proceeding to develop a rule requiring direct repayment of all money received originally from participants in other situations where a charter is canceled.

In this item OCA also requested that payment to the participants in a canceled charter be required within 7 days of the cancellation, with a 10 percent penalty for late refund. Several answers pointed out that 7 days appeared to be an unfairly short period, in light of the fact that parties other than the operator must normally participate in the transfer of funds, and that the 10 percent penalty was unjustifiably harsh. A requirement that refunds be required within a stated period appears sound, however, and the Board will consider these details, including a requirement for penalties for late refunds, in light of comments received in the course of developing its rules.

Identification of operator in advertisements. The identification of the tour operator in any solicitation or advertising material (item 7) appears to be a worthy suggestion, and should be included among our proposed rules. It would make it easier for members of the public to identify particular programs in case of an inquiry or a complaint to the Board, and would perhaps increase the sense of responsibility of operators who would otherwise be unknown to the consumers utilizing their services. Whether a useful purpose would be served by including the address of the operator in advertising material is a subsidiary issue for specific focus in the comments.

Overbooking penalties. The OCA suggestion (item 9) that overbooked participants receive a complete refund plus free scheduled transportation to the destination appears to be a uniform, harsh penalty applicable to a variety of situations in which the culpability of the operator differs widely. The petition contains little justification for such a sweeping approach in this area. Here, as with the refund-for-changes issue, the better course appears to lie somewhere between the extremes of no relief and automatic relief in all cases no matter the circumstances. The Board is of the opinion that prompt and effective action to protect the consumer's interests in this area is needed. It may well be that, in some instances, such action may include a requirement for substitute transportation. However, in order to formulate proposed rules regarding overbooked seats on charters, we invite comments offering reasoned suggestions as to specific ways in which the rules should be changed or supplemented.

Licensing of tour operators. Licensing of operators has some attractive aspects. Perhaps the strongest argument in its favor is that it would give the Board another enforcement sanction, whereby an operator who failed to comply with regulations could be put out of business, at least for an extended period of time. Putting a going business out of operation is a very serious matter, however, both legally and as a matter of public policy. It is highly unlikely that it would be done on the basis of a showing that an operator had violated some regulations, unless it were conclusively shown that the violations were intentional, major, and repeated. As has been discussed, the Board is moving to institute rules to protect charter participants in various ways, and it would appear wiser to examine the ameliorative effect of those actions before moving to the more burdensome procedure of licensing.

The screening aspects of licensing set forth in the petition are also subject to serious question. If, as the petition suggested, it would not be appropriate to use the licensing requirement to impose se-

V41200 OCT 14 76 UMI

vere entry restrictions, it is difficult to envision how licensing could really screen out potential wrongdoers. The most important qualities in persons entering into the business of tour organization are integrity and business ability, and absent a thorough background investigation, which is clearly not feasible, there is no way for a Federal agency to make discriminating judgments in those areas on the basis of application documents. Even the financial stability that the petition cited as one of the goals of licensing would probably not be ascertainable, since with no financial history, the financial position of a small business that is about to begin its life usually bears little resemblance to what it will be a year or two after it begins operation.

For these reasons, the Board believes that the benefits of operator licensing have not yet been shown to be sufficient to justify the major addition to the paperwork load, in both the public and private sectors, that such a procedure would involve. Moreover, as noted previously, the Board has instituted a staff study of the financial security provisions, which is proceeding on an urgent basis. It is undertaking, moreover, to reexamine all aspects of its charter regulations, with a view to revising them to serve best the interests of the public. The question of operator licensing will be given further consideration in that study. Finally, the changes that the Board is contemplating in the charter regulations, many of which have been noted herein, should do much to strengthen the protections for charter participants. Inasmuch as the proposal to license operators is regarded as a "consumer-protection" technique, our adoption of charter rules improving consumers' protection might thus render the licensing proposal unnecessary for that purpose, and thus remove the main apparent justification for this proposed restriction on free entry and competition for charter operators.

Termination of exemptions. The OCA petition also requested the termination of operators' exemptions, as indirect air carriers, from sections 401, 407(b) and (c), and 412 of the Federal Aviation Act (49 U.S.C. 1371, 1377(b) and (c), 1382). Upon examination, these exemption terminations appear to be merely supplementary to the requested licensing requirement, and will therefore be considered in that context. The section 401 exemption would be "restricted" to those obtaining licenses from the Board, so that it would actually be the licensing vehicle. The section 407 provisions relating to disclosure of major stockholders and stock ownership in carriers by officers and directors would relate to the information provided pursuant to the application for a license. Finally, the section 412 requirements for filing with the Board agreements between operators and direct air carriers would only be meaningful if the present requirements for pre-flight charter documentation are changed, since the actual contract must presently be filed with the Board as part of that documentation.

[14 CFR Parts 372a, 378a]

[SPDR-51, Docket No. 29509, Dated October 7, 1976]

"NORTH AMERICAN CHARTERS"

Proposed Definition

Notice is hereby given that the Civil Aeronautics Board has under consideration amendments to Parts 372a and 378a of its Special Regulations (14 CFR Parts 372a and 378a). As more fully discussed in the Explanatory Statement, the purpose of the proposed amendments is to include Central America in the definition of "North American charter." The amendments are proposed under the authority of sections 101, 204, 401, 402, 407, 416, and 1001 of the Federal Aviation Act of 1958, as amended (72 Stat. 737 (as amended), 743, 754 (as amended), 757, 766, 771, and 788; 49 U.S.C. 1301, 1324, 1371, 1372, 1377, 1386, and 1481).

Interested persons may participate in the proposed rulemaking through submission of twenty (20) copies of written data, views or arguments pertaining thereto, addressed to Docket 29509, Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material in comments received on or before November 29, 1976, will be considered by the Board before taking final action on the proposed rule. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 711, Universal Building, 1825 Connecticut Avenue, N.W., Washington, D.C., upon receipt thereof.

Individual members of the general public who wish to express their interest as consumers by participating informally in this proceeding may do so through submission of comments in letter form to the Docket Section at the address indicated above, without the necessity of filing additional copies thereof.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

EXPLANATORY STATEMENT

By petition dated July 12, 1976, Docket 29509, Nationwide Leisure Corporation requested that the Board amend the definition of "North American charter," set forth in the Travel Group Charter (TGC) rule and the One-stop-inclusive Tour Charter (OTC) rule, respectively Parts 372a and 378a of its Special Regulations (14 CFR Parts 372a and 378a). Specifically, petitioner requested that the Board expand the definition of "North American charter," a term used only in those two rules, so as to include charters to Central America. With respect to Central American OTC's, such an amendment would have the following effects: the advance purchase period would be reduced from 30 days to 15 days, and the minimum duration would be reduced from 7 days to 4 days (with a reduction in minimum tour price to reflect the shorter duration). With respect to Central American TGC's the requested amendments would reduce the minimum duration from 10 days to 7 days.

In support of its request, petitioner argued that Central America is in fact part of the North American continent, and is in the same geographic area as Mexico and the Caribbean, which are presently included in the definition of "North American charter"; that the distances between New York and various points in Central America are about the same as or shorter than distances between New York and certain points in Mexico and the Caribbean; [1] that Central American destinations offer tourist attractions similar to those in the Caribbean and Mexico; and that the exclusion of Central America from the definition of "North American charter" produces a situation where travelers destined to the same geographic and tourist area are confronted by two different sets of restrictions—a situation which, it was alleged, unjustifiably penalizes operators of Central American charters.

Comments supporting the petition were filed by TACA International Airlines, S.A. (TACA), and by Servicio Aereo de Honduras, S.A. (SAHSA). Pan American World Airways, Inc., filed a comment opposing the petition.

The definition of "North American charter" was first adopted in the TGC rule by SPR-61, 37 FR 20808 (October 4, 1972) in order to provide a shorter minimum duration requirement for North American TGC's. The Board's rationale was that "vacation travel in North America is likely to be of shorter duration than vacation travel from the United States to the rest of the world * * *."

Subsequently, the Board proposed to adopt a "North American charter" definition in the proposed OTC rule set forth in Notice of Proposed Rulemaking EDR-281/SPDR-38/ODR-9, 39 FR 39572 (November 8, 1974). Again, the purpose of distinguishing between North American and non-North American charters was to adopt minimum stay requirements which fit the needs of specific markets. However, in Supplemental Notice of Proposed Rulemaking EDR-281B/SPDR-38B/ODR-9B, 40 FR 17039 (April 16, 1975) the Board proposed that North American OTC's be subject to a 15-day advance filing requirement, while all other OTC's were to be subject to a 30-day advance filing requirement.[2] The Board explained:

Our proposal that advance-filing requirements be different for North American OTC's than for other OTC's is founded on two grounds. The first is that the availability to the public of charter transportation in domestic U.S. markets appears to be unduly low. We are determined to remedy this circumstance. We are of the tentative view that a shorter advance-filing period will be of use in this regard since it may tend to reduce domestic OTC costs, increase the number of domestic OTC's that are organized and actually operated, and, in addition, permit the use of OTC's by persons who could not have otherwise made their plans sufficiently in advance. (We are proposing that the shorter pre-departure filing period should be applicable to North American OTC's, rather than just domestic OTC's, because of the anomalous results that might otherwise occur due to the proximity of some domestic vacation destination points to foreign North American vacation destinations.) Second, the difference in passenger list filing dates we are here proposing reflects our concern that, because of the nature of international travel, decreasing the length of time in advance of the departure date that passenger lists have to be filed might pose risks of undue diversion from international scheduled services that would outweigh the benefits the public would derive from a shorter period. 40 FR 17041

Thus, although the countries in Central America (Guatemala, Belize, Honduras, El Salvador, Nicaragua, Costa Rica, and Panama) may resemble Mexico and the Caribbean with respect to geographic location and tourist attractions, there remains the question whether "because of the nature of * * * travel" to Central America, the inclusion of that area in the subject definition "might pose risks of undue diversion from * * * scheduled service" in the affected markets, within the quoted rationale.

In its opposition to this petition Pan American argued that the amendment requested by petitioner would "threaten serious injury" to scheduled service between the U.S. and Central America. In support of this contention, Pan American argued that U.S.-Central America markets are relatively "thin" markets which support few scheduled service frequencies, and which are dependent for their economic viability upon tourists as well as business travelers. Those tourists, Pan American argued, would be subject to diversion if the definition of "North American charter" were expanded to include Central America. Pan American suggested that, instead of amending the regulations at this time, the Board grant waivers of the advance purchase requirement on a case-by-case basis. This approach, it was argued, would allow the Board to evaluate the effects of the requested amendments on the basis of experience.

Pan American did not submit any data showing the percentage of tourists traveling to Central America on scheduled service, nor did it submit evidence demonstrating how "thin" scheduled service frequencies are to that area, or what were its criteria for "injury" to scheduled service. Furthermore, the Board is not aware of any evidence that TGC's or OTC's to Mexico or the Caribbean (which are "North American charters") have caused significant deterioration in scheduled service to those areas. TACA and SAHSA, scheduled carriers operating between the U.S. and Central America, both filed comments supporting the petition. In contrast to Pan American, neither carrier predicted that the requested amendment would threaten scheduled service between the U.S. and Central America.

In light of the foregoing, the Board is not persuaded that the inclusion of Central America in the definition of "North American charter" will cause undue diversion from scheduled service. On the other hand, it may well be that Central America is similar in location and in tourist attractions to Mexico and the Caribbean. Therefore, the Board has decided to propose that Central America be included in the definition of "North American charter."

Characterizing this as a technical change, petitioner also requested that the definition be amended by the expedited method of issuing a final rule without first issuing a notice of proposed rulemaking. The Board is of the opinion that such expedited procedures would not be appropriate here, and that Pan American and other scheduled carriers that may be affected by these proposed amendments should be given the opportunity to develop further the arguments regarding the effect on scheduled service or other consequences that might flow from the amendments proposed herein.

PROPOSED RULE

Accordingly, the Civil Aeronautics Board proposes to amend Parts 372a and 378a of its Special Regulations (14 CFR Parts 372a and 378a) as follows:

PART 372a—TRAVEL GROUP CHARTERS

§ 372a.2 [Amended]

1. The definition of "North American charter" set forth in § 372a.2, Definitions, would be amended to read:

* * * * *

"North American charter" means a travel group charter between a point or points in any State of the United States, the District of Columbia, Puerto Rico, or the U.S. Virgin Islands, on the one hand, and a point or points in any other State of the United States or in Canada, Mexico, Guatemala, Belize, Honduras, El Salvador, Nicaragua, Costa Rica, Panama, or the "Islands of the Caribbean" (as defined in Part 207 (14 CFR Part 207)), on the other hand.

* * * * *

PART 378a—ONE-STOP-INCLUSIVE TOUR CHARTERS

§ 378a.2 [Amended]

2. The definition of "North American charter" set forth in § 378a.2, Definitions, would be amended to read:

* * * * *

"North American charter" means a one-stop-inclusive tour charter between a point or points in any State of the United States, the District of Columbia, Puerto Rico, or the U.S. Virgin Islands, on the one hand, and a point or points in any other State of the United States or in Canada, Mexico, Guatemala, Belize, Honduras, El Salvador, Nicaragua, Costa Rica, Panama, or the "Islands of the Caribbean" (as defined in Part 207 (14 CFR Part 207)), on the other hand.

* * * * *

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 180]

[FRL 630-32; OPP-300010]

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Proposed Exemptions From Requirement of a Tolerance for Certain Inert Ingredients in Pesticide Formulations

At the request of several interested persons, the Administrator, Environmental Protection Agency, is proposing, pursuant to section 408(e) of the Federal Food, Drug, and Cosmetic Act, to amend 40 CFR 180.1001 by the exemption of certain additional pesticide chemicals which are inert (or occasionally active) ingredients in pesticide formulations from tolerance requirements.

The inert (or occasionally active) ingredients concerned, and the persons requesting that the Administrator propose exemptions with respect to them are as follows:

Acetic anhydride, Chevron Chemical, 940 Hensley Street, Richmond CA 94804.

Alpha-alkyl (C8-C14) - omega - hydroxypoly-(oxypropylene) block copolymer with polyoxyethylene; polyoxypropylene content is 1-3 moles; polyoxyethlene content is 7-9 moles. overage molecular weight approximately 635. Jefferson Chemical Co., Inc., Box 4128, Austin TX 78765.

Potassium sulfate. E. I. duPont de Nemours & Company, Inc., Wilmington DE 19898.

Sodium mono-, di- and tributyl naphthalene sulfonates. (PC) Petrochemicals Co., Inc., 2001 N. Grove, Fort Worth TX 76106.

Valeric acid, normal. Industrial BIO-TEST Laboratories, Inc., 1810 Frontage Rd., Northbrook IL 60062.

Additionally, the Agency proposes that the chemicals aluminum stearate, wintergreen oil, ethanol, and benzoic acid be removed from paragraph (d), preharvest application, since they are already cleared under paragraph (c), which includes both preharvest and postharvest application.

The Agency has also determined that sodium hypochlorite should be deleted from § 180.1001(c) as an inert ingredient and that it should be added to § 180.2 (a), pesticide chemicals considered safe.

Based on available information on the chemistry and toxicity of these substances, as well as on a review of the history of their use, it has been found that when used in accordance with good agricultural practice, these substances are useful and do not pose a hazard. It is concluded, therefore, that the proposed amendments to 40 CFR 180.1001 and 180.2(a) will protect the public health, and it is proposed that the regulations be established as set forth below.

Any person who has registered or submitted an application for the registration of a pesticide under the Federal Insecticide, Fungicide, and Rodenticide Act which contains any of the ingredients listed herein may request, on or before November 15, 1976, that this proposal be referred to an advisory committee pursuant to section 408(e) of the Federal Food, Drug, and Cosmetic Act.

[1] This assertion was supported by two comparative distance tables included in the petition.

[2] The original proposal, set forth in EDR-281/SPDR-38/ODR-9, supra, would have applied a 30-day advance filing requirement to all OTC's.

V41N200 OCT 14 76 UMI

Interested persons are invited to submit written comments on the proposed regulation to the Federal Register Section, Technical Services Division (WH–569), Office of Pesticide Programs, Rm. 401, East Tower, 401 M St. SW, Washington DC 20460. Three copies of the comments should be submitted to facilitate the work of the Agency and of others interested in inspecting them. The comments must be received on or before November 15, 1976, and should bear a notation indicating the subject and the OPP document control number "OPP–300010". All written comments filed in response to this notice will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: October 6, 1976.

STATUTORY AUTHORITY: Section 408(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(e)).

JOHN B. RITCH, JR.,
Director, Registration Division.

(1) It is proposed that Part 180, Subpart A, § 180.2(a) be amended by adding the pesticide chemical sodium hypochlorite to read as follows.

(2) It is further proposed that Part 180, Subpart D, § 180.1001 be amended by: (1) deleting the entry "alpha-alkyl (C6–C10)-omega-hydroxypoly(oxypropylene) block polymer with polyoxyethylene; polyoxypropylene content averages 3 moles; polyoxyethylene content averages 7 moles; average molecular weight approximately 625" from paragraph (c); (2) deleting the entry "Sodium mono-, di-, and tributyl naphthalene sulfonates" from paragraph (d); (3) deleting the entries "Aluminum stearate", "Wintergreen oil", "Ethanol", and "Benzoic acid" from paragraph (d); (4) alphabetically inserting new items in paragraphs (c), (d), and (e); and (5) by deleting sodium hypochlorite from paragraph (c) to read as follows:

§ 180.2 Pesticide chemicals considered safe.

(a) As a general rule, pesticide chemicals other than benzaldehyde (when used as a bee repellant in the harvesting of honey), ferrous sulfate, lime, lime-sulfur, potassium polysulfide, sodium carbonate, sodium chloride, sodium hypochlorite, sodium polysulfide, and sulfur, and, when used postharvest as fungicides, citric acid, fumaric acid, oil of lemon, oil of orange, sodium benzoate, and sodium propionate are not for the purposes of section 408(a) of the act generally recognized as safe for use.

* * * * *

§ 180.1001 Exemptions from the requirement of a tolerance.

* * * * *

(c) * * *

Inert ingredient	Limits	Uses
* * *	* * *	* * *
Alpha-alkyl (C8–C14)-omega-hydroxypoly-(oxypropylene) block copolymer with polyoxy-ethylene; polyoxypropylene content is 1–3 moles; polyoxyethylene content is 7–9 moles; average molecular weight approximately 635.		Surfactants, related adjuvants of surfactants.
* * *	* * *	* * *
Potassium sulfate		Solid diluent.

[FR Doc.76–30022 Filed 10–13–76;8:45 am]

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 210]

[Release Nos. 33–5749, 34–12873, 35–19709, File No. S7–623]

DISCLOSURE OF CERTAIN REPLACEMENT COST DATA

Proposed Amendment of Regulation S–X

The Securities and Exchange Commission hereby publishes for comment a revised amendment to Rule 3–17 of Regulation S–X (17 CFR 210.3–17). Rule 3–17 (g) was originally proposed for comment in Securities Act Release No. 5696 (41 F.R. 13626), which was issued concurrently with Accounting Series Release No. 190 (Release Nos. 33–5695, 34–12240, 35–19437, March 23, 1976 (41 F.R. 13596)) in which Rule 3–17(a)–(f) requiring certain replacement cost data was adopted.

As the Commission stated in its original proposal, the rule was proposed "because of the imprecise nature of replacement cost information and its desire to encourage the development and disclosure of such information in good faith." The Commission recognizes that it is requiring companies to disclose data that is not subject to precise calculation. It is expected that there will be various approaches taken in the preparation and disclosure of replacement cost data. As with other aspects of the Commission's requirements for replacement cost data, the Commission will consider the desirability of amending or eliminating the proposed rule in light of its experience with the rule.

The revised rule would make it necessary for a person seeking to establish in regard to the presentation of replacement cost data that there has been an untrue statement of a material fact; a statement false or misleading with respect to any material fact; an omission to state a material fact necessary to make a statement not misleading; or that there has been employment of a manipulative, deceptive, or fraudulent device, contrivance, scheme, transaction, act, practice, course of business, or an artifice to defraud; as those terms are used in the Securities Act of 1934, or the Public Utility Holding Company Act of 1935, or rules and regulations thereunder must demonstrate that the data were either (1) prepared without a reasonable basis or (2) disclosed in other than good faith. The rule would apply to data furnished in response to the requirements of Rule 3–17(a)–(f) or as further supplemental disclosure.

Commission Action: The Commission hereby proposes to amend § 210.3–17 of Part 210 of 17 CFR, Chapter II, by the addition of subsection (g) as given below.

§ 210.3–17 Current replacement cost information.

* * * * *

(g) Current replacement cost information disclosed in accordance with or supplemental to the requirements of § 210.3–17 shall be deemed not to be an untrue statement of a material fact; a statement false or misleading with respect to any material fact; an omission to state a material fact necessary to make a statement not misleading; or the employment of a manipulative, deceptive, or fraudulent device, contrivance, scheme, transaction, act, practice, course of business, or an artifice to defraud; as those terms are used in the Securities Act of 1933, the Securities Exchange Act of 1934, or the Public Utility Holding Company Act of 1935, or rules and regulations thereunder, unless such information:

(1) Was prepared without a reasonable basis; or

(2) Was disclosed other than in good faith.

This paragraph (g) is applicable for replacement cost disclosures made from December 25, 1976 until July 1, 1978.

* * * * *

Some commentators on the original proposal stated that they would prefer no rule to the rule as originally proposed. The Commission solicits comment on whether it would be preferable to have no rule rather than the rule proposed in this release. It should be emphasized that the Commission has proposed the amended rule because of the nature of replacement cost data. The proposed rule should not be taken as an indication of what the Commission believes to be the appropriate standard in the absence of a rule, or what an appropriate safe harbor rule would be for other types of disclosures or activities.

The rule provides that it is applicable only for replacement cost disclosures made from December 25, 1976 until July 1, 1978. The Commission will reconsider the need for a safe harbor rule prior to July 1, 1978; however, in the absence of affirmative action by the Commission, the rule will expire on that date.

The Commission has proposed the foregoing amendment pursuant to its authority under section 19(a) (15 U.S.C. 77s) of the Securities Act of 1933, sections 3 (b) and 23(a) (1) (15 U.S.C. 78c and 78w) of the Securities Exchange Act of 1934, and section 20 (15 U.S.C. 79t) of the Public Utility Holding Company Act of 1935. In addition to the definitional authority provided therein, section 19(a) (15 U.S.C. 77s) of the Securities Act, section 23(a) (1) (15 U.S.C. 78w) of the Exchange Act, and section 20(d) (15 U.S.C. 79t) of the Holding Company Act specifically provide that no liability under those Acts "shall apply to any act done or omitted in good faith in conformity" with any rule or regulation of the Commission.

Pursuant to section 23(a)(2) of the Exchange Act, the Commission has considered the effect that the proposed amendment would have on competition and is not aware, at this time, of any burden that such amendment, if adopted, would impose on competition not necessary or appropriate in furtherance of the purposes of that Act. However, the Commission specifically invites comment as to the anticompetitive effects, if any, the proposal likely would engender.

All interested persons are invited to submit their views and comments on the foregoing proposal, in writing, to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Washington, D.C. 20549, on or before November 12, 1976. Such communications should refer to File No. S7–623 and will be available for public inspection.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

OCTOBER 7, 1976.

[FR Doc.76–30167 Filed 10–13–76;8:45 am]

VETERANS ADMINISTRATION

[38 CFR Part 3]

VETERANS BENEFITS

Recoupment of Severance Pay

The Administrator of Veterans Affairs proposes regulatory changes to Part 3 of Title 38, Code of Federal Regulations relating to recognizing the date of a physical examination as a date of claim and waiver of military retired pay.

Certain members of the Armed Forces who are disabled may be placed on the TDRL (Temporary Disability Retired List) for up to 5 years until the extent of their disablement can be ascertained. These persons receive retired pay while on the TDRL. If they elect, they may waive retired pay and receive compensation. If their disablement is later found to be permanent and less than 30 percent disabling, they may be removed from the TDRL and given severance pay in lieu of retired pay.

The law (10 U.S.C. 1212(c)) requires that the amount of severance pay received by a veteran be deducted from any Veterans Administration disability compensation that the veteran is entitled to for the same disability. For example, if severance pay is $3250 and Veterans Administration disability compensation for the same disability is $65 monthly, the veteran could not begin to actually receive the $65 monthly compensation until the $3250 had been recouped which would take 50 months.

Some veterans on the TDRL elect to waive all or part of their retired pay to receive Veterans Administration compensation. In these cases recoupment of severance pay begins just as soon as the Veterans Administration receives notice from the service department that the veteran was removed from the TDRL. Other veterans file for Veterans Administration disability compensation but do not waive retired pay. Their claims must be disallowed. If one of these veterans is subsequently removed from the TDRL and awarded severance pay, recoupment may not begin until the date the Veterans Administration receives a reopened claim from the veteran. Although the Veterans Administration does solicit a reopened claim, considerable delay can result before the claim is filed for a variety of reasons i.e., the veteran's address may not be current; the veteran may fail to understand our instructions; etc.

In order that recoupment of severance pay may begin in every case without delay, it is proposed to amend § 3.157 of Title 38, Code of Federal Regulations to consider the date of the physical examination which is the basis for granting severance pay as of the date of receipt of a reopened claim. A retired member of the Armed Forces is not removed from the TDRL without a current physical examination. Use of the date of this examination as date of claim will end the disparate treatment in the recoupment of severance pay between those persons on the TDRL who waived retired pay and those who did not. Furthermore, this proposal is clearly consistent with the intent of § 3.157 which currently permits use of the date of an examination or hospital report to reopen a compensation claim which was disallowed because of receipt of military retired pay.

As previously indicated, concurrent payment of military retired pay and Veterans Administration compensation or pension is prohibited. (38 U.S.C. 3104; 38 CFR 3.750) A person who is entitled to both benefits may receive up to the maximum amount payable under one of the programs. The law permits a veteran to waive all or part of his or her military retired pay to receive compensation or pension. (38 U.S.C. 3105; 38 CFR 3.750) The Veterans Administration cannot grant an application for disability compensation or pension until the veteran files a waiver of retired pay with the appropriate service department. The retiree benefits from such a waiver because Veterans Administration benefits are not taxable as income while some or all of the military retired pay may be subject to taxation.

When the Veterans Administration receives a claim for compensation or pension from a veteran receiving military retired pay the Veterans Administration makes a determination of entitlement. If favorable, the veteran is told the amount payable after waiver of military retired pay and is sent a waiver form. If the veteran wishes to receive Veterans Administration benefits he or she returns the completed waiver form to the Veterans Administration. The Veterans Administration notes the amount of Veterans Administration benefits payable to the veteran on the waiver form and then sends the waiver form to the appropriate service department. The service department then notifies the Veterans Administration of the date of reduction of military retired pay. Veterans Administration payments are authorized to begin the date of reduction of military retired pay. This prohibits duplicate payment. (Sometimes a veteran will file the waiver form together with the Veterans Administration application. In these cases the waiver form is immediately sent to the service department after a favorable entitlement determination.)

Generally, only amounts actually received from the Veterans Administration are considered to be non-taxable by the Internal Revenue Service. The fact that a Veterans Administration entitlement decision is retroactive is immaterial if during such retroactive period the vet-

V41200 OCT 14 76 UMI

eran received military retired pay. A speedy processing of the waiver is, therefore, essential to promptly secure for the veteran the tax free status of Veterans Administration benefits.

Some delay in waiving retired pay results from the necessity of sending to the veteran written notification of Veterans Administration entitlement and the waiver form. To eliminate this delay it is proposed to amend § 3.750 of Title 38, Code of Federal Regulations to provide that a Veterans Administration application for compensation or pension filed by a veteran in receipt of military retired pay will be considered a waiver of so much of his or her retired pay as is equal in amount to the compensation or pension to which he or she is entitled. This will permit the Veterans Administration to immediately notify the service department of the amount of Veterans Administration benefits payable after the entitlement determination has been made. Veterans who for one reason or another do not want their application to be considered as a waiver may so indicate on the Veterans Administration application form. These cases will then be handled in the current manner i.e., the veteran will be sent written notice of the amount of Veterans Administration benefits payable and a waiver form.

Minor editorial changes have been made to indicate that the provisions of §§3.750 and 3.751 of Title 38, Code of Federal Regulations apply equally to male and female veterans.

Interested persons are invited to submit written comments, suggestions or objections regarding the proposal to the Administrator of Veterans Affairs (271A), Veterans Administration, 810 Vermont Avenue, NW., Washington D.C. 20420. All relevant material received before November 15, 1976, will be considered. All comments received will be available for public inspection at the above address only between the hours of 8 am and 4:30 pm Monday through Friday (except holidays), during the mentioned 30-day period and for 10 days thereafter. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Services Unit in Room 132. Such visitors to any VA field station will be informed that the records are available for inspection only in Central Office and furnished the address and the above room number.

Notice is given that these changes will be effective date of final approval.

The economic and inflationary impacts have been evaluated in accordance with OMB Circular A–107.

Approved: October 8, 1976.

By direction of the Administrator,

ODELL W. VAUGHN,
Deputy Administrator.

1. In § 3.157, paragraph (b) (1) is revised to read as follows:

§ 3.157 Report of examination or hospitalization as claim for increase or to reopen.

* * * * *

(b) *Claim.* * * *

(1) *Report of examination or hospitalization by Veterans Administration or uniformed services.* The date of outpatient or hospital examination or date of admission to a Veterans Administration or uniformed services hospital will be accepted as the date of receipt of a claim. The date of a uniformed service examination which is the basis for granting severance pay to a former member of the Armed Forces on the temporary disability retired list will be accepted as the date of receipt of claim. The date of admission to a non-Veterans Administration hospital where a veteran was maintained at Veterans Administration expense will be accepted as the date of receipt of a claim, if Veterans Administration maintenance was previously authorized; but if Veterans Administration maintenance was authorized subsequent to admission, the date the Veterans Administration received notice of admission will be accepted.

* * * * *

2. In § 3.750, paragraphs (b) and (c) are revised to read as follows:

§ 3.750 Retirement pay.

* * * * *

(b) *Election.* A veteran entitled to retirement pay as well as pension or compensation may elect which of the benefits he or she desires to receive. An election of retirement pay does not bar him or her from making a subsequent election of the other benefit to which he or she is entitled. An election filed within 1 year from the date of notification of Veterans Administration entitlement will be considered as "timely filed" for the purpose of § 3.401(e)(1). If the Veteran is incompetent the 1-year period will begin on the date notification is sent to the next friend or fiduciary. In initial determinations, elections may be applied retroactively if the claimant was not advised of his or her right of election and the effect thereof.

(c) *Waiver.* A person specified in paragraph (a) of this section may receive pension or compensation upon filing with the service department concerned a waiver of so much of his (or her) retirement pay as is equal in amount to the pension or compensation to which he (or she) is entitled. In the absence of a specific statement to the contrary, the filing of an application for compensation or pension by a veteran entitled to retirement pay constitutes such a waiver. (38 U.S.C. 3105)

3. Section 3.751 is revised to read as follows:

§ 3.751 Statutory awards; retired service personnel.

Retired Regular and Reserve officers and enlisted personnel are not entitled to statutory awards of disability compensation from the Veterans Administration in addition to their retirement pay. However, under § 3.750(c), eligible persons may waive an amount equal to the basic disability compensation and any statutory award otherwise payable by the Veterans Administration.

[Public Notice CM–6/110]

SHIPPING COORDINATING COMMITTEE, SUBCOMMITTEE ON SAFETY OF LIFE AT SEA

Meeting

The working group on carriage of dangerous goods of the Subcommittee on Safety of Life at Sea, a subcommittee of the Shipping Coordinating Committee, will hold an open meeting at 9:30 a.m. on Tuesday, November 9, 1976, in Room 8236 of the Department of Transportation, 400 Seventh Street, SW., Washington, D.C.

The purpose of the meeting will be to discuss:

(1) the Report of the 26th Session of the Subcommittee on Carriage of Dangerous Goods of the Intergovernmental Maritime Consultative Organization (IMCO), held in London July 5–9, 1976;

(2) U.S. positions on matters to be considered at the 27th Session of the IMCO Subcommittee on Carriage of Dangerous Goods;

(3) matters to be considered by the IMCO ad hoc group on fire safety measures for ships carrying dangerous goods; and

(4) progress of IMCO activities of a continuing nature such as implementation of the International Maritime Dangerous Goods (IMDG) Code.

Requests for further information on the meeting should be directed to Captain C. E. Mathieu, United States Coast Guard. He may be reached by telephone on (area code 202) 426–2296.

The Chairman will entertain comments from the public as time permits.

CARL TAYLOR, Jr.,
Acting Director, Office of Maritime Affairs.

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

GRANTING OF RELIEF

Notice is hereby given that pursuant to 18 U.S.C. section 925(c) the following named persons have been granted relief from disabilities imposed by Federal laws with respect to acquisition, transfer, receipt, shipment or possession of firearms incurred by reason of their convictions of crimes punishable by imprisonment for a term exceeding one year.

It has been established to my satisfaction that the circumstances regarding the convictions of each applicant's record and reputation are such that the applicants will not be likely to act in a manner dangerous to public safety, and that the granting of the relief will not be dangerous to the public interest.

Akins, Harold L., 5012 2nd Avenue, North, Birmingham, Alabama, convicted on March 6, 1973, in the Criminal Court of Record, Jefferson County, Alabama.

Andrews, Jones Kent, Route 1, Box 76, Sparta, North Carolina, convicted on October 19, 1970, in the United States District Court, Middle District, North Carolina.

Bachman, Garl G., RR No. 1, Armstrong, Iowa, convicted on or about April 24, 1972, in the Wright County District Court, Iowa.

[Order No. 159]

REQUESTS FOR VARIANCE FROM MINIMUM FUNDING STANDARDS (IRC 412(d))

Delegatoin Order

Pursuant to authority vested in the Commissioner of Internal Revenue by Treasury Department Order 150-37 dated March 17, 1955, there is hereby delegated to the Assistant Commissioner (Employee Plans/Exempt Organizations) and the Director, Actuarial Division, the authority to:

(1) Waive the minimum funding standards under IRC 412 in accordance with subsection (d) thereof, and

(2) perform the corresponding duties of the Secretary of the Treasury under section 303 of the Employee Retirement Income Security Act of 1974 (ERISA) with respect to the minimum funding standards under ERISA section 302.

The authority delegated herein may not be redelegated.

Effective date: October 6, 1976.

DONALD C. ALEXANDER,
Commissioner.

[FR Doc.76-30165 Filed 10-13-76;8:45 am]

DEPARTMENT OF DEFENSE

Office of the Secretary

WAGE COMMITTEE

Closed Meetings

Pursuant to the provisions of section 10 of Pub. L. 92-463, the Federal Advisory Committee Act, effective January 5, 1973, notice is hereby given that a meeting of the Department of Defense Wage Committee will be held on Tuesday, December 7, 1976; Tuesday, December 14, 1976; Tuesday, December 21, 1976 and Tuesday, December 28, 1976 at 9:45 a.m. in Room 1E801, The Pentagon, Washington, D.C.

The Committee's primary responsibility is to consider and submit recommendations to the Assistant Secretary of Defense (Manpower and Reserve Affairs) concerning all matters involved in the development and authorization of wage schedules for Federal prevailing rate employees pursuant to Pub. L. 92-392. At this meeting, the Committee will consider wage survey specifications, wage survey data, local wage survey committee reports and recommendations, and wage schedules derived therefrom.

Under the provisions of section 10(d) of Pub. L. 92-463, the Federal Advisory Committee Act, meetings may be closed to the public when they are concerned with matters listed in section 552(b) of Title 5, United States Code. Two of the matters so listed are those related solely to the internal personnel rules and practices of an agency, (5 U.S.C. 552(b)(2)) and those involving trade secrets and commercial or financial information obtained from a person and privileged or confidential (5 U.S.C. 552(b)(4)).

Accordingly, the Deputy Assistant Secretary of Defense (Civilian Personnel Policy) hereby determines that this meeting will be closed to the public because the matters considered are related to the internal rules and practices of the Department of Defense (5 U.S.C. 552(b)(2)), and the detailed wage data considered by the Committee during its meetings have been obtained from officials of private establishments with a guarantee that the data will be held in confidence (5 U.S.C. 552(b)(4)).

However, members of the public who may wish to do so are invited to submit material in writing to the Chairman concerning matters believed to be deserving of the Committee's attention. Additional information concerning this meeting may be obtained by contacting the Chairman, Department of Defense Wage Committee, Room 3D281, The Pentagon, Washington, D.C.

MAURICE W. ROCHE,
Director, Correspondence and Directives OASD (Comptroller).

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

CONTROLLED SUBSTANCES IN SCHEDULES I AND II

Final 1976 Aggregate Production Quota—Dihydrocodeine

Section 306 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 826) requires the Attorney General to establish aggregate production quotas for all controlled substances in Schedules I and II each year. This responsibility has been delegated to the Administrator of the Drug Enforcement Administration pursuant to § 0.100 of Title 28 of the Code of Federal Regulations.

On August 19, 1976, a notice of the proposed revised aggregate production quota for 1976 for Dihydrocodeine was published in the FEDERAL REGISTER (41 FR 35080). All interested parties were invited to comment or object to the proposed aggregate production quota on or before September 20, 1976. No comments or objections were received.

Therefore, under the authority vested in the Attorney General by Section 306 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 826), and delegated to the Administrator of the Drug Enforcement Administration by § 0.100 of Title 28 of the Code of Federal Regulations, the Administrator of the Drug Enforcement Administration hereby orders that the aggregate production quota for the controlled substance listed below, expressed in grams of anhydrous base, be estimated as follows:

Basic class:	*Issued 1976*
Dihydrocodeine	593,000

This order is effective on October 14, 1976.

Dated: October 6, 1976.

PETER B. BENSINGER,
Administrator,
Drug Enforcement Administration.

Bureau of Mines

ADVISORY COMMITTEE ON COAL MINE SAFETY RESEARCH

Subcommittee Meeting

Notice is hereby given in accordance with Pub. L. 92-463 that a subcommittee meeting of the Advisory Committee on Coal Mine Safety Research will be held on November 1, 1976, commencing at 9:00 a.m. in the Columbia Plaza Office Building, Room 9062, 2401 E Street, NW., Washington, D.C. 20241.

The subcommittee of the Advisory Committee on Coal Mine Safety Research will meet with Bureau of Mines officials to discuss the Bureau's 5-Year Plan and fiscal year 1978 allocations. The fiscal year 1979 program input needed from the committee and the Mining Enforcement and Safety Administration (MESA) will also be discussed. The meeting is open to the public. Space will be provided for approximately ten persons other than subcommittee members. Following is a list of the subcommittee membership:

Dr. M. Dayne Aldridge—Chairman
Dr. John V. Grimaldi—Member
Mr. Ralph C. Beerbower—Member
Mr. Louis Hunter—Member

AGENDA

9:00 a.m.— FY 78 Research Strategy Bureau of Mines Staff.
10:00 a.m.— FY 78 Planning Schedule, Bureau of Mines Staff.
11:00 a.m.— FY 79 Program Input Needed from Committee and MESA, Bureau of Mines Staff.
12:00 noon— Adjourn.

Further information concerning this meeting may be obtained from Rolland R. Reid, Deputy Assistant Secretary—Minerals, Department of the Interior, 18th and C Streets, NW., Washington, D.C. 20240, telephone: (202) 343-4881. Transcripts of the meeting will be available for public inspection three weeks after the meeting upon written request addressed to the official above.

Dated: October 8, 1976.

THOMAS V. FALKIE,
Director, Bureau of Mines.

National Park Service

FORT LARNED NATIONAL HISTORIC SITE, KANSAS

Environmental Assessment; Alternatives for the Preservation and Administration of Historic Structures

After conducting a review of the environmental assessment for the alternatives for the preservation and administration of historic structures of the Fort Larned National Historic Site, Kansas, the National Park Service has decided not to prepare an environmental impact statement.

The environmental assessment examines the effects of multiple alternative and optional methods of preservation, restoration and administration of the historic structures and features of Fort Larned National Historic Site. The effects of taking no action are considered.

The environmental assessment and the environmental review are on file and will be available upon request for inspection at the Midwest Regional Office, National Park Service, 1709 Jackson Street, Omaha, Nebraska 68102; and at Fort Larned, Kansas 67550. Anyone wishing to comment on these documents should put them in writing and send the comments to the Regional Director at the Omaha address on or before November 15, 1976.

The National Park Service intends to proceed with implementation of the plan.

Dated: September 15, 1976.

RANDALL R. POPE,
Acting Regional Director,
Midwest Region.

[FR Doc.76-30137 Filed 10-13-76;8:45 am]

FORT SMITH NATIONAL HISTORIC SITE, ARKANSAS

Negative Declaration

An environmental assessment of a proposed master plan/development concept plan for Fort Smith National Historic Site was made available February 12, 1976. A public workshop March 11, 1976, and a public meeting June 28, 1976, both in Fort Smith, Arkansas, centered around discussions of alternatives for the size, management, development, interpretation and visitor use of the Historic Site.

As a result of the workshop, meeting, and comments received, an environmental review has been completed and a modified Alternative 3 has been selected. This alternative described a boundary to include all lands within the walls of the Second Fort plus additional lands to preserve the historical integrity of the site. As modified, development will include restoration of the Commissary and Courthouse buildings, the installation of a Visitor Center in the latter building, and upgraded interpretive facilities at the site of the First Fort on Belle Pointe.

The National Park Service, based on the environmental review, has decided not to prepare an environmental statement on the master plan/development concept plan for Fort Smith National Historic Site.

The environmental assessment and the environmental review are on file and will be available upon request for inspection at the Southwest Regional Office, National Park Service, P.O. Box 728, Santa Fe, New Mexico 87501; at Fort Smith National Historic Site, P.O. Box 1406, Fort Smith, Arkansas 72901; and at Hot Springs National Park, P.O. Box 1219, Hot Springs, Arkansas 71901. Anyone wishing to comment on these documents should put them in writing and send the comments to the Regional Director at the Santa Fe address on or before November 15, 1976.

The National Park Service intends to proceed with implementation of the plan at the end of the thirty (30) day period.

Dated: September 20, 1976.

JOSEPH C. RUMBURG, Jr.,
Regional Director, Southwest Region, National Park Service.

WATER FOR ENERGY, MISSOURI RIVER RESERVOIRS

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental statement describing the environmental impacts which could be expected if 1 million acre-feet of water is diverted from Missouri River Reservoirs for energy related industrial development. The statement covers impacts of depletion of the water from the main-stem reservoir system and development and operation of a hypothetical mixture of industries and associated coal mining in eastern Montana, western North Dakota, western and central South Dakota, and northeastern Wyoming.

Written comments may be submitted to the Regional Director (address below) within 45 days of this notice.

Copies are available for inspection at the following locations:

Office of Assistant to the Commissioner—Ecology, Room 7620, Bureau of Reclamation, Department of the Interior, Washington, D.C. 20240. Telephone 202-343-4991.
Division of Engineering Support, Technical Services and Publications Branch, E&R Center, Denver Federal Center, Denver, Colorado 80225. Telephone 303-343-3006.
Office of the Regional Director, Bureau of Reclamation, Federal Building, P.O. Box 2553, Billings, Montana 59103. Telephone 406-245-6711
Missouri-Souris Projects Office, Bureau of Reclamation, P.O. Box 1017, Bismarck, North Dakota 58501. Telephone 701-255-4011.
Missouri-Oahe Projects Office, Bureau of Reclamation, P.O. Box 825, Huron, South Dakota 57350. Telephone 605-352-8651.

Single copies of the draft environmental statement may be obtained on request to the Commissioner of Reclamation or the Regional Director. Please refer to the statement number above.

Dated: October 8, 1976.

STANLEY D. DOREMUS,
Deputy Assistant Secretary of the Interior.

Agricultural Marketing Service

FRESH PEACHES GROWN IN GEORGIA

Findings and Determination with Respect to the Continuation in Effect of the Marketing Agreement and Order

Pursuant to the applicable provisions of Marketing Agreement No. 99, as amended, and Order No. 918, as amended (7 CFR Part 918), and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), notice was given in the FEDERAL REGISTER (41 FR 37337) that a referendum would be conducted among the growers who, during the period September 1, 1975, through August 15, 1976 (which period was determined to be a representative in the production of peaches for the purpose of such referendum), were engaged, in Georgia, in the production of peaches for market to determine whether a majority of such growers favor the termination of the amended marketing agreement and order.

Upon the basis of the results of the aforesaid referendum, which was conducted during the period September 7-16, 1976, both dates inclusive, it is hereby found and determined that the termination of the amended marketing agreement and order, regulating the handling of fresh peaches grown in Georgia, is not favored by the requisite majority of such growers.

Dated: October 8, 1976.

RICHARD L. FELTNER,
Assistant Secretary.

Forest Service

FOUR SEASONS WINTER SPORTS SITE

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Four Seasons Winter Sports Site, Uinta National Forest, Utah. The Forest Service report number is USDA-FS-FES (Adm) R4-76-13.

The Forest Service, Uinta National Forest, has made the decision to permit construction and operation of a major resort in approximately 4,500 acres directly east of Provo, Utah. This decision is the result of evaluation of a proposal made by Four Seasons, Inc., and addressed in the Draft Environmental Statement, dated April 6, 1976. This resort would be developed for intensified year-round recreational use, with emphasis on skiing. The proposed area for the development is in the Rock Canyon drainage, located in the mountain terrain on the west slope of the Wesatch Range. It is in Utah County, Utah, and is presently accessible by primitive road only during summer months.

Facilities will include a base site adjacent to Provo, Utah. This development will be part of another resort development located entirely on private lands. A funicular transportation system will provide the major access to the mountain. This system will determine the ultimate resort capacity. When fully developed the resort will include a gondola system, ski lifts, and ski runs to support about 8,300 skiers.

This final environmental statement was transmitted to CEQ on October 5, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3230, 12th St. and Independence Ave., SW., Washington, D.C. 20250.
Forest Supervisor, Uinta National Forest, P.O. Box 1428, Provo, Utah 84601.
Regional Planning Office, USDA, Forest Service, Federal Building, Room 4408, 324-25th Street, Ogden, Utah 84403.

A limited number of single copies are available upon request to Forest Supervisor Don. T. Nebeker, Uinta National Forest, P.O. Box 1428, Provo, Utah 84601.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

P. M. REES,
Director, Regional Planning and Budget.

DEPARTMENT OF COMMERCE

National Bureau of Standards

CENTER FOR BUILDING TECHNOLOGY ADVISORY COMMITTEE

Meeting

Pursuant to the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. V, 1975), notice is hereby given that the Center for Building Technology Advisory Committee will hold a meeting from 9 a.m. to 4 p.m. on Friday, October 29, 1976 in Conference Rooms A and B, first floor, AFL-CIO Building, 815 Sixteenth Street, NW, Washington, D.C.

The Committee was established in January 1973 to advise the Department of Commerce on matters relating to the Nation's needs in building research and technology. The Committee consists of 19 members, balanced on the basis of their knowledge in such building areas as products, materials and equipment; construction unions; construction contractors (general and specialized); the design professions; the home-building industry; owner-builders; finance; standards and codes; consumer interests; and State and local governments.

The meeting will focus on the following topics: the building community's role in the national voluntary laboratory accreditation program; a status report on the National Institute of Building Sciences (NIBS); fire safety in buildings; and improved communications with the building community.

The meeting will be open to public observation and a period will be set aside for oral comments or questions by the public which do not exceed 10 minutes each. Approximately 20 seats will be available for the public on a first-come, first-served basis.

Copies of the minutes will be available on request 30 days after the meeting. Inquiries may be addressed to the Committee Control Officer, Dr. Richard N. Wright, Director, Center for Building Technology, Building 226, Room B-260, National Bureau of Standards, Washington, D.C. 20234 (phone 301-921-3377).

Dated: October 7, 1976.

ERNEST AMBLER,
Acting Director.

National Oceanic and Atmospheric Administration

WAIKIKI AQUARIUM, HAWAII

Denial of Permit Application

On February 6, 1975, notice was published in the FEDERAL REGISTER (40 FR 5549) that an application had been filed with the National Marine Fisheries Service by Waikiki Aquarium, University of Hawaii, 2777 Kalakaua Avenue, Hawaii 96815, to take one (1) female Hawaiian monk seal (*Monachus schauinslandi*) for public display.

On July 22, 1976, the Hawaiian monk seal (*Monachus schauinslandi*) was designated, by regulation (50 CFR 216.15, 41 FR 30120), as a depleted species pursuant to the provisions of the Marine Mammal Protection Act of 1972. With regard thereto, the National Marine Fisheries Service determined, on OCTOBER 15, 1976, that the permit request submitted by the Waikiki Aquarium should be denied.

Dated: October 1, 1976.

JACK W. GEHRINGER,
Deputy Director, National Marine Fisheries Service.

TEXAS INSTRUMENTS, INC.

Issuance of Endangered Species Permit

On August 13, 1976, notice was published in the FEDERAL REGISTER, (41 FR 34335) that an application had been filed with the National Marine Fisheries Service by Ecological Services, Texas Instruments, Inc., P.O. Box 237, Buchanan, New York 10511, for a Scientific Purposes Permit to take an unspecified number of shortnose sturgeon (*Acipenser brevirostrum*), an endangered species of fish.

Notice is hereby given that on September 30, 1976, the National Marine Fisheries Service issued a Scientific Purposes Permit, as authorized by the Endangered Species Act of 1973 (16 U.S.C. 1531-1543), to Ecological Services, Texas Instruments, Incorporated, subject to certain conditions set forth therein.

The Permit authorizes the Holder to take shortnose sturgeon (*Acipenser brevirostrum*) by conducting the following activities: (1) capture by trawls, seines and gill nets on the lower Hudson River, New York; (2) the weighing and measuring of the animals; (3) release of all live specimens into the Hudson River at or near the site of capture; and (4) retention for scientific purposes, of all captured specimens which inadvertently die.

Issuance of this Permit, as required by the Endangered Species Act of 1973, is based on a finding that such Permit: (1) was applied for in good faith; (2) will not operate to the disadvantage of the endangered species which are the subject of the Permit; and (3) will be consistent with the purposes and policies set forth in Section 2 of the Endangered Species Act of 1973. This Permit was also issued in accordance with, and is subject to, Parts 220 and 222 of Title 50 CFR, the National Marine Fisheries Service regulations governing endangered species permits (39 FR 14357, November 27, 1974).

The Permit is available for review by interested persons in the following offices:

Director, National Marine Fisheries Service, 3300 Whitehaven Street, N.W., Washington, D.C.; and
Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930.

Dated: September 30, 1976.

JACK W. GEHRINGER,
Deputy Director, National Marine Fisheries Service.

[FR Doc.76-30131 Filed 10-13-76;8:45 am]

ZOOLOGICAL SOCIETY OF BUFFALO, INC.

Receipt of Application for Public Display Permit

Notice is hereby given that the following Applicant has applied in due form for a permit to take marine mammals for public display as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407); and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216).

Zoological Society of Buffalo, Inc., Buffalo Zoological Gardens, Delaware Park, Buffalo, New York 14214, to take two (2) California sea lions (*Zalophus californianus*) for public display.

The requested animals will be captured by a professional collector on or near Santa Cruz or San Miguel Islands off Santa Barbara, California, with a hoop net on land or with a modified gill net in the water. The animals will be shipped to the Buffalo facility by commercial aircraft and truck.

At the facility the animals will be displayed in a circular pool 50 feet in diameter, 7 feet deep with a central circular haul-out area 13 feet in diameter. The

V41200 OCT 14 76 UMI

facility provides an indoor shelter against sunlight and inclement weather.

The sea lions are desired to provide recreational and education benefits to the 500,000 visitors that visit the facility annually. The facility is a non-profit organization. The staff has been exhibiting sea lions for over 30 years.

The arrangements and facilities for transporting and maintaining the marine mammals requested in the above described application have been inspected by a licensed veterinarian, who has certified that such arrangements and facilities are adequate to provide for the well-being of the marine mammals involved.

Documents submitted in connection with the above application are available for review in the following offices:

Director, National Marine Fisheries Service, 33 Whitehaven Street, N.W., Washington, D.C.;
Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930; and
Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written data or views, or requests for a public hearing on this application should be submitted to the Director, National Marine Fisheries Service, Washington, D.C. 20235 on or before November 15, 1976. The holding of such ahearing is at the discretion of the Director.

All statements and opinions contained in this notice in support of this application are summaries of those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: October 6, 1976.

HARVEY M. HUTCHINGS,
Acting Associate Director for Resource Management, National Marine Fisheries Service.

Alcohol, Drug Abuse, and Mental Health Administration

BOARD OF SCIENTIFIC COUNSELORS ADVISORY COMMITTEE

Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. Appendix I), announcement is made of the following National Advisory body scheduled to assemble during the month of November 1976:

Name: Board of Scientific Counselors, NIMH.
Date and time: November 4–5; 9:30 a.m.
Place: Conference Room 1B–07, Building 36, National Institutes of Health, Bethesda, Maryland.
Open: November 4, 9:30–10:00 a.m.
Closed: Otherwise.
Contact: Dr. John C. Eberhart, Building 36, Room 1A–05, National Institutes of Health, Bethesda, Maryland 20014, 301–496–3501.
Purpose: The Board of Scientific Counselors provides expert advice to the Director, NIMH, on the mental health intramural research program through periodic visits to the laboratories for assessment of the research in progress and evaluation of productivity and performance of staff scientists.
Agenda: The Board will meet in Building 36, Room 1B–07, Bethesda, Maryland, for approximately 30 minutes for a report by the Director and Deputy Director of Intramural Research, NIMH, on recent administrative developments. The remainder of the two-day session will be devoted to the review of intramural research projects from the Laboratory of Clinical Science, and the evaluation of individual scientific programs, and these sessions will not be open to the public in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions set forth in section 552(b)(6), Title 5 U.S. Code and section 10(d) of Pub. L. 92-463 (5 U.S.C. Appendix I).

Substantive information may be obtained from the contact person listed above.

The NIMH Information Officer who will furnish summaries of the meetings and rosters of the committee members is Mr. Edwin Long, Deputy Director, Division of Scientific and Technical Information, National Institute of Mental Health, Room 15–105, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852, 301–3600.

Dated: October 12, 1976.

CAROLYN T. EVANS,
Committee Management Officer, Alcohol, Drug Abuse, and Mental Health Administration.

Office of Education

ETHNIC HERITAGE STUDIES PROGRAM

Closing Date for Receipt of Applications

Notice is hereby given that pursuant to the authority contained in Title IX of the Elementary and Secondary Education Act of 1965, as amended by sections 901–907 of Pub. L. 92–318 and section 111 of Pub. L. 93–380 (20 U.S.C. 900 to 900a–5), applications are being accepted from public and private nonprofit educational agencies, institutions, and organizations for grants under the Ethnic Heritage Studies Program. Process of these applications will be subject to the availability of funds.

Applications must be received by the U.S. Office of Education Application Control Center on or before December 17, 1976.

A. *Applications sent by mail.* An application sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue SW., Washington, D.C. 20202, Attention: 13.549. An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than December 13, 1976, as evidenced by the U.S. Postal Service; or

(2) The appliaction is receievd on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail room in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, of the U.S. Office of Education.

B. *Hand delivered applications.* An application to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C. time, except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

C. *Program information and forms.* Information and application forms may be obtained from the Ethnic Heritage Studies Branch, Division of International Education, Bureau of Postsecondary Education, Office of Education, Room 3919, 7th and D Streets SW., Washington, D.C. 20202.

D. *Estimated Distribution of Program Funds.* The Ethnic Heritage Studies appropriation for Fiscal Year 1977 is $2,300,000. The program expects to award 50 major grants averaging approximately $37,000 in size. In addition to these major grants, the program expects to award approximately 50 mini-grants ranging from $10,000 to $15,000 in size. The applications for the major grants and mini-grants will be evaluated competitively under the funding criteria in 45 CFR 184.31. There are no continuation grants in the Ethnic Heritage Studies Program for this year and awards will be made for a one-year project period.

The above statement with regard to the expected distribution of funds is basically for informational purposes and does not bind the Office of Education, except as may be required by the applicable statute and regulation.

E. *Applicable regulations.* The regulations applicable to this program include the Office of Education General Provisions Regulations (45 CFR Part 100a) and the Ethnic Heritage Studies Program regulations published in the FEDERAL REGISTER on May 20, 1975 at 40 FR 21954, 45 CFR Part 184.

Dated: October 12, 1976.

(Catalog of Federal Domestic Assistance No. 13.549, Ethnic Heritage Studies Program.)

ROBERT R. WHEELER,
Acting U.S. Commissioner of Education.

[FR Doc.76-30285 Filed 10-13-76;8:45 am]

PRIVACY ACT OF 1974

Systems of Records and Notice of Proposed Routine Uses Therefor

Pursuant to the Privacy Act of 1974 (Public Law 93–579) as prescribed in 5 U.S.C. 552a(e)(4), the following notices of systems of records that are maintained by the Department of Health, Education, and Welfare are published as set forth below. New system reports were filed for the new systems with the Director, Office of Management and Budget, the Speaker of the House, the President of the Senate, and the Chairman of the Privacy Protection Study Commission on October 7, 1976.

Prior to the final adoption of the proposed routine uses of these notices, consideration in accordance with the requirements of 5 U.S.C. 552a(e)(11) will be given to comments which are submitted in writing on or before November 15, 1976. Comments should be addressed to the Director, Fair Information Practice Staff, Department of Health, Education, and Welfare, 200 Independence Avenue, SW., Washington, D.C. 20201. Comments received will be available for inspection in Room 526E, South Portal Building, at the above address.

Dated: October 7, 1976.

JOHN OTTINA,
Assistant Secretary for Administration and Management.

SSA/PP/RSH–0276.00

System name: Clinical Psychology/Expanded Mental Health Coverage Experiment, HEW–SSA.
Security class: None.
System location:

Social Security Administration, 6401 Security Boulevard, Baltimore, Maryland 21235.
Colorado Blue Cross and Blue Shield, 700 Broadway, Denver, Colorado 80203.
Office of the Contractor, name and address not yet determined, but when the determination is made the name and address will be available from the system manager upon request.

Categories of individuals covered by the system: Beneficiaries (approximately 50 per year) who receive outpatient mental health services from independently practicing clinical psychologists in Colorado under Medicare.

Categories of records in the system: Patient's medical information, including mental health treatment, objectives, and procedures.

Authority for maintenance of the system: Section 402(a) of the 1967 Amendments to the Social Security Act, as amended by Section 222(b)(1) of the 1972 Amendments to the Social Security Act, P.L. 92–603.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (a) To the Colorado Psychological Association, peer review consultants, and Blue Shield of Colorado, under contract with the Social Security Administration, for the performance of research and statistical functions, and to an organization under contract with the Social Security Administration and consultants to that organization for the evaluation of the peer review process in compliance with the conditions of the agreement.

(b) Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system.

Storage: Stored in a locked filing cabinet.

Retrievability: By name and health insurance claim number.

Safeguards (access controls): All records will be locked up when not in use. Only authorized personnel of Colorado Blue Shield and the Colorado Psychological Association will be granted access to the documents. Colorado Blue Shield currently reviews and processes all Part B Medicare claims in Colorado, and will apply similar safeguards to the records in this system.

Retention and disposal: All materials will be retained until December 31, 1980. All identifiable material will then be destroyed.

System manager(s) and address:

Assistant Commissioner for Research and Statistics, Social Security Administration, Room 1121, Universal North Building, 1875 Connecticut Avenue, NW., Washington, D.C. 20009.

Notification procedure: Provide the system manager with the name of the system, and the name, home address, and health insurance claim number of the person requesting notification. An individual who requests notification of or access to a medical record shall, at the time the request is made, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion. (These notification and access procedures are in accordance with Department Regulations (45 CFR Sections 5b.5 and 5b.6) FEDERAL REGISTER, October 8, 1975, page 47410, 11).

Record access procedures: Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (45 CFR Sections 5b.5 and 5b.6) FEDERAL REGISTER, October 8, 1975, page 47410, 11).

Contesting record procedures: Contact the official at the address specified under SYSTEM MANAGER above, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (45 CFR Section 5b.7) FEDERAL REGISTER, October 8, 1975, page 47411.)

Record source categories: Provider records collected from the subject individuals by the participating psychologist.

Systems exempted from certain provisions of the act: None.

SSA/HI/CAR–0176

System name: Medicare Clinic Physician Supplier Master File HEW SSA
Security class: None
System location: Carriers under contract to Social Security Administration (See Appendix C, Section 4.)

Categories of individuals covered by the system: Physicians and suppliers in a clinic who provide medical services or supplies to Medicare beneficiaries.

Categories of records in the system: A compilation of all charges submitted by a clinic physician or supplier for services or suppliers to (1) derive "reasonable charge" information; (2) determine economic indexes; and (3) to substantiate the basis for payment to beneficiaries, physicians suppliers, and hospitals.

Authority for maintenance of the system: Sections 1833, 1835, 1842, and 1874 of title XVIII of the Social Security Act.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Professional Standards Review Organizations and State Licensing Boards for review of unethical practices or nonprofessional conduct; contractors under contract to SSA for the performance of specific research and statistical activities directly relating to the Social Security Act; SSA health insurance program review teams.

Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system.

Storing: Records are maintained on magnetic tape, microfilm, and hard copy paper.

Retrievability: The records are indexed for individual identification by clinic physician provider numbers and supplier EIN (employer's identification number). The records are prepared and updated daily by carriers as a basis for determining reasonable charges and area prevailing charges.

Safeguards (access controls): Disclosure of records to carrier personnel is limited to a need-to-know basis. The files are closed to unauthorized personnel. The determination as to which personnel are authorized will vary slightly in different carrier installations. All carriers have guards at the building entrance to prevent intrusion by individuals not employees or not having business with the carrier. One or more of the following security measures are used within the building: Color coded identification cards are used to establish the right of an employee to be in a specific area; cipher locks are used to protect files and computer areas; magnetic identification cards are used to gain access to security sensitive areas; video-monitoring of sensitive areas is constant.

Retention and disposal: Records are closed out the first quarter following the close of the previous calendar year. Files are retained indefinitely.

V41N200 OCT 14 76 UM

System manager(s) and address:

Director, Bureau of Health Insurance, 6401 Security Boulevard, Baltimore, Maryland 21235.

Notification procedure: Inquiries and requests for records information should be directed to the carrier servicing the clinic physician's or supplier's geographical area. Individuals who want to determine if they have a record in this system must provide their full name and address.

Record access procedures: Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (45 CFR, Section 5b.5 and 5b.6 FEDERAL REGISTER, October 8, 1975, page 47410, 11).

Contesting record procedures: Contact the official at the address specified under System Manager above, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (45 CFR, Section 5b.7) FEDERAL REGISTER, October 8, 1975, page 47411.)

Record source categories: Information contained in these records is furnished in part by the individual clinic physician or supplier and in part abstracted from Medicare Part B billing records.

Systems exempted from certain provisions of the Act: None.

System name: Medicare Hospital Discharge Validation File.

Security class: None.

System location:

(1) Office of Research and Statistics, Division of Health Insurance Studies, 6401 Security Boulevard, Baltimore, Maryland 21235.

(2) National Academy of Sciences, Institute of Medicine, Watergate Office Building, 2600 Virginia Avenue, Washington, D.C. 20418.

Categories of individuals covered by the System: Medicare beneficiaries (aged only) whose hospital bills were included in a 20 percent sample of beneficiaries during 1974 and 1975.

Categories of records in the system: Each record contains (1) patient identification data (name, HI number, sex, age) from the Medicare master enrollment file, and (2) hospitalization data (hospital name, admission and discharge date, primary diagnosis, primary surgical procedure performed) from both the Medicare hospital discharge billing file and the hospital medical record.

Authority for maintenance of the system: 42 U.S.C. Section 1395.11.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (a) To contractor for the performance of specific research and statistical activities directly related to the performance of this study.

(b) To a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system.

Storage: Record lists, completed reabstract forms, and keypunched cards are stored in locked file cabinets. Magnetic tape files of patient records are stored in a tape library. All codes for numeric data on the tape files are stored in locked file cabinets. All of these storage facilities are located in the contractor's offices.

Retrievability: By beneficiary name, HI number, and birth date.

Safeguards: The contractor will be required to comply with Departmental safeguard procedures. All persons having access to the system of records have been notified of the criminal sanctions for unauthorized disclosure of information about individuals. The contractor maintains controlled access to computer files. As tape file records are created, individuals' names are eliminated and their HI numbers replaced with anonymous assigned record numbers. The master list for the assigned numbers is stored in locked file cabinets. There is controlled access to this list as all other stored files.

Retention and disposal: All re-abstract forms, billing records and other data collection forms will be returned to SSA with all patient identifiers removed. Keypunch cards and magnetic tape files will be retained by the contractor for 6 months following contract termination and will then be destroyed by standard disposal procedures.

System manager(s) and address:

Assistant Commissioner for Research and Statistics, Social Security Administration, Room 1121, 1875 Connecticut Avenue, NW., Washington, D.C. 20009.

Notification procedure: For purposes of notification, the system manager will need to know the name of the system, and the name and health insurance number of the person requesting notification.

An individual who requests notification of or access to a medical record shall, at the time the request is made, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion. (These notification and access procedures are in accordance with Department Regulations (45 CFR, Sections 5b.5 and 5b.6) FEDERAL REGISTER, October 8, 1975, page 47410, 11).

Record access procedures: Same as notification procedures. Requesters should also reasonably specify the record being sought. (These access procedures are in accordance with Department Regulations (45 CFR, Section 5b.5 and 5b.6) FEDERAL REGISTER, October 8, 1975, page 47410, 11).

Contesting record procedures: Contact the official at the address specified under System Manager above, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (45 CFR Section 5b.7) FEDERAL REGISTER, October 8, 1975, page 47411.)

Record source categories: Records derived from Medicare master enrollment file, Medicare 20 percent hospital discharge record file, hospital medical records, and hospital Medicare claims forms.

Systems exempted from certain provisions of the act: None.

SSA/PP/RSH–0176.00

System name: Durable Medical Equipment Experimentation, HEW–SSA.

Security class: None.

System location:

Social Security Administration, Office of Research and Statistics, Program Experimentation Branch, Room 3–E–6, Meadows East Building, Baltimore, Maryland 21235.

Office of the Contractor, name and address not yet determined.

Categories of individuals covered by the system: Medical Part B Beneficiaries acquiring durable medical equipment (DME) under Title XVIII of the Social Security Act. Geographic locations are to be determined on contract award date.

Categories of records in the system: Administrative, billing, and descriptive information involving the purchase and/or rental of durable medical equipment under Title XVIII (Medicare Part B).

Authority for maintenance of the system: Section 245 of Public Law 92–603 (Social Security Amendments of 1972).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Routine disclosure of the records maintained in the system will be made to an organization under contract with the Social Security Administration for the performance of the research and statistical functions as prescribed by the contract. The data collected will be utilized by the Contractor for statistical purposes in determining the results of the experimental program.

Disclosure may be made to a congressional office for the record of an individual in response to an inquiry from the congressional office made at the request of the individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system.

Storage: Magnetic computer tape.

Retrievability: To be specified by Contractor. (Most probable index will be individual Health Insurance Account Number and Part B Medicare Carrier Code Number.)

Safeguards (access controls): Magnetic computer tapes are to be kept in GSA approved containers with combination locks. The containers are to be located in a controlled access area where all nonemployees and nonauthorized personnel must identify themselves, state the nature of their business, and be logged in before gaining entry. All employees of the Contractor are subject to the penalties prescribed by the Privacy Act for unauthorized disclosure of personnel data. These safeguards are in accordance with Departmental standards limiting access to authorized personnel only.

Retention and disposal: All raw data, draft reports, correspondence, and reports generated during this experiment (including tapes, computer programs, position indices, etc.) shall be the property of the Government and shall be delivered to the SSA Project Officer not later than 15 calendar days after contract completion date. Should the Project Officer request any of the above-mentioned material during the conduct of the experiment, the Contractor shall present such material to the Project Officer within 30 days of a written request. The material presented by the Contractor shall be as current as possible, relevant to the request. All tapes and final reports will be delivered to the Social Security Administration and will be retained by the Social Security Administration as long as necessary for program purposes.

System manager(s) and address:

Assistant Commissioner for Research and Statistics, Social Security Administration, Room 1121, Universal North Building, 1875 Connecticut Avenue NW., Washington, D.C. 20009.

Notification procedures: For purposes of notification, provide the Systems Manager with the name, address, and Health Insurance Account Number of the person requesting access.

Record access procedures: Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Departmental Regulations (45 CFR, Part 5b.5(a) (2) FEDERAL REGISTER, October 8, 1975, page 47410.)

Contesting record procedures: Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Departmental Regulations (45 CFR Part 5b.7) FEDERAL REGISTER, October 8, 1975, page 47411.)

Record source categories: Requests from Medicare Part B Beneficiaries for reimbursement for the rental/purchase of durable medical equipment under title XVIII of the Social Security Act, including charges and descriptive material from suppliers of durable medical equipment; administrative and billing information for the reimbursement of durable medical equipment from Part B Medicare Carriers.

Systems exempted from certain provisions of the Act: None.

HEW/OS/REGION V, ORD/OE/ADMIN/RO5 VE–01.00

System name: Placement and Career Development Services Program for Indo-Chinese Refugees, Jewish Federation of Metropolitan Chicago (Contractor).

Security classification: None.

Location:

Jewish Federation of Metropolitan Chicago, One South Franklin Street, Chicago, Illinois 60606.

See Attachment "A" for locations of subcontracting agencies.

Categories of individuals: Indo-Chinese Refugees applying for, and/or receiving public assistance or otherwise manifesting signs of economic insufficiency in the Chicago Metropolitan area.

Categories of records: Employment History and Associated Social, Medical and Economic Information.

Authority for maintenance of the system: 5 U.S.C. 3109.

Routine uses of records maintained in the system, including categories of uses and the purposes of such uses:

45 CFR 5b, Appendix B, (1), (2), (3), (4), (5), (6), (8), (101), (102), and (103).

Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual.

Routine uses for disclosure of information kept in the records may be directed to: (a) Illinois Department of Public Aid, in regard to information which would affect the alien's present or future eligibility for public assistance; (b) Prospective employees and/or employment agencies for the purpose of enabling clients to obtain employment; (c) Vocational training or education programs to increase the alien's employability; (d) Other professional boards, associations, private agencies or government departments directly related to increasing the client's chances to obtain employment; (e) Participating subcontractors which have joint responsibilities for assisting clients by making appropriate referrals for casework services and career counseling; (f) All members and participants taking part in the program Steering Committee, including the contractor and subcontractors and concerned Federal, State and Local government agencies, i.e., Department of Health, Education and Welfare, Illinois Department of Public Aid, Governor's Resettlement Office, etc.; (g) National voluntary resettlement agencies participating on the Steering Committee.

Storage: Records are maintained on magnetic tape and on computer discs, printouts, in file cabinets, file folders, and recording forms.

Retrievability: The purpose of this system is to evaluate the need and suitability of the refugee for employment and/or vocational training. A continuous record of activities, including referrals and placements, is needed. Records may be retrieved by name or identification number.

Safeguards (access controls): Offices are either locked after office hours or have security guard service. In addition, depending on location, file cabinets and other storage facilities are locked when not in use.

Retention and disposal: Records are retained for five years after closing, after which paper records are shredded and computer tapes erased.

System manager(s) and address:

Government Project Officer, Department of Health, Education, and Welfare, Region V, 300 South Wacker Drive, 35th floor, Chicago, Illinois 60606.

Notification procedure: Same address as above. Identifying information should include the name of the person inquired about and the alien identification number.

Record access procedures: Address and identifying information same as above.

Contesting record procedures: Same as notification procedure.

Record source categories: Information obtained from client interviews, vocational testing, employer records, medical and social reports from hospitals and other social agencies and information received from Federal, State and Local government agencies, i.e., Illinois Department of Public Aid, U.S. Office of Immigration and Naturalization, etc.

System exempted from certain provisions of the Act: None.

ATTACHMENT A

SUBCONTRACTORS—NAME AND ADDRESS

Lutheran Child and Family Services, 7620 Madison Street, River Forest, Illinois 60305.
Catholic Charities of Chicago, 645 W. Randolph Street, Chicago, Illinois 60606.
Travelers Aid of Metropolitan Chicago, 4753 North Broadway, Chicago, Illinois 60640.
Jewish Family and Community Service, One South Franklin Street, Chicago, Illinois 60606.
Jewish Vocational Service, One South Franklin Street, Chicago, Illinois 60606.

CDC/NIOSH—0140.00

System name: Occupational Hearing Loss in Coal Mining Regions — HEW/CDC/NIOSH.

Security classification: None.

System location:

Division of Biomedical and Behavioral Science, National Institute for Occupational Safety and Health, 1014 Broadway Cincinnati, Ohio 45202.

Categories of individuals covered by the system: Coal Miners and volunteer subjects used as a control group.

Categories of records in the system: Occupational histories, medical histories, results of hearing tests, related anamnestic information, demographic data.

Authority for maintenance of the system: Federal Coal Mine Safety and Health Act (30 U.S.C. 669 Section 20 (1970)) and Occupational Safety and Health Act, Sec. 20 (29 U.S.C. 669).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Records may be released to the Department of Justice or other appropriate Federal agencies in defending claims against the United States when the claim is based upon an individual's mental or physical condition and is alleged to have arisen because of activities of the Public Health Service in connection with such individual (45 CFR Part 5B, Appendix B, Item 100). Portions of a record pertaining to an individual may also be disclosed to a Congressional office in response to an inquiry from that office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system.

Storage: Manual file folders, computer cards, computer tape.

V41200
OCT 14 76
UMI

Retrievability: The purpose of this system is to assist in the development of health and safety standards for the workplace. "Name" is the identifier used to retrieve records from this system.

Safeguards (access controls): Locked building, locked rooms, personnel screening, locked computer room, locked file cabinets.

For computerized records, safeguards established in accordance with Department standards and National Bureau of Standards guidelines (e.g. security codes) will be used, limiting access to authorized personnel.

Retention and disposal: Records are retained indefinitely. For those records which are destroyed, disposal methods include burning or shredding of paper materials and the erasing of computer tape.

System manager(s) and address:

Director: National Institute for Occupational Safety and Health, 5600 Fishers Lane, Room 3-32 Park Building, Rockville, Md. 20852.

Notification procedure: To determine if a file exists, write the Privacy Act Coordinator, Management Analysis Office, Center for Disease Control, Atlanta, Ga. 30333, and provide the following information: (1) approximate date(s) and place of treatment or questionnaire administration; (2) name of study if known; (3) an individual who requests notification of or access to a medical record shall, at the time the request is made, designate a responsible representative in writing who will be willing to review the record and inform the subject individual of its contents at the representative's discretion (these notification and access procedures are requirements of the Department regulations, 45 CFR, Part 5b.6, FEDERAL REGISTER, October 8, 1975, page 47411).

Record access procedures: Same as notification procedures. Requesters should also reasonably specify the record contents being sought.

Contesting record procedures: Write the the Privacy Act Coordinator, Management Analysis Office, Center for Disease Control, Atlanta, Ga. 30333. Reasonably identify the record and specify the information to be contested in accordance with Department regulations, FEDERAL REGISTER, October 8, 1975, page 47411 (45 CFR Part 5b7).

Record source categories: Information is obtained directly from the individual, although in some cases supplementary data may be collected or verified by work supervisors or employee records.

Systems exempted from certain provisions of the Act: None.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COTTON VELVETEEN FROM JAPAN

Termination of Visa Requirement

OCTOBER 8, 1976.

On December 12, 1964, there was published in the FEDERAL REGISTER (29 FR 17057) a letter dated December 8, 1964 from the Chairman, President's Cabinet Textile Advisory Committee, to the Commissioner of Customs, establishing a visa requirement for cotton textile products in Category 7 (velveteen), produced or manufactured in Japan and exported to the United States after December 31, 1964. The purpose of this notice is to advise that the visa requirement is being terminated by the Government of Japan, effective on October 1, 1976.

Accordingly, there is published below a letter of October 8, 1976 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs cancelling the directive of December 8, 1964.

ROBERT E. SHEPHERD,
Acting Chairman, Committee for the Implementation of Textile Agreements, and Acting Deputy Assistant Secretary for Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS
October 8, 1976.

COMMISSIONER OF CUSTOMS,
Department of the Treasury, Washington, D.C.

DEAR MR. COMMISSIONER: This directive cancels and supersedes, effective on October 1, 1976, the directive of December 8, 1964 from the Chairman, President's Cabinet Textile Advisory Committee, which directed you to prohibit, effective on January 1, 1965, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Category 7, produced or manufactured in Japan, for which the Japan Cotton Textile Exporters Association, a trade association authorized by the Government of Japan, had not issued an appropriate export visa.

The actions taken with respect to the Government of Japan and with respect to imports of cotton textile products from Japan have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ROBERT E. SHEPHERD,
Acting Chairman, Committee for the Implementation of Textile Agreements, and Acting Deputy Assistant Secretary for Resources and Trade Assistance.

[FR Doc.76-30095 Filed 10-13-76;8:45 am]

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

SHIPPINGPORT ATOMIC POWER STATION

Trespassing on Administration Property

Notice is hereby given that the Energy Research and Development Administration pursuant to section 229 of the Atomic Energy Act of 1954, as amended, and section 104 of the Energy Reorganization Act of 1974, as implemented by 10 CFR Part 860, published in the FEDERAL REGISTER on July 9, 1975, (40 FR 28789, 29790), prohibits the unauthorized entry, as provided in 10 CFR 860.3, and the unauthorized introduction of weapons or dangerous materials, as provided in 10 CFR 860.4, into or upon the Shippingport Atomic Power Station site of the Energy Research and Development Administration, said site being a tract of land located in the Borough of Shippingport, Beaver County, Commonwealth of Pennsylvania, the aforesaid tract being more particularly described as follows:

Starting at a point where the easterly line of property formerly of Ohio River Coal Company (Cook Tract) intersects the centerline of the New Cumberland and Pittsburgh Railroad at Station 1552+01.64, thence along the center line of said railroad South 40°00' West a distance of 395.91 feet to a point of tangency at Station 1548+05.73; thence continuing along the center line of said railroad in a southwesterly direction on the arc of a circle having a radius of 3274.17 feet a distance of 1271.34 feet to a point; thence North 38°00' West a distance of 101.13 feet to a point of beginning; thence from said point of beginning in a southwesterly direction by the arc of a circle having a radius of 3174.17 feet a distance of 218.77 feet to a railroad spike which is 100 feet from the center line of said railroad; thence South 52°00' West a distance of 165.14 feet to an oak hub; thence North 38°00' West a distance of 47.53 feet to a railroad spike which is 100 feet from the center line of said railroad; thence in a southwesterly direction by the arc of a circle having a radius of 3174.17 feet a distance of 140.36 feet to a railroad spike which is 100 feet from the center line of said railroad; thence by a line crossing said railroad South 38°00' East a distance of 210.00 feet to an iron pin; thence South 69°45' West a distance of 170.00 feet to an iron pin; thence north 84°45' West a distance of 295.00 feet to an iron pin which is 5.68 feet from center line of said railroad; thence by a line crossing said railroad North 11°19'40" West a distance of 216.81 feet to a point; thence North 52°00' East a distance of 376.45 feet to a point; thence North 38°00' West a distance of 229.11 feet to a point; thence South 83°00' East a distance of 172.53 feet to a point; thence South 38°00' East a distance of 152.18 feet to a point; thence North 52°00' East a distance of 231.00 feet to a point; thence North 38°00' West a distance of 6.00 feet to a point; thence North 52°00' East a distance of 86.76 feet to a point; thence South 38°00' East a distance of 54.35 feet to a point; thence North 52°00' East a distance of 45.78 feet to a point; thence South 38°00' East a distance of 120.00 feet to a point; thence South 52°00' West a distance of 42.00 feet to a point; thence South 38°00' East a distance of 48.62 feet to a railroad spike, thence South 52°00' West a distance of 29.04 feet to a railroad spike; thence South 38°00' East a distance of 116.19 feet to a railroad spike at place of beginning. Containing 7.0298 acres.

Notices stating the pertinent prohibitions of 10 CFR 860.3 and 860.4 and the penalties of 10 CFR 860.5 will be posted at all entrances of said tract and all intervals along its perimeter as provided in 10 CFR 860.6.

Dated at Washington, D.C. this day of October 5, 1976.

ALFRED D. STARBIRD,
Assistant Administrator for National Security.

FEDERAL COMMUNICATIONS COMMISSION

[FCC 76-936]

UHF TRANSLATOR LICENSEES

Acceptance of Political Advertising

OCTOBER 8, 1976.

In recent months, the Commission has received inquiries and a complaint arising out of the origination by the licensees of UHF translator stations of paid political advertisements. UHF translator stations are presently permitted to originate visual slide announcements not exceeding 30 seconds per hour for the purpose of soliciting or acknowledging local public financial support. Origination of slides containing commercial advertising is permitted. The Commission, however, did not consider the origination by translators of political advertising. The nature of translators and the limitations presently imposed on local origination by UHF translators make it extremely difficult for translator licensees to comply with section 315 of the Communications Act and the Commission's rules relating to political advertising by other types of broadcast stations.

For the foregoing reasons, the Commission reminds all UHF translator licensees that, if they intend to originate

V41N200 OCT 14 76 UM

political advertisements. they will be expected to comply strictly with the provisions of section 315 of the Communications Act.

This notice is being mailed to all licensees of UHF translator stations.

Action by the Commission October 7, 1976. Commissioners Wiley (Chairman), Lee, Hooks, Quello, Washburn and Fogarty with Commissioner White not participating.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

WORLD ADMINISTRATIVE RADIO CONFERENCE (WARC) INDUSTRY ADVISORY COMMITTEE

Partially Closed Meeting

A meeting of the Advisory Committee to the FCC Steering Committee for WARC-1979. Preparations will be held on Monday, November 1, 1976 at 9:30 A.M. The meeting will take place in Room 8210 of the Commission's offices at 2025 M Street, NW., Washington, D.C.

The agenda for this meeting will consist of the following:

(1) Update of 1979 WARC-related activities;
(2) Consideration of certain allocation justifications and proposals submitted by non-Government and Government interests.

The purpose of the second item, Allocation Proposals and Justification, is to attempt to reconcile conflicting Federal Government and non-Government frequency requirements. Portions of this item will involve discussion of classified materials submitted by agencies of the Executive Branch to support (1) the Office of Telecommunications Policy request for an additional 100 MHz of spectrum in the 100–1215 MHz band, and (2) other anticipated future Federal Government requirements. Accordingly, those portions of the second item which are devoted to discussion of classified information as defined in section 552(b)(1), Title 5 of the U.S. Code will be closed to the public. Other portions of the meeting will be open. Further information concerning this meeting may be obtained by calling 632–7025.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

FEDERAL ENERGY ADMINISTRATION

CASES FILED WITH THE OFFICE OF EXCEPTIONS AND APPEALS

Week of September 17 Through September 24, 1976

Notice is hereby given that during the week of September 17 through September 24, 1976 the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with the Federal Energy Administration's Office of Exceptions and Appeals.

Under the FEA's procedural regulations, 10 CFR Part 205, any person who will be aggrieved by the FEA action sought in such cases may file with the FEA written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of those regulations, **the date of service of notice shall be deemed to be the date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first.**

Dated: October 7, 1976.

MICHAEL F. BUTLER,
General Counsel.

Appendix.—List of cases received by the Office of Exceptions and Appeals, week of Sept. 17 through Sept. 24, 1976

Date	Name and location of applicant	Case No.	Type of submission
Sept. 17, 1976	R. O. Bragg, San Francisco, Calif. (If granted: R. O. Bragg would be assigned a new, lower priced supplier of motor gasoline to replace its base period supplier, Lion Oil Co.)	FEE-3141	Exception to change supplier (sec. 211.9).
Do	C. D. Hollingsworth & Associates, Natchez, Miss. (If granted: The FEA's Aug. 31, 1976, decision and order would be rescinded and Hollingsworth would be permitted to redrce the base production control level for three wells which it operates in the South Providence Field, Franklin County, Miss.)	FEA-0954	Appeal of FEA's decision and order in C. D. Hollingsworth & Associates, 4 FEA par. ------ (Aug. 31, 1976).
Do	Doric Petroleum, Inc. (Newcastle), Washington, D.C. (If granted: Doric Petroleum, Inc., would be permitted to increase its prices for natural gas liquid products produced at its Newcastle plant to reflect nonproduct cost increases in excess of $0.005/gal.)	FEE-3140	Price exception (sec. 212.165).
Do	Marathon Oil Co., Findley, Ohio (If granted: FEA region V's Aug. 20, 1976, assignment order would be rescinded and Marathon Oil Co. would not be assigned as the base period supplier of motor gasoline to Beukema Petroleum Co.)	FEA-0955	Appeal of FEA region V's Aug. 20, 1976, assignment order.
Do	Maurice L. Brown Co., Kansas City, Mo. (If granted: Maurice L. Brown Co. would receive an extension of the price relief granted in FEA's May 21, 1976, decision and order and crude oil produced from the East Stroup Prue Sand Unit would continue to be sold at the upper tier ceiling price.)	FEE-3139	Extension of relief granted in Maurice L. Brown Co., 3 FEA par. 83,196 (May 21, 1976).
Do	Sun Gas Co., Dallas, Tex. (If granted: Sun Gas Co. would be permitted to increase its prices for natural gas liquid products to reflect nonproduct cost increases in excess of $0.005/gal at its Bayou Sale, Levelland, and Van natural gas processing plants.)	FEE-3143—Fee-3145	Price exception (sec. 212.165).
Do	Joe Webster, (J. W. Oil Co.), Casper, Wyo. (If granted: Joe Webster (J. W. Oil Co.), would receive an extension of the price relief granted in the FEA's Aug. 19, 1976, decision and order and crude oil produced from the Buffalo 016999 (a) Lease would be sold at upper tier ceiling prices.)	FEE-3142	Extension of price relief granted in Joe Webster (J. W. Oil Co.), 4 FEA par. 83,060 (Aug. 19, 1976).
Sept. 20, 1976	Cotton Petroleum Corp. (If granted: The FEA's Aug. 19, 1976, decision and order would be rescinded and the working interest owners of the North Goose Lake Unit would be permitted to sell at upper tier ceiling prices a sufficient quantity of crude oil to enable them to recover the increased operating expenses which they have incurred since May 15, 1973.)	FEA-0957	Appeal of FEA's decision and order in cotton Petroleum Corp., 4 FEA par. 83,045 (Aug. 19, 1976).
Do	Diamond Coal & Oil Co., Chicago, Ill. (If granted: Diamond Coal & Oil Co. would not be required to report data on middle distillates as required by form FEA-P112-M-1.)	FEE-3148	Exception from filing requirement.
Do	National LP-Gas Association and National Committee on Propane Allocation and Price Regulations, Arlington, Va. (If granted: The FEA's Aug. 20, 1976, decision and order would be rescinded and Northern Illinois Gas Co. would not be assigned a base period use of 251,250 bbl of propane for use as Btu enrichment at its Aux Sable SNG facility.)	FEA-0956	Appeal of FEA's Aug. 20, 1976, propane assignment order issued to Northern Illinois Gas Co.
Do	Oil Patch Leasing Corp., Borger, Tex. (If granted: Oil Patch Leasing Corp.'s Killough "A" Lease would be classified as a stripper well lease.)	FEE-3147	Price exception (sec. 212.-74).
Do	John M. Wigley, Casper, Wyo. (If granted: Crude oil produced from the Newton Federal well located in Campbell County, Wyo., would be sold at upper tier ceiling prices.)	FEE-3146	Price exception (sec. 212.-73).
Sept. 21, 1976	Midcoast Aviation Services, Inc., St. Louis, Mo. (If granted: The FEA's Aug. 27, 1976, decision and order would be rescinded and Midcoast would be permitted to increase its selling prices for aviation fuels above maximum permissible levels to reflect nonproduct cost increases incurred since May 15, 1973.)	FEA-0958	Appeal of FEA's decision and order in Midcoast Aviation Services, Inc., 4 FEA par. ------ (Aug. 27, 1976).
Do	Mike's Mobile Service, Howell, Mich. (If granted: Mike's Mobile Service would be assigned a new, lower priced supplier of motor gasoline to replace its base period supplier, McPherson Oil Co.)	FEE-3149	Exception to change supplier (sec. 211.9).
Do	Sundance Oil Co., Denver, Colo. (If granted: The FEA's Aug. 6, 1976, decision and order would be rescinded and Sundance would be permitted to sell the crude oil which it produced from the Welgand Lease prior to Feb. 1, 1976 at market price levels.)	FEA-0950	Appeal of FEA's decision and order in Sundance Oil Co., 4 FEA par. ------ (Aug. 6, 1976).
Sept. 22, 1976	J & W Refining, Inc., Dallas, Tex. (If granted: J & W Refining, Inc., would be relieved of any obligation to purchase entitlements under sec. 211.67(j)(2).)	FEE-3151	Allocation exception (sec. 211.67(j)(2)).
Do	Northern Illinois Gas Co., Washington, D.C. (If granted: The FEA's Aug. 20, 1976, decision and order would be rescinded and a determination would be made that the FEA has no legal authority to regulate the allocation of natural gas liquids. In the alternative, Northern Illinois Gas Co. would be assigned a permanent base period use of 251,250 bbl of propane for use as Btu enrichment of its Aux Sable SNG facility and San Juan Oil Co. would be designated as the base period supplier.)	FEA-0960	Appeal of FEA's Aug. 20, 1976, propane assignment order issued to Northern Illinois Gas Co.

Date	Name and location of applicant	Case No.	Type of submission
Do	Pioneer Operations Co., Inc., Russell, Kans. (If granted: Crude oil produced from a well to be drilled on the Dalton lease would be sold at exempt prices rather than upper tier ceiling prices.)	FEE-3152	Price Exception (sec. 212.74).
Do	Southland Oil Co., Jackson, Miss. (If granted: Southland Oil Co. would receive a temporary stay which would relieve the firm of the requirement that it purchase entitlements valued at $708,466.20 by Sept. 30, 1976, as indicated on the FEA's entitlement notice for July 1976.)	FST-0014	Request for temporary stay.
Do	John B. Walker, Jackson, Miss. (If granted: John B. Walker would be permitted to charge prices for diesel fuel during the period between Nov. 1, 1973, and Apr. 8, 1974, above the maximum level permitted under the mandatory petroleum price regulations.)	FEE-3150	Price exception (sec. 212.93).
Sept. 23, 1976	Mid-America Refining Co., Chanute, Kans. (If granted: The FEA's July 22, 1976, decision and order would be rescinded and Mid-America Refining Co. would be permitted to retroactiveiy use an adjusted May 15, 1973, price in calculating the maximum allowable price for No. 2 diesel fucl under the mandatory petroleum price regulations.)	FEA-0961	Appeal of FEA's decision and order in Mid-America Refining Co., 4 FEA par. 83,014 (July 22, 1976).
Do	Shell Oil Co., Houston, Tex. (If granted: Shell Oil Co. would be permitted to use the actual May 1973 purchase cost of naphtha in computing its base period price.)	FEE-3135	Price exception (sec. 212.83(c)(2)(iii)(d)).
Do	Sound Refining, Inc., Tacoma, Wash. (If granted: Sound Refining, Inc., would receive an exception from the entitlements program which would relieve the firm of any obligation to purchase entitlements during the remainder of 1976.)	FEE-3154	Exception from the entitlements program (211.67).

COAL INDUSTRY ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770), notice is hereby given that the Coal Industry Advisory Committee will meet Thursday, November 4, 1976, 10 a.m., Conference Room B, Departmental Auditorium, Old Labor Building, Constitution Avenue between 12th and 14th Streets, NW., Washington, D.C.

The Committee was established to assist the Administrator, FEA, in encouraging the expansion of a readily-usable energy source—coal—and maintaining a fair and reasonable consumer price for such supplies. The Committee shall also advise on technical and economic factors affecting the coal industry.

The agenda for the meeting is as follows:

1. Report on Coal Mine Expansion Study.
2. Status of ESECA (Coal Supply Availability).
3. Implications of Clean Air Act Amendments.
4. Report on Coal Finance Workshop.
5. Status of Coal Mine Loan Guarantee Program.
6. Progress Report on ConRail Study.
7. General Discussion and Public Comment.

The meeting is open to the public. The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Lois Weeks, Director, Advisory Committee Management, (202) 566-7022, at least 5 days before the meeting and reasonable provision will be made for their appearance on the agenda.

Further information concerning this meeting may be obtained from the Advisory Committee Management Office.

Minutes of the meeting will be made available for public inspection in the Freedom of Information Office, Room 2107, Federal Energy Administration, 12th and Pennsylvania Avenue, NW., Washington, D.C.

Issued at Washington, D.C. on October 7, 1976.

MICHAEL F. BUTLER,
General Counsel.

[FR Doc.76-30030 Filed 10-8-76;10:47 am]

EAST COAST RESIDUAL FUEL OIL MARKET

Public Hearing and Opportunity for Public Comment

On March 29, 1976 FEA adopted amendments to its domestic crude oil allocation program (the "entitlements program") which, inter alia, provided for the issuance of entitlements to importers of residual fuel oil into the East Coast and an entitlement loss for domestic refiners with respect to residual fuel oil produced for sale in the East Coast. Two principal regulatory changes necessitated FEA's adoption of these particular amendments. The first was the removal in December 1975 of the $2 per barrel supplemental import fee on crude oil, and the second was the rollback in domestic crude oil prices under the Energy Policy and Conservation Act, which was effective February 1, 1976. The combined effect of these changes was to severely impair the ability of domestic marketers reliant on foreign refiners located in the Caribbean (which produce approximately 60% of the residual fuel oil sold in the East Coast) to complete with other marketers supplied by domestic refiners in that market area, since the theoretical crude cost advantage for domestic refiners was increased to approximately $3 per barrel.

The March 29 amendments adopted by FEA basically provided for entitlement adjustments with respect to residual fuel oil imported into or produced by a domestic refiner for sale in the Bureau of Mines East Coast Petroleum Refining District (the "East Coast market"), commencing with such imports and production in February 1976. The East Coast market includes the states within PAD District 1 (except for the State of West Virginia and certain counties in Western New York and Pennsylvania) and does not include Puerto Rico or the U.S. Virgin Islands. Under these amendments, imports of residual fuel oil into the East Coast market result in the issuance to the importer of record of a factional entitlement per barrel equal to 30% of the fractional entitlement value for each barrel of crude oil included in a refiner's crude oil runs to stills in the month in month in which the import takes place. As to domestically refined residual fuel oil produced for sale into the East Coast market, the refiner loses 50% of the applicable crude oil fractional entitlement value for each barrel of residual fuel oil so produced in excess of the first 5,000 barrels per day (B/D). The net effect of these adjustments is to preserve for domestic refiners a theoretical crude cost advantage equal to 20% of the per barrel crude oil entitlement value for the month in question (with an entitlement value of $2.80, for example, this advantage would be equal to 56¢).

FEA stated that its rationale for adoption of these adjustments was:

> • • • that a more substantial entitlement deduction as to domestic residual fuel oil production would likely result in price increases for this product on the East Coast and provide incentives for domestic refiners to reduce production of residual fuel oil. Therefore, FEA has provided for an entitlement value reduction of 50% (instead of the maximum 75% reduction proposed as a possible option).

FEA further stated that the exemption of the first 5,000 B/D of residual fuel oil production for domestic refiners would serve as an incentive to increase domestic production and would also help to maintain stable prices in the East Coast market with decontrol by forcing importers to pass through the amount of the product entitlement benefits in order to remain competitive.

Since the adoption of these amendments, on September 8, 1976 FEA held public hearings in connection with four applications for exception relief requesting specified increases in the 5,000 B/D limit on residual fuel that may be sold into the East Coast market without any entitlement loss. At this hearing, many domestic refiners pointed out that the current entitlement advantage under these adjustments for domestic refiners was not sufficient to permit Gulf Coast refiners to continue to sell into the East Coast market in competition with foreign refiners located in the Caribbean. Among the reasons given were the lower operating costs of foreign refineries and the requirement for Gulf Coast refiners to ship in U.S. flag vessels.

V41200 OCT 14 76 UMI

Prices for residual fuel oil in the East Coast market have also recently shown increases of 60¢ to 70¢ per barrel for high sulfur residual fuel oil and 40¢ to 50¢ for low sulfur residual fuel oil from the prior levels prevailing follwing the adoption of the March 29 amendments.

It is FEA's objective that the value of the product import entitlements be passed through to domestic marketers and reflected in market prices on the East Coast. An underlying rationale for the March 29 amendments was FEA's conclusion that it was in the national interest to structure its regulatory program so that, although domestic refiners receive a competitive advantage, the financial viability of Caribbean refineries historically serving the East Coast, and that of the domestic marketers reliant on these refineries, would not be imperiled. However, FEA did not intend that these amendments would be utilized to support price increases by producer governments and thus not serve either to reduce prices on the East Coast or to support the viability of these marketers and refineries.

When the March 29, 1976 amendments were adopted, FEA stated that before the end of 1976 it intended to reassess the operation and effectiveness of the entitlements program as so amended. Based on the developments described above, FEA believes that it is now an appropriate time to determine whether the amendments adopted in March are having their intended effect. Therefore, FEA will hold a public hearing and receive written comments on the entitlements program amendments adopted on March 29 specifically as they currently relate to the East Coast residual fuel oil market.

In order to evaluate the impact of its regulations on the East Coast residual fuel oil market in view of its stated policy objectives, FEA requests that persons commenting in this proceeding address the following questions in particular:

1. Are the import entitlement benefits being utilized to preserve the viability of foreign refining capacity in the Caribbean and the domestic marketers reliant thereon, or are the benefits in effect being offset by price increases in the imported crude oil purchased by these refiners or functioning to provide actual competitive advantages to these refiners over domestic refiners?

2. In light of FEA's separate proposal as to modifications to the import program, is the current advantage for domestic refiners sufficient with respect to their sales of residual fuel oil in the East Coast market?

3. Should different treatment be provided for domestic refiners shipping residual fuel oil from the Gulf Coast into the East Coast market than for residual fuel oil actually produced on the East Coast (including the U.S. Virgin Islands)?

4. Are the entitlement benefits for imports of residual fuel oil into the East Coast market being passed through to consumers?

5. Given the recent price increases for residual fuel oil on the East Coast, to what extent do these increases result from the world-wide economic recovery, increased domestic demand or the operation of FEA's March 29 amendments in this regard?

By separate letters, FEA is inviting the domestic refiners and marketers with the most significant residual fuel oil sales volumes in the East Coast market to respond in detail to the above questions and to give their general analysis as to the effect of the March 29 amendments on market prices and the respective competitive positions of the firms involved. A similar procedure was utilized in connection with the proposal for the March 29 amendments, and FEA found that the information submitted under those procedures was most helpful to the Agency in its analysis of the East Coast residual fuel oil market.

WRITTEN COMMENT AND PUBLIC HEARING PROCEDURES

Written comments regarding the subject matter of this notice will be accepted and considered if filed by October 28, 1976. Comments should be submitted to Executive Communications, Room 3309, Federal Energy Administration, Box JF, the Federal Building, 12th and Pennsylvania Avenue, N.W., Washington, D.C. 20461. Comments should be identified on the outside of the envelope and on documents submitted to FEA with the designation, "East Coast Residual Fuel Oil Adjustments under Entitlements Program." Fifteen copies should be submitted.

A public hearing on the subject matter of this notice will be held beginning at 9:30 a.m., e.s.t., on November 3, 1976, in Room 2105, 2000 M Street, N.W., Washington, D.C., to receive comments from interested persons.

Any person who has an interest in the subject matter of this notice, or who is a representative of a group or class of persons which has such an interest, may make a written request for an opportunity to make an oral presentation. Such a request should be directed to Executive Communications, FEA, and must be received before 4:30 p.m., e.s.t., October 18, 1976. Such a request may be hand-delivered to Room 3309, Federal Building, 12th and Pennsylvania Avenue, N.W., Washington, D.C., between the hours of 8:00 a.m. and 4:30 p.m., e.s.t., Monday through Friday The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he or she is a proper representative of a group or class of persons which has such an interest; and to give a concise summary of the proposed oral presentation and a phone number where he or she may be reached through November 2, 1976. Each person selected to be heard will be notified by FEA before 4:30 p.m., e.s.t., October 20, 1976, and must submit 100 copies of his or her statement to Allocation Regulation Development Office, FEA, Room 2214, 2000 M Street, N.W., Washington, D.C., before 4:30 p.m., e.s.t., on November 2, 1976.

FEA reserves the right to select the persons to be heard at this hearing, to schedule their respective presentations and to establish the procedures governing the conduct of the hearing. Each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearing. This will not be a judicial or evidentiary-type hearing. Questions may be asked only by those conducting the hearing and there will be no cross-examination of persons presenting statements. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested person may submit questions to be asked of any person making a statement at the hearing to Executive Communications, FEA, before 4:30 p.m., e.s.t., October 28, 1976. Any person who makes an oral statement and who wishes to ask a question at the hearing may submit the question in writing to the presiding officer. FEA, or the presiding officer if the question is submitted at the hearing, will determine whether the question is relevant, and whether time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing in accordance with the procedures stated in 10 CFR 205.9(f). FEA reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

The transcript of the public hearing will be available for public review at the FEA, Freedom of Information Library Room 2107, Federal Building, 12th and Pennsylvania Avenue, N.W., Washington, D.C., between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. Any person may purchase a copy of the transcript from the reporter.

MICHAEL F. BUTLER,
General Counsel.

OCTOBER 8, 1976.

WANDA PETROLEUM CO.

Consent Order

I. INTRODUCTION

Pursuant to 10 C.F.R. 205.197(c), the Federal Energy Administration (FEA) hereby gives notice of a Consent Order which was executed between Wanda Petroleum Co. (Wanda) and the FEA on July 30, 1976. In accordance with that Section, FEA will receive comments with respect to this Consent Order. Although this Consent Order has been signed and tentatively accepted by FEA, the FEA may, after consideration of comments received, withdraw its acceptance and, if appropriate, attempt to negotiate an alternative Consent Order.

II. THE CONSENT ORDER

The Wanda Petroleum Co., with its home office located at 2 Houston Center, Houston, Texas 77052, is a firm engaged in the purchase and resale of petroleum products subject to FEA regulations.

As a result of an audit conducted by FEA of Wanda's pricing practices for the period November 1, 1973 through December 31, 1975, FEA advised Wanda that Wanda had apparently charged its purchases of propane prices in excess of those permitted under the Cost of Living Council price rule in 6 CFR 150.359 and the FEA price rule in 10 CFR 212.93. FEA contended that those overcharges were the result of Wanda's errors in computing its product cost increases pursuant to 10 CFR 212.92 and 212.93 and in establishing classes of purchaser as defined in 10 CFR 212.31.

In resolution of the issues raised by the audit results, FEA and Wanda executed a Consent Order on July 30, 1976, the significant terms of which are as follows:

(1) Wanda shall refund the amounts charged to its propane purchasers in excess of maximum lawful prices together with appropriate interest. FEA has computed the total overcharge (excluding interest) at $2,103,602.00.

(2) All refunds and interest payments will be made within 90 calendar days of the effective date of the Consent Order.

(3) Wanda shall notify refund recipients that the refunds were made pursuant to the Consent Order between Wanda and the FEA and that the amount refunded constitutes a decrease in that purchaser's increased product costs for purposes of FEA price regulations.

(4) Wanda shall calculate maximum lawful selling prices and determine classes of purchaser only consistent with FEA's rules and regulations.

(5) The provisions of 10 CFR 205.197, including the publication of this Notice, are applicable to the Consent Order.

III. SUBMISSION OF WRITTEN COMMENTS

Interested persons are invited to comment on this Consent Order by submitting such comments in writing to Mr. D. M. Fowler, Regional Administrator, Region VI, Federal Energy Administration, P.O. Box 35228, Dallas, Texas 75235.

Copies of this Consent Order may be received free of charge by written request to this same address or by calling (214) 749-7626.

Comments should be identified on the outside of the envelope and on documents submitted with the designation "Comments on Wanda Consent Order." All comments received by 4:30 p.m. CDT, on or before November 15, 1976, will be considered by the FEA in evaluating the Consent Order.

Any information or data which, in the opinion of the person furnishing it, is confidential must be identified as such and submitted in accordance with the procedures outlined in 10 CFR 205.9(f).

Issued in Washington, D.C., October 8, 1976.

MICHAEL F. BUTLER,
General Counsel.

FEDERAL MARITIME COMMISSION

BALTIMORE AND OHIO RAILROAD CO., ET AL.

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before November 3, 1976. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

BALTIMORE AND OHIO RAILROAD COMPANY
UNITED BRANDS COMPANY
AND
MARYLAND PORT ADMINISTRATION

Notice of Agreement Filed by:

Mr. Gary E. Keocheler, Director of Transportation, Maryland Port Administration, 19 South Charles Street, Baltimore, Maryland 21201.

Agreement No. T-2439-2, between Baltimore and Ohio Railroad Company (B & O), United Brands Company (United) and Maryland Port Administration (MPA), modifies the original agreement which provides for the 10-year lease to United of the "Fruit Pier" located at the Locust Point Marine Terminal at Baltimore Harbor, from the MPA after purchasing same from the B & O. The purpose of the modification is to increase the land area facilities by one acre. As compensation, United will pay $500 per month for the additional land, subject to adjustment.

By Order of the Federal Maritime Commission.

Dated: October 8, 1976.

FRANCIS C. HURNEY,
Secretary.

MALAYSIA OVERSEAS LINES, LTD.

Order of Revocation

In the matter of Certificate of Financial Responsibility for Indemnification of Passengers for Nonperformance of Transporation No. P-61 and Certificate of Financial Responsibility to Meet Liability Incurred for Death or Injury to passengers or Other Persons on Voyages No. C-1,055. Malaysia Overseas Lines, Ltd. (Orient Overseas Line) c/o Orient Overseas Services, Inc. 510 Montgomery Street San Francisco, California 94111.

Whereas, Malaysia Overseas Lines, Ltd. and/or Orient Overseas Lines, Inc. (Orient Overseas Line) have ceased to operate the passenger vessel ORIENTAL HERO to and from United States ports; and

Whereas, Certificate (Performance) No. P-61 and Certificate (Casualty) No. C-1,055 covering the Oriental Hero have been returned for revocation.

It is ordered, that Certificate (Performance) No. P-61 and Certificate (Casualty) No. C-1,055 issued to Malaysia Overseas Lines Ltd. (Orient Overseas Line), reissued to Malaysia Overseas Lines, Ltd. and/or Chinese Maritime Trust, Ltd. (Orient Overseas Line) and reissued to Malaysia Overseas Lines, Ltd. and/or Orient Overseas Line, Inc. (Orient Overseas Line) covering the Oriental Hero be and are hereby revoked effective October 6, 1976.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served on certificants.

By the Commission, October 6, 1976.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.76-30142 Filed 10-13-76;8:45 am]

FEDERAL POWER COMMISSION

[Project No. 620]

ALASKA PACKERS ASSOCIATION

Issuance of Annual License(s)

OCTOBER 5, 1976.

On November 4, 1974, Alaska Packers Association, Licensee for the Chignik Project No. 620, located in the vicinity of Chignik, Third Judicial Division, Alaska, filed an application for a new license under the Federal Power Act and Commission Regulations thereunder.

The license for Project No. 620 was issued effective October 5, 1950, for a period ending October 4, 1975. Since the original date of expiration, the project has been under an annual license, which will expire on October 4, 1976. In order to authorize the continued operation and maintenance of the project pursuant to the Federal Power Act, pending Commission action on Licensee's application, it is appropriate and in the public interest to issue an annual license to the Alaska Packers Association.

Take notice that an annual license is issued to The Alaska Packers Association under the Federal Power Act for the period October 5, 1976, to October 4, 1977, or until the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Project No. 620, subject to the terms and conditions of its present license. Take further notice that if issuance of a new license does not take place on or before October 4, 1977, a new annual license will be issued each year thereafter, effective October 5 of each year, until such time as a new license is issued, without further notice being given by the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RI76-157, RI76-158, RI76-159, RI76-160, RI76-161]

BRIDWELL OIL CO., ET AL.

Petition for Special Relief

OCTOBER 6, 1976.

Take notice that on September 3, 1976 Valley Gas Transmission, Inc. (Petitioner), 3430 Entex Building, Houston, Texas 77001, filed in Docket Nos. RI76-157, RI76-158, RI76-159, RI76-160, and RI76-161 a petition for special relief on behalf of the producers listed in the caption[1] from the ceiling rates prescribed in Opinion No. 742-A, issued June 27, 1976, pursuant to Sections 4 and 5 of the Natural Gas Act, as amended, and Section 2.76 of the Commission's Rules of Practice and Procedure.

By affidavit attached to supporting appendices containing data relating to Order No. 551 issued June 29, 1976, entitled "Expediting Processing Of Petitions For Special Relief Under § 2.76", Petitioner states that such supporting data warrants rates ranging from 73.3 cents per Mcf to 196.4 cents per Mcf to continue production or possible reworking or recompletion of wells. Petitioner further states that one producer has stopped producing gas from a two zone well and two other producers have expressed intention to plug and abandon four wells.

Petitioner contends that mounting economic losses would ultimately result in such existing production being shut in, thereby reducing present supply deliveries by 20 percent or 3,000 Mcf per day. Accordingly, in addition to the above special relief requested, Petitioner requests permission to continue paying the indicated producers at currently effective contract rates (ranging from 43.1 cents per Mcf to 55.9 cents per Mcf) without incurring potential refund- liability pending Commission action on the indicated special relief requests and that the ceiling rate of 35 cents per Mcf prescribed in Opinion No. 742-A be waived.

Any person desiring to be heard or to make any protest with reference to said petition should on or before October 26, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 C.F.R. 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-30054 Filed 10-13-76;8:45 am]

[1] Glen A. Martin, et al., Docket No. RI76-134 and Jack M. Wolfe, Docket No. RI76-137 petitions for special relief have been previously noticed and filed.

[Docket No. CP63-188 (Phase II)]

CITIES SERVICE GAS CO.

Petition To Amend

OCTOBER 6, 1976.

Take notice that on September 27, 1976, Cities Service Gas Company (Petitioner), P.O. Box 25128, Oklahoma City, Oklahoma 73125, filed in Docket No. CP63-188 (Phase II) a petition to amend the order of December 30, 1963, as amended, issuing a certificate of public convenience and necessity in said docket pursuant to section 7(c) of the Natural Gas Act, by which petition Petitioner requests authorization to expand the facilities in the Webb Storage Field, all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner states that by the order of December 30, 1963, issued in the instant docket, as amended, Petitioner is authorized to construct and operate the Webb Storage Field in Grant County, Oklahoma, at a maximum top storage pressure of 2000 psig and an anticipated deliverability of 200,000 Mcf, and to construct and install a 2400 horsepower compressor station in Webb Storage Field.

Petitioner proposes to install and operate certain additional facilities at its Webb Storage Field to enhance Petitioner's ability to provide adequate peak day service to its customers in curtailment priority categories 1, 2, and 3. The proposed facilities are (1) ten natural gas injection and withdrawal wells and related appurtenant facilities to be installed and operated, and (2) 1.39 miles of 6-inch, 12-inch, and 16-inch natural gas storage pipeline and related appurtenant facilities to be constructed and operated to connect the new injection and withdrawal wells.

Petitioner states that withdrawals from the Webb Storage Field feed into Webb Compressor Station where the gas is compressed into the Webb-Blackwell 26-inch discharge pipeline.

It is said that the proposed injection and withdrawal storage wells and connecting field pipelines would increase the peak deliverability of the Webb Natural Gas Storage Field from 216,400 Mcf to 270,000 Mcf with the same wellhead shut-in pressure and the same storage inventory.

Petitioner estimates the cost of construction of the facilities to be $1,400,900, which would be financed from treasury cash.

It is anticipated that installation of the proposed facilities would be completed within approximately twelve months.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 28, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-924]

DELMARVA POWER & LIGHT COMPANY OF MARYLAND

Filing of Revised Service Agreement

OCTOBER 6, 1976.

Take notice that Delmarva Power & Light Company of Maryland on September 28, 1976, tendered for filing a revised Service Agreement with Mayor and Council of Berlin, Maryland, a Maryland corporation, under Delmarva FPC Electric Tariff Volume No. 6. Delmarva proposes to make the filing effective November 1, 1976, and requests such waivers as may be necessary to comply with the proposed effective date.

A copy of this filing has been served upon Mayor and Council of Berlin, Berlin, Maryland, and for information on the Public Service Commission of Maryland.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 26, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-30037 Filed 10-13-76;8:45 am]

[Docket No. CP76-87]

EL PASO NATURAL GAS CO.

Tariff Filings

OCTOBER 5, 1976.

Take notice that on July 28, 1976, El Paso Natural Gas Company (El Paso), P.O. Box 1492, El Paso, Texas 79978, filed pursuant to Part 154 of the Commission's Regulations under the National Gas Act a request that the effectiveness of certain tariff sheets set forth in the appendix hereto and contained in El Paso's FPC Gas Tariff, Original Volume No. 1, Third Revised Volume No. 2, and Original Volume No. 2A be extended through April 30, 1977.

El Paso states that on September 17, 1975, in Docket No. CP76-87, it tendered for filing pursuant to Part 154 of the Commission's Regulations certain proposed revisions to its FPC Gas Tariff and an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the implementation of the permanent operation of the Rhodes Reservoir. It is indicated that such revisions reflected the deletion in their entirety of the then effective Sections 11.3A, 11.3B, 3.3A, and 3.3B contained in the above volumes of El Paso's tariff and in place thereof submitted new Sections 11.3A through 11.3E and 3.3A through 3.3E, so as to provide for the proposed permanent operation of the Rhodes Reservoir under new separate tariff provisions. It is said that such separation was accomplished without changing in substance the then existing tariff provisions applicable to the special operating arrangements between El Paso and its California customers. El Paso states that on November 6, 1975, in Docket No. CP76-87 it was granted a temporary certificate authorizing the proposed operations of the Rhodes Reservoir and that the related tariff sheets were also accepted for filing to be effective until April 30, 1976, subject to further orders of the Commission.

El Paso states that from time to time during August through October, substantial quantities of gas would be otherwise available for sale in satisfaction of the Priority 3, 4, and 5 requirements of its interstate system customers and that it proposes to utilize a portion of such gas to inject approximately 769,000 Mcf into the Rhodes Reservoir storage facility to restore the heretofore authorized maximum natural gas storage inventory of 25,866,000 Mcf permitted by the temporary certificate. It is said that no additional facilities need to be acquired or constructed to permit the proposed injections of gas into Rhodes Reservoir and no change in heretofore authorized operating levels is contemplated. El Paso

V41N200 OCT 14 76 UMI

states further that it would reply upon Rhodes Reservoir, as may be required, to protect its east-of-California customers' Priority 1 and 2 requirements during the 1976–77 heating season as permitted by the temporary certificate in Docket No. CP76–87.

El Paso asserts that in order to implement Rhodes Reservoir injection and withdrawal operations as described in its application in Docket No. CP76–87, it is necessary that the effectiveness of the tariff sheets containing the provisions applicable thereto be extended for an additional period extending through April 30, 1977. Accordingly, El Paso requests that the effectiveness of the tariff sheets heretofore made effective by the Commission through April 30, 1976, as identified in the appendix hereto, be extended through April 30, 1977, or the date of issuance of a further order in Docket No. CP76–87, whichever is earlier.

El Paso also requests that waiver be granted of all applicable Rules and Regulations of the Commission, as may be necessary, in order that said tariff sheets may be continued in effect through April 30, 1977, in order to permit operation of the Rhodes Reservoir, as described, through the 1976–77 heating season.

Any person desiring to be heard or to make any protest with reference to said filings should on or before October 26, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. Parties who have heretofore filed in this docket need not do so again.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73–17 (PGA76–5)]

GRANITE STATE GAS TRANSMISSION, INC.

Proposed Changes in Rates Pursuant to Purchased Gas Adjustment Provision

OCTOBER 5, 1976.

Take notice that Granite State Gas Transmission, Inc. (Granite State), 66 Market Street (P.O. Box 508), Portsmouth, New Hampshire 03801, on September 27, 1976, tendered for filing Fourteenth Revised Sheet No. 3A in its FPC Gas Tariff, Original Volume No. 1, containing proposed changes in rates for effectiveness on October 27, 1976.

According to Granite State, the instant filing is made pursuant to a purchased gas cost adjustment provision in its tariff, previously approved by the Commission on December 14, 1972, in Docket No. RP73–17 and the proposed changes reflect changes in the cost of gas purchased from its sole supplier, Tennessee Gas Pipeline Company, a Division of Tenneco, Inc. (Tennessee), which Tennessee has proposed to make effective October 27, 1976, to track new national rates for gas established in Opinion No. 770, issued July 27, 1976 (Docket No. RM75–14).

Granite State further states that its proposed purchased gas cost changes are applicable to its sales to Northern Utilities, Inc. (Northern) which is Granite State's sole jurisdictional customer. According to Granite State, the annual effect on Northern of the proposed rates contained on Fourteenth Revised Sheet No. 3A is $1,360,000. The estimate is based on purchases from Tennessee and sales to Northern for the twelve months ended August 31, 1976.

According to Granite State, copies of the filing were served upon Northern and the regulatory commissions of the States of Maine and New Hampshire.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 18, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ES76–69]

IDAHO POWER CO.

Application

OCTOBER 6, 1976.

Take notice that on September 28, 1976, Idaho Power Company (Applicant), a corporation organized under the laws of the State of Maine, and qualified to transact business in the States of Idaho, Oregon, Nevada and Wyoming, with its principal business office at Boise, Idaho, filed an application with the Federal Power Commission, pursuant to Section 204 of the Federal Power Act, seeking an order authorizing the issuance of up to 1,000,000 shares of its Common Stock, par value of $5.00 per share, said shares to have an aggregate par value of $5,000,000 and $50,000,000 of its First Mortgage Bonds.

The net proceeds from the issuance and sale of the Common Stock and Bonds will be applied to the payment of all of the short-term, unsecured promissory notes outstanding and commercial paper, (estimated at $43,900,000) at the time of the sale of the Common Stock.

The issuance of the Common Stock and Bonds is a part of Applicant's program for financing its construction expenditures for the period August 1, 1976 through December 31, 1977, which construction expenditures are presently estimated at $163,863,000.

Any person desiring to be heard or to make any protest with reference to said application, should, on or before October 26, 1976, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). The application is on file and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP74–97]

MONTANA-DAKOTA UTILITIES CO.

Proposed Change in FPC Gas Tariff

OCTOBER 6, 1976.

Take notice that Montana-Dakota Utilities Company (MDU), on September 24, 1976, tendered for filing a proposed change in its FPC Gas Tariff, Original Volume No. 4. MDU, pursuant to the Commission's Order No. 535 (issued September 6, 1975), proposes to change from 45 to 30 the number of days' notice that must be given before a tariff sheet filed pursuant to MDU's PGA Clause may become effective.

MDU states that the reason for the proposed change is to align MDU's FPC Gas Tariff with the Commission's decision on minimum notice as expressed in Order No. 535.

Copies of the filing were served upon MDU's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 22, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER 76–931]

MONTAUP ELECTRIC CO.

Filing

OCTOBER 6, 1976.

Take notice that Montaup Electric Company ("Montaup") on September 30, 1976 tendered for filing an agreement made as of October 1, 1976, with Maine Public Service Company ("Maine Public Service"). Under the agreement Montaup assigns to Maine Public Service approximately 6 megawatts of Montaup's share of its entitlement to New Brunswick Power under the Second Supplement to the New Brunswick Participation Agreement dated as of December 1, 1971. The assignment by Montaup to Maine Public Service is for the period November 1, 1976 through October 31, 1978. Maine Public Service agrees to make all payments and discharge all obligations, duties and liabilities with respect to the assigned entitlement.

Copies of the filing were served upon Maine Public Service and the Massachusetts Department of Public Utilities.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 C.F.R. 1.8, 1.10). All such petitions or protests should be filed on or before October 22, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. RP76–4]

NATIONAL FUEL GAS SUPPLY CORP.

Certification of Proposed Settlement Agreement

OCTOBER 6, 1976.

Take notice that on September 27, 1976, pursuant to Section 1.18(e) of the Commission's Rules of Practice and Procedure, the following were certified to the Commission by Administrative Law Judge Samuel Kanell:

1. Proposed Settlement Agreement (Exhibit No. 1).
2. The official stenographer's report of the hearings held in this proceeding, Volumes 1 and 2, pages 1 through 160.
3. Exhibits numbered 1, 2, 2A, 3, 3A, 3B, 3C, and 4 as described on index page A, Volume 2 of the transcript. All exhibits were received in evidence.

The proposed Settlement Agreement represents agreement by all parties on all issues in this proceeding except for the issue of rate design. A hearing has been held on the rate design issue.

Any person desiring to be heard or to protest said settlement agreement should file comments with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before October 22, 1976. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this agreement are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76–30039 Filed 10–13–76;8:45 am]

[Docket No. RP71–125 (PGA76–9)]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Purchased Gas Cost Adjustment to Track Increases

OCTOBER 5, 1976.

Take notice that on September 27, 1976, Natural Gas Pipeline Company of America (Natural) submitted for filing as part of its FPC Gas Tariff, Third Revised Volume No. 1, the below listed tariff sheets, to be effective October 27, 1976:

Third Substitute Twenty-Ninth Revised Sheet No. 5.
Third Substitute Fourth Revised Sheet No. 5A.

Natural states that the filing was made in accordance with the Commission's Opinion No. 770 for the increase in purchased gas costs from producers who have filed for the increased rates in accordance with Opinion No. 770 by August 26, 1976. The annual effect of the producer supplier increases is approximately $139,500,000. Natural had also included the increased cost related to pricing company-owned production from leases acquired prior to October 7, 1969 at the applicable area rate as authorized by the Commission in Docket No. RP73–63. The annualized effect of this increase amounts to approximately $900,000. The PGA unit adjustment for the above increase amounts to 13.77¢.

Natural also filed for a surcharge to recover the estimated deferred purchased gas cost effect related to the increases associated with Opinion No. 770 over a twelve month period as authorized by Commission Order Modifying Opinion No. 770 issued September 22, 1976. The estimated deferred cost for the period July 27, 1976 through October 26, 1976 amounts to approximately $35,100,000. The unit adjustment to recover this deferred cost over the period October 27, 1976 through October 26, 1977 amounts to 3.55¢.

Natural states that the filing included a PGA unit adjustment to track increases from Colorado Interstate Gas Company (Colorado) and United Gas Pipe Line Company (United) pipeline suppliers to Natural. Colorado and United will file PGA unit adjustments tracking the effect of increases from their producer suppliers related to Opinion No. 770 on or about September 27, 1976. Colorado and United have furnished Natural, in advance of their filings with the Commission, their proposed unit adjustments to be effective October 27, 1976. The annualized effect of the Colorado and United increases amounts to approximately $16,800,000, respectively and results in a PGA unit adjustment of 2.20¢. To the extent Natural reflects the Colorado and United increases in accordance with Opinion No. 770, Natural will be in conflict with its PGA tariff provision. Natural, therefore, requested waiver of the Commission's regulations and the terms of its PGA tariff provisions to the extent necessary to permit the acceptance of their filing to be effective October 27, 1976.

[1] It should be noted that this tariff sheet provides the pricing provision applicable to the Rhodes Reservoir operations, including a surcharge amount of 0.68¢ per Mcf which has been applied during the operations of Rhodes during the period November 6, 1975 through April 30, 1976. On June 30, 1976, El Paso filed its motion and related tariff tender to place rates suspended at Docket No. RP76–59 into effect as of August 1, 1976. Included in that submittal is a revised tariff sheet which supersedes the designated tariff sheet and reflects an increase in the surcharge rate to be applied during the 1976–77 Rhodes operations and thereafter to 1.06¢ per Mcf.

V41N200 OCT 14 76 UMI

Copies of this filing were mailed to Natural's jurisdictional customers and interested state regulatory agencies.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Cpitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 15, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

NORTHERN NATURAL GAS CO.

Petition To Amend

OCTOBER 6, 1976.

Take notice that on September 27, 1976, Northern Natural Gas Company (Petitioner), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP73-227 a petition to amend the order of November 30, 1973, issuing a certificate of public convenience and necessity in said docket pursuant to Section 7(c) of the Natural Gas Act, by which petition Petitioner requests authorization to extend for the duration of the contract the presently authorized maximum daily volumes of 4,000 Mcf to be transported by Petitioner for Northern States Power Company (NSP) pursuant to Petitioner's currently effective rate schedule T-12, all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner states that by the order of December 30, 1973, issued in the instant docket, as amended, Petitioner is authorized to transport natural gas for NSP pursuant to a transportation contract between the parties dated Jnauary 12, 1973, by which Petitioner agreed to reduce its deliveries to NSP at St. Paul, Minnesota, by amounts equal to NSP's peak-shaving production in the St. Paul area and concurrently transport and deliver equivalent volumes to midwestern Gas Transmission Company (Midwestern) for the account of NSP. Commencing with the 1973-74 heating season, Petitioner agreed to transport and deliver a maximum daily volume of 4,000 Mcf for NSP, it is said, and commencing through the 1974-75 heating season, Petitioner's maximum daily obligation would increase to 8,000 Mcf. Petitioner indicates that for all heating seasons thereafter, the maximum daily volume would be 12,000 Mcf.

It is shown that pursuant to the Commission's orders issued on December 16, 1974, and on December 10, 1975, amending the original order, Petitioner was authorized to defer the authorized increases in maximum daily volume of gas to be transported by Petitioner to NSP.

Petitioner requests that the maximum daily volumes to be transported and delivered by Petitioner to NSP remain at the presently effective 4,000 Mcf for the duration of this contract in accordance with an amendment to the contract.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 29, 1976, file with the Federal Power Commission. Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-36 (PGA76-1 and DCA76-1)]

PANHANDLE EASTERN PIPE LINE CO.

Tender of Emergency Purchases Information

OCTOBER 6, 1976.

Take notice that on March 2, 1976, Panhandle Eastern Pipe Line Company (Panhandle) tendered for filing information requested by the Commission's order issued January 30, 1976, in the above captioned docket, ordering paragraph (F), with respect to the compliance with the criteria of Opinion No. 699-B of certain 60 day emergency purchases.

Any person wishing to do so may submit comments in writing concerning Panhandle's tender. All such comments should be submitted to the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, on or before December 3, 1976. Panhandle's information is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-36 (PGA 76-3 and DCA 76-2]

PANHANDLE EASTERN PIPE LINE CO.

Small Producer List

OCTOBER 6, 1976.

Take notice that on August 12, 1976, Panhandle Eastern Pipe Line Company (Panhandle) tendered for filing in accordance with Paragraph (D) of the Commission's Order stated July 30, 1976, in the above-captioned docket a list of the small producers (other than small producers from whom Panhandle purchases under the 60-day emergency purchase regulations) from whom it purchased at rates in excess of the rate levels provided for by Opinion No. 742.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 20, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-30035 Filed 10-13-76;8:45 am]

[Docket Nos. RP72-91, et al. (Phase I)]

SOUTHERN NATURAL GAS CO.

Proposed Changes in FPC Gas Tariff

OCTOBER 5, 1976.

Take notice that Southern Natural Gas Company (Southern), on September 27, 1976, tendered for filing proposed changes in its FPC Gas Tariff, Sixth Revised Volume No. 1. These changes are proposed in order to eliminate the minimum commodity charge from Southern's rate schedules.

The proposed changes are being filed pursuant to an order of the Federal Power Commission in Docket Nos. RP72-91, et al. (Phase I), issued July 29, 1976.

Copies of the filing were served upon Southern's jurisdictional customers, interested state commissions, and the parties of record in Docket Nos. RP72-91, et al. (Phase I).

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 15, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-30051 Filed 10-13-76;8:45 am]

[Docket No. CP71-273]

SOUTHERN NATURAL GAS CO.

Petition To Amend

OCTOBER 6, 1976.

Take notice that on September 28, 1976, Southern Natural Gas Company (Petitioner), P.O. Box 2563, Birmingham, Alabama 35202, filed in Docket No. CP71-273 a petition to amend the order of October 16, 1975, issuing a certificate of public convenience and necessity in said docket pursuant to Section 7(c) of the Natural Gas Act, by which petition Petitioner requests authorization to convert four observation wells to injection-withdrawal wells and to construct and operate approximately .04 miles of 8-inch pipeline and allied facilities to connect the aforementioned wells to the central plant in the field, all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner states that by the order of October 16, 1975, issued in the instant docket, Petitioner is authorized to increase the working gas inventory of the Muldon Field from approximately 42,-800,000 Mcf to approximately 52,000,000 Mcf and to drill 22 additional injection-withdrawal wells and three additional observation wells, resulting in a total of 67 wells in the field. Petitioner asserts that operation of the field since that order has shown that a minor change in facilities would be required in order to maintain the withdrawal capability of the Muldon Storage Field in the latter stages of the withdrawal season.

Petitioner proposes the conversion of four presently authorized observation wells to injection-withdrawal wells and the construction and operation of approximately 0.4 mile of 8-inch pipeline and allied facilities to connect the wells to the central plant in the field, at an estimated cost of $250,080, which would be financed with cash on hand. It is said that the increased withdrawal capability would be necessary during this winter heating season in order to avoid curtailment of high priority uses, and the authorization would not increase the total number of wells beyond the 67 currently authorized, the maximum inventory stored in the reservoir, or the contract quantities, and would not result in any new sales.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 27, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-30043 Filed 10-13-76;8:45 am]

[Docket No. RP76-147]

SOUTHERN NATURAL GAS CO. AND DELTA-MACON BRICK AND TILE CO., ET AL.

Reclassification of Process Gas Volumes, Hearing

OCTOBER 5, 1976.

On June 24, 1976, Delta-Macon Brick And Tile Company et al, (Delta-Macon) filed a "Motion For Expedited Hearing On Reclassification Of Process Gas Volumes" wherein it requested that the Commission set for expedited hearing the question of whether 50 percent of Delta-Macon's natural gas requirements represent gas usage which should be classified under priority 2 of Southern Natural Gas Company's (Southern's) interim curtailment plan as set forth in Opinion No. 747-B. Due to the fact that 30 days had passed since it had filed the above noted motion without any enusing Commission action, Delta-Macon was of the belief that the Commission's non-action on that motion was tantamount to a denial thereof by operation of law (pursuant to § 1.12(e) of the Rules of Practice and Procedure). Delta-Macon, therefore, on August 12, 1976 filed an "Application for Rehearing," again requesting an expedited formal hearing on the questoin of reclassification of 50 percent of its requirements in priority 2 under Southern's interim curtailment plan.

In support of its request, Delta-Macon principally notes in its June 24, 1976 "Motion for Expedited Hearing On Reclassification of Process Gas Volumes" that the Presiding Administrative Law Judge (in his Initial Decision of August 29, 1975,) in denying Delta-Macon's request for reclassification of 50 percent of its process requirements did indicate that: "On the basis of this record the gas it [Delta-Macon] receives should not be considered process gas until a determination is made on a separate record that, in fact, no alternate fuel capability can meet the requirements."[1] Delta-Macon further notes that the Commission in adopting the Presiding Judge's Initial Decision in Opinion No. 747, agreed that Delta-Macon's request should be set for a separate formal hearing wherein the Commission stated:

> Finally, we find that the ALJ's denial of Delta-Macon's request for upgrading of 50 percent of its requirements should be affirmed. Although there is some evidence on the issue, it should be subject to a more narrowly focused inquiry than was available herein.[2]

[1] Presiding Administrative Law Judge's Initial Decision On Curtailment *Southern Natural Gas Company* Docket Nos. RP74-6, RP72-74, issued August 29, 1975, p. 65.

[2] Southern Natural Gas Company Opinion No. 747, Docket Nos. RP74-6, RP72-74, issued November 20, 1975, p. 11.

It should also be noted that on May 21, 1976, the Commission in Opinion No. 747-B, "Opinion And Order Granting Rehearing In Part And Denying Rehearing In Part," granted Delta-Macon's application for rehearing in part by treating Delta-Macon's application for rehearing as a petition for extraordinary relief and upgraded 50 percent of its requirements to the priority 2 process classification until the end of the 1976-1977 winter heating season at which time the Commission thought that technological problems regarding discoloration of brick and mechanical breakdown from the use of alternate fuels could be alleviated (Slip Opinion page 5).

On June 20, 1976, Delta-Macon filed an appeal with the Fifth Circuit United States Court of Appeals in Case No. 76-279, *Delta-Macon Brick And Tile Company, Inc., et al.* v. *Federal Power Commission.* Delta-Macon in its appeal alleges that it is appealing the Commission's final orders in Opinion Nos. 747 and 747-B on the grounds that the Commission had not granted its request for reclassification to priority 2 on the Southern system and that such action was arbitrary and capricious in view of unrebutted evidence presented in the curtailment proceeding by Delta-Macon.

On September 9, 1976, the Office of the Secretary of the Commission issued a Notice Of Application For Reclassification Of Requirements Under Curtailment Plan, And Notice Of Intent To Act wherein the Secretary noticed Delta-Macon's June 24, 19R76 Motion For Expedited Hearing On Reclassification in effect treating it as an application for reclassification of Delta-Macon's requirements under the existing interim curtailment plan. The Secretary's Notice of September 9, 1976 also indicated that since the Commission intended to issue an order setting the matter for a formal hearing, Delta-Macon's August 12, 1976 Application For Rehearing of its August 12, 1976 motion should not be deemed denied as a matter of law pursuant to the Commission's Rules of Practice and Procedure pursuant to § 1.12(e) (18 CFR 1.12(e)).

It is the view of this Commission that a formal evidentiary hearing is required for the sole determination of whether 50 percent of Delta-Macon's requirements should be reclassified from Southern's priority 3 to priority 2 as "process gas" under the existing interim curtailment plan as promulgated by Opinion Nos. 747 and 747-B. In view of the lack of substantial record evidence on this issue in the main curtailment case, and our statement in Opinion No. 747 (cited supra.) regarding the need for a "more narrowly focused inquiry" and the need of natural gas by Delta-Macon in its brick manufacturing processes, a formal hearing is warranted. Therefore, this order shall direct that a formal hearing be convened to ascertain all relevant facts and circumstances underlying the specific use of, and need for, natural gas by Delta-Macon. In the hearing a complete record should be developed with respect to the

V41N200 OCT 14 76 UMI

processes used in the manufacture of brick products in order to determine whether any of Delta-Macon's requirements should be reclassified as "process gas."

Following publication of the notice of Delta-Macon's Application for Reclassification in the FEDERAL REGISTER on September 17, 1976, (41 FR 40236) in Docket No. RP76-147, Alabama Gas Corporation (ALA Gas CO) filed a timely petition to intervene. No other petitions to intervene, notices of intervention, or protests have been filed in the above captioned docket pursuant to the requirement of the Commission's Rules of Practice and Procedure (18 CFR 1.18 or 1.10) prior to the September 24, 1976, expiration date for such filing.

The Commission finds: (1) Sufficient cause exists for setting for formal hearing the issues involved in the aforementioned pleadings and for establishing the procedures for such hearing as hereinafter ordered.

(2) The participation of Alabama Gas Corporation may be in the public interest.

The Commission orders: (A) Pursuant to the authority of the Natural Gas Act, particularly Sections 4, 5, 7, 14 and 16 thereof, the Commission's Rules of Practice and Procedure, and the Regulations under the Natural Gas Act (18 CFR Chapter 1), a hearing shall be held in a public hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426 to resolve the issue of reclassification of Delta-Macon et al.'s requirements.

(B) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR § 3.5(d)) shall preside at the hearing in this proceeding, with authority to establish and change all procedural dates, and to rule on all motions (with the sole exception of petitions to intervene, motions to consolidate and sever, and motions to dismiss, as provided for in the Rules of Practice and Procedure).

(C) Delta-Macon and any intervenors in support of Delta-Macon, on or before October 26, 1976, shall file with the Secretary of this Commission and serve on all parties, including the Presiding Administrative Law Judge, and Commission Staff, all testimony and exhibits comprising their cases in-chief consistent with the evidentiary requirements as set forth in this order in support of the requested reclassification.

(D) The Presiding Administrative Law Judge shall preside at a pre-hearing conference to be held on November 2, 1976, at 10:00 a.m. in a hearing room at the address noted in Ordering Paragraph (A).

(E) Alabama Gas Corporation is permitted to intervene in the above-captioned proceeding, subject to the rules and regulations of the Commission; *Provided, however,* That its participation shall be limited to matters affecting asserted rights and interests specifically set forth in its petition for leave to intervene and *Provided, further,* That the admission of Alabama Gas Corporation shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders entered in this proceeding.

(F) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.76-30050 Filed 10-13-76;8:45 am]

[Rate Schedule Nos. 21, et al.]

SUN OIL CO., ET AL.

Rate Change Filings

OCTOBER 6, 1976.

Take notice that the producers listed in the Appendix attached hereto have filed proposed increased rates to the applicable new gas national ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 699-H, issued December 4, 1974. Pursuant to Opinion No. 699-H the rates, if accepted, will become effective as of the date of filing.

The information relevant to each of these sales is listed in the Appendix.

Any person desiring to be heard or to make any protest with reference to said filings should on or before October 27, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). A protest will not serve to make the protestant a party to the proceeding. Any party wishing to become a party to a proceeding must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. AR61-2, et al. (Disputed Zone) and RP71-6, et al.]

TENNESSEE GAS PIPELINE CO.

Filing of Refund Report

OCTOBER 5, 1976.

Take notice that on March 1, 1976, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), filed a report of refunds in the above-referenced dockets. Tennessee states that the report reflects refunds from its producer-suppliers which Tennessee is flowing through to its customers pursuant to the Commission's December 9, 1975 order in Docket Nos. AR61-2, et al. (Disputed Zone). Tennessee requests authorization to make the refunds by means of a credit to the Unrecovered Purchased Gas Cost Account maintained pursuant to the PGA provisions in its FPC Gas Tariff.

Tennessee states that a copy of the refund report has been served on each of its jurisdictional customers and affected state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 22, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene; provided, however, that any person who has previously filed a petition to intervene in this proceeding is not required to file a further petition. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-923]

TOLEDO EDISON CO.

Service Agreement

OCTOBER 6, 1976.

Take notice that The Toledo Edison Company, on September 28, 1976 tendered for filing proposed changes in its FPC Electric Service Tariff, Original Volume Number 1 applicable to sales to Municipalities for Resale. The changes consist of filing a Service Agreement executed by the Village of Custar, Ohio, and Ninth Revised Sheet Number 3, List of Purchasers.

Toledo Edison states that the executed Service Agreement with the Village of Custar provides that the Village will be served under rate Municipal Resale Service Rate—Small and that the Service Agreement replaces a contract (Rate Schedules FPC Number 8) which will expire on November 20, 1976. An effective date of November 21, 1976 has been requested for the filed Service Agreement.

Toledo Edison states that copies of this filing were served upon the Village of Custar, Ohio and the Public Utilities Commission of Ohio.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 19, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-918]

UPPER PENINSULA GENERATING CO.

Proposed Changes in Rates and Charges

OCTOBER 6, 1976.

Take notice that on September 24, 1976, Upper Peninsula Generating Company ("Generating Company") tendered for filing an amendment of its FPC Rate Schedule No. 3, (the 1974 Power Contract). According to Generating Company the amendment will delete present provisions of the rate schedule which obligate Generating Company to revise its rates for the sale of power in the event the appropriate regulatory Commission fails to permit Upper Peninsula Power Company to include as part of its rate base specified percentages of the net plant and working capital of Generating Company.

According to Generating Company the amendment will not effect any other change in its FPC Rate Schedule No. 3. Generating Company proposes that the amendment become effective 30 days from the date of the filing.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accorance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 18, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. A person wishing to become a party must file a petition to intervene. Copies of this filming are on file with the Commission and are available for public inspection.

[Project No. 596]

UTAH POWER & LIGHT CO.

Issuance of Annual License(s)

OCTOBER 6, 1976.

On April 7, 1975, Utah Power & Light Company, Licensee for the Olmsted Project No. 596, located on the Provo River and Lost Creek, Utah County, Utah, filed an application for a new license under the Federal Power Act and Commission Regulations thereunder.

The license for Project No. 596 was issued effective October 21, 1925, for a period ending October 20, 1975. Since the original date of expiration, the project has been under an annual license, which will expire on October 20, 1976. In order to authorize the continued operation and maintenance of the project pursuant to the Federal Power Act, pending Commission action on Licensee's application, it is appropriate and in the public interest to issue an annual license to the Utah Power & Light Company.

Take notice that an annual license is issued to the Utah Power & Light Company under the Federal Power Act for the period October 21, 1976, to October 20, 1977, or until Federal takeover, or until the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Project No. 596, subject to the terms and conditions of its present license. Take further notice that if Federal takeover or issuance of a new license does not take place on or before October 20, 1977, a new annual license will be issued each year thereafter, effective October 21 of each year, until such time as Federal takeover takes place or a new license is issued, without further notice being given by the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-94]

VALLEY GAS TRANSMISSION, INC.

Proposed Change in FPC Gas Tariff

OCTOBER 5, 1976.

Take notice that Valley Gas Transmission, Inc. ("Valley"), on September 20, 1976, tendered for filing a proposed change in its FPC Gas Tariff, Original Volume No. 1. Valley, pursuant to the Commission's Order No. 535 (issued September 6, 1975), proposes to change from 45 to 30 the number of days' notice that must be given before a tariff sheet filed pursuant to Valley's PGA clause may become effective.

The reason for the proposed change is to align Valley's FPC Gas Tariff with the Commission's decision on minimum notice as expressed in Order No. 535.

Copies of the filing were served upon Valley's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with § 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 18, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-94 (PGA76-4)]

VALLEY GAS TRANSMISSION, INC.

Proposed Change in FPC Gas Tariff

OCTOBER 5, 1976.

Take notice that Valley Gas Transmission, Inc. (Valley), on September 27,

V41N200 OCT 14 76 UMI

1976, tendered for filing a proposed change in its FPC Gas Tariff, Original Volume No. 1. Valley, in order to track producer rate increases based on Opinion No. 770, has proposed both Cost of Gas Adjustments and Surcharge Adjustments. Valley states these adjustments have been made pursuant to the Purchased Gas Cost Adjustment Provision of Valley's Tariff, pursuant to Ordering Paragraph (D) of Opinion No. 770, and pursuant to the Commission's "Order Modifying Opinion No. 770," issued September 22, 1976. The special surcharges are to be effective from October 27, 1976 through October 26, 1977, and the "Eighth Revised Sheet No. 2A" is intended to become effective on October 27, 1976, Valley states.

Valley states that copies of the filing were served upon Valley's jurisdictional crstomers and interested state commissions.

Review of the filing indicates that the annual impact of the producer rate increases attributable to Opinion No. 770, exclusive of surcharge, is $2.650,750. The surcharge amount is $575,769.

Any person desiring to be heard or to protest said filing shall file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests shall be filed on or before October 18, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-30061 Filed 10-13-76;8:45 am]

[Docket No. ER76-910]

WASHINGTON WATER POWER CO.

Rate Schedule

OCTOBER 6, 1976.

Take notice that on September 20, 1976, The Washington Water Power Company (Washington) tendered for filing copies of a "Letter Agreement" between Washington and San Diego Gas & Electric Company (San Diego), which applies to the sale of energy to San Diego which they will use to replace energy deliveries to Washington. The time period for these deliveries is from October 1, 1976, through December 31, 1976. Washington states that these energy deliveries shall not require San Diego to make substitutions pursuant to Article III–C and will provide energy under Article IV–E of the Power Sales and Exchange Agreement (FPC No. 64).

Washington further states that a portion of the energy delivered to San Diego could be returned to Washington, dependent on the amount of water stored, as of July 31, 1977, in the Coordinated System reservoirs (Washington is a party to the Pacific Northwest Coordination Agreement).

Washington requests that the requirements of prior notice be waived and that the Rate Schedule be given an effective date of October 1, 1976. Washington indicates this does not affect purchasers under other rate schedules.

Any person desiring to be heard or to protest said filing should file a petition to intervene with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 15, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a peittion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-30046 Filed 10-13-76;8:45 am]

[Docket No. RP73-65 (PGA76-6, 76-7)]

COLUMBIA GAS TRANSMISSION CORP.

Proposed Changes in FPC Gas Tariff

OCTOBER 6, 1976.

Take notice that Columbia Gas Transmission Corporation (Columbia) on September 27, 1976, tendered for filing proposed changes in its FPC Gas Tariff, Original Volume No. 1, as follows:

Thirty-first Revised Sheet No. 16.
Fourteenth Revised Sheet No. 64A.
Thirty-second Revised Sheet No. 16.
Fifteenth Revised Sheet No. 64A.

Columbia states that these proposed changes to be effective October 27, 1976 and November 1, 1976, result from the implementation of Columbia's Purchased Gas Cost Adjustment provision contained in Section 20 of the General Terms and Conditions of its FPC Gas Tariff, Original Volume No. 1, and FPC Opinion No. 770 which permitted a special one-time PGA filing.

Tariff sheets, Thirty-first Revised Sheet No. 16 and Fourteenth Revised Sheet No. 64A, proposed to become effective on October 27, 1976, provide for recovery of increased purchased gas costs attributable to Opinion No. 770 of $285,999,264 annually, with the surcharge providing for recovery of deferred purchased gas costs of $39,138,833, over the twelve month period October 27, 1976, through October 26, 1977, including carrying charges, according to Columbia.

$960,000 of the increase in purchased gas costs is attributable to the effect of a supplier tracking of Texas Eastern filed to become effective October 9, 1976, and an advance payment tracking of Transco filed to become effective October 1, 1976, according to Columbia.

Tariff sheets, Thirty-second Revised Sheet No. 16 and Fifteenth Revised Sheet No. 64A, proposed to become effective on November 1, 1976, reflect an increase in purchased gas costs of $18,307,741 annually resulting from Panhandle Eastern Pipe Line Company's filing pursuant to Opinion No. 770, according to Columbia.

Columbia states that copies of the filing were served upon the Company's jurisdictional customers and interested state Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 15, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-926]

CONNECTICUT LIGHT & POWER CO.

Transmission Agreement

OCTOBER 6, 1976.

Take notice that on September 29, 1976, the Connecticut Light & Power Company (CL&P) tendered for filing a proposed rate schedule with respect to Transmission Agreement dated August 1, 1976 between (1) CL&P, The Hartford Electric Light Company (HELCO) and Western Massachusetts Electric Company (WMECO) and (2) New Bedford Gas and Edison Light Company (NBG&E).

CL&P states that the Transmission Agreement provides for a transmission service to NBG&E during the period from November 1, 1976 to October 31, 1978.

The transmission charge rate is a monthly rate equal to one-twelfth of the annual average cost of transmission service on the NU system determined in accordance with section 13.9 (Determination of Amount of Pool Transmission Facilities (PTF) Costs) of the New England Power Pool (NEPOOL) Agreement and the uniform rules adopted by the NEPOOL Executive Committee, multiplied by the number of kilowatts which NBG&E is entitled to receive.

CL&P requests an effective date of November 1, 1976 for the Transmission Agreement.

HELCO and WMECO have filed certificates of concurrence in this docket.

CL&P states that copies of this rate schedule have been mailed or delivered to CL&P, Hartford, Connecticut, HELCO, Hartford, Connecticut, WMECO, West Springfield, Massachusetts and NBG&E, New Bedford, Massachusetts.

CL&P further states that the filing is in accordance with section 35 of the Commission's Regulations.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedures (18 CFR 1.8, 1.10). All petitions or protests should be filed on or before October 19, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9216]

DAYTON POWER AND LIGHT CO.

Filing

OCTOBER 7, 1976.

Take notice that on September 9, 1976, the Dayton Power and Light Company tendered for filing revised rate schedules in conformity with the Settlement Agreement approved by the Commission by order issued August 30, 1976.

Any person desiring to be heard as to said filing should file comments with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such comments should be filed on or before October 18, 1976. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9570]

DELMARVA POWER & LIGHT COMPANY OF MARYLAND

Request for Authority To Sell Facilities and Revised Service Agreement

OCTOBER 6, 1976.

Take notice that Delmarva Power & Light Company of Maryland on September 28, 1976, tendered for filing a Request for Authorization to sell its Berlin Substation to the Mayor and Council of Berlin, Maryland, a Maryland municipal corporation.

Delmarva states that it has offered such Berlin Substation to the Mayor and Council of Berlin, its present wholesale for resale customer, at Delmarva's original cost therefor, trended and depreciated, of $85,886.37, in order that Berlin may take service from Delmarva at the lower rates available for High Tension Service, and that, contingent upon authorization of such sale by this Commission under Section 203 of the Federal Power Act, Delmarva will thereafter serve Berlin at the higher delivery voltage under a revised Service Agreement, filed simultaneously with the instant filing.

A copy of this filing has been served upon Mayor and Council of Berlin, Berlin, Maryland, and for information on the Public Service Commission of Maryland.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C., 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 22, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP76-525]

EL PASO NATURAL GAS CO.

Application

OCTOBER 6, 1976.

Take notice that on September 17, 1976, El Paso Natural Gas Company (Applicant), P.O. Box 1492, El Paso, Texas, 79978, filed in Docket No. CP76-525 an application pursuant to section 7 of the Natural Gas Act, as implemented by § 157.7(g) of the Regulations thereunder for a certificate of public convenience and necessity authorizing the construction and for permission and approval of the abandonment, for the calendar year 1977, and operation of field gas compression facilities and appurtenances, all as more fully set forth in the application on file with the Commission and open to public inspection.

The purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in the construction and abandonment of facilities which would not result in changing Applicant's system salable capacity or service from that authorized prior to the filing of the instant application.

Applicant states that the total cost of the proposed projects would not exceed $3,000,000 and the out-of-pocket cost for any single project would not exceed $500,000. Applicant proposes to finance the projects through internally generated funds.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 19, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP76-164]

EL PASO NATURAL GAS CO.

Proposed Changes in FPC Gas Tariff

OCTOBER 6, 1976.

Take notice that El Paso Natural Gas Company ("El Paso"), on September 16, 1976, tendered for filing a proposed change in special Rate Schedule F–1 to its FPC Gas Tariff, Third Revised Volume No. 2. The proposed change would increase the existing base rate by 2.5¢ per Mcf and result in increased revenues of $10,950 from a field sale in Dewey County, Oklahoma, to Michigan Wisconsin Pipe Line Company under El Paso's Rate Schedule F–1, based on an estimated sales volume for the twelve-month period succeeding the proposed effective date of the rate change on October 10, 1976.

El Paso states that Rate Schedule F–1 is comprised of: (i) the Assignment of Oil and Gas Leases dated July 23, 1973, between El Paso and Exxon Corporation, and (ii) the Gas Purchase Contract dated June 16, 1966, as amended April 5, 1967, between Michigan Wisconsin Pipe Line Company ("Mich-Wis") as Buyer, and El Paso, successor in interest to Exxon Corporation, as Seller. El Paso further states that the instant filing is being made pursuant to § 154.63(a) (3) of the Commission's Regulations in order that the rate charged under Rate Sched-

V41N200 OCT 14 76 UMI

ule F–1, commencing on October 20, 1976, may be adjusted to the contractual rate provided for under the Gas Purchase Contract dated June 16, 1966, comprising a part of said rate schedule.

In connection with the instant notice of change, El Paso also tendered for filing and acceptance Fourth Revised Sheet No. 1–D.1 to its FPC Gas Tariff, Third Revised Volume No. 2. El Paso states that said tariff sheet reflects the rate proposed to be collected by El Paso under Rate Schedule F–1, commencing on October 20, 1976, of 25.0214¢ per Mcf after adjustment for taxes and Btu.

Any person desiring to be heard or to make any protest with reference to this filing should, on or before October 12, 1976, file with the Federal Power Commission, Washington, D.C., 20426, a petitution to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations Under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RP75-94 and RP72-140 (PGA 75-5)]

GREAT LAKES GAS TRANSMISSION CO.

Tariff Filing

OCTOBER 6, 1976.

Take notice that Great Lakes Gas Transmission Company (Great Lakes) tendered for filing on September 14, 1976, revised tariff sheets in purposed compliance with the Commission's "Order Approving Stipulation and Agreement with Condition" issue August 31, 1976, in the above-captioned dockets. Great Lakes requests that certain of these tariff sheets be made effective as of November 14, 1975, that certain other sheets be made effective May 1, 1976, and that other sheets be made effective September 1, 1976.

Great Lakes states than an additional tariff sheet has also been filed to incorporate certain minor revisions into its FPC Gas Tariff.

Great Lakes states that copies of the instant filing have been served upon all its customers and interested State Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 19, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Project No. 719]

JESSIE I. SMITH

Issuance of Annual License(s)

OCTOBER 6, 1976.

On June 30, 1972, Jessie I. Smith, Licensee for Trinity Power Project No. 719, located in Wenatchee National Forest, Chelan County, on the James and Phelps Creeks, tributaries of the Chiwawa River in Washington, filed an application for a new license under the Federal Power Act and Commission Regulations thereunder.

The license for Project No. 719 was issued effective November 1, 1952, for a period ending October 31, 1972. Since the original date of expiration, the project has been under annual licenses, the most recent of which will expire on October 31, 1976. In order to authorize the continued operation and maintenance of the project pursuant to the Federal Power Act, pending Commission action on the Licensee's application, it is appropriate and in the public interest to issue an annual license to Jessie I. Smith.

Take notice that an annual license is issued to Jessie I. Smith under the Federal Power Act for the period November 1, 1976, to October 31, 1977, or until Federal takeover, or until the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Project No. 719, subject to the terms and conditions of its present license. Take further notice that if Federal takeover or issuance of a new license does not take place on or before October 31, 1977, a new annual license will be issued each year thereafter, effective November 1 of each year, until such time as Federal takeover takes place or a new license is issued, without further notice being given by the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9206]

KAISER ALUMINUM AND CHEMICAL CORP.

Withdrawal From Proceeding

OCTOBER 6, 1976.

In the matter of McDowell County Consumers Council, Inc. v. American Electric Power Co., et al.

Take notice that on September 27, 1976, Kaiser Aluminum and Chemical Corporation (Kaiser) submitted its Notice of Withdrawal as a party in the above-captioned proceeding. Kaiser states that as a result of a favorable decision by the Public Service Commission of Ohio (PUCO Case No. 75–161–EL–SLF) involving the application of the Ohio Power Company (OPC) for cancellation of a power agreement between Kaiser and OPC, it has determined that it is in its best interests to restore the prior business and contractual relationship of the parties and to avoid the cost incident to its continued participation in this proceeding.

Any person desiring to be heard or to make any protest with reference to said Submittal should, on or before October 22, 1976, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). The Submittal is on file and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-30115 Filed 10-13-76;8:45 am]

[Docket No. ER76-917]

KENTUCKY UTILITIES CO.

Rate Change

OCTOBER 6, 1976.

Take notice that on September 23, 1976, the Kentucky Utilities Company (Company) tendered for filing a change in its Rate Schedule FPC No. 74 which consists of a "1976 Supplemental Agreement" (Supplement) with City of Owensboro (City), City Utility Commission (Commission), and Company.

Kentucky Utilities Company states the Supplement provides for changes in the current rate schedule on file with FPC, as relates to certain bonds previously issued by the City which affect the charges under the rate schedule. The City is issuing a new bond issue designated as "Electric Light and Power Revenue Refunding Bonds, Station 2, 1976 Series" which is to refund a similar issue, "• • • Station 2, 1970 Series." The 1976 Series has a lower interest rate than the 1970 Series that will produce a savings in interest, over the life of the bonds, in the amount of approximately $6,802,159.81. The Company further states that since recovery of capital costs are included in the rate schedule charges under the contract between the parties, the filing is a reduction in the rate.

Included with the Company's filing was a Certificate of Concurrence executed jointly by City and Commission.

The Company in its filing requested waiver of prior notice requirement under § 35.11 which will allow implementation of the Supplemental Agreement and scheduled sale of the bonds on October 20, 1976.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the

Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 18, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken but will not service to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-97 (PGA 76-4) RP76-93]

KENTUCKY WEST VIRGINIA GAS CO.

Filing of Revised Tariff Sheet and Motion To Make Tariff Sheets Effective

OCTOBER 6, 1976.

Take notice that on September 23, 1976, Kentucky West Virginia Gas Company tendered for filing in the above entitled proceeding a proposed substitute tariff sheet and motion to make certain tariff sheets effective. In support thereof Kentucky West Virginia states as follows:

On April 23, 1976, Kentucky West Virginia tendered for filing and filed First Revised Volume No. 1 of its Federal Power Commission Gas Tariff.

By order issued May 28, 1973, the Commission, except insofar as it applied to the Equitable Gas Company for domestic service in Kentucky, accepted the abovementioned First Revised Volume No. 1 for filing and suspended the use until October 31, 1976.

Upon the filing of the necessary compliance material and the filing of a new service agreement between Kentucky West and Equitable Gas Company covering the natural gas required for domestic service in Kentucky, the Commission by Order dated July 20, 1976, made First Revised Volume No. 1 of Kentucky West's Federal Power Commission Gas Tariff applicable to the Equitable Gas Company for domestic service in Kentucky effective October 31, 1976.

The Commisison on July 27, 1976, in Opinion 770, Docket No. RM75–14, prescribed a new Uniform National Gas Rate for Sales of Natural Gas Dedicated to Interstate Commerce on and after January 1, 1973, for the period January 1, 1975, to December 31, 1976. Pursuant to that Order, the rates prescribing therein for gas qualifying thereunder are, under § 2.66 of the Commission's General Policy and Interpretations, Paragraph (C) of that Order, applicable to pipeline or pipeline affiliate production. Kentucky West produces the greater percentage of the gas it sells in interstate commerce.

In Opinion 770, Docket No. RM75–14, the Commission in Paragraph (D) of the Order provided that "• • • any jurisdictional pipeline company having a purchased gas adjustment clause in effect as of the date of this order may file on or before September 27, 1976 • • •." Kentucky West had a purchased gas adjustment clause in effect as of the date of this Order covering its own production where applicable as well as gas purchased from independent producers and, as a result of Opinion 770, Original Sheet No. 27, First Revised Volume No. 1 of Kentucky West's Federal Power Commission Gas Tariff no longer accurately reflects Kentucky West's gas costs. The purpose of the sheet entitled, "Substitute Original Sheet No. 27," is to reflect Kentucky West's gas costs since Opinion 770.

Kentucky West may, pursuant to Paragraph (D) of Opinion 770 file, on or before September 27, 1976, a special rate increase tracking its increased gas costs pursuant to Opinion 770 effective October 27, 1976. However, such action, in light of the fact that Kentucky West will make First Revised Volume No. 1 of Kentucky West's Federal Power Commission Gas Tariff effective as of October 31, 1976, would require a duplication of efforts on the case, Kentucky West requests, pursuant to § 154.66(b) of the Regulations of this Commission, special permission to file the sheet entitled, "Substitute Original Sheet No. 27," and a waiver by the Commission of the October 27, 1976 filing date in Opinion 770 to October 31, 1976, so that Kentucky West may make effective, simultaneously, all the tariff sheets comprising First Revised Volume No. 1 of its Federal Power Commission Gas Tariff as filed on April 23, 1976, except Original Sheet No. 27 for which the sheet entitled, "Substitute Original Sheet No. 27," shall be made effective in lieu thereof.

Any person desiring to be heard and to make any protest with reference to said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All such petitions or protests should be filed on or before October 15, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to the proceeding must file a petition to intervene. Kentucky West Virginia is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-30123 Filed 10-13-76;8:45 am]

[Docket No. CP74-92]

McCULLOCH INTERSTATE GAS CORP.

Petition To Amend

OCTOBER 6, 1976.

Take notice that on September 13, 1976,[1] McCulloch Interstate Gas Corporation (Petitioner), 10880 Wilshire Boulevard, Los Angeles, California 90024, filed in Docket No. CP74–92 a petition to amend the order of February 11, 1976, in said docket issuing a certificate of public convenience and necessity pursuant to section 7(c) of the Natural Gas Act, by which petition Petitioner requests authorization to expand the area in the Spearhead Ranch, Converse County, Wyoming, for which Petitioner has authority to perform a transportation service under an agreement with Colorado Interstate Gas Company (CIG), all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

The petition indicates that a gas transportation agreement between Petitioner and CIG, dated September 5, 1973, and later amended to expand the delineated area, provides for a transportation service by Petitioner for CIG for gas produced from a certain delineated area in the Spearhead Ranch, and as part of the consideration CIG gave Petitioner the right to purchase 40 percent of the gas of the 25 percent purchased by CIG from the expanded area.

Petitioner asserts that development of raw gas supplies outside the present area has occurred and that there are currently four new wells available for production from the proposed expanded area with a combined production capability of about 3,500 Mcf per day. Petitioner also states that by reason of its right to purchase a portion of the gas, this new supply would also increase gas volumes available to meet Petitioner's future market requirements. Petitioner further claims that no additional facilities would be required to transport the additional volumes available from the enlarged area.

[1] The application was tendered for filing September 13, 1976; however, the fee required by Section 159.1 of the Regulations under the Natural Gas Act (18 CFR 159.1) was not paid until September 26, 1976. Thus, filing was not completed until the latter date.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 26, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP76-538]

MICHIGAN WISCONSIN PIPELINE CO.

Notice of Application

OCTOBER 7, 1976.

Take notice that on September 27, 1976, Michigan Wisconsin Pipe Line

V41200 OCT 14 76 UMI

Company (Applicant), One Woodward Avenue, Detroit, Michigan 48226, filed in Docket No. CP76–538 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of natural gas with Panhandle Eastern Pipe Line Company (Panhandle) on an emergency basis and the retention in place of facilities constructed for emergency operations, all as more fully set forth in the application on file with the Commission and open to the public inspection.

It is stated that to augment its gas supplies from traditional sources to assist in filling storage during the current injection cycle, Applicant acquired the right on an emergency basis to purchase during a sixty-day period commencing August 2, 1976, additional gas supplies from Oklahoma Natural Gas Company (Oklahoma Natural). In view of capacity limitations due to prior commitments on its Southwest mainline system, however, Applicant determined that it would be unable to take deliveries of all or a portion of the gas which Oklahoma Natural may have available under the emergency sale absent some alternate transportation arrangement, it is said. Applicant shows that Panhandle was requested and agreed to assist Applicant by providing an emergency transportation service for up to 100,000 Mcf of natural gas per day which Applicant would deliver, or cause to have delivered, to Panhandle for Applicant's account. Incident to effectuating the transportation service and pursuant to the provisions of § 157.22 of the Commission's Regulations, Applicant constructed for emergency operations an interconnection between its Dewey County gathering system and the pipeline system of Panhandle, it is said.

Applicant states that the interconnection comprises approximately 0.2 miles of 12-inch pipeline and includes a measuring station. It is shown that the facilities are located in Section 19, Dewey County, Oklahoma, and interconnect Applicant's 16-inch Trunk 464 extension and an existing 22-inch pipeline owned and operated by Panhandle. These facilities were placed in service for emergency operation on August 2, 1976, it is stated, and Applicant requests authorization to retain such facilities in place to serve as an emergency interconnection thereby to provide additional operating flexibility for both it and Panhandle since the facilities can be utilized for the purpose of making deliveries of natural gas by either party to the other. Applicant further requests authorization to exchange natural gas with Panhandle in accordance with the terms and conditions set forth in a letter agreement dated September 20, 1976, between Applicant and Panhandle.

Applicant estimates the cost of these facilities to be $105,190, which is subject to change after all invoices have been submitted to Applicant for payment.

It is stated that Panhandle would file an application for a certificate of public convenience and necessity authorizing it to retain in place the tap it made on its 22-inch pipeline to connect the facilities described herein.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 28, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-30125 Filed 10-13-76;8:45 am]

[Docket No. ER76-925]

MONTAUP ELECTRIC CO.

Filing

OCTOBER 7, 1976.

Take notice that Montaup Electric Company ("Montaup") on September 28, 1976 tendered for filing an agreement made as of October 31, 1976, with Maine Public Service Company ("Maine Public Service"). Under the agreement Montaup assigns to Maine Public Service approximately 6 megawatts of Montaup's share of its entitlement to New Brunswick Power under the Second Supplement to the New Brunswick Participation Agreement dated as of December 1, 1971. The assignment by Montaup to Maine Public Service is for the period November 1, 1976 through December 31, 1977. Maine Public Service agrees to make all payments and discharge all obligations, duties and liabilities with respect to the assigned entitlement.

Copies of the filing were served upon Maine Public Service and the Massachusetts Department of Public Utilities.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 18, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-30117 Filed 10-13-76;8:45 am]

[Docket No. ER76-820]

PUBLIC SERVICE CO. OF OKLAHOMA

Extension of Time

OCTOBER 4, 1976.

On September 28, 1976, Public Service Company of Oklahoma filed a motion to extend the time for responding to the protest, petition to intervene, and motion for summary disposition filed by the Grand River Dam Authority on September 8, 1976, in the above-designated proceeding.

Upon consideration, notice is hereby given that the time for responding to GRDA's submission is extended to and including October 8, 1976.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.76-30109 Filed 10-13-76;8:45 am]

[Docket No. CP76-532]

UNITED GAS PIPE LINE CO.

Application

OCTOBER 6, 1976.

Take notice that on September 21, 1976, United Gas Pipe Line Company (applicant), P.O. Box 1478, Houston, Texas 77001, filed in Docket No. CP76-532 an application pursuant to section 7 (c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas for Elizabethtown Gas Company (Elizabethtown) from a point on Applicant's 6-inch Boggy Creek-Huntsville main line in Anderson County, Texas, to a mutually agreeable existing authorized point of interconnection with Transcontinental Gas Pipe Line Corporation (Transco) for Elizabethtown's account, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant proposes to deliver for a period of one year up to 750 Mcf of gas per day that Elizabethtown has purchased from National Exploration Company in the area traversed by Applicant's 6-inch Boggy creek-Huntsville main line. Applicant proposes to charge 16.55 cents per Mcf of gas at 14.73 psia for the transportation service and would retain 1.5 percent of the volumes transported as allowance for gas consumed in Applicant's system.

Applicant indicates that the proposed transportation of gas would enable Elizabethtown to take into its system volumes of gas purchased by it in an area in which it has no available facilities, without the construction of any new facilities. The proposed transportation of gas for Elizabethtown would not affect service to the existing customers of Applicant, it is said.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 21, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-30121 Filed 10-13-76;8:45 am]

[Docket No. ER76-928]

WISCONSIN MICHIGAN POWER CO.

New Interconnection Agreement

OCTOBER 7, 1976.

Take notice that on September 30, 1976, Wisconsin Michigan Power Company tendered for filing with the Federal Power Commission a new interconnection agreement dated September 22, 1976 with Wisconsin Public Service Corporation.

The agreement, effective October 31, 1976, supersedes the following interconnection agreements which are presently on file with the FPC as Wisconsin Michigan Power Company Rate Schedules:

Interconnection agreement date:	FPC rate schedule No.
Nov. 7, 1945	26
Dec. 16, 1946	30
Dec. 8, 1948	34
Nov. 17, 1964	40–B
Oct. 14, 1963	48
Sept. 1, 1964	50
March 9, 1966	53

The major changes incorporated in the new agreement are as follows:

(a) Two additional points of interconnection between the parties;

(b) Each existing point of interconnection with varying terms and conditions is included as an appendix to the agreement;

(c) Classes of energy are specifically excluded; however, terms and conditions for interchange of power and energy shall be in accordance with the Interconnection Agreement between Wisconsin Public Service Corporation and Wisconsin Electric Power Company, who acts as agent for Wisconsin Michigan Power Company.

Wisconsin Public Service Corporation has been furnished with a duplicate original of this agreement.

Sufficient information to estimate with any degree of accuracy the quantities of energy which will be delivered by either party under the various classes of energy is not available.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with paragraph 1.8 and paragraph 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 20, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Approval of a Proposed Report

A request for clearance of a proposed report intended for use in collecting information from the public was accepted by the Regulatory Reports Review Staff, GAO, on August 19, 1976. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice is to inform the public of such receipt and the action taken by GAO.

FEDERAL POWER COMMISSION

FPC requested clearance of a new FPC Form 108, Questionnaire Schedules for Continuing Review of Rate Schedules Analysis, Filed Rates, Volumes and Quality Conditions. Notice of this receipt and request for comments was published in the FEDERAL REGISTER on August 25, 1976 (See 41 FR 35909.)

We find that use of Form 108 to supply current annual information, to apply for a rate certificate, an amendment to the rate schedule or to request rate changes, is consistent with the provisions of the law. However, with regard to the requirement that respondents update rate schedule data from 1972 to the present, we find that this information is already available to the FPC. Additionally, we find that the burden on respondents has not been minimized.

Therefore, we are providing clearance for the use of all schedules of Form 108 for ongoing data collection. FPC may use Form 108 to collect any necessary data items which are not presently available in FPC files or from another Federal source. FPC may also provide completed forms to the respondents for verification of the data. However, the use of schedules 502, 503, and 504 to collect information to update 1972 rate schedule data is hereby denied.

FPC Form 108 was approved for ongoing data collection under number B–180228 (RO406) on October 4, 1976. This clearance expires September 30, 1979.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

[FR Doc.76-30091 Filed 10-13-76;8:45 am]

REGULATORY REPORTS REVIEW

Receipt of Report Proposal

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on October 5, 1976. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed NRC request are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed request, comments (in triplicate) must be received on or before November 1, 1976, and should be addressed to Mr. John M. Lovelady, Acting Assistant Director, Regulatory Reports Review, Room 5216, 425 I Street NW., Washington, D.C. 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202–376–5425.

V41N200 OCT 14 76 UMI

NUCLEAR REGULATORY COMMISSION

NRC requests clearance of a new voluntary Construction Status Report. NRC requests schedule and status information from utilities on the construction of nuclear power plants, testing, and fuel loading. This information is needed by NRC for scheduling and meeting licensing commitments to the utilities, for forecasting licensing issuance, and to effectively utilize available NRC technical manpower for inspection and evaluation to assure the safe operation of nuclear facilities. The information obtained from the utilities is combined with information provided by NRC Regional Offices. NRC staff reviews and analyses all submissions of data, and incorporates changes to the construction networks and data sheets into the "Construction Status Report" issued monthly. Respondents are utilities with nuclear power plants under construction who submit monthly construction reports to the NRC. NRC estimates each report requires approximately one hour to prepare.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

[FR Doc.76–30090 Filed 10–13–76;8:45 am]

INTERNATIONAL TRADE COMMISSION

[AA1921–162]

MELAMINE IN CRYSTAL FORM FROM JAPAN

Investigation and Hearing

Having received advice from the Department of the Treasury on September 20, 1976, that melamine in crystal form from Japan is being, or is likely to be, sold at less than fair value, the United States International Trade Commission, on October 6, 1976, instituted investigation No. AA1921–162 under section 201 (a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

Hearing: A public hearing in connection with the investigation will be held in the Commission's Hearing Room, United States International Trade Commisison Building, 701 E Street NW., Washington, D.C. 20436, beginning at 10 a.m., e.s.t., on November 9, 1976. All parties shall there and then have the right to appear by counsel or in person, to present evidence, and to be heard. Requests to appear at the public hearing, or to intervene under the provisions of section 201(d) of the Antidumping Act, 1921 (19 U.S.C. 160(d)), shall be filed with the Secretary of the Commission, in writing, not later than the close of business on November 4, 1976.

By order of the Commission.

Issued: October 8, 1976.

KENNETH R. MASON,
Secretary.

[FR Doc.76–30172 Filed 10–13–76;8:45 am]

NATIONAL ADVISORY COUNCIL ON ECONOMIC OPPORTUNITY

COMMITTEE ON AGENCY OPERATIONS

Proposed Meeting

OCTOBER 7, 1976.

Pursuant to section 10 of the Federal Advisory Committee Act of 1972 notice is hereby given that the Committee on Agency Operations of the National Advisory Council on Economic Opportunity will hold a two-day meeting on November 17, 1976 and November 18, 1976 at the Council office at 1725 K Street, N.W. (Room 405), Washington, D.C. These meetings will begin at 9:30 a.m. and are open to the public.

The National Advisory Council on Economic Opportunity is authorized by section 605 of the Community Services Act to advise the President and the Director of the Community Services Administration on policy matters arising under the administration of the Act and to review the effectiveness and operations of programs under the Act.

Records shall be kept of all committee proceedings and shall be available for public inspection at the offices of the National Advisory Council on Economic Opportunity.

WALTER B. QUETSCH,
Acting Director.

[FR Doc.76–30127 Filed 10–13–76;8:45 am]

COMMITTEE ON LEGISLATION

Meeting

OCTOBER 7, 1976.

Pursuant to section 10 of the Federal Advisory Committee Act of 1972 notice is hereby given that the Committee on Legislation of the National Advisory Council on Economic Opportunity will hold a meeting on November 18, 1976 at the Council office at 1725 K Street, N.W. (Room 405), Washington, D.C. This meeting will begin at 9:30 a.m. and is open to the public.

The National Advisory Council on Economic Opportunity is authorized by section 605 of the Community Services Act to advise the President and the Director of the Community Services Administration on policy matters arising under the administration of the Act and to review the effectiveness and operations of programs under the Act.

Records shall be kept of all committee proceedings and shall be available for public inspection at the offices of the National Advisory Council on Economic Opportunity.

WALTER B. QUETSCH,
Acting Director.

[FR Doc.76–30128 Filed 10–13–76;8:45 am]

NATIONAL ADVISORY COUNCIL ON ECONOMIC OPPORTUNITY

Meeting

OCTOBER 7, 1976.

Pursuant to section 10 of the Federal Advisory Committee Act of 1972 notice is hereby given that the National Advisory Council on Economic Opportunity will hold a meeting on November 19, 1976 at the Council office at 1725 K Street, N.W. (Room 405), Washington, D.C. The meeting will begin at 9:30 a.m. and is open to the public.

The purpose of the meeting will be to hear progress reports from the Committee on Agency Operations and the Committee on Legislation and to define the timeframe for further study for its Report to the President.

The National Advisory Council on Economic Opportunity is authorized by section 605 of the Community Services Act to advise the President and the Director of the Community Services Administration on policy matters arising under the administration of the Act and to review the effectiveness and operations of programs under the Act.

Records shall be kept of all proceedings and shall be available for public inspection at the offices of the National Advisory Council on Economic Opportunity.

WALTER B. QUETSCH,
Acting Director.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 76–89]

LEFFERTS A. McCLELLAND

Intent To Grant Exclusive Patent License

Notice is hereby given of intent to grant to Lefferts A. McClelland, Indian Harbour Beach, Florida, a limited exclusive, revocable license to practice the invention described in U.S. Patent No. 3,715,660, for "Determining Distance to Lightning Strokes From a Single Station", issued to NASA on February 6, 1973, to the Administrator of the National Aeronautics and Space Administration on behalf of the United States of America. The proposed exclusive license will be for a limited number of years and will contain other appropriate terms and conditions to be negotiated in accordance with the NASA Patent Licensing Regulations, 14 CFR 1245.2, as revised April 1, 1972. NASA will grant the exclusive license unless within 30 days of this Notice, the Chairman, Inventions and Contributions Board, NASA, Washington, D.C. 20546, receives in writing any of the following together with supporting documentation: (i) a statement from any person setting forth reasons why it would not be in the best interest of the United States to grant the proposed exclusive license; or (ii) an application for a nonexclusive license under such invention in accordance with § 1245.206(b), in which applicant states that he has already brought or is likely to bring the invention to practical application within a reasonable period. The Board will review all written responses to the Notice and then recommend to the Administrator whether to grant the exclusive license.

Dated: October 7, 1976.

S. NEIL HOSENBALL,
General Counsel.

[Notice 76–88]

TOMAR ELECTRONICS

Intent To Grant Exclusive Patent License

Notice is hereby given of intent to grant to Tomar Electronics, Chicago, Illinois, a limited exclusive, revocable license to practice the invention described in U.S. Patent No. 3,889,264, for "Vehicle Locating System Utilizing AM Broadcasting Station Carriers", issued on June 10, 1975, to the Administrator of the National Aeronautics and Space Administration on behalf of the United States of America. The proposed exclusive license will be for a limited number of years and will contain other appropriate terms and conditions to be negotiated in accordance with the NASA Patent Licensing Regulations, 14 CFR 1245.2, as revised April 1, 1972. NASA will grant the exclusive license unless within 30 days of this Notice, the Chairman, Inventions and Contributions Board, NASA, Washington, D.C. 20546, receives in writing any of the following together with supporting documentation: (i) a statement from any person setting forth reasons why it would not be in the best interest of the United States to grant the proposed exclusive license; or (ii) an application for a nonexclusive license under such invention in accordance with § 1245.206(b), in which applicant states that he has already brought or is likely to bring the invention to practical application within a reasonable period. The Board will review all written responses to the Notice and then recommend to the Administrator whether to grant the exclusive license.

Dated: October 7, 1976.

S. NEIL HOSENBALL,
General Counsel.

[FR Doc.76–30097 Filed 10–13–76;8:45 am]

NATIONAL COMMUNICATIONS SYSTEM

DIGITAL INTERFACE CHARACTERISTICS FOR DATA COMMUNICATIONS EQUIPMENT

Proposed Federal Standards 1020A, 1030A, 1031, and 1040

The Administrator of the General Services Administration (GSA) is responsible, under the provisions of the Federal Property and Administrative Services Act of 1949, as amended, for the Federal Standardization Program. On 14 August 1972, the National Communications System (NCS)[1] was designated by the Administrator, GSA, as the responsible agent for the development of telecommunication standards for NCS interoperability and the computer-communications interface. The Federal Telecommunication Standards Committee (FTSC) was established under the administration of NCS to accomplish this mission. Additionally, the Secretary of Commerce is authorized, under the provisions of Pub. L. 89–306, to develop and establish uniform Federal automatic data processing standards.

The proposed Federal Standards are part of a series of joint Federal Telecommunication Standards and Federal Information Processing Standards (FIPS) falling within the area of mutual responsibility of the NCS and National Bureau of Standards (NBS) as defined in FIPS PUB 23[2] and NCS Circular 175–1[3].

Proposed FED–STD–1020A and FED–STD–1030A will adopt proposed Electronic Industries Association (EIA) standards RS–422A and RS–423A respectively. These proposed EIA standards specify the general-purpose electrical characteristics to be applied to data communications interfaces. They are revised versions of FED–STD–1020 (RS–422) and FED–STD–1030 (RS–423) that have resulted from the first year of implementation experience. A number of editorial refinements have been incorporated to enhance understanding and remove ambiguities. There have been no changes to parameter values.

Proposed FED–STD–1031 with the companion FIPS PUB, adopts proposed EIA standard, temporarily called RS–XYZ, which specifies the functional and mechanical interface between data terminal equipment and data circuit-terminating equipment in applications where data is transmitted over telecommunication networks predominantly analog (i.e., nondigital) transmission facilities. The original announcement for this standard was made in FEDERAL REGISTER, Vol. 40, No. 235, December 5, 1975. As a result of a number of comments received, further development work was accomplished to provide a better performing interface for the future. RS–XYZ will now serve primarily as a transitionary interface, which is interoperable with RS–232C, followed by a new proposed EIA standard, temporarily called RS–ABC, which is the objective for future use after a transitionary period. Proposed RS–ABC, to be adopted by proposed FED–STD–1029, is currently under development and will be circulated for comment when completed.

FED–STD–1040, with the companion FIPS PUB, adopts the proposed American National Standard, temporarily called "ANSI X.21," which specifies the functional, mechanical, and procedural characteristics for interface applications with new digital telecommunication networks. This standard is based upon extensive work internationally where solid agreement has been reached among participating nations.

A proposed EIA Electronic Industries Bulletin, Application Note on Interconnection between Interface Circuits Using RS–XYZ/RS–423 and RS–232C, and National Communications Systems Technical Information Bulletin 76–1, provides further information on the transition from existing RS–232C interfaces to the new generation RS–XYZ/RS–ABC/ANSI X.21 interfaces. Copies of these documents, as well as the proposed EIA and ANSI standards, can be obtained from the Office of the Manager, National Communications System, Attn: NCS–TS, Washington, D.C. 20305.

Prior to submission of the final endorsement of these proposed Federal Standards and the companion FIPS Publications to the Department of Commerce (DOC); the Office of Telecommunications Policy (OTP), Executive Office of the President; and GSA, it is essential that proper consideration is given to the needs and views of industry, the public, and State and local governments. The purpose of this notice is to solicit such views. Interested parties may submit their comments to the Office of the Manager, National Communications System, Attn: NCS–TS, Washington, D.C. 20305. Particular comments are also solicited as to estimated cost impact of the requirement of paragraph 3b of FED–STD–1031. All comments should be submitted by 26 November 1976.

LEE M. PASCHALL,
Lieutenant General, USAF,
Manager.

MAURICE W. ROCHE,
Director, Correspondence and Directives OASD (Comptroller).

OCTOBER 8, 1976.

PROPOSED FEDERAL STANDARD 1020A—
AUGUST 10, 1976

TELECOMMUNICATIONS: ELECTRICAL CHARACTERISTICS OF BALANCED VOLTAGE DIGITAL INTERFACE CIRCUITS

NOTE.—This draft standard was prepared by the Office of the Manager, National Communications System, and is subject to change. Do not use prior to approval.

1. *Introduction.*

1.1 *Scope.* This standard specifies the general purpose electrical characteristics of balanced voltage digital interface circuits normally implemented in integrated circuit technology that are to be employed for the interchange of serial binary data, timing, and control signals between voice or data telecommunication equipment where information is being conveyed at the DC baseband level at modulation rates up to 10 megabauds. This standard specifies one of a number of digital interface characteristics, and therefore, must be used in conjunction with other Federal Standards or special purpose design specifications giving any functional, mechanical, and procedural characteristics necessary to achieve full interoperability.

1.2 *Purpose.* The purpose of this standard is to facilitate interoperability between telecommunication facilities and systems of the Federal Government and compatibility of these facilities and systems at the computer-communications interface with data processing equipment (systems).

1.3 *Application.* This standard shall be used by all Federal departments and agencies in

[1] DOD Directive 5100.41, "Arrangements for Discharge of Executive Agent Responsibilities for the NCS"—filed as part of original document.

[2] Filed as part of original. Copies available from U.S. Government Printing Office, Washington, D.C. 20402

[3] Filed as part of original. Copies available from Office of the Manager, NCS, Washington, D.C. 20305

V41200 OCT 14 76 UMI

the design and procurement of telecommunication equipment employing balanced voltage digital interface circuits. It is to be used with other applicable Federal Standards of special purpose design specifications describing functional, mechanical, and procedural characteristics as necessary to achieve compatible interfaces.

2. *Applicable documents.* The following document forms part of this standard to the extent specified herein: Electronic Industries Association (EIA) Standard RS–422A, Electrical Characteristics of Balanced Voltage Digital Interface Circuits (currently being balloted by EIA). (For copies of RS–422A, write to Electronic Industries Association, 2001 Eye Street, NW., Washington, D.C. 20006.)

3. *Requirement.* The electrical characteristics of balanced voltage digital interface circuits shall conform to EIA Standard RS–422A.

4. *Changes.* When a Federal agency considers that this standard does not provide for its essential needs, a statement citing inadequacies shall be sent in duplicate to the General Services Administration, Federal Supply Service, FMH, Washington, D.C. 20406, in accordance with provisions of Federal Property Management Regulations 41 CFR SS 101–29.3. The General Services Administration will determine the appropriate action to be taken and will notify the agency.

5. *Conflict with referenced documents.* Where the requirements stated in this standard conflict with any requirements in a referenced document, the requirements of this standard shall apply. The nature of the conflict between this standard and a referenced document shall be submitted in duplicate to the General Services Administration, Federal Supply Service, FMH, Washington, D.C. 20406.

Preparing activity: Office of the Manager, National Communications System (NCS–TS). Washington, D.C. 20305.

PROPOSED FEDERAL STANDARD 1030A—AUGUST 10, 1976

TELECOMMUNICATIONS: ELECTRICAL CHARACTERISTICS OF UNBALANCED VOLTAGE DIGITAL INTERFACE CIRCUITS

NOTE.—This draft standard was prepared by the Office of the Manager, National Communications System, and is subject to change. Do not use prior to approval.

1. *Introduction.*

1.1 *Scope.* This standard specifies the general purpose electrical characteristics of unbalanced voltage digital interface circuits normally implemented in integrated circuit technology that are to be employed for the interchange of serial binary data, timing, and control signals between voice or data telecommunication equipment where information is being conveyed at the DC baseband level at modulation rates up to 100 kilobauds. This standard specifies one of a number of digital interface characteristics, and therefore, must be used in conjunction with other Federal Standards or special purpose design specifications giving any functional, mechanical, and procedural characteristics necessary to achieve full interoperability.

1.2 *Purpose.* The purpose of this standard is to facilitate interoperability between telecommunication facilities and systems of the Federal Government and compatibility of these facilities and systems at the computer-communications interface with data processing equipment (systems).

1.3 *Application.* This standard shall be used by all Federal departments and agencies in the design and procurement of telecommunication equipment employing unbalanced voltage digital interface circuits. It is to be used with other applicable Federal Standards or special purpose design specifications describing functional, mechanical, and procedural characteristics as necessary to achieve compatible interfaces.

2. *Applicable documents.* The following document forms part of this standard to the extent specified herein: Electronic Industries Association (EIA) Standard RS–423A, Electrical Characteristics of Unbalanced Voltage Digital Interface Circuits (currently being balloted by EIA). (For copies of RS–423A, write to Electronic Industries Association, 2001 Eye Street NW., Washington, D.C. 20006.)

3. *Requirement.* The electrical characteristics of unbalanced voltage digital interface circuits shall conform to EIA Standard RS–423A.

4. *Changes.* When a Federal agency considers that this standard does not provide for its essential needs, a statement citing inadequacies shall be sent in duplicate to the General Services Administration, Federal Supply Service, FMH, Washington, D.C. 20406, in accordance with provisions of Federal Property Management Regulations 41 C.F.R. SS 101–29.3. The General Services Administration will determine the appropriate action to be taken and will notify the agency.

5. *Conflict with referenced documents.* Where the requirements stated in this standard conflict with any requirements in a referenced document, the requirements of this standard shall apply. The nature of the conflict between this standard and a referenced document shall be submitted in duplicate to the General Services Administration, Federal Supply Service, FMH, Washington, D.C. 20406.

Maintenance agency: Office of the Manager, National Communications System (NCS–TS), Washington, D.C. 20305.

PROPOSED FEDERAL STANDARD 1031—AUGUST 10, 1976

TELECOMMUNICATIONS: TRANSITIONAL INTERFACE BETWEEN DATA TERMINAL EQUIPMENT AND DATA CIRCUIT-TERMINATING EQUIPMENT FOR OPERATION ON ANALOG TELECOMMUNICATION NETWORKS

NOTE.—This draft standard was prepared by the Office of the Manager, National Communications System, and is subject to change. Do not use prior to approval.

1. *Introduction*

1.1 *Scope.* This standard specifies the functional and mechanical interface characteristics between data terminal equipment (DTE) and data circuit-terminating equipment (DCE) for data transmission on analog telecommunication networks.

1.2 *Purpose.* The purpose of this standard is to facilitate interoperability between telecommunication facilities and systems of the Federal Government and compatibility of these facilities and systems at the computer-communications interface with data processing equipment (systems).

1.3 *Application.* This standard shall be used by all Federal departments and agencies in the design and procurement of DTEs and DCEs where interoperation with equipment meeting Electronic Industries Association RS–232C is required through a transition period. (DTEs complying with this standard may also, as an additional optional feature, comply with Federal Standard 1040 where data transmission on digital telecommunication networks is anticipated.)

2. *Applicable documents.* The following documents of the issue in effect on the date of invitation for bids or request for proposals, form part of this standard to the extent specified herein: Electronic Industries Association (EIA) Standard RS–_____ (tentatively identified as SP 1194A, Functional and Mechanical Interfaces between Data Terminal Equipment and Data Communication Equipment Employing Serial Binary Data Interchange. EIA Industrial Electronics Bulletin _____, Application Note on Interconnection between Interface Circuits Using RS–XYZ/RS–423 and RS–232C. (For copies of EIA documents, write to Electronic Industries Association, 2001 Eye Street, NW., Washington, D.C. 20006.)

Federal Standard 1020, Telecommunications: Electrical Characteristics of Balanced Voltage Digital Interface Circuits.

Federal Standard 1030, Telecommunications: Electrical Characteristics of Unbalanced Voltage Digital Interface Circuits.

Federal Standard 1029 (proposed), General Purpose Interface Between Data Terminal Equipment and Data Circuit-Terminating Equipment for Operation on Analog Telecommunication Networks.

Federal Standard 1040 (proposed), Telecommunications: General Purpose Interface Between Data Terminal Equipment and Data Circuit-Terminating Equipment for Synchronous Operation on Digital Telecommunication Networks.

3. *Requirement.* This standard adopts in whole the EIA Standard RS–(XYZ).

(NOTE.—The proposed EIA standard is presently being balloted by EIA as SP 1194A. This note will be removed from this document when the proposed standard is finally approved by both the Federal Government and EIA.) The electrical characteristics of Federal Standard 1030 shall apply where SP 1194A specifies use of EIA RS–423. The following additional provisions for equipment meeting this standard shall apply:

a. DTEs and DCEs compliant with this standard shall be capable of interoperation with DCEs and DTEs, respectively, meeting EIA Standard RS–232C as specified by the EIA Industrial Electronics Bulletin _____.

b. DTEs and DCEs compliant with this standard shall be capable of field conversion to conform to Federal Standard 1029 (RS–ABC) by means of interchangeable plug-in circuit boards or through a switching or strapping arrangement of prewired components. The conversion shall include changing the electrical characteristics from Federal Standard 1030 (RS–423) to Federal Standard 1020 (RS–422) on circuits NS, SD, RD, RS, CS, RR, ST, RT, SQ, and TT. The Secondary Channel Functions, if implemented, shall be eliminated. The pin assignment plan in Table 1 shall apply. All other provisions of RS–(XYZ) remain unchanged.

TABLE 1.—*Pin assignment plan*

Contact No.	Circuit direction	Interchange circuit: Unbalanced—Federal Standard 1030	Interchange circuit: Balanced [1]—Federal Standard 1020	Circuit name
1				(Shield).
2	To DCE	RL		Remote loopback.
3	do		NS–A	New signal.
4	do		SD–A	Send data.
5	From DCE		ST–B	Send timing.
6	do		RD–A	Receive data.
7	To DCE		RS–A	Request to send.
8	From DCE		CS–A	Clear to send.
9	do	DM		Data mode.
10	do		RT–B	Receive timing.
11	To DCE	LL		Local loopback.
12	do	IS		Terminal in service.
13	From DCE		RR–A	Receiver ready.
14	do		SO–B	Signal quality.

17	do		TT–B	Terminal timing.
18	From DCE			(Unassigned).
19	do	RC		Receive common.
20	To DCE	SC		Send common.
21	do		NS–B	New signal.
22	do		SD–B	Send data.
23	From DCE		ST–A	Send timing.
24	do		RD–B	Receive data.
25	To DCE		RS–B	Request to send.
26	From DCE		CS–B	Clear to send.
27	do			(Unassigned).
28	do		RT–A	Receive timing.
29	To DCE			(Unassigned).
30	do	TR		Terminal ready.
31	From DCE		RR–B	Receiver ready.
32	do		SQ–A	Signal quality.
33	do	IC		Incoming call.
34	To DCE	SR		Signaling rate.
35	do		TT–A	Terminal timing.
36	From DCE	TM		Test mode.
37		SG	SG	Signal ground.

[1] The A and B designations represent the 2 generator leads specified in Federal Standard 1020 (RS–422).

4. *Changes.* When a Federal agency considers that this standard does not provide for its essential needs, a statement citing inadequacies shall be sent in duplicate to the General Services Administration, Federal Supply Service, FMH, Washington, D.C. 20406, in accordance with provisions of Federal Property Management Regulations 41 CFR SS 101–29.3. The General Services Administration will determine the appropriate action to be taken and will notify the agency.

5. *Conflict with referenced documents.* Where the requirements stated in this standard conflict with any requirements in a referenced document, the requirements of this standard shall apply. The nature of the conflict between this standard and a referenced document shall be submitted in duplicate to the General Services Administration, Federal Supply Service, FMH, Washington, D.C. 20406.

Maintenance agency: Office of the Manager, National Communications System (NCS–TS), Washington, D.C. 20305.

PROPOSED FEDERAL STANDARD 1040—AUGUST 10, 1976

TELECOMMUNICATIONS: GENERAL PURPOSE INTERFACE BETWEEN DATA TERMINAL EQUIPMENT AND DATA CIRCUIT-TERMINATING EQUIPMENT FOR SYNCHRONOUS OPERATION ON DIGITAL TELECOMMUNICATION NETWORKS

NOTE.—This draft standard was prepared by the Office of the Manager, National Communications System and is subject to change. Do not use prior to approval.

1. *Introduction.*

1.1 *Scope.* This standard defines the interface characteristics, interface procedures, timing of event signal formats, and failure detection and isolation for a general purpose interface between data terminal equipment (DTE) and data circuit-terminating equipment (DCE) for synchronous operation on digital telecommunication networks.

1.2 *Purpose.* The purpose of this standard is to facilitate interoperability between telecommunication facilities and systems of the Federal Government and compatibility of these facilities and systems at the computer-communications interface with data processing equipment (systems).

1.3. *Application.* This standard shall be used by all Federal departments and agencies in the design and procurement of DTEs and DCEs for data transmission on digital telecommunication networks. (DTEs complying with this standard may also, as an additional optional feature, comply with either Federal Standard 1031 or Federal Standard 1029 where data transmission on analog telecommunication networks is anticipated.)

2. *Applicable documents.* The following documents, of the issue in effect on the date of invitation for bids or request for proposals, form part of this standard to the extent specified herein:

Federal Standard 1020, Telecommunications: Electrical Characteristics of Balanced Voltage Digital Interface Circuits, September 24, 1975.

Federal Standard 1030, Telecommunications: Electrical Characteristics of Unbalanced Voltage Digital Interface Circuits, September 24, 1975.

Federal Standard 1031 (proposed), Transitional Interface Between Data Terminal Equipment and Data Circuit-Terminating Equipment for Operation on Analog Telecommunication Networks.

Federal Standard 1029 (proposed), General Purpose Interface Between Data Terminal Equipment and Data Circuit-Terminating Equipment for Operation on Analog Telecommunication Networks.

American National Standard _____ (proposed), General Purpose Interface Between Data Terminal Equipment and Data Circuit-Terminating Equipment for Synchronous Operation on Public Data Networks.

3. *Requirement.* This standard adopts in whole the American National Standard _____, General Purpose Interface Between Data Terminal Equipment and Data Circuit-Terminating Equipment for Synchronous Operation on Public Data Networks.

(NOTE.—The proposed American National Standard is presently being balloted by the American National Standards Institute (ANSI) Technical Committee X3S3 on Data Communications. This note will be removed from the document when the proposed standard is finally approved by both the Federal Government and ANSI.) The electrical characteristics of Federal Standards 1020 and 1030 shall apply where American National Standard _____ specifies use of for RS–422 and RS–423 respectively. DTEs and DCEs complying with this standard shall implement the electrical characteristics of Federal Standard 1020 (RS–422), except for those DTEs which also meet Federal Standard 1031, the Electrical characteristics of Federal Standard 1030 (RS–423) shall apply.

4. *Changes.* When a Federal agency considers that this standard does not provide for its essential needs, a statement citing inadequacies shall be sent in duplicate to the General Services Administration, Federal Supply Service, FMH, Washington, D.C. 20406, in accordance with provisions of Federal Property Management Regulations 41 CFR SS101–29.3. The General Services Administration will determine the appropriate action to be taken and will notify the agency.

5. *Conflict with referenced documents.* Where the requirements stated in this standard conflict with any requirements in a referenced document, the requirements of this standard shall apply. The nature of the conflict between this standard and a referenced document shall be submitted in duplicate to the General Services Administration, Federal Supply Service, FMH, Washington, D.C. 20406.

Preparing activity: Office of the Manager, National Communications System (NCS–TS), Washington, D.C. 20305.

PROPOSED FEDERAL INFORMATION PROCESSING STANDARDS PUBLICATION _____, DATE _____

ANNOUNCING THE STANDARD FOR THE GENERAL PURPOSE INTERFACE BETWEEN DATA TERMINAL EQUIPMENT AND DATA CIRCUIT-TERMINATING EQUIPMENT FOR SYNCHRONOUS OPERATION ON DIGITAL TELECOMMUNICATION NETWORKS

Federal Information Processing Standards Publications are issued by the National Bureau of Standards pursuant to the Federal Property and Administrative Services Act of 1949 as amended, Public Law 89–306 (79 Stat. 1127), Executive Order 11717 (38 FR 12315, dated May 11, 1973), and Part 6 of Title 15 CFR (Code of Federal Regulations).

Name of Standard. The General Purpose Interface Between Data Terminal Equipment and Data Circuit-Terminating Equipment for Synchronous Operation on Digital Telecommunication Networks (FIPS PUB _____).

Category of Standard. Hardware Standard, Data Transmission.

Explanation. This Federal Information Processing Standard is one of a series that prescribe the interface parameters for interconnecting a variety of digital components and equipment. Each standard in this series addresses a particular interconnection, specifying the electrical, functional, and mechanical characteristics required at the interface to ensure interoperability across the designated interconnection boundary. This standard prescribes the Data Terminal Equipment interface for interconnecting with Data Circuit-Terminating Equipment employed with synchronous, digital (in contrast to analog) telecommunication networks. The interface with analog networks are specified in a separate standard.

V41200 OCT 14 76 UMI

Approving Authority. Secretary of Commerce.

Maintenance agency. Institute for Computer Sciences and Technology, National Bureau of Standards.

Cross Index. a. American National Standards Institute Standard ANSI X.21 entitled "General Purpose Interface Between Data Terminal Equipment and Data Circuit-Terminating Equipment for Synchronous Operations on Public Data Networks."

b. Electronic Industries Association Standard RS-422A entitled "Electrical Characteristics of Balanced Voltage Digital Interface Circuits" (that has been adopted by GSA as Federal Standard 1020A).

c. Electronic Industries Association Standard RS-423A entitled "Electrical Characteristics of Unbalanced Voltage Digital Interface Circuits" (that has been adopted by GSA as Federal Standard 1030A).

Applicability. This Federal Information Processing Standard pertains to the interconnection between data terminal equipment (DTE) and data circuit-terminating equipment or between two or more DTE's where:

(1) The data terminal equipment is designed to interconnect with synchronous, digital (in contrast to analog) telecommunication networks.

(2) The interface electrical characteristics are to be compatible with integrated circuit capabilities.

(3) Serial binary data is conveyed across the interface at the dc baseband level.

This standard shall be used by all agencies of the Federal Government in the acquisition of data terminal and data communication equipment conforming to the above three criteria. While this standard is not intended to hasten the obsolescence of equipment currently in the Federal inventory, it is applicable to the planning, design, and procurement of all new data terminal equipment and related data communication facilities.

Specifications. Federal Information Processing Standard ------ (FIPS ------), The General Purpose Interface Between Data Terminal Equipment and Data Circuit-Terminating Equipment for Synchronous Operation on Digital Telecommunication Networks, is identified also as Federal Standard Number 1040. This joint Federal Information Processing Standard and Federal Standard adopts by reference the provisions of the following American National and Industry standards developed and adopted respectively by the American National Standards Institute and the Electronic Industries Association:

(1) The interface functional, timing, and mechanical characteristics of ANSI X.21 are specified without qualification.

(2) The electrical characteristics of RS-422 and RS-423, as prescribed by ANSI X.21, are specified without qualification.

Implementation schedule. All applicable equipment ordered on or after the date of this FIPS PUB must he in conformance with this standard unless a waiver has been obtained in accordance with the procedure described below. Exceptions to this standard are made in the following cases:

a. For equipment installed or on order prior to the date of this FIPS PUB.

b. Where procurement actions are into the solicitation phase (i.e., Request for Proposals for Invitation for Bids have been issued) on the date of this FIPS PUB.

Qualifications. None.

Waiver procedure. (To be completed by NBS.)

Where to obain copies of the standards. (To be completed by NBS.)

PROPOSED FEDERAL INFORMATION PROCESSING STANDARDS PUBLICATION------

DATE------

ANNOUNCING THE STANDARD FOR THE TRANSITIONAL INTERFACE BETWEEN DATA TERMINAL EQUIPMENT AND DATA CIRCUIT-TERMINATING EQUIPMENT FOR OPERATION ON ANALOG TELECOMMUNICATION NETWORKS

Federal Information Processing Standards Publications are issued by the National Bureau of Standards pursuant to the Federal Property and Administrative Services Act of 1949 as amended, Public Law 89-306 (79 Stat. 1127), Executive Order 11717 (38 FR 12315, dated May 11, 1973), and Part 6 of Title 15 CFR (Code of Federal Regulations).

Name of standard. The Transitional Interface Between Data Terminal Equipment and Data Circuit-Terminating Equipment for Operation on Analog Telecommunication Networks (FIPS PUB -------).

Category of standard. Hardware Standard, Data Transmission.

Explanation. This Federal Information Processing Standard is one of a series that prescribe the interface parameters for interconnecting a variety of digital components and equipment. Each standard in this series addresses a particular interconnection, specifying the electrical, functional, and mechanical characteristics required at the interface to ensure interoperability across the designated interconnection boundary. This standard prescribes the Data Terminal Equipment interface for interconnecting with Data Circuit-Terminating Equipment employed with analog (in contrast to digital) telecommunication networks. The interface for digital networks is specified in a separate standard.

Approving authority. Secretary of Commerce.

Maintenance agency. Institute for Computer Sciences and Technology, National Bureau of Standards.

Cross Index.

a. Electronic Industries Association Standard RS-XYZ entitled "Electrical and Mechanical Interface Between Data Terminal Equipment and Data Communication Equipment Employing Serial Binary Data Interchange."

b. Electronic Industries Association Standard RS-422A entitled "Electrical Characteristics of Balanced Voltage Digital Interface Circuits" (that has been adopted by GSA as Federal Standard 1020A).

c. Electronic Industries Association Standard RS-423A entitled "Electrical Characteristics of Unbalanced Voltage Digital Interface Circuits" (that has been adopted by GSA as Federal Standard 1030A).

Applicability. This Federal Information Processing Standard pertains to the interconnection between data terminal equipment (DTE) and data circuit terminating equipment or between two or more DTE's where:

(1) The data terminal equipment is designed to interconnect with analog (in contrast to digital) telecommunication networks.

(2) The interface electrical characteristics are to be compatible with integrated circuit capabilities.

(3) Serial binary data is conveyed across the interface at the dc baseband level.

This standard shall be used by all agencies of the Federal Government in the acquisition of data terminal and data communication equipment conforming to the above three criteria. While this standard is not intended to hasten the obsolescence of equipment currently in the Federal inventory, it is applicable to the planning, design, and procurement of all new data terminal equipment and related data communication facilities.

Specifications. Federal Information Processing Standard ------ (FIPS ------), The Transitional Interface Between Data Terminal Equipment and Data Circuit-Terminating Equipment for Operation on Analog Telecommunication Networks, is identified also as Federal Standard Number 1031. This joint Federal Information Processing Standard and Federal Standard adopts by references the provisions of the following American National and industry standards developed and adopted respectively by the American National Standards Institute and the Electronic Industries Association:

(1) The interface functional, timing, and mechanical characteristics are as specified by RS-XYZ.

(2) The electrical characteristics of RS-423 are specified for all interchange circuits.

Implementation Schedule. All applicable equipment ordered on or after the date of this FIPS PUB must be in conformance with this standard unless a waiver has been obtained in accordance with the procedure described below. Exceptions to this standard are made in the following cases:

a. For equipment installed or on order prior to the date of this FIPS PUB.

b. Where procurement actions are into the solicitation phase (i.e., Request for Proposals for Invitation for Bids have been issued) on the date of this FIPS PUB.

Qualifications: To provide for the capability of equipment to conform to both current and future requirements, all newly acquired DTE and DCE must provide the means for operating with both the RS-XYZ and RS-ABC standards as specified in Federal Standard 1031, Paragraph 3.

Waiver Procedure. (To be completed by NBS.)

Where to Obtain Copies of the Standards. (To be completed by NBS.)

NATIONAL FOUNDATION FOR THE ARTS AND THE HUMANITIES

RESEARCH GRANTS PANEL

Meeting

SEPTEMBER 29, 1976.

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463) notice is hereby given that a meeting of the Research Grants Panel will be held at 806 15th Street, N.W., Washington, D.C. 20506, in Room 1130, from 9 am to 5:30 pm on November 15, 1976.

The purpose of the meeting is to review General Research applications in the field of Literature submitted to the National Endowment for the Humanities for projects beginning after April 1, 1977.

Because of the proposed meeting will consider financial information and personnel and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated August 13, 1973, I have determined that the meeting would fall within exemptions (4) and (6) of 5 U.S.C. 552(b) and that it is essential to close the meeting to protect the free exchange on international views and to avoid interference with operation of the Committee.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. John W. Jordan, 806 15th Street, N.W. Washington, D.C. 20506, or call area code 202-382-2031.

JOHN W. JORDAN,
Advisory Committee Management Officer.

[FR Doc.76-30031 Filed 10-13-76;8:45 am]

RESEARCH GRANTS PANEL

Meeting

OCTOBER 5, 1976.

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463) notice is hereby given that a meeting of the Research Grants Panel will be held at 806 15th Street, N.W., Washington, D.C. 20506, in Room 1130, from 9 a.m. to 5:30 p.m. on November 19, 1976.

The purpose of the meeting is to review research tools applications to the Research Materials Program in the fields of History, Social Science, and Philosophy submitted to the National Endowment for the Humanities for projects beginning after October 1, 1977.

Because the proposed meeting will consider financial information and personnel and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated August 13, 1973, I have determined that the meeting would fall within exemptions (4) and (6) of 5 U.S.C. 552(b) and that it is essential to close the meeting to protect the free exchange on internal views and to avoid interference with operation of the Committee.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. John W. Jordan, 806 15th Street, N.W. Washington, D.C. 20506, or call area code 202-382-2031.

JOHN W. JORDAN,
Advisory Committee Management Officer.

[FR Doc.76-30032 Filed 10-13-76;8:45 am]

RESEARCH GRANTS PANEL

Meeting

SEPTEMBER 29, 1976.

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463) notice is hereby given that a meeting of the Research Grants Panel will be held at 806-15th Street, N.W., Washington, D.C. 20506, in room 1130 from 9 am to 5:30 pm on November 29, 1976.

The purpose of the meeting is to review General Research applications in the field of Archaeology submitted to the National Endowment for the Humanities for projects beginning after April 1, 1977.

Because the proposed meeting will consider financial information and personnel and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated August 13, 1973, I have determined that the meeting would fall within exemptions (4) and (6) of 5 U.S.C. 552(b) and that it is essential to close the meeting to protect the free exchange on internal views and to avoid interference with operation of the Committee.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. John W. Jordan, 806 15th Street, N.W., Washington, D.C. 20506 or call area code 202-382-2031.

JOHN W. JORDAN,
Advisory Committee Management Officer.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-324]

CAROLINA POWER & LIGHT CO.

Proposed Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-62, issued to Carolina Power & Light Company (the licensee), for operation of the Brunswick Steam Electric Plant, Unit No. 2 located in Brunswick County, North Carolina.

The amendment would permit continuous reactor operation with one recirculation loop out of service, and establish operating limits associated with this mode of operation. The amendment is proposed by the licensee's application for amendment dated September 3, 1976.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By November 15, 1976, the licensee may file a request for a hearing and any person whose interest may be affecting by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Richard E. Jones, Esquire, Carolina Power & Light Company, 336 Fayetteville Street, Raleigh, North Carolina 27602, attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application for amendment dated September 3, 1976, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Southport-Brunswick County Library, 109 West Moore Street, Southport, North Carolina 28461.

Dated at Bethesda, Maryland, this 1st day of October 1976.

For the Nuclear Regulatory Commission.

A. SCHWENCER,
Chief, Operating Reactor Branch No. 1, Division of Operating Reactors.

[FR Doc.76-29970 Filed 10-13-76;8:45 am]

[Docket Nos. 50-329 and 50-330]

CONSUMERS POWER CO. (MIDLAND PLANT, UNITS 1 AND 2)

Order Rescheduling Hearing

On September 21, 1976, the Atomic Safety and Licensing Board (the Board) scheduled an evidentiary hearing on whether the construction permits for the above-identified nuclear facility should be continued, modified or suspended

V41N200 OCT 14 76 UM

pending completion of reopened hearings which will consider all issues remanded to the U.S. Nuclear Regulatory Commission (the Commission) by the U.S. Court of Appeals for the District of Columbia Circuit in *Aeschliman* v. *NRC*, Appeal Nos. 73–1776 and 73–1867, decided July 21, 1976.

The Intervenors filed a motion to adjourn this suspension hearing or in the alternative to continue it from October 6, 1976, until on or after November 15, 1976. The basis for this request for continuance was that counsel for the Intervenors had previously scheduled court and administrative proceedings and commitments in connection with their preparation. The Commission Staff does not oppose the continuance but the licensee did file a response by telegram, taking the position that any continuance beyond a few days would not be acceptable since it wished to remove the cloud of the possibility of suspension as soon as possible.

The Board considers that the Intervenors have shown good cause for a continuance and, accordingly, hereby grants the Intervenors' motion in this regard. Insofar as the motion requests that the suspension hearing be adjourned and that the construction permits be immediately suspended, the Intervenors' motion is denied. In view of time limitations, the Board will issue a separate memorandum and order setting forth the reasons for this denial.

In addition, the Board has now received briefs from the parties in response to its Memorandum and Order of September 21, 1976, with regard to defining further steps in the reopened proceedings. After review of these briefs, the Board will issue a memorandum and order to control further conduct of this proceeding. That memorandum and order will deal with such items as the Board's action on the ACRS letter, with discovery, with procedures to sharpen and define the issues for the remanded hearing, with the requirements for filing written testimony in the suspension hearing and with any other actions that may aid in the orderly disposition of this proceeding.

Accordingly, please take notice, and it is hereby ordered, That the suspension hearing set for October 6, 1976, is hereby continued until 10:00 a.m. on Tuesday, November 16, 1976, at the Holiday Inn, 1500 West Wackerly Road, Midland, Michigan. This hearing shall run continuously until all evidence and oral argument on the suspension issues has been received or until continued by further order of the Board.

Members of the public are invited to attend the suspension hearing and the Board will receive limited appearances prior to taking of evidence at the hearing.[1] Limited appearances will be restricted to ten (10) minutes each, unless the person requesting the limited appearance can show good cause for taking more time.

It is so ordered.

By order of the Atomic Safety and Licensing Board.

Issued at Bethesda, Maryland, this 4th day of October, 1976.

DANIEL M. HEAD,
Chairman.

[FR Doc.76-29972 Filed 10-13-76;8:45 am]

[1] The Board has received several letters and one telegram which requested permission to make limited appearances at the October 6 hearing. The Board has sent these requests to the Docketing and Service Section for service on the parties in accordance with § 2.780(b) of the Commission's Rules of Practice, 10 CFR Part 2.

[Docket No. 50-321]

GEORGIA POWER CO. AND OGLETHORPE ELECTRIC MEMBERSHIP CORP.

Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 35 to Facility Operating License No. DPR–57 issued to Georgia Power Company and Oglethorp Electric Membership Corporation, which revised Technical Specifications for operation of the Edwin I. Hatch Nuclear Plant, Unit No. 1, located in Appling County, Georgia. The amendment is effective as of its date of issuance.

The amendment consists of changes to the Technical Specifications relating to (1) the thermal discharge plume verification program, (2) fish collection procedures used to determine the migratory behavior of selected fish species, and (3) the administrative and management controls established to implement the Environmental Technical Specifications.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5 (d)(4) an environmental statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated May 11, 1976, (2) Amendment No. 35 to License No. DPR–57 and (3) the Commission's reference letter. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Appling County Public Library, Parker Street, Baxley, Georgia 31513.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 4th day of October, 1976.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch No. 3, Division of Operating Reactors.

[FR Doc.76-29975 Filed 10-13-76;8:45 am]

[Docket Nos. 50-254 and 50-265]

COMMONWEALTH EDISON CO. AND IOWA-ILLINOIS GAS AND ELECTRIC CO.

Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment Nos. 32 and 31 to Facility Operating License Nos. DPR–29 and DPR–30, issued to Commonwealth Edison Company (acting for itself and on behalf of the Iowa-Illinois Gas and Electric Company), which revised Technical Specifications for operation of the Quad Cities Station Unit Nos. 1 and 2 (the facilities) located in Rock Island County, Illinois. The amendments are effective as of their date of issuance.

These amendments modified the existing Quad Cities Unit Nos. 1 and 2 snubber Technical Specifications to (1) specify the safety related snubbers which must be inspected, (2) provide for adding snubbers to safety related systems, (3) delete the requirement that the initial inspection be performed within 4 months of issuance of Amendment No. 14 to License No. DPR–29 and Amendment No. 10 to License No. DPR–30 which were issued on June 17, 1975, and (4) delete the requirement to disassemble two snubbers per facility during each refueling outage.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) the application for amendments dated March 11, 1976, (2) Amendment Nos. 32 and 31 to License Nos. DPR–29 and DPR–30, and (3) the Commission's concurrently issued related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Moline Public Library, 504 17th Street, Moline, Illinois 60625. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention, Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this first day of October, 1976.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

[FR Doc.76-29968 Filed 10-13-76;8:45 am]

[Docket No. 50-298]

NEBRASKA PUBLIC POWER DISTRICT

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 31 to Facility Operating License No. DPR–46, issued to Nebraska Public Power District (the licensee), which revised Technical Specifications for operation of the Cooper Nuclear Station (the facility) located in Nemaha County, Nebraska. The amendment is effective as of its date of issuance.

The amendment revised temporary restrictions in the Technical Specifications for the facility to authorize modifications designed to improve the functioning of the Low Pressure Coolant Injection System of the Emergency Core Cooling System.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated August 9, 1976, (2) Amendment No. 31 to License No. DPR–46, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Auburn Public Library, 118 15th Street, Auburn, Nebraska 68305. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 28th day of September, 1976.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

[FR Doc.76-29971 Filed 10-13-76;8:45 am]

[Docket Nos. 50-390 and 50-391]

TENNESSEE VALLEY AUTHORITY WATTS BAR NUCLEAR PLANT, UNITS 1 AND 2

Order Extending Construction Completion Dates

Tennessee Valley Authority is the holder of Construction Permits Nos. CPPR–91 and CPPR–92 issued by the Atomic Energy Commission[1] on January 23, 1973, for construction of the Watts Bar Nuclear Plant, Units 1 and 2, presently under construction at the Company's site in Rhea County, Tennessee.

On June 30, 1976, the Company filed a request for an extension of the completion dates because construction has been delayed due to:

(1) Delays in opening bids,
(2) Design difficulties caused by transient pressures,
(3) Redesign of embeds and resultant slippage in delivery,
(4) Increase of three feet in reactor building base slab thickness,
(5) Increased erection time caused by change to heavier plate material.

This action involves no significant hazards consideration; good cause has been shown for the delay; and the requested extension is for a reasonable period, the bases for which the set forth in a staff evaluation dated October 5, 1976.

Copies of the above documents and other related material are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., 20555, and at the Dayton Public Library, First Avenue, Dayton, Tennessee 37321.

It is hereby ordered, That the latest completion date for CPPR–91 is extended from August 1, 1976 to June 1, 1979, and the latest completion date for CPPR–92 is extended from May 1, 1977 to March 1, 1980.

For the Nuclear Regulatory Commission.

Date of Issuance: October 5, 1976.

D. B. VASSALLO,
Assistant Director for Light Water Reactors, Division of Project Management.

[FR Doc.76-29969 Filed 10-13-76;8:45 am]

[1] Effective January 20, 1975, the Atomic Energy Commission became the Nuclear Regulatory Commission and permits in effect on that day were continued under the authority of the Nuclear Regulatory Commission.

[Docket No. 50-331]

IOWA ELECTRIC LIGHT AND POWER CO.

Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 23 to Facility Operating License No. DPR–49 issued to Iowa Electric Light and Power Company which revised Technical Specifications for operation of the Duane Arnold Energy Center, located in Linn County, Iowa. The amendment is effective as of its date of issuance.

The amendment permits changes in the sampling requirement for fecal coliform bacteria in the station's sewage treatment plant.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated May 5, 1975, and (2) Amendment No. 23 to License No. DPR–49. These items are available for public inspection at the Commission's Public Document Room, 1717 H Street N.W., Washington, D.C. and at the Cedar Rapids Public Library, 426 Third Avenue, S.E., Cedar Rapids, Iowa.

A copy of item (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 7th day of October, 1976.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch 3, Division of Operating Reactors.

[FR Doc.76-30108 Filed 10-13-76;8:45 am]

[Docket Nos. 50-282 and 50-306]

NORTHERN STATES POWER CO.

Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment Nos. 16 and 10 to Facility Operating License Nos. DPR–42 and DPR–60, issued to the Northern States

V41200 OCT 14 76 UM

Power Company (the licensee), which revised Technical Specifications for operation of Units 1 and 2 of the Prairie Island Nuclear Generating plant (the facilities) located in Goodhue County, Minnesota. The amendments are effective as of their date of issuance.

The amendments revised the Technical Specifications for the facilities to authorize operation of the facilities with modified operating limits based upon an evaluation of emergency core cooling system performance calculated in accordance with an acceptable evaluation model that conforms with the requirements of 10 CFR Part 50 of the Commission's regulations with the following exception. The analysis of the single failure criterion and correction of the ECCS analysis according the Commission Order of August 27, 1976 will be the subject of separate actions at a later date.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Notice of Proposed Issuance of Amendments to Facility Operating Licenses in connection with this action was published in the FEDERAL REGISTER on March 1, 1976 (41 FR 8837). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

In connection with issuance of these amendments, the Commission has issued a Negative Declaration and Environmental Impact Appraisal.

For further details with respect to this action, see (1) the application for amendments dated February 2, 1976, and earlier filings dated April 14, 1975, April 17, 1975, July 9, 1975, October 21, 1975, January 7, 1976 and March 1, 1976, (2) Amendment No. 16 to License No. DPR–42 and Amendment No. 10 to License No. DPR–60, (3) the Commission's related Safety Evaluation, (4) Commission's Negative Declaration dated October 4, 1976 (which is also being published in the FEDERAL REGISTER) and the associated Environmental Impact Appraisal. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and The Environmental Conservation Library of the Minneapolis Public Library, 300 Nicollet Mall, Minneapolis, Minnesota 55401.

A copy of items (2), (3) and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 4th day of October, 1976.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

[FR Doc.76-30106 Filed 10-13-76;8:45 am]

[Docket Nos. 50-282 and 50-306]

PRAIRIE ISLAND NUCLEAR GENERATING PLANT UNIT NOS. 1 AND 2 NORTHERN STATES POWER CO.

Negative Declaration Regarding Proposed Changes to the Technical Specifications of License Nos. DPR–42 and DPR–60

The U.S. Nuclear Regulatory Commission (the Commission) has considered the issuance of amendments to Facility Operating License Nos. DPR–42 and DPR–60 issued to Northern States Power Company (the licensee) for operation of the Prairie Island Nuclear Generating Plant Unit Nos. 1 and 2 (PINGP) located in Goodhue County, Minnesota. These amendments would revise the Technical Specifications for PINGP to authorize operation of the facilities with modified operating limits based upon an evaluation of emergency core cooling system performance calculated in accordance with an acceptable evaluation model that conforms with the requirements of 10 CFR Part 50 of the Commission's regulations except for the analysis of the single failure criterion.

The Commission has prepared an environmental impact appraisal for the revised Technical Specifications and has concluded that an environmental impact statement for this particular action is not warranted because there will be no significant environmental impact attributable to the proposed action. The environmental impact appraisal is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at The Environmental Conservation Library of the Minneapolis Public Library, 300 Nicollet Mall, Minneapolis, Minnesota 55401.

Dated at Bethesda, Maryland, this 4th day of October, 1976.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

[FR Doc.76-30107 Filed 10-13-76;8:45 am]

[Docket No. 50-285]

OMAHA PUBLIC POWER DISTRICT

Proposed Issuance of Amendment to Facility Operating License

The Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR–40 issued to Omaha Public Power District (the licensee), for operation of the Fort Calhoun Station, Unit No. 1, located in Washington County, Nebraska.

The amendment would revise the provisions in the Technical Specifications to allow facility operation, following refueling, until the extended fuel exposure time is reached, in accordance with the licensee's application for amendment, dated September 3, 1976. This action would also revise the peak linear heat generation limits which were added to the facility operating license by the Commission's Order for Modification of License dated June 17, 1976, following reevaluation of the emergency core cooling system (ECCS) cooling performance, in accordance with the licensee's application for amendment, dated October 4, 1976.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By November 15, 1976, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Hope Babcock. Esquire, LeBoeuf, Lamb, Leiby & MacRae, 1757 N Street, N.W., Washington, D.C. 20036, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the applications for amendment dated September 3, 1976 and October 4, 1976, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Blair Public Library, 1665 Lincoln Street, Blair, Nebraska.

Dated at Bethesda, Maryland this 7th day of OCTOBER, 1976.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch No. 3, Division of Operating Reactors.

[FR Doc.76-30103 Filed 10-13-76;8:45 am]

REGULATORY GUIDE

Issuance and Availability

The Nuclear Regulatory Commission has issued a guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 1.38, Revision 1, "Quality Assurance Requirements for Packaging, Shipping, Receiving, Storage, and Handling of Items for Water-Cooled Nuclear Power Plants," describes a method acceptable to the NRC staff for complying with the Commission's regulations with regard to the quality assurance requirements for the packaging, shipping, receiving, storage, and handling of items for water-cooled nuclear power plants. This guide endorses ANSI Standard N45.2.2–1972, "Packaging, Shipping, Receiving, Storage, and Handling of Items for Nuclear Power Plants During the Construction Phase."

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 1.38, Revision 1, will, however, be particularly useful in evaluating the need for an early revision if received by Dcember 10, 1976.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a).)

Dated at Rockville, Maryland this 7th day of October 1976.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,
Director, Office of Standards Development.

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS ENVIRONMENTAL SUBCOMMITTEE

Meeting

In accordance with the purposes of sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the ACRS Environmental Subcommittee will meet on November 5, 1976, in Room 1046, 1717 H St., NW., Washington, DC 20555. The purposes of this meeting is to review the draft regulations on the use of mixed oxide fuels published in the FEDERAL REGISTER Vol. 41, No. 183, pages 40506 through 40510 on September 20, 1976.

The agenda for the subject meeting shall be as follows:

FRIDAY, NOVEMBER 5, 1976, 8:30 A.M.

The Subcommittee will meet in closed Executive Session, with any of its consultants who may be present, to exchange opinions and discuss preliminary views and recommendations relating to the above discussion.

9:00 A.M. UNTIL THE CONCLUSION OF BUSINESS

The Subcommittee will meet in open session to hear presentations and hold discussions with representatives of the NRC Staff.

At the conclusion of the open session, the Subcommittee will caucus in a closed session to determine whether the matters identified in the initial closed session have been adequately covered and to prepare a proposed draft for review by the full Committee. During the session Subcommittee members and consultants will discuss their opinions and recommendations on these matters.

I have determined, in accordance with subsection 10(d) of Pub. L. 92–463, that it is necessary to conduct the above closed sessions to protect the free interchange of internal views in the final stages of the Subcommittee's deliberative process (5 U.S.C. 552(b)(5)). Separation of factual material from individuals' advice, opinions, and recommendations while closed Executive Sessions are in progress is considered impractical.

Practical considerations may dictate alterations in the above agenda or schedule. The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business, including provisions to carry over an incompleted session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda may do so by providing a readily reproducible copy to the Subcommittee at the beginning of the meeting. Comments should be limited to safety related areas within the Committee's purview.

Persons desiring to mail written comments may do so by sending a readily reproducible copy in time for consideration at this meeting. Comments postmarked no later than October 29, 1976 to Mr. Muller, ACRS, NRC, Washington, D.C. 20555 will normally be received in time to be considered at this meeting.

Background information concerning items to be considered at this meeting can be found in documents on file and available for public inspection at the NRC Public Document Room, 1717 H St., N.W., Washington, D.C. 20555.

(b) Those persons wishing to make an oral statement at the meeting should make a written request to do so, identifying the topics and desired presentation time so that appropriate arrangements can be made. The Committee will receive oral statements on topics relevant to the Committee's purview at an appropriate time chosen by the Chairman of the Subcommittee.

(c) Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call on November 4, 1976 to the Office of the Executive Director of the Committee (telephone 202/634–1413, Attn: Mr. R. Muller) between 8:15 a.m. and 5:00 p.m., e.s.t.

(d) Questions may be propounded only by members of the Subcommittee and its consultants.

(e) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(f) A copy of the transcript of the open portion of the meeting will be available for inspection on or after November 12, 1976 at the NRC Public Document Room, 1717 H St., N.W., Washington, D.C. 20555.

Copies of the minutes of the meeting will be made available for inspection at the NRC Public Document Room, 1717 H St., NW., Washington, D.C. 20555 after February 7, 1977. Copies may be obtained upon payment of appropriate charges.

Dated: October 8, 1976.

JOHN C. HOYLE,
Advisory Committee Management Officer.

[FR Doc.76-30239 Filed 10-13-76;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON GENERAL ELECTRIC WATER REACTORS

Meeting

In accordance with the purposes of Sections 29 and 182b. of the Atomic

Energy Act (42 U.S.C. 2039, 2232b.), the ACRS Subcommittee on General Electric Water Reactors will hold a meeting on November 6, 1976 at the Quality Inn, 5249 W. Century Boulevard, Los Angeles, CA. The purpose of this meeting is to develop information for consideration by the ACRS in its review of the General Electric Standard Safety Analysis Reports 238 and 251 pertaining to the nuclear steam supply system.

The agenda for the subject meeting shall be as follows:

SATURDAY, NOVEMBER 6, 1976, 8:30 A.M.

The Subcommittee will meet in closed Executive Session, with any of its consultants who may be present, to explore their preliminary opinions, based upon their independent reviews of safety reports submitted by the Applicant and the NRC Staff regarding matters which should be covered during the following open meeting in order to formulate a Subcommittee report and recommendation to the full Committee.

9:00 A.M. UNTIL THE CONCLUSION OF BUSINESS

The Subcommittee will meet in open session to hear presentations by and hold discussions with the representatives of the NRC Staff and the General Electric Company and their consultants pertaining to review of the Standard Safety Analysis Reports 238 and 251.

At the conclusion of the open session, the Subcommittee will caucus in a brief, closed session to determine whether the matters identified in the initial closed session have been adequately covered and whether the matters are ready for review by the full Committee. During the session Subcommittee members and consultants will discuss their opinions and recommendations on these matters. Upon conclusion of this caucus, the Subcommittee may meet again in brief open session to announce its determination.

In addition to these closed deliberative sessions, it may be necessary for the Subcommittee to hold one or more closed sessions for the purpose of exploring with the NRC Staff and Applicant matters involving proprietary information.

I have determined, in accordance with subsection 10(d) of Pub. L. 92-463, that it is necessary to conduct the above closed sessions to protect the free interchange of internal views in the final stages of the Subcommittee's deliberative process (5 U.S.C. 552(b)(5)) and to protect proprietary information (5 U.S.C. 552(b)(4)). Separation of factual material from individuals' advice, opinions, and recommendations while closed Executive Sessions are in progress is considered impractical.

Practical considerations may dictate alterations in the above agenda or schedule. The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda may do so by providing 15 readily reproducible copies to the Subcommittee at the beginning of the meeting. Comments should be limited to safety related areas within the Committee's purview.

Persons desiring to mail written comments may do so by sending a readily reproducible copy thereof in time for consideration at this meeting. Comments postmarked no later than October 30, 1976 to Mr. J. C. McKinley, ACRS, NRC, Washington, D.C. 20555 will normally be received in time to be considered at this meeting.

Background information concerning items to be considered at this meeting can be found in documents on file and available for public inspection at the NRC Public Document Room, 1717 H St., N.W., Wash., DC 20555.

(b) Those persons wishing to make an oral statement at the meeting should make a written request to do so, identifying the topics and desired presentation time so that appropriate arrangements can be made. The Committee will receive oral statements on topics relevant to the Committee's purview at an appropriate time chosen by the Chairman of the Subcommittee.

(c) Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call on November 5, 1976 to the Office of the Executive Director of the Committee (telephone 202/634-1371, Attn: Mr. J. C. McKinley) between 8:15 a.m. and 5:00 p.m., e.s.t.

(d) Questions may be propounded only by members of the Subcommittee and its consultants.

(e) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(f) Persons with agreements or orders permitting access to proprietary information may attend portions of ACRS meetings where this material is being discussed upon confirmation that such agreements are effective and relate to the material being discussd.

The Executive Director of the ACRS should be informed of such an agreement at least three working days prior to the meeting so that the agreement can be confirmed and a determination can be made regarding the applicability of the agreement to the material that will be discussed during the meeting. Minimum information provided should include information regarding the date of the agreement, the scope of material included in the agreement, the project or projects involved, and the names and titles of the persons signing the agreement. Additional information may be requested to identify the specific agreement involved. A copy of the executed agreement should be provided to Mr. J. C. McKinley, of the ACRS Office, prior to the beginning of the meeting.

(g) A copy of the transcript of the open portion of the meeting will be available for inspection on or after November 15, 1976 at the NRC Public Document Room, 1717 H St., NW., Washington, D.C. 20555.

Copies of the minutes of the meeting will be made available for inspection at the NRC Public Document Room, 1717 H St., NW., Washington, D.C. 20555 after February 7, 1977. Copies may be obtained upon payment of appropriate charges.

Date: October 12, 1976.

JOHN C. HOYLE,
Advisory Committee Management Officer.

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR MOLECULAR BIOLOGY

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Advisory Panel for Molecular Biology.
Date: November 1 and 2, 1976.
Time: 9:00 a.m. each day.
Place: Room 338, National Science Foundation, 1800 G Street, N.W., Washington, D.C.
Type of meeting: Closed.
Contact person: Dr. Martin P. Schweizer, Program Director for Biophysics, Room 329, National Science Foundation, Washington, D.C. 20550, telephone 202/632-4260.
Purpose of panel: To provide advice and recommendations concerning support for research in molecular biology.
Agenda: To review and evaluate research proposals and projects as part of the selection process for awards.
Reason for closing: The proposals and projects being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals and projects. These matters are within exemptions (4) and (6) of 5 U.S.C. 552(b), Freedom of Information Act. The rendering of advice by the panel is considered to be a part of the Foundation's deliberative process and is thus subject to exemption (5) of the Act.
Authority to close meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make determinations by the Director, NSF, on February 11, 1976.

M. REBECCA WINKLER,
Acting Committee Management Officer.

OCTOBER 8, 1976.

[FR Doc.76-29960 Filed 10-13-76;8:45 am]

NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 76-42]

INCIDENT REPORT; SAFETY RECOMMENDATIONS AND RESPONSES

Availability and Receipt

Aircraft Incident Report.—The National Transportation Safety Board announces the release on October 5 of report No. NTSB-AAR-76-18 which concerns the near collision last April 1 of Hughes Airwest Flight 5 and Northwest Airlines Flight 603. The incident occurred over the Spokane (Washington) International Airport.

The two McDonnell Douglas jet airliners came within an estimated 291 feet of collision as the Airwest DC-9 was executing a missed approach to Spokane's Runway 21, and the Northwest DC-10 was climbing out after takeoff from the same runway. The DC-9 was rolled into a steep bank by wake turbulence during its pilot's evasive maneuver. There were no injuries, however among the 176 persons aboard the two aircraft. The Spokane tower is not radar equipped. Both approaches and departures are controlled by the radar facility at nearby Fairchild Air Force Base; the Fairchild radar coverage is incomplete because of "blind spots" in the airport area. The Airwest crew was unaware of this.

The Safety Board determined that the probable cause of the incident was the inadequacy of the local air traffic control procedures to insure positive and adequate separation between arriving and departing aircraft. Contributing to the incident was the failure of the local controller to recognize and resolve the impending conflict in accordance with the basic mandate to insure positive separation between aircraft. Also contributing to the incident was the failure of the Airwest 5 crew to follow company ILS approach procedures and the recommended Federal Aviation Administration position reporting procedures.

As a result of the investigation of this incident, the Safety Board last July 15 recommended that FAA (1) revise the Airman's Information Manual so "the aviation community will not be misled" into overestimating the radar capabilities of terminals with air traffic control procedures and radar such as Spokane's. and (2) review all local procedures to assure positive separation wherever flights involve both radar and nonradar terminal operations. (Recommendations A-76-91 and A-76-92; see 41 FR 30215, July 22. 1976.)

Aviation Safety Recommendations.—A serious incident which involved a violent mental patient occurred July 16 aboard an Eastern Airlines Lockheed L-1011 flight out of San Juan. Puerto Rico. In an effort to prevent recurrence of similar incidents which could seriously jeopardize other passengers' safety, the Board on October 7 recommended that the Federal Aviation Administration (1) amend 14 CFR 121.584 to include provisions relevant to carriage of mental patients who are potentially dangerous to themselves or to others, these provisions to require that the mental patient be accompanied by a qualified medical attendant (recommendation A-76-132); and (2) amend Advisory Circular 121-18 to provide guidance to organizations and persons responsible for the transportation of mental patients with regard to the actions necessary and the responsibilities involved in escorting such persons (A-76-133). Both are Class II recommendations, for priority followup.

Letters in Response to Safety Board Recommendations.—During the past week, addressees of earlier recommendations have responded as follows:

National Highway Traffic Safety Administration letter of September 27 concerns recommendation H-76-7 which was issued following investigation of the METRO bus which caught fire and burned last November 20 on Interstate 95 in Alexandria, Virginia. (See 41 FR 12360, March 25, 1976.) The recommendation asked NHTSA to develop and issue a Federal motor vehicle safety standard to insure that wheelwell components can withstand fires and resist penetration by objections propelled by wheel rotation.

Before considering implementation of this recommendation NHTSA has forwarded letters if inquiry, dated September 27, to the three largest manufacturers of intercity buses: General Motors Corporation at Warren, Michigan; A. M. General Corporation at Wayne, Michigan; and The Fixible Company at Loudonville, Ohio. These letters (copies attached to NHTSA's letter) urge "consideration of improvements in this area, and [NHTSA's] desire to know the steps that have been taken, or contemplated, to assure that wheel well cap construction provides reasonable protection against violation of passenger compartment integrity."

NHTSA indicates that after reviewing the manufacturer's responses, determination will be made as to whether to initiate rulemaking based on available evidence of the presence or absence of a hazardous accident pattern and the manufacturers' reaction to such a pattern. NHTSA notes that its commencement of a rulemaking proceeding does not signify that the rule in question will be issued, stating, "A decision as to the issuance of the rule is made on the basis of all available information developed in the course of the rulemaking proceeding, in accordance with statutory criteria."

Materials Transportation Bureau letter of September 21 responds to recommendations I-76-5 and I-76-6, issued as a result of investigation of the Surtigas, S.A., tank-semitrailer overturn, explosion, and fire, which occurred near Eagle Pass, Texas, April 29, 1975. (See 41 FR 27135, July 1, 1976.) Concerning I-76-5, MTB has directed development of a contract proposal to study new approaches to reduce the injury and damage potential of liquefied flammable gases released from ruptured cargo tanks. MTB will consider adding other materials, such as liquefied ammonia, to the study. It is anticipated that the contract will be developed and let during FY 1977, depending upon availability of research and development funds.

Recommendation I-76-6 requested that MTB establish a regulation to require the safety registration statements authorized by section 106(b) of the Hazardous Materials Transportation Act of persons transporting bulk shipments of pressurized, liquefied petroleum gases in a form and quantity capable of causing widespread injury and property damage in transportation accidents.

In response, MTB challenges the Safety Board's rationale concerning statements made on page 14 of Board report NTSB-HAR-76-4, which supported recommendation I-76-6; namely, "The Safety Board believes that these carriers would be identified more effectively if registration statements were required, for safety purposes only," and "The possibility of losing their safety registrations would act as a strong incentive for compliance with safety regulations." MTB cites the Conference Report on the Transportation Safety Act of 1974 (Report No. 93-1347) in taking exception to the Board's suggestion that registration statements may be revoked should there not be compliance with MTB's safety regulations, making specific reference to the statement on page 21 of the Conference Report: "The Secretary is not authorized to revoke or suspend any registration statement which is filed."

MTB, after quoting requirements of § 177.824(f) of the Department of Transportation's Hazardous Materials Regulations, states that while the term "Registration" is not used in the regulation, "the provision is in essence a registration requirement." MTB notes that the regulation, in effect for several years, provides the Bureau of Motor Carrier Safety a means of identifying all carriers transporting liquefied petroleum gases in cargo tanks in the United States, "if such carriers come under the Department's jurisdiction and there has been compliance with the reporting requirement."

In conclusion, MTB states, "Since the Board's desires would not be accomplished by a regulation issued under section 106(b) and the Board's proposal would present a redundancy in the regulatory requirements for motor carriers, the Department will not act upon this recommendation. After reconsideration of the above information, it is recognized the Board may wish to withdraw NTSB I-76-6 and/or propose an alternate recommendation."

Gulf Refining Company letter of September 23 concerns recommendations P-76-30 through P-76-35, resulting from investigation of the West Texas Gulf Pipeline Company (owned by Gulf Refining Company) accident near Abilene. Texas. December 1, 1974. (See 41 FR 32794, August 5, 1976.) The Company states that recommendations P-76-30 through P-76-34 have been complied with and have been incorporated into its procedural requirements.

Re recommendation P-76-35, recommending that the Company examine its

V41200 OCT 14 76 UMI

repair records of the system to determine the locations where other fillet weld repairs have been made and excavate these locations to inspect the weld, Gulf has checked its records and finds that in early 1971 full wrap was installed on the pipeline in about a dozen locations where a "line-a-log" survey showed evidence of external corrosion. The Company notes that these locations are all in sparsely populated areas and have been in service for almost 6 years with no indications of any problems. Gulf is concerned that "if we excavate them for examination we run the risk that in disturbing the soil again we could cause settling and place unnecessary and dangerous stress on the pipe." Gulf suggests that it not disturb the soil by excavation but continue to monitor these locations from the surface and only excavate at the first indication of a problem.

Safety Board Reply to Recommendation Response.—Board letter of October 1 to the Director, Materials Transportation Bureau, acknowledges a recent telephone conversation providing his observations regarding MTB's contributions to the training of firemen. The Board states, "We were aware of DOT's contributions to personnel safety in hazardous materials accidents when we directed recommendations I–76–7 and I–76–8 (41 FR 37166, September 2, 1976) to the Secretary of Commerce. We chose this course because of the developing activities and the Congressional mandate to the National Fire Prevention and Control Administration relative to the training of firefighters, and the communication of such information to firefighters throughout the nation." The Board adds that since MTB too has an important part to play in the reduction of unnecessary injury and loss of life among firefighters, it is hoped that MTB will coordinate its activities with those of the NFPCA.

The accident report and the safety recommendation are available to the general public; single copies may be obtained without charge. Copies of the letters responding to recommendations, and Safety Board replies thereto, may be obtained at a cost of $4.00 for service and 10¢ per page for reproduction. All requests must be in writing, identified by recommendation number and date of publication of this FEDERAL REGISTER notice. Address inquiries to: Publications Unit, National Transportation Safety Board, Washington, D.C. 20594.

Multiple copies of the accident report may be purchased by mail from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151.

(Secs. 304(a)(2) and 307 of the Independent Safety Board Act of 1974 (Pub. L. 93–633, 88 Stat. 2169, 2172 (49 U.S.C. 1903, 1906)).)

MARGARET L. FISCHER,
Federal Register Liaison Officer.

SECURITIES AND EXCHANGE COMMISSION

[Release 34–12869, File No. SR–NASD–76–12]

NATIONAL ASSOCIATION OF SECURITIES DEALERS, INC.

Self-Regulatory Organizations; Proposed Rule Change

Pursuant to section 19(B)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94–29, 16 (June 4, 1975) notice is hereby given on October 1, 1976 the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

NASD'S STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

TEXT OF PROPOSED RULE CHANGE

The following is the full text of the proposed amendment to Schedule A, under Article III, Section 1 of the By-Laws of the National Association of Securities Dealers, Inc. Deletions are indicated by brackets; new material is italicized.

P 1301A—SCHEDULE A

Assessments and fees, pursuant to the provision of Article III of the By-Laws of the Association, shall be determined on the following basis after [December 1, 1975.] *October 1, 1976.*

Section 1—Assessments

Each member shall pay an annual assessment composed of the following:

(a) A basic membership fee of $250.00.

[(b) An amount equal to 0.3% of gross income defined in Section 5 of this Schedule for the preceding calendar year.]

(b) *An amount equal to 0.2% of gross income for the preceding calendar year from municipal securities transactions and an amount equal to 0.25% of gross income for the preceding calendar year from other over-the-counter transactions in securities. Gross income for this purpose is as defined in Section 5 of this Schedule.*

(c) Unchanged.

Section 2—Unchanged

Section 3—Unchanged

Section 4—Unchanged

Section 5

Gross income from sales of shares of investment companies shall include gross income from any shares purchased and later redistributed and from sales of shares by said member represented by reinvestment of income dividends. [In any case where gross income, net of deductions described below, from sales of investment company shares by a member acting as sponsor or underwriter (excluding sales to another member who is an underwriter or sponsor of a contractual plan for such shares) is less than 1.75% of such sales, then this amount shall be included as the minimum amount of gross income for the purpose of the assessment.]

Remainder—Unchanged.

Deductions—Unchanged.

Exclusions from the amount to be reported: Interest and dividends.

Advisory fees, investment management fees and finders' fees not directly involving the offering of securities[,]; proxy fees[,]; vault service fees[,]; safekeeping fees; [and] transfer fees[.]; and *fees for financial advisory services for municipalities.*

Remainder—Unchanged.

NASD'S STATEMENT OF PURPOSE OF PROPOSED RULE CHANGE

Proposed section 1(b) will allow the Association to equitably assess fees so that they reflect a firm's participation in municipal securities transactions.

Section 5 is amended so that the definition of Gross Income upon which the Association's assessments are based includes actual gross income, net of deductions, from sales of investment company shares by a member acting as sponsor or underwriter instead of a minimum amount equal to at least 1.75 percent of such sales.

Section 5 is further amended so that excluded from amounts to be reported to the Association are fees earned as the result of providing financial advisory services for municipalities.

BASIS UNDER THE ACT FOR PROPOSED RULE CHANGE

It is the responsibility of the Association under Section 15A of the Securities Exchange Act, as amended, to regulate its members and persons associated with its members who deal in municipal securities. The proposed changes in Schedule A provide for an equitable allocation of the reasonable dues and fees among the members of the Association and provide a revenue base to finance the costs of the regulation that the Association was not responsible for prior to the enactment of the new law.

Section 15A(b) provides that an association of brokers and dealers shall not be registered as a national securities association unless the Commission determines that the rules of the association provide for the equitable allocation of reasonable dues, fees, and other charges among members and issuers and other persons using any facility or system which the association operates or controls. The amendments to Schedule A provide an equitable allocation of fees and is in furtherance of the purposes of the Act.

COMMENTS RECEIVED FROM MEMBERS, PARTICIPANTS OR OTHERS ON PROPOSED RULE CHANGE

Under section I of Article III of the By-Laws of the Association, membership approval of a change in a fee schedule is not necessary. Therefore, comments of the membership on the proposed amendments to Schedule A were not solicited or received.

BURDEN ON COMPETITION

Section 15A of the Securities Exchange Act places on the Association the responsibility to regulate the activities of its members' dealings in municipal securities, and provides the statutory basis for the assessment of equitable fees, thus it is felt that there is no burden on competition imposed by the proposed rule change, and that it is in furtherance of the purposes of the Act.

BASIS FOR RULE TAKING, OR BEING PUT INTO EFFECT PURSUANT TO SECTION 19(b)(3)

The proposed amendments are to take effect immediately under paragraph (A) of section 19(b)(3) of the Securities Exchange Act. The use of this paragraph is authorized because these amendments establish or change a due, fee, or other charge. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons desiring to make written submission should file six (6) copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and all written submissions will be available for inspection and copying in the public Reference Room, 1100 L Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before November 15, 1976. For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

OCTOBER 6, 1976.

[FR Doc.76–30169 Filed 10–13–76;9:45 am]

[File Nos. 7–4879–7–4880]

NICOR INC. AND WESTERN AIR LINES, INC.

Applications for Unlisted Trading Privileges and of Opportunity for Hearing

OCTOBER 5, 1976.

In the matter of applications of the Cincinnati Stock Exchange, for unlisted trading privileges in certain securities, Securities Exchange Act of 1934.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f–1 thereunder, for unlisted trading privileges in the securities of the companies as set forth below, which securities are listed and registered on one or more other national securities exchanges:

Nicor Incorporated, $5.00 Par common, File No. 7–4879.

Western Air Lines, Inc., $1.00 par common, File No. 7–4880.

Upon receipt of a request, on or before October 21, 1976 from any interested person, the Commission will determine whether the application with respect to any of the companies named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on any of the said applications by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C., 20549 not later than the date specified. If no one requests a hearing with respect to any particular applications, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

ASSIGNMENT OF HEARINGS

OCTOBER 8, 1976.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 82841 (Sub-No. 166), Hunt Transportation, Inc., now assigned November 2, 1976 at Albuquerque, New Mexico; will be held in the Bernalillo County Juvenile Courtroom, Bernalillo County Courthouse, 415 Tijhras Avenue.

MC–C–9014, Whitfield Transportation, Inc., now assigned November 4, 1976 at Albuquerque, New Mexico; will be held in the Bernalillo County Juvenile Courtroom, Bernalillo County Courthouse, 415 Tijhras Avenue.

MC 25798 (Sub-No. 278), Clay Hyder Trucking Lines, Inc.; MC 138635 (Sub-No. 21), Carolina-Western Express, Inc. and MC 139495 (Sub-No. 128), National Carriers, Inc., now assigned November 8, 1976 at San Francisco, California; will be held in U.S. Court of Claims Courtroom, Room 2041, U.S. Courthouse & Federal Office Building, 450 Golden Gate Avenue.

MC–C–8829, Osborne West, Ltd., and West Transportation, Inc., Investigation of Operations and practices and Revocation of Certificates, now assigned November 10, 1976 at San Francisco, California; will be held in U.S. Court of Claims Courtroom, Room 2041, U.S. Courthouse & Federal Office Building, 450 Golden Gate Avenue.

MC 133566 (Sub-No. 51), Gangloff & Downham Trucking Co.; Inc., now assigned November 15, 1976 at Chicago, Illinois; will be held in Room 1319, Everett McKinley Dirksen Building, 219 South Dearborn Street.

MC 123255 (Sub-No. 62), B & L Motor Freight, Inc., now assigned November 16, 1976 at Chicago, Illinois; will be held in Room 1319, Everett McKinley Dirksen Building, 219 South Dearborn Street.

MC 113651 (Sub-No. 188), Indiana Refrigerator Lines, Inc., and

MC 113651 (Sub-No. 189), Indiana Refrigerator Lines, Inc., now assigned November 18, 1976 at Chicago, Illinois; will be held in Room 1319, Everett McKinley Dirksen Building, 219 South Dearborn Street.

MC 140874, Schreiber Express, Inc., now assigned October 27, 1976 at Tallahassee, Florida, hearing canceled and the application dismissed.

MC 107295 (Sub-No. 819), Pre-Fab Transit Co., now being assigned December 1, 1976,

at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 107445 Sub 10, Underwood Machinery Transport, Inc., now assigned November 30, 1976, at Chicago, Ill., will be held in Room 1319, Everett McKinley Dirksen Bldg., 219 S. Dearborn St.

MC 138824 Sub 2, Redway Carriers, Inc.; and MC 141920, Keller Trucking, Inc., now assigned December 2, 1976, at Chicago, Ill., will be held in Room 1319, Everett McKinley Dirksen Bldg., 219 South Dearborn Street.

MC 135725 Sub 17, Fry Trucking, Inc., now assigned December 7, 1976, at Chicago, Ill., will be held in Room 1319, Everett McKinley Dirksen Bldg., 219 South Dearborn Street.

MC 115841 Sub 519, Colonial Refrigerated Transportation, Inc., now assigned December 6, 1976, at Chicago, Ill., will be held in Room 1319, Everett McKinley Dirksen Bldg., 219 South Dearborn Street.

MC 35835 Sub 31, Jensen Transport, Inc.; MC 67450 Sub 53, Peterlin Cartage Co., A Corp.; MC 107496 Sub 1027, Ruan Transport Corp.; MC 112801 Sub 180, Transport Service Co.; MC 114194 Sub 182, Kreider Truck Service, Inc.; MC 115331 Sub 404, Truck Transport Incorporated; MC 119974 Sub 52, L.C.L. Transit Company; MC 124078 Sub 684, Schwerman Trucking Co.; MC 127840 Sub 44, Montgomery Tank Lines, Inc.; and MC 136774 Sub 5, Mc-Mor-Han Trucking Co., Inc., now assigned December 9, 1976, at Chicago, Ill., will be in Room 1319, Everett McKinley Dirksen Bldg., 219 South Dearborn Street.

MC–C 8995, Dugan Truck Line, Inc.—Investigation and Revocation of Certificates And Certificates of Registration; and MC 120657 Sub 6, Dugan Truck Line, Inc., now assigned November 9, 1976, at Topeka, Kansas, will be held in Room 307, Federal Bldg., 424 Kansas Avenue.

MC 141609 Sub 2, C.T. Transport, Inc., and MC–F 12679, C.T. Transport, Inc.—Purchase—B & S Transportation, Inc., now assigned November 9, 1976 will be held in Room 226, Federal Bldg., 111 West Huron Street.

MC–C 9301, Greyhound Lines, Inc., Complainant-v-Superior Bus Service, Inc., d/b/a Travel Lines United, Defendant, now being assigned December 14, 1976, at the Offices of the Interstate Commerce Commission, Washington, D.C.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

OCTOBER 8, 1976.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR (Part 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission by October 25, 1976. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 40215 (Sub-No. E1) (Correction), filed May 17, 1974, published in the FEDERAL REGISTER issue of August 26, 1976, and republished, as corrected, this issue. Applicant: RICHARDSON TRANSFER & STORAGE CO., INC., 246 N. 5th Street, Salina, Kans. 67401. Applicant's representative: Theodore Polydoroff, Suite 600, 1250 Connecticut Ave., N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Arizona on and north of a line beginning at the Arizona-California State line and extending along U.S. Highway 80 and Interstate Highway 8, to junction Arizona Highway 84, thence along Arizona Highway 84 and Interstate Highway 8 to junction Interstate Highway 10 and Arizona Highway 93, and thence along Interstate Highway 10 and Arizona Highway 80 to the Arizona-New Mexico State line, to points in Arkansas; from points in Arizona to points in District of Columbia, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Missouri, Michigan, Minnesota, New York, Ohio, Nebraska, on and east of a line beginning at the Nebraska-South Dakota State line and extending along Nebraska State Highway 61 to junction Interstate Highway 80 to the Nebraska-Colorado State line, Oklahoma, on and east of a line beginning at the Kansas-Oklahoma State line and extending along U.S. Highway 281 to junction U.S. Highway 60 and U.S. Highway 183, thence along U.S. Highway 183 to the Oklahoma-Texas State line, Pennsylvania, South Dakota, on and east of a line beginning at the North Dakota-South Dakota State line and extending along South Dakota Highway 65, to junction U.S. Highway 212, thence along U.S. Highway 212 to junction South Dakota Highway 63, thence along South Dakota Highway 63 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction U.S. Highway 83, thence along U.S. Highway 83 to the South Dakota-Nebraska State line; Tennessee, Virginia, West Virginia, and Wisconsin. The purpose of this filing is to eliminate the gateways of Garden City, Kans., Pratt, Kans., Salina, Kans., Galena, Kans., and Ravenna, Ohio.

NOTE.—The purpose of this republication is to correct the territorial description and to include the destination States of Missouri, New York, and Ohio, previously omitted.

No. MC 52704 (Sub-No. E5) (Partial Correction), filed May 20, 1974, published in the FEDERAL REGISTER issue of April 16, 1975, and republished, as corrected, this issue. Applicant: GLENN McCLENDON TRUCKING CO., INC., P.O. Drawer H, Lafayette, Ala. 36862. Applicant's representative: Archie B. Culbreth, Suite 246, 1252 West Peachtree Street, N.W., Atlanta, Ga. 30309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers for beverages and food*, (5) from points in North Carolina (except points on and east of a line beginning at Morehead City, N.C., and extending along U.S. Highway 70 to its junction with U.S. Highway 301, thence along U.S. Highway 301 to the North Carolina-Virginia State line), to points in Delaware, that part of Maryland east of U.S. Highway 522, New Jersey, New York, and Pennsylvania (except points on and west of U.S. Highway 30 from the West Virginia-Pennsylvania State line to its junction with U.S. Highway 15). The purpose of this filing is to eliminate the gateway of Henderson, N.C.

NOTE.—The purpose of this partial correction is to state the correct destination description. The remainder of the letter-notice remains as previously published.

No. MC 95540 (Sub-No. E45) (Correction), filed April 15, 1974, published in the FEDERAL REGISTER issue of May 13, 1974, and republished, as corrected, this issue. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Lakeland, Fla. 33802. Applicant's representative: Benjy W. Fincher (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from Dade City, Fla., to points in North Carolina on and west of a line beginning at Corneake Inlet on the Atlantic Ocean, thence north along U.S. Highway 421 to Wilmington, N.C., thence along U.S. Highway 17 to junction with U.S. Highway 264, thence along U.S. Highway 264 to junction with North Carolina Highway 32, thence along North Carolina Highway 32 to junction with U.S. Highway 64, thence along U.S. Highway 64 to junction with North Carolina Highway 32, thence along North Carolina Highway 32 to junction with U.S. Highway 17, thence along North Carolina Highway 17 to Elizabeth City, thence along North Carolina Highway 163 to the Virginia-North Carolina State line. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

NOTE.—The purpose of this correction is to state the correct territorial description.

No. MC 95540 (Sub-No. E112) (Correction), filed April 19, 1974, and published in the FEDERAL REGISTER issue of June 21, 1974, and republished, as corrected, this issue. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Lakeland, Fla. 33802. Applicant's representative: Benjy W. Fincher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in California on, west, and south of a line beginning at Eureka and proceeding along U.S. Highway 101 to Santa Rosa, thence along California Highway 12 to Glen Ellen, thence along unnumbered highway to Oakville, thence along California Highway 29 to Rutherford, thence along California Highway 128 to its junction with Interstate Highway 80, thence along Interstate Highway 80 to its junction with California Highway 18, thence along California Highway 18 to its junction with California Highway 49, thence along California Highway 49 to its junction with California Highway 120, thence along California Highway 120 to its junction with U.S. Highway 395, thence along U.S. Highway 395 to its junction with California Highway 168, thence along California Highway 168 to the California-Nevada State line, to points in New Jersey on, east and south of a line beginning at the Pennsylvania-New Jersey State line and extending along New Jersey Highway 57 to its junction with U.S. Highway 46, thence along U.S. Highway 46 to its junction with Interstate Highway 80, thence along Interstate Highway 80 to the Hudson River. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

NOTE.—The purpose of this correction is to state the correct territorial description.

No. MC 95540 (Sub-No. E285) (Correction), filed May 9, 1974, published in the FEDERAL REGISTER issue of June 19, 1974, and republished, as corrected, this issue. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Lakeland, Fla. 33802. Applicant's representative: Benjy W. Fincher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods*, from Bridgeton, N.J., to points in Oklahoma on and south of a line beginning at the New Mexico-Oklahoma State line, and proceeding along U.S. Highway 56/64 to its junction with Oklahoma Highway 3, thence along Oklahoma Highway 3 to its junction with U.S. Highway 15, thence along U.S. Highway 15 to its junction with U.S. Highway 60, thence along U.S. Highway 60 to Enid, thence along U.S. Highway 64 to its junction with Interstate Highway 35, thence along Interstate Highway 35 to its junction with Oklahoma Highway 51, thence along Oklahoma Highway 51 to its junction with Oklahoma Highway 16, thence along Oklahoma Highway 16 to its junction with U.S. Highway 64, thence along U.S. Highway 64 to the Oklahoma-Arkansas State line. The purpose of this filing is to eliminate the gateway of Baltimore, Md., and points in Pike and Sapulding Counties, Ga.

NOTE.—The purpose of this correction is to state the correct territorial description.

No. MC 95540 (Sub-No. E509) (Correction), filed May 16, 1974, published in the FEDERAL REGISTER issue August 6, 1974, and republished, as corrected, this issue. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Lakeland, Fla. 33802. Applicant's representative: Benjy W. Fincher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas and coconuts and pineapples*, when moving in the same vehicle and at the same time with bananas, from points in Georgia on or east of U.S. Highway 301 (except points on U.S. Highway 1), to points in Florida on or south of a line beginning at Cedar Key and extending along Florida Highway 24 to junction Florida Highway 345, thence along Florida Highway 345 to Chiefland, thence along U.S. Highway 129 to its junction with Florida Highway 26, thence along Florida Highway 26 to Gainesville, thence along Florida Highway 24 to Waldo, thence along U.S. Highway 301 to its junction with Florida Highway 16, thence along Florida Highway 16 to its junction with Florida Highway 215, thence along Florida Highway 215 to its junction Florida Highway 17, thence along Florida Highway 17 to its junction with Interstate Highway 95, thence along Interstate Highway 95 to junction with U.S. Highway 90, thence along U.S. Highway 90 to Jacksonville Beach.

NOTE.—The purpose of this correction is to state the correct territorial description.

No. MC 95540 (Sub-No. E716) (Correction), filed May 17, 1974, published in the FEDERAL REGISTER issues of April 3, 1975, and May 5, 1975, and republished, as corrected, this issues. Applicant: WATKINS MOTORLINES, INC., P.O. Box 1636, Lakeland, Fla. 33802. Applicant's representative: Benjy W. Fincher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from those points in North Carolina on and east of a line beginning at the North Carolina-South Carolina State line and extending along U.S. Highway 17 to junction North Carolina Highway 50, thence along North Carolina Highway 50 to the Atlantic Ocean, to those points in Colorado on and west of a line beginning at the Colorado-Kansas State line and extending along U.S. Highway 160 to junction Interstate Highway 25, thence along Interstate Highway 25 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 285, thence along U.S Highway 285 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Colorado Highway 31, thence along Colorado Highway 31 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Colorado Highway 13/789, thence along Colorado Highway 13/789 to the Colorado-Wyoming State line. The purpose of this filing is to eliminate the gateways of Jacksonville, Fla., and Gulfport, Miss.

NOTE.—The purpose of this correction is to state the correct territorial description:

No. MC 95540 (Sub-No. E719) (Correction), filed May 20, 1974, published in the FEDERAL REGISTER issue of April 3, 1975, and republished, as corrected, this issue. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Lakeland, Fla. 33802. Applicant's represenattive: Benjy W. Fincher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *The Commodities classified as* (a) *meats, meat products, and meat by-products*, in the Appendix to the report in *Modification of Permits—Packing House Products*, 48 M.C.C. 628, from Dteroit, Mich., to those points in Louisiana on and southeast of a line beginning at the Gulf of Mexico and extending along unnumbered Louisiana highway to junction U.S. Highway 167 (excluding Abbeville), thence along U.S. Highway 167 to junction Louisiana Highway 94, thence along Louisiana Highway 94 to junction Interstate Highway 10, thence along Interstate Highway 10 to junction U.S. Highway 61 (excluding Baton Rouge), thence along U.S. Highway 61 to junction U.S. Highway 90, thence along U.S. Highway 90 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction Louisiana Highway 41, thence along Louisiana Highway 41 to junction Interstate Highway 59, thence along Interstate Highway 59 to the Louisiana-Mississippi State line. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

NOTE.—The purpose of this correction is to state the correct territorial description.

No. MC 95540 (Sub-No. E734) (Correction), filed May 17, 1974, published in the FEDERAL REGISTER issue of May 1, 1975, and republished, as corrected, this issue. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Lakeland, Fla. 33802. Applicant's representative: Benjy W. Fincher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from those points in North Carolina on and south of a line beginning at the North Carolina-South Carolina State line and extending along U.S. Highway 301 to junction North Carolina Highway 211, thence along North Carolina Highway 211 to junction U.S. Highway 74/76, thence along U.S. Highway 74/76 to junction U.S. Highway 421, thence along U.S. Highway 421 to the Atlantic Ocean,

V41N200 OCT 14 76 UMI

to points in Utah. The purpose of this filing is to eliminate the gateway of Jacksonville, Fla.

NOTE.—The purpose of this correction is to state the correct territorial description.

No. MC 95540 (Sub-No. E738) (Correction), filed May 17, 1974, published in the FEDERAL REGISTER issue of April 7, 1975, and republished, as corrected, this issue. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Lakeland, Fla. 33802. Applicant's representative: Benjy W. Fincher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from those points in New Jersey on and south of New Jersey Highway 33, to those points in Texas on and south of a line beginning at the Texas-Louisiana State line and extending along Texas Highway 21 to junction Texas Highway 294, thence along Texas Highway 294 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction Texas Highway 158, thence along Texas Highway 158 to junction Texas Highway 59, thence along Texas Highway 59 to junction County Road 181, thence along County Road 181 to junction Texas Highway 115, thence along Texas Highway 115 to junction Texas Highway 128, thence along Texas Highway 128 to the Texas-New Mexico State line. The purpose of this filing is to eliminate the gateways of Jacksonville, Fla., and Gulfport, Miss.

NOTE.—The purpose of this correction is to state the correct territorial descriptions.

No. MC 95540 (Sub-No. E795) (Correction), filed November 25, 1974, published in the FEDERAL REGISTER issue of December 18, 1974, and republished, as corrected, this issue. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Lakeland, Fla. 33802. Applicant's representative: Benjy W. Fincher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen food*, from Rocky Mount, N.C., to points in California, Arizona, New Mexico, and those points in Oklahoma on and north of a line beginning at the Oklahoma-Missouri State line and extending along Interstate Highway 44 to its junction with U.S. Highway 69, thence along U.S. Highway 69 to its junction with Interstate Highway 40, thence along Interstate Highway 40 to its junction with Oklahoma Highway 99, thence along Oklahoma Highway 99 to its junction with Oklahoma Highway 9, thence along Oklahoma Highway 9 to its junction with U.S. Highway 177, thence along U.S. Highway 177 to its junction with U.S. Highway 70, thence along U.S. Highway 70 to its junction with U.S. Highway 77, thence along U.S. Highway 77 to the Oklahoma-Texas State line, and to those points in Texas on and northwest of a line beginning at the Texas-Oklahoma State line and extending along Texas Highway 79 to its junction with U.S. Highway 180, thence along U.S. Highway 180 to its junction with Texas Highway 350, thence along Texas Highway 350 to its junction with Interstate Highway 20, thence along Interstate Highway 20 to its junction with Texas Highway 18, thence along Texas Highway 18 to its junction with U.S. Highway 290, thence along U.S. Highway 290 to its junction with U.S. Highway 67, thence along U.S. Highway 67 to the U.S.-Mexico International Boundary Line. The purpose of this filing is to eliminate the gateway of Washington, Pa.

NOTE.—The purpose of this correction is to state the correct territorial description.

No. MC 95540 (Sub-No. E802) (Correction), filed November 25, 1974, published in the FEDERAL REGISTER issue of December 19, 1974, and republished, as corrected, this issue. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Lakeland, Fla. 33802. Applicant's representative: Benjy W. Fincher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen fruits, frozen berries, and frozen vegetables*, from those points in North Carolina on and east of a line beginning at the North Carolina-Virginia State line and extending along North Carolina Highway 18 to its junction with North Carolina Highway 115, thence along North Carolina Highway 115 to its junction with Interstate Highway 77, thence along Interstate Highway 77 to the North Carolina-South Carolina State line, to those points in Arizona on and north of a line beginning at the Arizona-California State line and extending along U.S. Highway 80 to its junction with Arizona Highway 84, thence along Arizona Highway 84 to its junction with U.S. Highway 80, thence along U.S. Highway 80 to its junction with Arizona Highway 77, thence along Arizona Highway 77 to its junction with U.S. Highway 60, thence along U.S. Highway 60 to the Arizona-New Mexico State line. The purpose of this filing is to eliminate the gateway of Washington, Pa.

NOTE.—The purpose of this correction is to state the correct territorial description.

No. MC–108341 (Sub-No. E5) (Correction), filed May 13, 1974, published in the FEDERAL REGISTER issue of September 4, 1975, and republished, as corrected, this issue. Applicant: MOSS TRUCKING CO., INC., P.O. Box 8409, Charlotte, N.C. 28208. Applicant's representative: Jack F. Counts (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Turbines, steam condensers, feed water heaters, weldments and heat exchangers and parts thereof*, and *iron and steel castings and forgings*, which because of size or weight require the use of special equipment, and *turbines, steam condensers, feed water heaters, weldments and heat exchangers* and *parts thereof*, and *iron and steel castings* and *forgings*, which are contractors' materials, supplies and equipment, which do not require the use of special equipment in mixed loads with commodities which because of size or weight require the use of special equipment, between points in Maine, New Hampshire, and Vermont, on the one hand, and, on the other, points in Florida, Georgia, North Carolina, South Carolina and Virginia. The purpose of this filing is to eliminate the gateways of Chester, Eddystone, Essington, Pa., Wilmington, Dela., and the District of Columbia. The purpose of this correction is to complete the territorial description.

No. MC–114019 (Sub-No. E111) (Partial Correction), filed May 4, 1974, published in the FEDERAL REGISTER issue of January 28, 1976, and republished, as corrected, this issue. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, in vehicles equipped with mechanical refrigeration, (1) from points in New York, Pennsylvania and those in Ohio on and south of U.S. Highway 224 from the Indiana-Ohio State line to its junction with Ohio Highway 58 and on and east of Ohio Highway 58 to its junction with U.S. Highway 224 to Lake Erie and those points in Indiana on and south of U.S. Highway 24 from the Illinois-Indiana State line east if its junction with U.S. Highway 224, thence along U.S. Highway 224 to the Indiana-Ohio State line, to points in Wisconsin and Minnesota. The purpose of this filing is to eliminate the gateway of Lafayette, Ind.

NOTE.—The purpose of this partial correction is to state the correct territorial description. The remainder of the letter-notice remains as previously published.

No. MC–114019 (Sub-No. E442) (Correction), filed May 22, 1974, published in the FEDERAL REGISTER issue of June 23, 1976, and republished, as corrected, this issue. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irrgeular routes, transporting: *Frozen foods, and foods not frozen* when transported in the same vehicle with frozen food in vehicles equipped with mechanical refrigeration, from points in the Upper Peninsula of Michigan, to points in West Virginia, Maryland, Delaware, New Jersey (except points in New York, N.Y. and Philadelphia, Pa., Commercial Zones as defined by the Commission), (Chicago, Ill.)*; from points in Michigan, to points in North Dakota, South Dakota, Nebraska (Chicago, Ill.)*, Minnesota, Iowa, and points in that part of Missouri on and west of a line beginning at the Illinois-Missouri State line and extending along U.S. Highway 36 to its junction with U.S. Highway 24, thence along U.S. Highway 24 to its junction with U.S. Highway 63, thence along U.S. Highway 63 to its junction with U.S. Highway 50, thence along U.S. Highway 50 to its junction with Missouri Highway 5, thence along Missouri Highway 5 to the Arkansas-Missouri State line. (Chicago, Ill., and Muscatine, Iowa)*. The above authority is restricted to the transportation of the commodities described therein when moving from, to, or between warehouses, and wholesale, retail, or chain outlets of food business houses.

The purpose of this filing is to eliminate the gateways marked with asterisks.

NOTE.—The purpose of this correction is to state the correct origin and destination and restriction that were omitted.

No. MC–114019 (Sub-No. E447) (Correction), filed May 22, 1974, published in the FEDERAL REGISTER issue of June 23, 1974, and republished, as corrected, this issue. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, in vehicles equipped with mechanical refrigeration: (1) from points in Rock Island, Henry, and Whiteside Counties, Ill., to points in that part of Michigan on, north, and east of a line beginning at Lake Huron and extending along Michigan Highway 53, to its junction with Michigan Highway 59, thence along Michigan Highway 59 to U.S. Highway 24, thence along U.S. Highway 24 to the Michigan-Ohio State line; (2) from points in that part of Illinois on and south of Illinois Highway 9 to points in Michigan. The purpose of this filing is to eliminate the gateway of LaFayette, Ind.

NOTE.—The purpose of this correction is to reflect the correct "E" number previously published as E440.

No. MC–127812 (Sub-No. E2), filed September 26, 1975. Applicant: TYSON TRUCK LINES, INC., 185—5th Ave., SW., New Brighton, Minn. 55112. Applicant's representative: Anthony C. Vance, 1111 E St., NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Confectionaries, cocoa, cocoa syrup*, in vehicles equipped with mechanical refrigeration, from Minneapolis, Minn., to points in Ashland, Barron, Bayfield, Buffalo, Burnett, Chippewa, Clark, Douglas, Dunn, Eau Claire, Iron, Jackson, La Crosse, Oneida, Pepin, Pierce, Polk, Price, Rusk, Sawyer, St. Croix, Trempeauleau, Washburn, and Vilas Counties, Wis. The purpose of this filing is to eliminate the gateway of New Brighton, Minn.

By the Commission.

ROBERT L. OSWALD,
Secretary.

[Notice No. 135]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

OCTOBER 8, 1976.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 720 (Sub-No. 18TA) filed October 4, 1976. Applicant: BIRD TRUCKING COMPANY, INC., P.O. Box 227, Waupun, Wis. 53968. Applicant's representative: Michael J. Wyngaard, P.O. Box 8004, Madison, Wis. 53707. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods, food stuffs, canned goods, and materials, equipment and supplies* used or useful in the sale or distribution of frozen foods, foodstuffs, and canned goods; (1) from the plant and warehouse facilities utilized by Mass Feeding Corporation, at Darien, Wis., to Boston, Mass.; New York City, N.Y.; Newark, N.J.; Philadelphia, Pa.; Washington, D.C.; Watertown, Fall River and Norwood, Maine; and Baltimore, Md.; and (2) from the plant and warehouse facilities utilized by Mass Feeding Corporation, at Elk Grove Village, Ill., to Boston, Mass.; New York City, N.Y.; Newark, N.J.; Philadelphia, Pa.; Washington, D.C.; Watertown, Fall River and Norwood, Maine; Baltimore, Md., Toledo and Cleveland, Ohio; and Livonia and Grand Rapids, Mich., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Mass Feeding Corporation, 2241 Pratt Blvd., Elk Grove Village, Ill. 60007. Send protests to: Gail Daugherty, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, 135 West Wells St., Room 807, Milwaukee, Wis. 35203.

No. MC 34767 (Sub-No. 43TA) filed September 28, 1976. Applicant: GOOD'S TRANSFER, INCORPORATED, 234 Charles St., Harrisonburg, Ga. 22801. Applicant's representative: Chester A. Zyblut, 1030 Fifteenth St., N.W., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal and poultry feed*, from Harrisonburg, Ga., to points in West Virginia, Garrett, Alleghany and Washington Counties, Md., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Southern States Cooperative, P.O. Box 1656, Richmond, Va. 23213. Send protests to: Danny R. Beeler, District Supervisor, Bureau of Operations, Interstate Commerce Commission, P.O. Box 210, Roanoke, Va. 24011.

No. MC 107515 (Sub-No. 1025TA) filed September 24, 1976. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, 3901 Jonesboro Road, Forest Park, Ga. 30050. Applicant's representative: Alan E. Serby, 3379 Peachtree Rd., N.E., Suite 375, Atlanta, Ga. 30050. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pickles, pickled tomatoes and sauerkraut*, in vehicles equipped with mechanical refrigeration (except commodities in bulk, in tank vehicles), from the plantsite of Claussen Pickle Co. (an Oscar Mayer Suby), at or near Woodstock, Ill., to points in Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee and Virginia, restricted to traffic originating at the above-named origin and destined to the above-named destinations, for 180 days. Supporting shipper: Oscar Mayer & Co., Inc., 910 Mayer Ave., Madison, Wis. 53704. Send protests to: Sara K. Davis, Transportation Assistant, Bureau of Operations. Interstate Commerce Commission, 1252 W. Peachtree St., N.W., Room 546, Atlanta, Ga. 30309.

No MC 107515 (Sub-No. 1026TA) filed October 4, 1976. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, 3901 Jonesboro Road, Forest Park, Ga. 30050. Applicant's representative: Alan E. Serby, Suite 375, 3379 Peachtree Rd., N.E., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen meat*, from the plantsite and facilities of Merrylog Farms, Nashville, Tenn., to Baltimore, Md., for 180 days. Supporting shipper: Merrylog Farms, Div. of Cal-Maine Foods, P.O. Box 1100, Nashville, Tenn. 37202. Send protests to: William L. Scroggs, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 1252 W. Peachtree St., N.W., Room 546, Atlanta, Ga. 30309.

No. MC 109397 (Sub-No. 3480TA) (correction) filed September 13, 1976, published in the FEDERAL REGISTER issue of September 28, 1976, and republished as corrected this issue. Applicant: TRI-STATE MOTOR TRANSIT CO., P.O.

No. MC 111545 (Sub-No. 226TA) filed October 4, 1976. Applicant: HOME TRANSPORTATION COMPANY, INC., 1425 Franklin Road, S.E., P.O. Box 6426, Station A, Marietta, Ga. 30067. Applicant's representative: J. Michael May (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Crossarms*, from East Point, Ga., to points in Illinois, Indiana, Kentucky, Maryland, Michigan, New Jersey, New York, Ohio, Pennslyvania, Virginia and West Virginia, for 180 days. Supporting shipper: Southern Wood Piedmont Company, P.O. Box 5447, Spartanburg, S.C. 29301. Send protests to: William L. Scroggs, District Supervisor, Interstate Commerce Commission, 1252 W. Peachtree St., N.W., Room 546, Atlanta, Ga. 30309.

No. MC 118431 (Sub-No. 22TA) filed October 4, 1976. Applicant: DENVER SOUTHWEST EXPRESS, INC., P.O. Box 9799, Little Rock, Ark. 72209. Applicant's representative: David R. Parker, 2310 Colorado State Bank Bldg., Denver, Colo. 80202. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Tires and tubes*, (1) from Akron, Ohio, to Dubuque, Iowa; (2) from Miami, Okla., to Birmingham, Ala.; Dallas, Tex.; and Reno, Nev.; (3) from Oaks, Pa., to Kansas City, Kans.; and Reno, Nev.; (4) from Tuscaloosa, Ala., to Bensalem, Pa.; Columbus and Medina, Ohio; Dallas, Tex.; Kansas City, Kans.; and Reno, Nev.; and (5) from Woodburn, Ind., to Dallas, Tex.; Kansas City, Kans.; and Reno, Nev. Restrictions: (A) Restricted to traffic originating at and destined to facilities utilized by B. F. Goodrich Company; and (B) Restricted to traffic moving under a continuing contract with B. F. Goodrich Company, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: B. F. Goodrich Company, 500 S. Main St., Akron, Ohio 44318. Send protests to: William H. Land, Jr., District Supervisor, 3108 Federal Office Bldg., 700 West Capitol, Little Rock, Ark. 72201.

No. MC 118831 (Sub-No. 140TA), filed October 4, 1976. Applicant: CENTRAL TRANSPORT, INCORPORATED, P.O. Box 2608, High Point, N.C. 27261. Applicant's representative: Richard E. Shaw (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry polyester resin, granules, or pellets*, between Fayettville, N.C., and Lewistown, Pa., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Carodel Corporation, P.O. Box 630, Fayetteville, N.C. 28302. Send protests to: Archie W. Andrews, District Supervisor, Interstate Commerce Commission, Bureau of Operations, P.O. Box 26896, Raleigh, N.C. 27611.

No. MC 129394 (Sub-No. 3TA), filed October 4, 1976. Applicant: RONALD HACKENBERGER, doing business as RON'S TRUCKING SERVICE, Route 250, North, RFD No. 3, Norwalk, Ohio 44857. Applicant's representative: Richard H. Brandon, 220 W. Bridge St., Box 97, Dublin, Ohio 43017. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, in dump vehicles, from points in Morgan, Elliott and Carter Counties, Ky., to Huron, Ohio, under a continuing contract with Huron Lime Company, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Huron Lime Company, 100 Meeker St., Huron, Ohio 44839. Send protests to: Keith D. Warner, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 313 Federal Office Bldg., 234 Summit St., Toledo, Ohio 43604.

No. MC 135861 (Sub-No. 12TA), filed October 4, 1976. Applicant: LISA MOTOR LINES, INC., P.O. Box 4550, Fort Worth, Tex. 67106. Applicant's representative: Billy R. Reid, P.O. Box 9093, Fort Worth, Tex. 76107. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsite of Swift Fresh Meats Company, at or near Gering, Nebr., to points in Massachusetts, New York, New Jersey and Florida, and Philadelphia, Pa., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Swift Fresh Meats Company, 115 West Jackson Blvd., Chicago, Ill. 60605. Send protests to: H. C. Morrison, Sr., Room 9A27 Federal Bldg., 819 Taylor St., Fort Worth, Tex. 76102.

No. MC 139577 (Sub-No. 1TA), filed October 4, 1976. Applicant: ADAMS TRANSIT, INC., 205 E. Winnebago St., Friesland, Wis. 53935. Applicant's representative: Delbert De Young, P.O. Box 338, Friesland, Wis. 53935. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal containers and container parts*, from the plantsites and warehouse facilities owned or leased by the Carnation Company, in Wisconsin, to Fort Dodge and Fort Madison, Iowa, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating. Supporting shipper: Robert H. Kessenich, Manager, Midwest Motor Operations, Carnation Company, 132 S. Concord Road, Oconomowoc, Wis. 53066.

No. MC 141074 (Sub-No. 4TA), filed October 1, 1976. Applicant: DONALD WHEATLEY, doing business as DONALD WHEATLEY TRUCKING COMPANY, P.O. Box 447, Sharptown, Md. 21861. Applicant's representative: Chester A. Zyblut, 1030 15th St., NW., Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and untreated piling*, from Sharptown, Md., to points in Massachusetts, Rhode Island, New Hampshire, Vermont and Ohio, under a continuing contract with J. V. Wells, Co., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: J. V. Wells, Co., P.O. Box 526, Sharptown, Md. Send protests to: Interstate Commerce Commission, 12th & Constitution Ave., N.W., Room 1413, W. C. Hersman, District Supervisor, Washington, D.C. 20423.

No. MC 142129 (Sub-No. 2TA), filed September 30, 1976. Applicant: VALLEY PARCEL SERVICE, INC., 500 South Teilman Ave., Fresno, Calif. 93726. Applicant's representative: Rodney Heintz (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Fresno Airport on the one hand, and, on the other, points in Fresno, Kings, Tulare, Madera and Merced Counties, Calif., restricted to traffic having a prior or subsequent out of state movement by air, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shippers: There are approximately 9 statements of support attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Claud W. Reeves, District Supervisor, Suite 500, 211 Main, San Francisco, Calif. 94105.

No. MC 142443 (Sub-No. 1TA), filed September 27, 1976. Applicant: HOLSTON BROTHERS, INC., 13711 Travilah Road, Rockville, Md. 20850. Applicant's representative: Barry Roberts, 888 17th St., NW., Washington, D.C. 20006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Potting soil, top soil, marble chips, limestone, chemical fertilizers, peat moss and manure* (otherwise exempt) when moving in the same vehicle as the above-named commodities (except in bulk), Potting soil, from Sussex, N.J., and Montgomery County, Md.; Top soil, from Montgomery County, Md., and Toughkenamon, Pa.; Marble chips and limestone, from Newton, N.J., Chemical fertilizer, from Lancaster, Pa.; Manure, from South Charleston, Ohio; and Peat moss, from Montgomery County, Md., to points in Maryland and Virginia, under a continuing contract with Continental Peat Co., and Leafco, for 180 days. Supporting shippers: Continental Peat Co., P.O. Box 7368, Toledo, Ohio 43615. Leafco, 2707 Weisman Road, Wheaton, Md. 20902. Send protests to: Interstate Commerce Commission, 12th and Constitution Ave., NW., Room 1413, W. C. Hersman, District Supervisor, Washington, D.C. 20423.

No. MC 142491TA, filed October 4, 1976. Applicant: D & E TRANSPORT, INC., P.O. Box 96, Bellevue, Nebr. 68005. Applicant's representative: Michael J. Ogborn, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products and articles distributed by meat packinghouses* (except commodities in bulk), as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from the plantsite and storage facilities of Lakin Meat Processors, at or near Omaha, Nebr., to points in Washington, Oregon, California, Nevada, Arizona, Colorado, Kansas, Oklahoma, Texas, Missouri, Arkansas, Louisiana, Illinois, Michigan, Kentucky, Tennessee, Mississippi, Alabama, Ohio, New York, Pennsylvania, New Jersey, West Virginia, Virginia, North Carolina, South Carolina, Georgia, Florida, Maryland, and Delaware. Restrictions: Restricted to traffic originating at the plantsite and storage facilities of Lakin Meat Processors, at or near Omaha, Nebr., under a continuing contract with Lakin Meat Processors, Inc., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Edward A. Ginsberg, General Manager, Lakin Meat Processors, Inc., 800 Harney, Omaha, Nabr. 68102. Send protests to: Carroll Russell, District Supervisor, Interstate Commerce Commission, Suite 620, 110 North 14th St., Omaha, Nebr. 68102.

By the Commission.

ROBERT L. OSWALD,
Secretary.

HOUSING ASSISTANCE PAYMENTS PROGRAM

Substantial Rehabilitation

V41N200 OCT 14 76
UMI

Title 24—Housing and Urban Development

CHAPTER VIII—LOW INCOME HOUSING, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-76-387]

PART 881—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—SUBSTANTIAL REHABILITATION

Adoption of Final Rule

On April 26, 1976 at 41 FR 17488 the Department published amendments to Part 881, effective on an interim basis. The comment period closed May 26, 1976.

The Department has received 15 comments in response to the April 26 publication. All comments were carefully considered, and changes have been made to the Interim Regulations, as set forth below, based on these and other comments. A discussion of the principal changes and of the more recurrent and significant comments follows.

1. A new § 881.101(d) has been added to clarify that housing subsidized under other provisions of the U.S. Housing Act of 1937 is not eligible for assistance under this Part.

2. In § 881.102, in the definition of "Eligible Family," the term "handicapped" has been revised to clarify that it includes mentally or physically handicapped persons.

3. Section 881.108(a) has been revised to provide that where the estimated cost of the rehabilitation is less than 25 percent of the estimated value of the property after rehabilitation, initial Contract Rents plus any Allowance shall not exceed 75 percent of the Fair Market Rents for new construction, with certain exceptions.

4. In § 881.109(a), the provision that the term of the Contract shall be no more than five years where the estimated cost of the rehabilitation is less than 15 percent of the estimated value of the project after rehabilitation has been revised. Under the revision, where the estimated cost of the rehabilitation is less than 25 percent, the maximum total term of the Contract may be more than five but not more than 10 years. The 25 percent figure is the same as the percentage figure used for determining the applicable Fair Market Rent (see paragraph 3 of this preamble). The term is being lengthened from 5 to 10 years to enable an Owner to finance the rehabilitation cost over a longer term and thereby achieve lower rents. (A conforming change has also been made in § 881.109(b).)

5. Section 881.110(c) has been revised to clarify that when special additional adjustments are approved by HUD, they "shall," rather than "may," be granted.

6. In § 881.114, "Other Federal requirements," the statutory citation for the Archeological and Historic Preservation Act of 1974 (Public Law 93-291) has been corrected.

7. In response to several comments, a new § 881.205(t) has been added to permit the Owner to include in the Preliminary Proposal a designation of alternate properties if he wishes HUD to consider them as substitutes in the event that HUD finds defects or deficiencies with respect to the principally designated properties. In addition, § 881.208 has been revised to permit HUD, in its discretion, to consider such alternate properties in such cases.

8. Section 881.207(b)(2) has been revised to provide that, in the case of Proposals involving HUD mortgage insurance, the field office shall make a preliminary debt service analysis as part of the Technical Processing, rather than as part of the Preliminary Evaluation. The provision has also been revised to state that if the field office is unable to approve the mortgage amount requested, it shall notify the Owner of the maximum amount which is tentatively approvable, pursuant to § 881.208(e)(4) or in the notification of selection in accordance with § 881.208(h).

9. In response to a comment, § 881.208(j) has been clarified to provide that if, at any time after completing selection of Preliminary Proposals, the contract authority in the NOFA for an area is not fully committed or if a selected Proposal fails to result in an Agreement, the field office may proceed in accordance with specified alternatives. The comment stated that some field offices interpret the regulations to require publication of another NOFA if contract authority becomes available because a selected Proposal is withdrawn. This result was not intended. Conforming changes have been made in § 881.210(c)(3), in new § 881.210(e), in § 881.211(a), and in § 881.211(b)(4) to reflect the fact that § 881.208(j) states in one place in the regulations the alternatives available where there is residual contract authority.

10. Several comments suggested that § 881.108(b), "Reasonableness of Rents," be revised to require HUD to take into consideration the costs of the development and operation of the project in its determination that the Contract Rents are reasonable. This section has not been revised pending the results of further Departmental analysis to determine the effects of present procedures on program implementation.

11. It was suggested that the term "predominantly for the elderly," as used in § 881.111 in connection with the prohibition of high rise elevator projects for Families with children, be defined in terms of a specified minimum percentage. The Department has determined that the use of a percentage limitation is not necessary and that it would be better to leave the question to a case by case determination.

12. It was suggested that § 881.111 be amended to permit the use of high-rise elevator projects for families with children where the families already reside in the structure to be rehabilitated. Under the U.S. Housing Act, high-rise elevator projects may not be provided for families with children unless HUD determines that "there is no practical alternative." The fact that a high-rise elevator structure proposed for rehabilitation already has families in occupancy does not in itself make the requirement inapplicable, but is relevant in making the required determination. For example, if all the Proposals submitted in response to a NOFA for an area provide for high-rise elevator projects for families with children, this would be evidence that there is no practical alternative for this type of housing.

13. A number of comments suggested that certain of the site and neighborhood standards in § 881.112 were inappropriate for substantial rehabilitation projects. This section has not been revised pending completion of the review now underway of site and neighborhood standards for various HUD programs.

14. It was suggested that guidelines should be established to assure that the number of units advertised will be sufficient to permit feasible projects. The Department does not feel that the inclusion of such a provision in the regulations is necessary because the field offices have the responsibility for making determinations as to the number of units to be advertised for in accordance with all the pertinent factors and on a basis likely to result in the submission of viable Proposals.

15. It was suggested that § 881.203 of the regulations be revised to permit field offices to negotiate directly with developers without publishing a NOFA. The Department has determined not to accept this comment because of the importance of giving all interested parties an opportunity to submit a proposal.

16. One comment suggested that Notifications of Fund Availability be published once a week for three, rather than two, consecutive weeks (see § 881.203(a)). The Department has determined that two publications of the NOFA are sufficient and, therefore, that the expense of a third publication would not be warranted.

17. It was suggested that the regulations be amended to delete the provision authorizing the field office to shorten or extend the deadline because it was felt that it is "unreasonable, unfair and subject to manipulation." (See § 881.203(c)(4) and § 881.208(e)(7).) These provisions have not been changed because the Department has determined that sufficient safeguards exist to avoid any unfair result and that such a procedure provides flexibility important for the efficient processing of proposals.

A Finding of Inapplicability respecting the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures. A Finding of Inapplicability of inflation impact statement requirements has also been made in accordance with HUD procedures. Copies of these findings are available for public inspection during regular business hours at the office of the Rules Docket Clerk, Office of the Secretary, Room 10141, Department of Housing and Urban Development, 451 Seventh St., S.W., Washington, D.C. Accordingly, the interim rule, published April 26, 1976, 41 FR 17488, is hereby made final with the changes set forth in this amendment. Thus Part 881, section 8 Housing Assistance Payments Program—Substantial Rehabilitation, is adopted with the changes to §§ 881.101, 881.102, 881.108, 881.109, 881.110, 881.114, 881.205, 881.207, 881.208, 881.210, and 881.211 set forth as follows:

1. A new Sec. 881.101(d) is added to read:

* * * * *

§ 881.101 Applicability and scope.

(d) Housing subsidized under other provisions of the Act is not eligible for assistance under this Part.

§ 881.102 [Amended].

2. The second sentence of the definition of "Eligible Family 'Family')" in § 881.102 is revised to read:

* * * The term Family includes an elderly, mentally or physically handicapped, disabled, or displaced person and the remaining member of a tenant family as defined in section 3(2) of the Act.

3. Section 881.108(a) is revised to read:

§ 881.108 Initial contract rents.

(a) Fair Market Rent Limitation. The sum of the initial Contract Rent and any Allowance for Utilities and Other Services for any unit shall not exceed the Fair Market Rent for newly constructed rental housing (or 75 percent thereof where the estimated cost of the rehabilitation is less than 25 percent of the estimated value of the property after rehabilitation), except that this limit may be exceeded

(1) By up to 10 percent if the field office director determines that special circumstances warrant such higher rent and the higher rent meets the test of reasonableness in paragraph (b) of this section, or

(2) By up to 20 percent, where the Regional Administrator determines that special circumstances warrant such higher rent or determines that such higher rent is necessary to the implementation of a Local Housing Assistance Plan, and that such higher rent meets the test of reasonableness in paragraph (b) of this section.

4. Section 881.109(a) and (b) are revised to read:

§ 881.109 Term of housing assistance payments contract.

(a) Where the estimated cost of the rehabilitation is less than 25 percent of the estimated value of the project after completion of the rehabilitation, the Contract may be for an initial term of not more than five years of any dwelling unit, with provision for automatic renewal (unless agreed otherwise) for one or more additional terms of not more than five years each; provided, however, that the total Contract term, including all renewals, shall not exceed 10 years for any dwelling unit.

(b) Where the estimated cost of the rehabilitation is 25 percent or more, the Contract may be for an initial term of not more than five years for any dwelling unit, with provision for automatic renewal (unless agreed otherwise) for additional terms of not more than five years each, for a total Contract term which will cover the financing of the cost of rehabilitation, or the remaining term of the existing indebtedness, if that be longer, or which will cover the financing of the cost of the rehabilitation and of acquisition or refinancing of the existing indebtedness; provided, however, that the total Contract term, including all renewals, for any dwelling unit shall not exceed 20 years, or 40 years where the project is owned by, or financed by a loan or loan guarantee from, a State or local agency.

5. Section 881.110(c) is revised to read:

§ 881.110 Rent adjustments.

(c) Special Additional Adjustments. Special additional adjustments shall be granted, when approved by HUD, to reflect increases in the actual and necessary expenses of owning and maintaining the Contract units which have resulted from substantial general increases in real property taxes, utility rates, or similar costs (i.e., assessments, and utilities not covered by regulated rates), but only if and to the extent that the Owner clearly demonstrates that such general increases have caused increases in the Owner's operating costs which are not adequately compensated for by automatic annual adjustments. The Owner shall submit to HUD financial statements which clearly support the increase.

§ 881.114 [Amended]

6. In § 881.114, "Other Federal Requirements," the citation in paragraph (e) for the Archeological and Historic Preservation Act of 1974 is revised to read: (Public Law 93-291).

7. Insert a new § 881.205(t) to read:

§ 881.205 Contents of preliminary proposal.

* * * * *

(t) Whether the Owner wishes to designate alternative properties for consideration by HUD, in its discretion, if HUD finds defects or deficiencies with respect to the principally designated properties; and, if so, the Owner shall include for each such alternate property the information required by paragraphs (a), (c), (e), (j), (k), and (o) of this section.

§ 881.207 [Amended]

The heading of § 881.207(b), *"Concurrent Pocessing,"* is corrected to read *"Concurrent Processing."*

9. Section 881.207(b)(2) is revised to read:

§ 881.207 Proposal involving HUD-FHA mortgage insurance.

* * * * *

(b) * * *

(2) As part of the Technical Processing (§ 881.208) of Proposals involving HUD mortgage insurance, the field office shall make a preliminary debt service analysis to determine the tentative approvable mortgage amount and maximum supportable cost based on the field office's estimate of market rentals, operating expenses and taxes for the proposed project. If the field office is unable to approve the mortgage amount requested, it shall notify the Owner in accordance with Sec. 881.208(e)(4) or in the notification of selection, in accordance with Sec. 881.208(h), of the maximum mortgage amount which is tentatively approvable and shall advise the Owner to inform the field office within the specified time whether he wishes processing of the Proposal to proceed based on the revised mortgage amount.

§ 881.208 [Amended]

10. In § 881.208(b), lines nine and ten, delete the phrase "with respect to the same property."

11. Insert the following at the end of § 881.208(b): Such amendments or modifications may, at HUD's discretion, include substitution of alternate properties if designated by the Owner in the Preliminary Proposal, provided that such alternate properties are otherwise acceptable to the field office.

12. Revise § 881.208(e)(4) and (j) to read:

§ 881.208 Screening and evaluation of preliminary proposals.

* * * * * *

(e) * * *

(4) If, in its evaluation of all pertinent factors, the field office finds deficiencies which, in its judgment, are correctable within a reasonable time, including the substitution of alternate properties designated by the Owner in the Preliminary Proposal, it may grant such additional time as it deems appropriate to enable the Owner to correct such deficiencies. Otherwise the Owner shall be sent a notification specifying the deficiencies and stating that the Proposal is rejected.

* * * * * *

(j) Use of Residual Contract Authority. If at any time after completing selection of Preliminary Proposals, the contract authority indicated in the NOFA for an allocation area is not fully committed or if a selected Proposal fails for any reason to result in an Agreement, the field office may:

(1) Give further consideration to Proposals which were either not found eligible for Technical Processing, or as a result of such processing were found not approvable, or were found approvable but were not selected as a result of the ranking, and afford the owners an opportunity to remedy any deficiencies, including substitutions of alternate properties designated by the Owner in the Preliminary proposal;

(2) Process Proposals not yet considered for projects to which the deadline does not apply (see § 881.203(c)(5));

(3) Publish another NOFA for the allocation area; or

(4) Reallocate the unused contract authority to another allocation area.

13. Revise § 881.210(c)(3) and add (e) to read:

* * * * * *

§ 881.210 Evaluation of final proposals.

(c) * * *

(3). Not approved. If a Final Proposal is not approved or if the conditions for

V41200 OCT 14 76 UMI

approval under paragraph (c)(2) of this section are not met, HUD shall so advise the Owner.

. . . . . .

(e) Use of Residual Contract Authority. See Sec. 881.208(j).

14. Revise § 881.211(a) and (b)(4) to read:

§ 881.211 Owners acceptance of notification and submission of architect's certification.

(a) *Owner's Acceptance.* Upon receipt by the Owner of the notification of approval of the Final Proposal, the Owner shall return to HUD a copy indicating his acceptance within the time prescribed in such notification (copy to the PHA, if applicable). If the Owner does not accept the notification by the date specified, HUD may rescind the notification.

(b) . . .

(4) If the Owner fails to submit the certification by the date specified in the notification, HUD shall rescind the notification unless it determines that a reasonable extension of time should be granted.

Effective Date. These regulations are effective on Friday, November 12, 1976.

NOTE.—It is hereby certified that the economic and inflationary impacts of this regulation have been carefully evaluated in accordance with OMB Circular A-107.

(Sec. 7(d), Department of HUD Act (42 U.S.C. 3535(d)); sec. 5 U.S. Housing Act of 1937 (42 U.S.C. 1437 c(b)); sec. 8 U.S. Housing Act of 1937 (42 U.S.C. 1437f).)

Issued on October 5, 1976.

JAMES L. YOUNG,
Assistant Secretary for Housing—Federal Housing Commissioner.

PART III:

FEDERAL ELECTION COMMISSION

ADVISORY OPINION REQUESTS

V 41 200 OCT 14 76 UMI

[Notice 1976-52, AOR 1976-90 through 1976-94]

FEDERAL ELECTION COMMISSION

ADVISORY OPINION REQUESTS

Pursuant to 2 U.S.C. 437f(c) and the procedures reflected in Part 112 of the Commission's Notice of Proposed Rulemaking, published on May 26, 1976 (41 FR 21590), advisory opinion requests 1976-90 through 1976-94 have been made public at the Commission. Copies of AOR 1976-90 through 1976-92 were made available on October 4, 1976, and AOR 1976-93 and 1976-94 were made available on October 6, 1976. These copies of advisory opinion requests were made available for public inspection and purchase at the Federal Election Commission, Public Records Division, at 1325 K Street, N.W., Washington, D.C. 20463.

Interested persons may submit written comments on any advisory opinion request within ten days after the date the request was made public at the Commission. These comments should be directed to the Office of the General Counsel, Advisory Opinion Section, at the Commission. Persons requiring additional time in which to respond to any advisory opinion requests will normally be granted such time upon written request to the Commission. All timely comments received by the Commission will be considered before the Commission issues an advisory opinion. Comments on pending requests should refer to the specific AOR number of the requests and statutory references should be to the United States Code citations rather than to the Public Law citations.

A descriptive listing of each of the requests recently made public as well as the identification of the requesting party follows hereafter:

AOR 1976-90: Whether unexpended campaign funds of a retiring Member's committee may be used to pay for overseas travel expenses of the Member's spouse or for reimbursement of the committee treasurer.—Requested by Congressman William J. Randall, U.S. House of Representatives.

AOR 1976-91: Whether AMPAC and TEXPAC are subject to a shared $5,000 contribution limitation with respect to the period before May 11, 1976, or the period after that date.—Requested by Robert Thomson of Preston, Thorgrimson, Ellis, Holman & Fletcher for Senator Lloyd Bentsen, Washington, D.C.

AOR 1976-92: Whether the Civic Pledge Program of the Boeing Company requires registration of a political committee as a separate segregated fund.—Requested by Graham H. Fernald of Perkins, Coie, Stone, Olsen & Williams for the Civic Pledge Program, Seattle, Washington.

AOR 1976-93: Whether a candidate may include photographs of presidential and senate candidates in posters or newspaper ads; what disclaimers are required; how must the expenses be reported.—Requested by Congressman Parren J. Mitchell, U.S. House of Representatives.

AOR 1976-94: Whether corporate members of a trade association may use a payroll deduction plan to facilitate contributions to the separate segregated fund of the trade association.—Requested by John E. Ahearn, Counsel, Connecticut Insurance Political Action Committee, Hartford, Connecticut.

Dated: October 7, 1976.

VERNON W. THOMSON,
Chairman for the
Federal Election Commission.

DEPARTMENT OF COMMERCE

Economic Development Administration

■

LOCAL PUBLIC WORKS CAPITAL DEVELOPMENT AND INVESTMENT PROGRAM

V41200
OCT 14 76
UMI

Title 13—Business Credit and Assistance

CHAPTER III—ECONOMIC DEVELOPMENT ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 316—LOCAL PUBLIC WORKS CAPITAL DEVELOPMENT AND INVESTMENT PROGRAM

Miscellaneous Amendments

Pursuant to the authority vested in it by section 107 of Title I of the Public Works Employment Act of 1976 (42 U.S.C. 6701 et seq.), the Economic Development Administration hereby amends 13 CFR Part 316.

On August 23, 1976, a document was published in the FEDERAL REGISTER (41 FR 35670) which was a notice of final rulemaking setting forth the rules and regulations which described procedures by which eligible applicants may receive financial assistance for the construction (including demolition and other site preparation activities), renovation, repair, or other improvement of local public works projects and for the completion of plans, specifications, and estimates for local public works projects pursuant to Title I of the Public Works Employment Act of 1976 (42 U.S.C. 6701 et seq.). These rules and regulations were amended by documents published in the FEDERAL REGISTER on August 30, 1976 (41 FR 36637) and September 13, 1976 (41 FR 38996).

Although the material contained in the Regulations of August 23, 1976, and the amendments of August 30, 1976, and September 13, 1976, were a matter relating to an EDA grant program, the relevant provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, opportunity for public participation and delay in the effective date were inapplicable.

However, in accordance with the spirit of the public policy set forth in 5 U.S.C. 553, EDA allowed interested persons to submit written comments, suggestions, data or arguments within 30 days to the Assistant Secretary for Economic Development, U.S. Department of Commerce, Room 7800B, Washington, D.C. 20230.

All comments with respect to the final rulemaking were given due consideration.

As a result of comments received, the following changes in the Final Rules and Regulations are made in addition to language changes for clarification and corrections for uniform format:

1. Section 316.2 is amended to revise the definition of "Initiation of construction" as it pertains to an eligible completed facility which has integrity in and of itself, and to an eligible project which has previously commenced construction but has been completely terminated for lack of funds.

2. Section 316.2 is amended by revising the definition of "General purpose unit of local government" to include school districts.

3. Section 316.8(b) is amended in order to define more precisely the data base that will be used to determine State planning ceilings for the 35% of the funds authorized by the Local Public Works Capital Development and Investment Act which will be based on severity of unemployment. The amendment specifies that the composite unemployment rate, which reflects the unemployment rate of all States as well as Puerto Rico, will be used for this purpose.

4. Section 316.10(a)(2)(ii)(C) is amended by changing the existing (C) to (D) and adding a new (C) which increases a project's basic rank by three percent if sponsored by a special purpose unit of local government or a political subdivision of a State. This addition emphasizes those project selection considerations which further the obectives of the program.

5. Section 316.10(a)(3)(iii) is revised to permit the Assistant Secretary to approve or deny projects regardless of project rank as may be necessary (1) to meet the required distribution of program resources between statutorily mandated priority classes, (2) to prevent an undue concentration of program resources in any area or areas of a State or (3) when the sum of total labor requirements of projects in an area exceeds the available labor in that area.

6. Section 316.10(b)(8) is amended by revising the nature of the information an applicant is required to submit to EDA if it is involved in a lawsuit or Federal administrative action alleging discrimination. This change is intended to allow better coordination between the regulations and the printed instructions on the application form.

7. Section 316.10(b)(10) is amended to explicitly authorize the rejection of applications which are incomplete.

8. Section 316.10(f)(1) is amended to clarify the type of ownership interest an applicant must demonstrate in the project facility and/or site. An eligible applicant is required to own, lease, or hold an enforceable option to purchase the project facility and/or site. For a lease to qualify, it must be non-cancellable and long term, defined as the longer of twenty years or the useful life of the project.

9. Section 316.10(f) is amended by the addition of a new paragraph (3) which states that applications will not normally be approved for projects whose labor requirements equal or exceed one-third of the project area's unemployed labor force. This provision is designed to prevent the Local Public Works Capital Development and Investment Program from generating labor demands in excess of the supply of unemployed labor in any particular area. This amendment is consistent with changes made at 13 CFR 316.10(a)(3)(iii).

10. Section 316.10(h) is amended to delete in its entirety the two-year construction requirement as a prerequisite for project approval. The purpose of this requirement was to assure that jobs were created immediately and not several years in the future; it has now been determined that this requirement may be overly restrictive since it precludes LPW funds from supplementing a large project having considerable labor impacts both immediately and in the future.

11. Section 316.11(d) is amended to provide additional guidance for applicants regarding OMB Circular No. A-95 procedures during the first ninety days in which applications are being accepted. The new paragraph (4) allows the acceptance of applications which lack State application identifier numbers during this period.

12. Section 316.11(e) is amended by deleting references to environmental legislation and procedures which have been determined inapplicable to this program.

13. Section 316.11(j) is amended to modify the application of 13 CFR Part 314, "Property management standards", to the Local Public Works Capital Development and Investment Program. Sections 314.6(a) and 314.6(b), pertaining to recording of covenants, and § 314.50, pertaining to general requirements for excess property, are inapplicable to this Program and therefore are deleted.

14. Section 316.13 is revised by deleting paragraph (c). Paragraph (c) concerned an environmental review pursuant to the Wild and Scenic Rivers Act, which is inapplicable to the procedures contained in this section. This amendment also redesignates the remaining paragraphs of § 316.13 as § 316.14.

15. A new § 316.13, Lease of project facilities, is added to Part 316. This section states EDA's policy concerning the lease of project facilities by recipients. It establishes the requirements governing the lease of facilities to private nonprofit and profit making operators.

16. Section 316.14 is redesignated as § 316.15 in line with the changes described previously.

17. Section 316.15 is amended by including suspensions among the types of actions EDA may take following the approval of a project. This section is also redesignated as § 316.16 to conform with previous changes.

Because these regulations pertain to a grant program administered by the Economic Development Administration, the relevant provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, opportunity for public participation and delay in effective date are inapplicable.

Consideration has been given as to whether matters set forth in these amendments constitute a major proposal with an inflationary impact within the meaning of OMB Circular No. A-107 and the interpretative guidelines issued by the Department of Commerce. A determination has been made that these regulations do not extend or go beyond the statute, and therefore, there is no inflationary impact of these regulations beyond the statute.

Accordingly 13 CFR Part 316 is revised as set forth below and the entire Part 316 with all amendments will be republished in the immediate future:

§ 316.2 [Amended]

1. Section 316.2 is amended by revising the definition of "Initiation of construction" as follows:

• • • • • •

Initiation of construction. Means that notice to proceed or its equivalent has been issued or on-site labor has begun, except where on-site labor has commenced on the project but the project was abandoned due to lack of funds or where the project is to expand or modify a completed facility which has integrity in and of itself.

• • • • • •

2. Section 316.2 is amended by revising the definition of "General purpose unit of local government" as follows:

• • • • • •

General purpose unit of local government. Means any city, county, town, parish, Indian tribe, school district or any other "unit of general local government" as included within the definition of that term by section 104 of the Intergovernmental Cooperation Act of 1968 (42 U.S.C. 4201 et seq.).

• • • • • •

3. Section 316.8(b) is revised by amending the formula by which each State planning ceiling is determined to read as follows:

§ 316.8 Allocation of program resource levels to regional offices.

• • • • •

(b) • • •

Subject to program administrative costs and statutory minimum and maximum amounts allocated to individual States by the legislation, 65 percent of the funds will be set aside as planning ceilings for individual States based on the share of unemployed workers residing in a State of the total national unemployed; 35 percent of the funds will be set aside as planning ceilings to individual States based on the relative severity of unemployment for each State above the composite unemployment rate for all States.

4. Section 316.10 is amended as follows:

a. Paragraph (a)(2)(ii)(C) is amended by redesignating paragraph (C) as paragraph (D) and adding a new paragraph (C);

b. Paragraph (a)(3)(iii) is revised;

c. Paragraph (b)(8) is revised;

d. Paragraph (b)(10) is revised;

e. Paragraph (f)(1) is revised and a new subparagraph (3) is added to paragraph (f); and

f. Paragraph (h) is deleted in its entirety and paragraph (i) is redesignated as paragraph (h).

As amended, § 316.10 (a)(2)(ii)(C); (a)(3)(iii), (b)(10), (f)(1) and (f)(3) reads as follows:

§ 316.10 General considerations and requirements for financial assistance.

(a) • • •

(2) • • •

(ii) • • •

(C) Is sponsored by a special purpose unit of local government or a political subdivision of a State. Projects meeting this criterion will have their basic ranks increased by three percent.

• • • • • •

(iii) Within each State and priority category, projects will be selected until the State planning allocation has been exhausted or until such time as the Assistant Secretary determines that the remaining funds made available under the Act must be reallocated among the States. In selecting projects for funding, the Assistant Secretary shall give primary consideration to the final rank of a project. However, the Assistant Secretary may approve projects which rank below other projects as may be necessary to avoid an undue geographic concentration of program assistance in any particular area or areas of a State or as may be necessary to meet the required distribution of program resources between the statutorily mandated priority classes or when the sum of the total project labor requirements in a project area exceeds the available labor.

(b) • • •

(8) It contains adequate assurance by the applicant and by any "other parties" as defined in 15 CFR Subtitle A, Part 8, that no person shall, on the grounds of race, color, sex, or national origin, be excluded from participation in, be denied the benefit of, or be subjected to discrimination under the proposed project; and an assurance that it is not invloved in any civil rights litigation or if it is involved in a lawsuit or Federal administrative action alleging discrimination it shall provide a brief narrative description of the action alleging discrimination and its outcome.

• • • • • •

(10) It is, in the opinion of the Assistant Secretary, accurate and complete.

• • • • • •

(f) • • •

(1) The applicant has not obtained rights to the project site, including easements and rights-of-way, in one of the following ways:

(i) The eligible applicant owns the project facility and/or site clear of any encumberances;

(ii) The eligible applicant holds a noncancellable long-term lease on the project facility and/or site which is defined as 20 years or the useful life of the facility, whichever is longer; or

(iii) The eligible applicant holds a clearly enforceable option through time of grant approval to purchase the project facility and/or site and demonstrates that it has sufficient funds available to complete the purchase.

• • • • • •

(3) The project's labor requirements equal or exceed one-third of the project area's unemployed labor force.

• • • • • •

(i) [Redesignated]

5. Section 316.11 is amended as follows:

a. Paragraph (d) is amended by redesignating subparagraph (4) as subparagraph (5) and a new subparagraph (4) is added;

b. Paragraph (e) is amended by deleting subparagraph (8) in its entirety and subparagraphs (5) and (7) are revised; and

c. Paragraph (j) is revised; as amended, § 316.11(d)(4), (e)(5), (7) and (8), and (j) read as follows:

§ 316.11 Compliance with other Federal requirements.

• • • • • •

(d) • • •

(4) During the first ninety days, applications received by EDA need not have State application identifier numbers.

• • • • • •

(e) • • •

(5) The Wild and Scenic Rivers Act (16 U.S.C. 1271–1287);

(7) The Historical and Archeological Data Preservation Act, as amended (16 U.S.C. 469 et seq.).

(8) [Deleted]

• • • • • •

(j) 13 CFR Part 314, entitled "Property management standards," except 13 CFR 314.6(a), 13 CFR 314.6(b), and 13 CFR 314.50.

6. Section 316.13 is amended by deleting paragraph (c) in its entirety and redesignating the section as § 316.14 to read as follows:

§ 316.14 Environmental considerations.

• • • • • •

7. The following new § 316.13 is added to Part 316 to read as follows:

§ 316.13 Lease of project facilities.

(a) The project facility may be leased by the grantee to a non-profit operator providing the applicant maintains a continuing significant economic interest in the project and is not acting simply in a passive role for a prospective lessee, and such facility is used for the purpose of the grant.

(b) The project facility may be leased by the grantee to a profit making operator provided all of the following conditions are met:

(1) The lease is incidental to the project and not its principal purpose;

(2) The lease does not change the public nature or character of the purpose of the project as a whole; and

(3) The applicant maintains a continuing significant economic interest in the project and is not acting simply in a passive role as applicant for a prospective lessee.

8. Section 316.14 is redesignated as § 316.15 to read as follows:

§ 316.15 Final Determination.

• • • • • •

9. Section 316.15 is amended by redesignating it as § 316.16 and revising it to read as follows:

§ 316.16 Termination.

(a) An appropriate official of the grantee may request EDA to cancel or suspend or terminate a public works project approved under this part. This request must be accompanied by a certified resolution or ordinance authorizing the requesting party to make such re-

V 41 200 OCT 14 76 UMI

quest. Before agreeing to such request, EDA will determine the legal sufficiency of such request.

(b) EDA may initiate a cancellation or suspension or termination of a project approved under this part for failure by the grantee to adhere to the requirements of the grant

(c) EDA may initiate a cancellation or suspension or termination of a project approved under this part whenever it determines that such cancellation or suspension or termination is in the best interest of the government. Cancellation or suspension or termination shall be effected by delivering a notice to the grantee specifying the extent of the cancellation of suspension or termination and the date upon which it becomes effective.

(Title I, Pub. L. 94-369, (July 22, 1976); 42 U.S.C. 6701 et seq.; 90 Stat. 999; and Department of Commerce Organization Order 10-4 (September 30, 1975) as amended (40 FR 56702, as amended at 40 FR 58878 and at 41 FR 35548.)

Effective date: This amendment becomes effective on October 14, 1976.

NOTE.—The Economic Development Administration has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular No. A-107.

Dated: October 8, 1976

JOHN W. EDEN,
Assistant Secretary for Economic Development.

THURSDAY, OCTOBER 14, 1976

PART V:

POSTAL SERVICE

■

PRIVACY ACT OF 1974

Systems of Records

V41200 OCT 14 76 UMI

POSTAL SERVICE
PRIVACY OF INFORMATION
Systems of Records

The primary purpose of this document is to publish the annual notice under 5 U.S.C 552a(e)(4) of the systems of records, as defined in the Privacy Act of 1974, Pub L No 93-579, which are maintained by the Postal Service. In the interests of providing complete, current information to the public in an easily accessible format, this document also provides final notice of several previously proposed changes in Postal Service systems of records These changes include the establishment of a new system of records, the modification of two previously established systems of records, the deletion of a superseded system of records, and the expansion of a routine use of a system of records This document also makes editorial corrections and revisions in the notices of several previously identified systems of records

Postal Service regulations concerning the privacy of information, 39 C.F.R Part 266, were published in the Federal Register on October 2, 1975 (40 FR 45721), and amended in minor respects on June 18, 1976 (41 FR 24709) Those Postal Service systems of records which are exempt from certain provisions of the Privacy Act are listed in 39 C.F.R 266.9(b)

ANNUAL NOTICE OF SYSTEMS OF RECORDS

The following points are relevant to the annual notice of Postal Service systems of records provided in this document:

a All systems containing contract records, as well as other legal records relating to those contracts, are considered business records by the Postal Service, rather than systems of personal records, as that term is defined in the Privacy Act. Accordingly, these systems are not listed

b All Postal Service records described in this list are subject to:

(1) The subpoena of a court of competent jurisdiction;

(2) Review by Congress or its representatives upon request;

(3) Audit by Postal Inspectors to insure that Postal Service managers are maintaining their systems of records in accordance with the requirements of the Privacy Act;

(4) Storage at GSA Federal Records Centers when the records become inactive, before destruction.

c The "routine use" portion of each system notice contains, as the first item, the system "purpose" The "purpose" is included to provide clarity and promote understanding of the system by the layman It may be defined as that activity performed by those officers and employees of the Postal Service who have a need for component records of the system in the performance of their duties Disclosure accounting is not maintained by the Postal Service for any activity listed as a "purpose"

NOTICE OF ADDITIONAL SYSTEM OF RECORDS

On May 13, 1976, the Postal Service published for comment in the Federal Register (41 FR 19924) initial notice of its intention to establish a new system of records One public comment was received after the time for comment had expired. In addition to being late this comment was irrelevant to the privacy impact of the proposed system Accordingly, after a review of the proposed text, the Postal Service has determined to make final. effective immediately its previously published notice of the existence and character of this system USPS 130.040, Philately—Philatelic Product Sales and Distribution This document constitutes final notice of the existence and character of this system, which appears in the list of Postal Service systems of records published at the end of this document.

MODIFICATION OF SYSTEMS OF RECORDS DELETION OF SUPERSEDED SYSTEM

On July 30, 1976, the Postal Service published for comment in the Federal Register (41 FR 32203) initial notice of its intention to modify earlier inadequate descriptions of two Postal Service systems of records No adverse comments were received regarding these proposed modifications Accordingly, after a review of the proposed text, the Postal Service has determined to make final, effective immediately its previously published, modified notice of the existence and character of the following two systems.

(1) USPS 160.010, Special Mail Services—Registered Mail Inquiry for Delivery or Application for Indemnity,

(2) USPS 160.020, Special Mail Services—Request for Payment of Domestic Postal Insurance (Claim) Records.

This document constitutes final notice of the existence and character of these systems, which appear in the list of systems at the end of this document

The review of the operation of these two systems has further indicated that they supersede and make obsolete a third system of records, USPS 070.030. Inquiries and Complaints—Inquiry for Loss or Rifling of Mail Matter Tentative Postal Service notice regarding this system was published in the Federal Register on August 28 1975 (40 FR 39814). final notice. with amendments, on October 8 1975 (40 FR 47422, 47423), and notice of additional routine uses on January 15, 1975 (41 FR 2287), and March 26 1976 (41 FR 12840)

Accordingly Postal Service maintenance of system USPS 070.030 is no longer relevant and necessary to the accomplishment of a purpose of the Postal Service The Postal Service has therefore determined under 5 U.S.C 552a(e)(1) effective immediately. to delete this system from its list of systems of records This document constitutes final notice of this deletion, and former system USPS 070.030 does not appear in the list of systems at the end of this document.

ROUTINE USE OF SYSTEM OR RECORDS

On July 28, 1976, the Postal Service published for comment in the Federal Register (41 FR 31431) initial notice of its intention to expand a routine use of a system of records maintained by the Postal Service This system USPS 050.020 Finance Records—Payroll System, contains general payroll information pertaining to postal employees The Postal Service proposed to expand a routine use of this system to permit the Postal Service to furnish pertinent information to groups other than financial organizations such as charitable organizations, which receive salary allotments at the election of the employee No adverse comment was received regarding the proposed change Accordingly. after a review of the proposed text, the Postal Service has determined to make final, effective immediately, its previously published notice of the expanded routine use, which appears in the notice of system USPS 050.020 contained in the list of systems at the end of this document.

EDITORIAL CORRECTIONS AND REVISIONS

The Postal Service has also determined it is necessary to make certain editorial corrections and revisions to several systems of records. The editorial corrections and revisions, all of which have been incorporated into the list of systems at the end of this document, and none of which changes the general character or purpose of an affected system, are as follows:

USPS 010.030

System location: CHANGE TO READ, "District Offices, Sectional Centers, Post Offices, Postal Data Centers."

USPS 050.010

System location: CHANGE TO READ, "Postal Data Centers. Postal Service Personnel Offices."

Notification procedure: CHANGE TO READ, "Requests for information should be presented to employee's personnel officer furnishing name and social security number."

USPS 050.020

System location: CHANGE TO READ, "Payroll system records are located and maintained in all Departments, facilities and certain contractor sites of the Postal Service. However, Postal Data Centers are the main locations for payroll information "

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: CHANGE USE NUMBER 3 TO READ, "3 Unemployment Compensation Data—To reply to State Unemployment Offices at the request of separated USPS employees "

USPS 090.020

Notification procedure: CHANGE TO READ, "A customer wishing to know whether information about him is maintained in this system of records should address inquiries to the postmater of the office where a passport application was made. Inquiries should contain the full name and address of the customer."

USPS 110.010

Categories of records in the system: CHANGE TO READ, "Records controlling the issuance of accountable Postal Service property such as equipment, credentials, and controlled documents "

Retrievability: CHANGE TO READ, "Name of recipient of accountable property and types of equipment."

System manager(s) and address: CHANGE TO READ, "(1) Chief Postal Inspector, Headquarters; (2) APMG, Procurement and Supply Department Headquarters."

USPS 120.040

System name: CHANGE TO READ, "Personnel Records—Employee Job Bidding Records, 120.040."

System location: CHANGE TO READ, "Bidding system records are located and maintained in most Departments, facilities and certain contractor sites of the Postal Service."

System manager(s) and address: CHANGE TO READ, "APMG, Labor Relations Department, Headquarters."

USPS 120.070

System location: DELETE FROM LOCATION, "Civil Service Commission."

Notification procedure: ADD TO NOTIFICATION, "Former employees should submit requests to any Postal Service Personnel Officer, giving name, date of birth and social security number."

USPS 120.110

System location: CHANGE TO READ, "Post Offices/Facilities; Regional and National Headquarters."

Categories of individuals covered by the system: CHANGE TO READ, "Postal employees and applicants for employment."

Categories of records in the system: CHANGE TO READ, "Replies from character references; former employers and local police records."

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: CHANGE PURPOSE TO READ, "To determine suitability of employment."

Storage: CHANGE TO READ, "Information is maintained on preprinted forms and correspondence."

Retention and disposal: CHANGE TO READ, "Records are destroyed upon termination of employment if the employment is terminated before the end of the probationary period; or if the employee is retained beyond the probationary period, either at the end of the probationary period or upon receipt of the investigatory report from the Civil Service Commission—whichever comes later."

Record source categories: CHANGE TO READ, "Information is obtained from local police records, former employers, and character references."

USPS 120.120

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: DELETE USE NUMBER 5.

USPS 120.140

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: CHANGE TO READ, "Purpose—Providing counselors with information to maintain caseload and follow-up counseling of individuals under Program. Used as a management data source for statistical reporting on the Program. DELETE FROM USE, "1. Used as a management data source for statistical reporting on the Program."

USPS 120.190

Categories of records in the system: CHANGE TO READ, "Records consist primarily of summaries or extractions from the following other personnel systems: 120.036, 120.070, 120.150, 120.180, 120.210. In addition, records may consist of other Postal Service documents."

USPS 150.010

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: DELETE USE NUMBER 1.

System manager(s) and address: CHANGE TO READ, "Postal Service Records Officer, Headquarters.

USPS 150.020

System name: DELETE FROM NAME, "(Proposed System)"

Records Officer
U.S. Postal Service
Washington, DC 20260

Roger P. Craig,
Deputy General Counsel.

USPS 010.010

System name: Collection and Delivery Records—Address Change and Mail Forwarding Records, 010.010

System location: Post Offices.

Categories of individuals covered by the system: Postal customers requesting mail forwarding services from their local postal facilities.

Categories of records in the system: Records contain customer name, old address, new mailing address, mail forwarding instructions, effective date, information as to whether the move is permanent or temporary and the customer's signature.

Authority for maintenance of the system: 39 USC 403, 404.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To provide mail forwarding and address correction services to postal customers who have changed address. Use—

1. Records about any named individual are made available to any member of public upon request.

2. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

3. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

4. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its request when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appropriate bargaining unit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: The source document is stored in filing cabinets at the delivery unit. They are filed alphabetically by name within month or quarter. Records generated from the source document are stored on cards or list forms or recorded on magnetic tape where central markup is computerized. These records are filed alphabetically by name and route number or zone.

Retrievability: This system of records is indexed by name and address. Information may be retrieved by route number or ZIP Code where a computerized system is in use.

Safeguards: Access to and use of these records are limited to those persons whose official duties require such access.

Retention and disposal:

a. Source document is retained for two years from the effective date while related documents are retained one year. All records are disposed of by shredding or burning.

b. Information on magnetic tape is retained one year from the effective date and the tapes are erased.

System manager(s) and address: APMG, Delivery Service Department, Headquarters.

Notification procedure: Customers wishing to know whether information about them is maintained in this system of records should address inquiries to their local postmaster. Inquiries should contain full name and address, effective date of change order, route number (if known) and ZIP Code.

Record access procedures: See NOTIFICATION above.

Contesting record procedures: See NOTIFICATION above.

Record source categories: The individual to whom the record pertains.

USPS 010.020

System name: Collection and Delivery Records—Boxholder Records, 010.020

System location: Post Offices

V41200 OCT 14 76 UMI

Categories of individuals covered by the system: Postal customers who have applied for lockbox or caller service, whether for private or public purposes.

Categories of records in the system: Records are in card form and contain names, addresses, a record of payments, and the names of persons or agents whether family members or business associates or employees.

Authority for maintenance of the system: 39 USC 403, 404

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To provide post office box services to postal patrons.

Use—

1. To refer, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, to the appropriate agency, whether Federal, State, or local, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto.
2. Disclosed to Federal, State and local government agencies for use in connection with official business.
3. Disclosed to persons authorized by law to serve judicial process when necessary to serve process.
4. Disclosed to public when box is being used for purpose of doing or soliciting business with the public.
5. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its request when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appropriate bargaining unit.
6. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.
7. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information is stored on card form filed in metal file cabinets. In locations where the Joint Venture program exists, information may be found on magnetic tape, magnetic cards or mylar strips.

Retrievability: Information is filed according to local needs, and the volume of records. Billing forms are filed numerically by box number within month in which rent is due. Applications are filed alphabetically by name of individual or firm.

Safeguards: Access limited to employees working in the boxholder section.

Retention and disposal: a. Billing forms are destroyed by shredding two years after closeout of the last entry.

b. Boxholder applications are retained for two years after termination of the rental.

System manager(s) and address:

APMG, Customer Services Department, Headquarters
APMG, Finance Department, Headquarters
APMG, Rates & Classification Department, Headquarters

Notification procedure: Inquiries should be addressed to the local postmaster; requestors in person should identify themselves with drivers license, military, government or other form of identification.

Record access procedures: See "NOTIFICATION" above.

Contesting record procedures: See "NOTIFICATION" above.

Record source categories: The individual to whom the record pertains.

USPS 010.030

System name: Collection and Delivery Records—Carrier Drive-Out Agreements, 010.030

System location: District Offices, Sectional Centers, Post Offices, Postal Data Centers.

Categories of individuals covered by the system: Letter carriers who use privately owned vehicles to transport the mails pursuant to a valid agreement with the local postmaster.

Categories of records in the system: Information in these records contain Route Number, name and address of carrier, social security number and effective dates of the agreement.

Authority for maintenance of the system: 39 USC 1206.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To provide reimbursement to carriers driving their own vehicles.

Use—

1. Provide necessary tax information to Internal Revenue Service.
2. To refer, where there is an indication of a violation or potential violation of law, whether civil, criminal or regulatory in nature, to the appropriate agency, whether Federal, state or local, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto.
3. May be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.
4. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.
5. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.
6. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its request when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appropriate bargaining unit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information is contained on preprinted forms, magnetic tape and computer printout reports.

Retrievability: The system is indexed by employees' social security number, pay location number and pay period.

Safeguards: Normal precautions of filing equipment and limited access and the physical security measures of the computer facility.

Retention and disposal: Magnetic tape records are retained for two calendar years (January-December) and then deleted. Source forms are retained until a new or changed agreement and then destroyed by shredding or burning after one year.

System manager(s) and address: APMG, Delivery Services Department, Headquarters.

Notification procedure: A carrier wishing to know if there is information in this system of records concerning him should notify the post office worked of the pay periods the agreement was in force, the route worked, give his name and social security number.

Record access procedures: See NOTIFICATION above.

Contesting record procedures: See NOTIFICATION above.

Record source categories: The individual to whom the record pertains.

USPS 010.040

System name: Collection and Delivery Records—City Carrier Route Records, 010.040

System location: Delivery Services Department, Headquarters, Regional Headquarters, Sectional Centers, Automatic Data Processing Centers, District Offices, Post Offices, and Postal Data Centers.

Categories of individuals covered by the system: Letter carriers, substitute carriers and flexible employees.

Categories of records in the system: Employee name, route number, age, length of service, leave time and whether or not a transportation agreement exists. It also includes information pertaining to workload, work schedule, performance analysis and individuals work habits. Inspection reports of employees, workload, and workload adjustments. Employee and examiners comments on route adjustments and inspection.

Authority for maintenance of the system: 39 USC 403, 404

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To assist management in evaluating mail delivery and collection operations and administering these functions efficiently.

Use—

1. To refer, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, to the appropriate agency, whether Federal, state, or local charged with the responsibility of investigating or prosecuting such violation

or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto.
2. May be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.
3. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.
4. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court of administrative body.
5. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its request when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appropriate bargaining unit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information is contained on printed forms, computer tape, or computer printouts.

Retrievability: The system is indexed by route number, employee name, or postal facility name.

Safeguards: Access to and use of these records are limited to those persons whose official duties require such access.

Retention and disposal: a. Route inspection records are retained for two years where inspections are made annually or more frequently, and for five years where inspections are made less than annually. Disposal of records is by shredding or burning. b. Other records in system are retained for a period of up to one year depending upon the criticality of the information and then destroyed by shredding or burning.

System manager(s) and address: APMG, Delivery Services Department, Headquarters.

Notification procedure: Inquiries should contain employees name and social security number, specify the type of information being requested, and forwarded to post office where employed.

Record access procedures: See NOTIFICATION above.

Contesting record procedures: See NOTIFICATION above.

Record source categories: From employees, carrier supervisors, and route inspectors.

USPS 010.050

System name: Collection and Delivery Records—Delivery of Mail Through Agents, 010.050

System location: Sectional Centers, Post Offices

Categories of individuals covered by the system: Postal customer requesting delivery of mail through an agent and the agent to whom the mail is to be delivered.

Categories of records in the system: Records contain the name and address of customer, name and address of agent and the signatures of both parties.

Authority for maintenance of the system: 39 USC, 403, 404

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—It serves as the written authority for the delivery of mail other than as addressed.

Use—

1. To refer, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, to the appropriate agency, whether Federal, State, or local, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto.
2. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its request when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appropriate bargaining unit.
3. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.
4. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are maintained in file cabinets on pre-printed forms.

Retrievability: Forms are filed by customer name.

Safeguards: Access is limited to postal employees in the delivery section.

Retention and disposal: Records are maintained until contract is terminated then destroyed by shredding.

System manager(s) and address: APMG, Customer Services Department, Headquarters

Notification procedure: Submit to local postmaster proof of personal identity and name.

Record access procedures: See "NOTIFICATION" above.

Contesting record procedures: See "NOTIFICATION" above.

Record source categories: Co-signers of the request for delivery of mail through an agent.

USPS 010.070

System name: Collection and Delivery Records—Mailbox Irregularities, 010.070

System location: District Offices, Sectional Centers, Post Offices

Categories of individuals covered by the system: Postal Service customers whose mailbox does not comply with USPS standards and regulations.

Categories of records in the system: Information consists of the reports of irregularities as submitted by the carrier or route inspector, the name and address of customer and the date and signature of the postmaster.

Authority for maintenance of the system: 39 USC, 403,404

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To provide for the efficient delivery of the mail.

Use—

1. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its request when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appropriate bargaining unit.
2. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.
3. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information is recorded on pre-printed forms.

Retrievability: Information is organized around route number.

Safeguards: File in cabinets and access is limited to those USPS personnel having a working requirement.

Retention and disposal: Retained for one year after completed action and destroyed by shredding or burning.

System manager(s) and address: APMG, Delivery Services Department, Headquarters

Notification procedure: Information may be obtained from the local postmaster, by presenting identification as to name and address and zip code.

Record access procedures: Make request of the local postmaster.

Contesting record procedures: Make request of the local postmaster.

Record source categories: Carrier or route inspector.

USPS 010.080

System name: Collection and Delivery Records—Rural Carrier Routes, 010.080

System location: Post Offices having rural carrier operations; Delivery Services Department, Sectional Centers; Regions; Districts; Postal Data Centers.

Categories of individuals covered by the system: Postal customers receiving rural mail delivery services, and rural carriers, substitute carriers and flexible employees.

Categories of records in the system: Records contained in this system are: Employee workload, work schedule and performance analysis. Inspection reports of employees, workload and workload adjustments, route travel description, employee and examiners'

V41N200 OCT 14 76 UMI

comments on adjustments and inspection. Employee name, route number, age, length of service, physical condition, quality of service and vehicle adequacy. Customer addresses and names of persons at address location (some rural routes only)

Authority for maintenance of the system: 39 USC 403, 404

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To assist management in evaluating rural mail delivery and collection operations and administering these functions efficiently and provide basis for payment of salary and vehicle maintenance allowance carriers.

Use—

1. Provide Bureau of the Census, Department of Commerce address information as requested to assist them in their statutory requirement of census taking.
2. To refer, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, to the appropriate agency whether Federal, state, or local, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto.
3. May be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.
4. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.
5. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.
6. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its reguest when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appopriate bargaining unit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Preprinted forms or lists in ordinary file equipment or on computer tape and printouts.

Retrievability: Records are maintained by name and address of customer, and by route number, employee name or postal facility name.

Safeguards: Access to and use of these records are limited to those persons whose official duties require such access.

Retention and disposal: a. Records in card or list form are maintained as long as the customer resides on the route; they are destroyed by shredding one year after the customer moves. b. Route travel description records, and establishment and discontinuance orders are retained until route is discontinued and then transferred to the Federal Records Center within two years after discontinuance date. c. Trip reports are retained for three years and then disposed of by shredding or burning. d. Route inspection reports and mail count records (mail counts made annually or more frequently) are retained for two years. Where mail counts are made less than annually records are retained until the next mail counts. Disposal of records is by shredding or burning. e. Other carrier records in system are retained for a period of up to one year depending upon the criticality of the information and then destroyed by shredding or burning.

System manager(s) and address: APMG, Delivery Services Department, Headquarters.

Notification procedure: Customers wishing to know whether information about them is maintained in this system of records should address inquiries to their local postmaster. Inquiries should contain full name and address. Employee inquiries should state employee name and social security number, route number, specify the type of information being requested, and forward to post office where employed.

Record access procedures: See NOTIFICATION above.

Contesting record procedures: See NOTIFICATION above.

Record source categories: The customer to whom the record pertains and from employees, carrier supervisors and route inspectors.

USPS 020.010

System name: Communications (Public Relations)—Biographical Summaries of Management Personnel for Press Release, 020.010

System location: Office of Public and Media Relations, Headquarters

Office of Communications and Public Affairs, Regional Headquarters

Categories of individuals covered by the system: USPS executives, directors and managers to include regional staff officers, division directors, district managers, sectional center managers and other key management officials who may have frequent contact with news media or public speaking engagements.

Categories of records in the system: Biographical summaries on sheets of paper plus photographs. Summaries include information as to present title and responsibility, length of service, age, place of birth, marital status and participation in local community activities.

Authority for maintenance of the system: 39 USC, 401, 1001

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose and Routine

Use—

1. To provide the public with background information on postal management personnel in connection with public relations matters such as speaking engagements, media appearances, appearances before civic, fraternal and employee organizations.
2. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.
3. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information is maintained on regular bond paper in file cabinets.

Retrievability: Information is filed by name and title.

Safeguards: File cabinets are located in communications offices where information is available only to individuals having a need for access.

Retention and disposal: a. Biographical sketches maintained at regions are retained while the individual is assigned within the region. If individual is promoted to or assigned to a position within the USPS outside the Region, biographical information is forwarded to the appropriate Public Affairs office; if employment with the USPS is terminated, the sketch is destroyed by shredding.

b. Biographical sketches maintained at USPS, Washington, DC, are retained indefinitely.

System manager(s) and address: APMG, Employee and Public Communications, Headquarters

Notification procedure: Inquiries should contain name and position held and presented to the Manager of Communications and Public Affairs where currently, or previously, employed.

Record access procedures: See "NOTIFICATION" above.

Contesting record procedures: See "NOTIFICATION" above.

Record source categories: The individual to whom the record pertains.

USPS 020.020

System name: Communications (Public Relations)—Children's Art Contest, 020.020

System location: Customer Services Department, Headquarters

Categories of individuals covered by the system: Children of USPS employees who participated in the Children's Art Contest.

Categories of records in the system: Records contain the child's name, address, age, school and the signature of one parent.

Authority for maintenance of the system: Public Law 93-179

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To administer the Children's Art Program.

Use—

1. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.
2. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Stored in filing equipment, information is contained on an application form.

Retrievability: Records are maintained by contestant name within state.

Safeguards: Normal physical security with access limited to members of the Children's Art Program.

Retention and disposal: Maintained until audited by the Inspection Service, then destroyed by shredding.

System manager(s) and address: APMG, Customer Services Department, Headquarters

Notification procedure: Inquiries should be addressed as above, providing individual's name and state.

Record access procedures: See SYSTEM MANAGER above.

Contesting record procedures: See SYSTEM MANAGER above.

Record source categories: The individual to whom the record pertains.

USPS 020.030

System name: Communications (Public Relations)—School Mailing Lists

System location: Customer Services Department, Headquarters

Categories of individuals covered by the system: School principals and teachers of the participating schools in the various USPS educational material mailing programs.

Categories of records in the system: Principal's name or teacher's name, school and address.

Authority for maintenance of the system: 39 USC. 403, 404

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To mail educational material.

Use—

1. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.
2. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Magnetic tape and typed or handwritten forms.

Retrievability: Zip Code, Principal or teacher name, school name.

Safeguards: Normal USPS physical security

Retention and disposal: During length of program—3 years then destroyed by shredding or burning.

System manager(s) and address: APMG, Customer Services Department, Headquarters.

Notification procedure: Inquiries should be addressed to the SYSTEM MANAGER shown above providing the name and Zip Code.

Record access procedures: See NOTIFICATION above.

Contesting record procedures: See NOTIFICATION above.

Record source categories: Information mail-out to principals and teachers.

USPS 030.010

System name: Equal Employment Opportunity-EEO Discrimination Complaint Investigations, 030.010

System location: Office of Equal Employment Compliance, Employee Relations, Headquarters; EEO Office at Regions, Post Offices, Sectional Centers, Bulk Mail Centers, Automatic Data Processing Centers and Postal Data Centers.

Categories of individuals covered by the system: Current and former postal employees, applicants for positions within the USPS and third party complainants.

Categories of records in the system: Records contain names, work locations, dates, Social Security Numbers, and other information as included on affidavits, interviews and investigative forms.

Authority for maintenance of the system: Public Law 92-261, Equal Employment Act of 1972; Executive Order 11478.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—Used by EEO officers and Civil Service Commission to adjudicate complaints of alleged discrimination.

Use—

1. Disclosed by USPS to U.S. Civil Service Commission to adjudicate complaints of alleged discriminations.
2. Disclosed to courts and counsel in the event of litigation.
3. May be disclosed to the Office of Management and Budget in connection with the review of private relief investigation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.
4. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its request when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appropriate bargaining unit.
5. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.
6. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information is maintained in letter form from complainants, affidavits, interviews and investigative forms.

Retrievability: Files are accessed by case number, the custodian must also be furnished with the name of the complainant and the place where the complaint was filed. Case number consists of the last two digits of the year with case in chronological sequence.

Safeguards: Information is maintained in file cabinets in locked rooms.

Retention and disposal: Current files are purged quarterly and sent to local storage where they are retained indefinitely.

System manager(s) and address: APMG, Employee Relations Department, Headquarters

Notification procedure: Individuals interested in finding out if there is information in this records system pertaining to them should contact EEO officers at the Region or Headquarters level, giving complainant name, postal location, region, file number and year.

Record access procedures: See "NOTIFICATION" above.

Contesting record procedures: See "NOTIFICATION" above.

Record source categories: Information is received from the complainant, respondent and from investigations and interviews.

Systems exempted from certain provisions of the act: Reference 39 CFR 266.9 for details.

USPS 030.020

System name: Equal Employment Opportunity—Equal Employment Opportunity Staff Selection Records, 030.020

System location: Employee Relations Department, Headquarters, Regional Headquarters, Federal Records Centers

Categories of individuals covered by the system: Candidates considered by Promotion Boards for EEO staff position.

Categories of records in the system: Name of candidate, level, address, service computation date, date of birth, Social Security Number, postal background, personal information required to assess employee qualifications for position, estimate of potential and record of members of Board.

Authority for maintenance of the system: 39 USC 1001, Executive Orders 11478 and 11590

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To provide Headquarters with information needed to complete selection process.

Use—

1. USPS Promotion Board reviews these records to determine applicant's eligibility for appointment.
2. May be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.
3. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its request when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appropriate bargaining unit.
4. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

V 41 200 OCT 14 76 UMI

5. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Forms, paper files.

Retrievability: Name of applicant and pay location.

Safeguards: Maintained in locked file cabinets within secured facility.

Retention and disposal: Records are transferred to the Federal Records Center and maintained indefinitely.

System manager(s) and address: APMG, Employee Relations Department, Headquarters

Notification procedure: Inquiries should be addressed to the head of the facility where application was made. Inquiries should contain full name, position applied for, the date the Promotion Board met and Social Security Number.

Record access procedures: See "NOTIFICATION" above.

Contesting record procedures: See "NOTIFICATION" above.

Record source categories: Employee, and employee personnel data.

USPS 040.010

System name: Customer Programs—Memo to Mailers Address File, 040.010

System location: USPS Headquarters, Customer Services Department

Categories of individuals covered by the system: Subscribers to Memo to Mailers monthly newsletter.

Categories of records in the system: Subscribers' mailing addresses and status of membership in Postal Customers Councils.

Authority for maintenance of the system: 39 USC 403, 404

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To prepare mailing labels for the monthly mailing of Memo to Mailers.

Use—

Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Magnetic tape and computer printout.

Retrievability: Records are maintained by subscriber's name, city, state and ZIP Code.

Safeguards: The list contractor is forbidden by contract to use the list for any other means than to produce mailing labels for the U.S. Postal Service.

Retention and disposal: The master file is maintained indefinitely, and is updated each month.

System manager(s) and address: APMG, Customer Services Department, Headquarters

Notification procedure: Persons wishing to know whether information about them is maintained in this system of records should address inquiries to the SYSTEM MANAGER and supply their name and address.

Record access procedures: See "SYSTEM MANAGER" above.

Contesting record procedures: See "SYSTEM MANAGER" above.

Record source categories: Subscribers, Postmasters, USPS Customer Service Representatives.

USPS 040.020

System name: Customer Programs—Sexually Oriented Advertisements, 040.020

System location: Rates and Classification Department, Headquarters; Postal Data Center, Headquarters; Postal Data Center, New York; Postal Inspector-In-Charge NYC and Los Angeles, CA.

Categories of individuals covered by the system: Any adult who elects to have his name and address and that of his children under 19 years of age, placed on the list of persons who do not wish to receive sexually oriented advertisements through the mail.

Categories of records in the system: Records contain the name and address of head of household or other adult, the names and birth dates of children under 19 years of age.

Authority for maintenance of the system: 39 USC, Section 3010

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To maintain a list, available to mailers of sexually oriented advertisements, of persons desiring not to receive such matter through the mails.

Use—

1. Upon payment of prescribed fee, provide mailers of sexually oriented advertisements a list of individuals who do not wish to receive SOA.

2. To refer, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, to the appropriate agency, whether Federal, State, or local, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto.

3. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

4. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information is stored on magnetic tape, computer printouts microfiche cards and preprinted forms.

Retrievability: Information is stored in ZIP Code sequence and in application number sequence.

Safeguards: Printouts and microfiche are retained by the Office of Mail Classification and Postal Inspection Service; hard copy is maintained in file cabinets at Headquarters with limited access.

Retention and disposal: a. Names are retained on the computerized list for a maximum of five years as prescribed by law.

b. Forms, printouts and microfiche are retained indefinitely.

c. Any records that are to be destroyed are shredded.

System manager(s) and address: APMG, Rates & Classification Department, Headquarters

Notification procedure: Customers will furnish the system manager their name, address, application number and the date of filing.

Record access procedures: See "NOTIFICATION" above.

Contesting record procedures: See "NOTIFICATION" above.

Record source categories: Customers filing to have their names placed on lists so as not to receive SOA.

USPS 050.005

System name: Finance Records—Accounts Receivable File Maintenance, 050.005

System location: Postal Data Centers

Categories of individuals covered by the system: USPS Vehicle Operators and private individuals responsible for damages to postal vehicles.

Categories of records in the system: Invoice number, location name, Social Security Number, employee name, designation code.

Authority for maintenance of the system: 39 USC 401

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To monitor and record collections made by the USPS.

Use—

1. To refer, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, to the appropriate agency, whether Federal, State, or local, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto.

2. May be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

3. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its request when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appropriate bargaining unit.

4. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

5. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are maintained on printed forms, punched cards and magnetic tapes.

Retrievability: Records are indexed by name of employee and his Social Security Number.

Safeguards: Authorization is limited to personnel of the General Accounting section. Computerized records are subject to the security of the computer room.

Retention and disposal: All information is retained for four years after claim is payed and then destroyed by burning or scratched.

System manager(s) and address: APMG, Finance Department, Headquarters

Notification procedure: Individuals requesting information from this system of records will apply to the pertinent postal facility and present the debtor's name and Social Security Number.

Record access procedures: See "NOTIFICATION" above.

Contesting record procedures: See "NOTIFICATION" above.

Record source categories: Information is passed to this system from the Payroll Section, General Accounting Section, Claims Section, and Postmasters and Regional Offices.

USPS 050.010

System name: Finance Records—Employee Travel Records (Accounts Payable), 050.010

System location: Postal Data Centers, Postal Service Personnel Offices.

Categories of individuals covered by the system: USPS Employees on official travel.

Categories of records in the system: Travel vouchers and travel advances containing employee name, social security number, Finance Number basic travel information and relocation data.

Authority for maintenance of the system: 39 USC 1001, 2008

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—Reimburse Employees for official travel.

Use—

1. To refer, where there is an indication of a violation or potential violation of law, whether civil. agency, whether Federal, State, or local, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto.

2. May be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

3. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its request when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appropriate bargaining unit.

4. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

5. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information is stored on pre-printed forms and magnetic tape.

Retrievability: Information is indexed by social security number.

Safeguards: Access is subject to computer center access control.

Retention and disposal: Retained four years after payment and destroyed by burning or magnetic tape by scratching and reuse.

System manager(s) and address: APMG, Finance Department, Headquarters.

Notification procedure: Requests for information should be presented to Employee's Personnel Officer, furnishing name and social security number.

Record access procedures: See NOTIFICATION above.

Contesting record procedures: See NOTIFICATION above.

Record source categories: Information is received from the employee filing a voucher.

USPS 050.020

System name: Finance Records—Payroll System, 050.020

System location: Payroll system records are located and maintained in all Departments, facilities and certain contractor sites of the Postal Service. However, Postal Data Centers are the main locations for payroll information.

Categories of individuals covered by the system: USPS Employees.

Categories of records in the system: Records contain general payroll information including retirement deductions, family compensations, benefit deductions, accounts receivable, union dues, leave data, tax withholding, allowances, FICA taxes, salary, name, social security number, payments to financial organizations, dates of appointment or status changes, designation codes, position titles, occupation code, addresses, records of attendance, and other relevant payroll information.

Authority for maintenance of the system: 39 USC 401, 1003, 5 USC 8339

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—

1. Information within the system is for handling all necessary payroll functions and for use by employee supervisors for the performance of their managerial duties.

2. To provide information to USPS Management and executive personnel for use in selection decisions and evaluation of training effectiveness. These records are examined by the Selection Committee and Regional Postmasters General.

3. To compile various lists and mailing lists, i.e., Postal Leader, Women's Programs Newsletter, etc.

4. To support USPS Personnel Programs such as Executive Leadership, Nonbargaining Position Evaluations, Evaluations of Probationary Employees, Merit Evaluations, Membership and Identification Listings, Emergency Locator Listings, Mailing Lists, Women's Programs and analysis of employees in various salary ranges.

Use—

1. Retirement Deduction—To transmit to the Civil Service Commission a roster of all USPS employees under Title 5 USC, Section 8334, along with a check.

2. Tax withholdings—To disclose to State and local government agencies having taxing authority pertinent records, relating to individual employees, including name, home address, social security account number (in accordance with Section 7 of Pub. L. No. 93-579) and wages and taxes withheld for other jurisdictions.

3. Unemployment Compensation Data—To reply to State Unemployment Offices at the request of separated USPS employees.

4. Employee Address File—For W-2 tax mailings and Postal mailing such as Postal Life, Postal Leaders, etc.

5. Salary payments and allotments to financial organizations—To provide pertinent information to organizations receiving salary payments or allotments as elected by the employee.

6. FI (SS Tax) Deduction—To SS Administration as record of earnings under the SS Act for all casual employees not under retirement.

7. Information from these records may be stored at emergency record centers.

8. Determine eligibility for coverage and payment of benefits under the Civil Service Retirement System, the Federal Employees' Group Life Insurance Program and the Federal Employees Health Benefits Program and transfer related records as appropriate.

9. Determine the amount of benefit due under the Civil Service Retirement System, the Federal Employees' Group Life Insurance Program and the Federal Employees Health Benefits Program and authorizing payment of that amount and transfer related records as appropriate.

10. Transfer to Office of Workers' Compensation Program, Veterans Administration Pension Benefits Program, Social Security Old Age, Survivor and Disability Insurance and Medicare Programs, military retired pay programs, and Federal Civilian employee retirement systems other than the Civil Service Retirement System, when requested by that program or system or by the in-

V41200 OCT 14 76 UMI

dividual covered by this system of records, for use in determining an individual's claim for benefits under such system.

11. Transfer earnings information under the Civil Service Retirement System to the Internal Revenue Service as requested by the Internal Revenue Code of 1954, as amended.

12. Transfer information necessary to support a claim for life insurance benefits under the Federal Employees' Group Life Insurance, 4 East 24th Street, New York, NY 10010.

13. Transfer information necessary to support a claim for health insurance benefits under the Federal Employees Health Benefits Program to a health insurance carrier or plan participating in the program.

14. To refer, where there is an indication of a violation or potential violation of law, whether civil, criminal or regulatory in nature to the appropriate agency whether Federal, State, or local, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

15. To request information from a Federal, state or local agency maintaining civil, criminal, or other relevant enforcement or other pertinent information, such as licenses, if necessary to obtain relevant information to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

16. As a data source for management information for production of summary descriptive statistics and analytical studies in support of the function for which the records are collected and maintained, or for related personnel management functions or manpower studies; may also be utilized to respond to general requests for statistical information (without personal identification of individuals) under the Freedom of Information Act or to locate specific individuals for personnel research or other personnel management functions.

17. May be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

18. Certain information pertaining to Postal Supervisors may be transferred to the National Association of Postal Supervisors.

19. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

20. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

21. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its request when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appropriate bargaining unit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Preprinted forms, magnetic tape, microforms, punched cards, computer reports and card forms.

Retrievability: These records are organized by location, name and social security number.

Safeguards: Records are contained in locked filing cabinets; are also protected by computer passwords and tape library physical security.

Retention and disposal: Records are retained and updated throughout employment with the Postal Service. Upon separation records become historical data, this data is retained at the local site for two years then forwarded to the Federal Records Center nearest the pay location.

System manager(s) and address: APMG, Finance Department, Headquarters.

Notification procedure: Request for information on this system of records should be made to the head of the facility where employed, giving full name and social security number. Headquarters employees should submit requests to the System Manager.

Record access procedures: See NOTIFICATION above.

Contesting record procedures: See NOTIFICATION above.

Record source categories: Information is furnished by employees, supervisors and the Postal Source Data System.

USPS 050.040

System name: Finance Records—Uniform Allowance Program, 050.040

System location: Postal Data Center, St. Louis, MO 63180

Categories of individuals covered by the system: USPS Employees entitled to uniform allowances.

Categories of records in the system: Information in this system of records consists of name, social security number, designation code, and pay location.

Authority for maintenance of the system: 39 USC 1206

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To fund the procurement of uniforms.

Use—

1. Information may be furnished to employee organizations in the event of complaints or grievance on the part of an employee.

2. To refer, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, to the appropriate agency, whether Federal, State, or local, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto.

3. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its request when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appropriate bargaining unit.

4. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

5. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information is maintained on preprinted forms, microfilm and magnetic tape.

Retrievability: System of records is indexed by Social Security Number.

Safeguards: Forms are kept in file cabinets and magnetic tape and microfilm is subject to Computer Center access control.

Retention and disposal: a. The Uniform Allowance Payment Record Card is destroyed by shredding 90 days after payment.

b. Pay listing information is retained for 12 years and then destroyed by shredding or burning.

System manager(s) and address: APMG, Finance Department, Headquarters.

Notification procedure: Correspond with the head of the facility where employed, furnishing name and Social Security Number.

Record access procedures: See "NOTIFICATION" above.

Contesting record procedures: See "NOTIFICATION" above.

Record source categories: Payroll system and Postmasters have input to this system of records.

USPS 060.010

System name: Fraud and False Representation Records—Consumer Protection Case Records, 060.010

System location: Consumer Protection Office, Law Department, USPS Headquarters.

Categories of individuals covered by the system: Respondents in proceedings initiated pursuant to 39 USC subsection 3005; names of attorneys representing parties; assigned Postal Inspectors; and promoter of scheme.

Categories of records in the system: Describes and provides history of the above and identifies interested parties.

Authority for maintenance of the system: 39 USC subsection 3005.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—Ready reference source for determining status of pending case and identification of postal employees most familiar therewith.

Use—

1. To refer, where there is an indication of a violation or potential violation of law, whether civil, criminal or regulatory in nature, to the appropriate agency, whether Federal, state, or local, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto.

2. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its request when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appropriate bargaining unit.

3. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

4. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information in this system is maintained on printed forms.

Retrievability: Records are maintained by an alphabetic indexing by name of respondent.

Safeguards: Records are maintained in closed filing cabinets under general scrutiny by personnel of the Law Department.

Retention and disposal: Records in this system are maintained indefinitely.

System manager(s) and address: Assistant General Counsel, Consumer Protection Office, Law Department, USPS Headquarters.

Notification procedure: Customers wishing to know whether information about them is maintained in this system of records should address inquiries to the above SYSTEM MANAGER. Inquiries should contain full name, name by which respondent in proceeding may have been designated; approximate time period in which proceedings may have been initiated.

Record access procedures: See SYSTEM MANAGER above.

Contesting record procedures: See SYSTEM MANAGER above.

Record source categories: Complaints, correspondence between parties involved and Postal Inspection Service investigative reports.

USPS 060.020

System name: Fraud and False Representation Records—Prohibitory Order, 060.020

System location: Consumer Protection, Law Department, Headquarters, Postal Service Centers, Regional Headquarters, Sectional Management Centers

Categories of individuals covered by the system: Persons requesting prohibitory orders, the mailers against whom such orders are issued.

Categories of records in the system: Applications for prohibitory orders, the mailing upon which request is predicated, the issued order and the registered mail receipt signed by mailer against whom order was issued.

Authority for maintenance of the system: 39 USC 3008

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To process request of an order to prohibit pandering advertisement and to determine whether violations of orders have occurred. Used by Consumer Protection Office and Regional Counsel to investigate violations of postal statutes.

Use—

1. To refer, where there is an indication of a violation or potential violation of law, whether civil, criminal or regulatory in nature, to the appropriate agency, whether Federal, State, or local, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto.

2. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

3. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information is maintained in letter form, handwritten and typed.

Retrievability: Data may be found by prohibitory order number or by name of person requesting order.

Safeguards: Records are maintained in closed filing cabinets.

Retention and disposal: Information is retained indefinitely.

System manager(s) and address: Assistant General Counsel, Consumer Protection Office, Law Department, Headquarters

Notification procedure: Name and address of person requesting prohibitory order should be furnished the SYSTEM MANAGER.

Record access procedures: See NOTIFICATION above.

Contesting record procedures: See NOTIFICATION above.

Record source categories: Persons requesting prohibitory orders.

USPS 070.010

System name: Inquiries and Complaints—Correspondence Files of the Postmaster General, 070.010.

System location: Office of the Postmaster General, USPS Headquarters.

Categories of individuals covered by the system: USPS employees and Postal Service customers who have corresponded with the Office of the Postmaster General.

Categories of records in the system: General postal information.

Authority for maintenance of the system: 39 USC 401.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To maintain reference to letters from persons communicating with the Postmaster General.

Use—

1. Periodically transferred to custody of National Archives and Records Service (NARS) for keeping as historical documentation.

2. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its request when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appropriate bargaining unit.

3. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

4. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In original typed, printed, or handwritten form.

Retrievability: Records are filed by individual's name, chronologically by date and by subject.

Safeguards: Records are maintained in locked filing cabinets under scrutiny of PMG's secretary and in secured locked storage room with limited access.

Retention and disposal: Records are maintained indefinitely.

System manager(s) and address: Postmaster General, Headquarters.

Notification procedure: Inquiries should be addressed to the SYSTEM MANAGER above and should contain full name, date of letter, and subject.

Record access procedures: See SYSTEM MANAGER above.

Contesting record procedures: See SYSTEM MANAGER above.

Record source categories: Persons communicating with the Postmaster General.

USPS 070.020

System name: Inquiries and Complaints—Government Officials' Inquiry System, 070.020.

System location: Government Relations Dept., USPS Headquarters.

Categories of individuals covered by the system: Miscellaneous grouping of employees, former employees, applicants for employment, contractors, lessors, and customers who have written to non-postal Government officials.

Categories of records in the system: Miscellaneous information relating to all facts of operation which stems from correspondence described above.

Authority for maintenance of the system: 39 USC 401.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To provide USPS officials with the means of responding to inquiries from and/or for other government officials.

Use—

V 41 200 OCT 14 76 UMI

1. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its request when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appropriate bargaining unit.

2. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

3. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In original, typed, printed, or handwritten form.

Retrievability: Subject category as derived from correspondence and the inquiring official's name.

Safeguards: Records are maintained in closed file cabinets under general scrutiny of personnel of Government Relations Dept.

Retention and disposal: These records are maintained for four years and then destroyed by shredding.

System manager(s) and address: APMG, Government Relations Department, USPS Headquarters.

Notification procedure: Persons wishing to know whether information about them is maintained in this system of records should address inquiries to the above SYSTEM MANAGER. Inquiries should contain full name, the name of the Government official to whom he wrote, the nature of his inquiry, and the approximate date.

Record access procedures: See SYSTEM MANAGER above.

Contesting record procedures: See SYSTEM MANAGER above.

Record source categories: Non-postal Government officials.

USPS 070.040

System name: Inquiries and Complaints—Patrons Complaint Records, 070.040

System location: Consumer Advocate, USPS, Regional and National Headquarters, District Offices, Post Offices

Categories of individuals covered by the system: USPS customers who have initiated complaints against the USPS.

Categories of records in the system: The complainant's name, address, and nature of the specific complaint, and resolution of same.

Authority for maintenance of the system: 39 USC 403, 404

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To process USPS customer complaints regarding mail services.

Use—

1. To refer, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, to the appropriate agency, whether Federal, State, or local, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto.

2. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its request when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appropriate bargaining unit.

3. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

4. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Stored in file cabinets.

Retrievability: Complaints are filed chronologically and by name of complainant.

Safeguards: Records are maintained in closed filing cabinets.

Retention and disposal: These records are retained for a period of one year after the complaint has been satisfied.

System manager(s) and address: APMG, Customer Services Department, Headquarters

Notification procedure: Customers wishing to know whether information about them is maintained in this system of records should address inquiries to the same facility to which they submitted their complaint.

Record access procedures: See NOTIFICATION above.

Contesting record procedures: See NOTIFICATION above.

Record source categories: USPS customers.

USPS 080.010

System name: Inspection Requirements—Investigative File System, 080.010.

System location: Chief Postal Inspector, Headquarters, Inspection Service Regional Headquarters, Division Headquarters.

Categories of individuals covered by the system: Persons related to investigations, including subjects of investigations, complainants, informants, witnesses, etc.

Categories of records in the system: Reports of investigations conducted in criminal, civil, and personnel suitability background matters, and information in various forms received from individuals, other law enforcement agencies and from the public, including information compiled for the purpose of identifying criminal offenders and reports identifiable to individuals. Personal information in this system may include fingerprints, handwriting samples, reports of confidential informants, physical identifying data, voiceprints, polygraph tests, photographs, and individual personnel and payroll information.

Authority for maintenance of the system: 39 USC 404

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To provide information related to investigation of criminal matters; employee and contractor background investigations or other Inspection Service activities. Use—A record maintained in this system of records may be disseminated as a routine use of such records as follows:

1. In any case in which there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, the record in question may be disseminated to the appropriate Federal, state, local, or foreign agency charged with the responsibility for investigating or prosecuting such violation or charged with enforcing or implementing such law;

2. In the course of investigating the potential or actual violation of any law, whether civil, criminal, or regulatory in nature, or during the course of a trial or hearing or the preparation for a trail or hearing for such violation, a record may be disseminated to a Federal, state, local or foreign agency, or to an individual or organization, if there is reason to believe that such agency, individual or organization possesses information relating to the investigation, trial, or hearing and the dissemination is reasonably necessary to elicit such information or to obtain the cooperation of a witness or an informant.

3. A record relating to a case or matter may be disseminated to a Federal, state, or local administrative or regulatory proceeding or hearing in accordance with the procedures governing such proceeding or hearing;

4. A record relating to a case or matter may be disseminated in an aopropriate Federal, state, local or foreign court or grand jury proceeding in accordance with established constitutional, substantive, or procedural law or practice;

5. A record relating to a case or matter may be disseminated to an actual or potential party or his attorney for the purpose of negotiation or discussion on such matters as settlement of the case or matter, plea bargaining, or informal discovery proceedings;

6. A record relating to a case or matter that has been referred by an agency for investigation, prosecution, or enforcement, or that involves a case or matter within the jurisdiction of an agency, may be disseminated to such agency to notify the agency of the status of the case or matter or of any decision or determination that has been made, or to make such other inquiries and reports as are necessary during the processing of the case or matter;

7. A record relating to a person held in custody pending or during arraignment, trial, sentence, or extradition proceedings, or after conviction of after extradition proceeding; may be disseminated to a Federal, state, local or foreign prison, probation, parole, or pardon authority, or to any other agency or individual concerned with the maintenance, transportation or release of such a person;

8. A record relating to a case or matter may be disseminated to a foreign country pursuant to an international treaty or convention entered into and ratified by the United States or to an executive agreement;

9. A record may be disseminated to a Federal, state, local foreign or international law enforcement agency to assist in the general crime prevention and detection efforts of the recipient agency or to provide investigative leads to such agency;

10. A record may be disseminated to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance; the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant or other benefit by the requesting agency, to the extent that the information relates to the requesting agency's decision on the matter;

11. A record from this system may be disclosed to the public, news media, trade associations, or organized groups to provide information of interest to the public concerning the activities and the accomplishment of the Postal Service or its employees;

12. A record may be disseminated to a foreign country, through the United States Department of State or directly to the representative of such country, to the extent necessary to assist such country in apprehending and/or returning a fugitive to a jurisdiction which seeks his return.

13. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

14. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

15. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its request when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appropriate bargaining unit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information is collected on handwritten documents and located by computerized indexes.

Retrievability: Information is located by the name of the individual.

Safeguards: Investigative records are maintained in locked file cabinets, safes, or secured areas under the scrutiny of Inspection Service personnel who have been subjected to security clearance procedures. Access is further restricted by computer passwords.

Retention and disposal: Postal Service case records are maintained for 30 years. Noncriminal records are maintained for 5 to 30 years, depending on type. Exceptions may be granted in specific instances for indefinite retention. All records are destroyed by burning, pulping or shredding.

System manager(s) and address: Chief Postal Inspector, Headquarters.

Notification procedure: Persons wishing to know whether information about them is contained in this system of records or if they were the subject of an investigation should furnish the SYSTEM MANAGER sufficient identifying information to distinguish them from other individuals of like name; identifying data will include name, address, type investigation, dates, places and the individuals involvement.

Record access procedures: See NOTIFICATION above.

Contesting record procedures: See NOTIFICATION above.

Record source categories: Personal interviews, written inquiries, and other records concerning persons involved with an investigation, whether subjects, applicants, witnesses, references, or custodians of record information.

Systems exempted from certain provisions of the act: Reference 39 CFR 266.9 for details.

USPS 080.020

System name: Inspection Requirements—Mail Cover Program, 080.020

System location: USPS Inspection Service National and Regional Headquarters; Divisional Headquarters

Categories of individuals covered by the system: Individuals on whom a mail cover has been duly authorized to obtain information in the interest of (1) protecting the national security (2) locating a fugitive and (3) obtaining evidence of the commission or attempted commission of a crime which is punishable by imprisonment for a term exceeding one year.

Categories of records in the system: Names and addresses of individuals, inter-office memorandums, and correspondence with other agencies.

Authority for maintenance of the system: 39 USC 401, 404

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To investigate the commission or attempted commission of acts constituting a crime that is punishable by law.

Use—

1. Information from this system of records may be disclosed to an appropriate law enforcement agency, whether federal, state or local, charged by law with the responsibility for investigating, prosecuting or otherwise acting with respect to protecting the national security, locating a fugitive, or obtaining evidence of commission or attempted commission of a crime.

2. A record relating to a case or matter may be disseminated in an appropriate Federal, state, local, or foreign court or grand jury proceeding in accordance with established constitutional, substantive, or procedural law or practice.

3. A record relating to a case or matter may be disseminated to an actual or potential party or his attorney for the purpose of negotiation or discussion on such matters as settlement of the case or matter, plea bargaining, or informal discovery proceedings.

4. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

5. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Original typed documents and/or duplicate copies.

Retrievability: Subject's name filed alphabetically by Fiscal year.

Safeguards: Mail cover data is stored in locked cabinets or in a safe. Classified mail cover material and any mail cover data which involves national security is stored in a safe or in metal file cabinets equipped with either steel lockbar hasp and staple, or locking device and an approved three or more combination dial-type padlock from which the manufacturer's identification numbers have been obliterated.

Retention and disposal: Files and records pertaining to mail covers are retained for eight years, and older data is destroyed by shredding or burning.

System manager(s) and address: Chief Inspector, USPS Headquarters.

Notification procedure: Persons wishing to know whether information about them is maintained in this system of records should address inquiries to the above SYSTEM MANAGER. Inquiries should contain full name and current address, together with previous addresses for past eight years when applicable.

Record access procedures: See SYSTEM MANAGER above.

Contesting record procedures: See SYSTEM MANAGER above.

Record source categories: Correspondence from requesting authority and record of action taken upon that request.

Systems exempted from certain provisions of the act: Reference 39 C.F.R. 266.9 for details.

USPS 080.030

System name: Inspection Requirements—Vehicular Violations Record System, 080.030

System location: USPS National Headquarters (Procurement and Supply Department, Washington, DC 20260; Planning and New Development Department, Rockville, MD 20852). Inspection Service, Special Investigations Division, Washington, DC 20260 and Rockville, MD 20852, Division Headquarters at Washington, DC 20260, Denver, CO 80201; Seattle, WA 98111; Atlanta, GA 30302.

Categories of individuals covered by the system: Persons who have been issued courtesy violation notices or violation notices by Security Police Officers.

Categories of records in the system: Individual violator's name, state operator permit, state operator permit number, violation cited, date of citation, citation number issued, state automobile license tag number, dates of court appearances.

Authority for maintenance of the system: 40 USC 318, annually made applicable to the Postal Service by general provisions of the Treasury, Postal Service, and General Government Appropriations Act.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To provide

V41200 OCT 14 76 UMI

USPS management with information necessary for appropriate administrative remedial action. Use—

1. To provide information to local, state, and Federal enforcement, prosecutive and judicial officials.
2. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.
3. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In original, typed, printed or handwritten form.

Retrievability: Records filed by name or violator in alphabetical order and by automobile license tag number.

Safeguards: Records maintained in limited access Security Force Control Centers manned 24 hours and in National Headquarters, in locked filing cabinets in Procurement and Supply Department and Planning and New Development Department under general scrutinizing of authorized personnel.

Retention and disposal: Records are maintained for two years and then destroyed. Some records may be retained longer when required for law enforcement investigations or court proceeding.

System manager(s) and address: Chief Postal Inspector, USPS Headquarters.

Notification procedure: Individuals wishing to know whether information about them is maintained in this system of records should furnish name and residence address as follows:

a. For National Headquarters: Inspector in Charge, Special Investigations Division, 475 L'Enfant Plaza West, SW, Washington, DC 20260.
b. For the Field: Inspector in Charge, USPS with appropriate field division title and address as listed above under "System Location."

Record access procedures: See NOTIFICATION above.

Contesting record procedures: See NOTIFICATION above.

Record source categories: Individual violators, Security Police Officers, personnel observation, state motor vehicle registration bureaus, USPS Personnel Department, supervisory personnel of tenant firms, USPS Parking Control Officer, prosecutive and judicial officials; motor vehicle operators' permits, violator's personal identification cards, personnel locator listing and parking applications.

USPS 090.010

Categories of individuals covered by the system: Persons authorized to purchase food coupons.

Categories of records in the system: Name, address, and number of food coupons.

Authority for maintenance of the system: 39 USC 401, 411

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To provide local distrubution of food coupons authorized by the state governments listed in location above.

Use—

1. Transfer relevant records to the U. S. Department of Agriculture and to appropriate State or local administering authority.
2. To refer, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, to the appropriate agency, whether Federal, State, or local, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto.
3. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its request when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appropriate bargaining unit.
4. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.
5. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: These records are stored in file cabinets located in the Accounting Unit; some information is maintained on tape as well.

Retrievability: Name of purchaser and number of card issued by the State.

Safeguards: Records are maintained on secured premises in file cabinets.

Retention and disposal: Information in this system of records is maintained for thirty days and then returned to the State.

System manager(s) and address: APMG, Customer Services, Headquarters

Notification procedure: Customers wishing to know whether information about them is maintained in this system of records should address inquiries to their local postmaster. Inquiries should contain full name and upon location of the record purchasers will be required to produce the State-issued card authorizing purchase.

Record access procedures: See "NOTIFICATION" above.

Contesting record procedures: See "NOTIFICATION" above.

Record source categories: The State and purchasers of the food coupons.

USPS 090.020

System name: Non-Mail Services—Passport Application Records, 090.020

System location: 886 Post Offices in all states except New Jersey

Categories of individuals covered by the system: Persons applying for passports.

Categories of records in the system: Name, phone number, address, and services received.

Authority for maintenance of the system: 39 USC 401, 411, 22 USC 214

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To process the application of passports.

Use—

1. To refer, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, to the appropriate agency, whether Federal, State, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto.
2. Records may be transferred to the State Department.
3. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its request when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appropriate bargaining unit.
4. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.
5. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information in this system is maintained on printed forms in hard copy.

Retrievability: By name of applicant.

Safeguards: Information in this system of records is maintained in file cabinets in the Accounting Unit.

Retention and disposal: Information in this system is maintained for two years and destroyed by shredding.

System manager(s) and address: APMG, Customer Services Department, Headquarters

Notification procedure: A customer wishing to know whether information about him is maintained in this system of records should address inquiries to the postmaster of the office where a passport application was made. Inquiries should contain full name and address of customer.

Record access procedures: See "NOTIFICATION" above.

Contesting record procedures: See "NOTIFICATION" above.

Record source categories: Information in this system of records is obtained from the applicant.

USPS 090.030

System name: Non-Mail Service—U.S. Savings Bonds Application Record, 090.030

System location: Selected Post Offices throughout the United States where the Postal Service is the issuing agent.

Categories of individuals covered by the system: Persons applying for U. S. Savings Bonds to be issued in the names of natural persons in their own right only.

Categories of records in the system: Name and address, number of bonds applied for and total amount of purchase.

Authority for maintenance of the system: 39 USC 401, 411.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose—To process applications for U. S. Savings Bonds. Use—

1. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.
2. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.
3. To refer, where there is an indication of a violation or potential violator of law, whether civil, criminal, or regulatory in nature, to the appropriate agency, whether Federal, state, local or foreign charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto.
4. Records may be transferred to the Treasury Department.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information in this system is maintained on printed forms in hard copy.

Retrievability: By name of applicant.

Safeguards: Information in this system of records is maintained on secure premises in file cabinets.

Retention and disposal: Information in this system is maintained for two years and then destroyed.

System manager(s) and address: APMG, Finance Department.

Notification procedure: Customers wishing to know whether information about them is maintained in this system of records should address inquiries to the postmaster in whose facility the application was filed, inquiries should contain full name and address of customer.

Record access procedures: See NOTIFICATION above.

Contesting record procedures: See NOTIFICATION above.

Record source categories: Information in this system of record is obtained from the applicant.

USPS 100.010

System name: Office Administration—Carpool Coordination/Parking Records System, 100.010

System location: Employee Relations Department, Headquarters; PST&DI Centers, Procurement & Supply Department, Headquarters

Categories of individuals covered by the system: U. S. Postal Service employees at Headquarters and PST&DI Centers
